General Catalog 1985-1986, volume 72, San Diego State University, San Diego, California 92182.

Preparation of this catalog, completed in January of each year, is under the direction of the Associate Dean, Academic Services. The Catalog may be purchased, starting in May of each year, at the Aztec Shops on campus for $3.74 plus 6% sales tax, a price established by the Board of Trustees of The California State University. To order by mail, send $5.25 directly to Information Services, Student Resource and Information Center, San Diego State University, San Diego, CA 92182, or telephone (619) 229-2466.

Catalog photos by Reg Castro and Purcell Woodard of SDSU Learning Resource Center.

Cover photo: Pictured in the foreground is Hepner Hall, named in 1976 in honor of Walter R. Hepner who served as the third president of the institution, 1935-52. In the background is Hardy Memorial Tower, 1910-35.

# Academic Calendar 1985-86

## Summer Sessions, 1985
- **May 27:** Holiday—Memorial Day. Campus closed (no classes).
- **June 3-June 21:** Term A (3 weeks).
- **July 4:** Holiday—Independence Day. Campus closed (no classes).
- **June 24-August 2:** Term B (6 weeks).
- **June 24-July 26:** Term C (5 weeks).
- **August 5-August 23:** Term D (3 weeks).
- **June 3-July 12:** Term E (6 weeks).

## Fall Semester, 1985
- **August 1:** Holiday—Labor Day. Campus closed (no classes).
- **August 26:** Applications for admission or readmission to San Diego State University for the spring semester 1986 accepted. Applications are accepted after August 30 only until enrollment quotas are met.
- **September 2:** First day of classes.
- **September 3:** First day of classes.
- **September 3-6:** Schedule Adjustment Day.
- **September 16:** Last day to drop classes.
- **September 17:** Last day to drop classes.
- **September 20:** Last day to apply for leave of absence for fall semester.
- **September 23:** Last day to apply for leave of absence for fall semester.
- **September 23:** Last day to apply for leave of absence for fall semester.
- **November 1:** Last day to apply for leave of absence for fall semester.
- **November 28-30:** Thanksgiving recess (no classes).
- **December 12:** Last day of classes before winter recess.
- **December 13:** Final examinations.
- **December 14-21:** Final examinations.
- **December 20:** Final examinations.
- **December 22:** Holiday—Winter recess. Campus closed (no classes).
- **December 23-27:** Holiday—Winter recess. Campus closed (no classes).
- **December 30:** Last day for nonresident students to change residence for spring semester 1986.
- **January 1:** Holiday—Winter recess. Campus closed (no classes).

## Winter Session, 1986
- **January 6-24:** Winter session.

## Spring Semester, 1986
- **August 1:** Applications for admission or readmission to San Diego State University for the spring semester 1986 accepted. Applications are accepted after August 30 only until enrollment quotas are met.
- **January 17:** Last day to apply for a leave of absence for spring semester.
- **January 20:** Holiday—Martin Luther King's Birthday. Campus closed (no classes).
- **January 21:** First day, second semester.
- **January 21:** Schedule Adjustment Day.
- **January 21-22:** Walk-Through Registration.
- **January 23-24:** Testing and advising days.
- **January 27:** First day of classes.
- **January 27-30:** Late Registration.
- **February 7:** Last day to drop classes.
- **February 10:** Last day to apply for refunds.
- **February 10:** Applications for bachelor's degree for December 1986 graduation accepted.
- **February 14:** Last day to add classes or change grading basis.
- **February 14:** Last day to officially withdraw from the University for spring semester 1986 without penalty.
- **March 22:** Last day of classes before spring recess.
- **March 24-30:** Spring recess.
- **March 31:** Classes resume.
- **May 6:** Applications for bachelor's degree for May and August 1987 graduation accepted.
- **May 15:** Last day of classes before final examinations.
- **May 16:** Study and consultation day.
- **May 17-24:** Final examinations.
- **May 25:** Commencement.
- **May 26:** Holiday—Memorial Day. Campus closed (no classes).
- **May 30:** Grades due from instructors. (Noon deadline.)
- **August 1:** Last day of spring semester.
- **August 1:** Last day to apply for a leave of absence for fall semester.

## Summer Sessions, 1986
- **May 26:** Holiday—Memorial Day. Campus closed (no classes).
- **June 2-June 20:** Term A (3 weeks).
- **July 4:** Holiday—Independence Day.
- **June 23-August 1:** Term B (6 weeks).
- **June 23-July 25:** Term C (6 weeks).
- **August 4-22:** Term D (3 weeks).
- **June 2-July 11:** Term E (6 weeks).
Schedule of Fees 1985-86

Fees and tuition are subject to change without advance notice by the Trustees of the California State University.

FEES MUST BE PAID AT TIME OF REGISTRATION. CHECKS OR CHARGE SLIPS ACCEPTED FOR EXACT AMOUNT OF FEES. OVERPAYMENTS OF $5.00 OR LESS ARE REFUNDED ONLY UPON REQUEST. IF YOUR CHECK OR CHARGE SLIP IS RETURNED BY THE BANK FOR ANY REASON, YOUR REGISTRATION MAY BE CANCELED AND YOU WILL BE BILLED $20.00 (Dishonored payment charge and late fee of $10.00 each). PAYMENT OF FEES FOR ADVANCE REGISTRATION OR WALK-THROUGH REGISTRATION SHOULD BE MADE BY CHECK, MONEY ORDER, OR CHARGE CARD. CHECKS TO BE MADE PAYABLE TO SDSU. DO NOT ENCLOSE CASH.

REGISTRATION FEES — ALL STUDENTS: On basis of units carried. Auditors pay same fees as students carrying courses for credit. Nonresident and foreign students pay additional fees — see information below.

### Units Attempted

<table>
<thead>
<tr>
<th>Units Attempted</th>
<th>Registration Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 units</td>
<td>$210.50</td>
</tr>
<tr>
<td>6.1 or more</td>
<td>$330.50</td>
</tr>
</tbody>
</table>

The above fee also includes a Student Activity Fee of $10.00, a Student Union Fee of $16.00, a Facilities Fee of $3.00, an Instructionally Related Activities Fee of $15.00, and a State University Fee of either $166.50 or $286.50, depending on unit load. Legal residents of California are not charged tuition.

Tuition for Nonresident Student (Foreign and Domestic)

Tuition will be charged for all units attempted per unit $126.00. (Tuition is payable in addition to registration fees listed above. For fee-paying purposes, zero unit courses are counted as one unit. See Liability for Payment section for additional important information.) Health insurance (mandatory for foreign students) per year, approximately $125.00.

Parking Fees

Nonreserved parking space, per semester $37.75. Less than four-wheeled, self-propelled vehicle (motorcycle, moped) $4.45. Application for admission or readmission (nonrefundable) $35.00. Late registration (nonrefundable) $35.00. Application for admission or readmission (nonrefundable) $35.00. Late registration (nonrefundable) $35.00. Failure to meet administratively required appointment or time limit (late fee) $25.00. Photo-identification card (One-time cost to both new undergraduate and graduate students at time of registration. Valid only when accompanied by current semester validation card.) $3.00. Lost identification card $3.00. Photo I.D. card only $2.00. Registration validation card only $2.00. Photo I.D. card and validation card $2.00. Transcript of record (official or unofficial) $4.00. Second through tenth transcript, prepared at the same time as the first $4.00. Additional copies over ten, prepared at the same time each $2.00. R.O.T.C. deposit (Unexpended portion is refundable.) each $1.00. Check or charge slip returned for any cause $56.00. Loss of or damage to library materials $10.00. Replacement cost plus $10.00. Graduation fee** $8.00 service charge. Evaluation and diploma fee** $9.00. Towel fee (optional) $10.00. Lock and locker fee (optional) $1.00. Miscellaneous course charge (optional) $2.00. Miscellaneous course charge (optional) As established and approved.

CREDIT CARDS

Only VISA and MasterCard bank credit cards may be used for payment of Student Fees.

LIABILITY FOR PAYMENT

Students are liable for payment of all registration fees related to units held on or added after the close of business on the fourteenth day following the commencement of instruction. Foreign and nonresident students are liable for tuition related to all units held, except as provided for by the refund policy.

Foreign students must pay or sign an installment agreement for a minimum of 6 units at time of registration. (Students participating in Advance Registration must make payment or submit an installment agreement to Cashiers prior to the first day of class. ) Foreign students wishing to pay for fewer than 6 units at registration must submit to Cashiers written agreement to do so from the International Students Office.

It is the student's responsibility to be aware of total fees and tuition due. (Legal residents of California are not charged tuition.) Additional fees which may become due as a result of units added during the semester must be paid at the Cashiers Office at the time the units are added. Note fee schedule above.

DISHONORED CHECK OR CHARGE SLIP

If your check or charge slip is returned by the bank for ANY REASON, the following action will be taken:

Advance Registration Payments. You will be disenrolled from all classes received through Advance Registration; it will then be necessary to re-register during Walk-Through or Late Registration. You will be notified that this action was taken and billed for the $10.00 dishonored payment charge by Cashiers.

Other Registration/Miscellaneous Fee Payments. You will be billed for the $10.00 dishonored payment charge, and the $10.00 Late Fee when applicable. Nonpayment of fees or tuition may result in cancellation of your registration and withholding of further services until all financial liabilities have been resolved.
REFUND OF FEES

Details concerning fees which may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to be followed in seeking refunds may be obtained by consulting Section 41803 (parking fees), 41913 (nonresident tuition), 42019 (housing charges), and 41802 (all other fees) of Title 5, California Administrative Code. In all cases it is important to act quickly in applying for a refund. Information concerning any aspect of the refund of fees may be obtained from the Cashiers Office.

Refund of Registration Fees

Complete Withdrawal. To be eligible for refund of registration fees, a student withdrawing completely from the University (from all classes) MUST obtain a withdrawal card from the Office of Admissions and Records and file a refund application with the Cashiers Office, CL-108, not later than 14 days following the commencement of instruction (Refund Deadline). All but $5.00 will be refunded. YOUR REGISTRATION VALIDATION CARD MUST BE RETURNED AT THE TIME YOU FILE YOUR REFUND APPLICATION. (See Class Schedule for deadline dates. Note that the refund deadline is prior to the deadline set by Admissions and Records for Official Withdrawal.)

Reduction of Unit Load. A student dropping from 6.1 units or more to 6.0 units or less, or a student who paid maximum fees but never obtained over 6.0 units, MUST file a refund request for the reduction of unit load prior to the deadline set by Admissions and Records for Official Withdrawal.

Disqualified and Leave of Absence Candidates. If your registration has been canceled due to disqualification or by obtaining an approved leave of absence, registration fees will be taken and return of your registration validation card and application for refund to the Cashiers Office.

Refund of Nonresident and Foreign Student Tuition

Tuition paid for a course scheduled to continue for an entire semester may be refunded in the following time limits:

<table>
<thead>
<tr>
<th>Time Limit</th>
<th>Amount of Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before or during the first week of the semester</td>
<td>100 percent of fee</td>
</tr>
<tr>
<td>During the second week of the semester</td>
<td>90 percent of fee</td>
</tr>
<tr>
<td>During the third week of the semester</td>
<td>70 percent of fee</td>
</tr>
<tr>
<td>During the fourth week of the semester</td>
<td>50 percent of fee</td>
</tr>
<tr>
<td>During the fifth week of the semester</td>
<td>30 percent of fee</td>
</tr>
<tr>
<td>During the sixth week of the semester</td>
<td>20 percent of fee</td>
</tr>
</tbody>
</table>

Refund of Parking Fees

This schedule of refunds refers to calendar days, commencing on the date of the term when instruction begins. Nonreserved space per semester:

<table>
<thead>
<tr>
<th>Period</th>
<th>Amount of Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-30 days</td>
<td>75 percent of fee</td>
</tr>
<tr>
<td>31-60 days</td>
<td>50 percent of fee</td>
</tr>
<tr>
<td>61-90 days</td>
<td>25 percent of fee</td>
</tr>
<tr>
<td>91-end of term</td>
<td>None</td>
</tr>
</tbody>
</table>

Your parking sticker or a receipt indicating that the sticker was removed from the vehicle by a University Police Officer (Information Booth, Campanile Drive) must be turned in to the Cashiers Office.

LATE REGISTRATION FEE

This nonrefundable fee pertains to those students who register after classes begin. The Cashiers Office should be consulted for further details.

The California State University

The California State University

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became The California State University and Colleges and in 1982 the system became The California State University. Today, 17 of the 19 campuses have the title "University.

The oldest campus—San Jose State University—was founded as a Normal School in 1857 and became the first institution of public higher education in California. The newest campus—California State College, Bakersfield—began instruction in 1970.

Responsibility for The California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers on the respective campuses.

The Trustees, the Chancellor and the Presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by The California State University through a distinguished faculty, whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All of the campuses require for graduation a basic program of "General Education—Breadth Requirements" regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,500 bachelor's and master's degree programs in some 200 subject areas. Nearly 500 of these programs are offered so that students can complete all upper division and graduate requirements by part-time late afternoon and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private universities in California.

The Consortium of The California State University draws on the resources of the 19 campuses to offer regional and statewide off-campus degree, certificate, and credential programs to individuals who find it difficult or impossible to attend classes on a campus. In addition to Consortium programs, individual campuses also offer external degree programs.

System enrollments total approximately 314,000 students, who are taught by a faculty of 18,500. Last year the system awarded over 50 percent of the bachelor's degrees and 30 percent of the master's degrees granted in California. More than 900,000 persons have been graduated from the nineteen campuses since 1960.

The Consortium of The California State University

The Consortium of The California State University—"The 1,000-Mile Campus"—is a separate, fully accredited, degree-granting institution of the CSU. It draws on the combined resources of the 19 campuses to offer external undergraduate and regional degree, certificate, and teaching credential programs.

The Consortium was established in 1973 to meet the needs of adults who find it difficult or impossible to attend classes on a campus. Instruction is thus provided students in convenient places at convenient times. Currently programs are offered in more than 50 sites.

The Consortium in the name of the Board of Trustees of the CSU. The Consortium is accredited by the Western Association of Schools and Colleges.

The following consortium programs are available in the San Diego area:

- B.S. degree in Hotel and Restaurant Administration
  - Contact Lynne H. Peters, Department of Management

Average Annual Cost of Education and Sources of Funds per Full-time Equivalent* Student in The California State University

The 19 campuses and the Chancellor’s Office of The California State University are financed primarily through funding provided by the taxpayers of California. The total State appropriation to the CSU for 1984/85, including capital outlay and employee compensation increases, is $1,177,687,000. The total cost of education for CSU, however, is $1,390,712,240 which provides support for a projected 242,740 full-time equivalent (FTE)* students.

The total cost of education in the CSU is defined as the expenditures for current operations, including payments made to the students in the form of financial aid and all fully reimbursed programs contained in State appropriations, but excluding capital outlay appropriations. The average cost of education is determined by dividing the total cost by the total FTEs. The average cost of education per FTE student is $5,729. Of this amount, the average student fee support is $4,748.

The estimated replacement cost of all the system’s permanent facilities and equipment on the 19 campuses is currently valued at $4.6 billion, excluding the cost of land.

Source of Funds and Average Costs for 1984/85 CSU Budget (Projected Enrollment: 242,740 FTE)

For budgetary purposes, full-time equivalent (FTE) translates total head count into total academic student load equivalent to 15 units per term. Some students enroll for more than 15 units; some students enroll for fewer than 15 units.

The total cost of education does not include the amount related to the capital investment of the CSU. The estimated replacement cost of all the system’s permanent facilities and equipment on the 19 campuses is currently valued at $4.6 billion, excluding the cost of land.

This figure does not include the capital outlay appropriation of $25,264,000.

The average costs paid by a student include the State University Fee, Application Fee, Catalog Fee, and time, full-time, resident, or nonresident students.

General Information

San Diego State University

San Diego State University was founded on March 13, 1897 for the training of elementary school teachers. The seven faculty and ninety-one students of the then Normal School's first class met on November 1, 1898 in temporary quarters downtown while the first unit of the main building of the campus was under construction at Park Boulevard where El Cajon Boulevard begins.

The curriculum was limited at first to English, history and mathematics, but it broadened rapidly under the leadership of Samuel T Black, who left the position of State Superintendent of Public Instruction to become the first President (1898-1910).

Under the vigorous administration of the second president, Edward L. Harty (1910-1935), the school was reorganized as a four-year State Teachers' College in 1921, and control was transferred from a local board of trustees to the State Board of Education. In the same year, the two-year San Diego Junior College, the antecedent institution to the present Community Colleges, was incorporated as a branch of San Diego State, where it remained through 1964. It became clear early that the only collegiate institution in San Diego would soon outgrow its 17-acre site, and a campaign was begun in the 1920s to build a new campus. The Legislature agreed, provided the city furnish a new site and buy the old one. In 1928 the present campus, on what was then the far eastern border of the city, was approved by the electorate.

In February 1931, the college moved to the seven mission-style buildings of the present campus, surrounding what is still called the Main Quad. In 1935, the Legislature removed the word, "Teachers" from the name of the institution and authorized the expansion of degree programs into areas other than teacher preparation. In the same year, Walter R. Hepner (1935-1952) was appointed president, and the institution entered a period of slow growth and then, with the coming of war, of contraction. At the end of World War II, enrollment had fallen to 1,918.

In the next quarter century, under Dr. Hepner and subsequently under Malcolm A. Love (1952-1971), enrollments increased phenomenally, until with some 30,000 students San Diego State is today one of the largest institutions in the State. In 1960, the College became a part of the newly created California State College system; under a statewide Board of Trustees and a Chancellor. In 1971, recognizing that the institution had in fact achieved the status of a university, the Legislature renamed the system The California State University and Colleges, and shortly afterward renamed this institution San Diego State University.

Acting President Donald E. Walker (1971-1972), President Brage Golding (1972-1977), and Acting President Trevor Colbourn (1977-1978) were followed by the sixth president Thomas B. Day (1978-1985) who faces problems and opportunities of a magnitude undreamed of 80 years ago.

New buildings added in recent years include the Aztec Center, the first student union building in the CSU system; Dramatic Arts, with the finest theater in the county; Music, with a Recital Hall; and the 307,000 square-foot Malcolm A. Love Library, with its ample reading areas and ideally arranged collections and services. The new Health Services and Art and Humanities classroom buildings make the most recent additions to the campus physical facilities.

The University now offers bachelor's degrees in 69 areas, the master's in 55, and the joint doctorate in 5. A remarkable 88 percent of the teaching faculty possess the doctorate in those disciplines where it is the standard terminal degree.

A chapter of Phi Beta Kappa was inaugurated at the University in 1974, joining Phi Kappa Pi and many other national honorary societies on campus.

Mission and Goals of San Diego State University

San Diego State University is a multipurpose institution of higher education located in a large and diverse urban setting. The University recognizes its obligations to serve in the several capacities of teaching, research, and service. The fundamental aim of the University is excellence and distinction in these pursuits.

The University seeks to provide an environment that encourages the intellectual development of students. Through its program in the liberal arts and sciences the University aspires to have students understand themselves and their world; learn about their cultural, social, physical, and institutional surroundings; and understand the ways in which people of this and other societies, past and present, interact with each other and their environments. The professional programs of the University are designed to prepare students for the proficient and successful practice of a profession. At the graduate level the University is concerned with developing potential leaders in a wide spectrum of social, economic, scientific, technical, educational, and cultural fields.

Closely related to its teaching mission are the University's diverse research efforts. Student and faculty involvement in research exemplifies the manner in which knowledge is obtained and also expands the boundaries of our collective understanding. Graduate study at San Diego State University, both at the master's and doctoral level, places particular emphasis on creative scholarship, original research, and the development and utilization of research techniques.

Located in the heart of a large and diverse metropolitan center, the University makes use of the vast social, cultural, scientific, and technical resources of this region to enrich its programs and spur its research. Conversely, through its teaching, research, and various services, the University endeavors to identify and be responsive to the needs of the regional, national, and international communities that it serves. Furthermore, San Diego State University seeks cooperative efforts and programs with other institutions of higher education.

In sum, the mission of San Diego State University is to provide the best possible education for its undergraduate and graduate students, to contribute to knowledge and the solution of significant problems through its research, and to serve the people of California and the nation.

Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from the Financial Aid Office, CL-122, 265-6323.
1. Student financial assistance programs available to students who enroll at San Diego State University;
2. The methods by which such assistance is distributed among recipients who enroll at San Diego State University;
3. The means, including forms, by which application for student financial assistance is made and requirements for accurately preparing such applications;
4. The rights and responsibilities of students receiving financial assistance; and
5. The standards the student must maintain to be considered to be making satisfactory progress for the purpose of establishing and maintaining eligibility for financial assistance.

The following information concerning the cost of attending San Diego State University is available from the Financial Aid Office, CL-122, 265-6323.
1. Fees and tuition;
2. Estimated costs of books and supplies;
3. Estimates of typical student room and board costs or typical commuting costs; and
4. Any additional costs of the program in which the student is enrolled or expresses a specific interest.

Information concerning the refund policy of San Diego State University for the return of unearned tuition and fees or other refundable portions of costs is available from the University Cashiers Office, CL-108, 265-5263.

Information concerning the academic programs of San Diego State University may be obtained from the Office of the Vice President for Academic Affairs, AD-206, 265-6842, and may include:
1. The current degree programs and other educational and training programs;
2. The instructional, laboratory, and other physical plant facilities which relate to the academic program;
3. The faculty and other instructional personnel; and
4. Data regarding student retention at San Diego State University and, if available, the number and percentage of students completing the program in which the student is enrolled or expresses interest; and
5. The names of associations, agencies, or governmental bodies which accredit, approve, or license the institution and its programs, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the institution's accreditation, approval, or licensing.

Information regarding special facilities and services available to handicapped students may be obtained from the Director of Disabled Student Services, Campus Lab 110A, telephone 265-6473.

Career Placement

The campus will furnish, upon request, information concerning the subsequent employment of students who graduate from San Diego State University. This information includes data concerning average starting salary and the percentage of previously enrolled students who obtained employment. The information provided may include data collected from either graduates of the campus or graduates of all campuses in The California State University System. Copies of the published information are available in the office of the School Relations Officer, CL-114, 265-6966.

Faculty Office Hours

All faculty members are required to hold regularly scheduled office hours during the week to allow for student consultation. A schedule of those hours is posted outside each faculty member's office door.

Honor Societies

Phi Beta Kappa and Phi Kappa Phi are two of the national honor societies recognizing academic excellence for undergraduate students. Election to membership in the Nu chapter of Phi Beta Kappa is based on high scholarship and professional integrity. To be considered for election, students must be currently enrolled, and have completed a minimum of 30 units of course work at San Diego State University, 12 of which must be upper division, and must maintain a cumulative grade point average of 3.5 or better. The campus chapter of Phi Kappa Phi elects to membership students on the basis of scholarship, character, and high ideals.

San Diego State University is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges. It is also approved to train veterans under the G.I. Bill.

The College of Business Administration and the School of Accountancy are accredited by the Accreditation Board for Engineering and Technology. The College of Engineering undergraduate programs in aerospace, civil, electrical and mechanical engineering are accredited by the Accreditation Board for Engineering and Technology, Inc.

The School of Nursing is accredited by the California Board of Registered Nursing and National League for Nursing.

In addition, high quality preparation for many other professions is provided. It is suggested that the student refer to the various courses of study listed in the catalog. The bachelor's degree is offered in 69 areas, the master's degree in 55 areas, and the joint doctorate in 5 areas.

San Diego State University offers the following degrees and certificates:

- Bachelor of Arts
- Bachelor of Science
- Bachelor of Music
- Bachelor of Vocational Education
- Bachelor of Arts
- Bachelor of Science
- Bachelor of Business Administration
- Bachelor of City Planning
- Bachelor of Fine Arts (Art, Drama)
- Bachelor of Public Administration
- Bachelor of Public Health
- Bachelor of Social Work
- Master of Arts
- Master of Science
- Master of Business Administration
- Master of City Planning
- Master of Fine Arts (Art, Drama)
- Master of Public Administration
- Master of Public Health
- Master of Social Work
- Doctor of Philosophy in Biology
- Doctor of Philosophy in Chemistry
- Doctor of Philosophy in Ecology
- Doctor of Philosophy in Education
- Doctor of Philosophy in Genetics

Nondegree programs leading to certificates in Applied Linguistics and English as a Second Language (ESL), Bilingual (Spanish) Special Education, Business Administration (Imperial Valley Campus only), Cartography, Children's Literature, Creative Writing (advanced), Human Services Paraprofessional, Instructional Technology, Language Development Specialist, Preventative Medicine Residency, Professional Services Bilingual/Bicultural, Public Administration (Imperial Valley Campus only), Public History, Quantitative Analysis in the Social Sciences, Recombinant DNA Technology, Spanish Translation and Court Interpreting, Teaching the Emotionally Disturbed, and Technical and Scientific Writing are offered.

Types of Curricula Offered

San Diego State University offers the following types of curricula:

- Undergraduate Curricula.

Undergraduate curricula provide the following opportunities for study:

1. Liberal arts and sciences: Curricula in the academic major fields, leading to the Bachelor of Arts degree in liberal arts and sciences.

2. Applied arts and sciences: Curricula in major fields leading to the Bachelor of Science, Bachelor of Arts or Bachelor of Music degree in applied arts and sciences.

* Admission to this program is closed.
Special Programs and Services

University Library

Librarians
Emeritus: Hoover, Kenney, Kinsey, McAmis, Murdoch, Neydorff, Samples, Sandelin, Sanner, Schalles, Szabo
University Librarian: Boisclair
Assistant University Librarians: Palsson, Rapp
Librarians: Coleman, Dintrone, Pease
Associate Librarians: Barclay, Cartledge, Chan, Fikes, Goyne, Gwinup, Harkany, Martinez, Sonntag
Senior Assistant Librarians: Crisley, Fields, Goodwin, Granrud, Greene, Harris, Johns, Moore, Posner, Rose, Shira, West, Wilson, Zyroff
Assistant Librarians: Lamb, Muroi, Turhollow

The centrally located Malcolm A. Love Library, with its open stacks, adjoining study areas, and many individual carrels, has been designed to facilitate study, research, and reading. It has some three thousand reader stations and will ultimately accommodate over one million volumes.

The collection comprises 843,000 volumes including books and bound periodicals; and 426,000 government documents. Additional resources include 2.1 million microfiche and microopaque cards, 50,300 reels of microfilm, 805 college catalogs, 137,000 maps, 4,950 phonograph records, 50,000 curriculum items and 1,500 linear feet of archival papers. The library receives 9,200 periodical and serial titles, excluding government documents. It is a depository for United States and California government publications. It receives all United Nations and Organization of American States publications, as well as many publications of other national and international bodies.

Significant research collections in the social sciences and humanities include: Asian studies; business; public administration; American, Civil War, California, Latin American, Mexican history; Chicano resource materials; the literatures of the United States, Spanish America, Europe, Asia and Africa; music, with special strength in the Middle Ages and the nineteenth century; dramatic arts, including classic films; philosophy, especially medieval and American. Research collections held in the sciences include: chemistry, biochemistry, ecology, biology, mathematics, physics, astronomy, anthopology, entomology, paleontology, geology, the geological history of Pacific Ocean invertebrate fauna, and the geology of San Diego County and Baja California. The Center for Regional History's extensive archival collections from the San Diego area support original research. Special collections, among them rare editions, include: science fiction, H. L. Mencken, archidology, the history of science with emphasis on astronomy and botany, German culture and civilization.

The library provides general reference service, separate service points for sciences and engineering, government publications, maps, and media and curriculum resources. Reference librarians assist students and faculty in their research and study, and librarians with advanced degrees in many subject areas are available for reference consultation. Computerized bibliographic searching is available, as are tours, term paper clinics, and other instruction in the use of the library.

Among conveniences provided library patrons are a current periodicals reading room and microforms and newspaper center, photocopiers, including machines, including several for microfiche and microfilm; ditto machine; coin-operated electronic calculators; listening equipment for cassettes, discs and open-reel tape; and a special facility for the visually handicapped.

University Computer Center

The University Computer Center provides equipment, software, and technical personnel to support the instructional, research and administrative computing activities of the University.

The principal computer on campus is a Control Data Corporation CYBER 170-750 which runs on the NOS operating system in batch, transactional, and timesharing modes. Language compilers provided include BASIC, FORTRAN, COBOL, PASCAL, APL, and PL/1. Also available are over 150 software packages for applications that include statistics, mathematics, science and business.

Additional instructional computing capacity is supplied by a Digital Equipment Corporation...
VAX 11-780 computer which runs on the VMS operating system in timesharing and batch
modes. The language compilers on the VAX include FORTRAN, BASIC, PASCAL, and VAX-11
MACRO. The software package on the VAX emphasizes statistical programs and graphics
packages. The Digital Equipment Corporation PDP 11/44 that runs on the UNIX Operating System
is also available. The FORTRAN and C compilers. A fourth computer, a Digital Equipment
Corporation PDP 11-45, is devoted exclusively to administrative users. The campus computers
can be accessed from any of over 200 interactive terminals dispersed throughout the campus.
Terminal labs are located in the Business Administration, Engineering, Life Sciences, and Social
Sciences buildings. The Cyber can also be accessed from a card reader located in the
Business Administration building.

Specialized computing services are also available. Two popular instructional laboratories
are equipped with Apple microcomputers that can be programmed in BASIC or PASCAL and
can run software written for Apple DOS or CP/M based systems. A third microcomputer
laboratory is equipped with IBM PCs that can be programmed in BASIC and can run software
written for MS-DOS. Another instructional laboratory contains terminals designed specifically
for the APL programming language. A User Services Group provides system programming
support and consulting service for faculty, staff, and students.

In addition to the campus computing systems, SDSU computer users have access to a
powerful statewide computing network located at Los Angeles. This network can be accessed
from any campus terminal via a high-speed data link. It is served by a dual CYBER 170/730-2
and a 170/760 computer. The statewide system provides many additional software packages
and large data bases.

Learning Resource Center

The Learning Resource Center provides support to faculty and staff in acquisition and
distribution of instructional materials, and in design of instruction. The Center consists of three
units: Media Distribution, Media Production, and Instructional Development. The director provides leadership to the University in
Identifying new approaches in the use of instructional technology.

Media Distribution provides support in the selection and use of instructional materials and
distribution and maintenance of audiovisual equipment. Services include booking and
scheduling of films and videotapes for classroom use. Films may be shown by means of
projection or over the campus closed circuit system. Videotapes are housed in a
central control facility and are shown via an 18-channel closed circuit system. The
acquisition of new videotapes, films and videotapes related to instruction and maintenance
of these libraries is a part of this service.

Media Production aids in design and production of instructional materials. Original
videotape programming and slide-tape presentations required for specific instructional
purposes are developed and produced by media production staff. A color studio and
videotape feedback laboratory are operated and maintained. Graphics design for instruction
and for research reports is provided. Photography for instructional materials development and
for reporting of research is available to all faculty.

The Instructional Development program offers professional assistance in instructional
design, course design, teaching techniques and assessment. Specific services include (1)
providing assistance in instructional materials development, (2) assessing and selecting
instructional methods, (3) facilitating course design, (4) providing faculty with opportunities to
teach new courses, and (5) providing a facility for faculty to produce their own media and learn about new
technology.

San Diego State University Press

As the scholarly press for San Diego State University, the San Diego State University Press
publishes works of original research, as well as other meritous academic works that will
from any source will be considered, the current focus of the Press is in three areas: Latin
Southwest. In addition to books, the Press also publishes under its imprint the annual Proceed-
Fiction International, and Areté: The Journal of Sport Literature. It publishes or distributes for
30 / Special Programs and Services

of the annual Conference on Minority Aging for the Center on Aging, Pacific Review for the
Department of English and Comparative Literature, and Theatre Products Report for the
Department of Drama.

The San Diego State University Press imprint is controlled by an Editorial Committee of San
Diego State University faculty scholars, appointed by the Vice President for Academic Affairs
and the Academic Senate. Financial support for Press activities is provided almost entirely by
sales of books and by ancillary services to the University. Financial accounting and
coordination is provided by the San Diego State University Foundation.

San Diego State University Foundation

The San Diego State University Foundation was incorporated in 1943 as an auxiliary
organization authorized by the Education Code of the State of California. It is a nonprofit
corporation, self-financed, and was chartered specifically to provide and augment essential
services which are an integral part of the educational program of San Diego State University.

Originally, the Foundation handled, accounted for, and invested scholarship and loan funds
donated to the University. Commencing in 1954, the Foundation began serving as the agency
for the University to accept and administer sponsored research and educational projects.

Currently, the Foundation is the largest of the auxiliaries in The California State University
System.

The purpose of the Foundation is to promote the development, implementation, and
coordination of those activities that aid and supplement the fundamental mission of San Diego State
University. The Foundation serves the University in the following major areas:

- Development and administration of grants and contracts for faculty and staff research and
  educational projects;
- Administration of funds for more than 500 special programs including KPBS educational
televisions and radio stations, the College of Extended Studies and the SDSU Rehabilitation
  Center;
- Financial administration of gifts and donations;
- Investment of endowment and other funds;
- Financial administration of student scholarship and loan funds;
- Development and administration of grants and contracts for faculty and staff research and
  educational projects;
- Administration of other activities as requested by the University.

As the scholarly press for San Diego State University, the Press also publishes under its
imprint the annual Proceedings of the annual Conference on Minority Aging for the Center on Aging, Pacific Review for the
Department of English and Comparative Literature, and Theatre Products Report for the
Department of Drama.

The San Diego State University Press imprint is controlled by an Editorial Committee of San
Diego State University faculty scholars, appointed by the Vice President for Academic Affairs
and the Academic Senate. Financial support for Press activities is provided almost entirely by
sales of books and by ancillary services to the University. Financial accounting and
coordination is provided by the San Diego State University Foundation.

The Foundation, as a nonprofit corporation, is governed by a Board of Directors in accordance
with its Articles of Incorporation and Bylaws. The principal function of the Directors is to
establish policies and guide the corporation in achieving its objectives.

Alumni & Associates

Membership in the Alumni & Associates is open to those persons who have an abiding
interest in and commitment to the growth and future of SDSU and the community it serves.

The Alumni & Associates is a dynamic, moving organization whose purpose is to promote
the welfare of the University. It offers a number of programs and services to meet the
variety of needs and interests of its alumni, including library privileges, reduced admission
to many cultural activities, the Alumni Placement Service, travel tours, and Extended Studies mini-
courses, workshops and conferences.

The Alumni & Associates also supports the University’s annual fund drive to raise private
funds for innovative educational programs beyond the basic curriculum and to meet numerous
needs of the University community.

In addition, the Alumni & Associates sponsors an Annual Awards Program every spring
honoring alumni and friends of the University, provides scholarships for students, and serves
as a sounding board regarding University programs and policies.

The Alumni & Associates' publication for alumni and friends of the University is the bimonthly
SDSU Report.

For further information, phone the Alumni and Development Office at (619) 265-6907.
Financial Aid

San Diego State University makes every effort to advise students of all available financial aid programs. Financial aid is available in the form of loans, grants, and part-time employment for eligible students. Since funds are limited and there are program deadlines, not all eligible applicants are awarded aid.

Information about all state, federal, and institutional aid programs is available from the Financial Aid Office, CL-122, (619) 265-6323. A financial aid brochure which describes the programs available and the eligibility requirements is available from the Financial Aid Office.

Applying for Aid

To be considered for first priority funding for the 1985-86 academic year, aid applicants must file a Student Aid Application for California (SAAC) by March 1, 1985 and submit all required supporting documents to the Financial Aid Office by April 15, 1985. SAACs may be obtained from high schools and any college financial aid office in California.

A separate application form is required for Guaranteed Student Loan which is a student loan made available from a participating lender.

Cost of Living

In order to ensure equity, San Diego State University establishes standard student budgets in coordination with The California State University system. Student budgets, updated annually for inflation are currently:

<table>
<thead>
<tr>
<th>Actual Expenses for the 1984-85 Academic Year</th>
<th>Living off Campus</th>
<th>Living on Campus</th>
<th>Commuting from Home</th>
</tr>
</thead>
<tbody>
<tr>
<td>Registration fee for materials, service,</td>
<td>$661</td>
<td>$661</td>
<td>$661</td>

</tr>
</tbody>
</table>

In addition to the registration fee, foreign students and out-of-state students paid tuition of $117.00 per unit in 1984-85. All fees and costs are subject to change without notice.

California Grants, California State Fellowships, and Bilingual Grants

California residents may apply for grants administered by the California Student Aid Commission, 1410 Fifth Street, Sacramento, California 95814. Applications are available in the Financial Aid Office during the annual application period (December to early February).

Scholarships and Fellowships Administered by Departments

Students receive scholarships, fellowships, grants, or stipends through the various departments, Federal, state, and private industry support programs of this nature are largely directed to students doing graduate work or to students preparing for special fields of work in the department of their major to determine what scholarship, fellowship, grant, or stipend support might be available to them.

Financial Aid / 33

Fellowships for Graduate School

As a general rule, students planning graduate work should inquire about graduate fellowship support from the graduate school to which they are applying. The San Diego State University Scholarship Office receives the annual announcements on most national awards including Fulbright, Ford, Rotary, Rhodes, and Marshall scholarships. Students interested in fellowships of this type are encouraged to discuss their applications with members of the San Diego State University faculty who have themselves in the past received these fellowships. Scores from the Graduate Record Examination, Law School Admission Test, Admission Test for Graduate Schools of Business, Dental Admissions Test, or Medical Colleges Admission Test, as appropriate, are required in applying for most fellowships; therefore students should take the appropriate test early in the fall of their senior year. Information concerning these tests may be obtained from the San Diego State University Test Office, Fifth Floor, Love Library.

San Diego State University Scholarships

Scholarship Philosophy and Eligibility Requirements

A scholarship is a monetary award given to outstanding students to recognize them for their academic excellence, leadership, achievements and promise. They are provided by private donors, corporations, professional associations and alumni.

High school seniors and undergraduate or graduate students may apply for scholarships awarded by their major department and/or the San Diego State University Scholarship Committee.

Students apply on their own initiative. Occasionally, scholarships with requirements and deadlines other than those established for the general University scholarship program are designated for specific majors. Eligible students will be notified through a faculty announcement or, if time permits, by the Scholarship Office through the mail.

Competition is based on outstanding academic achievement, campus and extracurricular activities, employment, and an essay. Undergraduates must have a 3.5 overall GPA or a 3.7 in the last 30 units of university work. Graduates must have a 3.5 overall graduate GPA or, in the absence of completed graduate units, a 3.5 overall undergraduate GPA or a 3.7 in the last 30 units of university work. High school seniors must have a 3.5 cumulative GPA (excluding physical education and military science) for all work completed in the first seven semesters.

Applications for the SDSU scholarship program are available in the Scholarship Office, from all department secretaries, and in San Diego County high school and community college counseling offices. You may also write or call the SDSU Scholarship Office, San Diego, CA 92182, (619) 265-6180.

Applications are available each year during one application period. November through February. The SDSU scholarship application must be filed no later than February for the following academic year. Students should submit only one application for the SDSU scholarship program. Individual results will be mailed to all applicants during May for the following academic year.

The average SDSU scholarship award is $500. There is no limit to the number of scholarships for which a student may be considered. Note: Entering freshmen may receive a $2,500 University scholarship, awarded as $500 each academic year for up to five years of undergraduate study. In addition to SDSU scholarships, the Marshall, Fulbright, Rhodes, and Rotary scholarships are prestigious international scholarships that are given annually to students pursuing educational goals outside the United States. Eligibility standards for these scholarships are closely related to those established for the SDSU scholarship program, but application forms and deadlines are separate from the program. Students may seek advice regarding application at the SDSU Scholarship Office in September.

Imperial Valley Campus Scholarships

The Imperial Valley Campus awarded $2,000 in scholarships for the 1984-85 academic year. Scholarships have been established by Imperial Valley Campus Chapter, SDSU Alumni & Associates; Soroptimists International, Calexico; and Imperial Valley Campus faculty contributions. Information and applications for these scholarships are available from the Holtville Rotary and the Financial Aid Counselor on the campus.

Student Services

Student Outreach Services

The Student Outreach Services office includes School and College Relations, the recruitment component of the Educational Opportunities Program, and Core Student Affirmative Action, which provides recruitment and retention services for non-EOP students from underrepresented ethnic groups. Through these programs, information and guidance are provided to prospective students about college selection and preparation, including admission requirements and procedures, academic programs, general education requirements, financial aid, student services and other aspects of university life.

Student Outreach Services staff visit high schools and community colleges, meeting with counselors, students and parents. The staff assists SDSU colleges and departments with their provision of information to prospective students and distributes newsletters and other materials to counselors. Requests for these services and programs for prospective students are welcomed. For more information, please call 265-6966.

The Ambassadors

The San Diego State University Ambassadors is a campus organization devoted to providing excellent volunteer services. These carefully selected and trained University students specialize in campus tours and assisting in campus and community service events. Call the Ambassadors at 265-6968 for a campus tour designed specifically for you.

Counseling Services and Placement

Counseling Services and Placement provides, without charge, the following services: (1) life planning and decision-making workshops; (2) educational and vocational assistance; (3) counseling for personal, psychological, and social development; (4) consultation with student groups, faculty, staff, and administration; and (5) placement services. California state laws pertaining to confidentiality of psychological services apply. For the convenience of all students, a marriage and family clinic is regularly scheduled. Additional programs and work experiences are provided through student employment. Summer and part-time employment, job referrals, campus recruiting program, skill development, resume writing, interviewing workshops, and job search strategy. An extensive career library is available.

Counseling Services and Placement provides, without charge, the following services: (1) life planning and decision-making workshops; (2) educational and vocational assistance; (3) counseling for personal, psychological, and social development; (4) consultation with student groups, faculty, staff, and administration; and (5) placement services. California state laws pertaining to confidentiality of psychological services apply. For the convenience of all students, a marriage and family clinic is regularly scheduled. Additional programs and work experiences are provided through student employment. Summer and part-time employment, job referrals, campus recruiting program, skill development, resume writing, interviewing workshops, and job search strategy. An extensive career library is available.

For a nominal fee, alumni may receive placement assistance through job mailings, maintaining an updated individual placement file, utilizing current resources in the library, and participating in workshops. Services are available on a walk-in basis or by appointment, from 8:00-4:30 p.m., Monday through Friday. Services after 4:30 p.m. are available by special appointment only. For additional information, please call 265-5218.

Health Services

Student Health Services provides a full range of medical care to SDSU students. The staff of over 75 personnel includes physicians board certified in family practice, gynecology, pediatrics, dermatology, internal medicine, orthopedics, psychiatry, and radiology. Primary care nurses, along with nursing, X-ray, laboratory and physical therapy staff and administration, provide service as needed. A pharmacy located in the Student Health Center dispenses at reduced cost most of the medications prescribed by Health Services staff.

Student Health Services is open twelve months a year. During the fall and spring semesters, the Center is open from 8:00 a.m. until 5:00 p.m., Monday through Friday. During intersession and summer, the center closes at 4:15 p.m.

Services are available to all regularly registered students. Individuals may use Student Health Services on a walk-in basis. Those without acute or urgent problems are encouraged to call to make an appointment.

There is no charge at the time of services for almost all medical care provided at Student Health Services. Fees have been prepaid through regular registration fees. Some services require a minimal additional fee such as pharmacy, special lab work, physical therapy treatments, and so forth. Charges associated with these services are usually dramatically lower than those found elsewhere.
All medical care provided at Student Health Services is strictly confidential. No one, on or off campus, has access to any medical information on a student without the student's written permission.

Many special programs are available, such as special clinics in family planning, weight control nutrition, health education topics, sexuality workshops and cold prevention.

An Audiology Clinic operated by the faculty and students of the Department of Communicative Disorders provides diagnostic information regarding hearing loss, hearing aid earmold, swim plug and noise suppressor plug fabrication, and referral and counseling services for those individuals with confirmed or suspected hearing difficulty. A minimal fee is charged for diagnostic and earmold fabrication services.

Prior to enrollment at SDSU it is recommended that students obtain a physical examination and health history from their physician and forward a copy of the examination to the Student Health Center or bring a copy to the Health Center. Students should update their immunization status to ensure that they are protected from the following diseases: rubella (measles), rubella (German measles, "three-day" measles), tetanus, diphtheria, polio, and mumps.

All of these infections are potentially more severe in college students than they are in other groups of individuals. These immunizations are available at little or no cost at Student Health Services.

Entering students are also strongly encouraged to have a screening test for tuberculosis.

Student participation is encouraged through membership on the Student Health Advisory Board, sponsored by Associated Students. Board members are involved in numerous health education projects and their advice is sought on program evaluation.

Accidents and Student Insurance Coverage

Under Trustees policy, first aid or emergency medical care is provided to students, faculty, staff, and campus guests for accidents and injuries occurring on or near the University. Accidents requiring emergency treatment and/or transportation to Health Services, 5300 Campanile Drive, or a local hospital should be reported immediately to the SDSU Department of Public Safety, 265-5955.

SDSU students are treated by the University as adults. Accordingly, students are responsible for their own safety and health in connection with participation in campus activities, and should exercise good judgment and due care at all times. The University does not provide activities, intramural sports, and required or elective academic programs, such as laboratory insurance coverage for students participating in extracurricular courses, workshops, theatrical productions, internships, or practical training. Specific questions regarding risks inherent in academic programs and student activities should be directed to the responsible faculty or staff member in charge of the activity.

In addition, through the Associated Students, a prepaid health insurance program is available and recommended to students having no private medical or accident insurance coverage. The program may be purchased for a semester or on a yearly basis. An open enrollment period is available the first thirty days of each semester. With the exception of international students, participation in this health insurance program is voluntary.

Academic Skills Center

The Academic Skills Center offers assistance to all students at any university level, including bilingual and international students, who wish to improve reading, writing, and mathematics skills. The Center's services are available on an enrollment basis only.

In addition, the Center assists students in completing the University writing and mathematics competency requirements. The University requires students to demonstrate writing and entering students to pass the writing and mathematics competency tests. Students who fail Center during their first semester at SDSU and continue in such coursework until successfully

Test Office

The Test Office serves both students and faculty through administering a wide variety of tests, including placement tests, competency tests for graduation, admission tests for graduate programs, and inventories for counseling and career planning. A library of 1000 different tests is maintained for use by faculty and students in testing classes, and test scoring and analysis services are provided for classroom tests.

International Students

The International Students Office provides services to help international students gain the greatest possible benefit from their studies in this country and to help promote friendship, understanding and cultural exchanges, both with American students and the community. The Office informs the students of procedures of the U.S. educational system and helps with various problems that may be encountered. The staff acts as the liaison with government (especially immigration) and San Diego State University administration, departments, faculty, and community.

Ombudsman

The Ombudsman is an independent and impartial agent who helps individuals and groups seeking the resolution and correction of complaints. The Ombudsman acts as a liaison between students and the University, assisting students through formal grievance procedures and functioning to mediate and reinforce other means of redress when possible.

The office of the Ombudsman is located in Aztec Center, room 168; telephone (619) 265-6678.

Audiology Diagnostic Center

The Audiology Diagnostic Center in the College of Human Services is a service of the Department of Communicative Disorders. The center provides diagnostic information regarding hearing loss, hearing aid evaluations, earmolds and earplugs for faculty, students, staff and the community. A minimal fee is charged for diagnostic services. The center operates throughout the year. Referrals may be made through health professionals, agencies, school districts or as self-referrals; for information call 265-6477.

Speech, Language and Hearing Clinics

The Communications Clinic in the College of Human Services is staffed by students and supervised by faculty of the Department of Communicative Disorders. It provides assessment and remediation services for SDSU students, faculty and their families free of charge. Minimal fees are charged for services to individuals from the community. Comprehensive diagnostic and treatment programs are available for children and adults who may present such communicative difficulties as delayed speech/language development, voice, fluency or articulation disorders, aphasia, cleft palate, cerebral palsy, hearing impairment. Bilingual/multicultural services are provided for limited English proficient clients and their families. Because of staff limitations not all who apply can be admitted. Referrals may be made through agencies, hospitals, school programs, health professionals, or as self-referrals. For information call 265-6477.

Clinical Training Center

The Clinical Training Center in the College of Human Services provides a supervised training and service facility which includes: Undergraduate and graduate students of separate disciplines in multidisciplinary experiences such as prevention, assessment, rehabilitation and treatment of behavioral, communicative, reading, learning and personal-social difficulties. Students are supervised directly by faculty from their respective disciplines. The Clinical Training Center encourages interdisciplinary educational and research opportunities for faculty and students. Provision for interdisciplinary components of the curricula of participating schools and departments is an integral part of the Clinical Training Center. For further information call 265-6121.
Student Resource and Information Center

The Student Resource and Information Center (SRIC) develops and supports special programs and learning opportunities to encourage personal growth of students and allow them to meet their academic, social, and governance responsibilities effectively. Supervision of student organizations at the Center includes registration of campus organizations and clubs, program development, room reservations and scheduling of student activities, advising Associated Students Boards, and supervision of Campus Lab School Lawn Sellers area.

The Center develops campus publications and manages information delivery to prospective, new, and continuing students. Research conducted through the office serves as basis for new and improved publications and services for students.

Educational and experiential programs offered to students through the Center are new student orientation programs, the mentor program for ethnic students, leadership training for student leaders, and internships. The SRIC also coordinates programs for parents of new and continuing students. A Visitor/Hospitality Center is operated by and located adjacent to the SRIC.

New Hampshire Exchange Program

Students eager to attend a university on the East Coast for a semester may take advantage of the exchange program established between San Diego State University and the University of New Hampshire. The program permits participants to pay normal fees at their home campus while involved in the exchange, thus relieving them of additional tuition costs. Students must provide their own travel and room and board expenses; however, those currently receiving financial aid may continue to be qualified for it. Credits earned at New Hampshire are transferable to the home campus. To be eligible, the student must have completed at least 24 units by the exchange date, with 12 units completed at SDSU at the time of application. Minimum GPA required is 2.5. Interested students must apply to the Student Resource and Information Center before March 1, 1985 for the fall 1984 semester and by October 11, 1985 for the spring 1985 semester.

New Student Programs

The Student Resource and Information Center offers a wide variety of programs designed to introduce new students (first-time freshmen, transfer students, and graduate students) to San Diego State University. Although each program is uniquely designed, all contain academic preregistration deadline each semester. CONTACT, a campuswide orientation, is held the week before classes begin in the fall. For information, write the Student Resource and Information Center, CL-114, or call (619) 265-5223.

Student Government

The Associated Students of San Diego State University, which is the official organization for student government, is a nonprofit corporation and is designed to provide special student programs, services, and activities which are funded by the student activities fee. The Student Government is made up of three executive officers and one representative per 150 students. This body formulates policy and handles the business affairs of the student body.

Aztec Center

San Diego State University was the first of The California State University campuses to build and operate a permanent university center. Since its completion in September 1966, Aztec Center has served as a model facility to various college and university unions across the nation. It is governed by the Aztec Center Board.

The Center houses a multitude of conference rooms and lounges which are available at no charge for student use. Room reservations can be placed in the Aztec Center Office, lower level of Aztec Center.

The Associated Students offers a varied range of job opportunities to students of SDSU. If you are interested in becoming an A.S. employee, all job opportunities are posted in the Aztec Center Office.

Campus Children's Center

The Associated Students Campus Children's Center, a parent participation program, provides child care for SDSU students' children six months through five years of age who are in good health. First priority is given to families with the greatest financial need and to earliest applicants regardless of race, religion, creed or sex. Faculty/staff children are accepted as space permits.

Tuition for students is determined on a sliding fee scale based on family size and income. The program is staffed by professional and student employees, volunteers, parent participants and Child Development students. Parents make a weekly contribution of time as teachers in the classroom plus attend a weekly parent class or serve on a fund-raising or publicity committee. They also have the opportunity to serve on the Campus Children's Center Board which is composed of parents and other campus representatives.

The program is designed so that a variety of activities are offered which will foster the child's social, emotional, intellectual and physical development and help the child view himself/herself and the environment positively.

The hours of operation are 7:45 a.m. to 5:00 p.m. for the preschool center (children 28 months through 5 years) and noon to 5:00 p.m. for the infant center (children 6 months to 28 months). Kindergartners may attend the preschool between 1:00 p.m. and 5:00 p.m. if they were enrolled in the Center the previous semester.

Aztec Shops

Aztec Shops, Ltd. is a California nonprofit corporation which has existed since 1931 to serve San Diego State University. Its primary purpose is to provide bookstore and food services.

Other services of the Shops include ticket sales, a contract post office, vending machines, copy centers, automatic tellers, popcorn, ice cream, and pizza sales.

The Bookstore provides required textbooks, assigned class materials and reference works, and offers a large selection of general interest books and supplies. It is open on weekdays and Saturdays when classes are in session. A satellite Art Supply Store is located in the Art Building. There is also a branch bookstore at the Imperial Valley Campus. The copy center is located on the ground level of the bookstore, provides xerox copying, binding, and typewriter rental. Also a wordprocessing center has Dec-Mate wordprocessors for rent. Lecture Notes, a note-taking service, provides weekly notes taken with the approval of the faculty member, which are sold on a subscription basis. Paper Chase, located in the basement of the Bookstore, provides typewriters, copy machines and everything needed to prepare written materials for class.

The Food services operates the satellite snack bar, the Hotdogger, the mini snack bar, East Commons, West Commons, Dining Commons, and Monty's Den cafeterias. In addition, a meal ticket program is available to any enrolled student, as well as campus faculty and staff, with 14- and 10-meal options. The meal ticket allows the bearer to eat in any campus facility. The East Commons is also open to the campus community on Saturday and Sunday when classes are in session.

Housing and Residential Life

Residence Halls

Accommodations for 2,133 single students are available in seven coeducational residence halls on campus. Five halls are three-story, brick buildings accommodating 223 students each; the sixth and seventh halls, both high-rise buildings, accommodate 594 and 424 students respectively. All of the halls provide sleeping and study facilities on a two-students-per-room basis or in a small number of single rooms in Zura Hall. Student governments and staff in each of the halls recommend standards for basic behavior in the residence halls. Participation in campus activities is encouraged.

For 1984-85, the cost for room and board was approximately $2,700 (14-meal plan, double occupancy) per academic year. Rates are reviewed annually; you may anticipate cost-of-living increases to this rate. Three food service plans (10, 14 or 19 meals per week) are offered.

IT IS THE RESPONSIBILITY OF EACH STUDENT TO CONTACT THE HOUSING AND RESIDENTIAL LIFE OFFICE IF ONE WISHES TO OBTAIN ON-CAMPUS HOUSING. APPLICATIONS ARE SUBJECT TO A PRIORITY SYSTEM AS THE DEMAND EXCEEDS THE NUMBER OF SPACES ON THIS CAMPUS. For application form, contact the Residential Life Office.
envelope to the Housing and Residential Life Office at the University. For the coming academic year, housing applications are available in the preceding November and December. For spring semester applications, are available in September and October. A room reservation is confirmed after the student is admitted to the University, when a contract is received, and the first payment is received as specified. Though consideration will be given to a student's request for an individual hall and roommate, a specific assignment cannot be guaranteed.

No reservation can be confirmed until the student is accepted for admission to San Diego State University. Receipt of a housing contract does not mean that the University is committed to admitting the student.

During the Summer Sessions, rooms are available on a receipt-of-check date priority. A refundable security deposit must accompany a request for reservation.

Off-Campus Housing

Listings of apartments, houses, rooms and students seeking roommates are available adjacent to the Housing and Residential Life Office. In addition, counseling for students signing leases, with landlord-tenant conflicts, etc., is available at the Housing and Residential Life Office.

Because off-campus housing is limited, students are advised to begin their housing search at least one month before the first day of classes. The Housing and Residential Life Office organizes programs to assist students in locating off-campus housing. Workshops are also organized to educate students in tenant rights and responsibilities. For additional information please write: Off-Campus Housing, Housing and Residential Life Office, San Diego State University, San Diego, CA 92182.

Greek Letter Organizations

There are eleven national sororities at San Diego State University which provide housing accommodations for approximately 290 women. A formal rush program is held during the fall semester while informal rush continues throughout the entire year. For further information contact Panhellenic, c/o Housing and Residential Life Office, San Diego State University, San Diego, California 92182.

The 18 national fraternities invite students for membership at the beginning of each semester. Fraternities offer men opportunities to participate in a wide variety of social and recreational activities, to expand leadership abilities, to develop enduring friendships, to receive scholastic assistance, and to participate in community service organizations. Fraternity membership is not a requirement for admission.

Disabled Student Services provides the support services needed by students with physical disabilities for equal access to the educational process. Services include orientation for new students, priority registration for students with special needs, accessibility information, maps and elevator keys are available. The office provides interpreters for the deaf, readers and notetakers, as well as in-classroom testing assistance. Information on attendants and accessible housing in the campus area is available. Staff at Disabled Student Services provide government benefits counseling and assistance for personal, academic and vocational problems. A specialist provides evaluation and support services to learning disabled students. Special programs are scheduled throughout the semester. Students are also provided assistance with off-campus accommodations. Medical documentation of disability is required. For more information contact Disabled Student Services, Campus Lab School 110, 265-6473 Voice or TTY.

The Nuclear Power Instructor Collegiate Program offers financial assistance for men and women, paying over $1,000 per month to qualifying students completing their final two years of undergraduate or last year of graduate work in engineering, mathematics, chemistry or physics. It can be worth as much as $27,000 in the last two years followed by a teaching position in the Navy's Nuclear Power School. Applications for the Nuclear Power Instructor Program (11051-C) can begin after the sophomore or during the junior or senior years. The Division of Naval Reactors will determine initial eligibility by screening the college transcripts of interested applicants.

The Navy Officer Information Team visits the campus several times during the school year interested students are encouraged to see them for further information. Additional information may also be received by sending transcripts or calling the Officer Programs Office, NRD, San Diego, NTC San Diego, California 92133; telephone: 293-6444.

Educational Opportunity Program

This program is designed to assist undergraduate students from educationally disadvantaged or low-income groups who wish to acquire a college education but have not been able to realize their potential because of economic, educational or cultural environments. In cooperation with various federal, state and local agencies, the program recruits and enrolls students and provides scholastic and personal counseling during their undergraduate careers. Financial aid is disbursed through the Financial Aid Office to those students who prove financial need in accordance with federal and state guidelines. EOP attempts to ensure that each student shall have the opportunity to reach his or her fullest potential.

Veterans Services

The Veterans Affairs Office is located in Admissions and Records on the first floor of the Administration Building. The office assists veterans and eligible dependents in applying for VA educational benefits. Additionally, the office administers a tutoring program and assists veterans in finding VA Work Study positions. Students interested in applying for advance payment of the first GI Bill check should contact Veterans Affairs at least two months before the beginning of each school year. For more information, come in to the office or telephone 265-5813.

Veterans Services

Disabled Student Services provides the support services needed by students with physical disabilities for equal access to the educational process. Services include orientation for new students, priority registration for students with special needs, accessibility information, maps and elevator keys are available. The office provides interpreters for the deaf, readers and notetakers, as well as in-classroom testing assistance. Information on attendants and accessible housing in the campus area is available. Staff at Disabled Student Services provide government benefits counseling and assistance for personal, academic and vocational problems. A specialist provides evaluation and support services to learning disabled students. Special programs are scheduled throughout the semester. Students are also provided assistance with off-campus accommodations. Medical documentation of disability is required. For more information contact Disabled Student Services, Campus Lab School 110, 265-6473 Voice or TTY.

Parking

San Diego Transit has seven bus routes that service the University Transit Center, connecting with all areas of the metropolitan area. These are routes 11, 13, 15, 36, 80, 105, and 115. Diesel Transit at 233-3001. Bus schedule racks are located on campus at the Aztec Center On-campus parking is by permit only, and is very scarce during the fall and spring semesters. Where possible, car-pooling or use of alternative modes of transportation is recom-

General Information

The College of Arts and Letters is at the very heart of liberal arts education at San Diego State University. Its programs in the humanities and social sciences are offered through 18 academic departments and several interdisciplinary programs, each of which is designed to help students understand their role in society and to develop aesthetic sensibilities. Arts and Letters courses are offered to explore the experiences of men and women in society, their cultural expressions and practices, their languages, and their philosophical concepts. The College's highly trained, professionally active faculty seek to give students an awareness of the development of present knowledge and how to generate new knowledge. Students are encouraged to develop keen observation skills, the capacity to think critically, and the ability to express their views intelligently and sensitively as leaders.

Liberal Arts Courses

The College of Arts and Letters sponsors General Studies courses 101 and 301 which are interdisciplinary courses. They fall into two main categories: (1) lecture series on topics of current interest for which the humanities and social sciences bring insight; and (2) workshops designed to give liberal arts students skills desirable for advancement in their major, but not normally offered by their departments.

Students interested in enrolling in General Studies 101 and 301 should contact the faculty advisor of the department(s) offering the course or the College of Arts and Letters Assistant Dean for further details.

Curricula Offered

Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Arts and Letters.

Research Centers

Asian/Pacific American Studies Consortium

Ray T. Smith, Director

The Asian/Pacific American Studies Consortium is an association of faculty, staff, and students. The purpose of the Consortium is to develop an Asian/Pacific American Archives on campus and to carry on programs of research, seminars, colloquia, and other public activities of benefit to Asian and Pacific American communities in the San Diego area.

In particular, the Consortium maintains close relations with the Center for Regional History located in the University Library. The Center will house the Asian/Pacific American Archive and acquire permanent collections of documentation and personal memorabilia donated by local Asian and Pacific American communities. The Center welcomes donations of personal correspondence, diaries, family memoirs, photographic collections, and other old or rare materials. An oral history collection of tapes and transcripts is being developed.

The Consortium maintains connections with campus organizations including the Center for Asian Studies, the American Studies Committee, the Social Science Research Laboratory, the Asian-American Student Alliance, and the San Diego State University Foundation. General liaison is maintained with the College of Arts and Letters, the College of Education, the School of Social Work, and the University Library.

Asian Studies

Paochin Chu, Director

The Center for Asian Studies is an interdisciplinary organization in the College of Arts and Letters. Drawing upon faculty members from many fields, campuswide, it performs such services as (1) securing and administering grants and other support for research and development in Asian studies; (2) coordinating and publicizing the activities of faculty engaged in Asian-centered studies; (3) developing and administering the Asian studies program and relevant curricula at the undergraduate and graduate levels; (4) responding to campus and community requests for information and services; (5) fostering campus and community interest in Asian studies. The Center's reading room and study facility, located in AH-3172, contains Asian periodicals, books, pamphlets, dictionaries and maps.

Economics Research Center

Walter Vogt, Director

The Economics Research Center collects research materials, publishes occasional monographs, and encourages research of special interest to faculty and students in economics and related areas. The Center's printed data holdings are located in the Center for Public Economics and in the Social Science Research Laboratory and are currently utilized by the Economics Department, the Center for Research in Economic Development, the Institute of Labor Economics, and the local chapter of Omicron Delta Epsilon.

European Studies Center

Leon Rosenstein, Director

The European Studies Center coordinates and supports teaching and research related to the European area. It supervises the major and the minor in European studies for the A.B. degree. It sponsors the annual San Diego State University Summer Seminar and Travel Study tours to Europe at various times in the year. It administers the European Studies Center Laboratory in AH-3172, which contains books, pamphlets, English and foreign language periodicals, and a slide collection on European art and geography. The laboratory room is open.
several hours each day for study and research by students and instructors in courses dealing with any aspect of European studies. The Center also assists in the development of the university library's holdings in the European area and has created a special collection of library materials on European integration and unification which is being steadily and systematically expanded.

Japan Studies Institute
Elmer A. Keen, Director
The Japan Studies Institute coordinates research and instructional programs on campus concerning various aspects of Japan and nurtures ties between the University and organizations and individuals in the greater San Diego region interested in Japan and United States-Japanese relations. It develops and fosters student and faculty exchanges between San Diego State University and Japanese institutions of higher learning; tuition-free exchange arrangements exist at present with six universities located throughout Japan. The Institute works closely with Japanese and American business, industrial, and banking establishments in San Diego, addressing research of mutual interest and drawing support for relevant courses, seminars, and workshops offered by the University. The Institute operates under the jurisdiction of the College of Arts and Letters and is closely affiliated with the University's Center for Asian Studies.

Institute of Labor Economics
Adam Gifford, Director
The Institute of Labor Economics is a facility of the Department of Economics which encourages research by students and faculty in all phases of labor problems, collective bargaining, labor legislation and social security. The Institute is designed to complement the curricular and degree programs in the Department of Economics and to be of service to related disciplines. Publications are exchanged with 75 similar institutes at other universities. Research materials both printed and machine readable in the area of labor economics are maintained in the Social Science Research Laboratory, located on the lower level of the West Commons.

Latin American Studies
Thomas M. Davies, Jr., Director
The Center for Latin American Studies seeks to encourage teaching and research related to Latin America. It has primary responsibility for the administration of the Latin American Undergraduate Program and the Center is administered under the jurisdiction of the Department of Spanish and Portuguese.

Center for Regional History
Stephen A. Colston, Director
The Center for Regional History is an archives and museum that has as one of its objectives the acquisition, conservation, and processing of materials for researching the development of the San Diego region. The Center's archives contain personal papers and records of public, business, labor, cultural, religious and social service organizations, and includes oral history and pictorial materials. The museum houses artifacts excavated from the Real Presidio de San Diego and Spring Valley's Bancroft Ranch House Site; these collections also include field notes, site reports, and collateral documentation. While providing resources for the study of regional history, the Center's collections support multidisciplinary research on contemporary business, economic, historical, political, social, urban, and journalistic topics. The Center also serves as a teaching laboratory for students and community groups through programs which promote the utilization of primary source materials in research, writing and teaching of local history. The Center is located in LL-362.

Research in Economic Development
M. C. Madhavan, Director
The Center for Research in Economic Development (CRED) is part of the Economics Department's effort to assist and encourage teaching and research related to the problems and processes of economic development. CRED provides information and limited assistance to students and faculty. CRED's printed data holdings are located in the Social Science Research Laboratory, WC-101.

Social Science Research Laboratory
Paul J. Strand, Director
The Social Science Research Laboratory (SSRL) was founded in 1974 to facilitate faculty research and to support a diverse set of instructional programs throughout the behavioral and other sciences. Emphasizing public opinion polling and computer applications to social problems, SSRL offers a wide range of services to University faculty and staff, and students, as well as to the broader San Diego community. Services and operations are organized along the following lines:

Research Services: offers a complete range of services, including sample design and execution, coding and data reduction, and data archiving and retrieval.

Instructional Services: offers consultation in computer applications to social problems, including full range of statistical analysis programs. The Section also provides a range of instructional workshops and demonstrations about computer uses and applications, data management, and analysis.

Operations: offers services in the access and retrieval of computerized and other forms of quantitative data. The Section provides access to a number of large data archives, including the California Poll conducted by the Field Institute, hundreds of local, national and foreign polls, and other kinds of social data through the Interuniversity Consortium for Political and Social Research (ICPSR), certain portions of the most recent U.S. Census, and other sources.

Public Economics
George Babilot, Director
The Center for Public Economics is a facility of the Department of Economics to encourage research by students and faculty in all phases of nonmarket economic decision making, encompassing the following areas: (1) the functioning of federal, state and local fiscal systems, including the provision for and financing of public goods at each level; (2) the economic factors involved in environmental changes, in particular, their bearing on urban and local economic problems; (3) the economic dimensions of social decision making. The Center is designed to complement the curricular and degree programs in the Department of Economics and to be of service to related disciplines. It maintains research materials and facilities to assist research and publication in the area of public economics. Fiscal matters are coordinated through the San Diego State University Foundation. Financial support in the form of student assistance is available for faculty research projects on subjects in public economics. The Center funds a number of student scholarships which are administered through the Scholarship Office. The Center is located in PSFA-116.
College of Business Administration

Administration
Dean Allan R. Bailey
Associate Dean, Academic Affairs: Thomas M. Warschauer
Associate Dean, Graduate Studies: William F. Barber
Associate Dean, External Relations: Harold K. Brown
Assistant Dean for Undergraduate Studies and Student Affairs: Anna R. Newton

General Information
The College of Business Administration began in 1921 as a Department of Commerce in the Division of Social Sciences. In 1951 this department became the Division of Business and progressed to a School of Business Administration in 1961. In 1979 the name was changed to the College of Business Administration.

The programs in business administration provide high quality education and are designed to represent both general education and the theoretical and practical side of education for business. To this end, in 1959 the Division of Business Administration applied for and received accreditation for its undergraduate programs in business administration by the American Assembly of Collegiate Schools of Business (AACSB), and in 1963 the graduate programs of the School of Business Administration were accredited by AACSB. In addition, the School of Accountancy (within the College of Business Administration) received accreditation by AACSB in the first year (1982) that this special accreditation for schools of accounting was offered, being one of only twenty-two programs so recognized that year.

All undergraduate and graduate programs have enjoyed continuous accreditation since their points of first application. Furthermore, the College of Business Administration is one of only two colleges of business south of the Los Angeles metropolitan area to have had their undergraduate and graduate programs approved by AACSB.

In addition to a commitment to maintain a high quality, accredited program, the College has the following goals: (1) to create and maintain a highly motivated educational environment for both students and faculty; (2) to evaluate all College activities, including formal classroom and research, in terms of their contributions to effective learning; (3) recognizing the dynamic nature of business and the society it serves, to instill within students an awareness of the necessity to embark on lifelong careers of learning; (4) to prepare students for entry level positions which will provide advancement opportunities in their chosen careers; (5) to maintain an active, positive working relationship with the regional business community; and (6) to provide both degree and nondegree midcareer educational opportunities.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Business Administration.

Research Bureau

Business and Economic Research
The Bureau of Business and Economic Research is an organized research facility located in the College of Business Administration. The Bureau facilitates research activities of the faculty and the College of Business Administration and coordinates other campus resources for multidisciplinary projects. The Bureau is a full-service member of the National Association of University campuses.

The principal objectives of the Bureau are to (1) secure and administer grants and other support for conducting research in the areas of economics and business; (2) facilitate research and the dissemination of research activities and information to the faculty and students; (3) seek cooperative arrangements with other organizations for conducting specific research projects; (4) correspond on questions related to faculty in the College of Business Administration; and (5) publish the results of its investigations.

Graduate students and faculty are encouraged to make use of Bureau facilities.

College of Education

Administration
Dean (Acting): Lawrence B. Feinberg
Associate Dean: John D. Chamley
Assistant Dean: Jean Ramage

General Information
The mission of the College of Education is broad and multidimensional. The College is concerned primarily with preparing teachers, administrators, resource specialists, and support personnel for various educational settings; providing continuing professional educational opportunities for education personnel; continually assessing the quality and appropriateness of all education activities; contributing to the knowledge base of both educational theory and practice through research and scholarship; providing appropriate public service/technical assistance to individuals and agencies locally, regionally, nationally, and internationally; and contributing to the general intellectual climate of the University community. The College has had an ongoing commitment to programs serving culturally diverse communities and bilingual individuals.

The College of Education is organized into five academic units including the School of Teacher Education and the following departments: Special Education, Development, Administration and Technology; Counselor Education; and Policy and Administration. Master of Arts degrees are offered in nine academic areas of education. The Master of Science degree is offered in two additional academic areas. A doctoral program in education is offered jointly with Claremont Graduate School. The program is currently in its seventh year of operation. This unique program features a multicultural education emphasis. Approved teaching credential programs are offered for the multiple subjects credential, the single subject credential, and the community college instructor credential, as well as a number of specialist and service credentials.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Education.

Research Centers

Counselor Education
Paul Bruce, Director

The Center for the Study of Counselor Education is a unit within the College of Education designed to provide support for activities such as (1) securing and administering grants and other support for research and development in counselor education; (2) encouraging cooperation with faculty members from other relevant disciplines and the University Counseling Center; and (3) conducting programs or rendering services designed to promote counselor education at San Diego State University. The Center is administered by the Department of Counselor Education; fiscal matters are coordinated through the San Diego State University Foundation.

Institute for Cultural Pluralism

The Institute for Cultural Pluralism (ICP) is an umbrella organization, housing projects funded by federal, state and private sources. The ICP currently includes the National Origin Desegregation/Lau Center, the Multifunctional Bilingual Service Center, and the Social Equity Technical Assistance Center. These centers focus on issues of social equity, conduct research on questions related to equity in schools, and provide technical assistance to districts throughout southern California and parts of Arizona.
Center for Instructional Technology Research and Training
Patrick J. Harrison, Director

The purpose of the Center is (1) secure grants and contracts for research and development in instructional technology; (2) conduct workshops, seminars and conferences relating to applications of instructional technology to teaching, training and management; (3) respond to campus and community requests for information and assistance; (4) assist in conducting needs assessments, task analyses, instructional program design and evaluations of instructional products or programs; and (5) disseminate information reflecting model use of instructional technologies. The Center uses instructional technology to address education and training problems in health, school, military, business and social service settings. The Center functions within the Department of Educational Technology and Librarianship of the College of Education at San Diego State University.

Center for Vocational Rehabilitation
Fred McFarlane, Director

The Center for Vocational Rehabilitation coordinates and supports training and research activities in the field of vocational rehabilitation. This Center operates within the College of Education and works directly with faculty interested in this area. The Center for Vocational Rehabilitation administers projects funded by local, state and federal agencies. The Center’s facilities are located in the Alvarado area in close proximity to the campus.

College of Engineering

Administration
Dean: George T. Craig
Associate Dean: Nihad Hussain
Assistant Dean for Student Affairs: Frank Stratton

General Information

At the undergraduate level, the College of Engineering prescribes certain patterns of its courses, combined with those of other academic divisions of the University, as a program of 133 semester units leading to the Bachelor of Science degree in the four specific major fields of engineering: aerospace engineering, civil engineering, electrical engineering, and mechanical engineering. At the graduate level, the College offers the Master of Science degree in these same fields.

The objective of the engineering program at San Diego State is to provide the intellectual and physical environment best calculated to encourage students to develop their capacities toward a successful career in the profession of engineering. Graduates of this program are able to assume personal responsibility for the development and application of engineering knowledge with wisdom and judgment for the benefit of mankind. They are qualified to take the Engineer-in-Training examination as a first step to professional registration, to enter industry at the junior engineer level, or to continue formal education at the graduate level. Because the engineer’s work is predominantly intellectual and varied, and not of a routine mental or physical character, this program places emphasis on the mastery of a strong core of subject matter in the physical sciences, mathematics, and the engineering sciences of broad applicability. Woven throughout the pattern is a continuing study of the sociohumanistic facets of our civilization, because the engineering graduates must expect to find their best expression as leaders, conscious of the social and economic implications of their decisions.

Although the profession of engineering presents in practice a variety of specialties, undergraduate students initially focus their attention on a pattern of course work emphasizing engineering fundamentals. Students then are able to utilize this knowledge of fundamentals in developing special knowledge in their areas of specific interest.

Curricula Offered

Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Engineering.
College of Human Services

Administration
Dean: Peter Dual
Associate Dean: Dolores A. Wozniak
Assistant Dean for Student Affairs: Barry Jones

General Information
The mission of the College of Human Services is to offer excellence, uniqueness, and opportunity in professional education in health and human service disciplines. The College of Human Services consists of the following group of professional schools, departments, and centers: the Graduate School of Public Health, the Schools of Nursing and Social Work, the Departments of Communicative Disorders and Health Science, the Clinical Training Center, and the University Center on Aging.

The College of Human Services faculty through close advising, teaching, and supervising offers students a balanced education of academic study, field placement, clinical experiences, and research opportunities. Thus, faculty and students share an understanding of the relationship between California’s diverse populations and lifestyles and the challenge of improving the quality of the human condition. Therefore, the common goal of each of the College’s professional programs is to assist students in developing competence in professional practice and research methods that develop their expertise to gather information, plan, and evaluate professional actions. This commitment to students produces alumni who will continue to work effectively with our professional schools and departments to preserve and promote the well-being of individuals, groups, and communities.

Bachelor of Arts, Bachelor of Science, Master of Arts, Master of Science, Master of Public Health, and Master of Social Work degrees are conferred. In addition, students may receive national accreditation, state credential or state licensure, and national or state professional certification depending upon the program and the legal requirements and obligations for practicing the profession. All programs also provide inservice training for professionals already in the field.

Human Services Courses
The College of Human Services sponsors General Studies courses 220, 302 and 502. The purpose of these courses is to provide an opportunity for interdisciplinary study for students entering human service professions. Refer to the Class Schedule for specific content.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Human Services.

Master’s Degrees
Communicative Disorders (M.A.), Nursing (M.S.), Public Health (M.P.H.), Social Work (M.S.W).

Bachelor’s Degrees
Health Science (B.S.), Nursing (B.S.), Social Work (A.B.), Communicative Disorders (A.B.).

Minors
Communicative Disorders, Gerontology, Health Science, Social Work.

Certificate Programs
Gerontology, Human Services Paraprofessional, Preventive Medicine Residency, Professional Services Bilingual/Bicultural.

Research Center
University Center on Aging
E. Perll Stanford, Director
The University Center on Aging is a multidisciplinary organization located in the College of Human Services. The Center is active in such areas of aging as (1) supporting interdisciplinary educational and curriculum efforts; (2) undertaking research and evaluation activities; (3) providing technical assistance and agency consultation for the community; (4) coordinating workshops and seminars for faculty, students, and community members; and (5) providing opportunities for student involvement in the community. The Center has a commitment to include ethnic minority content in each area described.

The University Center on Aging works with a wide variety of disciplines to provide students an opportunity to take gerontology related courses across a number of colleges, schools and departments. Courses pertaining to aging are being offered within Psychology, Social Work, Health Science, Sociology, Family Studies and Consumer Sciences, Anthropology, Recreation, Nursing, and Biology. Students wishing to organize a series of courses to meet their needs in the area of gerontology are encouraged to contact the Center Director or staff for more specific information on course offerings.

The Center is responsible for the coordination of a certificate program in conjunction with the College of Extended Studies. This program is geared toward individuals who are likely to be currently working in gerontologically related professions. In addition, the Center administers an undergraduate minor in gerontology.

Other major activities of the Center are administering a National Institute on Minority Aging, a summer Elderhostel program, and RAVE (Retired Active Volunteers in Education). The Center serves as a central point for the development and dissemination of minority aging data nationally.

Clinical Laboratory, School of Nursing.
College of Professional Studies and Fine Arts

Administration
Dean: Merrill Lessley
Associate Dean: Stephen W. King
Assistant Dean for Academic Affairs: Barbara W. Hartung
Assistant Dean for Student Affairs: Carole Robasciotti
Assistant Dean for Physical Resources: Fred Hammond
Director, Development and Public Affairs: Michael Lewis

General Information
Comprised of 14 departments and schools, the College of Professional Studies and Fine Arts is a multilaceted college which offers students diverse educational opportunities coupled with interdisciplinary, internship, and participatory programs in several areas of study. The College's academic programs not only encourage intellectual development but help prepare students for professional careers in a wide spectrum of cultural, educational, social, economic, and technical fields. Bachelor's degrees, and master's degrees in most disciplines, are awarded in art, drama, family studies and consumer sciences, industrial studies, journalism, music, physical education, public administration and urban studies, recreation, speech communication, and telecommunications and film. Three ROTC programs (Air Force, Army, and Navy) which lead to commissioned officer status upon graduation are also offered.

The College reaches out to the community through its performing arts programs in art, drama, music, and dance. It is further involved with the community through sponsorship of an active intramural sports program, an adult fitness program, and in the area of public affairs through the well-known annual Institute on World Affairs - to name but a few areas of community services. In addition, three research centers housed in the College allow students opportunities for firsthand research experience. They are the Center for Communications, the Institute of Public and Urban Affairs, and the Institute for Leisure Behavior. A number of the instructional programs in the College have been accorded full five-year or ten-year national accreditation status.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Professional Studies and Fine Arts.

Master's Degrees

Bachelor's Degrees
Art (A.B.), Child Development (B.S.), Criminal Justice Administration (B.S.), Drama (A.B.), Foods and Nutrition (B.S.), Home Economics (A.B.), Industrial Arts (A.B.), Journalism (A.B.), Music (A.B., B.M.), Physical Education (A.B.), Public Administration (A.B.), Radio-Television (A.B., B.S.), Recreation Administration (A.B.), Speech Communication (A.B.).
College of Sciences

Administration
Dean: Donald R. Short
Associate Dean: James W. Neel
Associate Dean: James W. Brown
Associate Dean for External Relations: Gordon L. Shakelford
Assistant Dean for Student Affairs: Celia L. Marshak

General Information
The College of Sciences, composed of eleven departments and various subprograms, offers bachelor's, master's and doctoral degrees and curricula for preprofessional students in medicine, veterinary medicine and dentistry. The science curriculum is enhanced by research centers which provide field experience as well as special seminars with guest speakers. The off-campus sites include the Mt. Laguna Observatory, about 5,000 acres in three separate biological sciences research stations, and a marine research laboratory managed jointly with Hubbs Research Institute. The majority of tenured Sciences faculty have active research programs which offer student involvement.

Curricula Offered
Refer to the Courses and Curricula section of this catalog for a complete listing of program requirements and courses offered by departments within the College of Sciences.

Joint Doctoral Degrees
Biology, Chemistry, Ecology, Genetics

* Admission to this program is closed.

Master's Degrees
Applied Mathematics (M.S.), Astronomy (M.S.), Biology (M.A., M.S.), Chemistry (M.A., M.S.), Computer Science (M.S.), Geological Sciences (M.S.), Mathematics (M.A.), Microbiology (M.A.), Physics (M.A., M.S.), Psychology (M.A., M.S.), Radiological Health Physics (M.S.), Statistics (M.S.)

Bachelor's Degrees
Astronomy (A.B.), Biology (A.B., B.S.), Chemical Physics (B.S.), Chemistry (A.B., B.S.), Computer Science (B.S.), Environmental Health (B.S.), Geological Sciences (B.S.), Mathematics (A.B., B.S.), Microbiology (A.B., B.S.), Physical Science (A.B.), Physics (A.B., B.S.)

Minors
Astronomy, Biology, Chemistry, Computer Science, Energy Studies, Geological Sciences, History of Science and Technology, Mathematics, Oceanography, Physics, Psychology

Certificate Programs
Recombinant DNA Technology

Other Curricula
Medical Technology, Preclinical, Premedical, Preventerinary

Research Centers
The Edwin C. Allison Center for the Study of Paleontological and Geological Sciences
Richard H. Miller, Director

The Allison Center supports research in paleontology, geology and related sciences. The Center maintains a research library containing journals, reprints, and some textbooks, and houses a collection of fossil and recent vertebrates, invertebrates, and plants. Research space is available for students, faculty, and visiting scholars. Small grants and other funds and equipment are available to students and faculty for research projects. The Center also publishes reports of various types containing geological information related to the southern California and northern Baja regions.

Center for Behavioral Medicine
Robert M. Kaplan, Director

The Center for Behavioral Medicine was established in 1982 to promote research and academic programs relevant to applications of behavioral science principles in medicine and health care. Recent developments in behavioral technology have created methodologies that may be useful in the prevention, diagnosis, treatment, and rehabilitation of a variety of conditions. Behavioral medicine involves collaborative efforts between physicians and basic scientists from a variety of different fields. Current Center research projects involve physicians from a variety of specialties (including surgery, chest medicine, endocrinology, cardiology, family practice, and pediatrics) with epidemiologists, exercise physiologists, dieticians, and many others.

Currently the Center works with the University of California at San Diego Medical Center, Scripps Clinic and Research Foundation, and Children's Hospital and Health Center. Funding for the Center comes from federal and private foundation grants.

The Center offers opportunities for graduate students to be involved in collaborative research efforts and has a commitment to provide important research experience to advanced students. The Center also participates in the Minority Access to Research Careers (MARC) Program funded by the National Institutes for Health.

The Center is located in the Alvarado Medical Center at 6363 Alvarado Court, Suite 101, San Diego, CA 92120; telephone (619) 265-4350.

Biological Field Stations
Walter C. Oechel, Director

SDSU operates three field sites to facilitate research and teaching in the chaparral and related ecosystems of San Diego County. These field sites, administered by the College of Sciences, support interdisciplinary research and educational activities in ecology and other areas of biology, soils, hydrology, geology, physics, geography and anthropology.

The field sites are the 4400-acre Sky Oaks Biological Research Station in Chihuahua Valley north of Warner Springs, the 2700-acre Santa Margarita Ecological Reserve near Temecula, and the 500-acre Fortuna Mountain Ecological Reserve north of Mission Gorge Road in San Diego.

The Sky Oaks Biological Research Station maintains laboratory and dormitory facilities and weather stations. It is adjacent to the Anza Borego State Park, Cleveland National Forest, BLM lands, and private land. The proximity of these lands provides many research and teaching opportunities which would otherwise be unavailable. This site offers a diversity of community types, including red shank-chamise, mixed chaparral, oak woodlands, grassland, riparian communities, and pines. Most of the chaparral is old, having been burned in the 1927 fire, but aged communities of 2 and 85 years also exist on the property. A variety of soils and rock types are present and rich groundwater resources and archaeological sites are on the property.

The Santa Margarita site provides riparian vegetation, oak woodlands, grasslands, coastal sage scrub, chamise chaparral and mixed chaparral. While pockets of older chaparral exist, much of the chaparral vegetation is young, having been burned in the 1969 fire. Abundant wildlife exists and the Santa Margarita River, a perennial stream, offers stream and riparian habitat for study. The area is undeveloped and relatively undisturbed.

Students and faculty wishing to conduct research at one of the biological field sites or to use these areas for instructional purposes should contact the campus Biological Field Stations office in HA-526. Reports describing the ecology and development of the Santa Margarita and Sky Oaks sites are available from the director.
Center for Energy Studies
Philip R. Pryde, Acting Director

The San Diego State University Center for Energy Studies (CES) facilitates, promotes and supports research and academic programs relating to energy, with particular emphasis on energy matters of concern to the San Diego and local southwest region. The Center encourages interdisciplinary research and instructional programs in the broad areas of energy modeling, technology assessment of energy systems, local energy policy planning and data collection relating to energy usage in the San Diego area. Research in specific energy technologies is also carried out by various faculty who are members of the Center. SDSU offers through the Center an interdisciplinary minor in energy studies. Completion of the minor will give the student a broad understanding of the technical, economic, social, and political aspects of energy issues. For more information call the Center at 265-6240 or 265-5485. The Center works closely with local and state agencies concerned with energy policy and planning, and serves as a community resource in matters concerning local energy issues. The Center is located in the College of Sciences and administered by an executive committee consisting of faculty from the colleges of Sciences, Engineering, Arts and Letters, and Professional Studies and Fine Arts.

Center for Marine Studies
Richard F. Ford, Director

The primary functions of the Center for Marine Studies are to coordinate and represent the multidisciplinary Marine Studies Program offered by departments within the University, to aid in the development of instructional, research, and public service aspects of the program, and to provide special supporting services to those involved. The Center is operated as a special unit of the College of Sciences. Supporting services sponsored by the Center include advising students concerning marine studies, assistance to faculty and students in research, preparation of manuscripts and publication, operation of the SDSU Marine Laboratory at Mission Bay and the University's Encina Laboratory at Carlsbad, California, a boat operations program, and the University Diving Safety Program. The Center is administered by a director, associate directors, and an executive committee consisting of faculty members elected from participating departments in the College of Arts and Letters, the College of Business Administration, the College of Engineering, the College of Professional Studies and Fine Arts, and the College of Sciences. Additional information about the Marine Studies Program and student advising is available from the Center for Marine Studies office in PS-103.

Molecular Biology Institute
A. Stephen Dahms, Director

The Molecular Biology Institute was established to serve interested departments of the biological and physical sciences in the coordination, support and enhancement of research and instruction in the molecular biological sciences. Interests and activities of the MBI encompass all approaches which aim to explain biology at the molecular level. Currently, full members and respective Ph.D. programs. Associate members are drawn from a variety of disciplines that are not unit authorized to administer the master's degree program with an emphasis in molecular biology. Funding for the research programs administered by MBI members is provided by the National Institutes of Health, the National Science Foundation, the American Heart Association, the American Diabetes Association, and the Muscular Dystrophy Association, and Sea Grant (NOAA).

Paleobiology Council
Richard D. Estes, Director

The Paleobiology Council is an interdisciplinary research and teaching group concerned with exploration of the fossil record. It is composed of faculty members from the Departments of Geology and Geological Sciences and the San Diego Natural History Museum. Students interested in pursuing an Interdisciplinary Special Major leading to an M.A. in Paleobiology may do so under the direction of the committee.
Imperial Valley Campus, Calexico

Administration
Dean: David Ballesteros
Associate Dean for Academic Affairs: Armando Arias, Jr.
Special Assistant to the Dean: Dana W. Murphy
Assistant Dean for Student Affairs: Cynthia C. Flores
Director of Admissions and Records: Kathleen Russum
Director of Library Services: Louise Lovely
Business Manager: Emma Odegard

Faculty
Emeritus: Harmon, King, Rodney, Spencer
Professors: Baldwin, Smith, Wilson
Associate Professors: Ayala, Erzen, Franklin, Monk (Visiting), Polich, Polkinhorn, Ryan, Varela-Ilbarra
Assistant Professors: Dunn, Hill, Quintana
Lecturers: Akers, Bell, Bernardi, Blek, Blumberg, Bowen, Butler, Dady, Dolinar, Dosher, Fields, Fuentes, Harmon, Johnson, Larsson, Lazer, Livingston, Lohr, Maddox, Mitchell, Murphy, Murray, Paul, Perry, Puddy, Rousseau, Shaver, Shinn, Stampel, Stevenson, Velasco, Villarino

General Information
The Imperial Valley Campus is a two-year upper-division campus of San Diego State University serving the desert area of southeastern California. It is accredited as an integral division of SDSU and operates under the same academic calendar. Established in 1959 by an act of the State legislature, the campus is located on the Mexican border in Calexico in the Imperial Valley. Offering only the last two years of undergraduate education as well as a fifth year credential program for teacher preparation and occasional M.A. programs, the campus accepts transfer students, from community colleges or other colleges, who have at least 56 units. As a small campus with a low student/faculty ratio, the Imperial Valley Campus offers students the advantages of small classes and individual contact with the faculty. Instructional television (ITFS) provides students in Calexico the opportunity to participate in some classes broadcast live from the main campus in San Diego. The Imperial Valley Campus schedules its classes to meet once a week in three-hour blocks so that students who work full time can earn 9-12 units a semester by attending classes once or twice a week. Classes are also offered on the weekends.

The location on the Mexican border provides the opportunity for involvement in a bicultural environment. There are many opportunities to participate in the cultural life of Mexico, just across the border, a city of more than 600,000 people. There are also many opportunities on the U.S. side of the border to be involved in a bilingual/cross-cultural setting. There is an exchange program for students between the Imperial Valley Campus and the Universidad Autonoma de Baja California which allows students to take classes at either of the participating universities and receive credit at their home institution. Among the faculty are professors with Latin American emphases in history, geography, sociology, and Spanish. The faculty is also augmented with other Latin American specialists from Mexico and from the San Diego campus.

The Imperial Valley is one of the richest agricultural centers in the country. It has a desert climate with mild winters and little rainfall. Because of this, the area has a great potential for the development of alternative energy sources. Geothermal energy is already being produced in the area and solar and wind energy are both potentially important sources for future development. The desert also offers the opportunity to study a fragile ecological environment. Highly significant archaeological discoveries have been made in the area and there is continuing archaeological fieldwork.

Curricula Offered
Degrees
Major in criminal justice administration with the B.S. degree in applied arts and sciences.
Major in English with the A.B. degree in liberal arts and sciences.
Major in history with the A.B. degree in liberal arts and sciences.
Major in Latin American studies with the A.B. degree in liberal arts and sciences.
Major in liberal studies with the A.B. degree in applied or liberal arts and sciences.
Major in psychology with the A.B. degree in liberal arts and sciences.
Major in public administration with the A.B. degree in applied arts and sciences.
Major in social science with the A.B. degree in liberal arts and sciences.
Major in Spanish with the A.B. degree in liberal arts and sciences.
Minor in public administration.
Minor in small business management.

Occasionally the Imperial Valley Campus cooperates with academic units and the Graduate Division of the San Diego Campus in offering selected graduate programs leading to advanced degrees. Such programs, scheduled on a part-time basis for working professionals, have been offered for the Master of Arts degree in Education with a concentration in Multicultural Education and in Administration and Supervision; these have been provided through cooperative arrangements with the College of Education. A similar program, provided by the School of Social Work, offers a course of graduate study leading to the Master of Social Work degree.

Certificate Programs
Business Administration, Public Administration, Spanish Translation and Court Interpreting

Teaching Credentials
Basic
Multiple subject
Multiple subject (bilingual emphasis)
Single subject
Specialist
Bilingual/Cross-cultural — in conjunction with the College of Education
Administrative Services — in conjunction with the College of Education

For further information see the Bulletin of the Imperial Valley Campus.

Facilities
The campus is located on an eight-acre city block in the heart of Calexico’s Civic Center, across from Rockwood Plaza. This was originally the site of Calexico’s first high school, and the campus buildings, including Rodney Auditorium, are part of the original school and library media center which was dedicated in February 1983. A modern language laboratory and minicomputer laboratory have also been added.

The library is expanding its collection from its current 28,000 volumes to approximately 50,000 volumes by the end of the decade. It subscribes to over 300 periodicals. Quick inter-library loan services make the library resources of the entire CSU system available to Calexico faculty and students. The Media Center provides assistance to the faculty in the use of educational technology. It has a wide range of equipment for use in the classroom. A student union, bookstore, administration, student services, faculty office and shop buildings make up the facilities on the campus.

Admission, Registration, and Commencement
To apply for admission to the Imperial Valley Campus, students must file a complete application and transcripts as outlined elsewhere in this catalog. Both completed application and transcripts should be sent to the Admissions Office, San Diego State University, North County Center, or both.

Students may register for North County classes by using the mail registration procedures or by registering in person at the Center prior to the start of classes. See the current Class Schedule for registration dates.

Student Services
In addition to on-site registration and payment of fees, student services provided at the Center include academic advising, career counseling, veterans benefit information, financial aid information, testing, textbook purchase, library services, and student activities.

Fees
Fees for courses offered at the North County Center are the same as those charged on the main campus. For specific information, see the Schedule of Fees in this catalog.
Division of Undergraduate Studies
Division of Undergraduate Studies

Objectives and Functions

The Division of Undergraduate Studies serves to provide coordination, evaluation, and stimulation to the undergraduate programs at San Diego State University. It has general responsibility for the undergraduate curriculum, and for academic standards and regulations that affect undergraduate students.

The Division has a special concern and responsibility for academic programs of a University-wide character. It administers the University Honors Program and Programs of Exchange, CSU International Programs, the Servicemen's Opportunity College, and the preprofessional program in law. In addition, it sponsors the Liberal Studies majors.

On significant matters of University-wide concern, the Division of Undergraduate Studies submits proposals to the University Senate for consideration and action.

Above all, the Division of Undergraduate Studies exists to promote the quality, diversity and richness of the undergraduate programs at San Diego State University. It does so through the active involvement of students and faculty in the programs of the Division.

Honors Program

University Honors Program

The University Honors Program provides opportunities for students with demonstrated academic ability to find the stimulation and challenge that will help them develop their potential. Available, students should anticipate enrolling in at least two honors courses each year, students in all majors, and involves small classes, special advising in both academic student exchanges with similar programs across the nation, or before completion of four honors sections of regular classes, as well as those specially designed for the program, are drawing on their other work from the regular offerings of the University. The program is open to requirements and career opportunities, opportunity for independent projects, and participation in academic honors classes who have completed fifteen San Diego State units or thirty semester transfer units are eligible to begin the Cooperative Education job search. Furthermore, professional contacts made during the Cooperative Education work experience, a student receives evaluations by an immediate supervisor and by a faculty member from the student's department or college. The student also completes an academic project arranged in advance with a faculty member from the student's department or college. The Division of Undergraduate Studies supports the student's major department.

San Diego State's goal is to enable all students who desire to do so to benefit from this unique educational program. Additional information regarding the program may be obtained from the Cooperative Education Office, the Division of Undergraduate Studies, the Center for Counseling Services and Placement, the University Advising Center, the Cooperative Education Coordinator in the College of Engineering or the College of Professional Studies and Fine Arts, and from the Assistant Dean for Student Affairs in each college.

International Programs

The California State University (CSU) International Programs offers students the opportunity to continue their studies overseas for a full academic year while they remain enrolled at their home CSU campus. The International Programs' primary purposes are to enable selected students to gain a firsthand understanding of other areas of the world and to advance their knowledge and skills within specific academic disciplines in pursuit of established degree objectives.

A wide variety of academic majors may be accommodated by the 25 foreign universities cooperating with the International Programs in 15 countries around the globe. The affiliated institutions are the University of Sao Paulo (Brazil); the Universities of the Province of Quebec (Canada); the University of Copenhagen (through Denmark's International Student Committee's Study Division); the University of Provence (France); the Universities of Hamburg, Heidelberg, and Tübingen (Germany); the Hebrew University of Jerusalem (Israel); the University of Florence (Italy); Waseda University (Japan); the Iberoamericana University (Mexico); Massey University and Lincoln University College (New Zealand); the Catholic University of Lima (Peru); National Chengchi University (Republic of China/Taiwan); the Universities of Granada and Madrid (Spain); the University of Uppsala (Sweden); and the Universities of Bradford and Bristol (United Kingdom). Information on academic course offerings available at these locations may be found in the International Programs Bulletin which may be obtained from the International Programs representative on campus.

Eligibility for application is limited to those students who will have upper division or graduate standing at a CSU campus by the time of departure, who possess a cumulative grade point average of 2.75 or 3.00 (depending on the program) for all college level work completed at the time of application, and who will have completed required language or other preparatory study where applicable. Selection is competitive and is based on home campus recommendations and the applicant's academic record. Final selection is made by the Office of International Programs in consultation with a statewide faculty selection committee.

The International Programs supports all tuition and administrative costs overseas for each of its participants to the same extent that such funds would be expended to support similar costs in California. Students assume responsibility for all personal costs, such as transportation, room and board, and living expenses, as well as for required fees. Because they remain enrolled at the regularly seeking new business, industrial, and government contacts in order to provide appropriate employment for interested students.

During the Cooperative Education work experience, a student receives evaluations by an immediate supervisor and by a faculty member from the student's department or college. The student also completes an academic project arranged in advance with a faculty member in the student's major department.

San Diego State's goal is to enable all students who desire to do so to benefit from this unique educational program. Additional information regarding the program may be obtained from the Cooperative Education Office, the Division of Undergraduate Studies, the Center for Counseling Services and Placement, the University Advising Center, the Cooperative Education Coordinator in the College of Engineering or the College of Professional Studies and Fine Arts, and from the Assistant Dean for Student Affairs in each college.
International Student Exchanges

In addition to the international programs sponsored by CSU, San Diego State University has entered into special institutional arrangement with selected foreign universities that provide both undergraduate and graduate students the opportunity for study abroad. Currently San Diego State University has exchange agreements with universities in Brazil, France, Indonesia, Israel, Japan, Mexico, the People's Republic of China, and the United Kingdom. Information about student exchange opportunities may be obtained from the Graduate Division Office.

International Study Courses

San Diego State University provides the opportunity for students enrolled in The California State University International Programs to receive credit for special study or for subjects taken at universities abroad. The numbers 200, 400, and 500 are used to designate lower division, upper division, and upper division also acceptable for graduate credit. Transcript designation will be IS 200, 400, 500.

IS 200, 400, 500. Projects in Study Abroad (Subject to be designated by Overseas Resident Director, International Programs) (1-6) I, II
Prerequisite: Open only to students in The California State University International Programs. Course work taken by students studying abroad under the auspices of the CSUIP. May be repeated with different content.

University Prelaw Adviser

Students interested in pursuing a legal career are counselled by the University prelaw adviser. Through this office, prelegal students receive information and advice concerning law school application and admission procedures. Guidance in undergraduate preparation for law study is also available. The University prelaw adviser can be contacted through the Political Science Department.
Graduate Division

Organization and Administration
All graduate work leading to advanced degrees is under the jurisdiction of the Graduate Division. Responsibility for all graduate curricula is delegated to the Graduate Council under the chairmanship of the Dean of the Graduate Division, who also serves as the administrative officer of the Graduate Division.

The Graduate Division admits all students to the University and to authorized graduate degree curricula, determines students' eligibility to continue in such curricula and, in the cases of unsatisfactory performance, requires students to withdraw from graduate curricula and the University.

The Dean of the Graduate Division is the appropriate University authority for the administration of all matters related to graduate degree curricula, minimum requirements for which are specified in Section 40504 of the California Administrative Code.

Association Membership
San Diego State University is a member of the Western Association of Graduate Schools and the Council of Graduate Schools in the United States.

Degrees Offered
All master's degrees are conferred by the Trustees of The California State University upon recommendation of the faculty of San Diego State University. These degree programs are designed to provide instruction for graduate students in the liberal arts and sciences, in applied fields, and in the professions, including the teaching profession.

Doctoral degrees are awarded jointly by the Board of Regents of the University of California and the Board of Trustees of The California State University in the names of San Diego State University and the Board of Trustees of The California State University and the Board of Fellows of the Claremont Graduate School.

Doctor of Philosophy
The Doctor of Philosophy degree in Biology is offered jointly with the University of California, San Diego.

The Doctor of Philosophy degree in Chemistry is offered jointly with the University of Davis.

The Doctor of Philosophy degree in Ecology is offered jointly with the University of California, Berkeley.

The Doctor of Philosophy degree in Genetics is offered jointly with the University of California, San Diego.*

* Admission to this program is closed.

Master of Arts
The Master of Arts degree is offered in the following fields:

- American studies
- Anthropology
- Art
- Asian studies
- Biology
- Chemistry
- Communicative disorders
- Drama
- Economics
- Education
- English
- French
- Geography
- German
- History
- Industrial arts
- Latin American studies
- Linguistics
- Mathematics
- Music
- Philosophy
- Physical education
- Physics
- Political science
- Psychology
- Public history
- Radio and television
- Russian
- Sociology
- Spanish
- Special major
- Speech communication

Nondegree Postbaccalaureate Study
In addition to specific programs of graduate study, the Graduate Division offers to individuals holding a bachelor's degree the opportunity to pursue postbaccalaureate study for reasons other than acquiring an advanced degree or credential. By selecting from the variety of academic experiences provided by the seven colleges of the University, the postbaccalaureate student may seek to satisfy intellectual curiosity, upgrade professional skills, or perhaps prepare for a change in career.

Not bound by a prescribed course of study or a time limit, the postbaccalaureate student is eligible to enroll in all courses for which he or she meets the prerequisites. Additionally, the course of study may be selected from the list of available courses in the Graduate Division Bulletin under the departmental listings. Students are also advised to contact the departmental offices as soon as graduate work is contemplated in the final baccalaureate year for advice as to how to proceed. Some departments stop reviewing applications earlier than others because of the limited space available.

Admission to Postbaccalaureate Study
Admission to San Diego State University for postbaccalaureate study is open to those applicants judged by the University to be fully qualified and to those who can benefit from the experience. The requirements listed below are the minimum required for admission to the University. For many programs, the departments have established additional requirements. Potential applicants should refer to the Graduate Division Bulletin under the departmental listings. Students are also advised to contact the departmental offices as soon as graduate work is contemplated in the final baccalaureate year for advice as to how to proceed. Some departments stop reviewing applications earlier than others because of the limited space available.

Master of Science
The Master of Science degree is offered in the following fields:

- Accountancy
- Aerospace engineering
- Applied mathematics
- Astronomy
- Biology
- Business administration
- Chemistry
- Civil engineering
- Computer science
- Counseling
- Electrical engineering
- Geological sciences

- Home economics
- Mass communications
- Mechanical engineering
- Microbiology
- Nursing
- Nutritional sciences
- Physics
- Psychology
- Radiological health physics
- Rehabilitation counseling
- Special major
- Statistics

Master of Business Administration
Master of City Planning
Master of Fine Arts in Art
Master of Fine Arts in Drama
Master of Music
Master of Public Administration
Master of Public Health
Master of Social Work
Application Procedures

All applicants for postbaccalaureate study (e.g., advanced degree applicants, those seeking credentials or certificates, and those interested in taking courses for personal or professional reasons, etc.) must file a complete application within the appropriate filing period. **Second baccalaureate degree candidates should apply as undergraduate degree applicants.** A complete application for postbaccalaureate study includes all of the materials required for undergraduate applicants plus the supplementary graduate admissions application. Postbaccalaureate applicants, including those who completed undergraduate degree requirements and were graduated from this University, are also required to complete and submit an application and the $35.00 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternative campuses or later changes of campus choice will be minimal. In the event that a postbaccalaureate applicant wishes to be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. Applications may be obtained from the Admissions and Records Office or the Graduate Division Office of any California State University campus.

General Admission Requirements

All applicants for any type of postbaccalaureate study at San Diego State University must:
(a) hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by the Dean of the Graduate Division; (b) have attained a grade point average of at least 2.5 (when standing at the last institution attended. Applicants who do not qualify for admission under provisions (a) and (b) may be admitted by special action if the Dean of the Graduate Division determines that there is other academic or professional evidence sufficient to merit such action. Each department or school offering an advanced degree program reserves the right to determine the admisibility of any student to that program even though the student may meet the general requirements for admission to postbaccalaureate study. Members of the faculty of San Diego State University holding appointments at or above the rank of instructor or lecturer may not be candidates for degrees at this University. Faculty may register for courses as postbaccalaureate unclassified students.

Admission Categories

All applicants seeking admission to postbaccalaureate study at San Diego State University must apply and be accepted in one of the following categories:

**Postbaccalaureate Standing (Unclassified)**

A student wishing to enroll in courses at the University for personal or professional reasons, for admission to postbaccalaureate standing (unclassified) when the student meets the criteria specified under General Admission Requirements. Admission with postbaccalaureate standing (unclassified) does not constitute admission to, or assurance of consideration for, advanced degree curricula.

**Postbaccalaureate Standing (Classified)**

A student wishing to be admitted to a program leading to a credential only (not an advanced degree) must meet the criteria specified under General Admission Requirements. Additionally, all students in advanced credential programs must achieve a satisfactory score on the GRE General (Aptitude) Test. Students holding an exempted from this requirement. A student must also meet the professional, personal, and scholastic standards prescribed by the appropriate department. The applicant requirements and should submit a departmental application during the appropriate filing period. Admission with postbaccalaureate standing (classified) does not constitute admission to, or assurance of consideration for admission to, advanced degree curricula.

Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree must meet the criteria specified under General Admission Requirements, and, in addition, must:
(a) Achieve a satisfactory score on the GRE General (Aptitude) Test. (Students holding an advanced degree from an institution that is a member of the Council of Graduate Schools are exempted from this requirement; students applying to the College of Business Administration will take the Graduate Management Admission Test.)
(b) Have completed an undergraduate major appropriate to the field in which he/she desires to earn an advanced degree.
(c) Satisfy the special departmental or college requirements as stated in Part Three of the Graduate Bulletin under "Fields of Study and Courses of Instruction." (d) Meet the professional, personal, and scholastic standards for graduate study established by the department and the Graduate Council.

Students admitted with graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600- and 700-numbered courses. Such admission does not imply that a student will be advanced to candidacy for an advanced degree.

Conditional Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree who meets the criteria specified under General Admission Requirements but who has deficiencies in the requirements for graduate standing (classified) may be granted conditional graduate standing (classified), if the deficiencies can be met by specific additional preparation, including qualifying examinations. Not more than 15 semester units may be assigned to satisfy graduate deficiencies in the major and all course conditions must be met within five semesters from the time of initial enrollment. Students admitted with conditional graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600- and 700-numbered courses. Once the conditions established by the department or college have been met, the student will be advanced full graduate standing (classified).

A student who is already enrolled in the University with postbaccalaureate standing may not be admitted to conditional graduate standing (classified) but may request acceptance into an advanced degree curriculum with graduate standing (classified). Applications for such continuing students are available at the Graduate Division Office. Reports of the GRE General (Aptitude) Test scores must be on file at the University before continuing students may apply for graduate standing (classified).

International Faculty Exchanges

In order to enhance the international character of instruction and research, San Diego State University has developed a continuing program of faculty exchange with foreign universities. Currently, the University has formal arrangements to exchange professors periodically with institutions in Latin America, East and Southeast Asia, and in Western Europe.

Graduate Bulletin

Complete details on the operation and administration of these requirements, together with other information on graduate study, will be found in the Graduate Bulletin, which is available at the Bookstore.
Nondegree Curricula

Preprofessional Programs
Preprofessional Programs

Entrance into professional schools is becoming increasingly competitive; therefore, it is imperative that students begin planning their curriculum at the earliest possible time in conjunction with the appropriate academic adviser.

Preprofessional Health Advising Office

The preprofessional health advising office is responsible for advising premedical, preprofessional, and preveterinary students in their preparation and application to the professional schools of their choice. This office works in conjunction with the candidate's major department to establish a degree program coordinated with the preprofessional requirements of the professional schools. It is the communication link between the student and the profession, keeping the student apprised of changes in the requirements and procedures for acceptance. The Advising Office is located in Life Science, Room 135.

Preprofessional Programs

Preprofessional Health Advising Office

The preprofessional health advising office is responsible for advising premedical, preprofessional, and preveterinary students in their preparation and application to the professional schools of their choice. This office works in conjunction with the candidate's major department to establish a degree program coordinated with the preprofessional requirements of the professional schools. It is the communication link between the student and the profession, keeping the student apprised of changes in the requirements and procedures for acceptance. The Advising Office is located in Life Science, Room 135.

Premedical Curriculum

The premedical program is pursued in conjunction with a degree program. Students ordinarily elect to concentrate in biology, chemistry, or microbiology, with a major in one area and selected students must confer with a premedical adviser prior to initial registration and at least once each semester regarding their progress, and to obtain approval for their program for the coming semester.

Regardless of the major, premedical students should include the following courses in their program: Biology 200A, 200B, 215, 352 or 357, 355 or 356, 357, 390; Chemistry 200, 201, 231, 196L, 197, 197L, Psychology 101 plus one additional course in psychology. Each student should consult the major for level of course required when there are alternatives. Biology 250 is offered each spring semester.

In addition to the courses listed, students should fulfill all requirements for their major and, if possible, take at least one advanced course recommended by their department such as: Biology 350, 474, 522; Psychology 101. The students are also expected to obtain information regarding the entrance requirements of specific medical schools.

High school students planning to enter medicine should include in their high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics, two or three years of French, German or Spanish, four years of English.

The Preprofessional Health Adviser will be available to high school or transfer students by appointment throughout the summer and during the registration period. All premedical students should establish a personnel file in Life Science, Room 135, 265-6638.

Prelegal Curriculum

The prelegal program is pursued in conjunction with a degree program. There is no specific prelaw program leading to a bachelor's degree. Students interested in the legal profession should consult with the University prelaw adviser regarding the entrance requirements of the schools of law. The program is designed to meet the requirements of standard American law schools, while at the same time providing desirable courses for the prelegal student, either of which may be selected, in consultation with the student and the student's major pattern. Subject to individual variation, the fields of economics, history, and general studies should receive first consideration when choosing the pattern of concentration.

The following courses of study are recommended. Lower division: Accountancy 210A-210B or 212, Economics 101 and 102, Political Science 101 and 102, and a year course in science. Upper division: Prelegal students must fulfill the following courses in their program: Biology 200A, 200B, 215, 352 or 357, 355 or 356, 357, 390; Chemistry 200, 201, 231, 196L, 197, 197L, Psychology 101 plus one additional course in psychology. Each student should consult the major for level of course required when there are alternatives. Biology 250 is offered each fall semester.

In addition to the courses listed, students should fulfill all requirements for their major and, if possible, take at least one advanced course recommended by their department such as: Biology 350, 474, 522; Psychology 101. The students are also expected to obtain information regarding the entrance requirements of specific medical schools.

High school students planning to enter medicine should include in their high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics, two or three years of French, German or Spanish, four years of English.

The Preprofessional Health Adviser will be available to high school or transfer students by appointment throughout the summer and during the registration period. All premedical students should establish a personnel file in Life Science, Room 135, 265-6638.
Preparation for Other Professions

Full programs of professional study in other fields, such as agriculture, forestry, architecture, optometry, pharmacy and theology, are not available at San Diego State University. However, students who may wish to take some undergraduate work in liberal arts at this university can also begin course work in preparation for such programs. Students are advised to consult the catalog of the university to which they expect to transfer to determine requirements before arranging the program. Further information may be obtained from the Assistant Dean of Students in the appropriate college at San Diego State University.

College of Extended Studies

Continuing Education
External Degree Programs

Bilingual Instructional Technology (BIT) Program.
Continuing Education

Functions

The California State University regards its Extended Education credit-bearing programs as integral parts of the institution. These programs are viewed as extensions of the institution's educational services and are in concert with the institution's overall mission and purpose. The programs and courses in Extended Education are expected to meet the standards of quality which the institution sets for its other programs and courses, in terms of resources, faculty, level of instruction, evaluation and support services.

The College of Extended Studies serves as the principal University liaison with the adult community and provides a wide variety of traditional and nontraditional, credit and noncredit, quality educational experiences designed to fit the life-style and expectations of mature adults. In addition, it provides a range of academic and special programs for students and groups during the summer months, in the evenings, and between semesters. Under the direction of the Dean of the College, programs are developed and carried out within five divisions: Special Adult Programs, and Administrative Services. The majority of the programs are operated on a self-support basis since state funds are not provided for Continuing Education activities.

Summer Programs

The College of Extended Studies administers a comprehensive summer program for San Diego State University. Approximately 600 courses, workshops, short courses, interdisciplinary students from other institutions and special groups. Credit earned during the summer is not required for summer attendance. Enrollment in Summer Sessions courses will be considered for students seeking reinstatement to the University; however, successful completion in such residence courses will not guarantee immediate reinstatement.

Five sessions are scheduled each summer: two 5-week terms during which four units of credit may be earned; two 6-week terms in which students may earn seven units of credit; and one 5-week term during which seven units of credit may be earned. The summer program is offered from approximately the first of June through the middle of August each year.

A graduate student may earn credit in residence which may be used to satisfy the requirements for an advanced degree or for credentials. If a student plans to offer work taken in early application for admission to the University, credit earned during the summer is considered for students seeking reinstatement to the University; however, successful completion in such residence courses will not guarantee immediate reinstatement.

Wintersession

The College of Extended Studies administers a special academic program during the winter recess period titled “The Wintersession.” This special session provides students an opportunity to earn academic credit through participation in concentrated and interesting course requirements. Credit earned during Wintersession is applicable to graduation and residence requirements. Admission to the University is not required for Wintersession attendance; the University, however, successful completion in such residence courses will not guarantee immediate reinstatement.

American Language Institute (ALI)

The American Language Institute offers noncredit intensive (25 hours per week) English programs throughout the year to students and professionals interested in improving their English proficiency. By enrolling in ALI, students may take advantage of a program called conditional admission. Conditional admission is available to those students who require acceptance to a university in order to obtain a passport, a U.S. visa, or government sponsorship. It is offered to students who do not have an adequate command of English or the required TOEFL (Test of English as a Foreign Language) score to qualify for admission to the University. After transcripts of their academic work have been evaluated by SDSU staff, students may receive an official letter of conditional admission which states that the student has met all University requirements except English language proficiency and may enter the University after appropriate TOEFL scores and training at the American Language Institute.

Programs offered by ALI are as follows:

English for Academic Purposes — A 16-week course for students planning to enter San Diego State or other colleges or universities. Classes are offered in reading, writing, grammar, English for specific purposes (e.g., English for Science and English for Business) and intercultural communication.

Advanced students may register for three to nine units in the Open University in addition to their English classes.

Intensive English Communications — A 6- to 20-week course focusing upon oral skills and cultural experiences. Classes include eight hours of conversation in addition to reading, writing, structure and pronunciation. Elective courses are offered and directed community activities provide experiences for real language use. Regular field trips to places of educational and recreational interest are an integral part of the program.

Specific Purposes Programs — Programs for students and professionals with specific needs, including language programs in management, teacher training, personnel administration and education, are arranged.

Summer Special Programs — A number of special short-term language programs are offered by the ALI each summer (e.g., Management and Business English).

Services — All students at the Institute are offered housing assistance, counseling for university entrance, health services and orientation to university life.

Information about and applications for the ALI can be obtained from the Director, American Language Institute.

Foreign Travel/Study Programs

Each summer the College offers a variety of travel/study programs which are designed to give students and community members an opportunity to travel abroad and earn extension units of credit. Programs range from two to five weeks in length, with a maximum of six units of credit offered for the longer programs. Units of credit earned through travel/study may be used to satisfy the Human Experience section of the General Education requirements. However, participants need not be regularly matriculated students at SDSU. Independent study credit is available for study abroad. Students must select an instructor and prepare a plan of study to satisfy the requirements for units earned. For further information contact the Coordinator of Foreign Travel/Study Programs.

Extension

In order to meet the needs of the adult community, as well as matriculated students, the College provides a variety of extension courses and workshops, open university, and external degree programs. For the convenience of adult students most courses are scheduled in the evenings or on weekends, on campus or at convenient learning extension centers throughout the service area.
Extension Courses

Extension courses are offered each semester in a number of areas including education, business administration, public administration, and the arts and sciences. Many courses and programs are developed in cooperation with off-campus organizations and groups who have identified specific needs. Many one-unit weekend workshops are also offered throughout the year. These courses are listed in a special Extended Studies Program Bulletin published four times a year.

There is no limit on the total number of extension units for which a student may enroll; however, the maximum extension credit which may be used toward bachelor's degree requirements at San Diego State University is 24 units. Extension work is considered the same as transfer credit and is therefore not included in the student's San Diego State University scholastic average.

Open University

Most regular, on-campus classes are open to qualified extension students by special permission of the department and the instructor. Students who take advantage of "Open University" are required to pay regular extension fees. They are permitted to enroll only after matriculated students have completed their registration. Consult the College of Extended Studies or the current Class Schedule for complete details on Open University qualifications and registration procedures. Matriculated graduate students in any category may not enroll in Open University. Credit earned through one semester of Open University enrollment may be considered as residence credit for students who subsequently matriculate at the University in an advanced degree program. Open University classes may not be taken by the following:
1. Nonmatriculated foreign students (nonresidents from non-English-speaking countries) with a score of less than 450 on the Test of English as a Foreign Language (TOEFL) or its equivalent.
2. Foreign students with I-20 visas from another university.
3. SDSU matriculated students.

External Degree Programs

In addition to its role of administering external degree programs for the civilian population, Extended Studies serves as the liaison with the military installations in the University service area for the purpose of developing higher educational opportunities for military personnel. The College of Extended Studies, which has been designated by the Department of Defense as a Service members' Opportunity College, offers external degree and certificate programs in a variety of fields. As a consequence, the College of Extended Studies is able to provide training in the allied health professions, business administration, public administration, and the arts and sciences. Many programs are offered in cooperation with the College of Business Administration and the College of Engineering.

Corporate Training Programs

Custom-tailored training, workshops, and consultation are offered to the San Diego business community through the Division of Professional Development. The Division provides training in a wide variety of subject areas to all levels of employees. Program leaders and consultants, drawn from academic and business worlds, are qualified experts in their fields.

Seminars and Workshops

The Division coordinates the activities of the Center for Continuing Education in Business and Engineering in cooperation with the College of Business Administration and the College of Engineering. The Center offers intensive seminars and workshops for the business community aimed at increasing the expertise of these people.

Center for Study of Data Processing and Management Development Center

The Centers offer a series of practical, intensive, noncredit training in the fields of data processing and management. The Division has established these programs in cooperation with the San Diego corporate community. The purpose of these unique cooperative programs is to provide quality, cost-effective continuing education for business, industry and government personnel in specific fields. The corporate members form a fellowship in which all participate in applying proven solutions to their education and training needs.

Retired Adults Education Program

Programs for retired adults are sponsored by the College of Extended Studies at San Diego State University and operate out of two locations—downtown San Diego (Educational Growth Opportunities—EGO) and Rancho Bernardo (Continuing Education Center—CEC). These programs are planned and instructed by senior adults who are interested in furthering lifelong learning.

For further information, contact the Director of Retired Adult Education Programs.

Continuing Education in Health and Human Services

A variety of credit and noncredit short courses are offered throughout the year to meet recertification requirements for the nursing profession and to provide training in the allied health fields.

Professional Development

A variety of learning activities are offered throughout the year to meet the continuing education needs of working adults. These opportunities take many forms, as described below. For further information, contact the Director of Professional Development.

Certificate Programs

Professional certificate programs are coordinated by the Division of Professional Development. Educational services are provided for a wide variety of groups and professional organizations. Credit certificate programs are offered in the following areas: Applied...
External Degree Programs

Purpose
External degree programs have been established by the Board of Trustees of The California State University to increase educational opportunities for adults who characteristically have not had access to traditional academic programs, to aid them in expanding their job and career potential or in pursuing personal enrichment goals.

External degree programs are designed for mature adults who by reason of geography, employment, family responsibilities or other personal circumstances find it difficult to spend extensive periods of time "in residence" on a university campus, or who are employees of particular firms, agencies or institutions, or occupational groups for whom an external curriculum is appropriate.

Admission Requirements
Applicants must be at least 18 years of age and have attained a high school diploma or its equivalent. Students are normally expected to have completed their lower division course work prior to entry into an external degree program. However, students with less than 56 units of college credit may be admitted to upper division courses for which they meet prerequisites.

Admission and Enrollment Procedures
Students who desire to become classified candidates for the degree must apply for admission to the degree program by completing the following steps prior to earning nine units of credit in that program:
1. Complete and submit Application for Admission.
2. Request transcripts from last high school and all colleges and universities attended; transcripts must be received directly from the school.
3. Submit a one-time admission fee of $35.00.

Students may enroll in courses without having been admitted to the program. Priority will be given to those persons who have applied for admission and been accepted into the degree program.

Instruction and Scheduling
The quality of instruction in external degree programs is maintained at the same high level as that in campus programs. While the length of the instructional term for external degree programs may vary from five to sixteen weeks, depending on the time constraints of the student population being served, the contact time per unit of credit is the same as required in campus credit.

Curriculum
The curriculum in an approved undergraduate external degree program is comprised of upper division courses only. Students who have not completed general education and elective requirements may do so at community colleges, through open university, extension, summer sessions at San Diego State University or at other regionally accredited institutions.

Servicemembers' Opportunity Colleges
San Diego State University has been designated as an institutional member of Servicemembers' Opportunity Colleges (SOC), a group of over 400 colleges and universities providing voluntary postsecondary education to members of the military throughout the world. As a SOC member, SDSU recognizes the unique nature of the military lifestyle and has committed itself to easing the transfer of relevant course credits, providing flexible academic experiences. SOC has been developed jointly by educational representatives of each of the Armed Services, the Office of the Secretary of Defense, and a consortium of 13 leading national higher education associations. It is sponsored by the American Association of State Colleges and Universities (AASCU) and the American Association of Community and Junior Colleges (AACJC).

Fees
Since Extension and External Degree programs do not receive state support, they are required to be financially self-supporting. Contact Extension for fee ranges.

Degrees Offered
Graduate
Master of Arts in education.
Master of Business Administration.
(For graduate external degree program details, refer to the Graduate Bulletin of the Graduate Division.)
Regulations

Admission and Registration
General Regulations
Admission and Registration

Admission Procedures and Policies

Requirements for admission to San Diego State University are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Administrative Code. If you are not sure of these requirements, you should consult a high school or community college counselor or the Admissions Office. Applications may be obtained from the Admissions Office at any of the campuses of The California State University or at any California high school or community college.

Importance of Filing Complete, Accurate, and Authentic Application for Admission Documents

The CSU advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Administrative Code).

Requirement and Use of Social Security Account Number

Applicants are required to include their social security account number in designated places on applications for admission pursuant to the authority contained in Title 5, California Administrative Code, Section 41201. The social security account number will be used as a means of identifying records pertaining to the student as well as identifying the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution.

Undergraduate Application Procedures

Prospective students applying for part-time or full-time programs of study in day or evening classes must file a complete application as described in the application booklet. The $35 California State University and may not be transferred or used to apply to another term or major that campus of The California State University that they can attend. Generally, an alternate choice campus and major degree major will be considered at the first choice campus if the first choice campus cannot accommodate them.

Impacted Programs

The CSU designates programs to be impacted when more applications are received in the first month of the filing period than the spaces available. Some programs are impacted at every campus, others are impacted at some campuses but not all. You must announce before the opening of the filing period which programs are published in the CSU School and College Review distributed to high school and college applicants. We will give information about the supplementary criteria to program applicants.

Supplementary Admission Criteria

Each campus with impacted programs uses supplementary admission criteria in screening applicants. Supplementary criteria may include ranking on the freshman eligibility index, the overall transfer grade point average, and a combination of campus-developed criteria. If you are required to submit scores on either the SAT or the ACT, you should take the test no later than December if applying for fall admission.

The supplementary admission criteria used by the individual campuses to screen candidates appear periodically in the CSU School and College Review and are sent by the campuses to all applicants seeking admission to an impacted program. Unlike unaccommodated applicants to locally impacted programs, who may be redirected to another campus in the same major, unaccommodated applicants to statewide impacted programs may not be redirected in the same major but may choose an alternative major either at the first choice campus or another campus.

Postbaccalaureate Application Procedures

All applicants for any type of postbaccalaureate status (e.g., master's degree applicants, those seeking credentials, second baccalaureate degrees, or second majors, and those interested in taking courses for personal or professional growth) must file a complete application within the appropriate filing period. A complete application for postbaccalaureate status includes all of the materials required for undergraduate applicants (Part A) plus the supplementary undergraduate admission application (Part B). Postbaccalaureate applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $35 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus, redirection to alternative campuses or later changes of campus choice will be minimal. In the event that a postbaccalaureate applicant wishes to be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. Applications may be obtained from the Graduate Studies Office of any California State University campus in addition to the sources noted for undergraduate applicants.

Application Filing Periods

<td>August 1, 1985</td>
<td></td>
<td>September 1985</td>
</tr>
</tbody>
</table>

You must file your application for admission to an impacted program during the first month of the filing period. Further, if you wish to be considered in impacted programs at two or more campuses, you must file an application to each. Nonresident applicants are rarely admitted to impacted programs.

Business Administration (upper division), Computer Science, Aerospace Engineering, Electrical Engineering, Mechanical Engineering, Nursing, and Telecommunications and Film are impacted majors at San Diego State University.
Space Reservation Notices

Normally you may expect to receive some form of space reservation notice from your first choice campus within two months of filing the application. A notice that space has been reserved is also a request for records necessary to make the final admission decision. It is an assurance of admission only if evaluation of your previous academic record indicates that admission requirements have been met. Such a notice is not transferable to another term or to another campus.

Hardship Petitions

There are established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Prospective hardship petitioners should write the Admissions Office regarding specific policies governing hardship admission.

Filing of Records

File Official Transcripts. The applicant must file the following official transcripts with the Admissions Office:

1. Transcript from high school of graduation or last in attendance (not required of the graduate student who holds a bachelor’s degree from an accredited institution, but is required of the student who holds a bachelor’s degree from a nonaccredited institution).
2. Transcripts from EACH college attended (including extension, correspondence, summer session, or evening courses). Graduate students must file transcripts in duplicate if they plan to enter a master’s degree or credential program.
3. Photostat or true copy of the military separation form DD-214 (or equivalent) if applicant has had active military service. (Not required of graduate students.)

A transcript will be considered official and accepted to meet the regulations governing admission only if forwarded directly to San Diego State University by the institution attended. All records or transcripts received by the university become the property of the university and will not be released nor will copies be made.

Undergraduate Admission Requirements

First-time Freshman Applicants

You will qualify for regular admission as a first-time freshman if you

1. are a high school graduate,
2. have a qualifiable eligibility index (see below), and
3. have completed with grades of C or better at least four years of college preparatory English and at least two years of college preparatory mathematics.

Eligibility Index. The eligibility index is the combination of your high school grade point average and your score on either the American College Test (ACT) or the Scholastic Aptitude Test (SAT) high school studies, excluding physical education and military science.

If you can calculate the index by multiplying your grade point average by 200 and adding your total score on the SAT or, if you took the ACT multiply your grade point average by 200 and add the composite score from the ACT. If you are a California high school graduate (or a SAT or 722 using the ACT; the table below shows the combinations of test scores and average California for tuition purposes; you need a minimum index of 2994 using the required.

If you neither graduated from a California high school nor are a legal resident of California for tuition purposes, you need a minimum index of 3402 (SAT) or 826 (ACT) for the test requirement.

Above 3.10 qualifies with any score.
Below 2.00 does not qualify for regular admission.

High School Students

Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is not for a given program and does not constitute the right to continued enrollment. Students still enrolled in high school may be considered for an early admission commitment to such applicants conditional upon the earning of the high school diploma or its equivalent. Details about the Early Admission Program may be obtained from the Office of Admissions and Records.

Transfer Applicants

You will qualify for admission as a transfer student if you have a grade point average of 2.0 (C) or higher in all transferable units attempted, are in good standing at the last college or university attended, and meet one of the following standards.
1. You graduated from high school before spring 1984 and either
   a. were eligible as a freshman, or
   b. have completed at least 56 transferable semester (84 quarter) units. (Nonresidents must have a 2.4 grade point average or better.)

2. You graduated from high school in spring 1984 or later and either
   a. were eligible as a freshman, or
   b. were eligible as a freshman except for the college preparatory subjects in English and mathematics and have satisfied the subject deficiencies, or
   c. have completed at least 56 transferable semester (64 quarter) units and have satisfied any deficiencies in college preparatory English and mathematics. (Nonresidents must have a 2.4 grade point average or better.)

For these requirements, transferable courses are those designated for that purpose by the college or university offering the courses.

Note: Transfer applicants must meet standard 2 above beginning fall 1986, irrespective of when they graduate from high school.

Subject Requirements

The California State University requires that all undergraduate applicants for admission complete with grades of C or better four years of college preparatory study in English and two courses that meet the subject requirements are listed on "Courses to Meet Requirements for Admission to the University of California," published for and available at each high school.

English. Regular English courses in the 9th and 10th grades that integrate reading and writing will be considered college preparatory. English courses in the 11th and 12th grades will require substantial amounts of writing, reading of extensive, structured papers, reading and analysis, and a high level of thinking skills.

San Diego State University requires a writing competency test and an English Placement Test prior to matriculation or during the student's first two semesters. Students may not take courses in speech, drama, or journalism if the criteria for English as a Second Language are not satisfied.

Mathematics. College preparatory courses in mathematics include algebra, geometry and trigonometry, calculus, and mathematical analysis. Most students will have taken at least one year of algebra and geometry or two years of algebra. Business or technical mathematics are not considered college preparatory.

San Diego State University requires a mathematics competency test and an Entry-Level Mathematics examination prior to matriculation or during the student's first two semesters. Some Entry-Level Mathmatics, students may not take baccalaureate-level mathematics or statistics courses unless they have completed appropriate courses.

Additional College Preparatory Courses Recommended

Most academic advisers agree that preparation for university study includes preparation in subjects beyond four years of English and two years of mathematics. Bachelor's degree performing arts, foreign languages, and the humanities. Students planning to major in mathematics, biology, or economics should complete four years of college preparatory at least three years of mathematics in the preparatory studies. Further, all students should include English and mathematics in the final year of high school.

Honors Courses

Grades in up to eight semester courses, taken in the last two years of high school, that are designated honors in approved subjects receive additional points in grade point average calculations. Each unit of A in approved courses will receive a total of 5 points; B, 4 points; C, 3 points; D, 1 point; and none for F grades.

Test Requirements

Freshman and transfer applicants who have fewer than 56 semester or 84 quarter units of transferable college work must submit scores from either the Scholastic Aptitude Test of The College Board (SAT) or the American College Test Program (ACT). You may get registration forms and the dates for either test from school or college counselors or from the SDSU Test Office. Or, you may write to:

The College Board (SAT) Registration Unit, Box 592 Registration Unit, P.O. Box 168 Princeton, New Jersey 08541 Iowa City, Iowa 52240

TOEFL Requirement

All undergraduate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who have not attended for at least three years of school at the secondary level or above where English is the principal language of instruction must earn a minimum score of 550 on the Test of English as a Foreign Language (TOEFL).

Placement Tests Required of Most New Students

The CSU requires new students to be tested in English and mathematics before they are admitted. These tests are designed to determine if students are prepared for college work and, if not, to counsel them in how to strengthen their preparation. Students might be exempted from one or both of the tests if they have scored well on other specified tests or completed appropriate courses.

English Placement Test (EPT). The CSU English Placement Test must be completed by all freshman or sophomores (those who enroll with fewer than 56 transferable semester units) with the exception of those who present proof of one of the following:

- A score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of The College Board Advanced Placement Program.
- A satisfactory score on the CSU English Equivalency Examination.
- A score of 510 or above on the verbal section of the CSU English Aptitude Test (SAT-Verbal).
- A score of 23 or above on the ACT English Usage Test.
- A score of 600 or above on The College Board Achievement Test in English Composition with essay.
- Completion of an acceptable college course in English composition of four quarter or three semester units with a grade of C or better.

Entry-Level Mathematics (ELM). All undergraduate applicants admitted for fall 1983 and thereafter and who are subject to the 1986-87 or later General Catalog must take the test and pass it before enrolling in a course that satisfies the college-level mathematics requirement of the General Education-Breadth program. Exemptions from the test are given only to those students who present proof of one of the following:

- A score of 3 or above on The College Board Advanced Placement Mathematics examination with essay.
- A score of 530 or above on the Mathematics section of the Scholastic Aptitude Test (SAT-Math).

* Please note that, beginning in academic year 1986-87, all undergraduates (including those who enroll with 56 or more transferable semester units and who are subject to the 1986-87 or later General Catalog) will be required to complete the English Placement Test requirement. Even though not required this year for those with 56 or more units, all undergraduates are encouraged to take the test to heighten their awareness and command of college-level English skills.
A score of 23 or above on the ACT Mathematics Test.
• A score of 520 or above on The College Board Math Achievement Test, Level 1.
• A score of 540 or above on The College Board Math Achievement Test, Level 2.
• Completion of a college course that satisfies the General Education-Breadth Requirement in Quantitative Reasoning at the CSU campus to which they have transferred. The course must be at the level of intermediate algebra or above with a grade of C or better.

Failure to verify satisfaction of both of these test requirements within two semesters of first date of attendance at San Diego State University will result in the withholding of registration privileges for a third semester. If new admittance occurs, the materials will be mailed to all newly admitted students. The materials may also be obtained from the Office of Admissions and Records.

Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if he or she meets the following basic conditions:
1. Possesses a high school diploma (or has established equivalence through either the Tests of General Educational Development or the California High School Proficiency Examination).
2. Has not been enrolled in college as a full-time student for more than one term during the past five years. Part-time enrollment is permissible.
3. If there has been any college attendance, has earned a grade point average of C or better.

Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer and will include an assessment of basic skills in the English language and mathematical computation.

Graduation Requirement in Writing Proficiency

All students subject to degree requirements listed in the 1977-78 or later General Catalog must demonstrate writing proficiency at the upper division level as a requirement for graduation, information on currently available ways to meet this graduation requirement is included in the Graduation Requirements section of this catalog.

Other Applicants

Applicants not admissible under one of the above provisions should enroll in a community college or other appropriate institution. Only under the most unusual circumstances will such applicants be permitted to enroll. Permission is granted only by special action.

San Diego State University offers a special program designed to expand educational opportunity for capable persons who, for a variety of reasons, have not previously had the opportunity to attend college.

Graduation and Postbaccalaureate Admission Requirements

Admission Requirements

Graduate and postbaccalaureate applicants may apply for a degree objective, a credential or certificate objective, or may have no program objective. Depending on the objective, the CSU will consider an application for admission in one of four categories:
• Postbaccalaureate Unclassified. You will qualify for admission as an unclassified postbaccalaureate student if you (1) hold an acceptable bachelor's degree from a regionally accredited institution or have equivalent preparation as determined by the campus; (2) have a grade point average of at least 2.50 in your last 60 semester (90 quarter) units; and (3) are in good standing at the last college you attended. In unusual circumstances, a campus may make exceptions to these criteria.
• Postbaccalaureate Classified standing to enroll in a credential or certificate program, including qualifying examinations, as the campus may prescribe.
• Graduate Conditionally Classified standing to enroll in a graduate degree curriculum if in the opinion of the appropriate campus authority you can remedy any deficiencies by additional preparation; or
• Graduate Classified standing to enroll in a graduate degree curriculum if you satisfactorily meet the professional, personal, scholastic, and other standards, including qualifying examinations, as the campus may prescribe.

TOEFL Requirement

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was primarily in a language other than English must demonstrate competence in English. Applicants who have not attended secondary or postsecondary educational institutions for at least three years of full-time enrollment where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Individual campuses may require a higher score.

Second Bachelor's Degree

A student wishing to earn a second bachelor's degree in a major different from that declared for the previous degree may do so in most areas, provided the student's academic record indicates strong promise of success and the student can show clear evidence of a change in educational objective. A student seeking a second bachelor's degree in an impacted major must file an application for admission to the impacted program during the first month of the application filing period in order to be considered.

A student seeking a second bachelor's degree, even if a recent graduate from SDSU, must apply for admission to the University unless already admitted in postbaccalaureate (unclassified) status. The student must complete a minimum of 30 postbaccalaureate units in residence with a minimum grade point average of 2.0. At least 15 units must be upper division in the new major. Up to six upper division units in the new major may have been used to satisfy requirements for a previous major, provided the student had completed at least the same number of units in excess of the minimum requirements for the first degree. The student must fulfill all requirements for the degree (including additional General Education and foreign language requirements where necessary) and have prior approval by the new major department and by the Dean of Undergraduate Studies.

 Classified graduate students are not eligible to apply for a second bachelor's degree and credit earned while pursuing a second bachelor's degree may not be applied toward an advanced degree at a later date.

For additional information, including the names of those departments participating in the Second Bachelor's Degree program, contact the Division of Undergraduate Studies or the University Advising Center.

Second Major for SDSU Graduates

A student wishing to return to the University after graduation from San Diego State University in order to complete a second major may do so in any area provided the student qualifies for unclassified postbaccalaureate standing (2.50 grade point average on the last 60 units), has previously completed at least nine units in the department of the second major with a minimum grade point average of 2.50, and receives prior approval of the department and the Dean of Undergraduate Studies. The student must meet all current catalog requirements associated with the major, including foreign language and upper division writing requirements where necessary. A student desiring a second major may apply for both simultaneously. In addition, a student desiring a credential as well as a second major may apply for both simultaneously. A student desiring a second major, whether or not already admitted as postbaccalaureate, must apply as a postbaccalaureate student with no degree or credential objective. A student desiring a second major may apply for both simultaneously. In addition, a student desiring a credential as well as a second major may apply for both simultaneously. In addition, a student desiring a second major, whether or not already admitted as postbaccalaureate, must apply as a postbaccalaureate student with no degree or credential objective.
A second major is an undergraduate objective: no course numbered in the 600 or 700 series may be used to fulfill a second major requirement and no credit earned toward a second major can be applied toward an advanced degree. The indication of the completion of a second major will be recorded on the postbaccalaureate record. No new diploma will be issued, nor will the student be eligible for honors for second major work.

For additional information, including names of departments participating in the second major option, contact the Division of Undergraduate Studies or the University Advising Center.

International (Foreign) Student Admission Requirements

The admission of international (foreign) students is governed by separate requirements. Prospective applicants from abroad should consult the individual campus catalogs and international (foreign) student informational brochures available from the campuses. Health insurance coverage is mandatory for international (foreign) students. Registration/Financial Aid

The American Language Institute (ALI) offers preparation in the English Language Institute. The campus Admissions and Records Office determines the residence status of all new and returning students for nonresidence tuition purposes. Responses to items 29-45 on the Application for Admission and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident and will be required to pay out-of-state fees.

For policies governing registration after classes begin, consult the current Class Schedule.

Determination of Residence for Nonresident Tuition Purposes

The campus Admissions and Records Office determines the residence status of all new and returning students for nonresident tuition purposes. Responses to items 29-45 on the Application for Admission and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident and will be required to pay out-of-state fees.

For policies governing registration after classes begin, consult the current Class Schedule.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. The student must meet each semester, the Class Schedule and Student Information Handbook, issued each semester and obtainable at the University bookstore prior to the registration period, contains specific information on registration, the courses offered for the term, and a listing of the fees required for registration. Fees are due and payable at the time of registration and depend on the number of units selected. Failure to pay fees may result in cancellation of registration. For policies governing registration after classes begin, consult the current Class Schedule.

Limitation of Enrollment

Admission to a state university must be restricted in relation to the number of students for whom an adequate college education can be provided by the staff and facilities available. The Trustees have authority on this matter.

Registration

San Diego State University students are afforded the opportunity to participate in an Advance Registration system. On-campus registration is also held just prior to the beginning of each semester. The Class Schedule and Student Information Handbook, issued each semester and obtainable at the University bookstore prior to the registration period, contains specific information on registration, the courses offered for the term, and a listing of the fees required for registration. Fees are due and payable at the time of registration and depend on the number of units selected. Failure to pay fees may result in cancellation of registration. For policies governing registration after classes begin, consult the current Class Schedule.

Determination of Residence for Nonresident Tuition Purposes

The campus Admissions and Records Office determines the residence status of all new and returning students for nonresident tuition purposes. Responses to items 29-45 on the Application for Admission and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident and will be required to pay out-of-state fees.

For policies governing registration after classes begin, consult the current Class Schedule.
Nonresident students seeking reclassification are required by law to complete a supplemental questionnaire concerning financial independence.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a "residence student" for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates for the 1985-86 academic year are September 20, 1985 and January 25, 1986. Questions regarding residence determination dates should be directed to the Legal Residence Office in the Admissions Office which can give you the residence determination date for the term for which you are registering.

There are exceptions for nonresident tuition, including:
1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues for one year to enable the student to qualify as a resident student.
2. Persons who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time.
3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year.
4. Dependent children and spouses of persons in active military service stationed in California on the residence determination date. This exception applies only for the minimum time required for the student to obtain California residence and maintain that residence for a year.
5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. This exception applies only for the minimum time required for the student to obtain California residence and maintain that residence for a year.
6. Certain credentialed, full-time employees of California school districts.
7. Full-time State University employees and their children and spouses. This exception applies only for the minimum time required for the student to obtain California residence and maintain that residence for a year.
8. Certain exchange students.
9. Children of deceased public law enforcement or fire suppression employees, who were California residents, and who were killed in the course of law enforcement or fire suppression duties.

Any student, following a final campus decision on his or her residence classification only may make written appeal to:

The California State University
Office of General Counsel
400 Golden Shore
Long Beach, California 90802-4275

within 120 calendar days of notification of the final decision on campus of the classification. The university has the right to ask the student for further review. Students classified incorrectly as residents or incorrectly granted payment of nonresident tuition are subject to recalculation as nonresidents and the payment of nonresident tuition in arrears. If incorrect classification results from false or California Administrative Code, the student is subject to discipline pursuant to Section 41301 of Title 5 of the students qualifying for exceptions whose basis for so qualifying changes, must immediately previous term are not accepted.

The student is cautioned that this summation of rules regarding residency determination is changes may have been made in the rate of nonresident tuition, in the statutes, and in the date.

Academic Advising

Academic advising is organized according to major. All students must comply with advising requirements established for their major(s) and described with other major requirements in the Courses and Curricula section of this catalog. For additional help, students with a declared major or interest in a particular major should consult with the advising center or assistant dean for student affairs in the college of that major. Students who are undecided about their majors should consult with the University Advising Center. Besides the advising centers listed below, each department and academic program maintains advisers who may be consulted on specific questions related to their programs. These departmental and program advisers may be reached through any of the college advising centers listed below or through the University Advising Center. Most advising centers are open Monday through Friday between 9:00 a.m. and 4:30 p.m. Services are available either by appointment or on a drop-in basis.

College of Arts and Letters Advising Center
(Social Sciences, Room 132)

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

In addition, all students who intend to major in the College of Arts and Letters and who have fewer than 56 units are required, before or during their first semester at San Diego State University, to consult with the College of Arts and Letters Student Advising Center (SS-132) for general education advising.

College of Business Administration Advising Center
(Business Administration, Room 441)

College of Education Admissions and Advising Center
(Campus Laboratory School, Room 106)

College of Engineering Advising Center
(College of Engineering, Room 426B)

College of Human Services Advising Center
(Hepner Hall, Room 124)
Preprofessional advising. Advisement for students planning to attend professional schools is available through the following offices: premed, Life Sciences, room 135; prelaw, Social Science, room 131; premedicine, Life Sciences, room 135; preoccupational therapy, Life Sciences, room 133; preoptometry, Life Science, room 133; prepharmacy, Life Sciences, room 133; prephysical therapy, Life Sciences, room 133; preveterinary medicine, Life Sciences, room 135. Advisers in prelaw are not available during the summer months.

Additional Advisory Services Provided Through Following Programs

New student orientation. As a new semester approaches, all incoming students are invited to attend a one-day orientation program called Academic Information Day. Advisement is an important part of each program, including General Education requirements and small group meetings with the assistant deans from the various colleges. Questions concerning orientation can be directed to the Student Resource and Information Center, Campus Laboratory School, Room 114, (619) 265-5223.

Transcript Evaluation

Official evaluations may be requested at the Evaluations Office (AD-127) by currently enrolled students with declared majors who have completed 56 semester units. Appointments may be scheduled with evaluators by students with questions concerning their evaluations.

General Regulations

Student Responsibility for Catalog Information

Students are held individually responsible for the information contained in this catalog. The requirements listed in the "Graduation Requirements" section of the catalog are those required conditions of the catalog, including this "General Regulations" section, are subject to change from year to year as University rules, policies, and curricula change. Failure to keep informed of such changes will not exempt students from whatever penalties they may incur.

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies may change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of The California State University, by the Chancellor or designee of The California State University, or by the President or designee of the institution. Further, it is not possible in a public publication of this size to include all of the rules, policies and other current or complete information which may be obtained from the appropriate department, school, or college. Professors, students and the California State University's Board of Trustees have an obligation to keep students informed of changes in Academic Policy and Procedure and current deadlines which are of importance to students.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (45 C.F.R. 99) and California Education Code Section 67100 et seq., set out requirements designed to protect the privacy of students concerning their records maintained by the campus. Specifically, the statute and regulations govern access to student records which the campus must provide students access to in order to comply with the Act. The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons are those who have been specially designated to handle such requests in connection with the campus' academic, administrative or service functions and who have reason for using student records connected with their campus or other related academic responsibilities.

Nondiscrimination Policy

Handicap

The California State University does not discriminate on the basis of handicap in admission or access to, or treatment in, its programs and activities. Section 504 of the Rehabilitation Act of 1973, as amended, and the regulations adopted thereunder prohibit such discrimination. The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons are those who have been specially designated to handle such requests in connection with the campus' academic, administrative or service functions and who have reason for using student records connected with their campus or other related academic responsibilities.

Race, Color, or National Origin

The California State University complies with the requirements of Title VI of the Civil Rights Act of 1964 and the regulations adopted thereunder. Persons shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program of The California State University.

Sex

The California State University does not discriminate on the basis of sex in the educational programs or activities it conducts. Title IX of the Education Amendment Act, 1972, as amended, and the administrative regulations adopted thereunder prohibit discrimination on the basis of sex in education programs and activities operated by San Diego State University. Such programs and activities include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities of San Diego State University may be referred to the Affirmative Action Officer (265-6464), the campus officer assigned the administration of the Act in its implementing regulations. Inquiries concerning compliance may be addressed to this office at AD-231; telephone 265-5211.

Registration and Computation of Grades

Registration of Grades

At the end of each semester or summer session in which a student is enrolled, a report of courses taken showing units and grades earned is sent to the student. Grades and grade points per unit used in reporting are as follows: Grade of A (outstanding achievement; available only for the highest accomplishment), 4 points; B (praiseworthy performance; definitely above average), 3 points; C (average; awarded for satisfactory performance; the most common undergraduate grade), 2 points; D (minimally passing; less than the typical undergraduate grade), not counted in the grade average), 1 point; F (failing), 0 points; SP (satisfactory progress), not counted in the grade average), 1 point; R (credit), not credit earned, but not earned and not counted in the grade point average; W (withdrawal), not counted in the grade point average; AU (audit), not credit earned and not counted in the grade point average; NC (no credit), not credit earned and not counted in the grade point average; NC (no credit), not credit earned and not counted in the grade point average.
grade point average; I (authorized incomplete), no credit earned and not counted in the grade point average until one calendar year has expired at which time it will count as an "F" for grade point average computation; U (unauthorized incomplete), counted as "F" for grade point average computation.

Plus/Minus Grading

A plus/minus grading system is utilized at San Diego State University. Plus/minus grading is not mandatory but is utilized at the discretion of the individual instructor. The grades of A+ (superior), A, A-, B+, B, B-, F+ (excellent), F, F- are not issued. The decimal values of plus and/or minus grades are utilized in the calculation of grade point averages as follows:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
</tr>
<tr>
<td>A</td>
<td>3.70</td>
</tr>
<tr>
<td>A-</td>
<td>3.30</td>
</tr>
<tr>
<td>B+</td>
<td>3.00</td>
</tr>
<tr>
<td>B</td>
<td>2.70</td>
</tr>
<tr>
<td>B-</td>
<td>2.30</td>
</tr>
<tr>
<td>C</td>
<td>1.70</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
</tbody>
</table>

Faculty members use all grades from A through F to distinguish among levels of academic accomplishment. The grade for average undergraduate achievement is C.

Satisfactory Progress Grade — “SP”

The “SP” symbol is used in connection with courses that extend beyond one academic term. It indicates that work is in progress and has been evaluated and found to be satisfactory to date, but that assignment of a specific grade must await completion of additional work. Work is to be completed within a stipulated time period not to exceed one year except for graduate thesis (999A) or dissertation (899). Failure to complete the assigned work within the time specified will result in the course being computed into the grade point average as an “F” (or a “NC” if the course was taken for credit/no credit grade).

Withdrawal Grade — “W”

The symbol “W” indicates that the student has failed to withdraw from a course after the end of the tenth day of instruction because of a verified serious and compelling reason and has obtained the signature of the instructor and the approval of the College Dean or designee.

Dropping a class after the end of the tenth day of instruction and prior to the last three weeks during this period is granted only with the signature of the instructor, who indicates the student's withdrawal in writing on prescribed forms. Students are not permitted to drop a class during the final three weeks of instruction, except in cases such as accident or serious illness where the cause of the student's inability to continue is not practicable. All such requests must be accompanied by the signature of the student in the College of the undergraduate achievement is C.

Auditing — “AU”

Enrollment as an auditor is subject to permission of the instructor, provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fees, requirements, attendance, and other policies as the course title. Undergraduate students are not permitted to audit a course for which registration is restricted to graduate students except that a student who is enrolled for credit may not change to audit after the end of the first week of instruction.

Credit/No Credit (Undergraduate Student Option) — “Cr/NC”

An undergraduate student may elect to be graded credit/no credit in particular courses.

Upper division courses graded credit/no credit (Cr/NC), whether taken at this or at another institution, may not be used to satisfy requirements for the student's major except for those courses identified in the course listing as graded "Cr/NC."
Academic Credit Through Course Work

Repeated Course
An undergraduate student who receives an unsatisfactory grade (less than 2.0 grade points per unit) may repeat the course at San Diego State University except in those cases where enrollment in the course is restricted and the student no longer qualifies for admission. While the original grade will remain on the transcript, only the second grade will be used in computation of grade point averages. The course repeat policy does not apply to courses repeated through Open University if a course is taken for a third (or more) time(s), all grades except the original grade will be used in computing grade point averages. A student may not repeat a course in which a grade of "C" or better was received. In addition, the only courses which may be repeated with a Credit/No Credit option are those in which the student previously received a grade of No Credit. If a course previously taken for a grade of Credit or No Credit, the original grade will continue to be used in computation of the grade point average. This policy applies to courses taken initially at other institutions as well as at San Diego State University.

Assignment of Grades and Grade Appeals
1. Faculty have the right and responsibility to provide careful evaluation and timely assignment of appropriate grades.
2. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise.
3. Students who believe that an appropriate grade has not been assigned should first seek resolution of the matter informally with the instructor of record. If the matter cannot be resolved informally, the student may present the case to the appropriate campus entity, have it reviewed and, where justified, receive a grade correction.

Courses

Satisfaction of Requirements
Except as permitted in the Graduation Requirements section of the catalog, a course cannot be used to satisfy more than one requirement.

Numbering Courses
Courses numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and courses; and those numbered 600 through 799 are graduate courses.
Courses numbered X-01 through X-99 are those offered only through Extension to meet specific academic needs of community groups and are applicable as general elective credit for upper division, lower division and X-50 through X-99 are designated as upper division. It is the prerogative of the academic department/college to determine if X-01 through X-99 level courses are courses offered in conjunction with certificate programs only. Courses at the X-01 through X-99 level are not acceptable on advanced degree programs.
SDSU should consult the sponsoring academic department to ascertain the applicability of X-01 through X-99 level courses offered in any certificate program toward their proposed course of study.

Final Examinations
No final examination shall be given to individual students before the regular time. Any arrangements with the instructor to have an incomplete grade reported and must take the student who finds it impossible to take a final examination on the date scheduled must make deferred final examination within the time allowed for making up incomplete grades.

Credit for Upper Division Courses
Normally, only juniors, seniors and graduate students enroll in upper division courses (numbered 300 and above). However, a freshman or sophomore may enroll in an upper division course for upper division credit if the instructor consents. Article 40405.2 of Title 5, California Administrative Code specifically limits upper division general education credit to students who have achieved upper division status.

Community College Credit
A maximum of 70 semester units earned in a community college may be applied toward the degree, with the following limitations: (a) no upper division credit may be allowed for courses taken in a community college; (b) no credit may be allowed for professional courses in education taken in a community college, other than an introduction to education course.

Concurrent Master's Degree Credit
A senior who has met all of the required competencies in writing and mathematics and who is within 12 units of completing requirements for the bachelor's degree and whose grade point average in the last 60 semester units attempted is 3.0 or above may petition the Graduate Council to take for concurrent master's degree credit 500-numbered courses listed in the Graduate Bulletin as acceptable for master's degree programs, and certain 600- and 700-numbered courses approved by the department, with the remaining requirements for the bachelor's degree. Petitions may be obtained from the Graduate Division office and must be submitted to the Evaluations Office of Admissions and Records by the end of the third week of classes of the semester or term in which the concurrent credit is earned, and the student must have on file a current graduation application for the bachelor's degree. The bachelor's degree must be completed at the end of the semester or term in which the concurrent credit is earned. The maximum number of units which may be earned as concurrent master's degree credit is determined by the difference between the number of units remaining for the bachelor's degree and 15.

Concurrent Postbaccalaureate Credit
Applicable to the "Fifth Year" Credential Requirement Only
Concurrent postbaccalaureate credit may be earned during the final semester or summer session by seniors admitted to the College of Education who meet all of the following qualifications:
1. Have a minimum grade point average of 2.5 on the last 60 units attempted.
2. Complete course work in excess of graduation requirements during the semester (or summer session) when graduation occurs.
3. Attempt no more than 18 units during the final undergraduate semester (or 15 units during summer session).
4. Request no more than a maximum of 12 units of 300-, 400-, or 500-numbered courses for postbaccalaureate credit.
5. Submit petition before the end of the first week of classes (or the first week of summer term A) of the final undergraduate semester (or term) when graduation occurs.
6. Petition the Dean of the College of Education.
7. Graduate at the end of the semester (or summer session) the petition is made.

Extension courses are not acceptable for concurrent postbaccalaureate credit. Concurrent postbaccalaureate credit will not be granted retroactively.

Petition forms are available in the Evaluations Office, AD-127.
Credit for Extension Courses

The maximum amount of extension and correspondence credit which may be accepted toward the minimum requirements for the bachelor's degree is 24 semester units. Extension and correspondence credit do not count in satisfaction of the minimum residence requirement. A maximum of nine units in extension courses at San Diego State University may be accepted as part of the requirements for the master's degree, subject to limitations described in the Graduate Bulletin.

Continuing education courses offered by departments are of two kinds. The first includes regular courses listed in the General Catalog which are available for use by students in meeting college and university credit requirements of various kinds, and are usually at the upper-division needs of specific community groups.

Courses numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees; those numbered 600 through 799 are graduate courses; and those numbered 800 through 999 are doctoral courses.

Courses numbered X-01 through X-99 are those offered only through Extension to meet specific academic needs of community groups and are applicable as general elective credit toward an undergraduate degree at SDSU. Courses X-01 through X-49 are designated as second division and X-50 through X-99 are designated as upper division. It is the prerogative of the academic department/college to determine if X-01 through X-99 level courses are applicable to a major, a minor, or toward specified electives. The X-01 through X-99 level courses are not acceptable on advanced degree programs.

Extended Studies students who eventually plan to pursue an undergraduate degree at SDSU should consult the sponsoring academic department to ascertain the applicability of extension courses toward their proposed course of study.

Academic Credit Through Examination

The University grants credit for passing scores on the CSU English Equivalency Examination, The College Board Advanced Placement Examinations, and certain tests in the College-Level Examination Program. It also grants credit for locally administered "credit by examination" tests. The details in each case are provided below.

English Equivalency Examination

Students who pass the EEE at the level which results in six units of graduation credit will have those units applied as follows: (a) if passed before April 1984; three units in English 100 and three units in English 220; (b) if passed in April 1984 or later, three units in English 100 and English Placement Test.

Credit for Advanced Placement Examinations

San Diego State University grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of The College Board. High school students who intend to participate in this program should make the necessary Placement Examinations that their test scores be sent to San Diego State University. To obtain the chart below indicates the score necessary, the units earned and the course equivalents for each of the examinations offered.

Credit for College-Level Examination Program (CLEP)

The University grants credit on four of the five CLEP General Examinations (Humanities, Mathematics, Natural Sciences, and Social Sciences) and on four of the CLEP Subject Examinations (Calculus and Analytic Geometry including essay, College Algebra and Trigonometry, General Chemistry, and Statistics).

For information on minimum acceptable scores, contact the Evaluations Office or the University Advising Center.

Credit by Examination

Students may challenge courses by taking examinations developed at San Diego State University. A student who satisfies requirements of the University Advising Center to the satisfaction of the department in which the examination is to be taken may receive credit for a course by examination.
Student Program and Records

Transcripts of Record
A student may obtain an official transcript of his/her record by filing an application at the Cashier's Office. A fee is charged for all transcripts and must be paid in advance. One week should be allowed for the processing and mailing of the transcript. Transcripts from other schools or colleges become the property of this university and will not be released or copied.

Unofficial Transcripts
Students may obtain an unofficial copy of their SDSU transcript by paying the unofficial transcript fee at Admissions and Records. These transcripts are usually available on an immediate basis. However, during peak periods, Admissions and Records reserves the right to offer a 48-hour turnaround. These records do not bear the seal of the University and are not suitable for transfer purposes. Unofficial copies will be made ONLY of the SDSU transcript.

Full-time Student Status
Requirement for Full-time Student Status at SDSU is 12 units per semester. Graduate units taken by graduate students (500 level and above) are weighted at 1½ units per unit. The Student Services area of Admissions and Records verifies student enrollment for students in person with proper identification and through the mail with an authorized signature from the student.

Prerequisites/Provisional Enrollment
Prerequisites will be enforced in all sections of courses listed in the Academic Policy pages of the current Class Schedule and Information Handbook. Students who register for those courses through Walk-Through Registration, Advance Registration, or Schedule Adjustment will be provisionally enrolled only; official enrollment will depend on the student's verification of prerequisites. In the event that the student cannot verify prerequisites, the instructor reserves the right to disenroll the student administratively.

Change of Program
San Diego State University provides for change of program beginning the first day of classes each term. Change of program includes: withdrawal from a class, adding a class, adding or reducing units of a class for which the student is already registered, changing a section of the same class, or changing grading options.

Students are responsible for every course on their official study list filed at registration. If a student does not attend the first class meeting of the semester and is not present at the start of the second meeting, the professor may give that student's place to another student; however, if this occurs, the student must still take the necessary formal drop action personally. Changes of program cannot be effected by nonattendance in class; nonattendance without consequent formal drop action will result in a failing grade.

Dropping a class after the end of the tenth day of instruction and prior to the last three weeks of the semester is permitted only for serious and compelling reasons. Permission to drop a class during this period is granted only with the signature of the instructor, who indicates the student's status in the class, and the approval of the College Dean or designee. In cases such as accident or illness, the student must still take the necessary formal drop action personally. Changes of program cannot be effected by nonattendance in class; nonattendance without consequent formal drop action will result in a failing grade.

Sufficient work has been completed to permit an evaluation to be made. Requests to Withdraw under such circumstances must be approved by the dean (or designee) of the college of the student's major. Change of grading option is not permitted after the end of the fifteenth day of instruction.

Student Program and Records

Transcripts of Record
A student may obtain an official transcript of his/her record by filing an application at the Cashier's Office. A fee is charged for all transcripts and must be paid in advance. One week should be allowed for the processing and mailing of the transcript. Transcripts from other schools or colleges become the property of this university and will not be released or copied.

Unofficial Transcripts
Students may obtain an unofficial copy of their SDSU transcript by paying the unofficial transcript fee at Admissions and Records. These transcripts are usually available on an immediate basis. However, during peak periods, Admissions and Records reserves the right to offer a 48-hour turnaround. These records do not bear the seal of the University and are not suitable for transfer purposes. Unofficial copies will be made ONLY of the SDSU transcript.

Full-time Student Status
Requirement for Full-time Student Status at SDSU is 12 units per semester. Graduate units taken by graduate students (500 level and above) are weighted at 1½ units per unit. The Student Services area of Admissions and Records verifies student enrollment for students in person with proper identification and through the mail with an authorized signature from the student.

Prerequisites/Provisional Enrollment
Prerequisites will be enforced in all sections of courses listed in the Academic Policy pages of the current Class Schedule and Information Handbook. Students who register for those courses through Walk-Through Registration, Advance Registration, or Schedule Adjustment will be provisionally enrolled only; official enrollment will depend on the student's verification of prerequisites. Sufficient work has been completed to permit an evaluation to be made. Requests to Withdraw under such circumstances must be approved by the dean (or designee) of the college of the student's major. Change of grading option is not permitted after the end of the fifteenth day of instruction.
Deadlines

1. Dropping courses will be permitted with no penalty or restriction only until the end of the tenth day of classes.
2. Adding courses or complete withdrawal from the University will be allowed without penalty or restriction until the end of the fifteenth day of classes.
3. Change of grading option will NOT be permitted after the fifteenth day of classes.

Change of Major or Curriculum

At the time of admission to the university, each undergraduate student is assigned to a major field or curriculum, or is designated as an undeclared major. After registration, all students wishing to change their major or curriculum must make application at the Evaluations Office. Administration for necessary changes in letters of eligibility. Upon change or declaration of major, students must adopt the requirements of the major and any minors in effect at that time.

Academic Renewal

Under certain circumstances the campus may disregard up to two semesters or three quarters of previous undergraduate course work taken at any college from all considerations associated with requirements for the baccalaureate degree. These circumstances are: 1. The student has requested the action formally and has presented evidence that work completed in the term(s) under consideration is substandard and not representative of present scholastic ability and level of performance; and 2. The level of performance represented by the term(s) under consideration was due to extenuating circumstances; and 3. There is every evidence that the student would find it necessary to complete additional units and enroll for one or more additional terms in order to qualify for the baccalaureate if the request were not approved.

Final determination that one or more terms shall be disregarded in determination of eligibility for graduation shall be based upon a careful review of evidence by a committee appointed by the President which shall include the Vice President for Academic Affairs and students, and consist of at least three members. Such final determination shall be made only when: 1. Five years have elapsed since the most recent work to be disregarded was completed; and 2. The student has completed at SDSU, since the most recent work to be disregarded was or is designated as a 3.0 GPA, 30 semester units with at least a 2.0 GPA. Work completed at another institution cannot be used to satisfy this requirement.

When such action is taken, the student's permanent academic record shall be annotated to indicate that it is readily evident to all users of the record that work taken during the disregarded term(s) is not a substantial representation of academic work accomplished at San Diego State University. When the student's transcript is used in a subsequent application, it shall be noted that the student has been determined by the university to have met the requirements for graduation.

Approval for leaves of absence will not be granted to students who have been admitted but will not have completed at least one semester before the leave of absence period. To students who were academically disqualified at the end of their last semester of attendance, to be eligible for leave an undergraduate must be in good standing as an undergraduate; students qualifying for change in status to undergraduate to graduate are not eligible.

Leave of absence is not to be confused with the privilege of being able to step-out one semester. This means, with certain exceptions, undergraduate students and graduate students may be absent for one semester and maintain their continuing student status. This includes enrollment in at least one course with passing grade and is required to register for the next semester. Disqualified students, students with financial or test holds, students who are applying for graduation, students absent for more than one semester, or those who attend another institution while absent must apply for readmission should they wish to return to San Diego State University.

Readmission. A student who withdraws from the University must file application for readmission if a full semester elapses between withdrawal and return. A $35 application fee for readmission is required if the applicant was not regularly enrolled in either of the two semesters immediately preceding the semester for which the application is submitted, or if the student was enrolled at another institution subsequent to the last attendance at San Diego State University. SDSU students in good standing are not academically disqualified and retain their original catalog status if they are absent from the University for no more than one semester.

Evaluation. An evaluation is a summary of college work completed and of requirements to be completed for a bachelor's degree or credential. To be eligible for an evaluation, a student must be currently enrolled, have completed at least 56 units of acceptable college work, and have a declared major. An evaluation will not be done until official copies of the transcript credit are on file in the Office of Admissions and Records. Only one evaluation will be done for each major. Authorization for more than one evaluation during any one semester or one evaluation in major. Authorizations for more than one evaluation during any one semester or one evaluation in major.

A student who has earned 60 semester units or more and has not received an evaluation in the nine weeks of summer session, due to change of major, requires special permission.

A student who has earned 90 semester units or more and has not received an evaluation in the nine weeks of summer session, due to change of major, requires special permission.

Evaluation. An evaluation is a summary of college work completed and of requirements to be completed for a bachelor's degree or credential. Authorization for more than one evaluation during any one semester or one evaluation in major.

A student who has earned 60 semester units or more and has not received an evaluation in the nine weeks of summer session, due to change of major, requires special permission.

A student who has earned 90 semester units or more and has not received an evaluation in the nine weeks of summer session, due to change of major, requires special permission. After an interval of five years from the time an evaluation is made, courses in education to be applied toward a teaching credential are subject to reevaluation.
Credit and Study List Limits

A unit or credit hour represents 50 minutes of lecture or recitation combined with two hours of preparation per week throughout one semester of 15 weeks. Two hours of activity (as in physical education) or three hours of laboratory (as in the sciences) are considered equivalent to one hour of lecture.

At registration time, students will not be permitted to enroll for more than 18 units. After registration, units may be added, if desired, by means of the add-drop process, though if students are employed outside of college they are strongly advised to undertake a modest college program. Normally, a student can expect to spend in class and study a total of three hours per week for each unit of college work attempted. A normal 16-unit load therefore represents a 48-hour week. Students must keep in mind the fact that some courses require far more than the average amount of time and that the workload in all courses can be expected to vary throughout the semester as examinations and major papers or projects come due.

Graduation With Honors and Distinction

Graduation with honors is granted to those undergraduate students in each graduating class who achieve high grade point averages. Excellence is recognized at three levels: cum laude (3.50-3.64), magna cum laude (3.65-3.79), and summa cum laude (3.80-4.00).

The grade point average is computed on a minimum of 24 graded units taken at this institution, except that if the grade point average for work at other collegiate institutions is lower, those grades are included in the computation.

Grades for the final semester’s work are included in the calculation of eligibility for graduation with honors. Students are tentatively designated as eligible for graduation with honors if the grade point average meets required standards at the beginning of the fall semester for mid-year graduates and at the beginning of the spring semester for May and summer session graduates. Notation of cum laude, magna cum laude, or summa cum laude on transcripts and diplomas is based on actual total achievement.

Upon recommendation of their major department, students doing superior work in their major field may be graduated with distinction in that field. To qualify for Distinction in the Major, a student must have a minimum 3.50 grade point average in the major (upper division courses) by the beginning of the fall semester for mid-year graduates and by the end of the fall semester for May and summer session graduates.

To be considered for computation of the major grade point average, grades for removal of Incomplete and all other grade changes must be received in the Admissions and Records Office no later than the end of the fifth week of the semester in which the student plans to graduate. All changes for summer session graduates must be received by the end of the fifth week of the spring semester prior to graduation.

Dean’s List

The Dean’s List recognizes academic achievement within a single semester. Students must place within the top ten percent of the school or college in which they are majoring, and have a grade point average of at least 3.50 based on a minimum of 12 units of work completed within six weeks after the end of the semester to include students who complete Incomplete grades promptly. Students will be recognized by the Dean of their respective College; undeclared and liberal studies majors will be listed by the Dean of Undergraduate Studies.

Scholastic Probation and Disqualification

**Undergraduate Students**

An undergraduate student will be placed on academic probation if at any time the student’s cumulative grade point average is below 2.0.

An undergraduate student on academic probation is subject to academic disqualification:

A. As a lower-division student (less than 60 semester hours of college work completed) if the student falls 15 or more grade points below a 2.0 (C) average on all units attempted or in all units attempted at this campus.

B. As a junior (60-89 semester hours of college work completed) if a student falls nine or more grade points below a 2.0 (C) average on all units attempted or in all units attempted at this campus.

C. As a senior (90 semester hours of college work completed) if a student falls six or more grade points below a 2.0 (C) average on all units attempted or in all units attempted at this campus.

An undergraduate student shall be removed from academic probation when his/her cumulative grade point average is 2.0 or higher in all college work attempted and in all work attempted at this University.

A disqualified student may be reinstated when conditions causing the poor performance have been alleviated. Enrollment in Summer Sessions, Wintersession, or special session courses will be considered for students seeking reinstatement to the University; however, successful completion in such residence courses will not guarantee immediate reinstatement. Application for reinstatement should be made at the Office of Admissions and Records.

A disqualified student who is reinstated after an absence from SDSU of one or more semesters is subject to the requirements of the General Catalog in effect when the student resumes study and remains in continuous enrollment at a California community college or a California State University campus.

**Administrative Academic Probation**

An undergraduate or graduate student may be placed on administrative academic probation by action of appropriate campus officials for any of the following reasons:

A. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms.

B. Repeated failure to progress toward the stated degree or objective or other program objective (when such failure appears to be due to circumstances within the control of the student).

C. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (example: failure to take placement tests, failure to complete a required practicum).

**Administrative Academic Disqualification**

A student who has been placed on administrative academic probation may be disqualified from further attendance if:

A. The conditions for removal of administrative academic probation are not met within the period specified.

B. The student becomes subject to academic probation while on administrative academic probation.

C. The student becomes subject to administrative academic probation for same or similar reason for which the student has been placed on administrative academic probation previously, although not currently in such status.

**Student-Athlete Satisfactory Academic Progress Requirement**

In order to remain eligible for intercollegiate competition, a student-athlete must be enrolled in an academic program leading to a recognized degree, must be making satisfactory progress toward that degree under the rules of the institution and the NCAA, and must achieve at least the minimum cumulative GPA standards found in the WAC Minimum Cumulative Grade Point Average Requirement Table.

**Student Discipline and Grievances**

Inappropriate conduct by students or by applicants for admission is subject to discipline on the San Diego State University campus. The Office of Judicial Procedures coordinates the discipline process and establishes standards and procedures in accordance with regulations contained in Article 11, Sections 41301 through 41304 of Title 5, California Administrative Code. These sections are as follows:
41301. Expulsion, Suspension and Probation of Students. Following procedures consistent with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus related:
(a) Cheating or plagiarism in connection with an academic program at a campus.
(b) Forgery, alteration or misuse of campus documents, records, or identification, or knowingly furnishing false information to a campus.
(c) Misrepresentation of oneself or an organization to be an agent of a campus.
(d) Obstruction or disruption, on or off campus property, of the campus educational process, administrative process, or other campus function.
(e) Physical abuse or on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse.
(f) Theft of, or nonaccidental damage to, campus property or property in the possession of, or owned by, a member of the campus community.
(g) Unauthorized entry into, unauthorized use of, or misuse of campus property.
(h) On campus property, the sale or knowing possession of dangerous drugs, restricted when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis.
(i) Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president.
(j) Engaging in lewd, indecent or obscene behavior on campus property or at a campus function.
(k) Abusive behavior directed toward, or hazing of, a member of the campus community.
(l) Violation of any order of a campus president, notice of which had been given prior to publication in the campus newspaper, or by posting on an official bulletin board, which order is not inconsistent with any of the other provisions of this Section.
(m) Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section.

For purposes of this Article, the following terms are defined:

The term "member of the campus community" is defined as meaning California students, and other persons while such other persons are on campus property or at a campus function.

The term "campus property" includes:
(A) real or personal property in the possession of, or under the control of, the Board of Trustees of the California State University and any campus of The California State University; and
(B) all campus housing, retail or residence facilities properly operated by a campus auxiliary organization.

The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, switchblade knife, pistol, revolver, or any other firearm; any and any metal pipe or bar used or intended to be used as a club.

The term "behavior" includes conduct and expression.

The term "hazing" means any method or initiation into a student organization or any cause, or is likely to cause, bodily danger or physical or emotional harm to any member of the campus community by any student organization.

This Section is not adopted pursuant to Education Code Section 69301.

41302. Disposition of Fees: Campus Emergency: Interim Suspension.
The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension. In the event that a student who has not reached his or her eighteenth birthday and who is a dependent of his or her parent(s) as defined in Section 152 of the Internal Revenue Code of 1954 is suspended or expelled, the President shall notify his or her parent or guardian of the action by registered mail to the last known address, return receipt requested.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reason to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of The California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

41303. Conduct by Applicants for Admission. Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student, commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for The California State University.
The Chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for The California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus President in such matters; conduct related determinations on financial aid eligibility and termination; alternative kinds of proceedings including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor shall report to the Board his actions taken under this section.

Student Grievances
If a student believes that a professor's treatment is grossly unfair or that a professor's behavior is clearly unprofessional, he or she may bring his or her complaint to the proper university authorities and official reviewing bodies by following the Procedures for Handling Student Grievances Against Members of the Faculty, adopted by the Faculty Senate. A copy of the procedures may be obtained from the Ombudsman's Office in Aztec Center.

Plagiarism
Plagiarism is formal work publicly misrepresented as original; it is any activity wherein one person knowingly, directly, and for lucre, status, recognition, or any public gain resorts to the published or unpublished work of another in order to represent it as one's own. Work shall be deemed plagiarism: (1) when prior work of another has been demonstrated as the accessible source; (2) when substantial or material parts of the source have been literally or evasively appropriated (substance denoting quantity, matter denoting qualitative format or style); and (3) when the work lacks sufficient or unequivocal citation so as to indicate or imply that the work...
was neither a copy nor an imitation. This definition comprises oral, written, and crafted pieces. In short, if one purports to present an original piece but copies ideas word for word or by paraphrase, those ideas should be duly noted.

Second, San Diego State University is a publicly assisted institution legislatively empowered to certify competence and accomplishment in general and discrete categories of knowledge. The President and faculty of this University are therefore obliged not only to society at large but to the citizenry of the State of California to guarantee honest and substantive knowledge in those to whom they assign grades and whom they recommend for degrees. Wittingly or willfully to ignore or to allow students’ ascription of others’ work to themselves is to condone dishonesty; to deny the purpose of formal education, and to fail the public trust.

The objective of university endeavor is to advance humanity by increasing and refining knowledge and is, therefore, ill served by students who indulge in plagiarism. Accordingly, one who is suspected or accused of disregarding, concealing, aiding, or committing plagiarism must, because of the gravity of the offense, be assured of thorough, impartial, and conclusive investigation of any accusation. Likewise, one must be liable to an appropriate penalty, even severance from the University and in some cases revocation of an advanced degree, should the demonstrated plagiarism clearly call into question one’s general competence or accomplishments.

Graduation Requirements for the Bachelor's Degree

The requirements in this "Graduation Requirements" section of the catalog are those requirements which the University will make every effort to preserve for students subject to this catalog according to the provisions enumerated below. All other parts of the catalog are subject to change from year to year as University rules, policies, and curricula change. It is the students' responsibility to keep informed of such changes; failure to do so will not exempt students from whatever penalties they may incur.

The requirements appearing in this catalog are applicable to students under the following circumstances:

1. Students who remain with the graduation requirements in effect during the year in which they entered SDSU, at any campus, in the CSU system, or a California community college, so long as they have remained in attendance at least one semester or two quarters each academic year or for attendance at another regionally accredited institution of higher learning, shall not have their majors or minors reinstated after an absence from SDSU of two years or less.

2. Students who are disqualified from the SDSU academic system or are not considered to be in continuous attendance at SDSU even if they continue in attendance at another campus in the CSU system or a California community college for more semesters, they are subject to the requirements of the General Catalog in effect during the year in which they re-enroll in the CSU system or a California community college.

The declaration of a major can occur in either of two ways: (a) by entering it on an Application for Admission form or (b) by obtaining and filing a Change or Declaration of Major form at the Evaluations Office, Administration Building. Students are advised to check with appropriate departments if they wish to declare an impacted major.

I. Competency Requirements: Writing and Mathematics

Competency in written English and in basic mathematics is essential to successful university study. All students pursuing a baccalaureate degree must satisfy two writing requirements and two mathematics requirements:

1. the California State University English Placement Test requirement;
2. the San Diego State University Writing Competency requirement;
3. the California State University Entry-Level Mathematics Examination requirement;
4. the San Diego State University Mathematics Competency requirement.

All four requirements must be satisfied before enrolling in baccalaureate level writing, mathematics, statistics, and selected economics, health science, and telecommunications courses.

Failure to attempt to satisfy all four of the requirements in writing and mathematics within two semesters of attendance at San Diego State University will result in the withholding of registration privileges for a third semester. Failure to satisfy the requirement upon matriculation in this catalog year or who take the examinations during this catalog year.

II. Graduation Requirements

All courses for which writing and/or mathematics competency is an enforced prerequisite are listed in the "Changes in Academic Policies and Requirements Applicable to All Students" section of the current Class Schedule.

WRITING REQUIREMENTS

ALL students must satisfy both the CSU English Placement Test (EPT) requirement and the SDSU Writing Competency requirement before enrolling in baccalaureate level writing courses, selected economics and telecommunications courses, and before satisfying the Upper Division Writing requirement.

Furthermore, failure to attempt the CSU English Placement Test and the SDSU Writing Competency Test, or to register in Academic Skills 110, or to verify satisfaction of the two requirements by other methods listed below within two semesters of attendance at SDSU will result in the withholding of registration privileges for a third semester. Failure to satisfy the requirements by passing the appropriate examination or Academic Skills courses within four semesters will result in the withholding of registration privileges for a fifth semester.

Test dates and times are listed in the "Special Tests" section of the current Class Schedule.

1. The CSU English Placement Test requirement

Students must satisfy the CSU English Placement Test requirement by one of the following methods:

a. Completion of the CSU English Placement Test (EPT) at SDSU or at another CSU campus.
   b. Transfer to SDSU with 56 or more transferable semester units or 84 quarter units completed before transfer.
   c. Completion before matriculation at SDSU of an acceptable college transfer course in English composition of three semester or four quarter units with a grade of C or better.
   d. Score of 510 or above on the Verbal section of the Scholastic Aptitude Test (SAT).
   e. Score of 23 or above on the English Composition Examination of The College Board
   f. Satisfactory score on the CSU English Equivalency Examination (EEE).
   g. Score of 3 or above on the English Composition Examination of The College Board Advanced Placement Program (AP).
   h. Score of 600 or above on The College Board Achievement Test in English Composition with Essay (ES).

2. The SDSU Writing Competency requirement

Students must satisfy the SDSU Writing Competency requirement by one of the following methods:

a. Essay score of 7 and total score of 150 on the CSU English Placement Test (EPT).
   b. Passing score on the SDSU Writing Competency Test.
   c. Score of 510 or above on the Verbal section of the Scholastic Aptitude Test (SAT).
   d. Score of 23 or above on the English Usage section of the American College Test (ACT).
   e. Qualification for English 100 or Linguistics 100 on the International Students English Placement Test (ISEPT) (for all international students, regardless of TOEFL score, whose native language is not English).
   f. Satisfactory score on the CSU English Equivalency Examination (EET).
   g. Score of 3 or above on the English Composition Examination of The College Board Advanced Placement Program (AP).
   h. Score of 600 or above on The College Board Achievement Test in English Composition with Essay (ES).
   i. Credit for Academic Skills 150 at SDSU.
   j. Passing the final competency examination in Academic Skills 110 at SDSU.

* Please note that, beginning in academic year 1986-87, all undergraduates (including those who enroll with more than 56 semester units and who are subject to the 1986-87 or later General Catalog) will be required to complete the English Placement Test requirement. Even though not required this year for those with 56 or more units, all undergraduates are encouraged to take the test to heighten their awareness and command of college-level English skills.

** These scores are appropriate only to those students who satisfy the requirement upon matriculation in this catalog year or who take the examinations during this catalog year.
Students may attempt the Writing Competency Test twice; after two unsuccessful attempts, students must make a substantial effort to improve their writing skills (for example, by taking Academic Skills 110) before being allowed a third attempt.

Students who fail to pass the SDSU Writing Competency Test or who wish to take a course to prepare them for the examination may take Academic Skills 110 within two semesters of admission. The final examination in the course is a competency examination. Students who do not score at an adequate level on that examination may advance to Academic Skills 150, which also uses a competency examination as a final examination. A grade of Cr (Credit) in Academic Skills 150 will satisfy the SDSU Writing Competency requirement. Credit earned in Academic Skills 110 and 150 is not applicable to the baccalaureate degree.

**MATHEMATICS REQUIREMENTS**

All students must satisfy both the CSU Entry-Level Mathematics Examination requirement and the SDSU Mathematics Competency requirement before enrolling in baccalaureate level mathematics, statistics, and selected economics and health science courses.

Furthermore, failure to attempt the CSU Entry-Level Mathematics Examination and the SDSU Mathematics Placement Test, or to register in Academic Skills 102A, 102B, or 103, or to verify satisfaction of the requirements by other methods listed below within two semesters of attendance at SDSU will result in the withholding of registration privileges for a third semester. Failure to satisfy the requirements by passing the appropriate examinations or courses within four semesters will result in the withholding of registration privileges for a fifth semester. Test dates and times are listed in the "Special Tests" section of the current Class Schedule.

1. **CSU Entry-Level Mathematics Examination requirement**
   - Students must satisfy the CSU Entry-Level Mathematics Examination (ELM) requirement by one of the following methods:
     a. Score of 38 or above on the CSU Entry-Level Mathematics Examination (ELM) taken at SDSU or at another CSU campus.
     b. Completion of the ELM before matriculation at SDSU of an approved General Education mathematics transfer course of three or four quarter units at the level of Intermediate Algebra or above with a grade of C or better.
     c. Score of 530 or above on the Mathematics section of the Scholastic Aptitude Test (SAT).
     d. Score of 23 or above on the Mathematics section of the American College Test (ACT).
     e. Score of 3 or above on The College Board Advanced Placement Test (AP) in Mathematics, level AB or BC.
     f. Score of 520 or above on The College Board Mathematics Achievement Test, Level 1.
     g. Score of 540 or above on The College Board Mathematics Achievement Test, Level 2.
     h. Continuous attendance at a California community college or CSU campus prior to summer 1983 until the present.

   Students who fail to pass the Entry-Level Mathematics Examination or who wish to take a course to prepare them for the examination may take Academic Skills 102A; however, credit for the course does not satisfy the requirement. All students subject to the ELM must pass the examination.

2. **The SDSU Mathematics Competency requirement**
   - Students must fulfill the SDSU Mathematics Competency requirement by one of the following methods:
     a. Score of 38 or above on the CSU Entry-Level Mathematics Examination (ELM).
     b. Satisfactory score on any section of the SDSU Mathematics Placement Test (SAT).**
     c. Score of 530 or above on the Mathematics section of the Scholastic Aptitude Test (SAT).**
     d. Score of 23 or above on the Mathematics section of the American College Test (ACT).**
     e. Score of 3 or above on The College Board Advanced Placement Test in Mathematics, level AB or BC.
     f. Score of 520 or above on The College Board Mathematics Achievement Test, Level 1.
     g. Score of 540 or above on The College Board Mathematics Achievement Test, Level 2.

   **These scores are applicable only to those students who satisfy the requirement upon matriculation in this catalog year or who take the examinations during this catalog year.
subject matter and its organizing concepts. It consists of 24 or more upper division units for the Bachelor of Arts, Bachelor of Music, and Bachelor of Vocational Education degrees, and of 36 or more units for the Bachelor of Science degree. At least half of the units must be completed at SDSU unless specifically waived by the department; however, in no case shall a student be allowed to complete fewer than 12 units in the major at SDSU. Units received through SDSU extension courses, with the exception of those offered during Summer Session and Winter Session, are not applicable to this requirement. A summary list of all majors appears at the close of this chapter; the full statement of requirements for each major can be found through the Index. Courses taken in satisfaction of the major cannot be used to meet requirements in a minor. A maximum of three upper division units in excess of 24 for the B.A. degree and 36 for the B.S. degree required for the major but taught outside the major department may be used to satisfy requirements both for General Education and the major if such courses have been approved for General Education.

A student may wish to major in two departments. If so, the requirements for both majors must be satisfied. Units for courses which could satisfy the requirements in both majors can be counted only once. Only one diploma will be granted but the transcript will note the completion of each major.

C. Minor. Completion of a minor is necessary if required by the major; the decision otherwise to complete a minor is left to the student. A minor is required if required by the major. The minor shall consist of 15-24 units. A summary list of all minors appears at the close of this chapter; the full statement of requirements for each minor can be found through the Index. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and General Education requirements.

IV. American Institutions Requirement

The American Institutions requirement can be satisfied in any of the following ways:

A. Courses: By passing any one of the following pairs of courses:

- Afro-American Studies 170A-170B
- Political Science 101 and 102
- African-American Studies 170A-170B
- Political Science 305 and 320
- Afro-American Studies 170B
- Political Science 305 and 321
- Afro-American Studies 170A
- Political Science 306 and 322
- Afro-American Studies 170B
- Political Science 320 and 321
- Mexican-American Studies 120A-120B
- Political Science 320 and 322
- Mexican-American Studies 141A-141B
- Political Science 341A-341B

B. Examination and courses: By passing the California State and Local Government Test (1 hour) or course work listed in B.3 AND completing course work appropriate to the remaining two areas. Courses applicable to each area are listed below.

1. American History, Institutions and Ideals: All pairs of courses listed in IV.B. above and History 537A-537B, 544A-544B, 545A-545B

C. Transfer credit: By providing evidence on a transcript or other official document from an institution that the requirements for General Education are satisfied. The partial certification of American Institutions or certification based on high school work in proportions appropriate to the various disciplines. The minor shall consist of 15-24 units. A summary list of all minors appears at the close of this chapter; the full statement of requirements for each minor can be found through the Index. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and General Education requirements.

V. Foreign Language Requirement

Students whose majors lead to the Bachelor of Arts degree in liberal arts and sciences or the Bachelor of Music degree must satisfy a Foreign Language requirement as indicated below. Students whose majors lead to other degrees are not subject to this requirement.

A. The Bachelor of Arts degree in liberal arts and sciences requires competency in one foreign or American Indian language as part of preparation for the major. Such competency can be demonstrated by:

1. Successfully completing the third college semester in one foreign language;
2. Successfully completing the fourth college semester in one foreign language;
3. Successfully completing a proficiency examination in one foreign language;
4. Graduating from high school (other than an American high school) in a non-English speaking country.

Any combination of the preceding is also acceptable. However, conversation courses may not be used in satisfying this requirement.

Students majoring in the Bachelor of Arts degree in liberal arts and sciences must also read the section on Foreign Language requirement under their respective major for special conditions and limits pertaining to those majors.

Courses offered at San Diego State University which satisfy the Foreign Language requirement are:

- Chinese 101, 202, and 303
- Classics 101A, 202A, and 303A (Greek)
- Spanish 101A, 101B, and 200A or 200B
- Japanese 101A, 101B, and 200A
- Korean 101, 102, and 200B
- Italian 100A, 100B, and 200A or 200B
- Portuguese 101A, 101B, and 200A
- Russian 101A, 102, and 200A
- Spanish 101A, 102, and 200A

Exclusions: (a) conversation courses may not be used to meet this requirement; (b) courses used to meet this requirement may not be applied to the General Education requirement.

Native speakers from foreign countries who have finished high school or the equivalent in their native language will be considered to have satisfied the foreign language requirement and will not be given credit for taking lower division courses in their native language except with advance approval from the department.

B. The Bachelor of Music degree requires eight to twelve units in a foreign language (or equivalent knowledge demonstrated in a test of reading knowledge administered by the foreign language department concerned in consultation with the Department of Music) as follows:

1. Vocalists — one semester each of French, German, and Italian.
2. Music history and literature students — twelve units of one foreign language chosen from French, German, or Italian.
3. All others — eight units of one foreign language chosen from French, German, or Italian (except that classical guitar students may substitute Spanish).

VI. Unit Requirements

A. Total unit requirement. The total number of units necessary for a bachelor's degree exclusive of Academic Skills 102, 103, 110, 111, 131, 132, 133, 141, 150 and English 125 is as follows:

1. For the Bachelor of Arts degree in Applied Arts and Sciences
2. For the Bachelor of Arts degree in Liberal Arts and Sciences
3. For the Bachelor of Science degree

* Applies to all options except General Geology and Paleontology which require 128 units.

*4. For the Bachelor of Science degree in Geologic Sciences

128
VII. Residence Requirement

To qualify for a bachelor's degree, each of the following unit requirements must be completed at this university:

A. A minimum of 30 units total, of which at least 24 units must be in upper division courses (numbered 300-599).
B. At least half of the upper division units required for the major, unless waived by the major department; however, in no case shall the unit total be fewer than 12 upper division units.

C. At least nine units in General Education courses if subject to the 1981-82 and later General Education requirements.

Note: Courses taken in extension (except for Summer Sessions and Winter Session) and units earned through credit-by-examination may not be applied to these requirements.

VIII. Grade Point Average Requirements

Three averages, each 2.0 or higher, are required for graduation:

A. An average based on all courses attempted at SDSU.
B. An average based on all courses attempted at SDSU and transferable courses at other universities, liberal arts colleges, and community colleges.
C. An average based on all upper division courses attempted in the major.

Information on the computation of averages can be found in the chapter General Regulations under these headings: Grade Point Average, Grades, Incomplete Grade, and Repeated Course.

IX. General Education Requirements*

As an important part of education, undergraduate students spend approximately one-third of their college years studying in the General Education program. Course work in General Education is intended to give enriching perspective to students' overall academic programs, to complement their mastery of a more specialized subject area, and to equip them for life-long understanding and development of themselves as integrated physiological and psychological entities. In recognition of the importance of social as well as personal integration and development of new courses, concepts, and learning experiences. The program has four major objectives: (1) to develop in students the intellectual capabilities necessary to the enterprise of learning; (2) to introduce students to the modes of thought characteristic of diverse academic disciplines; (3) to help them understand the conditions and forces which shape human beings and influence their lives; and (4) to help them apply critical and informed judgments to the achievements of their own and other cultures.

COURSE WORK EXCLUDED FROM GENERAL EDUCATION

The educational objectives of courses in General Education are not characteristic of other types of course offerings in the curriculum. Therefore, certain types of courses are not acceptable for General Education credit.

Types of courses that do not count for General Education credit include:

1. Course work in a major (upper division courses).
2. Mathematics 104 and 107, computer programming courses, and all Academic Skills courses.
3. Course work in excess of 12 units in one department or academic unit.

* Engineering, Liberal Studies Options 2 and 3, and Nursing majors should refer to the Courses and Curricula section of the General Catalog for a listing of General Education requirements.

** A maximum of three upper division units in excess of 24 upper division units for the B.A. degree and 36 upper division units for the B.S. degree required for the major but outside the major department may be used to satisfy requirements both for General Education and the major if such courses have been approved for General Education.
4. Courses numbered 296, 496, or 596 (Topics).
5. Courses numbered 299, 499 (Special Study).

NOTE: However, course work completed in a minor or in preparation for the major may be used to satisfy General Education.

CALIFORNIA COMMUNITY COLLEGE AND CSU CERTIFIED TRANSFER STUDENTS

Transfer students who are certified by their previous institutions to have completed 39 state-mandated General Education units as outlined in the California Administrative Code, Title 5, will be required to complete an additional nine units necessary to comply with the following Title 5 provision: "At least nine units shall be earned at the campus granting the degree."

It is expected that almost all students will take their remaining nine units at the upper division level in order to fulfill the required nine-unit upper division General Education requirement. Up to two upper division courses may be counted from a single area (Natural Sciences, Social and Behavioral Sciences, Humanities) of "Explorations," Part III of General Education. Only one course may be counted from American Institutions.

Those transfer students who have completed upper division General Education courses on another campus must take whatever additional units are necessary to complete the nine-unit upper division General Education requirement (within the limitations described in the above paragraph); such students may then select any course(s) approved for General Education to complete the nine units which must be taken at the campus granting the degree.

This provision also applies to students who were certified as having completed 40 units of General Education under earlier requirements and who have not maintained continuous attendance.

SPECIFIC REQUIREMENTS

Students will complete a minimum of 49 units in General Education, to include a minimum of nine upper division units which shall be taken no sooner than the term in which the student achieves upper division status.** At least nine units of General Education must be earned at San Diego State University. No more than 12 units may be used for General Education credit from any one department or academic unit.

I. COMMUNICATION AND ANALYTICAL REASONING

Courses taken to satisfy the Communication and Analytical Reasoning Section of General Education may not be taken for credit/no credit.

Included in Communication and Analytical Reasoning are courses in written and oral communication skills in English and in the analytical reasoning skills developed in mathematics, statistics, and logic. Communication and Analytical Reasoning courses deal with the communicative, ratiocinative, and computational skills required within the context of the University's subject matters and the diverse conceptual frameworks by which scholars in different fields approach these subjects. The purpose of this section of General Education is to familiarize the student sufficiently with such modes of thought so as to allow for their application to various human concerns and experiences, among them the need to function in a multicultural society.

Course Work in Communication and Analytical Reasoning. A minimum of twelve units distributed as follows.

A. Written Communication. Six units to include one course each from areas 1 and 2.

1. Composition
Afro-American Studies 120. Composition (3)
English 100. College Composition (3)
Linguistics 100. English Composition for International Students (3)
Mexican-American Studies 111B. Written Communication (3)

A maximum of three upper division units in excess of 24 upper division units for the B.A. degree and 36 upper division units for the B.S. degree required for the major may be used to satisfy requirements both for General Education and the major if such courses have been approved for General Education.

II. FOUNDATIONS

Foundations courses follow and build upon Communication and Analytical Reasoning courses and are offered by individual departments and interdisciplinary programs in the Natural Sciences, Social and Behavioral Sciences, and Humanities. Foundations courses introduce students to various disciplines, i.e., subject matters and the diverse conceptual frameworks by which scholars in different fields approach these subjects. The purpose of this section of General Education is to familiarize the student sufficiently with such modes of thought so as to allow for their application to various human concerns and experiences, among them the need to function in a multicultural society.

Course Work in Foundations. A minimum of 22 units distributed as follows. No more than seven units taken in any one department or program may be counted for credit in Foundations and Explorations.

A. Natural Sciences. Seven units to include one course each from areas 1 and 2 and a one-unit (three-hour) laboratory.

1. Life Sciences
+ Anthropology 101. Human Bio-Cultural Origins (3)
Biology 100L. General Biology Laboratory (1)
Biology 110. Evolution and Diversity of Animals (3)
Biology 110L. Evolution and Diversity of Animals Laboratory (1)
Biology 120. Microbiology and Man (3)
Biology 120L. Microbiology Laboratory (1)
Biology 130. Plants and Man (3)
Biology 130L. Plants and Man Laboratory (1)
Biology 301. Agricultural Botany of the Imperial Valley with Laboratory (4)

Mexican-American Studies 110B. Energy in Nature with Laboratory (4)

Students completing more than one of the above statistics courses will be awarded a total of four units of credit, three of which will be applicable to General Education.

Only one of these three courses may be taken for General Education credit.
2. Physical Sciences
   Astronomy 101. Principles of Astronomy (3)
   Astronomy 109. Astronomy Laboratory (1)
   Chemistry 100. Introduction to General Chemistry with Laboratory (4)
   Chemistry 110. Chemistry and Life (3)
   + Geography 101. Introduction to Physical Geography (3)
   + Geography 101L. Physical Geography Laboratory (1)
   + Geography 103. Introduction to Meteorology Laboratory (1)
   Geological Sciences 100. General Geology (3)
   Geological Sciences 101. General Geology Laboratory (1)
   Natural Science 100. Physical Science (3)
   Natural Science 102. Physical Science Laboratory (4)
   Natural Science 103. Laboratory Experiments in Physical Science (2)
   Physics 107. Introductory Physics with Laboratory (4)

3. Special Provision for Majors in the Sciences and Related Fields.
   a. Where course work in astronomy, biology, chemistry, geological sciences, or physics
      is required (or listed as a recommended course in the catalog) in preparation for the
      major, a student may substitute those courses for courses listed under either Life
      Sciences or Physical Sciences (as appropriate) in Sections II. A above and III. A
      below.
   b. If a student adopts the above provision and later changes his or her major to a field
      which does not require course work in these disciplines, the student may nevertheless
      receive General Education credit for courses taken in those disciplines.
   c. Undeclared majors who take non-General Education science courses in Section II. A
      and III. A, in anticipation of declaring a major which requires such course work, are
      included in a. and b. above.

B. Social and Behavioral Sciences. Six units to include courses from two departments.
   Anthropology 102. Introduction to Cultural Anthropology (3)
   Economics 100. Contemporary Economic Problems (3)
   Economics 101. Principles of Economics (3)
   Economics 102. Principles of Economics (3)
   Geography 102. Introduction to Cultural Geography (3)
   Linguistics 101. Introductory Linguistics (3)
   Political Science 103. Introduction to Comparative Government (3)
   Psychology 101. Introductory Psychology (3)
   Sociology 101. Introductory Sociology (3)

C. Humanities. Nine units to include courses from three of the four areas listed below.
   1. Literature
      Comparative Literature 270A. World Literature (3)
      Comparative Literature 270B. World Literature (3)
      English 220. Introduction to Literature (3)

   2. Art, Classics, Drama, Humanities, and Music
      Art 157. Introduction to Art (3)
      Art 258. Appreciation and History of Art (3)
      Art 259. Appreciation and History of Art (3)
      Classics 140. The Heritage of Greece and Rome (3)
      Drama 105. Introduction to the Theatre (3)
      Drama 120. Dramatic Heritage (3)
      Humanities 101. Introduction to Humanities (3)
      Humanities 102A. Introduction to European Heritage (3)
      Humanities 102B. Introduction to European Heritage (3)
      Humanities 130. The Jewish Heritage (3)
      Humanities 140. Mythology (3)
      Music 151. Introduction to Music (3)

+ Only one of these three courses may be taken for General Education credit.

3. History
   History 100. World History (3)
   History 101. World History (3)
   History 105. Western Civilization (3)
   History 106. Western Civilization (3)

4. Philosophy, Religious Studies
   Philosophy 101. Introduction to Philosophy: Values (3)
   Philosophy 102. Introduction to Philosophy: Knowledge and Reality (3)
   Philosophy 103. Historical Introduction to Philosophy (3)
   Religious Studies 101. World Religions (3)

III. EXPLORATIONS

General Education is not only a selection of disciplinary skills, introductions, and surveys. It
also includes more detailed courses, for the most part upper division, which allow more
concentrated or thematic study. This section is called Explorations. There are in Explorations
four areas of study—Natural Sciences, Social and Behavioral Sciences, Humanities, and
American Institutions.

Course Work in Explorations. A minimum of 15 units, of which at least nine units must be
upper division taken after achieving upper division status and at least one course must be
cross-cultural (indicated by *), distributed as follows:
   One course from area A.
   One course from area B.
   Two courses from area C.
   One course from area B or C or D.

No more than seven units taken in any one department or program may be counted for
credit in Foundations and Explorations.

A. Natural Sciences. Any course, excluding laboratories, listed in II. A above and as
follows:
   Astronomy 301. Cosmology and Gravitational Collapse (3)
   Biology 140. Ecosystems and Man (3)
   Biology 160. Introduction to Heredity (3)
   Biology 170. Natural History of Plants and Animals (3)
   Biology 307. Biology of Sex (3)
   Biology 319. Evolution (3)
   Biology 321. Human Heredity (3)
   Biology 324. Life in the Sea (3)
   Biology 327. Microbes: The Key to the Future (3)
   Biology 330. Natural History of the Vertebrates (3)
   Biology 336. Principles of Human Physiology (3)
   Biology 339. Sociobiology (3)
   Biology 341. The Human Body (3)
   Biology 341L. The Human Body Laboratory (1)
   Biology 356. Microorganisms in Human History (2)
   Biology 454. Conservation of Wildlife (3)
   Biology 480. Biology of Aging (3)
   Engineering 150. Control of the Human Environment (3)
   Geological Sciences 301. Geology of National Parks and Monuments (3)
   Geological Sciences 303. Environmental Geology (3)
   Mathematics 149. Introductory Matrix Algebra (3)
   Mathematics 303. History of Mathematics (3)
   Natural Science 305. Modern Physical Science (3)
   Natural Science 315. History of Science I (3)
   Natural Science 316. History of Science II (3)
   Natural Science 317. Development of Scientific Thought (3)
   Natural Science 339. Technology and Human Values (3)

% Students may not substitute History 305A for 105.
§ Students may not substitute History 305B for 106.
B. Social and Behavioral Sciences. Any course listed in II. B above and as follows.

- Afro-American Studies 102. Afro-American Life (3)
- Afro-American Studies 231. Cultural Patterns and Black Identity (3)
- Afro-American Studies 232. Social Analysis from a Black Perspective (3)
- Afro-American Studies 445. Ethnicity and Social Psychology (3)
- American Indian Studies 110. American Indian Heritage (3)
- American Indian Studies 320. American Indians in Contemporary Society (3)
- Anthropology 350. World Ethnography (3)
- Anthropology 410. Language in Culture (3)
- Anthropology 422. Ecological Anthropology (3)
- Anthropology 432. Principles of Personality in Culture (3)
- Anthropology 442. Cultures of South America (3)
- Anthropology 445. Ethnology of North America (3)
- Anthropology 448. Cultures of Oceania (3)
- Anthropology 449. Cultures of Sub-Saharan Africa (3)
- Anthropology 450. Cultures of India (3)
- Anthropology 452. Japanese Society (3)
- Economics 464. Economic Problems of Latin America (3)
- Economics 465. Economic Problems of South and East Asia (3)
- Economics 489. Population and Economic Growth (3)
- General Studies 310. Our Global Future: Values for Survival (3)
- Geography 312. Culture Worlds (3)
- Geography 321. United States (3)
- Geography 323. Middle America (3)
- Geography 324. South America (3)
- Geography 331. Monsoon Asia (3)
- Geography 335. The Middle East and North Africa (3)
- Geography 336. Europe (3)
- Geography 337. Soviet Union (3)
- Geography 350. Political Geography (3)
- Geography 364. Geography of Cities (3)
- Geography 370. Conservation of Environmental Quality (3)
- Geography 371A. Conservation of Natural Resources (3)
- Health Science 362. International Health (3)
- Journalism 468. Mass Communication and Society (3)
- Latin American Studies 101. Latin American Heritage (3)
- Linguistics 420. Modern English (3)
- Management 456. Conceptual Foundations of Business (3)
- Mexican-American Studies 140. History and Sociology of Racism (3)
- Mexican-American Studies 301. Political Economy of the Chicano People (3)
- Mexican-American Studies 355. The United States-Mexico International Border (3)
- Political Science 301A. History of Western Political Thought (3)
- Political Science 301B. History of Western Political Thought (3)
- Political Science 302. Modern Political Thought (3)
- Political Science 306. Democracy and Mass Society (3)
- Political Science 356. Comparative Communist Political Systems (3)
- Political Science 382. Governments and Politics of the Developing Areas (3)
- Political Science 383. Governments and Politics of the Middle East (3)
- Political Science 384. Political Change in Modern Africa (3)

* Cross-cultural course.
† Majors in the College of Business Administration may not use this course to satisfy requirements for General Education.

C. Humanities. Any two courses listed in II. C above and as follows.

- Afro-American Studies 180. Afro-American Literature (3)
- Afro-American Studies 260. Introduction to Afro-American Literature (3)
- Afro-American Studies 460. Black Images in Western Literature (3)
- Afro-American Studies 470. Comparative History: Afro-American and African Heritage (3)
- American Indian Studies 200. American Indian Literature (3)
- American Indian Studies 255. American Indian Music (3)
- American Indian Studies 430. American Indian Poetry and Fiction (3)
- American Indian Studies 440. American Indian History (3)
- American Indian Studies 470. Roots of Indian Tradition (3)
- Anthropology 422. Music and Culture (3)
- Anthropology 424. Primitive Religion (3)
- Art 158. Arts of Native America, Sub-Saharan Africa and Oceania (3)
- Art 264. Chinese Art (3)
- Art 265. Japanese Art (3)
- Asian Studies 458A. Asian Cultures (3)
- Asian Studies 458B. Asian Cultures (3)
- Chinese 101. Elementary (4)
- Chinese 202. Elementary (4)
- Chinese 303. Readings in Contemporary Chinese (4)
- Chinese 304. Readings in Chinese (4)
- Classics 101G. Elementary Greek I (3)
- Classics 101L. Elementary Latin I (3)
- Classics 120. Latin and Greek Word Derivation (3)
- Classics 202G. Elementary Greek II (3)
- Classics 202L. Elementary Latin II (3)
- Classics 303G. Readings in Greek Prose (3)
- Classics 303L. Readings in Latin Prose (3)
- Classics 304G. Readings in Greek Poetry (3)
- Classics 304L. Readings in Latin Poetry (3)

* Cross-cultural course
† Only those foreign language courses numbered 100A, 100B, 101, 101G, 101L, 102, 200, 200A, 200B, 200C, 200D, 201, 202, 202S, 220L, 301, 302, 303, 303G, or 303L, not used to satisfy the Foreign Language graduation requirement for the major and not in violation of high school course repeat provisions may be used to satisfy General Education in the Explorations component.
Graduation Requirements

Cross-cultural Course.
• Comparative Literature 405. The Bible as Literature (3) [Same course as English 405.]
• Comparative Literature 430. Asian Literature (3)
• Comparative Literature 440. African Literature (3)
• Comparative Literature 445. Modern Latin American Literature (3)
• Comparative Literature 470. Folk Literature (3) (Maximum GE credit 3 units)
• Drama 460A. History of the Theatre (3)
• Drama 460B. History of the Theatre (3)
• English 250A. American Literature (3)
• English 250B. American Literature (3)
• English 260A. English Literature (3)
• English 260B. English Literature (3)
• English 301. The Psychological Novel (3)
• English 302. Introducing Shakespeare (3)
• English 405. The Bible as Literature (3) [Same course as Comparative Literature 405.]
• English 494. Modern American Fiction (3)
• French 100A. Elementary (5)
• French 100B. Elementary (5)
• French 200B. Reading French (3)
• French 200C. Writing French (3)
• French 200D. The Grammar of Spoken French (3)
• French 301. Advanced Grammar and Composition (3)
• French 302. Advanced Grammar and Composition (3)
• French 305A. Survey of French Literature (3)
• French 305B. Survey of French Literature (3)
• French 421. French Civilization (3)
• French 422. French Civilization (3)
• German 101. First Course in German (4½)
• German 102. Second Course in German (4½)
• German 201. Third Course in German (4)
• German 202. Fourth Course in German (4)
• German 211. Conversation (2)
• German 212. Conversation (2)
• German 301. Grammar and Composition (3)
• German 302. Grammar and Composition (3)
• Hebrew 101. Elementary (4)
• Hebrew 102. Elementary (4)
• History 120. Introduction to Asian Civilizations (3)
• History 121. Asian Civilizations in Modern Times (3)
• History 305A. The Sources of Civilization in the West (3)
• History 305B. The Sources of Civilization in the West (3)
• History 407A. Modern Europe (3)
• History 407B. Modern Europe (3)
• History 415A. Latin America (3)
• History 415B. Latin America (3)
• History 420. Asia's Dynamic Traditions (3)
• History 421. Asia's Emerging Nations (3)

Graduation Requirements / 137

• History 473A. Middle Eastern History from the Rise of Islam to the Present (600-1600 A.D.) (3)
• History 473B. Middle Eastern History from the Rise of Islam to the Present (1600-present) (3)
• History 475A. Africa (3)
• History 475B. Africa (3)
• Humanities 157. Arab-Islamic Culture and Civilization (3)
• Humanities 158. African Culture and Civilization (3)
• Humanities 401A. The Cultural Heritage of Europe I (3)
• Humanities 401B. The Cultural Heritage of Europe II (3)
• Humanities 402A. The Cultural Heritage of Europe III (3)
• Humanities 402B. The Cultural Heritage of Europe IV (3)
• Italian 100A. Elementary (5)
• Italian 100B. Elementary (5)
• Italian 200A. Intermediate Grammar and Composition (3)
• Italian 200B. Reading and Speaking Italian (3)
• Italian 301. Advanced Oral and Written Composition (3)
• Italian 305A. Italian Literature (3)
• Italian 305B. Italian Literature (3)
• Japanese 101. Elementary-Japanese (4)
• Japanese 102. Elementary-Japanese (4)
• Japanese 201. Intermediate Japanese I (4)
• Japanese 202. Intermediate Japanese II (4)
• Japanese 301. Third Year Japanese I (3)
• Japanese 302. Third Year Japanese II (3)
• Linguistics 410. History of English (3)
• Mexican-American Studies 335. Mexican-American Literature (3)
• Mexican-American Studies 350A. Chicano History (3)
• Mexican-American Studies 350B. Chicano History (3)
• Mexican-American Studies 376. Mexican-American Culture and Thought (3)
• Mexican-American Studies 380. Chicano Folklore (3)
• Music 345. Music in Contemporary Life (3)
• Music 351A. Musical Masterpieces of the Eighteenth and Nineteenth Centuries (3)
• Music 351B. Musical Masterpieces of the Twentieth Century (3)
• Music 351D. Jazz History and Appreciation (3)
• Philosophy 301. History of Philosophy I (3)
• Philosophy 310. Philosophy and Human Nature (3)
• Philosophy 329. Social Ethics (3)
• Philosophy 334. Philosophy of Literature (3)
• Philosophy 351. Chinese Philosophy (3)
• Portuguese 101. Elementary/Intensive (5)
• Portuguese 211. Conversation and Grammar Review (3)
• Portuguese 212. Conversation and Grammar Review (3)
• Portuguese 301. Advanced Oral and Written Composition (3)
• Portuguese 302. Advanced Oral and Written Composition (3)
• Religious Studies 301. Hebrew Scriptures (3)
• Religious Studies 305. The New Testament (3)
• Religious Studies 318. Modern Religious Thought in the West (3)
• Religious Studies 340. Islam (3)
• Religious Studies 350. Dynamics of Religious Experience (3)
• Religious Studies 353. The Human Dimension of Religion and Psychology (3)
(Maximum GE credit 3 units)
• Religious Studies 354. Religion and Society (3)

Cross-cultural course.
* May be used for General Education credit only by students who have not taken History 105.
§ May be used for General Education credit only by students who have not taken History 106.
† Only those foreign language courses numbered 100A, 100B, 101, 101G, 101L, 102, 200, 200A, 200B, 200C, 200D, 201, 202, 202G, 202L, 301, 302, 303, 303G, or 303L not used to satisfy the foreign language requirement for the major and not in violation of high school course repetition regulations may be used to satisfy General Education in the Explorations component.

Cross-cultural course.

% May be used for General Education credit only by students who have not taken History 106.
Application for Graduation

Graduation is not automatic on the completion of requirements. Students who intend to graduate must take the initiative. When they believe that they are eligible, they should file an application with the Evaluations Office, Administration Building. The Class Schedule each semester specifies the exact date. An application fee of $19.00, which is nonrefundable, is required. After the degree is granted no changes can be made in the undergraduate record.

Election of Regulations for Graduation

An undergraduate student remaining in attendance in regular session at any California State University campus, any California community college, or any combination of California community colleges and campuses of The California State University may, for purposes of meeting graduation requirements, elect to meet the requirements in effect at San Diego State University either at the time the student began such attendance or at the time of entrance to the campus or at the time of graduation. Substitutions for discontinued courses may be authorized or required by the proper authorities.

"Attendance" is defined here as attendance in at least one semester or two quarters each academic year. Absence due to an approved educational leave or for attendance at another accredited institution of higher learning shall not be considered an interruption in attendance if the absence does not exceed two years. When students change or declare their majors, they must adopt the requirements of the major and any minors in effect at that time.

Commencement

Commencement exercises are held once a year at the end of the spring semester for students who were graduated at mid-year, those graduating at the end of the spring semester, and undergraduate students who expect to complete requirements for graduation in the summer session. The President of the University, by the authority of the Trustees and on recommendation of the faculty, awards the degrees. Brochures giving details regarding the exercises are mailed to prospective participants in early May.

### Special Curricula

#### Preprofessional Curricula

- **Medical Technology**
  - Aerospace studies (A.F.R.O.T.C.)
  - Military science (R.O.T.C.)
  - Naval science (N.R.O.T.C.)

#### Certificate (nondegree) Programs

(See following page for listing of certificate programs.)
### Certificate (nondegree) Programs

| Certificate in applied linguistics and English as a second language (ESL) | Certificate in professional services bilingual/bicultural |
| Certificate in bilingual (Spanish) special education | Certificate in public administration (Imperial Valley Campus only) |
| Certificate in business administration (Imperial Valley campus only) | Certificate in public history |
| Certificate in cartography | Certificate in quantitative analysis in the social sciences |
| Certificate in children's literature | Certificate in recombinant DNA technology |
| Certificate in creative writing (advanced) | Certificates in Spanish translation and court interpreting |
| Certificate in human services paraprofessional | Certificate in teaching the emotionally disturbed |
| Certificate in instructional technology | Certificate in technical and scientific writing |
| Certificate in language development specialist | Certificate in preventive medicine residency |

### The following programs are available through Extension only.

| Certificate in applied gerontology | Certificate in materials management |
| Certificate in construction practices | Certificate in personnel and industrial relations |
| Certificate in fire protection administration | Certificate in training systems design and administration |
| Certificate in government contract management | |

### Teaching Credentials

| Multiple subjects | Certificate in applied linguistics and English as a second language (ESL) |
| Single subject | Certificate in bilingual (Spanish) special education |
| Community college | Certificate in business administration (Imperial Valley campus only) |

Courses and Curricula

Course Numbering

Courses numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees; those numbered 600 through 699 are strictly graduate courses; and those numbered 700 through 899 are doctoral courses.

Courses numbered X-1 through X-99 are those offered only through Extension to meet specific academic needs of community groups and are applicable as general elective credit toward an undergraduate degree at SDSU. Courses X-01 through X-49 are designated as lower division and X-50 through X-99 are designated as upper division. It is the prerogative of the academic department/college to determine if X-01 through X-99 level courses are applicable to a major, a minor, or toward specified electives. The X-01 through X-99 level courses are offered in conjunction with certificate programs only. Courses at the X-01 through X-99 level are not acceptable on advanced degree programs.

Extended Studies students who eventually plan to pursue an undergraduate degree at SDSU should consult the sponsoring academic department to ascertain the applicability of X-01 through X-99 level courses offered in any certificate program toward their proposed course of study.

The Unit or Credit Hour

In the listing of courses that follow, figures in parentheses indicate the unit value of the course. One unit or credit hour represents 50 minutes of recitation or lecture, together with the required preparation, or three hours of laboratory work or two hours of activities, each week for a semester.

Prerequisites for Undergraduate Courses

Students must complete a course prerequisite (or its equivalent) prior to registering for the course to which it is prerequisite. Students who have not completed the stated prerequisite must notify the instructor by the end of the second week of class in order for the instructor to determine if the student has completed the equivalent of the prerequisite.

Semester in Which Courses Are Offered

In the listing of courses that follow, Roman numeral I indicates a course offered in the fall semester. Roman numeral II indicates a course offered in the spring semester. An "S" indicates a course offered in the summer. A "W" indicates a course offered during wintersession. Following the course title are designations of credit and the semester in which course is offered. Examples:

(3) I Three units. Offered in fall semester.
(3) II Three units. Offered in spring semester.
(3-3) I, II Three units each semester. Year course normally beginning in fall semester.
(3-3) I, II Three units each semester. Year course beginning either semester.

Although the university fully expects to carry out the arrangements planned in the list of courses, it reserves the right to make changes. Classes in which the enrollment does not come up to the minimum number set by the Trustees of The California State University may not be offered or may be postponed.

Common Courses

Experimental or Selected Studies or Topics or Workshop Courses (296, 496, 596)

Courses offered by departments under the numbers 296, 496, 596 are subject to the following conditions: no more than nine units of such courses shall be applicable toward a bachelor's degree; such courses may be applicable toward the minor or toward preparation for the major only with the approval of the department chair.
Academic Skills
In the College of Arts and Letters

Faculty
Emeritus: MacDonald
Chair: Basile
Professor: Basile
Associate Professors: Denman, Johns
Assistant Professor: Sweedler-Brown
Lecturers: Agatucci, Albanese, Allister, Baldwin, Brown, Carella, Dolansky, Duran, Enright, Feldstein, Gregg, Haskovec, Johnson, M., Johnson, P., Kangas, Keesey, Maggio, Makoff, Markley, Miller, Morgan, Nower, Orton, Potts, Williams, Ziai

Offered by the Academic Skills Center
Courses in mathematics, reading, writing and learning skills. Major or minor work in academic skills is not offered.

LOWER DIVISION COURSES
The Academic Skills Center, located in the Professional Studies and Fine Arts building, offers courses and individual assistance to all students at any university level, including bilingual and international students, who wish to improve mathematics, reading, writing or other skills, or obtain help with study problems or writing projects. Course work leading to satisfaction of the graduation requirement in mathematics and writing competency is offered in the Center.

Academic skills courses may not be used to satisfy general education requirements and no more than nine units of 131, 132, 133, 141, 150, 151, and 157 may be applied towards a bachelor’s degree. Credit earned in Academic Skills 102, 103, 110, 111, 131, 132, 133, 141, and 150 may not more than three units of 296, 496, 596 may be applied towards a bachelor’s degree.

102A-102B. Fundamentals of Mathematics (3-3) Cr/NC I, II
Prerequisite: Academic Skills 102A is prerequisite to 102B.
A review of arithmetic, beginning algebra, and topics from geometry. Courses open to students who have not fulfilled the Mathematics Competency requirement or who need a review of elementary algebra. The final examination for this course will be either the SDSU Mathematics Placement Test or the CSU Entry-Level Mathematics Examination (ELM). A passing score on the test will satisfy the Mathematics Competency requirement. (Formerly numbered Academic Skills 102 and Mathematics 102.)

103. Intermediate Algebra (3) Cr/NC
Prerequisites: One year of elementary algebra and completion of Mathematics Competency requirement.
Review of elementary algebra, exponents, radicals, logarithms, quadratic equations, arithmetic and geometric progressions. This course is specifically designed to prepare students for Mathematics 119. 120. 121. 140 or 250 and is not open to students with credit in Mathematics 119 or higher-numbered courses. May not be used to satisfy General Education requirements and will not count towards the bachelor's degree. (Formerly numbered Mathematics 103.)

110. Writing Development (3) L, II, S Cr/NC
Sentences, paragraph, and essay writing skills. Final is writing competency examination. Students not passing exam must take Academic Skills 150. Open to students who have not satisfied the Writing Competency requirement. Credit earned in this course is not applicable to a bachelor’s degree or General Education. (Formerly numbered Academic Skills 100.)

111. Reading Development (3) L, II Cr/NC
Two lectures and two hours of laboratory. Improvement of individual reading effectiveness: speed and comprehension, reading for the main idea, skimming, scanning, and word power. Credit earned in this course is not applicable to a bachelor’s degree.

131. Fundamentals of English for International or Bilingual Students (3) L, II Cr/NC
A first course in English intended to develop speaking and listening abilities and elementary reading and writing skills. Satisfactory completion of this course qualifies a student to take Academic Skills 132 or, at the discretion of the instructor, Academic Skills 133. Credit earned in this course is not applicable to a bachelor’s degree.

142. English for International or Bilingual Students (3) L, II, S Cr/NC
One lecture and four hours of laboratory. Intermediate course in English with emphasis on the listening, reading, and writing skills necessary for academic study. Satisfactory completion of this course qualifies a student to take Academic Skills 133. Credit earned in this course is not applicable to a bachelor’s degree.

143. English for International or Bilingual Students (3) L, II Cr/NC
One lecture and four hours of laboratory. Advanced listening, reading, writing and research skills. Use of study materials from several academic disciplines; writing of a short research paper in the student’s area of interest. Credit earned in this course is not applicable to a bachelor’s degree.

144. Mini-Course: Selected Topics (1) Cr/NC
Suggested topics: Research paper, communication skills, research tools, vocabulary development, learning skills, spelling, grammar, and speed reading. See Class Schedule for specific content. Courses from this series are not applicable toward bachelor’s degree credit.

145. Writing Development (3) L, II, S Cr/NC
Open only to students failing Academic Skills 110 final. Review of basic writing skills at the sentence, paragraph, and essay levels. Credit in this course satisfies the University Writing Competency requirement. Credit earned in this course is not applicable to a bachelor’s degree or General Education.

146. Technical Writing (3) Cr/NC
A comprehensive course in preparing and writing technical papers and reports. Emphasis on style, organization and techniques used in composing scientific and technical communications. Analysis of technical publications and the variety of methods used in compiling data and presenting graphic material.

296. Experimental Topics (1-3) Cr/NC
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

Academic Skills / 149
Aerospace Studies
In the College of Professional Studies and Fine Arts

Faculty
Chair: Merino
Professor: Merino
Assistant Professors: Borja, Messina, Weber

Offered by the Department
AFROTC curriculum.
Minor in aerospace studies.

AFROTC Curriculum
The department offers a four- or two-year Air Force Reserve Officers/Training Corps (ROTC) program designed to develop officers who have broad understanding and high growth potential and develop leaders and managers. All course work is done on campus with the exception of the instruction conducted at a local civilian flying school. Either a four- or six-week Field Training camp is required for all students during the summer between the sophomore and junior years. The four-week camp is for students who have completed all AFROTC lower division courses with an average of 2.0 and for those with prior and aircrew familiarization. Cadets receive physical training and participate in competitive sports. They are trained in the use of weapons, drill and ceremonies, and observe selected Air Force operations. Upon completion of the program and all requirements for a bachelor’s degree, cadets are commissioned as second lieutenants in the Air Force and navigate or training immediately upon graduation. Other cadets go on active duty in a minimum of four years active duty. Graduates who are qualified may enter pilot or specialty consistent with their career major, their desires, and existing Air Force needs. Graduates may request a delay from entry on active duty to continue their education or may apply for Air Force sponsored graduate study to begin immediately upon active duty.

Applying for the Program
SDSU students enroll in aerospace classes by signing up for courses in the same manner as other university classes. There is no advanced application needed for the freshman of commission in the sophomore (AS 100/200) classes. The last two years of ROTC (AS 300/400) lead to the sophomore commission. The application process involves taking the Air Force Officer Qualification Test, a physical examination, and a personal interview. Students from other institutions in the enrollment procedures, veterans who can be commissioned by age 35 are also eligible for the program.

Flight Instruction and Pay
The Flight Instruction Program (FIP) is offered to qualified junior cadets who have been selected to enter pilot training when reporting for active duty. The cost of the flight training is paid by the Air Force. Instruction is divided between classes taught on-campus and flying training conducted by an aircrew contractor in the area. Cadet retainer pay of $100 per month is given for 20 months of the program. Cadets receive approximately $400 during the Field Training Unit and are reimbursed for the cost of travel to and from the unit. Students may apply for ROTC-sponsored scholarships.

Aerospace Studies Minor
The minor in aerospace studies consists of a minimum of fifteen units in aerospace studies, of which must be upper division.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

100A-100B. The Air Force Today (2-2)
Semester I: Functions of the U.S. Air Force. The total force structure, strategic offensive and defensive forces. Preparation for officer status. Semester II: General purpose and aerospace support forces and preparation for commissioned officer status.

200A-200B. The Development of Air Power (2-2)
Semester I: Development of air power from balloons and dirigibles through the peaceful employment of U.S. air power and civic action programs in the late 1960s. Preparation for officer status. Semester II: Technological strides in the 50s, crisis in Cuba and Southeast Asia and preparation for commissioned officer status.

253. Field Training Unit (3)
Required for advanced cadets, military orientation and flight familiarization. Credit granted for six-week field training camp through the Extension Division on basis of individual student application with approval of the Aerospace Studies department chair. (Formerly numbered Aerospace Studies 333-S.)

UPPER DIVISION COURSES
(Intended for successful ROTC applicants or for those with special permission)

300A-300B. The Professional Officer (3-3)
Semester I: The Professional Officer: Leadership theory and practice. Semester II: Management principles and functions; problem solving; briefing for commissioned service.

350A-350B. Leadership Laboratory (1-1)
Two hours of laboratory per unit. Prerequisite: Concurrent registration in Aerospace Studies 300A-300B. Demonstration laboratory designed to develop leadership and management skills, problem-solving skills, and exercise group planning, organizing and coordinating activities.

400A-400B. National Security Forces in American Society (3-3)
Semester I: Role of professional officer in democratic society: socialization within Armed Services; requisites for adequate national security forces. Semester II: Political, economic, and social constraints on national defense structure and impact of technological and international developments on defense policy making.

450A-450B. Leadership Laboratory (1-1)
Two hours of laboratory per unit. Prerequisite: Concurrent registration in Aerospace Studies 400A-400B. Demonstration laboratory designed to develop leadership and management skills, problem-solving skills, and exercise group planning, organizing and coordinating activities.

498. Special Study (1-3) I, II
Prerequisite: Consent of Aerospace Studies Department chair. Individual study. Maximum credit six units.
Afro-American Studies

In the College of Arts and Letters

Faculty
Chair: Weber
Professors: Chambers, Kornweibel, Meadows
Associate Professors: Karenga, Scarborough, Thomas, Weber

Offered by the Department
Major in Afro-American studies with the A.B. degree in liberal arts and sciences.
Minor in Afro-American studies.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration of change of major.

Afro-American Studies Major

With the A.B. Degree in Liberal Arts and Sciences
All candidates for the degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

Preparation for the Major
Afro-American Studies 101, 286: three units selected from 102, 140, 230, 231, 232, 250; and three units selected from 170A, 170B, 160 or 260 (12 units)

Foreign Language Requirement
Twelve units in a foreign language or demonstration of equivalent knowledge in a reading examination administered by the foreign language department concerned.

Upper Division Writing Requirement
Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major
A minimum of 24 upper division units to include six units of Afro-American Studies 496 and 12 units selected from one of the following areas and six units from the remaining two areas:

Area II. Afro-American Studies 383, 460, 461, 470 and 480.
Area III. Afro-American Studies 362, 470, 471A and 471B.

Afro-American Studies Minor

The minor in Afro-American studies consists of a minimum of 18 units to include six units selected from each of the three areas of the major, and three units from each of the remaining areas.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

101. Introduction to Afro-American Studies (3) I
Interdisciplinary introduction that examines development and scope of subject matter orientation of Afro-American studies through analysis of major dimensions of Black experience.

102. Afro-American Lifestyles (3) II
Afro-American lifestyles in the past, present, and future. Examination of contemporary problems, their roots and their effects on twentieth-century America.

120. Composition (3) I, II
Prerequisites: Completion of English Placement Test and Writing Competency requirements. (See Graduation Requirements: I. Competency Requirements, section of this catalog.) PROOF OF COMPLETION OF COMPETENCY PREREQUISITE REQUIRED. Student to bring to first class meeting evidence of one of the following: Test score of 44+ on SAT/SATW or 18+ on ACT or 7 essay and 150+ total on EPT or proof of having passed the final examination in Academic Skills 110 or credit for Academic Skills 150. Designed to develop and enhance composition and reading skills. Focus on writing skills that contribute to academic growth and development: Not open to students with credit in English 100 or higher-numbered composition or creative writing course or Linguistics 100 or Mexican-American Studies 111B.

140. Oral Communication (3) I, II
Practice in speaking, critical listening, reasoning and organizing. Theory and techniques of communications used to evaluate the effect they have on the lives of Blacks and others. Not open to students with credit in Mexican-American Studies 111A or Speech Communication 103.

170A-170B. Afro-American History (3-3) I, II
American history from a Black perspective. (Satisfies American Institutions requirements.)

180. Afro-American Music (3) I, II
Afro-American Music from its African roots to present. Consideration of musical styles, events, significant contributors as well as role of socio-cultural variables in development of music.

200. Intermediate Expository Writing and Research Fundamentals (3) I, II
Prerequisites: Completion of English Placement Test and Writing Competency requirements and satisfactory completion of Afro-American Studies 120 or English 100 or Linguistics 100 or Mexican-American Studies 111B PROOF OF COMPLETION OF COURSE AND COMPETENCY PREREQUISITES REQUIRED. Development of intermediate expository writing skills and application of practical research principles.

220. Politics and Economics of Urban Development (3)
Prerequisite: Afro-American Studies 101.
Political, economic, and other social implications of urban development, decay and renewal and context within which they occur or are undertaken. Analysis of specific programs and projects.

230. Ethnicity and Black Social Competence (3) I, II
An exploration into the concept of ethnicity as a positive mental health model for Afro-Americans in the process of identity formation and coping strategies.

231. Cultural Patterns and Black Identity (3) I, II
An analysis of institutions in society and their socializing effect upon Afro-Americans, and the cultural parameters that guide behavior.

232. Social Analysis From a Black Perspective (3)
Prerequisite: Afro-American Studies 101 or 102.
Sociological concepts and models used to describe the social behavior of African-Americans in the interpretation of sociology from the Black perspective using the work of Black sociologists from 1900 to the present.

250. Psychology of Blackness (3) I, II
Facts, principles, and concepts which are basic to understanding human behavior. Analysis of the psychological motivations and behavioral responses of and toward Afro-Americans.

280. Introduction to Afro-American Literature (3) I, II
Modern and contemporary writing of Black-American authors. The sociopolitical impact the literature has had upon the Afro-American culture.

286. Statistics and Research (3)
Prerequisite: Academic Skills 103 or qualification on the Mathematics Placement Examination.
Fundamentals of research and statistics as used for writing reports, papers, books.
296. Experimental Topics (1-4)  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES  
(Intended for Undergraduates)

320. Organizational Management of Urban Low-Income Neighborhoods (3)  
Prerequisite: Afro-American Studies 101.  
Examination of relevant approaches to administration and management in relation to the acquisition of skills for the analysis, development, and management of urban programs in low-income neighborhoods.

330. Black Child Development (3) II  
Attitudes, needs and problems of the Afro-American child with emphasis on new approaches and insights into the development of positive changes for the child's growth and development.

331. The Black Family (3) I  
Structure and functions of the Black family in contemporary American society.

332. Black Women: Myth and Reality (3) I  
Prerequisites: Afro-American Studies 101 and 102.  
Images of Black women in America and how those images have been distorted.

350. The Black Total Theatrical Experience (3) I, II  
Six hours of activity.  
A "living performing arts museum" that utilizes folktales, literature, music, Africanisms, folk myths and history to artistically reflect various cultural and historical aspects of black life. Performance is the important aspect of course. Maximum credit six units.

360. Communications and Community Action (3) I, II  
Prerequisite: Afro-American Studies 140 (field assignments are a major part of this course).  
Application of the basic theories of communication through field projects. Study of the communication problems that exist between sociopolitical groups and the media.

362. Rhetoric of Black America (3)  
Prerequisite: Three units in Afro-American history or communications.  
Rhetoric of Black Americans from David Walker to the present; the role rhetoric has played in the history of Black people and an analysis of the Black audience in terms of the Black experience.

363. Sociocultural Analysis of Black Languages (3)  
Prerequisite: Three units in Afro-American Studies.  
Social and cultural function of Black languages, verbal and nonverbal, in Afro-American life, and their profound impact on larger society. Also, a probe into issues concerning validity of Black English.

380. Blacks in the American Justice System (3)  
Interpretation and application of constitutional principles and judicial decisions to political and social problems faced by Afro-Americans.

445. Ethnicity and Social Psychology (3)  
Prerequisite: Afro-American Studies 101 or 250.  
Analysis of major social psychological theories specifically focusing on how these theories relate to minority attitude/behavior formation and group behavior. Strategies for resolving social issues.

448. Black and Non-Black Interpersonal Relations (3)  
Cognitive and experiential examination of contemporary issues around Black and non-Black interpersonal relations. Authenticity in relationships, intercultural trust, personal development, conflict resolution, and proactive belief systems. Central aim to assist Blacks and non-Blacks to facilitate communication.

451. Black Consumer Psychology (3) I, II  
Prerequisite: Afro-American Studies 250.  
Attitude values and decision making of Black people as consumers. Laws and techniques of manipulating consumers.

452. Race Relations Strategies (3)  
Prerequisite: Afro-American Studies 101 or 102 or 250.  
Systematic inquiry into contemporary strategies and systems employed to ease racial tensions. Trends and approaches in military, religious, economic, educational, and other social institutions examined, focusing on those that offer most promise in terms of facilitating racial harmony.

453. Issues in Mental Health: A Multicultural Perspective (3)  
Prerequisite: Afro-American Studies 230 or 250.  
Examination of multicultural mental health issues. Institutionalization, treatment, social policy, funding, prevention, insurance, and community programs will be covered. Relevant research in the field will be examined.

460. Black Images in Western Literature (3) I, II  
Study of how the image of the Black has been portrayed in Western (white) literature and the attitudes and images of non-Black writers towards Blacks.

461. Afro-American Literature (3) I, II  
Prerequisite: Afro-American Studies 101 or 102.  
Contemporary writings of Afro-Americans. Analysis of themes, techniques, etc., of Afro-American fiction, poetry and drama.

470. Comparative History: Afro-American and African Heritage (3) I, II  
Conceptual framework of African history and a comparative study of Afro-American institutions.

471A. Black History, 1492-1877 (3) I  
Prerequisite: Afro-American Studies 140.  
Afro-Americanization and African survivals in the U.S.; origins and development of slavery; growth of free Black communities; antiblack movements and Black nationalism; end of slavery and dawn of freedom.

471B. Twentieth Century Black History (3) II  
History of social movements and institutions from 1890 to the present. Focus on both leadership and life of the masses.

480. History of Afro-American Jazz (3) I, II  
Prerequisite: Afro-American Studies 101 or 180.  
Historical development of jazz from its beginnings to the present, based on the ability to identify people, discuss musical styles and events, and to relate these factors to the life of the times.

496. Experimental Topics (1-4)  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II  
Prerequisite: Consent of instructor.  
Individual study. Maximum credit six units.
American Indian Studies
In the College of Arts and Letters

Faculty
Chair: Trafzer
Professor: Trafzer
Associate Professor: Fixico, D.
Lecturer: Fixico, M.

Offered by American Indian Studies
Minor in American Indian studies.
Courses in American Indian studies. Major work in American Indian studies is not offered.

American Indian Studies Minor
The minor in American Indian studies consists of a minimum of 15 units to include American Indian Studies 110; nine of the 15 units must be in upper division courses selected from American Indian studies or other appropriate departments (e.g., anthropology or history) in consultation with the departmental adviser. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES
110. American Indian Heritage (3) I, II
American Indian experience and their interpretations of the natural forces of nature from European contact to modern times.

200. American Indian Literature (3) I, II
Introduction to American Indian literature: creation and origin stories, legends, and poetry from the oral tradition to contemporary American Indian authors.

215. American Indian Psychological Perceptions (3) II
Topics relating to the dynamics of intercultural relations as reflected in the various levels of culture clash.

255. American Indian Music (3) I, II
Survey of American Indian music and the culturally diverse elements that differentiate musics of North American tribes and culture groups. Traditional forms of study and investigation contrasted and compared with cultural elements as they relate to traditions.

285. American Indian Art (3) I, II
American Indian as a creative person and artistic products from earliest examples to present surveyed through cultural elements affecting symbols, materials, and media. Diverse forces generating forms which have become tradition will be central to the study.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

300. American Indian Women in American Society (3) I
Historical and contemporary analysis of the role of Indian women in both Indian and dominant society.

320. American Indians in Contemporary Society (3) I, II
Sociological understanding of the American Indian groups in contemporary society with emphasis on the relationship to dominant society and why the focus has been on Indians as social problems.

400. The American Indian Political Experience (3) I
Social and political response to dominant group policies by the American Indian as compared to other minority groups.
American Studies
In the College of Arts and Letters

Faculty
The American studies program is administered through the American Studies Committee. Faculty assigned to teach courses in American studies are drawn from departments in the College of Arts and Letters.

Chair: Lewin (Political Science)

Advisers: Kushner (History), Lewin (Political Science), Redding, R. (English and Comparative Literature)

Committee: Berge (History), Colston (Center for Regional History), Ford (Geography), Keller (English and Comparative Literature), McLeod, D. (English and Comparative Literature), Shaw (Teacher Education), Varatian (History), Wall (English and Comparative Literature)

Offered by American Studies

Master of Arts degree in American studies.

Major in American studies with the A.B. degree in liberal arts and sciences.

Minor in American studies.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

American Studies Major

With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

American studies is an interdisciplinary program designed to bridge the division of knowledge into discrete disciplines. Each of the four program clusters combines American studies core courses, which relate materials and methods from various disciplines, with upper division courses from several disciplines. The courses are selected to focus on and bring into interrelation the four subjects of focus. The special integrating work in the student's major program is a series of special studies under the direction of members of the American studies faculty in which the student produces a paper or project illustrating the four subjects of focus.

In each of the clusters, the student will normally take two courses in each of three areas of focus and three courses in one area. The student must take at least one course in each area. The student may take no more than three courses in one discipline on the major program.

Preparation for the Major

American Studies 201, 12 units selected from Anthropology 102, History 110A-110B (three or six units), History 112A-112B (three or six units). (15 units.)

Foreign Language Requirement

Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement

History 430W, English 500W, 508W, 581W or Sociology 396W with a grade of C (2.0) or better.

American Communication

Major

A minimum of 36 upper division units to include American Studies 360 or 580, 499, 501, and nine courses from one of the following clusters or a specially designed cluster.

In each of the clusters, the student will normally take two courses in each of three areas of focus and three courses in one area. The student must take at least one course in each area. The student may take no more than three courses in one discipline on the major program.

Cultural Pluralism

People: Ethnic Community

- Sociology 325 and one of the following: Afro-American Studies 471B, American Indian Studies 440, Anthropology 444, Mexican-American Studies 320 or 350B.

Process: Development of Identity

Afro-American Studies 362 or 461, Geography 356, Mexican-American Studies 335, Music 344, Political Science 531, Sociology 422 or 547, Women's Studies 352 or 453 (when American content).

Place: The City

Economics 458, Geography 354 or 555, History 543B, Mexican-American Studies 303, Political Science 522 or 523, Public Administration 512, Sociology 557.

Period: 1840 to the Present

No more than one course in each discipline.

American Studies 521, 523, 524, 525, 527, 528 (when appropriate), History 534, 535A, 541B, 548B, Women's Studies 341B or 430.

Special Study: American Studies 499.

Cultural Institutions and Artifacts

People: The Family

Process: Material Culture

- Museum Internship when available.

Place: The Southwest

No more than one course in each discipline.

Period: Colonial

No more than one course in each discipline.

- Anthropology 441, 446, English 521; History 530, 531, 543A, 548A.

Special Study: American Studies 499.

American Architecture

People: Decision Makers

- Economics 370, History 496; Management 365, Political Science 335, 522, 531, 536, Public Administration 520; Sociology 521; Women's Studies 430.

Process: Communications

No more than one course in each discipline.

- Afro-American Studies 360, 362, 367, 461, 480; American Indian Studies 430; Art 558; English 524, 525; Journalism 408, 500, 502, 503; Mexican-American Studies 335; Music 351D, Political Science 326; Psychology 340, Sociology 545, 546, Speech Communication 475.

Place: United States

Period: Nuclear Age

- Two of the following: English 528, History 536, Natural Science 333, Women's Studies 430.

Special Study: American Studies 499.
American Studies / 161

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

541. Study of American Culture (3) II
Prerequisite: Major in American studies; open to other students with interdisciplinary interests.
American studies as a discipline, the critical methods of the field, the variety of materials for interdisciplinary study.

580. Topics in American Studies (1-3) I, II
Topics dealing with cultural images and myths, social protest, folklore, themes focusing upon fear, alienation and nationalism, problems around racism, minorities and counter-cultures. See Class Schedule for specific content. May be repeated once with new content; and with the approval of the adviser, more than once by American studies majors. Maximum credit six units applicable on a master's degree in American studies.

American Studies Minor

The minor in American studies consists of a minimum of 18 units to include American Studies 501 (Study of American Culture), and six units selected from History 546A, 547A or 548A or 546B and 9 units selected from the courses listed below—six units from one grouping and three from the other, with no more than six units from any one department's or program's offerings:

Humanities: American Studies 360, 580; Art 525; English 522, 523.
Social Sciences: Anthropology 444; Economics 338; Geography 354; Political Science 305; Sociology 424.

With the consent of the American studies adviser, six units in courses not listed here may be included in the student's program. Courses in the minor may not be counted towards the major, but may be used to satisfy preparation for the major and general education requirements. In designing their American studies minor program, students may not include courses drawn from their major department.

LOWER DIVISION COURSES

201. Introduction to American Culture (3) I, II
Emphasizes the concept of culture as matrix for introductory cross-disciplinary study of the American culture, through analyses of such things as artistic expression, historical events, social processes, folk and popular culture, using methodology adapted from social sciences and humanities.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

360. Science, Technology and American Culture (3)
Effects of scientific theories and practical technologies on the growth and character of American culture. From Jefferson and Franklin to smashing of atoms and space explorations, how science and technology have influenced American values, environment, arts, politics, and national identity.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3)
Prerequisite: Consent of instructor. Individual study in interdisciplinary humanities and social sciences work.
Anthropology

In the College of Arts and Letters

Faculty
Emeritus: Anderson, Ezell, Rogers
Chair: Leach
Professors: Ball, Bartel, Goldkind, Henry, Leach, Lippold, Pendleton, Rohrl, Watson, Whitney
Associate Professors: Greenfeld, Himes, Moore, Rollefson
Assistant Professor: Sonek

Offered by the Department
Master of Arts degree in anthropology.
Minor in anthropology.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Anthropology Major

With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with this major.

Basic Requirements for All Students
Preparation for the Major. Anthropology 101, 102. (Six units.)

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing Anthropology 396W with a grade of C (2.0) or better.

Major. A minimum of 33 upper division units in Anthropology to include Anthropology 301, 302, 304, 305, 396W and 18 upper division units of electives selected from one of the following areas:

(a) General Anthropology
Major (continued). Six units selected from each of the following categories: (a) Anthropology 406, 483, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512; (b) Anthropology 470, 472, 473, 474, 476, 478, 481, 483, 496 (if appropriate); (c) Anthropology 305, 496, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512; (d) Anthropology 350, 496, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512; (e) Anthropology 470, 472, 473, 474, 476, 478, 481, 483, 496 (if appropriate).

(b) Biocultural

Minor in anthropology.

Lower Division Courses

Anthropology Minor

The minor in anthropology consists of a minimum of 15 units in anthropology, 9 to 12 units of which must be in upper division courses. The 15 units must be selected from one of the following areas:

Biocultural: Anthropology 101 and 301 and nine units selected from Anthropology 406, 483, 496 (if appropriate), 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, and 509.

Prehistory: Anthropology 101 and 302 and nine units selected from Anthropology 470, 471, 472, 474, 476, 478, 481, 483, 496 (if appropriate), 499, 561A, 561B.

Sociocultural: Anthropology 302 and 350 and nine units selected from Anthropology 305, 324, 328, 329, 429, 432, 433, 439, 496 (if appropriate), 520, 532.

Linguistics: Anthropology 102, 304 and 410 and six units selected from Anthropology 305, 350, 496 (if appropriate), 499, 582, 583.

General: Anthropology 101, 102 and nine units selected from 301, 302, 304, 305. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Lower Division Courses (Intended for Undergraduates)

101. Human Biocultural Origins (3) I, II
Man's place in nature; fossil evidence for hominid evolution; evolutionary theory; racial, clinical and genetic variability; relationship of physical and cultural adaptations; the rise of civilization.

102. Introduction to Cultural Anthropology (3) I, II
May be taken before Anthropology 101. Man's relationship to his environment; systems of preliterate society, systems of social organization, politics, economics, religion, and language.

296. Experimental Topics (1-4)
Selected Topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

Upper Division Courses

301. Principles of Physical Anthropology (3) I, II
Two lectures and three hours of laboratory. Prerequisite: Anthropology 101.

302. Principles of Archaeology (3) I, II
Two lectures and three hours of laboratory. Prerequisite: Anthropology 101.

303. Principles of Anthropological Linguistics (3) I, II
Two lectures and three hours of laboratory. Prerequisite: Anthropology 102.

305. History of Anthropological Theory (3) I, II
Prerequisite: Anthropology 102.

Developments in physical anthropology and human paleontology; Physical measurement of the living subject and skeletal specimens. The statistical treatment of data in physical anthropology. Applications of physical anthropology in industry and medicolegal problems.

Developments in the field of archaeological data acquisition and interpretation. Methods of historical and processual questions. Archaeological examples from a worldwide sample of prehistoric and historic societies.

The structural nature of language. How language shapes human society; systems of social organization, politics, economics, religion, and language.

The language families of the world. The significance of language for human social life in a variety of cultures.
350. World Ethnography (3)
Prerequisite: Anthropology 102.
Cultural patterns of representative peoples. Industries, arts, social organization and super-
naturalism considered with view to environmental adjustment, historical development and
functional interrelation. Ethnological theories reviewed and applied in interpreting illustrative
societies.

351. Primitive Technology (3)
Two lectures and three hours of laboratorv.
Prerequisite: Anthropology 101 or 102.
Students will learn how to build a traditional house, make a canoe, and weave a blanket.

396W. Writing of Anthropology (3)
Prerequisites: Anthropology 101 and 102.
Will develop ability to write clearly, correctly and effectively about anthropological subjects.
Students will write assignments, papers, and reports on assigned research topics.

400. Nonhuman Primates (3)
Prerequisite: Anthropology 101.
Basic aspects of nonhuman primates, geographical distribution, ecology (habitat, diet),
external and internal morphology, locomotion and social behavior, reproduction and develop-
ment.

410. Language in Culture (3)
Prerequisite: Anthropology 102.
Survey of anthropological interests in the study of language and of linguistic interests in the
sociocultural context of language.

420. Cross-Cultural Mythology (3)
Prerequisite: Anthropology 102.
Mythological motifs and traditions. How mythological accounts of gods, heroes, origins,
explanations and other mythological themes relate to economic, social and political aspects of
culture in societies around the world.

422. Music and Culture (3)
Prerequisite: Anthropology 102.
How the forms, functions and meanings of music vary cross-culturally. Understanding a
society's music historically, holistically and experientially, with emphasis on non-Western music.
Universals of music and music use. Ethnological theories of music and music change.

424. Primitive Religion (3)
Prerequisite: Anthropology 102.
Beliefs and rituals of primitive man. Magic and religion. Forms of animism and polytheism.
Primitive mentality and the supernatural.

426. Cultural Change and Processes (3)
Prerequisite: Anthropology 102.
The individual and the culture pattern: the acquisition of culture, innovation and invention,
direction of cultural development, diffusion and interpenetration of cultures. Illustrations from
temporary and historic peoples: Indians of the Southwest, Eskimos, Aboriginal groups of
Australia, Africa and Oceania.

428. Ecological Anthropology (3)
Prerequisite: Anthropology 102.
Biological and cultural interactions with the environment in relation to adaptations of human
populations. Examples from a worldwide sample of societies.

429. Urban Anthropology (3)
Prerequisite: Anthropology 102.
Cultural roles of urban centers and processes of urbanization in non-Western, nonindustrial
societies of past and present. Urban influence of traditional peasant and primitive peoples of
Africa, Asia, and Latin America.

432. Principles of Personality in Culture (3)
Prerequisite: Anthropology 102.
Principles related to the determinants of human behavior contained in culture. Studies of
behavior cross-culturally.

433. Cross-Cultural Cosmology (3)
Prerequisite: Anthropology 102.
Cultural perception and expression of the nature and origin of the universe, humanity and
peoples' operative capabilities. American Indian, African, Asian and other societies' con-
structs compared and applied to contemporary American issues and progress.

434. Anthropology Through Science Fiction (3)
Prerequisite: Anthropology 101 or 102.
Anthropological concepts of biological and social evolution, relativism, and ethnocentrism
and adaptation through Asimov, Clarke, Heinlein, Herbert, LeGuin and other popular science
fiction writers.

438. Ethnology Through Film (3)
Principles of cultural anthropology to include signs and proxemics, cultural prerequisites,
kinship and social organization, and law and values. Feature and documentary films.

440. Cultures of Europe (3)
Prerequisite: Anthropology 102.
The study of society and culture in contemporary Europe, utilizing current ethnographic
materials. The relationship of such studies to European culture growth and to the definition of
European sociocultural regions.

441. The California Indian (3)
Prerequisite: Anthropology 102.
Native California Indian cultures with stress on the Indian groups of Southern California. The
industries, arts, social organization, folklore and religion will be considered as revealed through
the study of living peoples and archaeological evidence.

442. Cultures of South America (3)
Prerequisite: Anthropology 102.
Indian cultures in terms of origins, migration, relation to habitat, cultural variation and
relevance to global cultural trends. Development of Inca civilization, the effects of the Spanish
conquest and its aftermath.

443. Contemporary Latin American Cultures (3)
Prerequisite: Anthropology 102.
A social anthropological approach to the structure and dynamics of contemporary condi-
tions and problems, especially as revealed in studies of particular communities. Included are
such topics as ethnic and regional differences within national societies, population change,
social consequences of economic changes, changing stratification systems, values, institu-
tional change.

444. American Culture (3)
Prerequisite: Anthropology 102.
An "inside-out" view of America. What culture has to do with feeling like an American. Theory
and method in anthropology. Approaches include subcultures, American values, and mass
media.

445. Ethnology of North America (3)
Prerequisite: Anthropology 102.
Native cultures and the role of environmental and historical factors in North America.

446. Southwest Ethnology (3)
Prerequisite: Anthropology 102.
Indian cultures of the American Southwest in historic times; ecological adaptations.
responses to white contact, adaptations to modern American life.

448. Cultures of Oceania (3)
Prerequisite: Anthropology 102.
The aboriginal cultures and peoples of Australia, Melanesia, Micronesia, and Polynesia in
prehistoric, historic, and modern times.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500. Primate Social Behavior (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.
Analysis of modes of primate socialization. Development of social behavior with emphases on communication, group structure, aggression, and sex. Various methods of analysis and observation practiced utilizing primate collection at the San Diego Zoo.

501. Paleoanthropology (3)
Prerequisite: Anthropology 101. Recommended: Anthropology 301.
Fossil evidence for human evolution. Comparative and functional anatomy of fossil human and infrahuman primates; geochronology, paleoecology, and cultural associations; taxonomic implications.

502. Microevolution (3)
Prerequisite: Anthropology 101. Recommended: Anthropology 301.
The evolution of human populations over a short period of time. Interaction of the evolutionary forces of mutation, selection, drift and gene flow with the cultural systems of human populations.

503. Human Variation (3)
Prerequisite: Anthropology 101.
Morphological, physiological and genetic aspects of human variability. Significance of this diversity in the biological adaptations of human populations.

504. Primate Anatomy (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.
Primate anatomy both regional and systemic, including skeletal, cardiovascular and digestive systems; the integument and otolaryngology of primates.

505. Human Osteology (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101. Recommended: Anthropology 301 or Biology 150. Identification of individual bones and teeth; sex, age, and racial variation; stature reconstruction; continuous and discontinuous morphological variations; paleopathology. Training in instructive and osteological paleopathology.

506. Physical Anthropology of the Living (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101. Recommended: Anthropology 301.
Theory and practice of techniques in measurement and description of biological variations in modern populations.

507. Genetic Markers and Anthropology (3)
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.
Use of genetic markers in the study of human populations. Biology of blood groups, serum proteins, enzymes, etc., and analyses of gene frequencies. Significance of genetic markers in evolutionary studies.

508. Medical Anthropology (3)
Prerequisite: Anthropology 101 or 102.
Evolution and ecology of disease, medical beliefs and practices in non-Western cultures, and complexities of health care delivery in pluralistic societies.

509. Culture and Biological Aging (3)
Prerequisite: Anthropology 101 or 102.
Do different cultures age at different rates? Theories of biological aging, genetics of longevity and cultural influences on biological aging. Process of aging and role of the aged in various cultures.
520. Ethnological Field Methods (3)
Prerequisite: Anthropology 102.
The problems and techniques of obtaining data in ethnological and social anthropological field work; preparation, gaining and maintaining rapport, evaluating data, participant observation. A review of literature followed by work with informants.

531. Applied Anthropology (3)
Prerequisite: Anthropology 102. Recommended: Anthropology 426.
Application of anthropological concepts to solution of practical problems of culture change in community development, complex organizations, and interdisciplinary and cross-national programs.

532. Culture and Personality (3)
Prerequisite: Anthropology 102.
The relationship of individual personality to culture in a variety of cultures. A consideration of various theories and studies in the social and personality sciences.

560. Advanced Archaeological Field Methods (3)
Prerequisite: Anthropology 102. Anthropology 560A is prerequisite to 561B. Semester I: Application of palynology, paleontology and technologies. Semester II: Practical applications of materials from 561A. Individual laboratory research project required.

561A-561B. Archaeological Laboratory Methods (3-3)
Two lectures and three hours of laboratory. Applied field practice is prerequisite to 561B. Semester I: Application of palynology, paleontology and technologies. Semester II: Practical applications of materials from 561A. Individual laboratory research project required.

562. Ethnoarchaeology (3)
Prerequisite: Anthropology 302.
Theoretical perspective and method for analyzing contemporary societies in order to acquire archaeological insight of behavioral patterning. Survey of experiments duplicating technology of the past. Worldwide ethnographic examples. (Formerly numbered Anthropology 482.)

582. Regional Anthropology (3)
Prerequisite: Anthropology 102.
In-depth study of a major geographical region of the world such as Africa, the Arctic, East Asia, Europe, Latin America, the Middle East, North America, Oceania, or South Asia. See Class Schedule for specific content.

583. Topical Anthropology (3)
Prerequisite: Anthropology 102.
In-depth study of a major subdiscipline such as Political Anthropology, Economic Anthropology, Social Anthropology, Psychological Anthropology, Cultural Ecology, Applied Anthropology, Anthropological Genetics, or Environmental Archaeology. See Class Schedule for specific content.

GRADUATE COURSES
Refer to the Graduate Bulletin.

Art
In the College of Professional Studies and Fine Arts

The Department of Art is a Member of the National Association of Schools of Art and Design.

For purposes of exhibition and reference, the department reserves the right to retain for a limited period some of each student's work produced in class.

Faculty
Emeritus: Baker, K., Bigelow, Bowne, Dirks, Higgins, Hodge, Jackson, Longenecker, Sorenson, Swiggett
Chair: Orth
Professors: Austin, Berg, Covington, Esser, Fisch, Groover, Hopkins, Hunter, Lingren, Miller, Orth, Ray, Rigby, Rogers, Shirk, Tanzer, Wallace
Associate Professors: Baker, R., Cotten, Dominquez, Dumlao, Frick, Manfield, Papworth, Perzel, Roberts, Sherman
Assistant Professors: Flaxman, Hayakawa, Mayseney, Yasuda
Lecturers: Komac, Nakamura, Schamu, Smith, Tibbs

Offered by the Department
- Master of Arts degree in art.
- Master of Fine Arts degree in art.
- Major in art with the A.B. degree in liberal arts and sciences.
- Emphasis in art history.
- Emphasis in studio arts.
- Minor in art.
- Minor in art history.

Art Major
With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

This major in art may be planned with an emphasis in studio arts or art history. A minor is not required with this major in art.

Emphasis in Art History

Preparation for the Major: Art 158, 258, 259, 264 and 265. (15 units.)

Foreign Language Requirement: Four semesters of French or German with an overall average of "B" (3.0) or better, or successful completion of a proficiency examination in either French or German. The requirement may be met by taking German 101, 102, 201, and 202, French 100A, 100B, 200A, and 200B, or by passing the French Modern Language Association examination which is administered by the Test Office during the second week of each semester. Emphasis in French. The requirement may be met by taking French Modern Language Association examination which is administered by the Test Office during the second week of each semester.

Upper Division Writing Requirement: Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.
Art Major

A minimum of 24 upper division units in art history, selected from Art 365, 366, 371, 557 through 577, and 590, to include at least one three-unit course from each of the five groups listed below:

- Ancient and Medieval Art: Art 371, 567, 568
- Renaissance and Baroque Art: Art 562, 573, 574, 575
- Modern Art and American Art: Art 557, 558, 569
- Native American, African and Oceanic Art: Art 561, 569, 570, 576
- Byzantine, Islamic and Indian Art: Art 365, 366, 572

Emphasis in Studio Arts

Preparation for the Major. Art 100, 101, 102, 103, 157, 203, 204, 216, 258 and 259; Philosophy 101. (33 units.)

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Art Major

With the A.B. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

The major in art may be planned with an emphasis in applied design, graphic design, interior design, environmental design, painting and printmaking, or sculpture. The programs in environmental design, interior design, and graphic design have a preprofessional orientation and must be supplemented by a strong liberal arts background. Environmental design and interior design can lead to interior architectural landscape design or city planning. Graphic design prepares the student for the areas of environmental graphics, art direction, visual design for the contemporary media of advertising, or editorial illustration. The areas of painting and printmaking and sculpture prepare students for professional attitudes toward the fine arts and the continuance of their educational experience in graduate schools with the goal of teaching at institutions of higher learning. The preprofessional program in art education prepares the student for teaching in either elementary or secondary schools. The applied design program can be developed to specialize in ceramics, enameling, furniture design, jewelry, metal smithing, textile design and weaving.

A minor is not required with this major.

Emphasis in Applied Design

Preparation for the Major. Art 100, 101, 102, 103, 220, 258, 259, and six units of art electives. (27 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in art to include nine units selected from three of the following areas listed below and three units of extended work in one of the selected areas; six units of art history. Twelve units of advanced work in one area are strongly recommended.

- Fiber: Art 334, 435, 436, 534, 535, 536
- Metal: Art 331, 431, 531, 532
- Clay: Art 325, 425, 525, 526
- Enamel: Art 429, 529 (9 units)
- Wood: Art 323, 423, 523

Emphasis in Environmental Design

Preparation for the Major. Art 100, 101, 102, 103, 247, 248, 249, 250, 216, 220, 225, and 290, and three units selected from Art 216, 220, 225, 234, 231, and 232. (36 units.) Recommended: Art 205, 206, 214; Family Studies and Consumer Sciences 245, Industrial Arts 121.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in art to include Art 350, 454, 547, 550, 577; six units selected from Art 333, 348, 381, 416, 451, 453, 481, 552, 556; and three additional units of art history.

Emphasis in Graphic Design

Preparation for the Major. Art 100, 101, 102, 103, 214, 243, 258, 259, and six units selected from Art 203, 204, 210, 240, 242. (30 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in art to include Art 314, 411, 514; six units of art history; and twelve units selected from Art 340, 440, 443, 444, 445, 540, 542, 543, 544.

Emphasis in Interior Design

Preparation for the Major. Art 100, 101, 102, 103, 247, 248, 249, 250, 251, 258, 259, and three units selected from Art 216, 220, 225, 234, 241, Drama 240, Engineering 210, and Family Studies and Consumer Sciences 245. (36 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 29 upper division units in art to include Art 352, 451, 452, 453, 552, 553; six units selected from Art 361, 481, 581; three units selected from Art 323, 348, 450, 547, 577; and three additional units of art in art may be chosen from the major.

Emphasis in Painting and Printmaking

Preparation for the Major. Art 100, 101, 102, 203, 258, 259, and six units selected from Art 204, 205 or 210. (27 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in art to include six units of art history; 18 units selected in consultation with the adviser from Art 403, 404, 405, 406, 407, 410, 411, 500, 502, 503, 504, 505, 506, 509, 510, 511, 512.

Emphasis in Sculpture

Preparation for the Major. Art 100, 101, 102, 103, 216, 258, 259; and three units selected from Art 203, 204, 217, 220, 225, 231, 234. (24 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in art to include Art 416 or 517, 498A, 516; six units of art history; and nine units selected from Art 323, 331, 403, 404, 500.

Art Major

For the Single Subject Teaching Credential

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education. This major may be used by students in teacher education as an undergraduate major for the A.B. degree in applied arts and sciences.

Preparation for the Major. Art 100, 101, 102, 103, 204, 216, 220, 225, 258, 259, and three units selected from 203, 205, 210, or 241. (33 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Teaching Major. A minimum of 33 upper division units to include Art 325, 331, 404, 405, 429, 435, 586; six units of art history from among courses numbered Art 365-371, 557-577, and 590; and six units selected from Art 425, 431, 504, 505, 528, and 535. (33 units.)
Art Minor
The minor in art consists of a minimum of 21 units in art, 12 units of which must be in upper division courses in one emphasis area, as listed in the art majors. The courses must be selected in consultation with an emphasis area adviser. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Art History Minor
The minor in art history includes a minimum of 18 units in art, 12 units of which must be in upper division, selected from one of the following areas:

Western Tradition: Art 258, 259, and 12 units selected from Art 371, 557, 558, 562, 566, 573, 575.

Non-Western Tradition: Art 158, 264, 265, and 12 units selected from Art 365, 366, 569, 570, 572.

Courses in the minor may not be used toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES
100. Drawing and Composition (3) I, II
Six hours.
The ordering of two-dimensional space through drawing.

101. Design and Aesthetics (3) I, II
Six hours.
Fundamentals of space and color design. Basic course used as a prerequisite for advanced work.

102. Drawing and Composition (3) I, II
Six hours.
Prerequisite: Art 100.
Line and value in drawing, emphasis on structure and proportion, sketching, gesture, and contour drawing.

103. Three Dimensional Design (3)
Six hours.
Prerequisite: Art 101.
Introduction and investigation of design and theory, and practice in three dimensions.

157. Introduction to Art (3) I, II
Six hours.
Prerequisite: Art 100.
An illustrated lecture course dealing with the meaning of art derived from an investigation of the principles of art. Designed to increase the understanding and appreciation of art.

158. Arts of Native America, Sub-Saharan Africa and Oceania (3)
Introduction to tribal arts of Native America, Sub-Saharan Africa and Oceania in cultural context, from ancient to contemporary period. Arts of diverse peoples living in small-scale societies are included. Field trips.

203. Life Drawing (3) I, II
Six hours.
Prerequisite: Art 102.
Drawing from the nude model. Maximum credit six units.

204. Painting (3) I, II
Six hours.
Prerequisites: Art 101, 102.
Pictorial composition and techniques of painting. Maximum credit six units.

205. Waterbase Media (3) I, II
Six hours.
Prerequisites: Art 101, 102.
Composition of still-life and landscape in aqueous media. Maximum credit six units.

210. Printmaking (3) I, II
Six hours.
Prerequisites: Art 101, 102 and consent of instructor.
Introduction and exploration of basic printmaking media. Emphasis on aesthetic and technical processes in intaglio, lithography, relief and serigraphy.

216. Sculpture (3) I, II
Six hours.
Prerequisite: Art 103.
Introduction and experimentation of basic sculpture ideas, methods and materials.
Maximum credit six units.

217. Life Modeling—Sculpture (3) I, II
Six hours.
Prerequisite: Art 103.
Creative experimentation with sculptural forms from the human figure.

220. Design in Crafts (3) I, II
Six hours.
Prerequisite: Art 103.
Visual and structural form in crafts.

225. Ceramics (3) I, II
Six hours.
Prerequisite: Art 103.
Design and construction of hand-built ceramic forms. Introduction of glaze for surface enrichment. Maximum credit six units.

231. Beginning Jewelry Design (3) I, II
Six hours.
Prerequisite: Art 220.
Design and fashioning of jewelry.

234. Weaving (3) I, II
Six hours.
Prerequisite: Art 220.
Structure and design of woven fabrics. Maximum credit six units.

240. Graphic Imagery (3) I, II
Six hours.
Prerequisites: Art 100, 103.
The organization concepts of design applied to experimental photographic and technical reproductive media, and environmental graphics.

241. Beginning Graphic Design (3) I, II
Six hours.
Prerequisites: Art 102 and 103.
Introduction to contemporary media. Typographic and design concepts applied to layout for contemporary media.

242. Graphic Design Visual Techniques (3) I, II
Six hours.
Prerequisite: Art 241.
Rendering techniques of figures and objects as applied to graphic design.

243. Intermediate Graphic Design (3) I, II
Six hours.
Prerequisite: Art 241.
Typographic and design concepts applied to layout for contemporary media.

247. The House and Its Environment (3) I, II
Architectural, interior design, landscape and city planning for forming man's physical and aesthetic environment.

248. Visual Presentation (3) I, II
Six hours.
Prerequisites: Art 102 and 103.
Methods, materials, and tools of the professional environmental designer stressing art principles.
249. Visual Presentation (3) I, II
Six hours.
Prerequisite: Art 248.
Methods, materials, and tools of the professional environmental designer stressing art principles.

250. The Contemporary House (3) I, II
Six hours.
Prerequisite: Art 248.
Elementary problems in neighborhood planning, house design, and landscaping.

251. Interior Design I (3) I, II
Six hours.
Prerequisites: Art 102, 103.
Elementary functional and aesthetic studies in interior space and form. Relationships of light, color, texture, shape and volume.

255. Appreciation and History of Art (3) I, II
Art development in painting, sculpture, architecture, and handicrafts from the dawn of art to the Renaissance. Illustrated.

259. Appreciation and History of Art (3) I, II
The period from the Renaissance through the modern school treated in the same manner as in Art 258.

264. Chinese Art (3) I
A study of the arts of China.

265. Japanese Art (3) II
A study of the arts of Japan.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

308. Chinese Aesthetics and the Brush (3) II
Two lectures and two hours of activity. Aesthetic principles and cultural and literary background of Oriental brush painting. Basic techniques and practice in the discipline toward self-expression.

323. Furniture Design (3) I, II
Six hours.
Prerequisite: Art 101.
Study of the principles of design through the making of furniture.

325. Ceramics (3) I, II
Six hours.
Prerequisite: Art 220. Art 225 recommended. Basic methods of forming, decorating, glazing and firing pottery forms with emphasis on the use of the potter's wheel.

331. Beginning Jewelry and Metalwork (3) I, II
Six hours.
Prerequisite: Art 220.
Creative design and construction in metal of jewelry and small objects. Techniques in threedimensional forming and constructions in nonferrous metals. Not open to students with credit in Art 223.

334. Advanced Weaving (3) I, II
Six hours.
Prerequisite: Art 220.
Total credit in Art 234, 334 and 534 limited to nine units.
Advanced problems in fabric design and weave construction including tapestry and rug weaving techniques. Maximum credit six units.

340. Advanced Graphic Imagery (3) I, II
Six hours.
Prerequisite: Art 240.
Investigation of experimental photographic and technical reproductive media.

341. Graphic Design (3) I, II
Six hours.
Prerequisite: Art 243.
Investigation of design concepts relating to advertising.

347. The House and Its Environment (3) I, II
Architecture, interior design, landscape and city planning for forming man's physical and aesthetic environment, its simplicities and complexities. Not open to students with credit in Art 247.

348. Environmental Media (3)
Six hours.
Prerequisite: Art 249.
The communication of Environmental Design using photography, miniatures, mockups, and transfers with terminal emphasis in transparency projection.

352. Professional Lectures in Interior Design (2) I, II
Prerequisites: Art 250, 251.
Interior designers lecture on varied topics in successful professional practice to include codes, legal liabilities, contractual agreements, project management. Design requirements for specific project types include restaurants, medical and health facilities, financial institutions. Occasional field trips required. Maximum credit four units.

365. The Art of Persia and the Islamic World (3) I
Prerequisite: Upper division standing.
Painting, architecture and sculpture and minor arts of Persia and the Islamic world which manifest cultural history and heritage. Field/museum trips. (Formerly numbered Art 566.)

366. The Art of India and Southeast Asia (3) II
Prerequisite: Upper division standing.
Painting, architecture and sculpture and minor arts of India and Southeast Asia viewed through their cultural history and aesthetic values. Field/museum trips. (Formerly numbered Art 565.)

371. Medieval Art (3) II
Prerequisites: Art 258 and 259.
Development of painting, sculpture and architecture from the time of Constantine through the Gothic period. (Formerly numbered Art 571.)

381. History and Theory of Environmental Design (3) Irregular
Prerequisites: Art 258, 259.
Environmental arts. From earliest times to the 15th century.

387. Design for Teachers (3)
Six hours.
Prerequisite: Art 101.
A design-crafts course that explores in depth materials and processes that could be used with young people. Not open to students with credit in Art 220.

403. Advanced Life Drawing (3) I, II
Six hours.
Prerequisite: Art 203.
Drawing the nude model. Maximum credit six units.

404. Intermediate Painting (3) I, II
Six hours.
Prerequisite: Art 204.
Pictorial composition and painterly process. Maximum credit six units.

405. Intermediate Waterbase Media (3) I, II
Six hours.
Prerequisites: Art 101 and 102. Art 204 or 205 recommended.
Composition in watercolor and related media.
406. Design and Composition (3) I, II
Six hours.
Prerequisites: Art 103 and 204.
Structure in picture making.

407. Black and White Photography as a Fine Art Medium (3) I, II
One lecture and four hours of activity.
Prerequisites: Minimum of 12 units of art and consent of instructor.
Basic to intermediate photo and darkroom techniques combined with independent research in contemporary art and photography. Criticism in context of contemporary. Maximum credit six units.

410. Intaglio Printmaking (3) I, II
Six hours.
Prerequisites: Art 203, 210.
Creative intaglio—etching, drypoint, aquatint, engraving and variations. Emphasis on fine print quality and technical development. Maximum credit six units.

411. Lithography Printmaking (3) I, II
Six hours.
Prerequisites: Art 101 and 203.
Creative lithography—stone and plate planographic process. Emphasis on fine print quality and technical development. Maximum credit six units.

416. Intermediate Sculpture (3) I, II
Six hours.
Prerequisite: Art 216.
Individual investigations into sculpture ideas, methods and materials. Individual development in sculpture. Maximum credit six units.

A. Ceramic sculpture
B. Plastic sculpture
C. Foundry/metal sculpture
D. Cellulose sculpture (handmade paper/wood/fiber)

423. Advanced Furniture Design (3) I, II
Six hours.
Prerequisite: Art 323.
Advanced individual design. Exploration of materials, process and function. Maximum credit nine units.

425. Ceramics (3) I, II
Six hours.
Prerequisite: Art 325.
Continuation of Art 325. Further development of knowledge, skills and philosophy of ceramics through individual creative projects.

429. Design in Enamels (3) I, II
Six hours.
Prerequisite: Art 220.
Design and production of vitreous enamels. Maximum credit six units.

431. Jewelry and Metalwork (3) I, II
Six hours.
Prerequisites: Art 231 or 331.
Creative design and techniques in metalsmithing.

435. Nonwoven Textile Construction (3) I, II
Six hours.
Prerequisite: Art 220.
Textile structures with an emphasis on nonloom techniques.

436. Textile Design (3) I, II
Six hours.
Prerequisite: Art 220.
Application of design for the textile surface, using a broad variety of media and processes appropriate for both the individual designer and commercial reproduction. Media include stencil, block, silkscreen, batik, and tie-dye. Maximum credit six units.

440. Advanced Graphic Design—Environmental Graphics (3)
Six hours.
Prerequisite: Art 241.
Study of visual design for contemporary architectural, motivational, display traffic and guidance graphics.

441. Advanced Graphic Design—Media (3)
Six hours.
Prerequisite: Art 341.
Application of visual design concepts to graphic design, advertising media and technical reproductive processes.

443. Drawing and Illustration for Graphic Design (3)
Six hours.
Prerequisites: Art 103 and 203.
Disciplines of realistic, descriptive illustration. Methods, materials and tools of the professional graphic designer and illustrator.

444. Visual Communication Media (3) I, II
Six hours.
Prerequisite: Art 341.
Experimental, creative and practical exploration of contemporary communication as related to magazine and editorial layout. Production of a student designed limited edition.

446. Internship in Graphic Design (3) I, II Cr/NC
Prerequisite: Art 441.
Field experience in design, business procedures, management, client relationships, and supervision of subcontractual work with local practicing professionals. Maximum credit six units.

450. Synergetic Environments (3)
Six hours.
Prerequisites: Art 249, 454.
Synthesis of materials, space, sound and light using exploratory methods in full scale projects.

451. Interior Design II (3) Irregular
Six hours.
Prerequisites: Art 249, 250, 251.
Survey, analysis and conceptual design methods of residential interiors stressing materials, equipment, components and structural detailing. Maximum credit six units.

452. Interior Design Practicum (3) Cr/NC
Nine hours of laboratory.
Prerequisite: Art 453.
Field experience with local professional interior designers in client relationships, business procedures, supervision of subcontracted work and installation, and execution of contracts. Maximum credit six units.

453. Interior Design III (3)
One lecture, two hours of activity, and three hours of laboratory.
Prerequisites: Art 249, 250, 251.
Materials and techniques of nonresidential space planning. Estimating, specification writing, contractual agreements, record keeping, budgets, and project supervision. Required field trips to professional offices, studios and showrooms. (Formerly numbered Art 552.)

454. Environmental Design (3) I, II
Six hours.
Prerequisite: Art 247.
Survey, analysis and design synthesis of problems of more complexity through interiors, landscape, to architectural planning and, finally, concern for city design.

481. History and Theory of Environmental Design (3) II
Prerequisites: Art 258 and 259.
Environmental arts. From the 15th to the 19th century.
483. Museum Internship (1-6) I, II Cr/NC
Prerequisites: Upper division standing in art and consent of instructor.
Internship in assigned local museums and galleries under the direction of an art historian.
Maximum credit six units.

486. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

497. Senior Investigation and Report (3) I, II
Nine hours for 497A; three hours for 497B.
Prerequisites: Six upper division units in art, and consent of instructor.
Individual research into areas of studio and art history not covered by regular courses.
A. Studio Investigations
B. History Investigations

498. Senior Project (3) I, II
Nine hours for 498A; three hours for 498B.
Prerequisite: Consent of instructor.
Investigation in art. Formal presentation of project.
A. Studio project
B. History project

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500. Advanced Drawing (3) I, II
Six hours.
Prerequisites: Art 203 and 204.
Drawing emphasizing the qualitative aspect of visual subject matter. Maximum credit six units.

501. Professional Orientation in the Arts (3) I, II
Prerequisite: Twelve units of upper division art or graduate standing in art.
Conditions met in professional art world as well as opportunities available. Exhibitions, marketing system, legal and tax responsibilities, public and private collections, grants, fellowships, and professional positions investigated.

502. Inter-Media (1-3) I, II
Two hours for each unit of credit.
Prerequisites: Art 102 and 103.
Process and materials in plane and space. Maximum credit six units.

503. Life Drawing and Painting (3) I, II
Six hours.
Prerequisites: Art 204 and 403.
Drawing and painting from nude and costumed models. Maximum credit six units.

504. Advanced Painting (3) I, II
Six hours.
Prerequisite: Art 404.
Pictorial composition and painterly process. Maximum credit six units.

505. Advanced Waterbase Media (3) I, II
Six hours.
Prerequisite: Art 405.
Composition in watercolor and related media.

506. Design and Composition (3) I, II
Six hours.
Prerequisite: Art 406.
Structure in picture making.

508. Relief Printmaking (3) I, II
Six hours.
Prerequisites: Art 203, 210.
Woodcut, wood engraving, gessocut, linoleum, collograph, and relief printmaking processes. Emphasis on fine print quality and technical development using mixed media. Maximum credit six units.

510. Intaglio Printmaking in Color (3)
Six hours.
Prerequisite: Art 410.
Advanced creative intaglio printmaking in color, including zinc and copper plate; etching, drypoint, aquatint, engraving, embossing and color variations. Emphasis on fine print quality and technical development in the color process unique to this medium. Maximum credit six units.

511. Lithography Printmaking in Color (3)
Six hours.
Prerequisite: Art 411.
Advanced creative lithography printmaking in color. Emphasis on fine print quality in color process and color technology unique to this medium. Maximum credit six units.

512. Serigraphy (3)
Six hours.
Prerequisites: Art 203, 210.
Techniques of reproducing original prints by means of the silkscreen process. Maximum credit six units.

516. Advanced Sculpture (3) I, II
Six hours.
Prerequisite: Art 416.
Individual investigations into sculpture ideas, methods and materials. Individual development in sculpture. Maximum credit six units for Art 516.
A. Ceramic sculpture
B. Plastic sculpture
C. Foundry/metal sculpture
D. Cellulose sculpture (handmade paper/wood/fiber)

517. Advanced Figurative Sculpture (3) I, II
Six hours.
Prerequisites: Art 216 and 217.
Figurative study with emphasis on individual exploration. Maximum credit six units.

522. Design Crafts (3) Irregular
Six hours.
Prerequisite: Art 220.
Exploration of a variety of materials and techniques. Development of the aesthetic and technical abilities of the artist craftsman. Maximum credit six units.

523. Advanced Furniture Design (3) I, II
Six hours.
Total credit in Art 323, 423 and 523 limited to twelve units.
Prerequisite: Art 423.
Advanced individual design; exploration of materials, process and function. Maximum credit six units.

525. Ceramics (3) I, II
Six hours.
Prerequisite: Art 425.
Study of ceramic design through creative projects of clay forms. Maximum credit six units.

526. Clay and Glaze Technology in Ceramic Design (3)
Six hours.
Prerequisite: Art 425.
Experimentation and application of research concerning the use of ceramic materials and techniques as an integral part of the design process. Maximum credit six units.
529. Design In Enamels (3) I, II
Six hours.
Prerequisite: Art 429.
Design and production of vitreous enamels. Maximum credit nine units; six units applicable on a master's degree.

531. Advanced Jewelry and Metalwork (3) I, II
Six hours.
Prerequisite: Art 431.
Problems involving fabrication processes already studied in order to increase technical competence while exploring personal design statements: specialized techniques such as photoetching and electroforming. Maximum credit six units.

532. Advanced Metalsmithing (3) I, II
Six hours.
Prerequisite: Art 431.
Advanced problems involving metalsmithing processes already studied in order to increase technical competence while exploring personal design statements. Maximum credit six units.

533. Textile Techniques in Metal (3) II
Six hours.
Prerequisite: Art 331 or 435.
Textile structures as applied to precious and nonprecious metals. Individually designed projects utilizing information acquired through samples and documentation. For students of fiber, metal, and sculpture.

534. Advanced Weaving (3) I, II
Six hours.
Total credit in Art 234, 334 and 534 limited to nine units.
Prerequisite: Art 334.
Advanced individual problems in weaving. Maximum credit six units.

535. Advanced Nonwoven Textile Construction (3)
Six hours.
Prerequisite: Art 435.
Advanced study in nonloom techniques. Techniques to include: looping, braiding, plaiting, and special fabricating techniques. Experimentation with new man-made fibers and with synthetic commercial dyes. Maximum credit six units.

536. Advanced Textile Design (3) I, II
Six hours.
Prerequisite: Art 436.
Application of design for the textile surface, appropriate for both the individual designer and commercial reproduction. Maximum credit six units.

540. Advanced Graphic Imagery (3) I, II
Six hours.
Prerequisite: Art 340.
Investigation of experimental photographic and technical reproductive media.

541. Advanced Graphic Design - Communication Systems (3) I, II
Six hours.
Prerequisite: Art 341.
Symbolic processes, materials and structures, visual communications systems relating to corporate and visual identification programs. Maximum credit six units.

542. Advanced Professional Problems in Graphic Design (3) I
Six hours.
Prerequisite: Art 441 or 541; or consent of instructor by portfolio review.
Refinement of personal visual imagery and the application of design concepts to production situations. Study of professional responsibilities, conduct and business procedures. Development of a professional level portfolio.

543. Advanced Drawing and Illustration for Graphic Design (3) II
Six hours.
Prerequisite: Art 443.
Refinement of visual imagery and advanced illustration problems.

544. Visual Communication Media (3) I, II
Six hours.
Prerequisite: Art 444.
Experimental, creative and practical exploration of contemporary communication as related to magazine and editorial layout. Production of a student designed limited edition.

547. Environmental Theory (3)
Prerequisites: Art 247 or 347.
Survey of alternative solutions to the problem of design of the physical environment.

550. Environmental Prototypes (3)
Six hours.
Prerequisites: Art 247, 250, 450.
Research and development of creative architectural concepts with emphasis in space enclosure systems and cybernetics.

552. Interior Design IV (3) I, II
Six hours.
Prerequisites: Art 451 and 453.
Projects in architectural interiors involving the use and perception of enclosed spaces. Space planning systems analysis. Maximum credit six units. (Formerly numbered Art 554.)

553. Interior Design V (3) I
Six hours.
Prerequisite: Art 552.
Projects in interiors involving space planning analysis, specification writing, materials selection and furnishing design appropriate to commercial needs. Maximum credit six units.

557. Art of the Nineteenth Century (3) I, II
Prerequisite: Art 258 and 259.
Development of painting, sculpture, and architecture from the French Revolution to 1900.

558. Twentieth Century European Art to 1945 (3) I, II
Prerequisite: Art 259.
Major developments in the visual arts and art criticism from 1880 to 1945 (Post-Impressionism through Surrealism).

559. Twentieth Century European and American Art Since 1945 (3) I, II
Prerequisite: Art 548.
Major developments in the visual arts and art criticism since 1945.

560. History of American Art (3) Irregular
Prerequisites: Art 258 and 259.
Development of painting, sculpture, and architecture from the Native American Art and Colonial Period to the present.

561. Art of Pre-Hispanic America (3) I
Prerequisite: Upper division standing.
Art of ancient Meso-America, Central America, Caribbean and South America from earliest times until contact with Europe.

562. Art of Latin America (3) II
Prerequisite: Upper division standing.
Art and architecture of Latin America from the colonial period to the present. Field trips included.

567. Art of the Ancient Near East (3) I
Prerequisite: Art 258.
Development of painting, sculpture, architecture and crafts from prehistoric times to the fourth century B.C.

568. Art of Crete, Mycenae, Greece, and Rome (3) II
Prerequisite: Art 258.
Development of painting, sculpture, architecture, and crafts from prehistoric times to the fifth century A.D.

569. Art of Sub-Saharan Africa (3) I
Prerequisite: Upper division standing.
Form and content of the art of Sub-Saharan Africa viewed within its cultural context.
Asian Studies

In the College of Arts and Letters

Faculty

Asian studies is administered through the Center for Asian Studies, composed of faculty members from the departments of Anthropology, Art, Classical and Oriental Languages and Literatures, Economics, English and Comparative Literature, Geography, History, Linguistics, Philosophy, Political Science, Religious Studies, and Sociology; the colleges of Business Administration, Education, Engineering, and Sciences, and the Library. Professor Thomas R. Cox is director, Professor Alvin D. Cox is graduate adviser, and Professor David V. DuFault is undergraduate adviser.

Offered by Asian Studies

Master of Arts degree in Asian studies.
Major in Asian studies with the A.B. degree in liberal arts and sciences.
Minor in Asian studies.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Asian Studies Major

With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

Preparation for the Major.
Six units in History 101, 102 or Philosophy 101, 102; six units in Anthropology 101, 102, Economics 101, 102, Geography 101, 102, or Political Science 101, 102; and six units in Asian Studies 105A-105B or History 120, 121. (18 units) Art 258 and 259 (unless waived by the instructor) are needed if Art 366 is selected in the major. Art 264 and 265 are recommended.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Asian language recommended. Refer to section in catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

* When relevant.
Asian Studies Minor
The minor in Asian studies consists of a minimum of 21 units to include History 120 and 121, or Asian Studies 105A-105B. Other lower division courses acceptable for the minor are Art 264 and 265, and four units of an appropriate Asian language. Twelve units must be in upper division. Upper division courses acceptable for the minor include:

* Humanities: Not less than six units selected from History 561A-561B, 562, 563, 564A-564B, 565, 567, 568, 569, 570; Philosophy 301 (unless waived by the 575 instructor) and 575 (when relevant), 596; Religious Studies 401*, 403*, 506*, 508*.

* Social Sciences: No less than six units selected from Anthropology 450*, Economics 330, 465; Geography 331, 540 (when relevant); Marketing 376; Political Science 362, 499.

No more than six units may be selected from History 566, 567, 568. No more than six units may be selected from History 569, 570, and Anthropology 452. Three units from Asian Studies 499 or 596 may be substituted for three units in either Humanities or Social Sciences.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

* Additional prerequisites are required for these courses.

LOWER DIVISION COURSE
105A-105B. The Asian Heritage (3-3)
An interdisciplinary course on the cultures of Southern, Southeastern, and Eastern Asia, with emphasis on the interaction of ideas, peoples and their environment.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)
596. Selected Studies in Asian Cultures (3)
Topics on various aspects of Asian studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

Astronomy
In the College of Sciences

Faculty
Emeritus: Smith
Chair: Daub
Professors: Angione, Daub, Nelson (Director of Mt. Laguna Observatory), Schopp, Young
Associate Professor: Talbert
Lecturer: Dawson

Offered by the Department
Master of Science degree in astronomy.
Major in astronomy with the A.B. degree in liberal arts and sciences.
Major in astronomy with the A.B. degree in applied arts and sciences.
Minor in astronomy

Astronomy Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

Preparation for the Major. Astronomy 101, 109; Physics 195, 195L, 196, 196L, 197, 197L (16 units.)

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive semesters of college study) is required for one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Minor in Mathematics. Students majoring in astronomy must complete a minor in mathematics to include Mathematics 150, 151, 252 and either 340A-340B, or 530. Recommended: Mathematics 531, 541A, 550.

Astronomy Major
With the A.B. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

Preparation for the Major. Astronomy 101, 109; Physics 195, 195L, 196, 196L, 197, 197L (16 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Minor in Mathematics. Students majoring in astronomy must complete a minor in mathematics to include Mathematics 150, 151, 252, and either 340A-340B, or 530. Recommended: Mathematics 107, 541A, 541B, 550.
Astronomy Minor

The minor in astronomy consists of a minimum of 15 units to include Astronomy 101 and 12 upper division units selected from Astronomy 301, 304A*, 304B*, 305, 312A*, 312B*, 520*, Natural Science 430. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

* Prerequisites for this minor include Physics 195, 195L, 196, 196L, 197, 197L, and Mathematics 150, 151, 252, unless waived by the Department.

LOWER DIVISION COURSES

101. Principles of Astronomy (3) I, II
Pursuit of insights into the fundamental nature of the naked-eye night sky, the Solar System, stars and the Galaxy, and the mysteries of the remote universe.

109. Astronomy Laboratory (1) I, II
Three hours of laboratory. Prerequisite: Credit or concurrent registration in Astronomy 101.
Demonstration of astronomical principles through observations with astronomical instruments and analysis of astronomical data.

112. Elementary Navigation (3) I
Compass corrections, time, line of position, use of celestial coordinates, tables such as H.D. 229 for the solution of the navigational triangle.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(intended for undergraduates)

301. Cosmology and Gravitational Collapse (3) I, II
Prerequisites: Three units of lower division physical science. Einstein theory of general relativity applied to problems of gravitational collapse (stellar evolution, neutron stars, pulsars, and black holes) and cosmology (origin and evolution of the Universe).

304A-304B. Advanced Astronomy (3-3)
Prerequisites: Astronomy 101 and 109 and credit or concurrent registration in both Mathematics 151 and Physics 197, 197L. Problems in practical astronomy, such as atmospheric refraction, proper motion, photographing and photoelectric photometry, solar system astrophysics.

305. Historic Development of Astronomy (3) I
A study of the more important problems and astronomical concepts in the light of their historical development. Particular attention is given to the biography and contributions of the more important astronomers, such as Galileo, Kepler, Newton, Herschel, Bessel.

312A-312B. Astrophysics (3-3)
Prerequisites: Astronomy 101 and Physics 197, 197L. Astronomy 312A is prerequisite to 312B. An application of modern physics to a study of the sun and the stellar system.

498A. Senior Project (1) I
Prerequisite: An acceptable master plan for graduation within one year. Consists of the selection and design of individual projects; oral and written progress reports.

498B. Senior Project (2) II
Six hours of laboratory. Prerequisite: Astronomy 498A. Laboratory work, progress reports, oral and written reports.

GRADUATE COURSES

Refer to the Graduate Bulletin.
Biology
In the College of Sciences

Faculty
Emeritus: Alexander, Bohnsack, Crouch, Harvey, Huffman, Kasten, Kelly, McBlair, Norland, Olson, Preston, Rathy, Taylor, Watch, Wedberg
Chair: Paolini

Offered by the Department
Doctor of Philosophy degree in biology, ecology, and genetics*.
Master of Arts degree in biology.
Master of Science degree in biology.
Master of Science degree in microbiology.
Major in biology with the A.B. degree in liberal arts and sciences.
Major in biology with the B.S. degree in applied arts and sciences.
Emphasis in entomology.
Major in environmental health with the B.S. degree in applied arts and sciences.
Major in microbiology with the A.B. degree in liberal arts and sciences.
Major in microbiology with the B.S. degree in applied arts and sciences.
Curriculum in medical technology.
Minor in biology.
Certificate in Recombinant DNA Technology.
Curricula which prepare for the fields of dentistry, conservation, fisheries, marine biology, medicine, veterinary medicine, and wildlife management.

<*> Admission to this program is closed.

Biology Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A total of 45 upper division units must be selected from the General Biology Degree Requirements and the list of courses acceptable for electives. A minor is not required with this major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Biology Major
With the B.S. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A total of 36 upper division units must be selected from the General Biology Degree Requirements and the list of courses acceptable for electives. A minor is not required with this major.

General Biology Degree Requirements
Preparation for the Major. Biology 200A-200B, 215; Chemistry 200, 201, and 230 or 231; Mathematics 121 and 122, or 150; Physics 180A-180B and 182A-182B. (38-39 units.)

Upper Division Writing Requirement. Passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units for the A.B. degree or 36 upper division units for the B.S. degree to include Biology 352, 354, and 356; Chemistry 361A or 560A; and two additional biology laboratory courses. Additional elective courses must be selected from Biology 350-355, 452-499, and all 500-level courses. At least one of the laboratory or elective courses must be an organism-level course which include Biology 350, 462, 469, 470, 515, 524, 525, 533, and 566; Chemistry 361B and 400-500 level chemistry courses. All courses not included above must have prior approval by the Biology Department Chair, and the approved substitution must be filed with the Evaluations Office.

Emphasis in Entomology
Preparation for the Major. Biology 200A-200B, 215; Chemistry 200, 201, and 230 or 231; Geography 103; Mathematics 121 and 122, or 150; Physics 180A-180B and 182A-182B. (41-42 units.)

Upper Division Writing Requirement. Passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 38 upper division units to include Biology 352, 462, 469, 504, 505, 501 or 503, 502 or 566, 529 or 530, and eight or nine additional units selected in consultation with an entomology advisor from above courses not already taken or from Biology 354, 500, 506, 507, 597; Chemistry 361A, or Geography 505.

Environmental Health Major
With the B.S. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

This program is approved by the California State Department of Health. Upon completion of degree requirements and one year of experience as an Assistant Sanitarian with a local public health department, the graduate will be admitted to the State of California examination for Registered Sanitarian.

Preparation for the Major. Biology 200A-200B; Biology 215 or Mathematics 250; Chemistry 200, 201, 230 or 231, and 250 or 251; Mathematics 121 and 122, or 150; Physics 180A-180B and 182A-182B; Psychology 101 or Sociology 101. (45-47 units.)

Upper Division Writing Requirement. Passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Biology 350, 454A-454B, 466, 468A-468B, 561, 566, and 589; Civil Engineering 555; Sociology 440 or Psychology 340. Remaining courses must be selected from among electives approved by the department. Prerequisites for Civil Engineering 555 are waived for students in this major.

Microbiology Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

Preparation for the Major. Biology 200A-200B; Biology 215 or Mathematics 250; Chemistry 200, 201, 230 or 231, 250 or 251; Mathematics 121 and 122, or 150; Physics 180A-180B and 182A-182B. (42-44 units.)
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. It is recommended that students select French, German or Russian to satisfy this requirement. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units in biology courses in the area of microbiology and approved related fields to include Biology 350, 354, 554L, 585L, 585L and 352 or 556; and Chemistry 361A-361B. Remaining units to be selected from approved courses in biology, chemistry, and physics.

Microbiology Major

With the B.S. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with this major.

Preparation for the Major. Biology 200A-200B; Biology 215 or Mathematics 250; Chemistry 200, 201, 210, 215, 230, 240, 250, 251; Mathematics 121 and 122, or 150; Physics 180A-180B and 182A-182B. (42-44 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units in biology courses in the area of microbiology and approved related fields to include Biology 350, 354, 554L, 585L, 585L and 521, 521L or 589, Chemistry 361A-361B, and three of the following courses: Biology 513, 552, 556, 567. Recommended: Chemistry 310A, 310B, and 567. Remaining units to be selected from approved courses in biology, chemistry, and physics.

Medical Technology Curriculum

In Applied Arts and Sciences

The curriculum in medical technology, which prepares for the licensed profession of Public Health Microbiologist or Clinical Laboratory Technologist or Bioanalyst, may be obtained by taking the microbiology major with the B.S. degree, but following a modified arrangement of courses. A description of the curriculum follows.

Public Health Microbiologist. To fulfill academic requirements for the certification examination given by the California State Department of Public Health for Public Health Microbiologist, students should follow the major in microbiology with the B.S. degree, but should include Biology 552, 556, 567, 586, and 589. Recommended: Biology 468A-468B; 474, 552L, 556, and 586.

Clinical Technologist. To fulfill academic requirements to qualify for the certification examination given by the American Society of Clinical Pathologists, students should follow the major in microbiology for the B.S. degree, but should include Biology 552, 556, 567, and 589. Recommended: Biology 468A-468B; 474, 552L, 556, and 586.

Upon completion of degree requirements a one-year training internship at an approved laboratory is required to be eligible for licensing or certification examinations.

Biology Major

For the Single Subject Teaching Credential in Life Sciences

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

This major may be used as an undergraduate major for the B.S. degree in applied arts and sciences.

Candidates for the Single Subject Teaching Credential must be recommended for the program of the College of Education by the Biological Sciences Credential Screening Committee.

Preparation for the Major. Biology 200A-200B, 215; Chemistry 200, 201, and 230 or 231; Mathematics 121 and 122 or 150; Physics 180A-180B and 182A-182B. (38-39 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units in the biological sciences and chemistry to include Biology 350, 352, 354, 356, 452, 515, 527 or 577, 530 or 563 and 563L, 590; Chemistry 361A.

Biology Minor

The minor in biology consists of a minimum of 20 units in biology to include a General Education Foundations course in biology. Biology 150 or Biology 200A, and 12 upper division units in biology. Students must select from one of the following areas of biology:

Animal Behavior

Prerequisite: Biology 339 or 527.

Two courses selected from Biology 307, 324, 330, 454, 462, 524, 527. Anthropology 500 or Psychology 417 may be included in the 20-unit biology requirement.

Cell Biology and Genetics

Prerequisite: Chemistry 361A or 560A.

Two courses selected from Biology 350, 352, 356, 357, 358, 360, 363, 563, 576, 590.

Ecology

Prerequisite: Biology 353 or 364 or 454.

Two courses selected from Biology 140, 304, 316, 324, 330, 335, 353, 358, 359, 462, 513, 544.

Evolutionary Biology

Prerequisite: Biology 319 or 354 or 532.

Two courses selected from Biology 304, 321, 325, 357, 358, 359, 471, 522, 526, 531. Science 431 may be included in the 20-unit biology requirement.

Human Biology

Prerequisite: Biology 261 or 336 or 410.

Two courses selected from Biology 307, 321, 327, 341, 350, 365, 474, 480, 577, 580, 590.

Marine Biology

Prerequisite: Biology 324 or 515.

Two courses selected from Biology 339, 454, 513, 514, 515, 518, 519, 520, 524.

Plant Biology

Prerequisite: Biology 356 or 533.

Two courses selected from Biology 324, 330, 460, 514, 528, 529, 530, 533, 563.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Recombinant DNA Technology Certificate

The purpose of the program is to prepare current undergraduates and recent graduates in biological sciences and chemistry for employment in public and private organizations utilizing recombinant DNA technology.

Matriculated students must apply for admission to the program before completion of 15 certificate units and must complete all prerequisite and required courses with a GPA of 2.5 or better and required courses Biology 550, 551, and 551L with grades of B or better. The certificate requires 16 prerequisite units—Biology 350, 352, 356, Chemistry 250 or 251; and 29 certificate units—Biology 498, 550, 551, 551L Biology 560A-560B or 361A-361B, and 567, and Biology 556 and 556L. At least 12 certificate units must be taken at SDSU and must include Biology 550, 551, 551L. Upper division prerequisite and certificate units which may be applied to the major for B.S. degrees in biology, chemistry (biochemistry emphasis), and microbiology are 30, 21, and 20 units, respectively.
LOWER DIVISION COURSES

100. General Biology (3) I, II, S
Prerequisite recommended: Concurrent registration in Biology 100L
A beginning course in biology stressing processes common to living organisms.

100L. General Biology Laboratory (1) I, II, S
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 100.
A laboratory course in biology stressing processes common to living organisms.

110. Evolution and Diversity of Animals (3)
Animal adaptation and diversity and their relationship to the development of evolutionary theory. (Formerly numbered Zoology 100.)

110L. Evolution and Diversity of Animals Laboratory (1)
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 110.
Laboratory course on evolution and diversity of animals involving field trips and laboratory investigations. (Formerly numbered Zoology 100L.)

120. Microbiology and Man (3) I, II
The biology of microorganisms and their significance in disease, agriculture, sanitation and industry. Not open to biological sciences, nursing and dietetics majors. Fullfills the general education requirement in the natural science area. (Biology 120 not applicable to the major.) (Formerly numbered Microbiology 110.)

120L. Microbiology and Man Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 120.
Laboratory exercises designed to complement material presented in Biology 120. Fulfills the general education laboratory requirement in the natural science area. (Formerly numbered Microbiology 110L.)

130. Plants and Man (3) I, II, S
Basic structure and function of plants with emphasis on the interrelationships of plants and man. (Formerly numbered Botany 100.)

130L. Plants and Man Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 130.
Laboratory exercises designed to complement material presented in Biology 130. Fullfills the general education laboratory requirement in the natural science area. (Formerly numbered Botany 100L.)

140. Ecosystems and Man (3) I, II
Prerequisite: A high school or college general biology course.
Man's ecosystem interrelationships: past, present and future. Examination of how human activities disturb stable ecosystem relationships and how they may be modified to reestablish steady-state patterns of ecosystem function. (Formerly numbered Biology 130.)

150. Human Anatomy (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: An introductory course in high school biology or zoology.
Gross and microscopic anatomy of the organ systems of the human body. (Formerly numbered Zoology 106.)

160. Introduction to Heredity (3) I, II
Hereditary mechanisms and consideration of the social implications of recent and expected developments in the field of heredity. Not open to biology majors. (Formerly numbered Biology 145.)

170. Natural History of Plants and Animals (3)
Two lectures and three hours of laboratory.
An introduction to plants and animals in relation to their environments and to one another, with emphasis on local forms and their habitats. (Formerly numbered Biology 200.)

200A-200B. Principles of Biology (4-4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Biology 200A is prerequisite to 200B.
Principles of biology governing all living organisms; includes diversity and evolution of plants and animals, concepts of genetics, ecology, physiology, reproduction and development. Not open to students with credit in Biology 201 and 202.

201. Introduction to Botany (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 200.
Basic botany for Life Sciences majors. Origin of life; evolution of basic metabolism; the plant cell; organelles and their function; plant structure and function; plant diversity and classification; basic concepts of genetics and plant ecology. This course will be offered for the last time during the 1985-86 academic year. (Formerly numbered Botany 200.)

202. Introduction to Zoology (4)
Three lectures and three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 201.
Zoology for life sciences major. Animal diversity and evolution; development, morphology and functioning of animal organ systems; activities and behavior patterns of animals; role of animals in human affairs. This course will be offered for the last time during the 1985-86 academic year. (Formerly numbered Zoology 200.)

210. Fundamentals of Microbiology (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Chemistry 100 and 130, or 200 and 201. Students with credit in Biology 120 may enroll but will receive only one additional unit of credit.
A course for nursing and dietetics majors. Study of the microorganisms of the environment, including the disease-producing organisms; their actions and reactions. (Formerly numbered Microbiology 210.)

215. Introduction to Quantitative Biology (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Mathematics 121 or 140; credit or concurrent registration in Biology 200B.
Methods and experience in defining and solving quantitative problems in biology, including the design of experiments, and parametric and nonparametric statistical techniques.

249. Careers in Biological Sciences (1) I, II Cr/NC
Further opportunities in biological sciences. Specialists in major biological areas will present information about their fields and how best to prepare for careers.

250. Preprofessional Topics (1) Cr/NC
A. Topics in Medicine
B. Topics in Dentistry
C. Topics in Veterinary Medicine

designed to expose the preprofessional student to the profession of his/her choice through speakers and selected readings. Emphasis on alternatives and meeting stresses as a preprofessional student.

261. Human Physiology (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Chemistry 100, Biology 150, credit or concurrent registration in Chemistry 130.
Human function viewed from cellular through organ system levels of organization. Intended primarily for prenursing students. Not acceptable for credit in Biological Sciences programs (see Biology 590).

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
UPPER DIVISION COURSES

(Interested for Undergraduates)

300. Honors Course (1-3) I, II
Refer to Honors Program.

301. Agricultural Botany of the Imperial Valley with Laboratory (4)
(Formerly numbered Botany 325.)
Three lectures and three hours of laboratory.
Basic botany of economically important plants using farming techniques and crops from the Imperial Valley as examples. Emphasis on relationships between human society and development of systematic agriculture. Plants examined in laboratories and on local field trips. (Formerly numbered Botany 320.)

304. Biology of Populations (3)
Prerequisite: A college course in the biological sciences.
Emphasis on the problems of human populations. Not open to majors in the biological sciences. (Formerly numbered Biology 351.)

307. Biology of Sex (3)
Prerequisite: Completion of Foundations section of General Education.
Traces the genetics and physiology of human reproduction from fertilization and development of the fetus to manopause and aging. Explores the biological aspects of puberty, sex hormones, menstruation, pregnancy, parturition, lactation, sterilization, birth control, sexual responses, birth defects, and fetal research. (Formerly numbered Biology 310.)

313-S. Contemporary Problems in Biology (1) S Cr/NC
A series of six-weekly lectures on various aspects of biology by scientists engaged in research. Reading and reports required of students enrolled for credit. These lectures are open to the public. Maximum credit three units. (Formerly numbered Biology 303-S.)

316. Energy and Environment (2-3)
Ecological implications of energy extraction, use, and development. Emphasis on policy issues. (Formerly numbered Biology 330.)

319. Evolution (5)
Prerequisite: A college course in biological sciences.
Modern theory of organic evolution with emphasis on processes involved as they relate to past, present, and future evolution of mankind. Not open to biological sciences majors. (Formerly numbered Biology 380.)

321. Human Heredity (3) I, II
Prerequisite: A college course in biological sciences.
Selected principles of human inheritance with emphasis on relationships to other fields of human studies. Not open to students with credit in Biology 160, 261, 357, or 593 or to biology majors. (Formerly numbered Biology 350.)

324. Life in the Sea (3)
Prerequisite: A college course in biological sciences.
Overview of complexity of marine life. Diverse interactions of organisms in the intertidal zone, over the continental shelves, and in the open oceans. Current controversies concerning the marine biosphere. Course cannot be used by majors in biological sciences to satisfy upper division major requirements. (Formerly numbered Zoology 330.)

327. Microbes: The Key to the Future (3)
Prerequisite: Completion of natural science requirements under the Foundations of Learning component of General Education.
Use of microbes in developing alternate energy sources, treatments for infectious diseases and cancers, methods for recycling of wastes, and application of recombinant DNA. (Biology 327 not applicable to the major.) (Formerly numbered Microbiology 305.)

330. Natural History of the Vertebrates (3)
Two lectures and three hours of laboratory.
Prerequisite: A college course in biological sciences.
Natural history, distribution, and classification of vertebrate animals; emphasis on local forms. Not open to zoology majors. (Formerly numbered Zoology 314.)

333. Plants and History (3)
Prerequisite: A college course in biological sciences.
Introduction to plant structure, history of economically and culturally important plants, techniques of obtaining various plant products, impact of these plants or plant products on the course of human events. (Formerly numbered Botany 315.)

336. Principles of Human Physiology (3) I, II
Prerequisite: A college course in biological sciences.
Systems of the human body, their interrelationships, and control systems which regulate them. Required for all degrees in physical education and health science, and for specific degrees in home economics and recreation. Satisfies part of General Education requirements. Not open to students with credit in Biology 261, 410 or 590. (Formerly numbered Biology 362.)

338. Human Physiology Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 336.
Laboratory work in human physiology. Not open to students with credit in Biology 261. (Formerly numbered Biology 462L.)

339. Sociobiology (3)
Prerequisite: Biology 100 or 110 or Anthropology 102 or Psychology 101.
Biological bases of social behavior with emphasis on evolution, cooperation, and adaptive significance of social behavior. Not open to biological sciences majors. (Formerly numbered Zoology 340.)

341. The Human Body (3)
Survey of the human body with emphasis on intricacy of the design and integration of the various organ systems. Not open to students majoring in nursing or physical education or with credit in Biology 150. (Formerly numbered Zoology 308.)

341 L Human Body Laboratory (1)
Three hours of laboratory.
Prerequisite: Concurrent registration in Biology 341.
Examination of the organ systems of the human body. (Formerly numbered Zoology 308L.)

350. General Microbiology (4) I, II, S
Two lectures and six hours of laboratory.
Prerequisites: Chemistry 230 or 231, Biology 208B. The actions and reactions of microorganisms in response to their environment, both natural and as changed by other organisms, including man. Also includes an introduction to the pathogens. (Formerly numbered Microbiology 310.)

351. Molecular Biology (4)
Three lectures and three hours of laboratory.
Prerequisites: Biology 215; Chemistry 230 or 231.
Cell chemistry and metabolism, genetic and replicative mechanisms, mutations, the genetic material. Not open to students with credit in Biology 355 or 357. This course will be offered for the last time during the 1986-87 academic year. (Formerly numbered Biology 430.)

352. General Genetics (3) I, II
Prerequisites: Biology 204A-B 215; Chemistry 230 or 231; credit or concurrent registration in Chemistry 361A. Recommended. Concurrent registration in Biology 354.
Principles of transmission genetics, population genetics and evolution, and molecular genetics. Not open to students with credit in Biology 351, 357 or 546.

353. Ecology (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Biology 215; Physics 180B and 182B, Chemistry 201.
Ecological concepts covering all levels of organization from the individual to the ecosystem. This course will be offered for the last time during the 1985-86 academic year. (Formerly numbered Biology 411.)

356. Ecology and Evolution (3) I, II
Prerequisites: Biology 204A-B 215; credit or concurrent registration in Biology 352.
Fundamental concepts in population and community ecology and evolutionary biology. Not open to students with credit in Biology 353.
354L. Experimental Ecology and Evolution (2) I, II
One hour of discussion and three hours of laboratory.
Prerequisite: Consent of instructor.
Methods of research in ecology and evolutionary biology; approaches to analysis of populations and communities. Not open to students with credit in Biology 353.

355. Cellular Physiology (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 215; Chemistry 230 or 231; Physics 180B and 182B.
Cellular structure, macromolecules, energetics, growth, division, excitability and motility. This course will be offered for the last time during the 1985-86 academic year. (Formerly numbered Biology 502.)

356. Cell Biology (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 200A-200B, 215; Chemistry 361A; Physics 190A-190B, 192A-192B.
Structure and function of prokaryotic and eukaryotic cells and cell organelles. Not open to students with credit in Biology 351 or 355.

357. Genetics (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 215; Chemistry 230 or 231.
Principles of transmission and molecular genetics, mutation, population genetics and evolution. This course will be offered for the last time during the 1985-86 academic year. (Formerly numbered Biology 359.)

358. California Flora (3) II
Two lectures and three hours of laboratory (Field).
Prerequisite: A college course in biological sciences.
Local native and naturalized plants in San Diego County and selected areas of California. Identification of plants and plant communities. (Formerly numbered Botany 350.)

359. Endangered and Extinct Species (3)
Prerequisite: A college course in biological sciences.
Examination of reasons that some plants and animals become rare, endangered and extinct. Emphasis on man's activities as pressure that often leads to extinction. (Formerly numbered Zoology 460.)

360. Community Epidemiology (3) I, II
Prerequisite: Biology 210.
A course for other than biological sciences majors. Epidemiological concepts and methods as they apply to current community problems. (Formerly numbered Microbiology 370.)

365. Microorganisms in Human History (2) I, II
Two lectures and three hours of laboratory.
Prerequisites: Biology 100A-100B.
Influence of microorganisms at decisive points in human history and development of microbiology as a science. (Formerly numbered Microbiology 360.)

410. Integrated Human Physiology (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Biology 100 and 100L; Chemistry 100 and 130.
Human physiological systems and their regulation; emphasis on nutritional influences. Not open to students with credit in Biology 261, 326, or 590.

452. Bioscience Methodology (3) I
One lecture and six hours of laboratory.
Prerequisite: Consent of instructor.
Methods and techniques in the biological sciences, based on materials developed by the biological sciences curriculum committee. (Formerly numbered Biology 400.)

454. Conservation of Wildlife (3) I, II
Prerequisite: A college course in biological sciences.
Plant and animal resources with emphasis on their conservation and intelligent use. (Formerly numbered Biology 420.)

458. Industrial and Food Microbiology (2) II
Prerequisite: Biology 210 or 350.
Microorganisms in food, beverage, drug, and chemical industries. Production of alcohol and other solvents; organic acids, vitamins, steroids, paper and hydrocarbon degradation, food microbiology, and sewage disposal. (Formerly numbered Microbiology 480.)

460. Agricultural Botany (2)
Field trips to be arranged.
Prerequisite: Biology 200B.
California crop plants, their general identification, cultural methods, and regional distribution. (Formerly numbered Botany 562.)

462. Introductory Entomology (3)
Prerequisite: Biology 200B.
Morphological and behavior adaptations, natural history, and overall importance of insects. (Formerly numbered Zoology 421.)

462L. Introductory Entomology Laboratory (2)
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 462.
External and internal structure of insects; insect classification. (Formerly numbered Zoology 421L.)

464A-464B. Principles of Environmental Health (3-9)
Two lectures and three hours of laboratory.
Prerequisites: Biology 215 or Mathematics 250, and Biology 350.
General principles of environmental sanitation, including the relationship of the various aspects of physical environment to preventive medicine; the provision of clean air and water, proper waste disposal, safe food supply, and adequate habitation. (Formerly numbered Microbiology 410A-410B.)

466. Environmental Health Administration (3) II
Prerequisite: Biology 464A.
Concepts of organization and administration applied to environmental health; factors affecting these at the local, national and international levels. (Formerly numbered Microbiology 420.)

486A-486B. Epidemiology (2-3)
Prerequisite: Biology 589; Biology 215 or Mathematics 250.
Study of the transmission, distribution, and control of infectious and noninfectious diseases in the community. (Formerly numbered Microbiology 430A-430B.)

489. Biology of Invertebrates (3) I, II
Two lectures and three hours of laboratory.
Prerequisite, Biology 170 or 200B.
Form, function and ecological roles of major terrestrial, fresh water, marine, and parasite invertebrate groups. Evolution of their adaptations and methods for their study.

470. Biology of Vertebrates (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Biology 170 or 200B.
An introductory course in the biology of the vertebrates with emphasis on the vertebrate organism as a whole; anatomy, physiology, development, and evolution. (Formerly numbered Zoology 460.)

471. Analysis of Evolutionary Criticism (3) I
Prerequisite: Upper division standing in physical or life sciences.
Evolutionary theory examined through study of criticism against it. Fringe science ideas examined for value as objective lessons. (Formerly numbered Biology 406.)

472. Analytical Procedures in Cell Biology (3)
One lecture and six hours of laboratory.
Prerequisites: Biology 356 or Chemistry 361A-361B or Chemistry 560A-560B.
Analytical course designed to provide undergraduates with practical laboratory experience. Includes procedures such as cell fractionation, analysis of marker enzymes and nucleic acids, biochemical measurements, microelectrode recording and computerized data acquisition. (Formerly numbered Biology 480.)
474. Histology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 209B. Recommended: Biology 150B.
Descriptive microscopic anatomy of cells, tissues and organs of mammals with special emphasis on humans. (Formerly numbered Zoology 508.)

480. Biology of Aging (3)
Prerequisite: Biology 100 or Biology 209B.
Concepts and theories of aging in biological systems from the population to the molecular level. (Formerly numbered Biology 473 and 573.)

490B. Senior Investigation and Report in Botany (2) I, II
Prerequisites: Biology 514 or 528 or 529; Biology 530 or 563; senior standing.
Investigation and report on current botanical literature. (Formerly numbered Botany 490A and 490B.)

490E. Senior Investigation and Report in Ecology (2) I, II
Prerequisites: Biology 354 and 354L; senior standing and consent of instructor.
Investigation and report on current ecological literature. (Formerly numbered Biology 497E.)

490G. Senior Investigation and Report in Genetics (2) I, II
Prerequisites: Biology 352, senior standing and consent of instructor.
Investigation and report on current genetic literature. (Formerly numbered Biology 497G.)

490M. Investigation and Report in Microbiology (2) I, II
Prerequisites: Biology 350 and at least one additional upper division course in biology.
Investigation and report on current microbiological literature. (Formerly numbered Microbiology 490M.)

490P. Senior Investigation and Report in Physiology (2) I, II
Prerequisites: Biology 356, senior standing and consent of instructor.
Investigation and report on current physiological literature. (Formerly numbered Biology 497P.)

495. Methods of Investigation (2)
One discussion and three additional hours to be arranged.
Prerequisites: Consent of instructor and senior standing.
Selection and design of individual research in biology or microbiology: oral and written reports. Maximum credit four units. (Formerly numbered Microbiology 495 and Zoology 498.)

496. Experimental Topics (1-4)
Selected topics may be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 496, 496E, 496L, 496H courses applicable to a bachelor's degree.

498. Laboratory Experience in Modern Industrial Technology (1-5) I, II, S Cr/NC
Up to 20 hours per week in academic year, 40 hours per week in summer or winter sessions.
Prerequisites: Fifteen upper division units in biological sciences with grades of A or B and consent of instructor.
Practical laboratory experience in local industrial laboratories or in SDSU campus laboratories emphasizing current technology.

499. Special Study (1-3) I, II
Prerequisites: Fifteen units in biological sciences with grades of A or B and consent of instructor.
Individual study. Maximum credit six units for any combination of Biology or Chemistry 499.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500. Agricultural Ecology (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 354.
Mechanisms controlling fertility, productivity, and regulation in agricultural ecosystems. The ecological design and management of agroecosystems. (Formerly numbered Biology 525.)

501. Biological Control (4)
Three lectures and three hours of laboratory.
Prerequisite: Biology 462A or 462B.
Principles and implementation of biological control of arthropods and weeds. Emphasis on role of natural enemies, including insect pathogens, in the regulation of pest populations. Recommended for students specializing in entomology, botany, or applied ecology. (Formerly numbered Zoology 527.)

502. Economic Entomology (4)
Two lectures and six hours of laboratory.
Prerequisites: Biology 462AB.
Course designed for students of entomology, agriculture and horticulture. Emphasis is placed on problem identification and control of insects affecting plants. Quarantine measures are also studied. (Formerly numbered Zoology 528.)

503. Immature Insects (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 462AB.
Collection, preservation, identification and study of immature stages of insects. Course designed to meet the needs of students specializing in invertebrate zoology, agriculture, and medical entomology, parasitology, and systematic botany. (Formerly numbered Zoology 523.)

504. Insect Ecology (3)
Prerequisites: Biology 354 or 462.
Ecological principles as applied to insects, including consideration of crop ecosystems in relation to insect and mite outbreaks. (Formerly numbered Zoology 524.)

505. Insect Physiology (4)
Two lectures and six hours of laboratory.
Prerequisites: Biology 356 or 462 or an upper division course in physiology, and Chemistry 230 or 231.
Description, theory, and experimental analysis of all major physiological processes in insects. (Formerly numbered Zoology 528.)

506. Special Topics in Entomology (3-4)
Two lectures and three hours of laboratory.
Prerequisite: Biology 356 or 462.
Treatment of some aspect of entomology, such as biological control, microbial control of forest entomology, not covered in regularly scheduled courses. See Class Schedule for specific content. Maximum credit nine units. Maximum credit six units applicable on a master's degree. (Formerly numbered Zoology 522.)

507. Plant Pathology (4)
Three lectures and three hours of laboratory.
Prerequisite: Biology 100B. Recommended: Biology 528.
A practical course dealing with the principles of disease in plants, control measures, and quarantine procedures. Emphasis is placed on the determination and control measures of those pathogenic organisms which affect crops, trees, and shrubs and nursery stock. (Formerly numbered Botany 526.)

513. Marine Microbiology (2) I
Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.
Microbiological population of estuary and ocean waters; interrelationships with other organisms and the physical and chemical environment. (Formerly numbered Microbiology 560.)

513L. Marine Microbiology Laboratory (2) I
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 513. (Formerly numbered Microbiology 560L.)
514. **Physiology (4)**  
Three lectures and three hours of laboratory.  
Prerequisite: Biology 200.  
Morphology and phylogenetic relationships of the algae. (Formerly numbered Botany 501.)

515. **Marine Invertebrate Zoology (4)**  
Two lectures and six hours of laboratory.  
Prerequisite: Biology 200.  
Structure and function, ecology, behavior, physiology and phylectic relationships of marine invertebrate animals. (Formerly numbered Zoology 510.)

516. **Special Topics in Marine Invertebrates (3-4)**  
Prerequisite: Biology 515.  
Treatement of some aspect of marine invertebrate zoology such as invertebrate embryology, interticial ecology, or special experimental approaches. See class schedule for specific content and lecture/lab format. May be taken twice with new content. Maximum credit eight units applicable on a master's degree. (Formerly numbered Zoology 512.)

517. **Biological Oceanography (4)**  
Two lectures and six hours of laboratory.  
Prerequisite: Biology 354 or 515.  
Ecological concepts as applied to pelagic and benthic marine organisms and their environment. Field and laboratory experience in oceanographic techniques, particularly the coastal environment. (Formerly numbered Biology 531.)

518. **Fisheries Biology (3)**  
Two lectures and three hours of laboratory.  
Prerequisite: Biology 354.  
Fisheries of commercial importance. The dynamics of exploited populations. (Formerly numbered Biology 532.)

519. **Aquaculture (3)**  
Prerequisite: Biology 200B.  
Principles and practices of the farming of aquatic organisms. (Formerly numbered Zoology 504.)

520. **Ichthyology (4)**  
Two lectures and six hours of laboratory.  
Prerequisite: Biology 200B.  
Identification, systematics, evolution, structure, physiology, behavior and ecology of fishes. (Formerly numbered Zoology 515.)

521. **Advanced General Microbiology (2) II**  
Prerequisite: Biology 350 or an introductory course in microbiology and consent of instructor.  
Taxonomy, comparative physiology and ecology of representative microorganisms found in various natural environments. (Formerly numbered Microbiology 510.)

521L **Advanced General Microbiology Laboratory (2) II**  
Six hours of laboratory.  
Prerequisite: Credit or concurrent registration in Biology 521.  
Methods and procedures for the selective isolation and characterization of important groups of soil and water bacteria. (Formerly numbered Microbiology 510L.)

522. **Comparative Anatomy of the Vertebrates (4)**  
Two lectures and six hours of laboratory.  
Prerequisite: Biology 200B.  
Dissection, study and comparison of organ systems of representative vertebrates. (Formerly numbered Zoology 506.)

523. **Herpetology (4)**  
Three lectures and three hours of laboratory.  
Prerequisites: Biology 200B and consent of instructor.  
The origin, evolution, distribution and systematics of amphibians and reptiles of the world. (Formerly numbered Zoology 516.)

524. **Ornithology (4)**  
Two lectures, six hours of laboratory or field excursions, and a field project.  
Prerequisites: Biology 200B and consent of instructor.  
The study and identification of birds, especially those of the Pacific Coast and the San Diego region. (Formerly numbered Zoology 517.)

525. **Mammalogy (4)**  
Two lectures and six hours of laboratory.  
Prerequisites: Biology 200B and consent of instructor.  
The evolution, systematics, distribution and ecology of mammals of the world. (Formerly numbered Zoology 518.)

526. **Vertebrate Paleontology (4)**  
Two lectures and six hours of laboratory.  
Prerequisites: Biology 354.  
Advanced studies in the evolution of vertebrates, including relations to earth history and topics in paleoecology and functional morphology. Field and laboratory techniques and exercises in identification are included. (Formerly numbered Zoology 560.)

527. **Animal Behavior (4)**  
Two lectures and six hours of laboratory.  
Prerequisites: Biology 215; Biology 200B or Psychology 210 and 260 for psychology majors.  
Behavioral bases of animal behavior with emphasis on the ethological approach, including the evolution and adaptive significance of behavior. (Formerly numbered Zoology 570.)

528. **Mycology (4)**  
Two lectures and six hours of laboratory.  
Prerequisite: Biology 200B.  
The structure, food relations, and classification of fungi. (Formerly numbered Botany 502.)

529. **Vascular Plants (4)**  
Two lectures and six hours of laboratory.  
Prerequisite: Biology 200B.  
Structure, development and phylogenetic relationships of the bryophytes and vascular plants. (Formerly numbered Botany 503.)

530. **Plant Taxonomy (4) I**  
Two lectures and six hours of laboratory and field trips.  
Prerequisite: Biology 200B.  
The study of variation, primarily in flowering plants; classification, identification, nomenclature, distribution. (Formerly numbered Botany 514.)

531. **Principles of Taxonomy, Systematics and Phylogeny (4)**  
Two lectures and six hours of laboratory.  
Prerequisite: Biology 200B.  
Basis for the classification of organisms: Modern concepts and their application in zoology. Specific problems in laboratory and field. (Formerly numbered Zoology 555.)

532. **Evolution and Population Genetics (3)**  
Prerequisites: Biology 352 and 354.  
Theory of evolution and modeling of genetic systems. (Formerly numbered Biology 549.)

533. **Plant Structure and Function (3) I**  
Two lectures and three hours of laboratory.  
Prerequisite: Biology 200B.  
Relationships between plant structure and function. Morphology and anatomy of vascular plants, considering specific function of plant organs. Approaches to solve plant morphological problems. Techniques of plant anatomy. (Formerly numbered Botany 540.)

544. **Ecology of Renewable Resources (3)**  
Two lectures and three hours of laboratory.  
Prerequisite: Biology 354 or 454.  
Ecological principles in exploitation and management of forest, range, watershed, and recreation lands for sustained human benefit. (Formerly numbered Biology 528.)
554. Limnology (4)
Three lectures and three hours of laboratory.
Prerequisites: Biology 354 and 354L, Mathematics 122 or 150, and consent of instructor.
Theory and techniques of systems analysis and mathematical modeling as applied to ecological problems. (Formerly numbered Biology 537.)

555. General Virology (3) I, II
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 551.
The laboratory determination of physical factors affecting virus replication and the use of recombinant DNA techniques to study viral genetics. (Formerly numbered Microbiology 555L.)

556. Bacterial and Viral Genetics (3) I, II
Theory underlying microbial genetics. (Formerly numbered Biology 556.)
Prerequisite: Biology 356. Recommended: Microbiology 554.

557. Microbial Genetics (3)
Theory underlying microbial genetics. (Formerly numbered Biology 572.)
Prerequisite: Biology 356. Recommended: Microbiology 554.

558. Advanced Genetics (3)
Current topics in molecular, organismal, and population genetics. Maximum credit six units. (Formerly numbered Biology 558.)

559. Mutagenesis (3)
Prerequisite: Biology 356.
Basic principles and applications of mutation induction, expression, and detection at all levels of biological organization. Emphasis on mutation induction by chemicals and ionizing radiations. (Formerly numbered Biology 559.)

560. Photobiology (3)
Prerequisite: Biology 356.
Principles underlying visible and ultraviolet radiation effects on plants and animals, including man. Topics include photosensitization, ultraviolet effects, environmental photobiology, photomedicine, chronobiology, extraretinal photoreception, vision, photomorphogenesis, photomutation, photosynthesis, and bioluminescence. (Formerly numbered Biology 566.)

561. Radiation Biology (3)
Prerequisites: Physics 180B and 182B, Biology 100 or 200B. Recommended: Biology 356.
Principles underlying radiological reactions of ionizing radiations. Effects of ionizing radiations on the biochemical, cellular, organ, and organismal levels. (Formerly numbered Biology 570.)

561L. Radiation Biology Laboratory (2) I, II
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 561.
The laboratory determination of the effects of ionizing radiation on biological systems. (Formerly numbered Biology 570L.)

562. Physiological Zoology (3)
Prerequisite: Biology 200B. Recommended: At least one course in each of college algebra, chemistry, and physics. A comparative and evolutionary study of the functions of organ systems and their environmental significance. (Formerly numbered Zoology 540.)

563. Plant Physiology (3)
Prerequisites: Biology 200B, Chemistry 230 or 231. Activities of plants, including photosynthesis, ion transport, translocation, water relations, growth, and development. (Formerly numbered Botany 530.)

564. Microbial Physiology Laboratory (2) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 554.
Microbial experiments designed to demonstrate principles of water movement, ion transport, energy metabolism, growth, and development in plants. (Formerly numbered Botany 531.)
564. Topics in Cellular Biology (3)
Prerequisite: Biology 356 or Chemistry 361A-361B or Chemistry 560A-560B.
Topics selected from chromatin structure function and regulation; cell cycle analysis and regulation; cellular membrane formation, structure and function; Other topics irregularly scheduled. May be repeated once with new content. (Formerly numbered Biology 561.)

565. Topics in Comparative Physiology (3)
Prerequisite: Biology 356 or 562.
Topics vary each semester and are chosen from three areas: digestion, nutrition, respiration, metabolism, blood, circulation, osmoregulation, excretion; sensory reception, neural integration and muscle function; endocrine mechanisms. May be repeated once with new content. See Class Schedule for specific content. (Formerly numbered Biology 562.)

576. Developmental Biology (3)
Prerequisite: Biology 352.
Analysis of development with emphasis on embryonic differentiation. (Formerly numbered Biology 541.)

577. Embryology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 200B.
Studies in comparative gametogenesis, morphogenesis, and reproductive physiology. (Formerly numbered Zoology 503.)

578. Immunohematology (2) I, II
Prerequisite: Biology 350. Recommended: Biology 585.
Theory of blood grouping and typing with emphasis on recent advances. Procedures for identification of immune disorders and tests to determine compatibility.

579. Advanced Cellular Immunology (2) II
Prerequisite: Biology 564 or 585.
Biology of the immune response and experimental basis for modern cellular immunology.

580. Advanced Human Anatomy (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Biology 156 or 522.
Comprehensive whole body dissection with primary emphasis on laboratory participation. The dissection will be from a regional aspect. (Formerly numbered Zoology 507.)

581. Animal Viruses (4) I
Two lectures and six hours of laboratory.
Prerequisite: Biology 352. Recommended: Biology 552L.
Animal virus identification and investigation, emphasizing cell culture, cytopathic effects and serology. (Formerly numbered Microbiology 553.)

582. Hematology (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Biology 350.
The study of normal and pathological blood with chemical, physical and microscopic methods. (Formerly numbered Microbiology 550.)

583. Human Genetics (3) I, II
Prerequisite: Biology 352.
Genetics as related to human biology. Molecular and cytogenetic causes of genetic disease and the genetics of human populations. (Formerly numbered Biology 544.)

584. Immunochemistry (3)
Prerequisite: Biology 356 or 585.
Structure and function of the immunoglobulins and the chemical and physical nature of the antigen-antibody reaction. (Formerly numbered Biology 566.)

585. Immunology and Serology (2) I, II
Prerequisites: Chemistry 361A and one upper division biological science course.
Immunchemistry of antigens and antibodies; their interactions in vitro and in vivo. Cellular immune mechanisms. Immunopathologies. Not open to students with credit in Microbiology 330. (Formerly numbered Microbiology 540.)

585L. Immunology and Serology Laboratory (2) I, II
Six hours of laboratory.
Prerequisites: Biology 350 and credit or concurrent registration in Biology 585. Serological and cellular immunological techniques. Not open to students with credit in Microbiology 330L. (Formerly numbered Microbiology 540L.)

586. Medical Entomology (4)
Three lectures and three hours of laboratory. See Class Schedule for lecture/lab format.
Prerequisite: Biology 200B.
The role of insects and other arthropods in the transmission and causation of human diseases and the important diseases of domesticated animals. (Formerly numbered Zoology 525.)

587. Medical Mycology (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Biology 585 or 589.
Mycotic agents of disease in human and other animals. Consideration of the biology of fungi; concepts of host-parasite relationships, including factors affecting virulence and immunity. Experience in systematic identification. (Formerly numbered Microbiology 526.)

588. Parasitology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 200B.
Study of animal parasites with special reference to those of humans. Laboratory including identification of important human parasites, and collection and preservation of local forms. (Formerly numbered Zoology 536.)

589. Pathogenic Bacteriology (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 350 with a minimum grade of C; Chemistry 250 or 251. Recommended: Chemistry 361A.
Bacterial and rickettsial agents of disease in man and other animals. Consideration of host-parasite relationships, the biology of the inciting agents and mechanisms of host resistance. Laboratory experience in isolation and identification of bacterial pathogens. (Formerly numbered Microbiology 520.)

590. Physiology of Human Systems (4)
Three lectures and one hour of discussion.
Prerequisites: Physics 180B and 182B; Biology 200B. Recommended: Chemistry 361A and 361B or Biology 356.
Human physiology presented at cellular and organism system levels: membrane transport, nerve excitation, muscle contraction, cardiovascular physiology, kidney function, endocrine function, reproduction and digestion. For students majoring in a natural science or engineering. (Formerly numbered Biology 572.)

592. Electron Microscopy (4) II
Two lectures and six hours of laboratory.
Prerequisites: Physics 180A-180B and 182A-182B; Biology 350. Recommended: Biology 474 and 552.
Principles and techniques in the biological application of the electron microscope. (Formerly numbered Microbiology 590.)

593. Introduction to Scanning Electron Microscopy (2) I, II
One lecture and three hours of laboratory.
Prerequisite: Biology 200B.
Theory and use of a scanning electron microscope for biological research. Laboratory is project oriented. (Formerly numbered Botany 510.)

594. Radioisotope Techniques in Biology (4)
Two lectures and six hours of laboratory.
Prerequisites: Physics 180B and 182B, Biology 100 or 200B. Recommended: Biology 356 and Chemistry 250 or 251.
The principles and application of radioisotopes in biology. Radionuclide measurement, safe handling, tracer and radioautography techniques. (Formerly numbered Biology 571.)
596. Special Topics in Biology (1-3)
Prerequisite: Consent of instructor.
Advanced selected topics in modern biology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable on a bachelor's degree. Maximum credit six units with three units applicable on a master's degree.

597. Statistical Methods in Biology (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 352, or 354, or 356.
Application of statistical techniques to biological data. Not open to students with credit for another upper division course in statistics except with written approval of the chairman of the department offering the student's major filed with the Evaluations Office. (Formerly numbered Biology 519.)

GRADUATE COURSES
Refer to the Graduate Bulletin.

---

College of Business Administration
A member of the American Assembly of Collegiate Schools of Business

Faculty
Dean: Bailey
Associate Dean, Academic Affairs: Warschauer
Associate Dean, Graduate Studies: Barber
Associate Dean, External Relations: Brown
Assistant Dean, Undergraduate Studies and Student Affairs: Newton

Offered by the College of Business Administration
Master of Science degree in accountancy.
Master of Science degree in business administration.
Master of Business Administration.

Minors with the B.S. degree in business administration in the following fields: accounting, finance, financial services, information systems, insurance, management, marketing, real estate.
Teaching major in business for the single subject teaching credential.

Majors in the following fields: accounting, business management, personnel and industrial relations, finance, information systems, marketing, production and operations management, real estate, small business management (available at Imperial Valley Campus only).
Certificate in business administration (available at Imperial Valley Campus only).

The Business Administration Program — Admission to Majors

The undergraduate business administration program at San Diego State University is structured such that students desiring a business administration major are first admitted to the prebusiness administration major for their first two years of university work. During these first two years students should complete general education courses and a common core of eight lower division preparation for the business major courses — Accounting 212, Accounting Fundamentals (Accountancy 201, Accounting Fundamentals I, 202, Accounting Fundamentals II for accounting and information systems majors); Finance 140, Business Law; Economics 101, Principles of Economics (Macro); Economics 102, Principles of Economics (Micro); Information Systems 180, Principles of Information Systems; Information Systems 290, Written Communications in Business (not required for accounting majors), Mathematics 119, Elementary Statistics, and Mathematics 120, Mathematics for Business Analysis (Mathematics 141 for accounting majors). These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C-.

Supplemental admissions criteria must be met before students may declare an upper division major and be eligible for upper division courses. For current information concerning admissions criteria and procedures, contact the Undergraduate Planning and Advising Center in the College of Business Administration.

Students will be required to take a proficiency test in accounting fundamentals before they will be admitted to an accounting major.

Transfer Credit
Lower Division: Courses clearly equivalent in scope and content to San Diego State University courses required for minors or as preparation for all business majors will be accepted from regionally accredited United States institutions and from foreign institutions recognized by San Diego State University and the College of Business Administration.

Upper Division: It is the policy of the San Diego State University College of Business Administration to accept upper division transfer credits where (a) the course content, requirements, and level are equivalent to San Diego State University courses and (b) the course was taught in an American Assembly of Collegiate Schools of Business accredited program. Exceptions require thorough documentation evidencing the above standards.
Graduation Requirements

The student must complete the requirements listed below for the bachelor's degree. (Refer to the section of this catalog on Graduation Requirements for specific information.)

1. A minimum of 128 semester units for the B.S. degree. No less than 40 percent of these units must be in business and economics. A minimum of 52 units of course work applicable to the bachelor's degree must be completed outside the areas of business administration and economics.

2. A minimum of 30 units in residence. Twenty-four of these shall be earned in upper division courses and shall include at least one-half of the major.

3. A scholastic grade point average of 2.0 (grade of C on a five-point scale) or better in (a) all units attempted, (b) all units in the major, and (c) all units attempted at this college.

4. At least 45 upper division units for the B.S. degree.

5. One major.

6. Satisfactory completion of competency tests in mathematics and writing, or completion of appropriate courses designated in lieu thereof.

7. All regulations established by the university.

8. American Institutions, to include competence in American history, institutions and ideals, U.S. Constitution, and California state and local government.

9. A minimum of 49 units in general education, to include a minimum of nine upper division units. No more than 12 units may be used for general education credit from any one department or academic unit. A maximum of three upper division units in excess of departmental requirements may satisfy the requirements both for general education and the major if such courses have been approved for general education.

10. Application for graduation.

11. Effective the 1982-83 academic year, upper division concentrations must be declared to be eligible for a B.S. degree in Business Administration. "Generic" B.S. degrees in business will no longer be available. Students who had been advised about the existence of a generic degree will be awarded this degree only upon specific request.

The Major

Each major in business administration consists of a pattern of prescribed upper division courses. The minimum number of units required is stated in the description of each major. No student will be permitted to register for an upper division course who has not completed the prerequisites for that course.

Also required as preparation for the major are the lower division prerequisite courses. These prerequisite courses may not be taken Cr/Nc; the minimum grade in each class is C-. Business administration majors may not complete a minor in the College of Business Administration.

For information on general education and other degree requirements, refer to the section of this catalog on Graduation Requirements.

A minimum of 52 units of course work applicable to the bachelor's degree must be completed outside the areas of business administration and economics.

Small Business Management Minor (Imperial Valley Campus)

The minor in small business management consists of a minimum of 22 units to include Economics 101, 102; Accountancy 212; Management 350, 450; Marketing 370; and three units selected from Accountancy 315, Finance 323, Management 351, 352, 356. (15-16 units.)

The major in small business management is designed primarily for persons who want to gain an increased understanding of essential principles through upper division business courses, and for students who will seek mobility on the job.

Certificate in Business Administration (Imperial Valley Campus)

This certificate is designed primarily for persons who want to gain an increased understanding of essential principles through upper division business courses, and for students who will seek mobility on the job.
Accountancy

Faculty
Emeritus: Brown, Dodds, Ferrel, Hamed, Odmann, Wright
Director: Whittenburg
The Vern Odmann Professor: Chow
Professors: Bailey (Dean), Ballew, Barnett, Brodskizer, Butler, Capetillo, Larden, Lightner, K. Meier, Meigs, Samuelson, Snudden, Toole, Whittenburg, Whittington, Williamson
Associate Professor: Lightner, S.
Assistant Professor: Wong-Boren
Visiting Lecturers: Ferrara, Griffin

Offered by the Department
Master of Science degree in accountancy.
Major in accounting with the B.S. degree in business administration.
Teaching major in business for the single subject teaching credential.
Minor in accounting.

With the B.S. Degree in Business Administration

The basic objective of the bachelor of science program in accounting is to provide basic conceptual accounting and business knowledge to students seeking professional careers in the field of accounting. The knowledge acquired in the B.S. program should be sufficient for entry-level positions in government, industry, and public accounting. The program provides the opportunity to gain the necessary knowledge to pass professional examinations in accounting such as the C.P.A. and C.M.A. The accounting curriculum in the B.S. program also provides the foundation for future career development and for expansion of the student's knowledge of accounting in the future.

Students will be required to take a proficiency test in accounting fundamentals before they will be admitted to an accounting major.

Preparation for the Major
Accountancy 201 and 202; Economics 101 and 102; Economics units. These prerequisite courses may not be taken Cr/NC, the minimum grade in each class is C.

Upper Division Writing Requirement, Information Systems 490W with a grade of C (2.0) or better.

Business Major

For the Single Subject Teaching Credential
All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under the College of Education. Students must complete the requirements of a major in one of the five subject credit advisers in the College of Business Administration. In consultation with the single subject credit adviser in the College of Business Administration, undergraduate students majoring in business must demonstrate office skills proficiency. Finance 389, Personal Financial Planning, is required of all teaching credential majors.

Student program must be approved in advance by the College of Business Administration single subject credit adviser.

Accounting Minor

The minor in accounting consists of a minimum of 22 units to include Accountancy 201 and 211, 310, 311, 312 and 410. (Management 301 or 302 recommended prerequisites for Accountancy 312.)

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. Students with a major in the College of Business Administration may not complete a minor in the College of Business Administration. Permission to take business minors must be obtained from the business minor adviser in the college of the student's major.

LOWER DIVISION COURSES IN ACCOUNTANCY

100. Survey of Accounting (3) I, II S
Basic principles underlying accounting measurement in business, accounting model in retailing and manufacturing; tax accounting, audit function, and managerial use of accounting information. Not open to students with credit in Accountancy 201, 210A, 210B, or 212. Open to nonbusiness majors only.

201. Accounting Fundamentals I (3) I, II, S
Theory and practice of accounting; transactions analysis, ledgers, journals, business documents, assets, liabilities, adjusting, closing, and procedures leading to preparation and understanding of financial statements with emphasis on sole proprietorships and partnerships. Not open to students with credit in Accountancy 100, 210A, 210B, or 212. Preparation requirement for business majors.

202. Accounting Fundamentals II (3) I, II, S
Prerequisite: Accountancy 201
Accounting for partnerships; statements of changes in financial position; price level accounting, managerial accounting concepts and procedures including manufacturing accounting, cost accounting, CVP analysis, budgeting, and tax aspects in decision making. Preparation requirement for business majors.

212. Accounting Fundamentals I, II (4) I, II, S
Principles of financial accounting including study of accounting cycle and accounting for cash, receivables, payables, inventories, payroll, partnerships, plant and equipment, bonds, equities, investments, income taxes, funds flow. (Not open to students with credit in Accountancy 201.)

296. Experimental Topics (1-4)
Selected for topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES IN ACCOUNTANCY
(Reserved for Undergraduates)

310. Intermediate Accounting I (4) I, II, S
Prerequisite: Minimum grade of C in Accountancy 201 or 212
Theories and principles underlying accounting for cash, short-term investments, receivables, inventories, current liabilities, plant and equipment, intangible assets, contributed capital, retained earnings.

311. Intermediate Accounting II (4) I, II, S
Prerequisite: Accountancy 310 with minimum grade of C.
Theories and principles underlying accounting for long-term investments, stock options, dilutive securities, bonds, earnings per share, income taxes, pensions, leases, funds flow, changing prices.
312. Managerial Cost Accounting Systems (4) I, II
Prerequisites: Minimum grade of C in Accountancy 201 or 212; Management 301 or 302.
Management use and design of accounting systems for planning and control; theories and
practices of cost accounting, job order cost systems, process cost systems, standard cost
systems, inventory control systems, distribution analysis, and capital budgeting.

314. Advanced Accounting Problems (4) I, II
Prerequisites: Credit or concurrent registration in Accountancy 311.
Problems involved in partnerships, consignments, consolidations, receivings, foreign
exchange, fund accounting, and other specialized areas.

315. Accounting for Managers (4) I, II
Prerequisites: Accountancy 212 and credit or concurrent registration in Management 350.
Managerial accounting and financial accounting for nonaccountants. Not open to students
with credit in Accountancy 310 or 312.

316. The Accounting Profession (1) Cr/NC
Prerequisite: Completion of preparation for major.
Analysis and evaluation of professional opportunities that utilize the accounting and reporting
functions.

410. Federal Income Tax I (4) I, II
Prerequisite: Minimum grade of C in Accountancy 310 or 315.
Taxation of individuals, including income, deductions, credits, social security taxes, and
property transactions.

414. Auditing (4) I, II
Prerequisites: Accountancy 311 and 312; 314 recommended.
Consideration of internal control in the design of accounting systems; flow-charting techniques;
duties, ethics and responsibilities of the auditor; operational auditing; procedures for
verification of financial statements; auditor's reports.

420. Field Study in Taxation (1) II Cr/NC
Prerequisite: Accountancy 410.
Income tax preparation in the field. Follows procedures of IRS VITA Program. IRS instruction
followed by faculty supervised field work. (Student must be available for special IRS tax
school.)

496. Selected Topics in Accountancy (1-4) I, II
Prerequisite: Consent of Department Chair.
Selected areas of concern in accountancy. See Class Schedule for specific content. May be
repeated with new content with consent of Department Chair. Limit of nine units of any
combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six
units.

498. Investigation and Report (1-3) I, II
Prerequisites: Senior standing and consent of instructor.
May be repeated with new content. Maximum credit six units.
A comprehensive and original study of a problem connected with accounting under the
direction of one or more members of the accounting staff.

UPPER DIVISION COURSES IN ACCOUNTANCY
(Also Acceptable for Advanced Degrees)

511. Federal Income Tax II (3) I, II
Prerequisite: Accountancy 410.
Taxation of corporations, partnerships, estates, and trusts. Gift and estate tax. (Formerly
numbered Business Administration 411.)

512. Advanced Managerial Accounting (3) I, II
Prerequisites: Accountancy 312 and Management 302.
Use of accounting information systems for managerial decision making. Introduction to
decision making situations which use accounting information for full or partial resolution.
Consideration of uncertainty, decision theory and specific decision contexts. (Formerly
numbered Business Administration 412.)
Finance

Faculty
Emeritus: Fisher, H., Schmier, Wijnholds
Chair: Vandenberg
Professors: Hippakka, Hungate, Hutchins, Neuberger, Nye, Reints, Short, Vandenberg,
Warshauer (Associate Dean, Academic Affairs)
Associate Professors: Block, Bost, Chervin, Fisher, R., Haddad, Sachdeva, Salehzadeh,
Sterk, Wilbor

Offered by the Department
Master of Science degree in business administration;
Master of Business Administration
Major in finance with the B.S. degree in business administration
Major in financial services with the B.S. degree in business administration.
Major in real estate with the B.S. degree in business administration.
Teaching major in business for the single subject teaching credential.
Minor in finance.
Minor in insurance.
Minor in real estate.

Finance Major
With the B.S. Degree in Business Administration
Preparation for the Major. Accountancy 212; Finance 140, Information Systems 180, 290;
Economics 101 and 102; Mathematics 120 or 150, and Economics 201 or Mathematics 119.
(25-27 units.) These prerequisite courses may not be taken Cr/NC; the minimum grade in each
class is C-

Upper Division Writing Requirement. Passing the University Writing Examination or
completing one of the approved writing courses with a grade of C (2.0) or better.
Major. A minimum of 39-40 upper division units to include Finance 323, 331, 335, 433, 435;
Management 301 or 302, 350, 405; Marketing 370; Public Administration 320; and 9-10 units
selected from Accountancy 315, 410; Finance 333, 340, 342, 431, 437; Marketing 373;
Economics 422, 490; Geography 354, 559. A minimum of 82 units of course work applicable to
the bachelor's degree must be completed outside the areas of business administration and
economics.

Financial Services Major
With the B.S. Degree in Business Administration
Preparation for the Major. Accountancy 212; Economics 101 and 102; Economics 201 or
Mathematics 119; Finance 140; Information Systems 180 and 290; Mathematics 120 or 150.
(25-27 units.) These prerequisite courses may not be taken Cr/NC; the minimum grade in each
class is C-

Upper Division Writing Requirement. Passing the University Writing Examination or
completing one of the approved writing courses with a grade of C (2.0) or better.
Major. A minimum of 40 upper division units to include Accountancy 310; Finance 321, 323,
325, 327, 423; Management 301 or 302, 350, 405; Marketing 370; Economics 490; at least three
units selected from Finance 329 and 425; and three units of electives selected from Finance.
A minimum of 52 units of course work applicable to the bachelor's degree must be completed
outside the areas of business administration and economics.

Real Estate Major
With the B.S. Degree in Business Administration
Preparation for the Major. Accountancy 212; Finance 140; Information Systems 180, 290;
Economics 101 and 102; Economics 201 or Mathematics 119; and Mathematics 120 or 150.
(25-27 units.) These prerequisite courses may not be taken Cr/NC; the minimum grade in each
class is C-

Upper Division Writing Requirement. Passing the University Writing Examination or
completing one of the approved writing courses with a grade of C (2.0) or better.
Major. A minimum of 39-40 upper division units to include Finance 323, 331, 335, 433, 435;
Management 301 or 302, 350, 405; Marketing 370; Public Administration 320; and 9-10 units
selected from Accountancy 315, 410; Finance 333, 340, 342, 431, 437; Marketing 373;
Economics 422, 490; Geography 354, 559. A minimum of 82 units of course work applicable to
the bachelor's degree must be completed outside the areas of business administration and
economics.

Business Major
For the Single Subject Teaching Credential
All candidates for the single subject teaching credential in business must complete all
requirements for the applicable specialization as outlined in this section of the catalog under
the College of Education. Students must complete the requirements of a major in one of the five
departments within the College of Business Administration. In consultation with the single
subject credential adviser in the College of Business Administration, undergraduate students
must develop programs which fulfill the State credential requirements. All undergraduate
majors must demonstrate office skills proficiency Finance 389, Personal Financial Planning,
is required of all teaching credential majors.
Student program must be approved in advance by the College of Business Administration
single subject credential adviser.

Finance Minor
The minor in finance consists of a minimum of 19 units to include Accountancy 212; Finance
321, 323, 327, and 329; Mathematics 119.
Courses in the minor may not be counted toward the major, but may be used to satisfy
preparation for the major and general education requirements, if applicable. Students with a
major in the College of Business Administration may not complete a minor in the College of
Business Administration. Permission to take business minors must be obtained from the
business minor adviser in the college of the student's major.

Insurance Minor*
The minor in insurance consists of a minimum of 15 units to include Finance 140, 521, 525,
542, and six additional upper division units in business administration with consent of
insurance adviser.
Courses in the minor may not be counted toward the major, but may be used to satisfy
preparation for the major and general education requirements, if applicable. Students with a
major in the College of Business Administration may not complete a minor in the College of
Business Administration. Permission to take business minors must be obtained from the
business minor adviser in the college of the student's major.

Real Estate Minor
The minor in real estate consists of a minimum of 18 units to include Economics 102;
Finance 140, 331, 335, 433; and three units selected from Finance 333, 431, and 435.
Courses in the minor may not be counted toward the major, but may be used to satisfy
preparation for the major and general education requirements, if applicable. Students with a
major in the College of Business Administration may not complete a minor in the College of
Business Administration. Permission to take business minors must be obtained from the
business minor adviser in the college of the student's major.

LOWER DIVISION COURSE IN FINANCE

140. Business Law (3) I, II
Introduction to legal institutions; nature and sources of law; the judicial system; legal
concepts and cases involving contracts, agency, and sales.
UPPER DIVISION COURSES IN FINANCE
(Intended for Undergraduates)

321. Managerial Economics (3) I, II
Prerequisite: Completion of lower division course requirements in major or minor.
Role of economic analysis in management decisions. Study of demand, cost, supply
theories from a business viewpoint. Emphasis on managerial decision making.

323. Fundamentals of Finance (3) I, II
Prerequisite: Completion of lower division course requirements in major or minor. Proof of
completion of prerequisite required.
Objectives of financial management. Financing the business enterprise. Internal financial
management. Introduction to the cost of capital; valuation, dividend policy lever-age and the
techniques of present value and its applications. Sources of capital.

325. Planning of Capital Expenditures (3) I, II
Prerequisites: Finance 323 and Management 301 or 302.
The capital expenditure decision process. Measuring and evaluating benefits and
costs. The cost of capital and the evaluation process. Capital rationing problems. Risk and uncertainty
in the decision process. Emphasis on quantitative and computer methods in the decision-
making process.

326. Financial Institutions Management (3)
Prerequisite: Finance 323.
Management of financial institutions including savings and loan associations, mutual
savings banks, credit unions, private pension plans, brokerage houses, investment companies,
consumer credit institutions, federal credit agencies, and commercial banks. Emphasis on
financial management of these institutions.

327. Investments (3) I, II
Prerequisite: Finance 323.
Investment principles and practices with emphasis on problems of the small investor, such
as tests of a good investment, sources of information, types of stocks and bonds, mechanics of
purchase and sale, investment trusts, real estate mortgages, and the like.

329. International Business Finance (3) I, II
Prerequisite: Finance 323.
The financing of international business transactions; international payments and their environ-
mental aspects; international financial institutions.

331. Real Estate Essentials (3) I, II
Prerequisite: Completion of lower division course requirements in business major or minor.
Fundamental operations of the real estate market; principles of real property valuation,
financing, law, investment, brokerage, management, and development. (Formerly numbered
Finance 293.)

333. Law of Real Property (3) I, II
Prerequisite: Finance 331.
Legal theory and practice of estates in land; landlord and tenant relationships; land transac-
tions; mortgages and trust deeds; easements; land use; ownership rights in land; environmen-
tal law.

335. Land Markets and Real Estate Analysis (3) I, II
Prerequisite: Finance 331.
Theory and analysis of land utilization. Location analysis and determinants of land use
patterns. Real estate market behavior and economic growth. Basic real estate investment
analysis. Public controls and policies affecting land markets.

340. Advanced Business Law (3) I, II
Prerequisites: Finance 140, accounting major or completion of Finance 323 and 335.
Legal concepts and cases involving business organization, negotiable instruments; prop-
erty, security devices, creditors' rights, bankruptcy, insurance, proprietary, trusts, estates, and surety.
Finance 141.

341. Law in a Business Society (3) I, II
Prerequisite: Finance 140.
The nature of law as a process of resolving economic disputes and social conflicts. Analysis
of the rationale in statutes, judicial decisions, and doctrine. The role of law in the development
of business concepts.

385. Personal Financial Planning (3)
Prerequisites: Finance 327 and credit or concurrent registration in Accountancy 410.
Financial planning process. Relationships with clients and other professionals. Plan formulation
and implementation. Cash flow and debt considerations. Integration of investments, insur-
ance, estate, tax, and retirement planning. Practice management, ethics, and regulation.
(Formerly numbered Business Administration 385.)

421. Security Analysis and Investment Strategies (3) I, II
Prerequisite: Finance 327.
Theory and practical application of security valuation and investment behavior by advanced technical and
fundamental analysis. Strategies for optimizing profit and minimizing risk in securities transac-
tions. Institutional and personal portfolio management.

423. Financial Analysis and Management (3) I, II
Prerequisites: Finance 325 and Economics 490.
Integration of various aspects of finance, application of financial theory. Financial decision
making in the firm.

425. Business Forecasting (3) I, II
Prerequisites: Finance 323, Management 301 or 302, and Marketing 370.
Business fluctuations, forecasting, and related problems confronting the business firm; forecasting techniques;
specific forecasts. The use of forecasts in the firm.

431. Real Estate Finance (3) I, II, S
Prerequisite: Finance 331.
Methods of financing real estate; sources of funds; governmental financial agencies; feasibility
analysis for various types of properties.

439. Theory of Real Property Value (3) I, II
Prerequisite: Finance 335.
Introduction to theories of real property value. Techniques of value determination. Data analysis
and prediction techniques.

435. Real Estate Investment Analysis (3) I
Prerequisites: Finance 323 and 433.
The theories and methods of investment analysis applied to real estate. Integration of various
aspects of real estate from the investor's perspective. Use of computer models for investment
decision making.

437. Housing: Policy and Analysis (3) I, II
Prerequisite: Finance 331.
Entrepreneurial behavior in the housing sector. Housing market analysis. Public policy and
social aspects of housing. Community and environmental factors.

445. Estate Planning (3) I, II
Prerequisites: Finance 333, Management 301 or 302, and Marketing 370.
Programmed fundamentals with emphasis on economic, actuarial, and legal principles;
program coordination and integration with wills, guardianships, estate planning fundamentals;
taxation; business life insurance. Analysis of life insurance selling as a career.

496. Selected Topics in Finance (1-4) I, II
Prerequisite: Consent of Department Chair.
Selected areas of concern in finance. See Class Schedule for specific content. May be repeated
with new content with consent of Department Chair. Limit of nine units of any
combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six
units.

498. Investigation and Report (1-3) I, II
Prerequisites: Senior standing and consent of instructor.
May be repeated with new content. Maximum credit six units.
A comprehensive and original study of a problem connected with finance under the
direction of one or more members of the finance staff.
UPPER DIVISION COURSES IN FINANCE
(Also Acceptable for Advanced Degrees)

521. Life and Health Insurance (3) II
   Prerequisite: Finance 542.
   Economic and social aspects of life and health insurance; nature of life and health insurance
   and of annuities; theory of probabilities, premiums, reserves and nonforfeiture values; company
   and agency operations and management; legal aspects; relationship to personal financial
   planning.

525. Employee Benefits and Retirement Planning (3) II
   Prerequisite: Finance 323.
   Nature, construction, administration, and evaluation of employee benefit plans. Disability
   plans. Use of retirement plans. Social security and its integration with employee plans. Tax
   treatment of retirement plans.

542. Insurance Principles and Practices (3) I, II
   Prerequisites: Undergraduate: Completion of lower division requirements for the major.
   Graduate: Completion of the prerequisites core.
   Nature and extent of personal, business, and social risk. Risk-handling techniques; insurance
   principles and practices: basic contracts analysis; insurance underwriting and rating; personal
   and business risk management. Not open to students with credit in Finance 342 or 700.

GRADUATE COURSES IN FINANCE
Refer to the Graduate Bulletin.

Information Systems

Faculty
Emeritus: Archer, Gibson, Langenbach, LeBarron, Spaulding, Straub
Chair: Sondak
Professors: Crawford, Sondak, Vik
Associate Professors: Feeney, Flatley, Hatch, Koster, Saltzer, Saraswat
Assistant Professors: Rittenhouse, Van Zandt
Lecturers: Birch, Schooley

Offered by the Department
Master of Science degree in business administration.
Master of Business Administration.
Major in Information systems with the B.S. degree in business administration.
Teaching major in business for the single subject teaching credential.
Minor in Information systems.

Information Systems Major

With the B.S. Degree in Business Administration
Information systems involves applications of computers in business and other organizations. In the major, students learn to analyze business problems and to design and implement computerized systems to solve them. The major is designed to prepare students for entry-level positions as systems analysts and to provide a foundation for professional growth in information systems management.

Preparation for the Major. Accountancy 201, 202; Finance 140, Information Systems 180, 280, 290; Economics 101 and 102; Mathematics 120 or 150, and Economics 201 or Mathematics 119. (30-32 units.) These prerequisite courses may not be taken Cr/NC; the minimum grade in each class is C-.

Upper Division Writing Requirement. Information Systems 396W with a grade of C (2.0) or better.

Major. A minimum of 39 upper division units to include Finance 323, Information Systems 380, 385, 396W, 480, 486, Management 302, 350, 360, 405, Marketing 370, and six units of electives selected from Information Systems 383, 384, 387, 388, 482, 483, Management 301, 462, 464. The following electives are suggested for students with these career goals:

Applications programming: Information Systems 383, 384.
Office automation: Information Systems 376, 386.
Systems design: Information Systems 388, 483.

A minimum of 52 units of course work applicable to the bachelor's degree must be completed outside the areas of business administration and economics.

Business Major

For the Single Subject Teaching Credential
All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under the College of Education. Students must complete the requirements of a major in one of the five departments within the College of Business Administration. In consultation with the single subject credential adviser in the College of Business Administration, undergraduate students must develop programs which fulfill the State credential requirements. All undergraduate majors must demonstrate office skills proficiency. Finance 389, Personal Financial Planning, is required of all teaching credential majors.

Student program must be approved in advance by the College of Business Administration single subject credential adviser.
Information Systems Minor

The minor in information systems consists of a minimum of 21 units to include Information Systems 180, 280, 380, 385, 480; and six units selected from Information Systems 383, 384, 387, 396W, 482, 483, 486.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. Students with a major in the College of Business Administration may not complete a minor in the College of Business Administration. Permission to take business minors must be obtained from the business minor adviser in the college of the student's major.

LOWER DIVISION COURSES IN INFORMATION SYSTEMS

180. Principles of Information Systems (3)
Applications of computerized systems in business organizations. Basic concepts of computer organization, data processing systems, decision support systems, systems analysis, and computer programming. Programming in a computer language to solve business problems.

280. COBOL Programming (3)
Prerequisite: Information Systems 180.
Introduction to COBOL programming. Emphasis on coding techniques, file organization, and report preparation.

290. Business Communication (3)
Principles of effective communication applied to business and industrial messages. Organization and presentation of written and oral reports.

UPPER DIVISION COURSES IN INFORMATION SYSTEMS

380. Information Systems Analysis and Design (3)
Prerequisite: Completion of lower division courses required in the major or minor. Concepts and techniques for the analysis, design, and implementation of computer-based information systems.

383. Advanced COBOL Programming (3)
Prerequisite: Information Systems 280.
Advanced application program development in COBOL emphasizing structured programming, table handling, and file access methods.

384. Comparative Programming Languages (3)
Prerequisite: Information Systems 280.
Basic principles of programming language syntax and semantics. Background for learning new programming languages, understanding of specific environments into which programming languages fit.

385. Information Systems Software and Hardware Organization (3)
Prerequisite: Completion of lower division courses required in the information systems major or minor. Functional characteristics and organization of hardware components; assembly language programming concepts; principles and functions of operating systems, system software and control of applications program environment.

387. Information and Records Management (3)
Management of information resources derived from both internal and external sources. Includes records management, computer center administration, and information center concept.

388. Office Automation Systems and Technologies (3)
Prerequisite: Information Systems 380.
Basic concepts, tools, technologies, and techniques for improvement of office information systems. Office information systems including technological, organizational, managerial, engineering, implementation, and evaluation aspects.

390W. Reporting Techniques for Business Professionals (3)
Prerequisite: Information Systems 290.
Advanced preparation of oral and written reports used in business and other organizations. Individualized study of reports in student's career field. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency Requirement, and completed the General Education requirement in Written Communication. (Formerly numbered Business Administration 390.)

480. Data Management Systems (3)
Prerequisite: Information Systems 380.
Methodology for applying data base management systems in design of information systems. Analysis of data base applications from perspectives of system users and systems analysts.

482. Information Systems Practicum (3) Ce/NC
Prerequisites: Information Systems 380 and six additional upper division units in information systems.
Information system design or development project applying knowledge gained in previous courses. Work done under joint supervision of course instructor and an information systems manager.

483. Distributed Information Systems Design (3)
Prerequisite: Information Systems 380.
Data communication system components; common carrier services and local area networks; economic, legal and technical issues in distributed information processing; analysis and design of data communication network applications; management and control of distributed data processing environment.

486. Advanced Systems Analysis and Design (3)
Prerequisite: Information Systems 380.
Systems analysis emphasizing decision support systems, management of design and development of information systems, and computerized aids in information system design.

496W. Reporting Techniques for Accountants (3)
Prerequisite: Twelve upper division units in accounting.
Advanced preparation of written and oral reports with application to professional needs of accountants. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency Requirement, and completed the General Education requirement in Written Communication.

496. Selected Topics in Information Systems (1-4) I, II
Prerequisite: Consent of Department Chair.
Selected areas of concern in information systems. See Class Schedule for specific content. May be repeated with new content with consent of Department Chair. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

498. Investigation and Report (1-3) I, II
Prerequisites: Senior standing and consent of instructor.
May be repeated with new content. Maximum credit six units.
A comprehensive and original study of a problem connected with information systems under the direction of a faculty member.

GRADUATE COURSES IN INFORMATION SYSTEMS

Refer to the Graduate Bulletin.
Management

Faculty
Emeritus: Pierson, Srbich
Chair: Beatty
Professors: Atchison, Beatty, Belasco, Belcher, Chen, Galbraith, Ghorpade, Hampton, Lackritz, Mitton, Peters, Robbins, Sherrard, Unterman
Associate Professors: Jenner, Nebecker, Schlesinger, Wright
Assistant Professors: Brady, Castaldo, De Noble
Lecturers: Levine, Ormens, Yassour

Offered by the Department.
Master of Science degree in business administration
Master of Business Administration
Major in management with the B.S. degree in business administration.
Teaching major in business for the single subject teaching credential.
Minor in business management.
Minor in personnel and industrial relations.
Minor in production and operations management.

Management Major

With the B.S. Degree in Business Administration
The major in management is a flexible program which allows the student to specialize in two areas of study in the major or to obtain a broad background in management with a specialization in one of the areas of study within the major.

(1) Professional Curriculum Within the Major Field
Preparation for the Major. Accountancy 212; Finance 140; Information Systems 180, 290, Economics 101 and 102; Mathematics 119; and Mathematics 120 or 150. (25-27 units.) These prerequisite courses may not be taken Cr/Nc; the minimum grade in each class is C-
Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.
Major. Accountancy 315; Finance 323; Management 301 or 302, 350, 351, 352, 356, 360, 405; Marketing 370. (31 units.)

(2) Areas of Specialization Within the Major Field
Select 12 units from Management 366, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468. (Six units must be within one of the areas below.)
(a) Personnel and Industrial Relations: Management 452, 453, 460.
(b) Production and Operations Management: Management 461, 462.
(c) Organizational Behavior: Management 451, 454.
(d) Statistics and Management Science: Management 366, 463, 464.
(e) Business Environment: Management 455, 456.
(f) Strategic, General, and International Management: Management 450, 457, 458, 459, 465, 466, 467.

(3) Pattern Requirements Outside the Department of Economics and the College of Business Administration
A minimum of 52 units of course work applicable to the bachelor’s degree must be completed outside the areas of business administration and economics.

Business Major

For the Single Subject Teaching Credential
All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under departments within the College of Business Administration, in consultation with the single subject credential adviser in the College of Business Administration, undergraduate students must develop programs which fulfill the State credential requirements. All undergraduate majors must demonstrate office skills proficiency Finance 369, Personal Financial Planning, is required of all teaching credential majors.
Student program must be approved in advance by the College of Business Administration single subject credential adviser.

Business Management Minor
The minor in business management consists of a minimum of 22 units to include Accountancy 212; Economics 101, 102; Management 350, and nine units selected from Management 351 or 352, 356, 360.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. Students with a major in the College of Business Administration may not complete a minor in the College of Business Administration. Permission to take business minors must be obtained from the business minor adviser in the college of the student's major.

Personnel and Industrial Relations Minor
The minor in personnel and industrial relations consists of a minimum of 22 units to include Accountancy 212; Economics 101, 102; Management 350, 352, and six units selected from Management 351, 452, 453, 460.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. Students with a major in the College of Business Administration may not complete a minor in the College of Business Administration. Permission to take business minors must be obtained from the business minor adviser in the college of the student's major.

Production and Operations Management Minor
The minor in production and operations management consists of a minimum of 22 units to include Accountancy 212; Economics 101, 102; Management 301 or 302, 350, 360, and three units selected from Management 366, 461, 462. Prerequisites to the minor include Economics 201 or Mathematics 119.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. Students with a major in the College of Business Administration may not complete a minor in the College of Business Administration. Permission to take business minors must be obtained from the business minor adviser in the college of the student's major.

LOWER DIVISION COURSE IN MANAGEMENT
150. The Business Enterprise (3) I, II
The business enterprise and its functions in society; interrelations of ownership, entrepreneurship, and administration; interactions within the firm and within and among industries.

UPPER DIVISION COURSES IN MANAGEMENT
(Intended for Undergraduates)
301. Statistical Analysis for Business (3) I, II
Prerequisites: Mathematics 120; Economics 201 or Mathematics 119. Completion of lower division courses required in the major or minor. Proof of completion of prerequisites required. Statistical methods applied to business decision making.
302. Quantitative Methods (3)
Prerequisites: Mathematics 120; Economics 201 or Mathematics 119. Completion of lower division courses required in the major or minor. Proof of completion of prerequisites required. A study of various management science techniques such as simulation, transportation and simple linear programming and queuing theory.
350. Management and Organization (3) I, II
Prerequisite: Completion of lower division courses required in the major or minor. Proof of completion of prerequisites required.
Concepts of organizing activities to achieve goals. Effects of environment, technology and human behavior on organization design. Managerial processes including planning, decision making, influence and control required to operate and change organizations.

351. Organizational Behavior (3) I, II
Prerequisite: Management 350
Human behavior in organizations at the individual, interpersonal and group level including the effect of organization structure on behavior. Emphasis on managerial behavior as it relates to human motivation, influence, leadership, communication, group dynamics and conflict resolution.

352. Personnel and Industrial Relations (3) I, II
Prerequisite: Management 350
Management of human resources including manpower planning and staffing, training and development, performance appraisal, compensation and union-management relations. Emphasis on effect of economic, sociological and psychological factors on concepts and practices.

356. Social and Ethical Issues in Business (3) I, II
Prerequisite: Management 350
Ethics of various issues in business, including social responsibility, environmental protection, privacy, individual rights, occupational safety and health, product liability, equality of opportunity, and the morality of capitalism.

360. Fundamentals of Production and Operations Management (3) I, II, S
Prerequisite: Management 350
Integration of principles and concepts for scheduling operations. Emphasis on master scheduling, material requirements planning, inventory planning and control, capacity requirements planning, and production activity control.

366. Statistical Methodology for Business Research (3)
Prerequisite: Management 301
Design and application of quantitative methods related to business research, with an applied emphasis on factorial analysis of variance, covariance, experimental design, multiple regression, research reporting, and analysis of methodology appearing in business literature.

405. Business Strategy and Integration (3) I, II
Prerequisites: Finance 323, Management 301 or 302, 350 and Marketing 370
Integration of principles and concepts from all fields of business administration. Emphasis on interaction of disciplines for effective strategy and establishment of top management policy through a combination of case study and a business simulation game.

450. Venture Management (3)
Prerequisite: Management 350 and senior standing
Problems of initiating, expanding, purchasing, and consolidating businesses. Concepts, theories, and techniques of managerial innovation and implementation.

451. Organization Theory and Analysis (3)
Prerequisite: Management 351
Organizations as systems: Analysis of the impact of technological, structural and administrative factors on management.

452. Wage and Salary Administration (3) I, II
Prerequisite: Management 352
Major problems in the determination and control of compensation from employment. Comparison of underlying theory to current practice.

453. Union-Management Relations (3) I, II
Prerequisite: Management 352
Relationships and interactions among unions, workers, and management. Emphasis on unionization, collective bargaining and central administration, interaction of union and management relative to society.

454. Interpersonal Processes (3)
Prerequisite: Management 351
Interpersonal aspects of management: interpersonal perception, communication, group dynamics, and influence from a managerial perspective.

455. American Business History (3)
Prerequisite: Management 350

456. Conceptual Foundations of Business (3) I, II
Prerequisite: Completion of Foundations section of General Education
Development and analysis of values and ideas characteristic of the business society: Individualism, materialism, rationality, technology, and other major components of business ideology. Capitalism/socialism debate. Majors in the College of Business Administration may not use this course to satisfy requirements for General Education.

457. Applications in Management (1-3) I, II
Prerequisites: Senior standing and consent of instructor.
Developing specific skills in areas of management.

458. Management Decision Games (1-3) I, II
Prerequisite: Consent of instructor.
Integrated managerial decision making within a dynamic environment through the use of business games.

459. Strategic Management of Not-For-Profit Organizations (3)
Prerequisite: Management 405
Use of the latest managerial techniques for the strategic formulation and implementation of Not-for-Profit institutions such as foundations, schools, etc. Substitute measurements of success of objectives where no normal profits appear.

460. Personnel Staffing and Development (3) I, II
Prerequisite: Management 352
Design of personnel activities for matching people and jobs. Includes development of techniques for personnel planning, staffing, appraisal, and development. Environmental constraints including legal and market forces.

461. Operations Management (3) I, II
Prerequisite: Management 363
Use of tools for effective utilization of resources in manufacturing activities. Advanced studies in various scheduling techniques. Includes industrial engineering, project management, computer simulation, linear programming, learning curves, and inventory models.

462. Operation Scheduling and Control Systems (3) I, II
Prerequisite: Management 360
Computerized simulation package used to facilitate student understanding of production scheduling systems.

463. Management Science: Deterministic Systems (3)
Prerequisite: Management 302
Determination and application of optimization techniques for deterministic systems. Linear programming, nonlinear dynamic and integer programs.

464. Management Science (3)
Prerequisite: Management 302
Study of current applications of operations research techniques to the solution of business and industrial problems. Readings, projects, cases, and field work as appropriate.

465. Formal Planning Systems (3)
Prerequisite: Management 405
Theory and practice of formalized, systematic corporate and divisional planning; nature of the planning process; role of the corporate planner; models and techniques of planning; design and implementation of formal planning systems.
466. **International Business Strategy and Multinational Enterprises (3)**
Prerequisite: Management 405.
Business activities across national boundaries, including strategies, policies, risks, organizing, directing and controlling. Cases, readings and directed study of various developed and developing countries.

467. **Negotiation Management (3)**
Prerequisite: Management 405.
Negotiation related to management of a strategy. Exchange of ideas with intention of changing relationships, as in acquiring, divesting, purchasing, hiring, training, merging, and evaluating.

468. **Women In Management (3)**
Prerequisite: Management 350.
Personal and organizational issues women face at work in both manager and worker roles. Barriers, strategies, conflict, male/female dynamics. Practice and skill building for effective managing.

469. **Selected Topics In Management (1-4)**
Prerequisite: Consent of Department Chair.
Selected topics in management with emphasis on specific content. May be repeated with new content. Maximum credit six units.

470. **Investigation and Report (1-3)**
Prerequisite: Senior standing and consent of instructor.
May be repeated with new content. Maximum credit six units.

**GRADUATE COURSES IN MANAGEMENT**
Refer to the Graduate Bulletin.

---

**Marketing**

**Faculty**
Emeritus: Akers, Darley
Chair: Vanier
Professors: Barber (Associate Dean, Graduate Studies), Belch, M., Haas, Hake, Lindgren, McFall, Scoglimpaglia, Settle, Vanier, Woruba
Associate Professors: Belch, G., Krentler, Tyagi
Assistant Professor: Villarreal-Camacho
Lecturer: Blanchette

**Offered by the Department**
Master of Science degree in business administration.
Master of Business Administration.
Major in marketing with the B.S. degree in business administration.
Teaching major in business for the single subject teaching credential.
Minor in marketing.

**Marketing Major**

**With the B.S. Degree in Business Administration**

**Preparation for the Major.** Accountancy 212; Finance 140; Information Systems 180, 290; Economics 101, and 102; Mathematics 120 or 150; and Economics 201 or Mathematics 119.

**Upper Division Writing Requirement.** Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

**Major.** A minimum of 44 upper division units to include Finance 323; Management 301, 350, 405; Marketing 370, 371, 470, 471, 473, 474, 475, 476, and 477. A minimum of 52 units of course work applicable to the bachelor's degree must be completed outside the areas of business administration and economics.

**Business Major**

**For the Single Subject Teaching Credential**

All candidates for the single subject teaching credential in business must complete all requirements for the applicable specialization as outlined in this section of the catalog under the College of Education. Students must complete the requirements of a major in one of the five departments within the College of Business Administration. In consultation with the single subject credential adviser in the College of Business Administration, undergraduate students must develop programs which fulfill the State credential requirements. All undergraduate majors must demonstrate office skills proficiency. Finance 389, Personal Financial Planning, is required of all teaching credential majors.

Student program must be approved in advance by the College of Business Administration single subject credential adviser.

**Marketing Minor**

The minor in marketing consists of a minimum of 20 units to include Accountancy 201; Marketing 370, Economics 102; and 12 units selected from Management 301, Marketing 371, 372, 373, 374, 375, 376, 377, 470, 472, 473, 474, 475, 476, and 477.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. Students with a major in the College of Business Administration may not complete a minor in the College of Business Administration. Permission to take business minors must be obtained from the business minor adviser in the college of the student's major.
UPPER DIVISION COURSES IN MARKETING
(Sheduled for Undergraduates)

370. Marketing (3) I, II
Prerequisite: Completion of all lower division course requirements for the major or minor. Marketing majors must complete this course with a minimum grade of C. Proof of completion of prerequisite required.
Function of marketing in the organization and in society. Topics include: market analysis and consumer behavior, product planning, pricing, promotion, distribution, and international marketing.

371. Consumer Behavior (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C.
Examination of the nature of markets and of the factors influencing market development and change. Study of the individual consumer's behavior in relation to the selling-buying process.

372. Retailing Principles (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C.
Study of retail stores, emphasizing the problems of store managers and merchandising executives; store location, organization, personnel, sales promotion, buying and handling of merchandise, inventory, turnover, and control methods. Problems of profitable operation under changing conditions.

373. Marketing Communication and Promotion (3)
Prerequisite: Marketing 370 with a minimum grade of C.
Management of the marketing communications function. Topics include advertising theory and measurement; communications theory; promotional strategies; public relations and publicity; consumer behavior and analysis; and consumer education and promotional ethics.

374. Physical Distribution Management (3)
Prerequisite: Marketing 370 with a minimum grade of C.
Physical distribution organization and functions. Economic and operational characteristics of modes of transportation, documentation, terminal operations, materials handling, claims management, and government regulations.

375. Purchasing and Buying (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C and Management 350.
Policies for purchasing raw materials, parts, supplies and finished goods for manufacturing operations, for commercial uses, and for wholesale and retail resale. Buying procedures, inventory control, vendor relations, legal problems, quality control, financing.

376. International Marketing (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C.
Marketing in an international setting. Topics include: entry strategies, importing-exporting, barter, channel selection, transfer pricing, advertising and selling differences, and the external environment within which the marketing manager operates.

377. Contemporary Selling Practices and Strategy (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C.
Personal selling strategies and practices in use today such as territory management, consultative selling, negotiation, and systems selling. Selling as an integral part and total marketing strategy.

470. Marketing Research (3) I, II
Prerequisites: Completion of lower division courses in the major or minor. A minimum grade of C in Management 301 and Marketing 370. Proof of completion of prerequisites required.
Methods and procedures used to generate and interpret information for marketing decision making. Topics include problem analysis, sources of information, alternative research designs, data collection, analysis and interpretation.

471. Marketing Research Project (1) I, II
Two hours of activity.
Prerequisite: Marketing 470.
Application of marketing research techniques to specific topics. Design, implementation and analysis of a marketing research study. Use of computerized statistical methods for data analysis.

GRADUATE COURSES IN MARKETING
Refer to the Graduate Bulletin.

472. Advertising Management (3)
Prerequisites: Marketing 371 and 373.
The management of the advertising and sales promotion function.

473. Sales Management (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C.
Consideration of the structure of sales organization; sales policies; selection, training, compensation, evaluation and control of the sales force; sales analysis; sales quotas; sales costs and budgets; markets and product research and analysis; coordination of personal selling with other forms of sales effort.

474. Industrial Marketing (3) I, II
Prerequisites: Marketing 370 with a minimum grade of C and Management 350.
Study of industrial products and services and how they are marketed: classification of industrial products and customers; buying procedures; applications of marketing research; analysis of industrial product planning; industrial channels of distribution; industrial promotion applications and pricing practices.

475. Marketing Problems (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C.
Complex cases in marketing involving analysis of business situations.

476. Advanced Marketing Research (3) I, II
Prerequisite: Marketing 470.
Advanced marketing research methods. Analysis and interpretation of data generated by research. Topics in survey methods and statistical analysis. Use of computerized statistical methods such as factor analysis, analysis of group differences, correlation and multivariate analysis.

477. Marketing Nonprofit Organizations and Social Causes (3) I, II
Prerequisite: Marketing 370 with a minimum grade of C.
Marketing in nonprofit organizations and other nontraditional situations. Application of marketing techniques to development of marketing programs in such institutions.

478. Marketing Management (3) I, II
Prerequisite: Marketing 371 and 470. Completion of lower division courses required in the major or minor. Proof of completion of prerequisites required.
Planning and implementing marketing strategy by integrating the specific elements in the marketing function. The application of the appropriate decision techniques in developing the overall marketing mix and in solving marketing problems.

479. Investigation and Report (1-3) I, II
Prerequisite: Consent of Department Chair.
Selected areas of concern in marketing. See Class Schedule for specific content. May be repeated with new content with consent of Department Chair. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

480. Investigation and Report (1-3) I, II
Prerequisite: Marketing 470 with consent of instructor.
A comprehensive and original study of a problem connected with marketing under the direction of one or more members of the marketing staff.
Chemistry

In the College of Sciences

The department is on the approved list of the American Chemical Society.

Faculty

Emeritus: Harrington, Isensee, Joseph, Robinson, Rowe, Spangler, Wick
Chair: Roeder
Professors: Abbott, Bennett, Cobble, Coffey, Dahms, Grubbs, Hellberg, Jensen, Jones, Landis, Laub, Leberherz, Maik, Mailey, Mathewson, O'Neal, Richardson, Ring, Roeder, Sharts, Stewart, Wadsworth, Wulfe, Woodson
Associate Professors: Chatfield, Stumph

Offered by the Department

Doctor of Philosophy degree in chemistry.
Master of Arts degree in chemistry.
Master of Science degree in chemistry.
Major in chemical physics with the B.S. degree in applied arts and sciences.
Major in chemistry with the B.S. degree in applied arts and sciences with the Certificate of the American Chemical Society.
Emphasis in biochemistry.

Certificate of the American Chemical Society

A program designed to qualify graduates for many types of positions as chemists and for admission to graduate work in chemistry.

Program Major

With the B.S. Degree in Applied Arts and Sciences

All candidates for a degree in chemistry must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

Preparation for the Major

Chemistry 200, 201, 231, and 251; Mathematics 150, 151 and 252; Physics 195, 195L, 196, 196L, 197, 197L. (44 units.)

Upper Division Writing Requirement

Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major

A minimum of 36 upper division units to include Chemistry 410A-410B, 431, 437, 457A-457B, 520A, 550, 560A, one unit of 498, and 11 units of upper division electives in chemistry. Six of the 11 units may be in related subjects with the approval of the department.

Emphasis in Biochemistry

Preparation for the Major

Chemistry 200, 201, 231, 237, 251; Mathematics 150, 151, 252; Physics 195, 195L, 196, 196L, Biology 201, 202. (49 units.)

Major

A minimum of 36 upper division units to include Chemistry 410A-410B, 431, 437, 457A-457B, 520A, 550, 560A, one unit of 498, and 11 units of upper division electives in chemistry. Six of the 11 units may be in related subjects with the approval of the department.

Chemistry Majors

In Applied Arts and Sciences

Three majors in chemistry are offered in applied arts and sciences, as follows:

1. Chemistry major with the B.S. degree and Certificate of the American Chemical Society.
2. Chemistry major with the A.B. degree and Certificate of the American Chemical Society.
3. Related Professions major.

Program Leading to the Related Professions Major

The program leading to the Related Professions major is not offered with the Certificate.
Chemistry Major

With the A.B. Degree in Applied Arts and Sciences and Certificate of the American Chemical Society

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

Preparation for the Major. Chemistry 200, 201, 231, 237, and 251; Mathematics 150, 151, and 252; and Physics 195, 195L, 196, 196L, 197, 197L. (45 units.)

Upper Division Writing Requirement. Passing the University Writing Examination with a grade of C (2.0) or better, or screening in Chemistry 457A or 457B.

Major. A minimum of 25 upper division units in chemistry to include Chemistry 410A-410B, 431, 437, 457A-457B, 520A, 550; one unit of 498; and three units of upper division electives in chemistry to be selected from Chemistry 510, 520B, 530, 537, 560A.

* Refer to catalog section on General Education requirements. The department strongly recommends that students take German 101 and 102 for seven units of credit under the Humanities section of General Education.

** Students eligible to take Mathematics 140 in their first semester should do so and substitute for Mathematics 104 and/or 140 to fulfill five units of general electives.

* Students are advised to choose the appropriate course in the Humanities or Social Science sections of General Education that meet half of this six-unit requirement. If this requirement is met entirely by examination, add three units to General Education and three units to General Electives.

Chemistry Major

With the A.B. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." This plan is designed for only those students who desire the training in a premedical or preprofessional curriculum. This plan cannot be taken by students who intend to become professional chemists or who intend to earn advanced degrees in chemistry or who plan to teach in community colleges. Application for admission to the plan must be made to the department chairman upon achieving junior class standing. All transfer students with upper division standing must apply before the second semester of work at San Diego State University. With an appropriate choice of electives, graduates can meet the requirements for admission to medical, dental, and pharmaceutical schools.

Preparation for the Major. Chemistry 200, 201, 231, 237, 250; Physics 195, 195L, 196, 196L, Mathematics 104, 140 (unless exempted by examination), 150, 151; Biology 200A or 201, 200B or 202. (50 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or screening in Chemistry 457A or 457B.

Major. A minimum of 24 upper division units in chemistry to include either Chemistry (310A-310B, 431, 577, ten units of electives in chemistry) or (410A-410B, 431, 457A-457B, 550, seven units of electives in chemistry). Chemistry 361A-361B or 560A-560B is recommended for all premedical students.

Minor. A minor in biology is expected for preprofessional students.

Chemistry Major

For the Single Subject Teaching Credential in Physical Sciences

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education. All candidates for a teaching credential must complete all requirements for a chemistry major for either the A.B. or the B.S. degree in Applied Arts and Sciences and must satisfy the requirements for a Physical Science Major for the Single Subject Teaching Credential in Physical Science as listed under the Natural Science Department.

Chemistry Minor

The following courses are prerequisite to the chemistry minor and do not count toward the 15 units required for the minor: Chemistry 200, 201. (10 units.)

The minor in chemistry consists of 15 units in chemistry to include Chemistry 230 or 231, and 250; and six units of upper division electives. Chemistry 410A-410B** are strongly recommended.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Graduation with Distinction

A student desiring to graduate with Distinction in Chemistry must meet the university requirements listed in the section of this catalog on "Graduation Requirements" and in addition have completed four units of Chemistry 498 by the time of graduation and be recommended by the faculty member directing the Chemistry 498 project.

LOWER DIVISION COURSES

100. Introduction to General Chemistry with Laboratory (4) L, II
Three lectures and three hours of laboratory.
Prerequisite: Two years of high school algebra or equivalent.
Elementary principles of chemistry used to illustrate nature and development of modern scientific thought. Not open to students with credit in Chemistry 200.

107. Glass Blowing (1)
Three hours of laboratory.
Prerequisite: Chemistry 201.
Elementary training in the manipulation of glass.

110. Chemistry and Life (3)
Chemistry of biological processes for the non-science major. Basic concepts in chemistry that provide the chemical basis for understanding the nature of life.
130. Elementary Organic Chemistry (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Chemistry 100 or 200.
Introduction to the compounds of carbon including both aliphatic and aromatic substances.
Not open to students with credit in Chemistry 201 or 202.

160. Introductory Biochemistry (3) I, II
Prerequisite: Chemistry 130.
Fundamental principles of the chemistry of living processes. This course is intended primarily for majors in home economics, nursing, and related fields.

200. General Chemistry (5) I, II
Three lectures and six hours of laboratory.
Prerequisites: High school chemistry or a grade of "C" or better in Chemistry 100, and two years of high school algebra or equivalent.
General principles of chemistry with emphasis on inorganic materials. Students with credit for both Chemistry 100 and 200 will receive a total of 5 units of credit toward graduation.

201. General Chemistry (5) I, II
Three lectures and six hours of laboratory.
Prerequisite: Chemistry 200.
Continuation of Chemistry 200. General principles of chemistry with emphasis on inorganic materials and qualitative analysis. Duplicate credit will not be allowed for the corresponding course in Chemistry 202.

202. General Chemistry for Engineers (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Chemistry 200.
A continuation of the study of the principles of chemistry with emphasis on the relationships to the field of engineering. Open only to engineering majors. Not open to students with credit in Chemistry 201.

230. Introductory Organic Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 201.
Aliphatic and aromatic compounds including reaction mechanisms. For students needing only one semester of organic chemistry. Not open to students with credit in Chemistry 231.

231. Organic Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 231.
Properties and synthesis of organic compounds including reaction mechanisms. First half of a year course. Not open to students with credit in Chemistry 230.

237. Organic Chemistry Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Open only to students enrolled concurrently in Chemistry 231.
The theory and practice of laboratory operations.

250. Techniques of Analytical Chemistry (5) I, II
Three lectures and six hours of laboratory.
Prerequisite: Chemistry 201 or 202. Enrollment in this course should immediately follow completion of the prerequisite.
Theory and practice of chemical analysis for life science majors. Not open to students with credit in Chemistry 251.

251. Analytical Chemistry (5) I, II
Three lectures and six hours of laboratory.
Prerequisites: Chemistry 201 and credit or concurrent registration in Mathematics 122 or 150. It is recommended that students who plan to enroll in this course do so the semester following completion of the prerequisites.
Theory and practice of gravimetric and volumetric methods of chemical analysis and introduction to instrumental methods of analysis. Not open to students with credit in Chemistry 250.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

310A-310B. Fundamentals of Physical Chemistry (3-3)
Prerequisites: Chemistry 250 or 251, Mathematics 122, and Physics 180B and 182B.
Chemistry 310A is prerequisite to 310B. Not open to students who have credit in Chemistry 410A or 410B.
Fundamental principles of theoretical chemistry. This course cannot be applied to the A.B. and certificate or B.S. major in chemistry. Intended mainly for life science majors and preprofessional health students.

361A-361B. Fundamentals of Biochemistry (3-3) I, II
Prerequisites: Chemistry 230 or 231.
The chemistry of intermediary metabolism and its regulation. Not open to students with credit in Chemistry 560A-560B.

410A-410B. Physical Chemistry (4-3) I, II
410A: Three lectures and three hours of laboratory.
410B: Three lectures.
Prerequisites: Chemistry 201, Mathematics 252, and credit or concurrent registration in Physics 197 and 197L.
Theoretical principles of chemistry with emphasis on mathematical relations. Theory and practice in acquisition and statistical analysis of physical measurements on chemical systems. (Students with credit in Chemistry 407 will receive only three units credit for 410A.)

431. Organic Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 231.
Continuation of Chemistry 231.

437. Organic Chemistry Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Open only to students enrolled concurrently in Chemistry 431.
Theory and practice of laboratory operations.

457A-457B. Advanced Laboratory Techniques (2-2) I, II
Six hours of laboratory.
Prerequisites: Chemistry 410A and 550. Chemistry 457A is prerequisite to 457B.
Instrumental methods and chemical concepts applied to advanced projects in chemistry. Emphasis on the practical laboratory notebook with some report writing.

467. Clinical Biochemistry Laboratory (2)
Six hours of laboratory.
Prerequisite: Consent of instructor.
Methods used in clinical laboratories.

486. Selected Topics in Chemistry (1-4)
Prerequisite: Consent of instructor.
Selected topics in modern chemistry. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

489. Senior Project (1-3) I, II, Cr/NC
Prerequisite: Three one-year courses in chemistry.
An individual investigation and report on a problem. Maximum credit six units.

498. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to students who have shown ability to do A or B work in Chemistry.
Individual study. Maximum credit six units.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500A-500B. Principles of Chemical Engineering (3-3)
(Same course as Mechanical Engineering 584A-584B)
Prerequisite: Credit or concurrent registration in Mechanical Engineering 350 or Chemistry 310A or 410A.
Industrial stoichiometry; fluid flow and heat transfer as applied to unit operations such as evaporation, distillation, extraction, filtration, gas-phase mass transfer, drying, and others. Problems, reports, and field trips.

501. Chemical Oceanography (3)
Three lectures and occasional field trips.
Prerequisites: Chemistry 201 and 231. Strongly recommended: Chemistry 250 or 251.
Recommended: Chemistry 310B or 410B and Oceanography 320 or 541.
The application of the fundamentals of chemistry to the study of oceans.

502. Chemical Literature (1)
Prerequisite: Upper division standing in chemistry
An introduction to the availability, scope and use of the chemical literature.

510. Advanced Physical Chemistry (3)
Prerequisite: Chemistry 410B.
Mathematical tools essential to solving problems in chemical thermodynamics, statistical mechanics, chemical kinetics, quantum chemistry and molecular structure and spectroscopy, with applications.

520A. Inorganic Chemistry (3)
Prerequisite: Credit or concurrent registration in Chemistry 310B or 410B.
The physical basis of the periodic system, complex inorganic compounds, and the nature of the chemical bond.

520B. Inorganic Chemistry (3) II
Prerequisite: Chemistry 520A.
An advanced systematic study of representative and transition elements and their compounds.

530. Theoretical Organic Chemistry (3)
Prerequisites: Chemistry 310A or 410A, and 431. Recommended: Credit or concurrent registration in Chemistry 310B or 410B.
Electronic and physical properties of organic molecules; structure-reactivity correlations; Electronic structure of molecules (qualitative molecular orbital theory); stereoisomer; and linear free energy relationships.

537. Organic Qualitative Analysis (4)
Two lectures and six hours of laboratory.
Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 310A or 410A. Chemistry 457A-457B recommended.
Chemical, physical, and spectral methods discussed and employed to determine structure of organic compounds. Purification and separation techniques stressed.

550. Instrumental Methods of Chemical Analysis (2)
Prerequisite: Chemistry 310 or 410B.
Theory and application of those instrumental methods of chemical separation and analysis most frequently used in all subdisciplines of chemistry.

551. Advanced Analytical Chemistry (3) II
Prerequisite: Chemistry 550.

560A-560B. General Biochemistry (3-3)
Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 310A or 410A.
The structure, function, metabolism, and thermodynamic relationships of chemical entities in living systems. Not open to students with credit in Chemistry 361A-361B.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Chinese
In the College of Arts and Letters

Faculty
Professor: Woo

Offered by the Department of Classical and Oriental Languages and Literatures

Courses in Chinese:
Major or minor work in Chinese is not offered.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences

Students electing the study of Chinese to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Chinese 303 or the equivalent level of achievement. The usual sequence of course work is Chinese 101, 202, and 303. Refer to section of catalog on "Graduation Requirements" for additional ways to satisfy competency.

LOWER DIVISION COURSES

Native speakers of Mandarin Chinese will not receive credit for taking lower division courses except with advance approval from the department.

All lower division courses in Chinese are taught in Chinese.
No credit will be given for Chinese 101, 202, 303, 304 taken out of sequence.

101. Elementary (4) I
Four lectures and one hour of laboratory.
Prerequisite: Chinese 101.
Continuation of Chinese 101. Not open to students who have completed three years of high school Chinese unless the third course was completed five or more years ago.

202. Elementary (4) II
Four lectures and one hour of laboratory.
Prerequisite: Chinese 101.
Continuation of Chinese 101. Not open to students who have completed three years of high school Chinese unless the fourth course was completed five or more years ago.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(Designed for Undergraduates)

All upper division courses in Chinese are taught in Chinese unless otherwise stated.

303. Readings in Contemporary Chinese (4) I
Prerequisite: Chinese 202.
Readings in contemporary authors: poetry, short stories, essays.

304. Readings in Chinese (4) II
Prerequisite: Chinese 303.
Readings ranging from classical to contemporary sources.

496. Topics in Chinese Studies (1-4)
Topics in Chinese language, literature, culture, and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit eight units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.
Concentration in Classical Humanities

Preparation for the Major. Choice of Classics 101G-202G, Classics 250G, Classics 101L-202L, or Classics 250L. (8-10 units.) Students should note that a number of the upper division required and recommended courses listed below have lower division prerequisites, but these prerequisites do not constitute requirements per se for the completion of the major.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major plus one language course in the major.

Upper Division Writing Requirement. Passing the University Writing Examination or one of the following courses with a grade of C (2.0) or better: English 304W, History 396W or 430W.

Major. A minimum of 30 upper division units to include Classics 320, 330, History 500A, 500B, and Philosophy 301 (prerequisites are waived for students in this major); six units from classics, Anthropology 478, Art 568, Religious Studies 310, or Speech Communication 350; six units of Greek or Latin; and three units of Classics 599 as a directed senior project.

Minor. A minor in art (history), comparative literature, English, foreign language, history, philosophy, or religious studies is recommended with this major.

Concentration in Greek

Preparation for the Major. Classics 101G-202G or Classics 250G. (8-10 units.)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major plus one language course in the major.

Upper Division Writing Requirement. Passing the University Writing Examination or one of the following courses with a grade of C (2.0) or better: English 304W, History 396W or 430W.

Major. A minimum of 30 upper division units to include Classics 320 and History 500A, 9-12 additional units selected from classics; History 500B, or Philosophy 301; and 12-15 units of Greek.

Minor. A minor in art (history), comparative literature, English, foreign language, history, philosophy, or religious studies is recommended with this major.

Concentration in Latin

Preparation for the Major. Classics 101L-202L, or Classics 250L. (8-10 units.)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major plus one language course in the major.

Upper Division Writing Requirement. Passing the University Writing Examination or one of the following courses with a grade of C (2.0) or better: English 304W, History 396W or 430W.

Major. A minimum of 30 upper division units to include Classics 320 and History 500B; nine units of Latin.

Minor. A minor in art (history), comparative literature, English, foreign language, history, philosophy, or religious studies is recommended with this major.

Concentration in Greek and Latin

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major plus one language course in the major.

Upper Division Writing Requirement. Passing the University Writing Examination or one of the following courses with a grade of C (2.0) or better: English 304W, History 396W or 430W.

Major. A minimum of 30 upper division units to include Classics 320; nine additional units of Latin.

Minor. A minor in art (history), comparative literature, English, foreign language, history, philosophy, or religious studies is recommended with this major.

Classics Major (Concentration In Latin)

For the Single Subject Teaching Credential in Foreign Languages

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

The major may be used by students in teacher education as an undergraduate major for the A.B. degree in liberal arts and sciences.

Preparation for the Major. Classics 101L-202L, or Classics 250L. (8-10 units.)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major plus one language course in the major.

Upper Division Writing Requirement. Passing the University Writing Examination or one of the following courses with a grade of C (2.0) or better: English 304W, History 396W or 430W.

Major. A minimum of 30 upper division units to include Classics 320, 330, 405L, or 496L; nine units from Classics 310, 330, 340, 350, 496C (maximum of 9 units for 496C and 496L), History 500A, or Philosophy 301.

Classical Humanities Minor

The minor in classical humanities consists of a minimum of 15 units, at least 12 of which must be upper division. Lower division units may be selected only from Classics 120, 140, or 256. Six to nine upper division units must be selected from courses in classics (non-language) and three to six units from Anthropology 478, Art 568, History 500A, 500B, Philosophy 301, Religious Studies 310, or Speech Communication 350.

Students should note that some of these upper division courses have lower division prerequisites, but these prerequisites do not constitute requirements per se for completion of the minor.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Classics Minor

The minor in classics consists of a minimum of 15-22 units, 12 of which must be upper division and nine of which must be in Latin or Greek. Three to nine upper division units must be selected from classics (non-language), History 500A, 500B, or Philosophy 301.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences

Students electing the study of Greek or Latin to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Classics 303G or 303L or the equivalent level of achievement. The usual sequence of course work is either Classics 101G, 202G, and 303G, OR Classics 101L, 202L, and 303L. Refer to section of catalog on "Graduation Requirements" for additional ways to satisfy competency.

LOWER DIVISION COURSES

No credit will be given for Classics 101G, 202G, 303G, 304G taken out of sequence.

No credit will be given for Classics 101L, 202L, 303L, 304L taken out of sequence.

101G. Elementary Greek I (5)

Introduction to ancient Greek, emphasizing grammatical foundations of New Testament and Attic prose. Aimed toward rapid comprehension. Not open to students who have completed three years of high school ancient Greek unless the third course was completed five or more years ago. Not open to students with credit in Classics 250G.
101L. Elementary Latin I (5) I
Introduction to Latin, emphasizing grammatical foundations of classical prose. Aimed toward rapid comprehension. Not open to students who have completed three years of high school Latin unless the third course was completed five or more years ago. Not open to students with credit in Classics 250L.

120. English from Latin and Greek (3) I, II
General philology, emphasizing Latin and Greek bases and their English derivatives. Etymology, word analysis and construction, language history and structure. (Formerly titled "Latin and Greek Word Derivation.")

140. The Heritage of Greece and Rome (3) I, II
Greek and Roman art, literature, and institutions as reflected in the Western tradition.

202G. Elementary Greek II (5) II
Prerequisite: Classics 101G.
Continuation of Greek grammar with selections illustrating syntax and style. Not open to students who have completed four years of high school ancient Greek unless the fourth course was completed five or more years ago. Not open to students with credit in Classics 250G.

202L. Elementary Latin II (5) II
Continuation of Latin grammar with selections illustrating syntax and style. Not open to students who have completed four years of high school Latin unless the fourth course was completed five or more years ago. Not open to students with credit in Classics 250L.

250G. Accelerated Elementary Greek (8) S Extension
Intensive one-semester introduction to ancient Greek, emphasizing basic grammar, vocabulary, syntax. Preparation for Classics 303G. Not open to students who have completed three years of high school ancient Greek unless the third course was completed five or more years ago. Not open to students with credit in Classics 101G and 202G.

250L. Accelerated Elementary Latin (8) S Extension
Intensive one-semester introduction to Latin, emphasizing basic grammar, vocabulary, syntax. Preparation for Classics 303L. Not open to students who have completed four years of high school Latin unless the fourth course was completed five or more years ago. Not open to students with credit in Classics 101L and 202L.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

C. Experimental Topics in Classics.
G. Experimental Topics in Greek.
L. Experimental Topics in Latin.

UPPER DIVISION COURSES (Intended for Undergraduates)

303G. Readings in Greek Prose (3) I
Prerequisite: Classics 202G or 250G.
Readings selected from Greek history, philosophy, oratory, and New Testament. Authors may include Xenophon, Plato, Lysias, the Evangelists. Emphasis on rapid reading.

303L. Readings in Latin Prose (3) I
Prerequisite: Classics 202L or 250L.
Readings selected from classical Latin history, philosophy, oratory, letters. Authors may include Sallust, Cicero, Pliny the Younger. Emphasis on rapid reading.

304G. Readings in Greek Poetry (3) II
Prerequisite: Classics 303G.
Readings selected from Greek epic, elegy, tragedy. Authors may include Homer, Sophocles, Euripides.

304L. Readings in Latin Poetry (3) II
Prerequisite: Classics 303L.
Readings selected from classical Latin epic, lyric, elegy, comedy. Authors may include Vergil, Catullus, Ovid, Plautus.

310. Greek and Roman Mythology (3) I, II
Mythological elements in Greek and Roman art, literature, and religion.

320. Classical Literature (3) I
Reading in translation of Greek and Latin masterpieces. Emphasis on epic and prose genres. Authors such as Homer, Herodotus, Plato, Vergil, Apuleius. Literary and historical criticism.

330. Classical Drama (3) II
Reading in translation of Greek and Roman tragedies and comedies. Playwrights such as Aeschylus, Sophocles, Euripides, Aristophanes, Plautus, Seneca. Literary, dramatic, historical criticism.

340. Classical Civilization (3)
Greek and Roman civilization from Bronze Age to Late Empire. Integration of history, philosophy, literature, the arts, and society.

350. Eros and Amor (3)
Reading in translation of Greek and Latin works concerned with love and sexuality. Emphasis on the great literary affaires d'amour as well as common, mythic, and philosophical attitudes. Authors such as Sappho, Euripides, Plato, Catullus, Ovid, Longus. Literary criticism and cultural comparisons.

450L. Advanced Latin (3) I, II
Prerequisite: Classics 304L.
Advanced reading in authors such as Vergil, Cicero, Tacitus, Lucretius; or Latin prose composition. May be repeated with new title and content. Maximum credit six units.

456. Topics in Classical Studies (1-4)
Topics in classical languages, literatures, cultures, and linguistics. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

C. Topics in Classics.
G. Topics in Greek. Advanced reading in an author, genre, or period, or work in linguistics.
L. Topics in Latin. Advanced reading in an author, genre, or period; or work in linguistics.

UPPER DIVISION COURSE (Also Acceptable for Advanced Degrees)

556. Special Study (1-3) I, II
Prerequisite: Consent of major or graduate adviser; to be arranged by department chair and instructor. For 559C: Classics 304G or 304L. For 599G: 304G. For 590L: 304L.
Individual study. Maximum credit six units.

C. Special Study in Classics.
G. Special Study in Greek.
L. Special Study in Latin.
Communicative Disorders
In the College of Human Services

The clinical services area is accredited by the American Speech-Language-Hearing Association.

Faculty
Emeritus: Earnest, Kopp, Pfaff
Chair (Acting): Novak
Professors: Nichols, Riedman, Singh, Thiele
Associate Professors: Allen, Dworkin, Hodson, Jones, Newhoff, Novak
Assistant Professors: Cheng, Christensen, Davies, Gomes, Williams
Lecturers: Fischer, Frank, Launer

Offered by the Department.

Master of Arts degree in communicative disorders.
Minor in communicative disorders.
Certificate in professional services bilingual/bicultural.
Special education specialist credential for the communication handicapped.
Clinical-rehabilitative services credential.

Communicative Disorders Major
With the A.B. Degree in Applied Arts and Sciences.

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with the major.

Preparation for the Major. Passing the SDSU Mathematics Placement Examination; Communicative Disorders 106 and 205; Physics 201; Psychology 101 and 260. (15 units.) Psychology 270 is recommended for students planning to apply for the graduate program in communicative disorders.

Upper Division Writing Requirement. Passing the University Writing Examination or one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in communicative disorders to include Communicative Disorders 320, 321, 322, 340, 341, 531, and eight units of electives selected from Communicative Disorders 358, 401, 422, 423, 458, 530, 539, 543, 547, 550, 551, 552, 553, 554, 555.

Communicative Disorders Minor

The minor in communicative disorders consists of 20 units in communicative disorders to include Communicative Disorders 104, 106, 205, 320, 321, 340*, and one of the following: Communications Disorders 322, 531, or 550. Communicative Disorders 341 is not required for the minor.

Prerequisites for the minor include Physics 201, Psychology 101 and 260. (10 units.) Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

* Prerequisites for this course waived for students in this minor.

Professional Services Bilingual/Bicultural Certificate

The Professional Services Bilingual/Bicultural Certificate in Communicative Disorders is designed primarily for persons who plan to work with bilingual populations in communicative disorders. The certificate program is awarded at the undergraduate level but both undergraduate and graduate students may enroll.

To be a candidate for the certificate, the student must be actively seeking or have completed a credential or degree program in communicative disorders since the certificate is coordinated with these endeavors. Candidates seeking admission to the certificate program must schedule an interview with the department certificate coordinator to ascertain specific requirements and units. They must demonstrate a proficiency in two languages (English is one) and satisfy admission requirements of the University and the department as listed in the General Catalog or Graduate Bulletin. The certificate is limited to those languages for which there is an available clinical population. Consult the certificate coordinator for approved languages.

The certificate program requires completion of a minimum of 24 units of substantive course work and 100 supervised contact hours of practicum. The certificate is competency-based and specific requirements may be waived upon demonstration of competency. Course requirements include Communicative Disorders 571, 572; Linguistics 553; Policy Studies in Language and Cross-Cultural Education 551; six units in cultural awareness and differences; three units in cultural aspects of language; and three units in multicultural education or the bilingual exceptional child. Specific courses are to be selected in conjunction with the certificate coordinator.

Credentials

The Department of Communicative Disorders offers academic and practica course work applicable to two credentials in the Ryan Credential Program. Students desiring to work in the public schools with speech, language, or hearing-impaired pupils may choose the Special Education Specialist Credential for the Communication Handicapped (CH) or the Clinical-Rehabilitative Services Credential (C-RS). Each credential is competency-based, that is, specific competencies have been identified as requirements for areas of specialization by the Commission for Teacher Credentialing. Candidates may satisfy institution requirements, therefore, by either satisfactory completion of required courses or their equivalencies, or by demonstrating equivalent competencies by experience or examination. Candidates may enter the CH or C-RS credential programs at undergraduate or graduate levels.

Each credential has designated areas of specialization. Students wishing to prepare to become Teachers of the Deaf or Deaf-Blind are obligated to meet the requirements of the CH credential.

Students preparing to serve as School Audiologists must follow the C-RS credential program.

Students desiring preparation as itinerant Language, Speech and Hearing Specialists or as Classroom Teachers of Severe Language Handicapped (or Aphasic) (Special Class Authorization) (SCA) pupils may pursue either the CH or C-RS Credential Program.

Special Education Specialist Credential for the Communication Handicapped

The Special Education Specialist Credential for the Communication Handicapped prepares students for an emphasis in one or more of the following areas of handicap:

- Deaf and Severely Hard of Hearing
- Deaf-Blind
- Severa Oral Language (including aphasia)
  (Special Class Authorization) (SCA)
- Speech and Hearing

The Special Education Specialist Credential for the Communication Handicapped specifies a sequence of communicative disorders courses plus a sequence of education courses.

Admission Requirements

1. Formal application to the Department of Communicative Disorders.
2. Interview with a faculty member in the Department of Communicative Disorders.
3. Admission to the program for the Single Subject Credential (Secondary) or Multiple Subjects Credential (Elementary)
4. A basic teaching credential.
   - or -
5. Basic teaching credential.
   - or -
6. Students applying to the program at the postbaccalaureate level must satisfy the admission requirements of the department for classified graduate standing.

Certificate in Professional Services Bilingual/Bicultural

The Certificate in Professional Services Bilingual/Bicultural is designed to prepare professionals to work with bilingual populations in communicative disorders. The certificate program requires completion of a minimum of 24 units of substantive course work and 100 supervised contact hours of practicum. The certificate is competency-based and specific requirements may be waived upon demonstration of competency. Course requirements include Communicative Disorders 571, 572; Linguistics 553; Policy Studies in Language and Cross-Cultural Education 551; six units in cultural awareness and differences; three units in cultural aspects of language; and three units in multicultural education or the bilingual exceptional child. Specific courses are to be selected in conjunction with the certificate coordinator.
Certificates and licensure

Program

Persons interested in the Special Education Specialist Credential shall:

1. Concurrently or prior to completion of the specialist credential, complete the single subject credential (preliminary or clear) or the multiple subjects credential (preliminary or clear). Students may choose to pursue either a or b:

   a. Major in Liberal Studies (offered by the College of Education) in conjunction with specified communicative disorders courses.
   b. Pursue a departmental major; complete specified prerequisites for the College of Education; pass the National Teacher Examination prior to entering the College of Education professional education sequence.

2. Complete a minimum of one year of study, including:

   a. Courses outside of the Department of Communicative Disorders including Psychology 101, 260, 270, Physics 201.
   b. Advanced work in the area of specialization in the Department of Communicative Disorders including:

      2. Additional course work required for the specific area of emphasis within the credential (Severe Oral Language, Deaf, Deaf-Blind, Speech and Hearing), selected by the student in conjunction with an adviser.

3. A postbaccalaureate year (minimum of 30 semester units) is required of all candidates.

   * Additional prerequisites required for this course.

Clinical-Rehabilitative Services Credential

Clinical-Rehabilitative Services (C-RS) Credentials are available in the following areas:

Language, Speech and Hearing (LSH)

Audiology

Severe Language Handicapped/Aphasic (SLH) (Special Class Authorization) (SCA)

A postbaccalaureate year (minimum of 30 semester units) is required of all candidates. The following generic courses within the Department of Communicative Disorders are required:

Communicative Disorders 106, 205, 320, 321, 322, 325 or 357, 340, 341 or 541, 423, 524, 526, 527, 530, 531, 546, and 551. Courses from other departments include: Psychology 101 or Sociology 101, Psychology 210, 260 or Biology 150; Psychology 330 or Family Studies and Consumer Sciences 270; Psychology 340 or Sociology 440 or Family Studies and Consumer Sciences 436, 271 or 576; Physics 201; Special Education 500, 595.

The Advanced Specialization Program in Language, Speech and Hearing (LSH) requires the following additional courses: Communicative Disorders 401, 422, 433, 528, 528L, 529, 552, 553, 562, and 566 (or 546). Courses from other departments include Linguistics 555.

The Severe Language Handicapped (SLH) credential requires the following courses within the department in addition to those required for the LSH credential: Communicative Disorders 325 (SLH class placement), 529, 554, 555, and 433 (SLH class placement). Courses in other departments include Teacher Education 410A, 430A or 431, 437, 635A; Special Education 501.

In addition to the generic program, the Advanced Specialization Program in Audiology requires the following courses within the Department of Communicative Disorders: Communicative Disorders 358, 433 (Audiology class placement), 529, 542, 542L, 543, 547, 550, 552, 553, 600, 644, 649 (Pediatrics), 655 and 656.

   * Additional prerequisites required for this course.
   † See Department Credential Coordinator for options.

Certificates and Licensure

Preparation Leading to the Certificate of Clinical Competence from the American Speech-Language-Hearing Association

Students may complete the academic and clinical practice requirements leading to the Certificate of Clinical Competence in Speech-Language Pathology (CCC-Sp) or to the Certifi-
320. **Phonetics (3)** I, II
Two lectures and three hours of laboratory.
Prerequisite: Communicative Disorders 104.
Auditory, kinesthetic, and visual analysis of the sounds of the English language, including regional and foreign dialect and disordered speech. Competency in IPA. Broad transcription and introduction to narrow transcription.

321. **Anatomy and Physiology of Speech (3)** I, II
Two lectures and three hours of laboratory.
Prerequisite: Biology 150 or Psychology 260. Recommended: Credit or concurrent registration in Communicative Disorders 106.
Anatomy and physiology of the speech-related structures of the head, neck, and thorax. Laboratory exercises and demonstrations using charts, models, histological materials, and cadavers.

322. **Psychological Foundations of Communicative Disorders (3)**
Prerequisites: Communicative Disorders 106; Psychology 101. Recommended: Credit or concurrent registration in Psychology 330.
Conceptual and theoretical bases for understanding communication as a psychological process determined by principles of learning within social contexts. Application of theories of personality, behavior, and cognitive social learning to speech and language development, pathology, assessment, and remediation. For students in all areas of communicative disorders.

325. **Fieldwork in Communication Disorders: School Settings (1-3)** I, II Cr/NC
Two hours for each unit of credit.
Prerequisites: Departmental approval, affidavit for Certificate of Clearance, and credit or concurrent registration in Communicative Disorders 106. Field observation and participation under supervision with small groups or with individuals who have speech, hearing, or language impairment. Maximum credit three units.

340. **Audiometry: Principles (3)**
Prerequisites: Communicative Disorders 205, Physics 201, Psychology 260 and concurrent registration in Communicative Disorders 341.
Anatomy and physiology of the human ear, theories of hearing, transmission, measurement of hearing and medical aspects, pathology, and surgery of the ear. Survey of current audiometric techniques and diagnostic implications of basic test battery.

341. **Techniques of Audiology (1)** I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Communicative Disorders 340.
Field observation should be concurrent with Communicative Disorders 340 to provide laboratory experience with pure tone, speech, and impedance audiometric tests presented in Communicative Disorders 340. Also develops audiologic competencies needed for nurses for the California School Audiologist Certificate. May be repeated to obtain a contact hours in audiometric screening required by the American Speech-Language-Hearing Association and to develop the audiological competencies required by the Clinical-Rehabilitative Services Credential. Maximum credit two units.

357. **Fieldwork with the Deaf (1-2)** I, II Cr/NC
Prerequisite recommended: Communicative Disorders 205.
Field observation and participation under supervision with small groups of hearing impaired youngsters. Maximum combined credit six units for Communicative Disorders 357, 556, and 556.

358. **Manual Communication for the Hearing Impaired (2)** I, II Cr/NC
Prerequisites: Demonstrated professional need and consent of instructor. Recommended: Communicative Disorders 106 or 205. Credit or concurrent registration in Communicative Disorders 357.
Structure, vocabulary, and syntax of manual communication including the development of competencies in manual communication and in the use of manual communication as a method of teaching the hearing impaired.

401. **Voice Disorders (3)**
Two lectures and three hours of laboratory.
Prerequisite: Communicative Disorders 321.
Theory and practice in the remediation of voice problems. Perceptual training and measurement of vocal dimensions.

422. **Remediation for Fluency Disorders in School-Aged Children (2)**
Prerequisite: Communicative Disorders 322.
Theoretical and phenomenological understanding of stammering as a communicative disorder; explanations for learning of disfluency behaviors, and applied techniques involved in rehabilitation of school-aged children with disfluent speech.

423. **Organic Communicative Disorders (3)**
Prerequisites: Communicative Disorders 320, 321, 340, 341, and 531; competency examination.
Survey of cleft palate, cerebral palsy, and neuromotor disorders, adult aphasia, autism, and neurologically based language disorders in children. Includes etiological factors, speech, language, and related symptomatology, as well as speech and language evaluation and therapy procedures. (Formerly numbered Communicative Disorders 323.)

425. **Fieldwork in Communicative Disorders: Community Centers (1-3) Cr/NC**
Two hours for each unit of credit.
Prerequisites: Departmental approval, Communicative Disorders 325.
Field observation and participation under supervision with small groups or with individuals who have speech, hearing, or language impairments. Hospital and community agency settings.

433. **Clinical Practice in Public Schools (4 or 5)** I, II Cr/NC
Prerequisites: Communicative Disorders 529, four units of practice; postbaccalaureate standing; California Basic Education Skills Test; Certificate of Clearance; departmental approval prior to admission.
Clinical practice in elementary or secondary schools or community colleges in speech-language pathology or audiology. Applies only toward the Clinical-Rehabilitative Services Credential (C-RS) or for the Certificate of Clinical Competency in Speech-Language Pathology (ASHA). Applies to section A for the Language, Speech, and Hearing Credential (LSH). Candidates seeking the Special Class Authorization or Severe Language Handicap (SLH) Credential must enroll in both sections A and B, sequentially or concurrently.
A. Clinical Practice in the Public Schools: Language, Speech and Hearing, 4 units (120 clock hours).
B. Clinical Practice in the Public Schools: Severe Language Handicap, 5 units (150 clock hours).

453. **Directed Internship: Communication Handicapped (1-4)** I, II Cr/NC
Prerequisites: Two units of Communicative Disorders 556 and one unit of Communicative Disorders 556 or Communicative Disorders 529 and four units of Communicative Disorders 526, 546, 626, 646. Basic teaching credential. Prior to admission applicants must receive departmental approval. Application to take course should be made during preceding semester.
Teaching in public school with exceptional individuals. Applies to the Special Education Specialist Credential for the Communication Handicapped (Deaf, Deaf-Blind, Speech and Hearing Impaired or Severe Oral Language) and Certificate of Clinical Competence in Speech-Language Pathology or Professional Certificate from the Council on Education of the Deaf. Applicants should consult with coordinator of Speech-Language Pathology or Coordinator of Hearing Impaired for specific hour requirements. (Formerly numbered Special Education 480.)

458. **Total Communication Laboratory (1)**
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Communicative Disorders 458.
Laboratory experience to develop receptive and expressive total communication skills. Maximum credit two units.
496. Topics in Communicative Disorders (1-3) I, II
Study of some problem in communicative disorders. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

524. Clinical Procedures in Communicative Disorders (3) I, II
Prerequisites: Communicative Disorders 322, 423, 552, 553.
Remediation models and clinical approaches, procedures, and techniques. Integration of theoretical information and clinical applications. (Formerly numbered Communicative Disorders 524.)

526. Clinical Practice in Speech-Language Pathology (1) I, II, S
Three hours of laboratory.
Prerequisites: Communicative Disorders 325 or documented 25 hours of observation, 524.
Admission is based on passage of a competency examination prior to enrollment and departmental approval. Supervised practice with representative speech and language problems. Up to three units may be taken concurrently; maximum credit three units. One unit represents 26 hours of direct clinical practice. Qualified transfer students must enroll in at least one unit of 526 prior to 552. (Formerly numbered Communicative Disorders 326.)

527. Diagnostic Methods in Speech-Language Pathology (3) I, II
Prerequisites: Communicative Disorders 423, 552, 553. Credit or concurrent registration in Communicative Disorders 524.
Principles and procedures in assessing communicative disorders in children and adults: includes case histories, testing, materials, interviewing, clinical reporting and practice with selected assessment tools. Twelve hours of observation of diagnostic practice required.

528. Diagnostic Practicum in Speech-Language Pathology (1) I, II, S
One lecture and six hours of supervision.
Prerequisite: Communicative Disorders 527 and passage of a competency examination. Supervised clinical practice in diagnostic methods.

528L. Diagnostic Practicum in Communicative Disorders: Multidisciplinary Assessment (2) I, II
Four hours of activity.
Prerequisites: Communicative Disorders 527 and concurrent registration in 528.
Participation in Central Intake process of SDSU Clinical Training Center, including diagnostic team assessments and staffings.

529. Orientation to Public School Practicum (3)
Prerequisites: Communicative Disorders 524 and 527. Minimum of 50 hours of supervised clinical practicum, plus departmental approval. Recommended: Credit or concurrent registration in Communicative Disorders 526, 546, 626 or 646.
Goals, materials and procedures for organizing and administering speech, language and hearing programs in the school. Fifteen hours of observation and fifteen hours of screening required. Should be taken the semester before Communicative Disorders 433 or 453.

530. Family Communication Dynamics (3)
Prerequisites: Communicative Disorders 322 and 526.
The communication environment in the home. Parent-child interaction in relation to the origin and alleviation of functional and organic speech disorders.

531. Language Structure (3)
Prerequisite: Communicative Disorders 106.
Systematic study of the design features of language as they relate to communication behavior. The primary focus is the role of language structure in disordered communication.

539. Neuropathologies of Speech, Hearing and Language (3) II
Prerequisites: Communicative Disorders 321 and 340. Recommended: Communicative Disorders 423.
Research and theory concerning the nature, etiologies and principles of treatment of disorders of speech, hearing and language resulting from pathologies of the nervous system.

540. Hearing Conservation and Audiology for School Nurses (3)
Prerequisite: Registered nurse.
Builds on registered nurse's knowledge of anatomy, physiology, and medical-surgical treatment of disease as it relates to auditory mechanism. Designed to give background in hearing screening (pure tone and impedance) and awareness of ramifications of hearing loss in children necessary for referral and follow-up. Fulfills three-unit requirement for the School Nurse Credential and may be used toward the six-unit State Audiology Certificate requirement. Not open to students with credit in Communicative Disorders 205, 340, 341.

542. Audiology: Application (3)
Prerequisites: Communicative Disorders 341 and concurrent registration in 542L.
Pure tone and speech audiometry; masking, impedance audiometry: tests for nonorganic and for sensorineural hearing loss; reporting test results; audiometer calibration. (Formerly numbered Communicative Disorders 342.)

542L. Audiology: Laboratory (1)
Prerequisites: Communicative Disorders 341 and concurrent registration in 542.
Laboratory experience in administering audiometric test batteries and in calibrating audiometric equipment. (Formerly numbered Communicative Disorders 342.)

543. Hearing Amplification (1 or 3) I
Prerequisites: Module I: Communicative Disorders 340. Module II: Communicative Disorders 542.
Module I includes hearing aid components, functions, trouble shooting and client orientation to amplification (1 unit). Module II includes hearing aid evaluations, fittings, and electroacoustical hearing aid analysis (2 units). Students may elect Module I (1 unit) or Modules I and II (3 units).

545. Clinical Practice in Audioligic Assessment (1) I, II, S
Three hours of laboratory.
Prerequisite: Communicative Disorders 542.
Supervised practicum with pure tone, speech, and special audiologic testing and with hearing aid evaluation. One unit represents two hours of clinical contact and one hour of staffing per week. Up to three units may be taken concurrently; maximum credit three units. (Formerly numbered Communicative Disorders 346.)

546. Clinical Practice with Hard of Hearing (1) I, II, S
Three hours of laboratory.
Prerequisites: Communicative Disorders 526, 551. Recommended: Communicative Disorders 543, Module I; 552 and 553. Supervised clinical practicum in aural habilitation with hard of hearing clients. One unit represents two hours of clinical contact and one hour of staffing per week. Up to three units may be taken concurrently; maximum credit three units. (Formerly numbered Communicative Disorders 345.)

547. Hearing Conservation (2-3) II
Prerequisite: Communicative Disorders 341.
Module I: Core information (noise measurement, analysis, reduction, its effect on hearing conservation); application to school hearing conservation programs. (2 units.)
Module II: Damage risk criteria and methods of hearing protection, application of core information to industrial settings. (1 unit.) Students may elect Module I (2 units) or Modules I and II (3 units).

550. Problems of Deafness (3) II
Educational programs, services and resources for hearing impaired, historical background, philosophy, sociological and psychological problems.
551. Speech Reading and Auditory Training (3)
Prerequisites: Communicative Disorders 320 and 340; competency examination. Recommended: Communicative Disorders 357, 353, and 553.
Theory and methods of speech reading; auditory rehabilitation methods including survey of amplification systems. Fifteen hours of observation in program for deaf, severely hard of hearing.

552. Articulation Disorders and Methods (3) II
Prerequisites: Communicative Disorders 320, 321, 340, 351.
Significant theories and research in prevention and remediation of articulatory disorders. Includes emphasis on speech habilitation of hearing impaired, cognitive and motor processing.

553. Language Disorders and Methods (3) I, II
Prerequisites: Communicative Disorders 320, 321, 340, 353.
Theories and research in language acquisition and language disorders. Assessment of, and intervention with, language impaired children, including hearing impaired individuals.

554. Communicatively Handicapped Child in the School (1) II
Each section meets three hours weekly for five weeks. Additional observations arranged.
Prerequisites: Communicative Disorders 506 and postbaccalaureate status.
Assessment and remediation procedures for communicatively handicapped children in school. Each one-unit section focuses on a particular aspect. For students planning to be itinerant speech-language pathologists working with resource teachers serving Language Learning Disabled Child (LLD) and child with multiple problems or for candidates working toward special class authorization for language impaired pupils. Students may enroll for more than one section. Candidates for Clinical-Rehabilitative Services (C-RS) Severe Language Handicapped (SLH) Credential and Special Education Specialist Credential for Communicatively Handicapped; Severe Oral Language Classroom option must enroll for all three sections. Sections should be taken in sequential order.
A. Language Learning Disabled Child
B. Sensory Motor Integration
C. Communicatively Handicapped Child in the Special Day Class

555. Curriculum for the Communicatively Handicapped (3)
Prerequisites: Communicative Disorders 526 or 556, and 552 and 553.
Application of cognitive processing theory to the development and evaluation of curriculum, materials, and procedures; selection of learning modalities and appropriate modification of curriculum. (Formerly numbered Special Education 575.)

556. Clinical Practice with the Deaf (1) I, II, S
Three hours of laboratory.
Prerequisites: Communicative Disorders 357, 358; credit in two of the following and concurrent registration in the third: Communicative Disorders 551, 552, 553. Admission to clinical practicum includes successful completion of competency examination. Supervised therapy with representative problems found in the hearing impaired population. Maximum one unit first semester; maximum credit two units. (Formerly numbered Communicative Disorders 556.)

558. Advanced Sign Language (2) I, II
Prerequisite: Communicative Disorders 459.
Theory of sign language for the classroom interpreter. Emphasis on conceptual sign, signed idioms and appropriate usage for the academic setting.

560. Motor Speech Disorders (3) I
Prerequisite: Communicative Disorders 539.
Dysarthrias and apraxia of speech. Techniques of differential diagnosis and treatment of these motor speech disorders.

565. Nonvocal Communication for Disabled (3) II
Prerequisites: Communicative Disorders 526 or 556 and 531 or 12 units of upper division course work in major and approval of instructor.
Communication needs of severely physically impaired. Nonvocal communication approaches and assistive devices. Criteria for assessing communication needs and competencies, selecting and evaluating appropriate systems. Project required.

566. Spanish and Sign Language (2)
Prerequisite: Demonstrate competence at the intermediate level in either Spanish or sign language.
Rudiments of sign language taught to Spanish speakers and the basics of Spanish to users of sign language. Emphasis on communication needs within health care setting, public school setting and informal social setting.

571. Assessing the Bilingual Child with Communicative Disorders (3)
Prerequisites: Communicative Disorders 531 and Linguistics 553.
Assessment procedures applicable for bilingual child with communicative disorders. Consideration of available instruments, appropriateness for target populations and validity of adaptations.

572. Remediation of Communicative Disorders in the Bilingual Population (3)
Prerequisite: Communicative Disorders 571.
Intervention strategies and procedures for bilingual individual with communicative disorders. Selection criteria, factors influencing planning, program models and specific procedures for different ethnic groups and types of communicative disorders.

580. Communication Problems of the Aging (3)
Prerequisites: Twelve upper division units in major.
Normal communication processes and aging, including memory and cognition for speech and language, and physiological changes; speech and language pathologies, hearing problems and rehabilitation, including hearing aids, psychosocial aspects of communication, including family dynamics; and resources available within the community Open to majors and nonmajors.

596. Selected Topics in Communicative Disorders and Science (1-4) I, II, S
Prerequisite: Twelve units in communicative disorders and science courses.
Specialized study of selected topics from the area of speech-language pathology, audiology, education of the hearing impaired, and speech and hearing science. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units. Maximum credit three units applicable to a master's degree.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Comparative Literature

In the College of Arts and Letters

Faculty
Faculty assigned to teach courses in comparative literature are drawn from departments in the College of Arts and Letters.

Offered by Department of English and Comparative Literature
Major in comparative literature with the A.B. degree in liberal arts and sciences. Teaching majors in comparative literature for single subject teaching credential in English.

Minor in comparative literature.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Comparative Literature Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." No more than 48 units in comparative literature and English courses can apply to the degree.

A minor is not required with this major.

Preparation for the Major
Any two lower division courses in comparative literature.

Foreign Language Requirement
Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement
Passing the University Writing Examination or English 500W, 508W, 581W with a grade of C (2.0) or better.

Major
A minimum of 24 upper division units in comparative literature courses or one of the following alternatives: (1) 18 units in comparative literature and six units in a foreign language literature (recommended for students who expect to do graduate work in comparative literature); or (2) 18 units in comparative literature and six units in English language literature, comprised of upper division courses in either British or American literature.

Comparative Literature Minor
For the Single Subject Teaching Credential in English
For a description of the single subject teaching credential in English with a major in comparative literature, refer to this section of the catalog under English.

Comparative Literature Minor
The minor in comparative literature consists of a minimum of 15 units in comparative literature, 12 units of which must be in upper division courses. The three lower division units must be either in Comparative Literature 210 or in a course preparatory to the student's interest area. The 12 units of upper division work must be selected, with adviser's approval, from within one of the following interest areas:

European: Comparative Literature 406, 510, 511, 512, 513, 514, 526;
Asian and Third World: Comparative Literature 430, 440, 445, 526;
Literary Theory, Criticism and Genres: Comparative Literature 560, 561, 562, 563, 580, 581;
Literature and Society: When appropriate, Comparative Literature 470, 490, 495, 500, 561, 562, 563, 571, 580.

In addition the following variable content courses may be used in any of the above categories when they are appropriate: Comparative Literature 470, 490, 495, 550, 561, 562, 563, 571, 577, 580, 581.

The comparative literature minor is not available to students majoring in English. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES
Since all reading assigned for classes in comparative literature is in English, knowledge of a foreign language is not required.

200. Topics In Comparative Literature (3) I, II
An introduction to the subject matter of comparative studies in literature. Focus on a specific movement, theme, figure, genre, etc. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

210. Introduction to Comparative Literature (3) Cr/NC
Introductory study of comparative literature, its current status, its historical development, range of comparative approaches. Generally includes guest presentations by various members of the comparative literature faculty. Recommended for majors in comparative literature.

270A-270B. World Literature (3-3) I, II
Comparative study of selected major works from various continents and cultures, with emphasis on the way literature deals with enduring human problems and values. Semester I: prior to 1500; Semester II: since 1500. 270A is not a prerequisite to 270B, and either may be taken separately.

UPPER DIVISION COURSES
(intended for Undergraduates)

405. The Bible as Literature (3) I, II
Same course as English 405. Prose and poetry of the King James version. (Formerly numbered Comparative Literature 505.)

430. Asian Literature (3)
Selections from the literature of Asia: Chinese, Japanese, Indian, etc. Topic to be announced in Class Schedule. May be repeated with new title and content. Maximum credit six units of which three units may be applicable to General Education.

440. African Literature (3)
Comparative study of African literature as well as Black literature of North and South America and the Caribbean; intercontinental influences and the theme of Black identity.

445. Modern Latin American Literature (3) I, II
Reading selections from major Latin American authors.

470. Folk Literature (3)
Studies in the ballad, bardic poetry, oral and popular literature and folklore. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units of which three units may be applicable to General Education.

490. Literary Movements (3)
A movement or theme in world literature—such as symbolism, realism, existentialism, alienation, or revolution. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

495. Literature and Other Disciplines (3) Cr/NC
Comparative study of relationship between literature and another field, such as philosophy, psychology, political science, or sociology. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

499. Special Study (1-3) I, II Cr/NC
Prerequisites: Consent of instructor and approval of department chair. Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

510. Medieval Literature (3)
Representative selections from authors of the Middle Ages.
511. Continental Renaissance (3)
Representative selections from authors of the Renaissance period in continental Europe.

512. Seventeenth and Eighteenth Century European Literature (3)
Selected works by European writers prior to 1800.

513. Nineteenth Century European Literature (3)
Selected works by European writers between 1800 and 1900.

514. Modern European Literature (3)
Selected works by European writers of the twentieth century.

526. Modern Jewish Literature (3) I, II
Selected works by Jewish authors from the last half of the nineteenth century to the present, with emphasis on the United States and Israel.

550. Seminar (3)
An intensive study of a topic to be selected by the instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

560. The Epic (3)
Selected epic poems from world literature; emphasizes the Western epic tradition from Homer to the present. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units applicable on a master's degree.

561. Fiction (3)
A comparative approach to themes and forms in fiction (novel and short story). Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units applicable on a master's degree.

562. Drama (3)
Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units applicable on a master's degree.

563. Poetry (3)
A comparative approach to themes and forms in poetry. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units applicable on a master's degree.

571. Literary Use of Legend (3)
Literary treatment of such legendary figures as Don Juan, Faust, and Ulysses, in a wide range of literature and genres. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

577. Major Individual Authors (3)
In-depth study of the works of a major author, such as Sophocles, Dante, Cervantes, Goethe, Dostoevsky, or Proust. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

580. Concepts in Comparative Studies (3)
Basic concepts in comparative studies in literature (e.g., influence, movement, figure, genre, etc.); their validity, usefulness and limitations. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

581. Literary Uses of Languages (3)
Study of the functions of language in literary writings. May take the form of translation workshop, stylistic studies, etc. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

595. Literature and Other Arts (3)
Prerequisite: Six lower division units in English, comparative literature or the arts. Comparative study of literature and such arts as painting, sculpture, architecture, music, dance and film. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

Criminal Justice Administration

In the School of Public Administration and Urban Studies
In the College of Professional Studies and Fine Arts

Faculty
Professor: Gitchoff
Associate Professors: Boostrom, Henderson, Sutton

Offered by the School of Public Administration and Urban Studies
Major in criminal justice administration with the B.S. degree in applied arts and sciences.

Criminal Justice Administration Major

With the B.S. Degree In Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements in the section of this catalog on "Graduation Requirements."

A minor is not required with this major.

Preparation for the Major. Criminal Justice Administration 200, Political Science 102, Sociology 101 and 110, and a three-unit course in elementary statistics (e.g., Sociology 201, Mathematics 250). (15 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Public Administration 301, Criminal Justice Administration 301, 497 or 498, 540; six units (in addition to Public Administration 301) selected from all upper division Public Administration courses; and 18 additional upper division units selected with the approval of a department adviser. Within this program students may focus their study in areas such as law, law enforcement administration, court administration, correctional administration, juvenile justice administration, and deviance and social control.

Interested students must seek guidance from a faculty adviser (may be any of the full-time faculty listed above) in selecting appropriate courses. A master plan for courses in the major must be approved by a faculty adviser and filed with the Evaluations Office at least one semester before graduation. It is recommended that the student complete a preliminary master plan of courses as soon as possible after declaring the major.

LOWER DIVISION COURSE

200. Introduction to Criminal Justice Administration (3) I, II
Survey of the structure, functions and problems of criminal justice while preserving individual freedoms in a democratic society.

UPPER DIVISION COURSE

(5 Units)

301. Social Control, Social Policy and Administration of Justice (3) I, II
Prerequisite: Criminal Justice Administration 200; Interrelationship of social control, social policy and administration of criminal justice in contemporary America.

310. Law Enforcement Administration (3)
Administrative relationships within the criminal justice process with special reference to problems of courts and police and probation agencies.

320. The Administration of Criminal Law (3)
Prerequisite: Criminal Justice Administration 301. Constitutional law principles as implemented in criminal courts with emphasis on critical analysis of factual situations and the argument of legal issues in criminal cases from both defense and prosecution perspectives.
321. Juvenile Justice Administration (3)
Prerequisite: Criminal Justice Administration 301.
Assessment of the structure and functions of agencies and institutions which comprise the
juvenile justice system in America; evolution of policies and programs for prevention of delin-
quency and treatment of the juvenile offender.

330. Contemporary Correctional Administration (3)
Prerequisite: Criminal Justice Administration 301.
Contemporary policies and practices of local, state and federal correctional agencies; the
influence of reform movements, and the interrelationship of corrections with other criminal
justice system components.

333. Judicial Administration (3)
Prerequisites: Criminal Justice Administration 301 and Public Administration 301.
Review of significant developments at the state and federal levels, including court unifica-
tion and financing, leadership, congestion, training, selection, tenure, discipline, removal and
retirement of court-related personnel; and technological applications.

496. Selected Topics In Criminal Justice Administration (1-3)
Selected current topics in criminal justice administration. See Class Schedule for specific
content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a
bachelor’s degree. Maximum credit six units. (Formerly numbered Criminal Justice Administra-
tion 495.)

497. Investigation and Report (3) I, II Cr/NC
Prerequisites: Consent of instructor and senior standing.
Analysis of special topics.

498. Internship In Criminal Justice Administration (2-6) I, II Cr/NC
Prerequisite: Consent of instructor.
Students are assigned to various government agencies and work under joint supervision of
agency heads and the course instructor. Participation in staff and internship conferences.

499. Special Study (1-3) I, II Cr/NC
Prerequisites: Twelve units of upper division criminal justice administration and consent of
instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

502. Juvenile Deviance and the Administration Process (3)
Prerequisite: Criminal Justice Administration 321
Problems of implementing and evaluating policies and programs for prevention of juvenile
delinquency and treatment of juvenile offenders; an assessment of the proposed standards and
goals for juvenile justice administration.

510. Contemporary Issues In Law Enforcement Administration (3)
Prerequisite: Criminal Justice Administration 310
Assessment of problems confronting administrators of law enforcement agencies and of
recent efforts to enhance the capability of agencies to control criminal activity while guarding
individual liberties.

520. Prosecutorial Function In Administration of Justice (3)
Prerequisite: Criminal Justice Administration 301
Analysis of prosecutor’s function at local, state and federal levels and in selected foreign
nations, including appraisal of proposed national standards and goals for prosecutors.

531. Probation and Parole (3)
Prerequisite: Criminal Justice Administration 330
Basic concepts, history, legislation, and practices used in work with juveniles and adults
who have been placed on probation or parole; criteria of selection, methods of supervision, and
elements of case reporting.
Drama

In the College of Professional Studies and Fine Arts

The Department of Drama is a Member of the National Association of Schools of Theatre.

Faculty
Emeritus: Howard, Povenmire, Powell, Sellman
Chair (Acting): McKerrow
Professors: Ambler, Annas, Harvey, M., Lessley, McKerrow, Owen, Salzer, Stephenson
Associate Professors: Childs, Fields, Harvey, A.C.
Assistant Professors: Bellingerie, Christian, Reid

Offered by the Department
Master of Arts degree in drama.
Master of Fine Arts degree in drama.
Major in drama with the A.B. degree in applied arts and sciences.

Emphasis in Acting
Emphasis in children’s drama.
Emphasis in design for drama.
Emphasis in design for television.
Emphasis in directing.

Teaching major in drama for the single subject teaching credential in English.
Minor in drama.

Drama Major

With the A.B. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

General

Preparation for the Major. Drama 105, 110, 120, 130, 231, 240, and 250. (21 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W with a grade of C (2.0) or better.

Major. A minimum of 41 upper division units in drama to include Drama 420, 440, 442, 452, 457, 458 or 459, 460A-460B, 480, 545A, 545C, 552, 560 (one unit taken each semester up to maximum of three units), and either 448, 458, 459, or 554.

Emphasis in Design for Drama

Preparation for the Major. Drama 105, 110, 120, 130, 231, 240, and 250. (21 units)

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W with a grade of C (2.0) or better.

Major. A minimum of 43 upper division units in drama to include Drama 420, 440, 442 (eight units of Drama 442 must be taken prior to graduation), 452, 457, 458 or 459, 460A-460B, 480, 545A, 552, 560 (one unit taken each semester up to maximum of three units), and either 448, 458, 459, or 554.

Emphasis in Design for Television

Preparation for the Major. Drama 105, 120, 240, 250, Telecommunications and Film 120, 122, 123, and 260 or 280. (Prerequisites for Telecommunications and Film 260 and 280 are waived for students in this emphasis.) (24 units.)

Major. A minimum of 43 upper division units in drama to include Drama 440, 442, 444 (eight units of Drama 442 must be taken prior to graduation), 448, 452, 457, 458, 460A-460B, 480, 545A, 545B, Telecommunications and Film 315, 401, 550A, and either Drama 546 or three units of Telecommunications and Film 499 or 550B.

Emphasis in Directing

Preparation for the Major. Drama 105, 110, 120, 130, 231, 240, and 250. (21 units)

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W or 500W with a grade of C (2.0) or better.

Major. A minimum of 50 upper division units in drama to include Drama 420, 431, 434, 440, 442 (eight units of Drama 442 must be taken prior to graduation), 452, 457, 459, 460A-460B, 532, 533A, 545A, 552, and either 351, 515, or 551.

Drama Minor

For the Single Subject Teaching Credential in English

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

This major may be used by students in teacher education as an undergraduate major for the A.B. degree in applied arts and sciences.

Preparation for the Major. Drama 105, 110, 120, 130, 231, 240, 250. (21 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W or 500W with a grade of C (2.0) or better.

Major. A minimum of 31 upper division units to include Drama 440, 442, 452, 457, 458, 460A-460B (eight units of Drama 442 must be taken prior to graduation), 448, 459, 460A-460B, 480, 545A.

Credentia l requirements. A minimum of 21 units as follows: English 101, 200, 250A or 250B; three units selected from English 260A, 260B, 560A, 560B, three units selected from English 500W, 509B, three units selected from English 527, 533, 541A, 541B, 546, and three units selected from Linguistics 410, 520, 524.

Drama Minor

The following courses are prerequisite to the drama minor and do not count toward the 24 units required for the minor. Drama 105, 110 and 120 (9 units).

The minor in drama consists of a minimum of 24 units in drama to include Drama 130, 231, 240, 250, 420, 457, 458 or 459, and 460A or 460B.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major or the general education requirements, if applicable.
LOWER DIVISION COURSES

105. Introduction to the Theatre (3) I, II
Theory and practice in the theatre, including its literary, critical, technical and artistic aspects viewed against historical backgrounds. Students required to participate in a minimum of five hours of related theatre experience.

110. Voice and Diction for the Theatre (3) I, II
Prerequisite: Drama 105.
Exercises and drills to improve the quality, flexibility and effectiveness of the speaking voice leading to good usage in standard American speech. Preparatory to further courses in drama.

120. Dramatic Heritage (3) I
Survey of dramatic literature from classical to the modern period, including classical, medieval, Renaissance, Restoration, neoclassical, romantic, realistic and modern plays.

130. Elementary Acting (3) I, II
Prerequisite: Drama 110.
Practical experience during in-classroom experience, students will participate in 24 hours of related activity.

231. Intermediate Acting (3) I, II
Two lectures and two hours of activity.
Prerequisite: Drama 130.
Continuation of Drama 130, emphasizing application of fundamental skills to problems of emotion, timing, characterization, and ensemble acting.

232. Movement and Mime for the Theatre (3) I
Two lectures and three hours of laboratory.
Prerequisite: Drama 105.
Introduction to mime. The relationship between body expression and character portrayal.

240. Dramatic Production (3) I, II
Two lectures and three hours of labor#
Prerequisite: Drama 165.
Technical practice in organization of production for theatre and television. Practice in drafting and construction of scenery for the college productions.

250. Elementary Stage Costume and Makeup (3) I, II
Two lecture-demonstrations and three hours of laboratory.
Prerequisite: Drama 105.
Basic theories, techniques, and procedures of costume production and makeup application for stage, film, and television. Practical training in the construction of stage costumes and application of makeup for departmental productions. One building or running crew required.

255. Children's Theatre (3) I

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

301. Management of Drama Activities (1) I, II
Three hours.
Planning, preparation, management and supervision of drama tournamnets, festivals and other interscholastic and intrascholastic activities under the supervision of the drama staff. Maximum credit two units.

310. Creative Drama (3) I, II
Principles and techniques of creative drama with children, young adults, adults and senior citizens, in classroom, theatre work, in conjunction with therapeutic programs, or for recreation activity. Development of individual mentally, emotionally and socially through use of dramatic play, improvisation, theatre games.

320. Speaking the Classic Theatre (3) I, II
Prerequisites: Drama 110, 231.
Techniques of vocal expression in the theatre, primarily in Shakespeare and classical drama. Emphasis on individualized instruction and vocal problem solving.

325. Dramatic Works: Production Laboratory (3) Cr/NC I, II
Nine hours of laboratory.
Staging of full-length plays in traditional and experimental productions. Maximum credit six units.

328A-328B. Musical Theatre Touring Company (3-3) I, II Cr/NC
Six hours of activity.
Production of musical theatre performances in a touring group. Practical experience through performances to community organizations, schools in Southern California area.

329A-329B. Children's Theatre Workshop (3-3) Cr/NC
Six hours of activity.
Prerequisites: Drama 255 and consent of instructor.
Production of plays for child audiences, with emphasis on elementary and junior high levels. Practical experience through participation in university-sponsored productions.

330. Accents and Dialects for the Stage (3) II
Prerequisite: Drama 130.
Various accents and dialects most frequently occurring in stage productions.

350. Acting Studies in the Musical Theatre Repertoire (3) I
Two lectures and two hours of activity.
Prerequisite: Admission by audition only.
Basic performance techniques for actor-singer-dancer in musical theatre production. Application of acting theory to musical literature: soliloquy, recitative, duet. (Formerly numbered Drama 327.)

351. Song Analysis and Scene Repertoire for Musical Theatre (3) II
Prerequisite: Drama 350.
Vocal selections and scenes in musical theatre. Significance of dramatic placement in libretto, characterization requirements, and appropriate performance styles for repertoire development. (Formerly numbered Drama 326.)

420. Play Analysis (3) I, II
Prerequisites: Drama 105 and 120.
Production of plays for children. Theatrical design, scenic, cutting, lighting, and technical production. (Formerly numbered Drama 220.)

431. Workshop in Improvisational Acting (3) I
Prerequisite: Drama 231.
Theories and principles of improvisational acting.

434. Audition Techniques for the Actor (3) II
Two lectures and two hours of activity.
Prerequisite: Drama 231.
Techniques of auditioning and interviewing in the theatre: selecting audition piece, rehearsing, and performing auditions. Instruction in preparing resumes and photographs for profession.

440. Scenic Design (3) I
Prerequisite: Drama 240.
Techniques and procedures in the application of principles of design, color and perspective in the designing and painting of scenery for various types of productions for stage, television and cinema.
499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

498. Advanced Study of Drama (3) I, II
Advanced study of drama. May be repeated with new content. Maximum credit twelve units.

511. Styles in Creative Drama (3) I, II
Prerequisite: Drama 310. Advanced techniques and procedures in the teaching of creative drama. Lectures and readings on the application of creative drama with emphasis on the different styles of creative drama available to the practitioner. Practical experience through work with children.

515. Directing for Children's Theatre (3) I, II
Prerequisite: Drama 255. Staging and technical problems relative to the production of plays for children; casting procedures, blocking and characterization principles, rehearsal and scenic techniques. Practical experience through university-sponsored productions.

520. History of Musical Theatre (3) I
Prerequisite: Drama 460A. Musical theatre from early Viennese operettas to musicals of modern times; representative works.

532. Advanced Acting and Directing (3) I
Prerequisite: Drama 231. Acting students admitted by audition only; directing students by interview. Problems in characterization in contemporary drama, and in plays of Ibsen, Strindberg, Chekhov and Shaw. (Formerly numbered Drama 432.)

533A-533B. Theory and Styles in Acting and Directing (3-3)
Prerequisite: Drama 231. Acting and directing problems in theory and style related to the production of plays from great periods in theatre history, with attention to characterization, dramatic values, directing and production approaches. Semester I: Shakespearean tragedy and history. Semester II: Greek tragedy, Shakespearean comedy.

540. Style in Scenic Design (3) II
Prerequisite: Drama 440. History of scenic design and the application of contemporary styles to various types of dramatic production for stage, television and cinema.

545A-545B. Stage Lighting (3-3) I, II
Two lectures and three hours of laboratory. Prerequisite: Credit or concurrent registration in Drama 545B. Light, color, lighting instruments, and control equipment, including the design and planning of lighting for plays.

546. Computer Systems and Special Effects Techniques in Stage and Television Lighting (3)
Two lectures and three hours of laboratory. Prerequisite: Credit or concurrent registration in Drama 545B. Functional study of computer systems in stage and television lighting with emphasis on realizing effective methods of using such systems in production.

551. Costume, Movement, and Manners (3) I
Prerequisite: Drama 250. The interrelationship of period costumes and the movement and manners of the time, and their application on the stage.

552. Costume History and Design for the Theatre (3) I, II
Prerequisites: Drama 452. A continuation of Drama 452 to include chronological study of clothing and theatrical dress from earliest times to the present, with practical applications in terms of contemporary costume design for the theatre. Egyptian through Cavalier periods. Elements and principles of costume design.

560A-560B. History of the Theatre (3-3) I, II
The theatre from primitive times to the present. Special attention will be given to the theatre as a mirror of the social and cultural background of the various countries and periods in which it is studied. Drama 560B may be taken without 560A.

572. Costume Management and Promotion (3) II
Prerequisites: Drama 255, 445. Dietary management and promotion of costume business. Marketing activities for the theatre. Costumer relations, sales techniques, exhibition, promotion, and public relations.

584. Methods and Materials of Instruction (2) I
Professional preparation emphasizing organization and practices in the teaching of Dramatic Arts.

599. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.
555. Musical Theatre Dance Repertory (2) I
Four hours of activity.
Prerequisite: Drama 350.
Musical theatre dance repertory styles and forms for the actor-singer-dancer-director as they pertain to arranged composition of a musical theatre production.

559. Musical Theatre Stage Direction (3) II
One lecture and four hours of activity.
Prerequisite: Drama 459.
Experience and group evaluation in performance and direction of musical theatre scenes; attendance at musical theatre performances and other selected musical presentations. Problems confronting a musical theatre stage director.

560. Rendering for Theatrical Designer (1) I, II
Prerequisites: Drama 250, 440.
Development of skills necessary for theatrical designer to complete successful set and costume renderings. Techniques, media, and portfolio presentation. Maximum credit three units.

596. Selected Topics in Drama (1-3) I, II
Prerequisite: Twelve units in drama.
A specialized study of selected topics from the areas of drama. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

---

Economics

In the College of Arts and Letters

Faculty
Emeritus: Anderson, Chadwick, McClintic, Tumer
Chair: Barckley
Professors: Babilot, Barckley, Clement, Flagg, Gifford, Jencks, Kartman, Leasure, Madhavan, Nam, Neuner, Popp, Poroy, Sebold, Venieris
Associate Professors: Boddy, Frantz, Green, Grossbard-S, Stewart, Thayer
Assistant Professors: Seidman, Villafior, Vogt
Lecturers: Leu-Roney, Ruppert

Offered by the Department
Master of Arts degree in economics.
Major in economics with the A.B. degree in liberal arts and sciences.
Minor in economics.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Economics Major

With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with this major.

Preparation for the Major. Economics 101 and 102 and another course, (15-17 units.)

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units. Six units of upper division credit in related fields may be counted toward the major if prior approval of the department's undergraduate adviser is obtained. The 24 units must include Economics 320, 321, and 347 or 541, plus 15 units of electives. Students are encouraged to complete the required courses during their junior year.

Although there are no formal emphases within this major and any upper division course is recommended to any student majoring in the discipline, the department strongly recommends that all majors consult an undergraduate adviser. The following program areas have been devised to aid students in selecting their upper division courses.

Theoretical Economics: Students interested in building a theoretical background in economics are advised to take courses in alternative economic theories, history of thought and economics are advised to take courses in alternative economic theories, history of thought and quantitative economics to include Economics 307, 311, 313, 330, 332, 338, 360, 365, 390, 420, 421, 422, 453, 464, 474, 502, 505, 520, 555, 561, and 592.

Economics of Business and Government: Students interested in preparing for operational positions in business or government are advised to take courses from among Economics 360, 370, 380, 401, 402, 453, 454, 458, 474, 475, 477, 482, 484, 490, 502, 555, and 592.

Pre-Law: Students interested in preparing for law school are strongly recommended to take Economics 370, 380, 401, 480 and 502. Also recommended are courses from among Economics 370, 380, 401, 480 and 555.

Students considering graduate school should consult an adviser.

Economics

For the Single Subject Teaching Credential in Social Science

Economics is an area of concentration for the Social Science Major, a program leading to a secondary education credential in Social Science. The requirements are those established for the Social Science Credential, as shown in this section of the catalog under Social Science.

Economics Minor

The minor in economics consists of a minimum of 15 units in economics, 12 units of which must be in upper division courses. Students must select their 12 upper division units from the economics courses in one of the four areas described in the major. In addition, students may include Economics 320, 321, 347 or 541 in their chosen area. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

100. Contemporary Economic Problems (3) I, II

(1 credit hour required)

Investigates economic bases for such current problems as inflation, unemployment, economic power, consumer protection, poverty, discrimination, urban and environmental deterioration, and international domination. Examines such policies as fiscal-monetary policy, tax reform and government controls and provision of services.

101. Principles of Economics (3) I, II

Prerequisites: Satisfactory completion of the Writing Competency and Mathematics Competency requirements. Proof of completion of prerequisites required.

An introduction to principles of economic analysis, economic institutions, and issues of public policy. In this semester the emphasis is upon microanalysis including national income analysis, money and banking, business cycles, and economic stabilization.

102. Principles of Economics (3) I, II

Prerequisites: Satisfactory completion of the Writing Competency and Mathematics Competency requirements. Proof of completion of prerequisites required.

An introduction to principles of economic analysis, economic institutions, and issues of public policy. In this semester the emphasis is upon the direction of production, the allocation of resources, and the distribution of income, through the price system (microanalysis), and international economics.

201. Statistical Methods (3) I, II

Prerequisite: Qualification on the Mathematics Placement Examination. Proof of completion of prerequisite required.

Introduction to descriptive statistics, statistical inference, regression and correlation. Students with credit or concurrent registration in another statistics course will be awarded a total of four units for the two (or more) courses.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(Intended for Undergraduates)

300. Honors Course (1-3)

Refer to Honors Program.

307. Mathematical Economics (3) I

Prerequisites: Economics 101, 102, and Mathematics 121 or 141 or 150.

Mathematical concepts as tools in understanding, developing and illustrating economic theories. Applications of calculus and linear equations to constrained optimization, macro models, elasticity, general equilibrium, and input-output analysis.

311. History of Economic Thought (3)

Prerequisites: Economics 101 and 102.

The development of economics. Contributions of schools of thought and individual writers are examined with regard to their influence on economic theory and policy.

313. Marxist Economic Theory (3)

Prerequisite: Six units in economics.

Analysis of the theories of Marx, Engels, Lenin, Mao Tse-tung, Baran, Sweezy and others as they pertain to the periods in which they were conceived and to modern times.

320. Intermediate Economic Theory (3) I, II

Prerequisites: Economics 101, or Economics 100 with approval of department.

Economic theory with special reference to national income analysis and the theory of investment.

321. Intermediate Economic Theory (3) I, II

Prerequisite: Economics 102 or Economics 100 with approval of department.

Economic theory with special reference to the theory of the firm and the industry, value and distribution.

330. Comparative Economic Systems (3)

Prerequisite: Economics 100 or 101 or 102.

Investigates economic bases for such current problems as inflation, unemployment, economic power, consumer protection, poverty, discrimination, urban and environmental deterioration, and international domination. Examines such policies as fiscal-monetary policy, tax reform and government controls and provision of services.

332. Capitalist Economy (3)

Prerequisite: Economics 100 or 101 or 102.

The relationship between the dominant economic and political institutions of capitalist organization and the major social problems of modern capitalism.

336. Economic History of Emerging Nations (3)

Prerequisite: Economics 100 or 101.

Evolution of economic organization, institutions, and policies of Africa, Asia, and Latin America. Regional emphasis will vary. Maximum credit six units.

338. Economic History of the United States (3)

Prerequisites: Economics 100 or 101, and 102.

American economic development and national legislation. Studies of agriculture, industry, the labor force, and national output. (Formerly numbered Economics 336B.)

347. Research Design and Method (3)

Prerequisites: Economics 101, 102 and 201. Recommended: Economics 320 and 321 and a computer related course such as Mathematics 107.

A computer assisted course in the practical application of econometric techniques of economic research to the formulation and evaluation of economic hypotheses. Applications of the theories of Marx, Engels, Lenin, Mao Tse-tung, Baran, Sweezy and others as they pertain to the periods in which they were conceived and to modern times.

360. International Economic Problems (3)

Prerequisites: Economics 101 and 102. Not open to students with credit in Economics 561.

International problems. Economic communitarians and other selected topics. International problems, economic communities, organizations, and other selected topics.

365. Economics of Underdeveloped Areas (3)

Prerequisite: Economics 102.

The nature and causes of economic underdevelopment. Problems and policies for the economic development of underdeveloped areas of the world.
370. Government and Business (3)
Prerequisite: Economics 100 or 102.
Governmental activities affecting business; the state as an entrepreneur and manager; governmental assistance to business; governmental regulation of business in its historical, legal and economic aspects, including recent developments in the United States and abroad; proposed policies.

380. Labor Problems (3)
Prerequisite: Economics 100 or 101 or 102.
Labor organizations and their policies, wages, strikes, unemployment, social insurance, child labor, labor legislation, plans for industrial peace, and other labor problems.

401. Public Finance (3)
Prerequisites: Economics 101 and 102.
Principles and practices of taxation and public expenditures. Economic effects of public spending, debts and taxation. Financing social security and other services. Fiscal policy and prosperity. Relation to inflation and deflation. Special emphasis on social problems involved.

420. Topics in Microeconomics (3) I
Prerequisites: Economics 320 and 321; Economics 307 or Mathematics 142.
Microfoundations of macroeconomic analysis: Walras' law; macrotheory when markets do not clear, alternative theories of expectations, macrodynamic and growth theory; Implications for inflation, unemployment and the effectiveness of fiscal and monetary policy.

421. Applied Microeconomics (3) II
Prerequisites: Economics 321; Economics 307 or Mathematics 142.
Consumer and producer behavior using mathematical optimization techniques. Mathematical approaches to oligopoly, bargaining theory and to policy issues.

422. Business Cycles (3)
Prerequisites: Economics 101 and 102.
Fundamental factors in economic fluctuations. Examination of business cycle theories and various policy proposals for economic stabilization. A consideration of current economic conditions and an examination of methods employed in preparing national economic forecasts.

452. Economics of Energy Resources (3)
Prerequisite: Six units of economics.

453. Economics and Ecology (3)
Prerequisites: Economics 101 and 102.
Relation of ecological problems to basic economic institutions. Examination of the apparent conflict between economic needs and ecological requirements. Economics of air, fresh water, ocean and land pollution, overpopulation and natural resource utilization. Investigation of possible solutions.

454. Economics of the Ocean (3)
Prerequisites: Economics 101 and 102.
Economic analysis of fisheries, seabed resources, shipping lanes, allocation of the coastal zone, and ocean pollution. Economic implications of alternative legal arrangements concerning the ocean.

458. Urban and Regional Economics (3)
Prerequisites: Economics 101 and 102.
Major influences on the economic conditions of urban and nonurban areas; specific urban problems including housing, land use, and growth. Discussion of San Diego problems.

464. Economic Problems of Latin America (3)
Prerequisite: Economics 100 or 101 or 102.
Economic development, institutions, and problems of Latin America.

465. Economic Problems of South and East Asia (3)
Prerequisite: Economics 100 or 101 or 102.
Economic development, institutions, and problems of China, India and Pakistan, Japan, and Southeast Asia.

474. Economic Concentration and Monopoly Power (3)
Prerequisites: Economics 101 and 102.
The implications of economic concentration and monopoly. The evaluation of mergers, consolidations and other forms of monopoly power in terms of social and economic goals. Attempts to control monopoly power by antitrust laws. By policies regarding competitive practices and by other means.

475. Industry Studies (3)
Prerequisites: Economics 101 and 102.
Evaluation of the structure, conduct, and performance of selected industries in terms of social and economic goals.

477. Public Utilities (3)
Prerequisites: Economics 101 and 102.

482. Collective Bargaining (3)
Prerequisites: Economics 101 and 102.
Structures of labor relations, management and union problems; public policy and collective bargaining; simulation of collective bargaining experiences.

483. Comparative Labor Problems (3)
Prerequisites: Economics 101 and 102.
Comparative study of labor relations systems and labor movements in both advanced and developing nations. Individual study of a particular country of the student's choice.

484. Economics of Health and Education (3)
Prerequisite: Economics 100 or 101 or 102.

488. Population and Economic Growth (3)
Prerequisite: Economics 100 or 101 or 102.
Interrelationship between the components of population change (fertility, mortality and migration) and economic growth in developed and underdeveloped areas.

490. Money and Banking (3) I, II
Prerequisites: Economics 101 and 102.
The elements of monetary theory. History and principles of banking with special reference to the banking system of the United States.

495. Economics Internship (3) I, II Cr/NC
Prerequisite: Consent of instructor.
Internship with business firms, nonprofit organizations and government agencies. Work under joint direction of activity supervisor and instructor. Project report and internship done under joint direction of activity supervisor and instructor. Project report and internship done under joint direction of activity supervisor and instructor. Project report and internship done under joint direction of activity supervisor and instructor. Project report and internship done under joint direction of activity supervisor and instructor. Maximum credit six units.

496. Experimental Topics (1-3)
Prerequisite: Consent of instructor.
Selected topics in economics. May be repeated with approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 496, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. May be repeated for a maximum of six units; maximum credit in 499 limited to six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

502. Public Economics (3)
Prerequisite: Economics 321 or 401.
General equilibrium. Externalities of consumption and production, their impact on allocative efficiency. Theory of social wants and public goods: supply Theoretical treatment of individual and community preference ordering and decision making. Proposals for improving the allocation of resources.
505. Welfare Economics (3)
Prerequisites: Economics 102 and 321.
Theories of individual and social well-being; economic and ethical bases of optimum welfare arrangements; individual values and social decision making; tests of improvement; interdependence and externalities; public and private sectors; properties of social welfare functions.

520. Advanced Economic Theory (3)
Prerequisite: Economics 320.
Recent contributions to the advanced theory of the firm, consumer demand, employment and growth.

541. Econometrics (3)
Prerequisite: Economics 201, and 307 or Mathematics 142.
Use of economic models involving multiple-regression analysis.

555. Economic Analysis of Environmental Quality (3) II
Prerequisites: Economics 321 and Mathematics 121 or 141 or 150.
Examination of materials balance, interface between economic and ecological systems, and comprehensive waste residuals management. Economic analysis of population growth and environmental degradation, preservation vs. development issues, global environmental problems and international law.

561. International Trade Theory (3)
Prerequisites: Economics 320 and 321.
The pure theory of international trade and commercial policy.

562. International Economic Expansion and Dependence (3)
Prerequisite: Economics 313 or 365 or 464.
Explores various theories of imperialism and dependence, the behavior of multinational corporations, and role of state from Marxian and other perspectives. Theories examined in terms of experience of specific countries (e.g., Mexico).

565. U.S.-Mexico Economic Relations (3)
Prerequisite: One course in economics.
Mexican's socioeconomic development since World War II. Problem areas affecting the U.S. including foreign trade, multinational corporations, energy, migration patterns and border relations.

592. International Monetary Theory and Policy (3)
Prerequisite: Economics 320 or 490.
Balance of payments, international capital movements and foreign exchange in relation to current theories and policies.

596. Experimental Topics (3)
Prerequisite: Consent of instructor.
Intensive study in specific areas of economics. Topics to be announced in the Class Schedule. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

College of Education
Member of the American Association of Colleges for Teacher Education

Faculty
Dean (Acting): Feinberg
Associate Dean: Chamley
Assistant Dean: Ramage

Offered by the College of Education
Doctor of Philosophy degree in education.
Master of Arts degree in education.
Master of Science degree in counseling.
Master of Science degree in rehabilitation counseling.
B.V.E. degree.
Teaching credentials in all areas.
Minor in Educational Technology.
Certificate in Bilingual (Spanish) Special Education.
Certificate in Instructional Technology.
Certificate in Language Development Specialist.
Certificate in Teaching the Emotionally Disturbed/Behaviorally Disordered.

Teaching/Service Credentials
The College of Education offers programs which lead to teaching, specialist, and services credentials. Students who desire to seek a credential should consult with departmental advisors in order to determine their status and needed requirements. Information on these credentials is available in the offices of the several departments of the College of Education and in the Credentials Office, College of Education.

The College of Education has obtained approval for programs leading to the following credentials:

Approved Credential Programs
1. Multiple subjects credential Teach in any self-contained classroom, kindergarten through twelfth grade.
2. Single subject credential Teach single subject area in grades kindergarten through twelfth.
3. Community college instructor Teach in grades thirteen and fourteen, any course in an occupational or subject matter area which appears on the credential document.

Specialist Credentials
Bilingual/CrossCultural
Reading Specialist
Special Education:
Communication Handicapped (Dept. of Communicative Disorders)
Physically Handicapped
Learning Handicapped
Severely Handicapped
Gifted

Service Credentials
Administrative Services
Clinical Rehabilitative Services (Dept. of Communicative Disorders)
Pupil Personnel
School Psychology
Health-School Nurse (School of Nursing)

Admission to Teacher Education

Application for Admission
Students who plan to enroll in a credential program must make application for admission to that program through the appropriate department. Both the Multiple Subjects Credential and the Single Subject Credential are to be completed through the School of Teacher Education.
LOWER DIVISION COURSE IN EDUCATION

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES IN EDUCATION
(Intended for Undergraduates)

397. Problems in Education (Credit to be arranged) Extension I, II
Offered only in Extension.
Prerequisite: Consent of instructor.
Class study of specially selected problems in education. Does not apply to pattern requirements for credentials.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

GRADUATE COURSES IN EDUCATION
Refer to the Graduate Bulletin.

Counselor Education

Faculty
Emeritus: Malcolm, Manjos
Chair: Thompson
Professors: Bruce, Carnevale, Chamley, Cummins, Feinberg, Hawley, Miller, Ramage, Senour
Associate Professors: Cook, Howard, Thompson
Assistant Professors: Cochran, Ingraham, Robinson

Offered by the Department
Master of Science degree in counseling.
Pupil Personnel Services Credential.
School Psychology Credential.

UPPER DIVISION COURSES IN COUNSELOR EDUCATION
(Intended for Undergraduates)

400. Counseling and the Helping Professions (3) I, II
Serves as an introduction to the field of counseling and introduces the student to those professions considered to be helping professions.

401. Theories and Processes of Personal Integration (3) I, II
Perspectives of and strategies for developing and maintaining a functional balance among intellectual, physical, emotional, and interpersonal aspects of daily living.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES IN COUNSELOR EDUCATION
(Also Acceptable for Advanced Degrees)

585A. Human Sexuality for Counselors (3)
Prerequisite: Upper division course in human sexuality.
Dimensions of human sexuality that bear directly on role and function of helping professions. Human sexual development, sexual variations, sexual dysfunctions, intimate lifestyles, treatment modalities and sexual ethics. Fulfills MFCC licensure requirements.

585B. Dynamics of Adjustment Behavior (3)
Prerequisite: Upper division course in abnormal psychology.
Philosophies and dynamics of adjustment behavior, patterns and types of abnormal behavior, and treatment modalities. Fulfills MFCC licensure requirements.

596. Selected Studies (1-3)
Prerequisite: Consent of instructor.
A series of lecture and discussion sessions centering on current problems in counseling and guidance. Designed to serve the needs of any person desiring to keep informed of developments in this area. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable on a master’s degree. (Formerly numbered and entitled Counselor Education 506, Guidance Conference.)

GRADUATE COURSES IN COUNSELOR EDUCATION
Refer to the Graduate Bulletin.
Development, Administration and Technology

Faculty
Emeritus: McAllister
Chair: Harrison
Community College/Vocational Education
Associate Professor: Behm
Educational Administration
Professors: Latta, Merino
Associate Professors: Crowner, Youngs-Bilicki
Educational Technology
Professors: Anthony, Harrison, Rossett
Associate Professors: Dodge, Saba
Assistant Professor: Allen
Lecturer: Mathison
Rehabilitation Counseling
Professors: Jones, McFarlane
Associate Professor: Jacobs

Offered by the Department
Master of Arts degree in education.
Concentration in community college curriculum and instruction.
Concentration in educational administration and supervision.
Concentration in educational technology.
Master of Science degree in rehabilitation counseling.
Bachelor of Vocational Education degree.
Administrative Services credential.
Community College Instructor credential.
Minor in educational technology.
Certificate in instructional technology.

Bachelor of Vocational Education Degree
Instructors of Occupational Education are encouraged to complete the B.V.E. and to enroll in the program leading to the Master of Arts in Education with a concentration in community college curriculum and instruction. For further information, students are advised to consult with the Higher Education Coordinator, College of Education.
The Bachelor of Vocational Education degree is designed primarily for instructors who are teaching in a vocational education program either in the secondary school or in the community college and qualify for an official evaluation (under provisions of the Swan Bill) through the State Board of Vocational Examiners in Sacramento. To qualify for the evaluation, the requirements of the State Education Code, Section 89223, must be met. This regulation stipulates a minimum period of vocational teaching experience amounting to 1,620 clock hours in a full-time position or 1,000 clock hours in an approved trade technical extension class.
The individual desiring to secure the B.V.E. degree should follow the basic pattern set down in the following steps:
1. The individual must have an Associate of Arts degree, or 60 units
   (This should include, if possible, the 40 lower division units of general education required for the bachelor's degree from SDSU. The additional nine upper division units required for General Education must be completed at SDSU.) 70 units maximum
2. The individual must apply for evaluation of work experience (Swan Bill). Applicants should apply to the Board of Examiners for Vocational Teachers, Bureau of Industrial Education, State Education Bldg., 721 Capitol Avenue, Sacramento, California. These units count toward the major and are classified as upper division units. (See Higher Education Programs Coordinator for assistance and application forms.) 40 units maximum
3. The individual must take the professional occupational teacher education courses required for the Community College Credential (Title 5). To receive credit toward the B.V.E. degree, these courses must be taken from an institution that will grant credit for the courses toward a bachelor's degree - DAT 380, 381, 382, and 565. 6-12 units
4. The individual must receive credit for the required number of upper division courses to complete the Bachelor of Vocational Education degree graduation requirements. This includes those given in item 2 above. 40 units
5. The individual must satisfy all other graduation requirements, including competencies, upper division writing requirement, grade point average, etc.
6. The individual must see an adviser in the area of his major to arrange his program for completion of course work. A series of elective courses that will support the professional responsibilities of the candidate will be recommended. Furthermore, 30 units must be in residency at SDSU, of which 24 must be upper division.

Total 124 units

The Community College Instructor Credential
Specific Requirements
1. An associate degree in which the student can establish four years of occupational experience in a subject matter area plus 12 units in designated courses on the community college.
2. A baccalaureate degree in which the student can establish two years of occupational experience and a major or minor in a subject matter area related to this occupational experience plus six units in designated courses on the community college.
3. A master's degree in a subject matter area designated in Title 5, Section 5, #52210 (subjects commonly taught at a community college).

Baccalaureate Degree Candidates
The following courses meet the requirements of Title 5, Section 5226 (Community College Instructor Credential). Development, Administration and Technology 380, 381, 382, and 565. Students may also enroll if they presently hold a partial California credential in an occupational area. Early consultation with the Higher Education Programs Coordinator is recommended.

Educational Technology Minor
The minor in educational technology consists of a minimum of 15 units, 12 of which must be upper division selected from Development, Administration and Technology 540, 541, 542, 544, 593, 571, 590, and 596 (when applicable).

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Instructional Technology Certificate
To receive a Certificate in Instructional Technology, candidates, in addition to meeting all admissions requirements, must complete the following 12 units of course work:
Development, Administration and Technology 540, 544, 571, plus three units from Development, Administration and Technology 541, 553, or 596.

LOWER DIVISION COURSE IN
DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY

201. Use of the Library (2) I, II
Resources and facilities of San Diego State University Library including interpretation and use of its principal information retrieval mechanisms.
General

UPPER DIVISION COURSES IN
DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY
(Also Intended for Undergraudates)

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific
content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a
bachelor's degree. (Formerly numbered Educational Technology and Librarianship 496.)

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education
who have shown ability to work independently.
Individual study. Maximum credit six units. (Formerly numbered Educational Technology and Librarianship 499.)

UPPER DIVISION COURSES IN
DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY
(Also Acceptable for Advanced Degrees)

596. Topics in Development, Administration and Technology (1-3)
Selected topics, may be repeated with new content. See Class Schedule for specific
content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum
credit six units. (Formerly numbered Education 596 and Educational Technology and Librarianship 596.)

Community College/Vocational Education

UPPER DIVISION COURSES IN
DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY
(Also Intended for Undergraduates)

380. Principles of Adult and Vocational Education (3) I, II, S
Principles, practices, scope, and functions of education. (Formerly numbered Education 380.)

381. Developing Adult and Vocational Education (3) I, II, S
Needs assessment, task analysis, formulation of objectives, lesson plans, instructional
techniques, and evaluation in adult and vocational settings. (Formerly numbered Education 381.)

382. Directed Teaching (2-4) I, II, S Cr/NC
Prerequisite: Development, Administration and Technology 380, 381, or 565.
Systematic observation, participation, and teaching under supervision in an occupational
subject matter area. Application to take this course must be made in preceding semester.
(Formerly numbered Education 382.)

UPPER DIVISION COURSES IN
DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY
(Also Acceptable for Advanced Degrees)

565. Occupational Student (3) S
Prerequisite: Development, Administration and Technology 380 or 381.
The learning process and individual differences: behavioral characteristics of youth, race,
and ethnic relations in the schools. (Formerly numbered Education 565.)

568. Human Relations and Counseling in Adult Education (1-3)
Prerequisite: Possession of a valid teaching credential.
Principles, procedures, and issues appropriate to human relations and counseling in adult
education. (Formerly numbered Education 568.)

Educational Technology

UPPER DIVISION COURSES IN
DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY
(Also Acceptable for Advanced Degrees)

400. Technology and Lifelong Learning (3) I, II
Communication models and uses of technology as they impact on the many teaching-
learning situations. Examination of role of educator as human communicator, technologist, and
social change agent. (Formerly numbered Educational Technology and Librarianship 400.)

404. Instructional Media, Equipment and Production (1) I, II Cr/NC
Two hours of activity.
Basic audiovisual equipment operation, production of inexpensive instructional materials,
and application of learning theory to the utilization of instructional materials. (Formerly
numbered Educational Technology and Librarianship 404.)

UPPER DIVISION COURSES IN
DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY
(Also Acceptable for Advanced Degrees)

532. Design and Production of Instructional Materials (3) I, II
Nine hours of laboratory.
Planning, preparing and using instructional materials with a wide variety of learners.
Transparencies, lettering aids, color slides, audio cassettes, simulations, and portable video.
(Formerly numbered Educational Technology and Librarianship 532.)

540. Instructional Technology (3) I, II, S
Six hours of activity.
Role of instructional systems development in education and training. Issues in instructional
technology, self-instructional programs, competency-based instruction, new technologies of
instruction and training. (Formerly numbered Educational Technology and Librarianship 540.)

541. Media Production (3) I, II
Nine hours of laboratory.
Prerequisite recommended: Development, Administration and Technology 404.
Planning and production of media for instruction and training. Cost estimation and control,
facilities design, legal requirements, production practices and personnel, storyboard and
cutting. (Formerly numbered Educational Technology and Librarianship 541.)

542. Advanced Production Techniques (3)
Nine hours of laboratory.
Prerequisite recommended: Development, Administration and Technology 541.
Application of communication principles, skills, and techniques pertaining to the design and
production of light and heat sensitive instructional materials to problems of educational commu-
nication and instructional development. (Formerly numbered Educational Technology and Librarianship 542.)

544. Instructional Design (3) I, II
Six hours of activity.
Prerequisite: Development, Administration and Technology 540.
Systematic approach to instructional design. Review of research and theory in instructional
strategy development. Analysis, design and development of instructional and training products
and programs. (Formerly numbered Educational Technology and Librarianship 544.)

553. Workshop in Educational Television (3) I, S
Nine hours of laboratory.
The procedures and theories of television production such as its roles to closed circuit and
institutional use of television. The selection and utilization of program content and the method
of presenting material through the television medium will be discussed and demonstrated. Not
open to students with credit in Telecommunications and Film 320. (Formerly numbered Educa-
tional Technology and Librarianship 553.)
571. Introduction to Computers in Education (3) I
One lecture and six hours of laboratory.
Prerequisite required for preservice students, recommended for inservice students: Information Systems 180 or Mathematics 107 or Engineering 120.
Introduction to uses of computers in education and training, history, present and future hardware and software, social impact, costs, interface between instruction and software development, and survey of computer applications in education and training. (Formerly numbered Educational Technology and Librarianship 571.)

590. Computer Solutions to Instructional Problems (3) I, II
Prerequisites: Development, Administration and Technology 571; admission to a credential program or a teaching credential or experience in teaching.
Using the computer, especially the microcomputer, as an instructional tool. Programming techniques and instructional design. (Formerly numbered Education 590.)

GRADUATE COURSES IN DEVELOPMENT, ADMINISTRATION AND TECHNOLOGY
Refer to the Graduate Bulletin.

Policy Studies in Language and Cross-Cultural Education
Faculty
Chair: Rodriguez
Professor: Ochoa
Associate Professors: Espinosa, Kuhlman, Pacheco, Rodriguez

Offered by the Department
Master of Arts degree in education.
Bilingual/Cross-Cultural Specialist credential.
Multiple Subjects with Bilingual Emphasis credential.
Single Subject with Bilingual Emphasis credential.
Language Development Specialist certificate.

Multiple Subjects with Bilingual Emphasis Credential
The Multiple Subjects with Bilingual Emphasis credential is available to students interested in teaching in a bilingual elementary school classroom. This credential authorizes the holder to teach in any self-contained bilingual or regular classroom in which one teacher is responsible for teaching all subjects commonly taught in the elementary schools. Because courses on methods of teaching subject areas are taught in Spanish as well as English, candidates must pass Spanish language proficiency and cultural awareness tests.

Standards for Admission
1. C-BEST. Students must take the California Basic Educational Skills Test for admission to the Multiple Subjects with Bilingual Emphasis credential program. Applicants for any credential, permit, certificate, supplementary authorization, or the renewal of an emergency credential must pass this examination as required by the Commission on Teacher Credentialing.
2. Major. The Liberal Studies Major, Options 2 and 3, may be selected in preparation for the teaching credential. Students who have academic majors other than Liberal Studies are required to pass the National Teacher Examination commission-approved examination. Information may be obtained through the Test Office (LE-560) or through advisers in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-154.
3. Prerequisite Courses. Courses are required for admission:
   Health Science 101 or 320 ........................................ 3 units
   Mathematics 210A*, 210B* ........................................ 6 units
   Music 102 ............................................................. 3 units
   Physical Education 241 ............................................. 2 units

   * With approval of the mathematics adviser, any of the following pairs of mathematics courses may be substituted for Mathematics 210A, 210B: Mathematics 121, 122; 150, 151; 310A, 310B.
4. Grade Point Average. A 2.50 GPA on the last 60 units is required for admission. A 2.50 GPA must be maintained throughout the credential program.
5. Experience. Applicants must provide evidence of a minimum of 45 hours of experience with children in typical classroom settings within the last five years. Such evidence consists of a description and evaluation of the experience by a supervisor. Education courses to satisfy this requirement are available.
7. Certificate of Clearance. The State of California requires that credential candidates possess a valid Certificate of Clearance before admission to the program. Forms and fingerprint cards are available.
8. Credential Advising Appointment. Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Make appointment in ED-154, telephone 265-5155.
9. **Language and Culture.** Applicants must pass Spanish language and cultural awareness tests.
10. **Application.** Applicants should complete application procedures the semester prior to beginning the credential program.

## Credential Requirements

1. A bachelor's degree (or higher) with any major other than education.
2. Completion of a fifth year of study (31 units of upper division or graduate units).
3. Completion of an approved program of professional education. (See Department of Policy Studies in Language and Cross-Cultural Education for further information about the approved programs.)
4. Passage of subject matter examination(s) (NTE-Core Battery) or waiver thereof through the Department of Policy Studies in Language and Cross-Cultural Education.
5. Pass Spanish language and cultural awareness tests.
9. Course work/fieldwork and/or other to satisfy PL 94-142 "Mainstreaming."

### New Students Who Seek to Complete a Credential

Teachers with a preliminary credential who are working toward a clear credential may have a program designed to fit their background: Evaluation of college credit completed to date and arrangements for programming should be made through the Department of Policy Studies in Language and Cross-Cultural Education in the College of Education.

### Advanced Standing in Teacher Education

A student transferring into San Diego State University with advanced standing must complete a minimum of six units of professional education work in residence at this university in order to obtain a recommendation for a credential, regardless of the extent of education work completed elsewhere.

### Evaluation of Credits

After an interval of five years, prerequisites and courses in education are reevaluated and subject to reduction in credit. In light of new requirements and changes in educational procedures, all courses taken either at this university or elsewhere must be approved by an official adviser in order to be credited toward meeting credential requirements or pattern requirements for a degree.

## Single Subject with Bilingual Emphasis Credential

The Single Subject with Bilingual Emphasis credential is available to students interested in teaching in a bilingual secondary school classroom. This credential authorizes the holder to teach in any self-contained bilingual or regular classroom in which one teacher is responsible for teaching the given subject area.

### Standards for Admission

1. **C-BEST.** Students must take the California Basic Educational Skills Test for admission to the Single Subject with Bilingual Emphasis credential program. Applicants for the credential must pass this examination as required by the Commission on Teacher Credentialing.
2. **Major.** Students must have a major in an acceptable Single Subject Area or pass the National Teacher Examination commission-approved examination. Information may be obtained through the Test Office (LE-560) or through advisers in the Policy Studies in Language and Cross-Cultural Education (PLC) Department, ED-154.
3. **Prerequisite Course.** PLC 400, "The Secondary School and Bilingual Education."
4. **Grade Point Average.** A 2.75 GPA overall and 3.00 GPA in the upper division major are required for admission. A 2.50 GPA must be maintained throughout the credential program.
5. **Experience.** Applicants must provide evidence of a minimum of 45 hours of experience with children in typical classroom settings within the last five years. Such evidence consists of a description and evaluation of the experience by a supervisor. Education courses to satisfy this requirement are available.
6. **Health Clearance.** Tuberculin clearance is required for student teaching authorization.
7. **Certificate of Clearance.** The State of California requires that credential candidates possess a valid Certificate of Clearance before admission to the program. Forms and fingerprint cards are available.
8. **Credentila Advising Appointment.** Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Appointments can be made in ED-154, telephone 269-5155.
9. **Language and Culture.** All candidates must pass Spanish language and cultural awareness tests.
10. **Application.** Applicants should complete application procedures the semester prior to obtaining a recommendation for admission. A 2.50 GPA must be maintained throughout the credential program.

## Credential Requirements

1. A bachelor's degree (or higher) with any major other than education. Students must have a major in an acceptable single subject area or pass the National Teacher Examination commission-approved examination, Information may be obtained through the Test Office (LE-560) or through advisers in the Policy Studies in Language and Cross-Cultural Education (PLC) Department, ED-154.
2. Completion of an approved program of professional education. The required courses are Policy Studies in Language and Cross-Cultural Education 400, 403, 423, 433 (except for majors in art, music, and physical education; reading requirement may also be satisfied by completion of the Reading section of the NTE test), 454, 483, 464, Development, Administration and Technology 404; and a course to satisfy PL 94-142 "Mainstreaming."
3. Passage of subject matter examination(s) (NTE Test) or waiver thereof through completion of an approved program of professional education. The required courses are Policy Studies in Language and Cross-Cultural Education 400, 403, 423, 433 (except for majors in art, music, and physical education; reading requirement may also be satisfied by completion of the Reading section of the NTE test), 454, 483, 464, Development, Administration and Technology 404; and a course to satisfy PL 94-142 "Mainstreaming."
4. Knowledge of U.S. Constitution, as demonstrated by successful completion of approved course or examination (see section of this catalog on "Graduation Requirements").
5. Successful completion of Health Science 321.

Persons whose programs allow them to meet these requirements would be eligible for a preliminary credential at the same time they finish a four-year college program. **NOTE:** Undergraduate students in their final semester prior to obtaining a baccalaureate degree may sign up for concurrent postbaccalaureate credit as explained in the section of this catalog on "General Regulations."
New Students Who Seek to Complete a Credential

Teachers with a preliminary credential who are working toward a clear credential may have a program designed to fit their background. Evaluation of college credit completed to date and arrangements for programming should be made through the Department of Policy Studies in Language and Cross-Cultural Education in the College of Education.

Language Development Specialist Certificate

The Language Development Specialist Certificate provides an interdisciplinary approach in linguistics and multicultural education to train teachers in theory and application of English as a second language methodologies for linguistically diverse students in grades K-12.

Prerequisites for admission:
1. Valid California teaching credential.
2. Six units of an appropriate foreign language.

A grade point average of 3.0 must be obtained in the eight courses. Students who complete the certificate program are not eligible to receive the Basic Certificate in Applied Linguistics and English as a Second Language (ESL).

*Prerequisites waived for students in this program.

UPPER DIVISION COURSES IN POLICY STUDIES IN LANGUAGE AND CROSS-CULTURAL EDUCATION (Intended for Undergraduates)

323. Psychological Foundations of Education and Bilingual Students (3) I, II
Two lectures and two hours of activity.
Prerequisite: Admission to Multiple Subjects with Bilingual Emphasis credential program. Major theories of learning and cognition as applied to bilingual students and their relation to child development, first and second language acquisition, and approaches to teaching in bilingual classrooms. Taught in Spanish and English.

360. Student Teaching Seminar for Bilingual Elementary Students (1-4) I, II Cr/NC
Prerequisites: Policy Studies in Language and Cross-Cultural Education 323 and admission to Multiple Subjects with Bilingual Emphasis credential program. One lecture and two hours of activity.
Prerequisite: Admission to Multiple Subjects with Bilingual Emphasis credential program.Methods of teaching and diagnosing reading skills in Spanish and English, including ESL. Student must provide own transportation to student teaching site. Field experience at two grade levels in a multicultural setting and a bilingual elementary classroom; student teacher assumes responsibility for planning and instruction for specified classroom; student teacher evaluates time to complete with State Board of Education. Maximum credit twelve units.

400. The Secondary School and Bilingual Education (3) I, II
Prerequisite: Upper division standing.
Bilingual education at the secondary level, including roles, curricular models, organization, and legal justification. Must demonstrate bilingual competencies before conclusion of course and admission to program. Taught in Spanish.

403. Bilingual Student Teacher Seminar (3) I, II Cr/NC
Two lectures and two hours of activity.

410. Teaching Mathematics to Bilingual Elementary Students (3) I, II
Two lectures and two hours of activity.
Prerequisite: Admission to Multiple Subjects with Bilingual Emphasis credential program. Underlying learning theories for teaching mathematical concepts, computation, and problem solving skills to bilingual students. Taught in Spanish.

411. Teaching Social Studies to Bilingual Elementary Students (2) I, II
One lecture and two hours of activity.
Prerequisite: Admission to Multiple Subjects with Bilingual Emphasis credential program. Conceptual approaches for teaching bilingual social studies curriculum, incorporating sociocultural characteristics of multicultural communities, and community social issues. Taught in Spanish.

412. Teaching Science to Bilingual Elementary Students (2) I, II
One lecture and two hours of activity.
Prerequisite: Natural Science 412A or 412B or 413C. Strategies for development of process skills and concept acquisition. Methodology for teaching activity-oriented science classes in English and Spanish. Taught in Spanish.

423. Behavioral and Psychological Aspects of Teaching in the Bilingual Classroom (4) I, II
Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 454 and 463; admission to the Single Subject Bilingual Emphasis program.
Bilingual learning theory as it affects adolescent growth, individualized instruction, curriculum management and discipline, and methods of measuring and evaluating achievement. Taught in Spanish and English.

431. Skills in Teaching Reading to Bilingual Elementary Students (3) I, II
Two lectures and two hours of activity.
Prerequisite: Admission to Multiple Subjects with Bilingual Emphasis credential program. Teaching reading in Spanish, including methods, strategies, assessment, materials, and techniques of transition for implementing reading programs in the bilingual classroom. Taught in Spanish.

432. Skills in Teaching Reading to Bilingual Secondary Students (3) I, II
Prerequisite: Upper division standing.
Methods of teaching and designing reading skills in Spanish and English, including ESL. On-site, part-time experience to implement Education 423, 454, and 515.

433. Teaching Social Studies to Bilingual Secondary Students (2) I, II
Prerequisites: Policy Studies in Language and Cross-Cultural Education 463; concurrent registration in Policy Studies in Language and Cross-Cultural Education 423 and 454; admission to the Single Subject Bilingual Emphasis program. Students must provide own transportation to student teaching site. Field experience at two grade levels in a multicultural setting and a bilingual elementary classroom; student teacher assumes responsibility for planning and instruction for specified classroom; student teacher evaluates time to complete with State Board of Education. Maximum credit twelve units.

434. Teaching Science to Bilingual Secondary Students (2) I, II
Prerequisites: Policy Studies in Language and Cross-Cultural Education 463; concurrent registration in Policy Studies in Language and Cross-Cultural Education 423 and 454; admission to the Single Subject Bilingual Emphasis program. Students must provide own transportation to student teaching site. Field experience at two grade levels in a multicultural setting and a bilingual elementary classroom; student teacher assumes responsibility for planning and instruction for specified classroom; student teacher evaluates time to complete with State Board of Education. Maximum credit twelve units.

453. Skills in Teaching Reading to Bilingual Secondary Students (3) I, II
Prerequisite: Upper division standing.
Methods of teaching and designing reading skills in Spanish and English, including ESL. On-site, part-time experience to implement Education 423, 454, and 515.

464. Humanistic and Social Aspects of Teaching in the Bilingual Classroom (4) I, II
Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 454 and 463; admission to the Single Subject Bilingual Emphasis program.
Interaction between school and society, including equity issues, values, sociocultural variables, achievement of Spanish/English bilingual students; models for appropriate curricula. Taught in Spanish and English.

469. Student Teaching for Bilingual Elementary Students (6-6) I, II Cr/NC
Prerequisite: Admission to Multiple Subjects with Bilingual Emphasis credential program. Student must provide own transportation to student teaching site. Field experience at two grade levels in a multicultural setting and a bilingual elementary classroom; student teacher assumes responsibility for planning and instruction for specified classroom; student teacher evaluates time to complete with State Board of Education. Maximum credit twelve units.

483. Student Teaching for Bilingual Secondary Students I (3-4) I, II Cr/NC
464. Student Teaching for Bilingual Secondary Students II (9-12) Cr/NC
Prerequisites: Policy Studies in Language and Cross-Cultural Education 423 and 463. Concurrent registration in Policy Studies in Language and Cross-Cultural Education 403. Students must provide own transportation to student teaching site. On-site, full-day experience in State approved bilingual and non-bilingual classes to implement teacher competencies as developed in the total professional sequence. Maximum credit twelve units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently. Individual study. Maximum credit six units. (Formerly numbered Multicultural Education 499.)

UPPER DIVISION COURSES IN POLICY STUDIES IN LANGUAGE AND CROSS-CULTURAL EDUCATION (Also Acceptable for Advanced Degrees)

515. Bilingual Teaching Strategies (3)
Prerequisite: Teaching experience or enrollment in the bilingual emphasis credential program. Legal and historical developments leading to bilingual teaching in the United States. Interactive and individualized techniques appropriate for bilingual students. Language assessment methods for grouping and evaluating bilingual students. Fieldwork required. Taught in English proficient (LEP) students.

551. Introduction to Multicultural Education (3)
Prerequisite: Consent of instructor. Overview of cultural pluralism in education, industry, business, other institutions and society at large. (Formerly numbered Multicultural Education 551.)

552. Teaching Writing in Multilingual Settings (3)
Prerequisites: Policy Studies in Language and Cross-Cultural Education 423 and 463. Interactive and individualized techniques appropriate for bilingual students. Language assessment instruments; comparison of diverse linguistic systems associated with different cultures. (Formerly numbered Multicultural Education 553 and Multicultural Education 555.)

553. Oral Language Assessment Techniques (3)
Prerequisites: Policy Studies in Language and Cross-Cultural Education 423 and 463. Theoretical and applied linguistics: language functions in the bilingual classroom, implications of sociolinguistics for diagnosis and classification of bilingual children; analysis and application of language assessment instruments; comparison of diverse linguistic systems associated with different cultures. (Formerly numbered Multicultural Education 553 and Multicultural Education 555.)

554. Cultural Foundations of Education (3)
Prerequisites: Policy Studies in Language and Cross-Cultural Education 423 and 463. How cultural foundations affect learning patterns and students' responses in instructional settings: domestic life, kinship, legal, sociocultural systems and other factors affecting socialization patterns and therefore learning styles. (Formerly numbered Multicultural Education 554.)

575. Computer Applications in the Bilingual Classroom (3)
Prerequisite: Development, Administration and Technology 571. Computer applications for bilingual instructional setting including examination and evaluation of instructional software and authoring systems for developing curriculum for limited English proficient (LEP) students.

596. Special Topics in Bilingual and Multicultural Education (1-3)
Prerequisite: Consent of instructor. Selected topics in bilingual, cross-cultural education and policy studies. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

GRADUATE COURSES IN POLICY STUDIES IN LANGUAGE AND CROSS-CULTURAL EDUCATION
Refer to the Graduate Bulletin.

Special Education

Faculty
Emeritus: Singer, Trimmer
Chair: Cegelka
Professors: Cegelka, Doorag, Forbing, Lewis, Lynch, McClard
Associate Professors: Archer, Brady
Assistant Professor: Pumpian

Offered by the Department
Master of Arts degree in education.
Special Education Specialist Credentials.
Certificate in Bilingual Special Education.
Certificate in Teaching the Emotionally Disturbed/Behaviorally Disordered.
Certificate in Teaching the Emotionally Disturbed/Behaviorally Disordered.

Bilingual (Spanish) Special Education Certificate
This certificate program provides specialized preparation for teachers of learning handicapped children whose primary language is Spanish.

Prerequisites for admission include the following:
1. Completion of, or admission to, the departmental program for the Specialist Credential in Special Education (Learning Handicapped). Will satisfy prerequisites for Special Education 510C and 511C.
2. Special Education 505F.
3. Spanish language proficiency at the S-3 (FSI) 3 level.
4. Knowledge of the target culture and bilingual teaching strategies. Will satisfy prerequisites for Policy Studies in Language and Cross-Cultural Education 602. Proficiency may be demonstrated by passing the "Test of Culture and Teaching" used by the College of Education bilingual emphasis programs or Policy Studies in Language and Cross-Cultural Education 603.

Certificate program requirements include the following: Policy Studies in Language and Cross-Cultural Education 553, 602, Special Education 510C, 511C, and demonstration of competence in teaching learning handicapped students whose primary language is Spanish.
A grade point average of 3.0 must be obtained in the four courses. Contact the Department of Special Education for further information.

Teaching the Emotionally Disturbed/Behaviorally Disordered Certificate
This certificate provides specialized preparation for teachers of children with severe emotional disturbance who have been labeled as severely emotionally disturbed or behaviorally disordered. The program is designed to meet the needs of children labeled as emotionally disturbed or behaviorally disordered.

Prerequisites to admission to the certificate program include the following:
1. Completion of, or admission to, the departmental program for the Specialist Credential in Special Education (Severely Handicapped). Will satisfy prerequisites for Special Education 510A, 512E, 514A, 514B, 771 (2 units, adviser approved section), and demonstrated competence in teaching emotionally disturbed/behaviorally disordered students.
2. A grade point average of 3.0 in the required courses is required for certificate course work. Contact the Department of Special Education for further information.
UPPER DIVISION COURSES IN SPECIAL EDUCATION
(For Undergraduates)

471. Fieldwork in Special Education (3) I, II Cr/NC
One lecture and four hours of field work.
Prerequisite: Credit or concurrent registration in Special Education 500.
Supervised observation and participation in classroom and related school activities for
exceptional students. Course work includes discussion, analysis and reports of observation.

475. Impact of Exceptionality on Society (3) I
Prerequisite: Anthropology 101, Psychology 101, or Sociology 101.
Range of human experience of exceptional individuals, interaction between societal
institutions and needs of gifted and disabled people, historical response to these needs, and
contemporary issues.

480. Directed Internship: Special Education (1-4) I, II Cr/NC
Application to take course should be made during the preceding semester.
Maximum credit eight units upon approval of advisor.
Extensive daily teaching in public schools of exceptional individuals in one of four areas:
A. Learning Handicapped
B. Severely Handicapped
C. Physically Handicapped
D. Gifted

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Open only to senior and graduate students in education
who have demonstrated ability to work independently.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES IN SPECIAL EDUCATION
(Also Acceptable for Advanced Degrees)

500. Exceptional Individuals (3) I, II, S
Three lectures/fieldwork.
Principles, procedures and techniques in identifying and programming for exceptional
students. Historical, philosophical and legal background which affect current special education
practices.

501. Special Education Procedures and Interpersonal Processes (3) I, II, S
Prerequisite: Credit or concurrent registration in Special Education 500.
Introduction to procedures, legal requirements, and interpersonal processes in the identifi-
cation, prescription, teaching and evaluation of instructional programs for handicapped
students.

505. Characteristics and Education of Exceptional Individuals (3)
Prerequisite: Credit or concurrent registration in Special Education 471, 500, 501; and
Family Studies and Consumer Sciences 570 or 505H.
Review of research, educational programs, current approaches and characteristics of
individuals in the area of exceptionality: Historical, philosophical, developmental, sociological,
psychological, behavioral and environmental perspectives of the exceptionality.
May be taken in each of the areas of exceptionality:
A. Learning Handicapped
B. Severely Handicapped
C. Physically Handicapped
D. Gifted
E. Emotionally Disturbed
F. Multicultural Learning Handicapped
G. Physically Handicapped
H. Handicapped Infants

506. Law and Special Education (2)
Prerequisites: Special Education 471, 500, 501.
Laws, litigation and the legislative process affecting special education of handicapped
students. Knowledge of legal rights and due process for students and teachers. Current issues
and trends in special education law.

507. Adaptive Equipment for the Severely Handicapped (3)
Prerequisite: Credit or concurrent registration in Special Education 505C.
Use and simple maintenance of wheelchairs, prone-standers, positioning equipment and
other devices used in classrooms for the severely physically handicapped. Purchase, design,
construction and modification of school equipment for use by the physically handicapped.
Study of legal requirements and liability.

510. Assessment and Evaluation of Exceptional Individuals (3) I, II
Prerequisites: Special Education 501 and 505 in area of specialization; concurrent registra-
tion in Special Education 480.
Tests and procedures for assessing, evaluating and monitoring progress of exceptional
individuals to meet their physical, intellectual, social, and emotional needs. Problems in the
psychological diagnosis and appraisal. Utilization of assessment procedures for the
educational and rehabilitation program.
May be taken in each of the areas of specialization:
A. Learning Handicapped
B. Severely Handicapped
C. Multicultural Learning Handicapped

511. Curriculum and Instruction for Exceptional Individuals (3) I, II
Prerequisites: Special Education 501, 505 in area of specialization, 510 in area of specialization;
current registration in Special Education 480.
Utilization of data for determining general and specific objectives to meet the needs unique
to exceptional individuals. Developing and selecting materials and procedures for the achievement
of these objectives. Establishing procedures for monitoring and evaluating pupil
progress.
May be taken in each of the areas of specialization:
A. Learning Handicapped
B. Severely Handicapped
C. Multicultural Learning Handicapped
D. Gifted

512. Personal Adjustment of the Exceptional Individual (3) I, II
Prerequisites: Special Education 501 and 505 in area of specialization.
Overlays of intellectual, emotional and physical problems which influence the success or
failure patterns of individuals with exceptional needs. Strategies used to facilitate the adjust-
ment of the exceptional individual to his environment including home, school and work.
May be taken in each of the areas of specialization:
A. Learning Handicapped
B. Severely Handicapped
C. Physically Handicapped
D. Gifted
E. Emotionally Disturbed

513. Dynamics of Behavior Change and the Exceptional Individual (3) I, II
Prerequisite: Special Education 501.
Management and treatment of individuals with exceptional needs. Current theories and
programs in behavioral change studies analyzed with reference to their applications for the
educational environment.
May be taken in each of the areas of specialization:
A. Learning Handicapped
B. Severely Handicapped

514. Curriculum and Instruction for the Learning Handicapped (2)
Prerequisites: Special Education 505A, 510A.
Utilization of data for determining general and specific objectives to meet the needs of
learning handicapped students. Developing and selecting materials and procedures for the
achievement of these objectives. Establishing procedures for monitoring and evaluating pupil
progress.
Must be taken in each of these areas:
A. Elementary Learning Handicapped
B. Secondary Learning Handicapped

E. Emotionally Disturbed

515. Assessment and Programming for Handicapped Infants and Preschoolers (4) II
Prerequisites: Special Education 501, 505H, and Family Studies and Consumer Sciences 570.
Tests, techniques, and procedures for assessing handicapped infants and preschoolers. Developing, implementing, monitoring, and evaluating educational programs in home-based and center-based programs. Communicating assessment and program objectives and data to parents and other professionals.

523. Multihandicapped/Blind and Early Intervention (3)
Prerequisites: Special Education 471, 500, 501, concurrent registration in Special Education 480; consent of instructor and admission to visually handicapped program.
Curricula, teaching methods, and assessment procedures for the multihandicapped populations. Materials for low-functioning visually handicapped students of all ages. Early intervention, counseling, activities for stimulation.

596. Selected Topics in Special Education (1-4) I, II
Specialized study of selected topics in special education. May be offered as either a workshop or lecture/discussion. See Class Schedule for specific content. Maximum credit six units applicable on a master's degree.

GRADUATE COURSES IN SPECIAL EDUCATION
Refer to the Graduate Bulletin.

Teacher Education
Faculty
Chair (Acting): Murphy
Professors: Ackerly, Becker, Beeklund, Bee, Berg, Burnside, Charles, Cornejo, Curry, Duckworth, Erickson, Fearn, Flood, Gates, Gega, Goodson, Gray, Inskip, Kendal, Lapp, McCabe, McCoy, Moreno, Murphy Nagel, Petason, Pettig, Rickman, Ross, R., Rowland, Shaw, Smith, R., Stautland, Steckbauer, Strom, Teachway, Wilding, Yarborough
Associate Professors: Batkin, Clark, Ford, Fox, Kaatz, Lujan, Malian, Mooers, Morris, Park, Reel, Ross, R., Santa Cruz
Assistant Professors: Belker, Thompson

Offered by the School
Master of Arts degree in education.
Multiple subjects credential.
Reading specialist credential.
Single subject teaching credential.
Certificate in Children's Literature.

Multiple Subjects Credential (Elementary Education)
Standards for Admission
1. C-BEST. Students must take the California Basic Educational Skills Test for admission to the Multiple Subjects Credential program. Applicants for any credential, permit, certificate, supplementary authorization, or the renewal of an emergency credential must pass this examination as required by the Commission on Teacher Credentialing.
2. Major. The Liberal Studies Major, Options 2 and 3, may be selected in preparation for the teaching credential. Students who have academic majors other than Liberal Studies are required to pass the Commission-approved examination. Information may be obtained through the Test Office (LE-560) or through advisers in Education.
3. Prerequisite Courses. These courses are required for admission with a scholastic grade point average of 2.0 (grade of C on a 4.0-point scale) or better:
   - Health Science 101, "Health and Lifestyle," or Health Science 320, "Health Education for Elementary Teachers".......................... 3 units
   - Music 102, "Basic Musicianship for Non-Music Majors".......................... 3 units
   - Physical Education 241, "Physical Education of Children".......................... 2 units
   * With approval of the mathematics adviser, any of the following pairs of mathematics courses may be substituted for Mathematics 210A, 210B: Mathematics 121, 122, 150, 151, 310A, 310B.
4. Grade Point Average. A 2.50 GPA on the last 60 units is required for admission. A 2.50 GPA must be maintained throughout the credential program.
5. Experience. Applicants must provide evidence of a minimum of 45 hours of experience with children in typical classroom settings within the last five years. Such evidence consists of a description and evaluation of the experience by a supervisor. Education courses to satisfy this requirement are available.
7. Certificate of Clearance. The State of California requires that credential candidates possess a valid Certificate of Clearance before admission to the program. Forms and fingerprint cards are available.
8. Credential Advising Appointment. Each applicant must meet with a faculty adviser to plan an appropriate program.
9. Application. Applicants must complete application procedures the semester prior to beginning the credential program.
10. Student Teaching Program Selection. Application for a student teaching block assignment must be filed during the semester prior to beginning student teaching.

New Students Who Seek to Complete a Credential

Teachers with a preliminary credential who are working toward a clear credential may have a program designed to fit their background. Evaluation of college credit completed to date, and arrangements for programming should be made through the College of Education (Room CL-100), 266-5964.

Advanced Standing in Teacher Education

A student transferring into San Diego State University with advanced standing must complete a minimum of six units of professional education work in residence at this university in order to obtain a recommendation for a credential, regardless of the extent of education work completed elsewhere.

Evaluation of Credits

After an interval of five years, prerequisites and courses in education are reevaluated and subject to reduction in credit, in light of new requirements and changes in educational procedures. All courses taken either at this university or elsewhere must be approved by an official adviser in order to be credited toward meeting credential requirements or pattern requirements for a degree.

Multiple Subjects Teaching Credential

Multiple Subjects (Elementary) — Clear Credential

Persons interested in teaching in the elementary school will typically pursue the Multiple Subjects Credential which authorizes the holder to teach in any self-contained classroom, classrooms in which one teacher is responsible for all the subjects commonly taught in the elementary schools. Attainment of this credential requires:

1. A bachelor’s degree (or higher) with any major other than education.
2. Completion of a fifth year of study (30 units of upper division or graduate units),
3. Completion of an approved program of professional education (see School of Teacher Education for further information about the approved programs).
4. Passage of subject matter examination(s) NTE-Commons or waiver thereof through liberal studies major.
5. Knowledge of methods of teaching reading.
8. Course work/fieldwork and/or other to satisfy PL 94142 - "Mainstreaming."

Multiple Subjects (Elementary) — Preliminary Credential

An applicant may be granted a preliminary teaching credential if the applicant has met the requirements listed above in Items 1, 3, 4 and 5. Thus, a person whose program allows him to meet these requirements would be eligible for a preliminary credential at the same time he finishes his four-year college program. During the next five years, however, such persons must complete the remaining requirements in order to become eligible for the "clear" credential.

Description of Interdepartmental Major for Elementary Teaching

Liberal Studies Major

With the A.B. Degree in Applied Arts and Sciences and in Liberal Arts and Sciences

Option 1. This program is available to all students but is not acceptable for the Multiple Subjects credential. Information regarding this option is presented in the Liberal Studies section of this catalog.

Option 2 and Option 3. Liberal Studies with the A.B. Degree in Applied Arts and Sciences. All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

A minor is not required with Options 2 or 3.

The Liberal Studies Major Options 2 and 3 meet all the requirements for the multiple subjects/diversified major as specified for the Multiple Subjects Credential.

Refer to the section of the catalog on Liberal Studies for an outline of the requirements for this major.

Students planning to enter elementary education must consult an advisor in the School of Teacher Education. The following course work is required for acceptance into the education program and may be included in the Liberal Studies Major unless otherwise noted:

- Mathematics 210A, 210B
- Health Science 101 or 320
- Music 102
- Physical Education 241

Other students who wish to take this major must consult the Dean of the Division of Undergraduate Studies to secure program approval.

General advising for Liberal Studies Option 2 is available at the University Advising Center.

Single Subject Credential (Secondary Education)

Standards for Admission

C-BEST Examination

After February 1, 1983, anyone applying to the Commission on Teacher Credentialing for the initial issuance of any credential, permit or certificate, supplementary authorization, or the renewal of an emergency credential is required to have taken and passed the California Basic Educational Skills Test.

Admission to the Single Subject Credential Program

Admission to the Single Subject Credential program is accomplished in three stages:

1. Prerequisite Course (Teacher Education 453: "The Secondary School."

2. Admission to Student Teaching 1 (Teacher Education 423, 454, 463, and preferably 433—except majors in Art, Music and PE.—and Development, Administration and Technology 404).

These courses in Stage 1 comprise the first block of professional education courses and include an initial student teaching experience. Student must provide own transportation.

3. Accelerated Program: Applicants with regular classroom experience of one year or more may be accepted in Stage 2 if they have successfully completed a 3.50 grade point average and may be taken at any time within the individual’s undergraduate or graduate preparation as long as it is taken and completed prior to enrollment in the first block of professional education courses.

Applications must be submitted by October 31 for spring semester and March 31 for fall semester.

2. Admission to Student Teaching 1 (Teacher Education 423, 454, 463, and preferably 433—except majors in Art, Music and PE.—and Development, Administration and Technology 404).

If you choose to submit your application for admission to these courses, you will be required to meet the following deadlines:

- Teacher Education 453 classes, but in any case, the courses must be completed within the individual’s undergraduate or graduate preparation as long as it is taken and completed prior to enrollment in the first block of professional education courses.

Applications must be submitted by October 31 for spring semester and March 31 for fall semester.

2. Admission to Student Teaching 1 (Teacher Education 423, 454, 463, and preferably 433—except majors in Art, Music and PE.—and Development, Administration and Technology 404).

These courses in Stage 1 comprise the first block of professional education courses and include an initial student teaching experience. Student must provide own transportation.

Formal application for admission to these courses will be made at meetings held in the Department of Teacher Education. These meetings must be on file in ED-100H

Teacher Education 453 classes, but in any case, the courses must be completed prior to enrollment in the first block of professional education courses.

Applications must be submitted by October 31 for spring semester and March 31 for fall semester. Check deadline dates in ED-153.
New Students Who Seek to Complete a Credential

Teachers with preliminary credentials who are working toward full certification may have programs designed to fit their background. Evaluation of college credit completed to date, and arrangements for programming should be made through the Credential Office of the College of Education, Room CL-100, 269-5964.

Advanced Standing in Teacher Education

A student transferring into San Diego State University with advanced standing must complete a minimum of six units of professional education work in residence at this university in order to obtain a recommendation for a credential, regardless of the extent of education work completed elsewhere.

Evaluation of Credits

After an interval of five years, courses in education are reevaluated and subject to reduction in credit, in light of new requirements and changes in educational procedures. All courses taken either at this university or elsewhere must be approved by an official adviser in order to be credited toward meeting credential requirements or pattern requirements for a degree.

Single Subject Teaching Credential

Single Subject (Secondary) — Preliminary

Persons interested in teaching in the secondary school will pursue the single subject credential which authorizes the holder to teach K-12 in only the following subjects:

ACCEPTABLE SINGLE SUBJECT AREAS

<table>

Attainment of this credential requires:

1. A bachelor’s degree (or higher) with one of the approved single subject majors listed above. Credentials can be granted only in the above single subject credential areas.
2. Completion of an approved program of professional education. The required courses are Teacher Education 423, 433, 453, 454 (except for majors in Music, Art, and Physical Education). The reading requirement may also be satisfied by completion of the Reading section of the NTE test, 403, 404, 463, 464, and Development, Administration and Technology 404.
3. Passage of subject matter examination(s) (NTE test) or waiver thereof through completion of approved credential major in one of the areas listed above, with written recommendation from the departmental Ryan adviser.
4. Knowledge of U.S. Constitution, as demonstrated by successful completion of approved course or examination (see the section of this catalog on “Graduation Requirements”)
5. Successful completion of Health Science 321.

Persons whose programs allow them to meet these requirements would be eligible for a preliminary credential at the same time they finish a four-year college program.

NOTE: Undergraduate students in their final semester prior to obtaining a baccalaureate degree may sign up for concurrent postbaccalaureate credit as explained in the section of this catalog on “General Regulations.”

Single Subject (Secondary) — Clear

An applicant may be granted a CLEAR teaching credential if all of the requirements listed above have been met and the student has completed a fifth year of study (30 units of upper division or graduate level courses after completion of the baccalaureate degree).

NOTE: Undergraduate students in their final semester prior to obtaining a baccalaureate degree may sign up for concurrent postbaccalaureate credit as explained in the section of this catalog on “General Regulations.”

Reading Specialist Credential

San Diego State University offers a program leading to a Reading Specialist Credential. This credential authorizes the holder to function as a reading specialist in grades K through 12.
For information concerning this credential, the student is referred to the Reading Center, Room NE 68.

Requirements for Admission

1. A valid California basic teaching credential applicable within the range of grades kindergarten to 12.
2. Admission and planning interviews with a program adviser.
3. An approved basic course in methods and materials for teaching reading.

Electives | 8

Additional Requirements

1. A minimum of one year of full-time teaching experience (or the equivalent) within the range of grades kindergarten to 12.
2. Satisfactory completion of a comprehensive examination covering the program course work.
3. Satisfactory completion of the Graduate Record Examination.

A master's degree is not a requirement for this credential; however, courses in the program described above may be acceptable also for the Master of Arts in Education degree with a concentration in Reading Education. The eight units of elective for this credential must be selected with the approval of a reading program adviser. Education 795A and 795B may be taken as elective units for the credential, as may up to two additional units of Teacher Education 638. Topics in Reading Education.

Children's Literature Certificate

This certificate attests that the student has successfully completed 18 units (minimum GPA 3.0) of planned, advised, coherent, and articulated study in the field of literature for children. Prerequisites include admission to the University and to upper division or graduate standing. The Certificate in Children's Literature may be earned with a specialization either in Education or in English and Comparative Literature.

Specialization in Education. Nine units from courses in group A, six units from group B, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Specialization in English and Comparative Literature. Nine units from courses in group B, six units from group A, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Group A: Education: Education 496*, Development, Administration and Technology 596; Teacher Education 530, 531, 532.

Group B, English and Comparative Literature: Comparative Literature 561 (when offered as European Children's Literature); English 496*, 501, 526*, 527*, 528*, 549*.

* With adviser's permission when the subject is closely related to children's literature.

General

**UPPER DIVISION COURSES IN TEACHER EDUCATION**

(Also Acceptable for Advanced Degrees)

528. Discipline and Classroom Management (3) I, II
   Prerequisite: Six upper division units in education, psychology or sociology. Analysis of research and theories of classroom discipline, management, and teaching effectiveness, with practical application to the elementary classroom setting. (Formerly numbered Elementary Education 532.)

529. Teaching the Special Child in the Regular Classroom (2)
   Prerequisite: Teaching of instruction, or admission to multiple subjects credential program. Knowledge, skills, and instructional programs for teaching handicapped students in the regular classroom. Meets the mainstreaming requirements for the California Multiple Subjects Credential (clear). Not open to students with credit in Special Education 560. (Formerly numbered Elementary Education 568.)

546. Classroom Measurement and Evaluation (3) Irregular
   The use of intelligence and achievement tests in the diagnosis and improvement of learning. The use of intelligence and achievement tests in the diagnosis and improvement of learning. (Formerly numbered Elementary Education 562.)

548. Quantitative Methods in Educational Research (3) I, II
   Basic tests of statistical significance with special reference to the interpretation of educational data. (Formerly numbered Secondary Education 564.)

596. Topics in Teacher Education (1-3) or 6 I, II SP*
   Designed to meet the needs of individual or groups of teachers who wish to develop or to continue the study of some problem with the consultation of program adviser. May be repeated with new content. See Class Schedule for specific content and number of units. (Formerly numbered Secondary Education 596 and 597.)

   * Specified sections.
Elementary Education

LOWER DIVISION COURSE IN TEACHER EDUCATION

290. Careers in Elementary Education (3) I, II
Six hours of activity. Fieldwork required.
Prerequisite: Satisfactory completion of 12 hours of university course work.
Exploring elementary education as a profession, to include reviews of preparation requirements, pattens of classroom and school organization, and the role of the elementary educator in various instructional environments. Observation and participation in schools and school-related settings. (Formerly numbered Elementary Education 200.)

UPPER DIVISION COURSES IN TEACHER EDUCATION

(Indented for Undergraduates)

300. Classroom Management Skills (1) I, II
Two hours of activity.
Prerequisite: Provisional or complete admission to multiple subjects credential program.
Skills in interpreting the legal aspects of education, identifying various kinds of school and classroom organization, and using instructional media and verbal stimuli to facilitate learning. (formerly numbered Elementary Education 313.)

301. Skills in Curriculum Organization (2) I, II
Four hours of activity.
Prerequisite: Admission to multiple subjects credential program.
Skills in planning, following and evaluating long-range instruction in the various school subjects. (Formerly numbered Elementary Education 317.)

320. Child-Study Skills (2) I, II
Four hours of activity.
Prerequisites: Psychology 101 and provisional or complete admission to multiple subjects credential program.
Skills in observing and interpreting the behavior of elementary school children as influenced by physical, emotional, social, and intellectual growth. (Formerly numbered Elementary Education 311.)

321. Skills in Applying Instructional Principles (2) I, II
Four hours of activity.
Prerequisite: Admission to multiple subjects credential program.
Skills in using the principles of instruction related to readiness, motivation, efficiency of learning and transfer of learning to organize an effective learning environment for children. (Formerly numbered Elementary Education 315.)

322. Skills in Teaching Critical Thinking (2) I
Four hours of activity.
Prerequisite: Admission to multiple subjects credential program.
Skills in developing instructional strategies to guide children in concept development, inquiry, exploration of creativity, and learning in the affective domain. (Formerly numbered Elementary Education 316.)

323. Psychological Foundations of Education (1-3) I, II, S
Two hours of activity per unit.
Prerequisites: Psychology 101 and admission to multiple subjects credential program.
Implementing the learning process through interactive skills, using instructional principles to facilitate learning and changes in behavior and techniques used in assessing instruction and pupil growth. (Formerly numbered Elementary Education 261.)

350. Community-Study Skills (2) I, II
Four hours of activity.
Prerequisite: Provisional or complete admission to multiple subjects credential program.
Skills in observing and interpreting professional values and the diversity of social, cultural, economic and educational values within elementary school communities. (Formerly numbered Elementary Education 312.)
410F. Teaching Science and Social Studies in the Elementary School (1-3) I, II
Two hours of activity per unit.
Prerequisite: Admission to multiple subjects credential program or possession of a teaching credential.
Developing and using instructional programs to facilitate growth in critical thinking and using informational resources to learn and apply concepts and generalizations from the various sciences and social sciences. (Formerly numbered Elementary Education 418.)

411. Adapting Arts and Crafts to Individual Needs (3) I, II
One and one-half hours of lecture and three hours of activity.
Prerequisite: Admission to multiple subjects credential program or possession of a teaching credential.
Adapting arts and crafts instruction for individuals with physical, sensory, cognitive needs. Emphasis on visual arts for enhancement of growth and development. Discussion, demonstration, practice of broad range of techniques, materials, strategies. (Formerly numbered Elementary Education 436.)

460. Basic Student Teaching in Elementary Schools (1-12) I, II Cr/NC
Prerequisites: Admission to multiple subjects credential program and concurrent registration in Teacher Education 360.
Day-to-day teaching experiences including selected instructional activities for which a teacher in a classroom is normally responsible. (Formerly numbered Elementary Education 401.)

461. Advanced Student Teaching in Elementary Schools (1-12) I, II Cr/NC
Prerequisites: Satisfactory completion of Teacher Education 360, 460, and concurrent registration in Teacher Education 361.
Teaching experiences including all the instructional activities for which a teacher in a classroom is normally responsible. (Formerly numbered Elementary Education 402.)

UPPER DIVISION COURSES IN TEACHER EDUCATION
(Also Acceptable for Advanced Degrees)

510. Social Studies Unit Construction in Elementary Education (3)
Prerequisite: Teacher Education 410B:
Selecting and organizing content, analyzing materials, and developing instructional units in elementary social studies for classroom use. (Formerly numbered Elementary Education 514.)

511. Diagnosis and Remediation of Difficulties in Mathematics (3)
The assessment and remediation of underachievers in mathematics. Techniques in determining difficulties in mathematics and prescribing remedial work for use by elementary and secondary classroom teachers and mathematics education specialists. (Formerly numbered Elementary Education 523.)

512. Arts and Crafts for Teachers: A Multicultural Approach (3)
One lecture and four hours of activity.
Prerequisite: Twelve units in education; Art histories and craft traditions from world cultures. Creation of instructional materials from different cultural sources. (Formerly numbered Elementary Education 528.)

520. Seminar in Child Development (3)
Prerequisite: One course in child development.
Patterns in human development, especially in children ages eight and younger. Interpreting child development to differentiated staff, paraprofessionals, parents and community members. Planning for continuous progress; Reporting progress to parents. (Formerly numbered Elementary Education 571.)

Secondary Education

UPPER DIVISION COURSES IN TEACHER EDUCATION
(Intended for Undergraduates)

403. Secondary School Student Teaching Seminar (1 or 3) I, II Cr/NC
Prerequisites: Teacher Education 423, 433, 453, 454, 463. To be taken concurrently with Teacher Education 464.
To plan and organize instruction in relation to all competencies acquired and to be implemented in an on-site, full-time student teaching assignment. May be repeated with new content. Maximum credit three units. (Formerly numbered Secondary Education 407.)

414. Methods and Materials of Instruction: Major (2) Irregular
One lecture and three hours of laboratory.
Professional courses in specific teaching fields usually taken concurrently with directed teaching. Each course emphasizes the application of best practices with reference to each subject area named. (Formerly numbered Secondary Education 414.)
A. Methods in English
B. Methods in Social Science (Formerly numbered Secondary Education 414D.)

423. Behavioral and Psychological Aspects of Teaching (4) I, II
Prerequisites: Teacher Education 453 and admission to single subject credential program.
Teaching competencies as they relate to learning theories, adolescent growth, self-assessment, measurement and evaluation. (Formerly numbered Secondary Education 402.)

433. Behavioral and Psychological Aspects of Teaching (4) I, II
Prerequisites: Teacher Education 453 and admission to single subject credential program.
Teaching competencies as they relate to learning theories, adolescent growth, self-assessment, measurement and evaluation. (Formerly numbered Secondary Education 402.)

443. Secondary School Student Teaching I (1-6) I, II Cr/NC/SP
Prerequisites: Teacher Education 423 and admission to single subject credential program.
To be taken concurrently with Teacher Education 423 and 453. To be taken concurrently with Teacher Education 423 and 454. Teacher Education 454 is highly recommended to be taken at this time (not required for majors in art, music and physical education). Student must provide own transportation to student teaching site. On-site, part-time experience to implement teacher competencies developed in Teacher Education 423 and 454. Maximum credit six units. (Formerly numbered Secondary Education 405.)

444. Secondary School Student Teaching II (1-6) I, II Cr/NC/SP
Prerequisites: Teacher Education 423, 433, 453, 454 (except majors in art, music and physical education), 463, and Development, Administration, and Technology, 404. To be taken concurrently with Teacher Education 403. Student must provide own transportation to student teaching site. On-site, full-day experience to implement teacher competencies developed from the total professional sequence. Maximum credit twelve units. (Formerly numbered Secondary Education 406.)

Reading and Language Arts

UPPER DIVISION COURSES IN TEACHER EDUCATION
(Intended for Undergraduates)

396W. Advanced Writing Skills in Education (3)
Writing to improve communication in educational and related subjects, including reports, proposals, and articles. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency Requirement, and completed the General Education requirement in Written Communication. (Formerly numbered Elementary Education 396W.)
430A. Teaching Reading in the Elementary School (1-3) I, II
Two hours of activity per unit.
Prerequisites: Admission to multiple subjects credential program or possession of a teaching credential.
The nature of reading as a human behavior; the various approaches, materials, and techniques used in teaching reading. (Formerly numbered Elementary Education 411.)

430B. Teaching Language Arts in the Elementary School (1-2) I, II
Two hours of activity per unit.
Prerequisites: Admission to multiple subjects credential program or possession of a teaching credential.
Selecting, designing and evaluating appropriate learning experiences to assure children's growth in language arts. (Formerly numbered Elementary Education 412.)

431. Skills In Teaching Reading (2) I, II
Four hours of activity.
Prerequisites: Admission to multiple subjects credential program or possession of a teaching credential.
Skills in teaching beginning reading, word analysis, comprehension, literary interpretation and independent investigation. (Formerly numbered Elementary Education 421.)

432. Skills In Teaching Remedial Reading (1) I, II
Two hours of activity.
Prerequisites: Admission to multiple subjects credential program and Teacher Education credential.
Skills in diagnosing and remediating children's reading difficulties. (Formerly numbered Elementary Education 431.)

433. Teaching of Reading in the Secondary School (3) I, II
Teacher competencies as they relate to the teaching of reading/writing and diagnosing needs in the content areas. (Formerly numbered Secondary Education 403.)

UPPER DIVISION COURSES IN TEACHER EDUCATION
(Also Acceptable for Advanced Degrees)

530. Children's Literature in Elementary Education (3) I, II
A survey of children's literature; the selection and use of material in the elementary classroom. (Formerly numbered Elementary Education 512.)

531. Storytelling (3)
Prerequisites: Basic language arts course, children's literature.
Art of storytelling, including planning of the story hour, selecting suitable materials, techniques for learning and presenting various story types. Selection of literature appropriate for oral presentation to different groups and age levels. (Formerly numbered Elementary Education 522.)

532. Children's Literature on Film (3)
Six hours of activity.
Current and classic children's literature as expressed on film. Selection criteria, sources, and identification of guidance and film-related activities. (Formerly numbered Educational Technology and Librarianship 578.)

536. Reading Diagnosis (3)
Prerequisites: Valid teaching credential and consent of instructor.
Formal and informal diagnosis of reading difficulties and the exploration of remedial techniques. (Formerly numbered Education 511.)

GRADUATE COURSES IN TEACHER EDUCATION
Refer to the Graduate Bulletin

College of Engineering

The undergraduate degrees in aerospace, civil, electrical, and mechanical engineering, are accredited by the Accreditation Board for Engineering and Technology, Inc.

Faculty
- Dean: Craig
- Associate Dean: Hussain
- Assistant Dean: Stratton

Offered by the College of Engineering
- Master of Science degree in aerospace, civil, electrical and mechanical engineering.
- Major in aerospace engineering with the B.S. degree.
- Major in civil engineering with the B.S. degree.
- Major in electrical engineering with the B.S. degree.
- Major in mechanical engineering with the B.S. degree.

Undergraduate Program
The objective of the engineering program at San Diego State University is to provide the intellectual and physical environment that will encourage students to develop their capacities toward a successful career in the profession of engineering. The graduates of this program are able to assume personal responsibility for the development and application of engineering knowledge. They are qualified to take the Engineer-in-Training examination as a first step to professional registration, to enter industry at the junior engineer level, or to continue their formal education at the graduate level. Because the engineer's work is predominantly intellectual and varied, and not of a routine mental or physical character, this program places emphasis on the mastery of a strong core of subject matter in the physical sciences, mathematics, and the engineering sciences of broad applicability. Woven throughout the pattern is a continuing study of the sociohumanistic facets of our civilization, because the engineering graduates must expect to find their best expression as leaders, conscious of the social and economic implications of their decisions.

Although the profession of engineering presents in practice a variety of specialties, undergraduate students initially focus their attention on a pattern of course work emphasizing engineering fundamentals. Students then are able to utilize this knowledge of fundamentals in developing special knowledge in their area of specific interest. The College of Engineering subscribes to the intent of the statements approved by the Engineering Liaison Committee of the State of California. Students transferring from California community colleges will be given junior level standing if they have successfully completed lower division course work in mathematics, chemistry, physics and engineering appropriate to their engineering major, presuming, upon transfer, that they have completed at least 50 percent of the graduation unit requirements in their major.

Transfer Credit
No credit will be given for upper division engineering course work taken at an institution having an engineering program which has not been accredited by the Accreditation Board for Engineering and Technology, Inc., unless the student successfully completes the first 12 units of engineering work attempted at this university. At that time, and upon recommendation of the student's major department, credit will be given for the unaccredited work.

Graduation Requirements
1. A minimum of 133 semester units.
2. A minimum of 30 units in residence. Twenty-four of these shall be earned in upper division courses and shall include at least one-half of the major.
3. A scholastic grade point average of 2.0 (grade of C on a five-point scale) or better in (a) all units attempted, (b) all units in the major, and (c) all units attempted at this university.

Graduate Program
Admission to the graduate program in the College of Engineering is competitive. Students admitted to the graduate program must fulfill the following requirements:

- A minimum of 18 units in residence
- A minimum of 90 units toward the baccalaureate degree
- A minimum of 30 units in the major field
- A minimum of 9 units in the required courses
- A minimum GPA of 3.0

Students must maintain a minimum GPA of 3.0 in the major field and in all courses of the major.

Transfer Credit
Credit for graduate study is awarded with the recommendation of the appropriate college or graduate program.

Core Courses
The core courses in the major field are required of all graduate students completing a degree in the College of Engineering. The core courses are designed to provide a general foundation in the major field. The core courses are:

1. A minimum of 30 units in residence
2. A minimum of 90 units toward the baccalaureate degree
3. A minimum of 30 units in the major field
4. A minimum of 9 units in the required courses
5. A minimum GPA of 3.0

Students must maintain a minimum GPA of 3.0 in the major field and in all courses of the major.

Transfer Credit
Credit for graduate study is awarded with the recommendation of the appropriate college or graduate program.
4. At least 36 upper division units. (However, a typical program usually consists of at least 53 upper division units.)
5. Any student who does not wish to pursue the Bachelor of Science degree in aerospace, civil, electrical, or mechanical engineering must plan a course of study which must be approved by the Dean of the College of Engineering.
6. Satisfactory completion of competency tests in mathematics and writing, or completion of appropriate courses designated in lieu thereof.
7. Satisfaction of the upper division writing requirement.
8. All regulations established by the university.
9. American Institutions, to include competence in American history, institutions and ideas, U.S. Constitution, and California state and local government.
10. General Education requirements (see below).
11. Application for graduation.

GENERAL EDUCATION

Students will complete a minimum of 50 units in General Education, to include a minimum of nine upper division units taken after attaining junior class standing. At least six of the nine upper division units must be taken from Explorations; the remaining three units may be taken from Explorations or from specifically approved upper division course substitutions for Foundations areas B and C (Social and Behavioral Sciences and Humanities). See the College of Engineering for a list of those approved courses. No more than 12 units may be used for General Education credit from any one department or academic unit.

I. Communication and Analytical Reasoning: 15 units
   A. Written Communication (6 units to include):
      1. Composition (3 units)
      2. Intermediate Composition (3 units)
   B. Oral Communication (3 units)
   C. Mathematics (6 units)
      Mathematics 150
      Mathematics 151

II. Foundations: 29 units
   A. Natural Science (17 units to include):
      1. Life Science (3 units)
      2. Physical Science (14 units)
         Chemistry 200
         Physics 196
         Physics 197
   B. Social and Behavioral Sciences (3 units)
   C. Humanities (9 units to include three of the four areas 1., 2., 3., 4.)

III. Explorations: 6 units
    At least three of the Explorations units must be from Social and Behavioral Sciences and three must be cross-cultural.
    At least nine of the total General Education units must be at the upper division level and may include courses listed in Explorations as well as approved course substitutions taken after the student has attained junior class standing. See your adviser for listing.

Minor in Engineering

The minor in engineering, intended for students in other academic areas of the university, consists of 15 units in engineering, 12 units of which must be in upper division courses. The courses must be approved by the Dean of the College of Engineering.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.
UPPER DIVISION COURSES IN ENGINEERING
(Also Acceptable for Advanced Degrees)

510. Methods of Analysis (3) I, II
Prerequisites: Engineering 310 with minimum grade of C.
Selected topics from vector calculus, partial differential equations, and complex analysis, with engineering applications.

511. Digital Solutions of Engineering Problems (3)
Prerequisites: Engineering 120 or Mathematics 107, and Engineering 310.
Digital solution of classes of engineering problems. Application of numerical methods with consideration of limitations imposed by computer and programming language characteristics.

GRADUATE COURSES IN ENGINEERING
Refer to the Graduate Bulletin.

Aerospace Engineering and Engineering Mechanics

Faculty
Emeritus: Shutts
Chair (Acting): Hussain
Professors: Conly, Dharmarajan, Krishnamoorthy, McGhee, Narang, Pienucci, Wang
Associate Professor: Moses
Assistant Professor: Nosset
Lecturers: Faulkner, Srivastava

Offered by the Department
Master of Science degree in aerospace engineering.
Major in aerospace engineering with the B.S. degree.

Aerospace Engineering Major
With the B.S. Degree

Students majoring in Aerospace Engineering must include in their program a sequence of fundamental courses. In addition, the students have the opportunity to satisfy their particular areas of interest by selecting a pattern of study indicated in the sequence below. This pattern includes typical aerospace engineering topics, such as aerospace vehicle design, performance, structural analysis, aerodynamics, and propulsion. The students' choice of elective courses and area of specialization must be made in consultation with their adviser and documented by the filing of an approved master plan during the first semester of their junior year.

Upper Division Writing Requirement. Departmental screening in AE 303, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

The requirements for the major in aerospace engineering are described as follows:

Freshman Year

**Units:** 17

### Lower Division Course in Aerospace Engineering

**123. The Aerospace Engineer (1)**
Introduction to professional aerospace engineering. Emphasis on aeronautics and astronautics.

### Upper Division Courses in Aerospace Engineering

#### Intended for Undergraduates

**301. Low Speed Aerodynamics (3)**
Prerequisite: Credit or concurrent registration in Engineering Mechanics 340.
Subsonic flow, airfoil and wing theory, experimental characteristics of wing sections, high lift devices.

**302. High Speed Aerodynamics (3)**
Prerequisites: Aerospace Engineering 301 and Mechanical Engineering 360.
Supersonic flow, two- and three-dimensional compressible flow, wings in compressible flow, two- and three-dimensional method of characteristics, transonic flow.

**303. Experimental Aerodynamics (2)**
Prerequisite: Credit or concurrent registration in Aerospace Engineering 301.

**310A-310B. Aerospace Structural Analysis (3-3)**
Prerequisite: Civil Engineering 301: Aerospace Engineering 310A is prerequisite to 310B.
Methods of structural analysis including both the static and dynamic aspects of problems encountered in the flight of aerospace vehicles.

**320. Aerospace Flight Mechanics (3)**
Prerequisites: Engineering Mechanics 220, and Engineering 310.
Aerodynamics and dynamics of ballistic missiles; guidance systems; orbits and space trajectories; effects of aerodynamics, mass, rotation and shape of the earth on ballistic and space trajectories. Computer programming and problem solutions will be emphasized.

**403. Aerospace Engineering Senior Project (3)**
Design and build an aerospace project, conduct experimental measurements, perform analyses of measured data.

**430. Aircraft Propulsion Systems (3)**
Prerequisite: Aerospace Engineering 302 or Mechanical Engineering 430.
Theory and performance characteristics of aircraft propulsion systems including reciprocating engines, jet engines, ramjets, etc.

**440. Aircraft Stability and Control (3)**
Prerequisite: Aerospace Engineering 303.
Static stability and control, general equations of unsteady motion, stability, derivatives, stability of uncontrolled motion, response of aircraft to actuation of controls.

**460A. Aerospace Engineering Applications (2)**
Six hours of laboratory.
Prerequisites: Aerospace Engineering 302, 303 and 310A.
Student projects in aerospace design.

**460B. Aerospace Engineering Applications (3)**
One lecture and five hours of design activity.
Prerequisite: Aerospace Engineering 460A.
Student projects in aerospace design.

**480. Aeroelasticity and Acoustics (3)**
Prerequisites: Aerospace Engineering 302 and 310B.

**496. Advanced Aerospace Engineering Topics (1-3)**
Prerequisite: Consent of Instructor.
Modern developments in engineering. See Class Schedule for specific content. Maximum credit six units for any combination of Aerospace Engineering 496 and 499.

**499. Special Study (1-3)**
Prerequisites: Minimum grade point average of 2.0 in engineering or approval of the Academic and Ethical Standards Committee of the College of Engineering.
Individual study. Maximum credit six units for any combination of Aerospace Engineering 496 and 499.

### Upper Division Courses in Aerospace Engineering

#### Also Acceptable for Advanced Degrees

**501. Computational Fluid Mechanics (3)**
Prerequisites: Engineering 120 and Engineering Mechanics 340.
Finite difference methods of solution to fluid dynamics equations of the potential flow. Convergence and stability of the difference equations.

**502. Computational Fluid Dynamics (3)**
Prerequisites: Aerospace Engineering 302 and 310B.
Finite difference methods of solution to fluid dynamics equations of the potential flow. Use of hot-wire anemometer and schlieren equipment.

**503. Control Theory (3)**
Prerequisite: Consent of instructor.
Modern developments in control theory. See Class Schedule for specific content. Maximum credit six units for any combination of Aerospace Engineering 496 and 499.
310 / Engineering/AE & EM

510. Matrix Methods in Aerospace Structures (3)
Prerequisite: Aerospace Engineering 310B.
Static and dynamic analysis of aerospace structures utilizing matrix methods.

520. Intermediate Aerospace Flight Mechanics (3)
Prerequisite: Aerospace Engineering 320.
A continuation of Aerospace Engineering 320 to include orbit determination techniques, general and special perturbations, artificial satellites, rocket dynamics and transfer orbits, earth-moon trajectories, and interplanetary trajectories.

530. Rocket and Space Propulsion (3)
Prerequisite: Aerospace Engineering 430.
Equilibrium combustion thermodynamics. Performance of rocket propelled vehicles. Rocket propulsion fundamentals. Topics in chemical (solid and liquid) and electrical propulsion systems.

540. Aircraft Stability and Control II (3)
Prerequisite: Aerospace Engineering 440.
Dynamic stability and control of rigid aircraft; general equations of unsteady motion, stability derivations, perturbed state thrust forces and moment, special problems in dynamic stability and response.

Engineering Mechanics

LOWER DIVISION COURSES

200. Statics (3)
Prerequisites: Physics 195 and credit or concurrent registration in Mathematics 151.
Force systems, equilibrium, structures, distributed forces, friction, virtual work, moments of inertia, vector algebra.

202. Mechanics for Electrical Engineers (3)
Prerequisites: Physics 195 and credit or concurrent registration in Mathematics 151.
Essentials of mechanics of particles and rigid bodies, for engineering applications. Emphasis on particle dynamics. Intended for Electrical Engineering majors. Not open to students with credit in Engineering Mechanics 220 or 220.

220. Dynamics (3)
Prerequisite: Engineering Mechanics 200 with a minimum grade of C.
Kinetics of a particle: central force motion; systems of particles; work and energy; impulse and momentum; moments and products of inertia; Euler's equations of motion; vibration and time response; engineering applications.

UPPER DIVISION COURSES IN ENGINEERING MECHANICS

340. Fluid Mechanics (3)
Prerequisites: Engineering Mechanics 220 or 220; and credit or concurrent registration in Engineering 310.
Fluid statics. Laminar and turbulent flow of liquids and gases in pipes, nozzles, and channels. Dimensional analysis and modeling. Drag forces on moving or immersed objects.

341. Fluid Mechanics Laboratory (1)
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Engineering Mechanics 340.

496. Advanced Engineering Mechanics Topics (1-3)
Prerequisites: Minimum grade point average of 2.0 in engineering or approval of the Academic and Ethical Standards Committee of the College of Engineering.

Engineering/AE & EM / 311

499. Special Study (1-3)
Prerequisite: Consent of instructor. Individual study. Maximum credit six units for any combination of Engineering Mechanics 496, 499 and 596.

UPPER DIVISION COURSES IN ENGINEERING MECHANICS

(Also Acceptable for Advanced Degrees)

521. Advanced Mechanics of Deformable Media (3)
Prerequisites: Aerospace Engineering 310B and Engineering 510.
Application of advanced topics in mechanics of deformable media to the design of aerospace structural components. Theory of failure, curved beams, beams on elastic foundation, thick-walled cylinders. Fracture mechanics and optimization of structures.

540. Intermediate Fluid Mechanics (3)
Prerequisites: Credit or concurrent registration in Engineering Mechanics 340 and Engineering 510.

596. Advanced Engineering Mechanics Topics (1-3)
Prerequisite: Consent of instructor. Modern developments in engineering mechanics. See Class Schedule for specific content. Maximum credit six units for any combination of Engineering Mechanics 496, 499 and 596.

GRADUATE COURSES IN AEROSPACE ENGINEERING AND ENGINEERING MECHANICS

Refer to the Graduate Bulletin.
Civil Engineering

Faculty
Emeritus: Capp, Quiet, Stone
Chair: Chou
Professors: Chang, H., Chou, Johnson, Noorany, Ponce, Stratton
Associate Professors: Banks, Drekjian, Fragastry, Shabati, Supernak, Wetsorno

Offered by the Department
Master of Science degree in civil engineering.
Major in civil engineering with the B.S. degree.

Civil Engineering Major

With the B.S. Degree

All students in Civil Engineering pursue a common program of study in basic engineering and civil engineering fundamentals. In addition, students are provided with the opportunity to select a pattern of study to satisfy their areas of interest. This pattern of study is indicated in the sequence below as "professional electives" and may be selected from available courses in foundation, structural, environmental, transportation, or water resources engineering; computer programming; advanced surveying; engineering economics; and other areas.

The students' choice of elective courses must be made in consultation with their adviser and documented by the filing of an approved master plan during the first semester of their junior year.

### Upper Division Writing Requirement
Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

### The requirements for the major in civil engineering are described as follows:

#### 218. Surveying for Civil Engineers (3) I, II

Two lectures and three hours of laboratory.

**Prerequisites:** Engineering 140 and Mathematics 151.

#### UPPer DIVISION COURSES IN CIVIL ENGINEERING

(Interdisciplinary for Undergraduates)

201. Introduction to Solid Mechanics (3) I, II

- Three hours of laboratory.
- Prerequisites: Engineering Mechanics 220 and credit or concurrent registration in Engineering Mechanics 310.

- Mechanics of solid deformable bodies involving analytical methods for determining strength, stiffness, and stability of load-carrying members. (Formerly numbered Engineering Mechanics 301.)

202. Solid Mechanics Laboratory (1) I, II

- Laboratory studies in solid mechanics. Experimental stress analysis. Experimental confirmation of theory. (Formerly numbered Engineering Mechanics 302.)

211. Structural Analysis I (4) I, II

- Prerequisites: Civil Engineering 301 with minimum grade of C.

- Principles of mechanics applied to analysis of beams, frames, trusses, and three-dimensional frameworks. Graphical methods, influence lines, deflections, introduction to statically indeterminate structures and moment distribution.

212. Structural Analysis II (4) I, II

- Prerequisites: Civil Engineering 301 with minimum grade of C.

- The application of civil engineering methodology to the solution of environmental problems.

421. Reinforced Concrete Design (3) I, II

- Prerequisites: Civil Engineering 321 with minimum grade of C.

- Properties and characteristics of reinforced concrete. Design of structural components. Introduction to plastic theory and limit design.

422. Timber Design (2) I

- Prerequisites: Civil Engineering 321 with a minimum grade of C.

- Design of various types of wood structures. Connection design.

444. Applied Hydraulics (3) I, II

- Prerequisites: Engineering Mechanics 340.

- Open channel and pressure conduit flow, pumps and turbines, hydroelectric power, and water law.
445. Applied Hydrology (3) I, II
Prerequisite: Civil Engineering 444 with a minimum grade of C.
Precipitation, streamflow, frequency analysis, hydrologic routing, urban and small
washed hydrology, hydrologic design.

462. Soil Mechanics (3) I, II
Prerequisites: Geological Sciences 253, Civil Engineering 301 with a minimum grade of C,
credit or concurrent registration in Engineering Mechanics 340, and concurrent registration in
Civil Engineering 463.
Mechanics of soils as they apply to engineering problems, soil classification, compaction,
swelling, consolidation, strength and permeability. Applications to geotechnical engineering
problems.

463. Soil Mechanics Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Concurrent registration in Civil Engineering 462.
Laboratory procedures of soil testing for engineering problems.

465. Foundation Engineering (3) II
Prerequisites: Civil Engineering 462 and 463 with minimum grades of C.
Soil mechanics theories applied to the design of shallow and deep foundations; lateral
pressure of soils, design of retaining walls.

479. Construction Materials (3) II
Two lectures and three hours of laboratory.
Prerequisites: Civil Engineering 462 and 481.
Selection, design and control of mixes of portland cement and asphalt concrete. Properties
of these and other materials used in construction.

481. Transportation Engineering (3) I, II
Prerequisite: Civil Engineering 218 with minimum grade of C.
Function and design of different modes of transportation for moving people and goods; and
concurring terminal facilities.

482. Highway Engineering (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Civil Engineering 481 with minimum grade of C.
Highway planning, economics, and administration; geometric design; traffic engineering;
subgrade structure; bituminous and portland-cement concrete pavements.

492. Construction Project Planning (2) I, II
Prerequisites: Civil Engineering 321 and 481; credit or concurrent registration in Engineering
430.
Analysis of complex engineering and industrial systems using critical path methods; planning
and control parameters; network analysis including optimization of deterministic and
stochastic models; resource allocation; scheduling; student projects.

521. Structural Analysis II (3) I
Prerequisite: Civil Engineering 321 with minimum grade of C.
Analysis of statically indeterminate structures by virtual work. Advanced treatment of slope
deflection, moment distribution. Arch analysis, secondary stresses in trusses. Advanced treat-
ment of influence lines. Introduction to matrix analysis of structures.
Electrical Engineering

Faculty
Emeritus: Brown, Chan, Learned, Mann, Skaar, Walling
Chair: Lin, M.
Professors: Abut, Chang, Harris, H. Harris, J. Iosupovic, Lee, Lin, M., Lodge, Marino, Massey, Stuart
Associate Professors: Lin, C., Nunez, Panos, Suto, Szeto, Thyagarajan
Assistant Professor: Betancourt
Lecturer: Wilson

Electrical Engineering Major

With the B.S. Degree

The program below describes the requirements for the degree. Each course specifically listed in the program is required. In addition, the total number of units specified in each of the elective categories represents a minimum requirement. These are: General Education, 24 units; American Institutions, 6 units; Professional Electives, 28 units. The semester in each course or elective is listed in the program below is typical, but not required. Any variation that satisfies course prerequisites is acceptable.

The General Education and American Institutions electives must satisfy University requirements described elsewhere in this catalog. Professional Electives include all upper division EE courses and approved upper division courses in other departments. The 28 Professional Elective units must include at least nine units of EE design (EE 373, 420, 450, 470, 475, 570, 571, 580, and 581); at least three units of basic engineering (CE 301, EM 340, and ME 350); at least one unit of EE laboratory.

upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses in English or Information Systems with a grade of C (2.0) or better.

LOWER DIVISION COURSES IN ELECTRICAL ENGINEERING

203. Principles of Electrical Engineering (3) I, II
Prerequisites: Physics 186 and Mathematics 151.
Direct current circuit analysis, d-c meters, alternating current analysis, phasor diagrams, single-phase and three-phase power, diodes and semiconductors, transistors and integrated circuits. Not acceptable for electrical engineering major.

210. Electrical Network Analysis I (3) I, II
Prerequisites: Physics 186 and Mathematics 151.
Circuit analysis by reduction methods, source transformations, loop and nodal analyses, OPAMP model for networks, transient analysis, alternating current circuits, impedance, power and phasor diagrams.

210. Digital Systems (3) I, II
Prerequisite: Mathematics 151.
Modelling, analysis and design of digital systems, primarily at the Logic Design level. Combinational and sequential networks. Not open to students with credit in Electrical Engineering 370.

UPPER DIVISION COURSES IN ELECTRICAL ENGINEERING

(intended for undergraduates)

302. Electronics, Instrumentation, and Electrical Energy Conversion (3) I, II
Prerequisite: Electrical Engineering 203.

310. Electrical Network Analysis II (3) I, II
Prerequisites: Electrical Engineering 210, Engineering 120, and Mathematics 252.
Mesh and nodal analysis using network equations, frequency and time response of networks, two-port parameters, transient analysis of circuits, state-space, and computer-aided network analysis and applications.

330. Fundamentals of Engineering Electronics (3) I, II
Prerequisite: Electrical Engineering 210.
Application of diodes, transistors, electron tubes, and thyristors in electronic circuits. Analysis and design of rectifiers and filters, and elementary amplifiers. Emphasis on their utilization in engineering equipment and systems.
330L. Engineering Electronics Laboratory (1) I, II
Three hours of laboratory.
Prerequisites: Credit or concurrent registration in Electrical Engineering 330.
Experimental study of laboratory instruments, diodes, rectifier circuits, filters, silicon controlled rectifiers, tubes, transistors, and amplifiers.

340. Electric and Magnetic Fields (3) I, II
Electrostatic and magnetostatic field theory using vector notation; Coulomb's Law, Gauss' Law and potential theory. Solutions to Poisson's and Laplace's equations; capacitance and inductance. Time-varying electric and magnetic fields. Maxwell's equations.

371. Computer Organization (3) I, II
Prerequisites: Engineering 120 and Electrical Engineering 270.
Computer organization and assembly language programming. Programming and operation of one or more small computers, including input/output programming.

373. Computer Design (3) I
Prerequisites: Electrical Engineering 270 and credit or concurrent registration in Electrical Engineering 371.
Systematic techniques for designing digital computers and other complex digital systems. Machine arithmetic, Register Transfer Level design, hardwired and microprogrammed control units. Not open to students with credit in Electrical Engineering 573.

380. Electrical Energy Conversion (3) I, II
Prerequisite: Electrical Engineering 210.
Fundamentals of electrical energy conversion; induction motors, synchronous machines and DC machines.

380L. Electrical Energy Conversion Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Electrical Engineering 380.
Experimental study of DC, single and polyphase AC circuits, transformers, and machines.

403. Biomedical Instrumentation (3) I
Prerequisite: Electrical Engineering 303 or 330.
Instrumentation systems to monitor, control and record physiological functions.

410. Signals and Systems (3) I, II
Prerequisite: Electrical Engineering 310.
Linear time-invariant systems, Fourier analysis, continuous and discrete signals and systems, filtering, sampling, and z-transform techniques.

420. Control Systems Components (3) II
Prerequisites: Electrical Engineering 310, 330 and 380.
Position transducers, phase-sensitive demodulators, static magnetic and rotating amplifiers, and servomotors. Derivation of component transfer functions.

420L. Control Systems Components Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Electrical Engineering 420.
Experimental determination of transfer functions for control system components.

430. Analysis and Design of Electronic Circuits (3) I, II
Prerequisites: Electrical Engineering 310, 330 and Engineering 310 or Mathematics 340A.
A unified treatment of vacuum-tube and transistor voltage and power amplifiers utilizing graphical methods and equivalent circuits; feedback theory and tuned amplifiers.

430L. Electronic Circuits Laboratory (1) I, II
Prerequisites: Credit or concurrent registration in Electrical Engineering 430.
Vacuum-tube and transistor dynamic characteristics; single stage and multistage amplifier circuits including feedback and tuned amplifiers.

434. Electronic Materials and Devices (3) I
Prerequisites: Electrical Engineering 330 and 340.
Crystal properties and growth of semiconductors, quantum mechanics of solids, solid noise and thermal noise, energy band and charge carriers, excess carrier in semiconductors, p-n junctions, solar cells, tunnel diodes, photodetectors.

450. Communication Networks (3) I
Prerequisites: Electrical Engineering 310, 340 and Engineering 310 or Mathematics 340A.
Theory and application of transmission line, including analysis by matrix notation; use of Smith chart and other transmission line charts; impedance-matching with transmission line stubs and lumped constants; theory and design of constant-k, m-derived, and other types of filter networks.

470. Digital Circuits (3) I
Prerequisites: Electrical Engineering 270, credit or concurrent registration in Electrical Engineering 430.
Operating characteristics, specifications, and applications of standard commercially available high-speed digital integrated circuit devices.

470L. Digital Logic Laboratory (1) I
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Electrical Engineering 470.
Hands-on experience in characterization and application of standard digital integrated circuit devices.

475. Microprocessors (3) II
Prerequisites: Electrical Engineering 371.
Microprocessors and microprocessor support devices. Design of microprocessor-based systems, hardware and software. Not open to students with credit in Electrical Engineering 575.

475L. Microprocessor Laboratory (1) I, II
Three hours of laboratory.
Prerequisites: Electrical Engineering 470, 470L, and credit or concurrent registration in Electrical Engineering 475.
Design, documentation, assembly, circuit checkout, programming and software validation of a microprocessor-based system.

499. Special Study (1-3) I, II
Prerequisite: Approval of project adviser and department chair.
Individual study. Maximum credit six units for any combination of Electrical Engineering 496, 499 and 596.

UPPER DIVISION COURSES IN ELECTRICAL ENGINEERING
(Also Acceptable for Advanced Degrees)

503. Computer Hardware Organization (3)
Prerequisites: Engineering 120 or Mathematics 107, at least junior standing; some knowledge of assembly language preferred.
Computer hardware organization and design, including combinational and sequential networks, using integrated circuits. Not open to E.E. majors.

520. Feedback Control Systems (3)
Prerequisite: Electrical Engineering 410, 420 recommended.
Analysis of regulatory systems including servomechanisms by the Laplace transform method. System performance and stability. Nyquist, Bode, and root-locus diagrams; elementary synthesis techniques. Practical components and examples of typical designs.

521. Advanced Feedback Control Systems (3)
Prerequisite: Electrical Engineering 520.
A continuation of Electrical Engineering 520 to include feedback compensation, advanced compensation techniques, signal flow theory, state-variable techniques, introduction to nonlinear and sampled-data control systems.

530. Transistor Circuit Analysis (3) I, II
Prerequisite: Electrical Engineering 430.
Analysis and design of transistor voltage and power amplifier circuits by use of duality and matrix methods. Feedback amplifiers, audio amplifiers, video amplifiers, power supplies and oscillators; transient analysis and noise considerations.
534. Solid-State Devices (3) I
   Prerequisite: Electrical Engineering 430.
   Characteristics of tunnel, backward, breakdown, multilayer and varactor diodes; silicon controlled rectifiers and switches, unijunction transistors, hot electron devices. Lasers and laser applications.

540. Microwave Communications (3) II
   Prerequisite: Electrical Engineering 340; Engineering 510 recommended.
   Theory and performance characteristics of modulation and demodulation; spectral characteristics and noise performance of carrier systems: amplitude, frequency and phase, pulse coded, and compound modulation.

540L. Microwave Measurements Laboratory (1) II
   Three hours of laboratory.
   Prerequisites: Credit or concurrent registration in Electrical Engineering 430L and 540.
   Experimental study of microwave generation including klystrons, Gunn and IMPATT oscillators, TWT and microwave transistor amplifiers. Microwave modulation and detection. Microwave transmission and antennas.

546. Optical Fiber Communications Systems (3) II
   Prerequisite: Electrical Engineering 434.
   Optical fiber attenuation and dispersion, light-emitting diodes and laser diodes, pin diodes and avalanche photodiodes, receiver designs, optical power budgets and rise time budgets, applications in digital and analog communication systems.

553. Stochastic Signals (3) II
   Prerequisite: Engineering 310 or Mathematics 340A.
   Random signals, correlation functions, power spectral densities, the Gaussian process, narrow band processes. Applications to communication systems.

554. Communication Principles and Circuits (3) I, II
   Prerequisite: Electrical Engineering 430.
   Signal transmission in linear networks; modulators and detectors; wide-band and narrow-band amplifiers; oscillators; AM, FM, and phase modulation; transient response of amplifiers.

554L. Communication Circuits Laboratory (1) I
   Three hours of laboratory.
   Prerequisite: Electrical Engineering 430L.
   Regulated power supply systems, oscillator, modulator, detector, and switching circuits; superheterodyne receivers and television circuits.

555. Modulation Theory (3) I
   Prerequisite: Electrical Engineering 410.
   Theory and performance characteristics of modulation and demodulation; spectral characteristics and noise performance of carrier systems: amplitude, frequency and phase, pulse coded, and compound modulation.

556. Digital Signal Processing (3) I, II
   Prerequisite: Electrical Engineering 410 or Physics 516A or Mathematics 340B.
   Digital signal processing. Discrete-time signals, transform techniques, and digital filters. Design of FIR and IIR filters, FFT's, and finite-length effects on digital systems.

557. Two-Dimensional Digital Signal Processing (3) II
   Prerequisite: Electrical Engineering 410 or Physics 516A or Mathematics 340B.
   Two-dimensional analysis of signals and systems in areas of signal representation, enhancement and restoration, processing of images, radar signals and other two-dimensional information. Experiments in image processing.

558. Digital Communication Systems (3) II
   Prerequisite: Engineering 310.
   Foundations and interrelationships of subsystems in modern digital communication systems. Regulatory considerations, channel descriptions, modems, error rates, digital coding of speech, line coding, intersymbol interference, networking, error control and cryptography.

570. Advanced Digital Circuits (3) II
   Prerequisite: Electrical Engineering 470.
   Digital applications of linear devices, the digital/analog interface, and ultra high speed logic devices.
Mechanical Engineering

Faculty
Emeritus: Bauer, Bitterman, Morgan, Rao, M., Stone
Chair: Bedore
Professors: Bedore, Craig, Fitz, Hussain, Mansfield, Murphy, Ohnyst, Pinto, Rao, S.
Associate Professor: Pierce
Assistant Professors: Guven, Thompson
Lecturers: Broniarek, Hoyt, Weber

Offered by the Department
Master of Science degree in mechanical engineering.
Major in mechanical engineering with the B.S. degree.

Mechanical Engineering Major

With the B.S. Degree

All students in Mechanical Engineering pursue a common program of basic sciences, engineering, and mechanical engineering fundamentals. In addition, students are provided with the opportunity to select a pattern of study to satisfy their areas of interest. This pattern of study is indicated in the sequence below as "professional electives" and may be selected from available courses in controls, energy conversion, gas dynamics, heat transfer, machine design, materials, thermodynamics, vibrations, and other areas. The students' choice of elective courses must be made in consultation with their adviser and documented by the filing of an approved master plan during the first semester of their junior year.

Upper Division Writing Requirement. Passing the departmental screening examination, a part of Mechanical Engineering 310, or passing the University Writing Examination or English 304W with a grade of C (2.0) or better.

The requirements for the major in mechanical engineering are described as follows:

LOWER DIVISION COURSES IN MECHANICAL ENGINEERING

190. Engineering Drawing (2) I, II
Six hours of laboratory.
Development of drawing skills and techniques for engineers. Elementary orthographic and pictorial drawing, sections, dimensioning. Instrument and free-hand drawing. Drawing as an aid to visualization and design.

One lecture and six hours of laboratory.
Prerequisite: One year of high school drafting.
Graphical communication for engineers. Presentation and interpretation of engineering drawings using instruments and freehand sketches. Manufacturing processes and their influence on design decisions. (Formerly numbered Mechanical Engineering 191.)

260. Engineering Materials (3) I, II
Prerequisite: Chemistry 200.
Atomic and molecular structure of materials utilized in engineering. Analysis of the relationship between structure of materials and their mechanical, thermal, electrical, corrosion and radiation properties, with examples of specific application to engineering problems. (Formerly numbered Engineering Mechanics 260.)

UPPER DIVISION COURSES IN MECHANICAL ENGINEERING

(Intended for Undergraduates)

310. Engineering Design: Introduction (3) I, II
Two lectures and three hours of guided design activities.
Prerequisites: Mechanical Engineering majors—English 100 or Linguistics 100 with a grade of C or better; Engineering 120, Mechanical Engineering 195, and Engineering Mechanics 220; non-Mechanical Engineering majors—English 100 with a grade of C or better.
Professional approach to engineering design problems. Problem definition, information gathering, feasibility studies, analysis, final design and communication. Several design studies are completed.

314. Engineering Design: Mechanical Components (3) I, II
Prerequisites: Mechanical Engineering 310 and Civil Engineering 301.
Application of mechanics, physical properties of materials, and solid mechanics to the design of machine elements. Student design projects.

340. Metallic Materials (3) I, II, S
Prerequisite: Mechanical Engineering 260.
Physical metallurgy and properties of metals. Influence of processing on the properties of metals. Design criteria for selection of materials.

350. Thermodynamics (3) I, II
Prerequisite: Mathematics 152 and Engineering Mechanics 202 or 220.
Development of the basic laws of thermodynamics and their application to engineering systems.

352. Thermodynamics and Heat Transfer (3) I, II
Prerequisite: Mathematics 152 and Engineering Mechanics 202 or 220.
First and second laws of thermodynamics; heat conduction, convection and radiation. Not acceptable for mechanical engineering majors.
390. Engineering Systems Laboratory: Introduction (2) I, II
One lecture and three hours of laboratory.
Prerequisites: English 200 or Linguistics 200, Electrical Engineering 203, Engineering 310, all with a grade of C or better. Credit or concurrent registration in Civil Engineering 301 and Mechanical Engineering 350.
- Engineering experimentation.
- Instrumentation theory, data analysis, technical communication, and experiment design. Principles of experimentation taught in lecture and applied in experiments selected from subdisciplines in Mechanical Engineering.

395. Engineering Systems Laboratory: Applications (2) I, II
One lecture and three hours of laboratory.
Prerequisite: Mechanical Engineering 390.
- Advanced experiment design, data acquisition theory and data analysis. Experience in designing, conducting and reporting on experiments to acquire knowledge about engineering systems.

410. Creativity in Design (3)
Methods to stimulate creativity in design. Investigation of hidden blocks to creative thought. Emphasis on placing students in a design situation requiring an inventive or creative solution.

450. Engineering Thermodynamics (3) I, II
Prerequisites: Mechanical Engineering 350 and credit or concurrent registration in Engineering Mechanics 340.
- Further development of the laws of classical thermodynamics. Applications to the analysis and design of energy conversion systems.

470. Principles of Heat Transfer (3) I, II
- Heat transfer by conduction, convection, radiation, and combinations thereof.

480. Internal Combustion Engines (3)
Prerequisite: Mechanical Engineering 450.

- Performance of reciprocating and rotary types of internal combustion engines.

490A-490B. Engineering Design: Senior Projects (2-2) I, II
Six hours of guided design activities.
Prerequisites for 490A: Mechanical Engineering 314, 350, 395, credit or concurrent registration in Mechanical Engineering 470 and Mechanical Engineering 512.
Prerequisites for 490B: Mechanical Engineering 450, 490A.
- Applications of engineering principles and design techniques to the designing, building, and testing of an engineering system. A single project is completed in this two-course sequence and is judged completed upon presentation of an oral and written report.

496. Advanced Mechanical Engineering Topics (1-3) I, II
Prerequisite: Consent of instructor.
Modern developments in mechanical engineering. See Class Schedule for specific content.
Max credit six units for any combination of Mechanical Engineering 496, 499, and 596.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Max credit six units for any combination of Mechanical Engineering 496, 499, and 596.

UPPER DIVISION COURSES IN MECHANICAL ENGINEERING
(Also Acceptable for Advanced Degrees)

510. Advanced Machine Design (3) I, II
Prerequisites: Mechanical Engineering 314 and 340.
- Application of advanced topics in strength of materials to the design of mechanical elements. Energy methods, stress concentrations, curved beams, and thick-walled cylinders.
- Practical application of principles through case studies or design projects.

512. Simulation of Engineering Systems (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Mechanical Engineering 314, 350 and 395.
- Analysis and design of engineering systems using modern analog and digital computers.
- Simulation of dynamic systems. Application to problems in mechanics, heat transfer, thermodynamics, and control systems.

514. Experimental Stress Analysis (3)
Prerequisite: Mechanical Engineering 314.
- Advanced study of resistance of materials, failure theories and experimental stress analysis.
- Methods will include photoelasticity, brittle lacquers, strain gages, grid methods, and analogs for determining static and dynamic stress distributions. Laboratory demonstrations.

516. Engineering Design: Mechanisms (3)
Prerequisite: Mechanical Engineering 512.
- Design of linkages, cams, and gears wherein displacement, velocity and acceleration are paramount considerations.

520. Introduction to Mechanical Vibrations (3)
Prerequisites: Mechanical Engineering 512 and Civil Engineering 301.
- Analysis of mechanical vibration: single- and multi-degree of freedom systems, free and forced vibrations, vibration isolation, vibration absorbers.
- Theory of vibration measuring instruments.

521. Vibration, Shock and Noise Measurements (3)
Prerequisites: Mechanical Engineering 512 and Civil Engineering 301.
- Experimental problems utilizing vibration excitation equipment, recording systems, transducers, sound analysis systems and analog computers.

530. Automatic Control Systems (3)
Prerequisites: Engineering 510 and credit or concurrent registration in Mechanical Engineering 512.
- Analysis of the dynamic characteristics of control components and systems.
- Stability and response of closed loop systems.
- Design of control systems.

540. Nonmetallic Materials (3)
Two lectures and three hours of laboratory.
Prerequisite: Mechanical Engineering 340.
- Fundamentals of plastics, reinforced plastics, and ceramics.
- Analysis of effect of physical properties upon selection of material for use in design.

542. Production Engineering (3)
Prerequisites: Mechanical Engineering 340 and Engineering 310.
- Quantitative techniques including regression analysis, linear programming, network and simulation methods as applied to planning, forecasting, scheduling and maintaining of modern production and manufacturing systems.

544. Advanced Manufacturing Processes (3)
Prerequisites: Mechanical Engineering 195, 314, 340, 350 and Engineering 310.
- Theory and techniques of metal cutting, forming, non-cutting metal removal, computer controlled machining.

546. Computer Aided Manufacturing (3)
Prerequisites: Mechanical Engineering 195, 340 and Engineering 129, 310.
- Computer controlled manufacturing and assembly techniques and devices.
- Data bases and special languages.

580. Elements of Energy Conversion (3)
Prerequisite: Mechanical Engineering 350.
- Principles of physics and chemistry applied to the analysis of a broad spectrum of energy conversion devices from an engineering point of view.

582. Thermal Environmental Engineering (3)
Prerequisite: Mechanical Engineering 470.
- Change of phase.
584A-584B. Principles of Chemical Engineering (3-3)
(Same course as Chemistry 500A-500B.)
Prerequisite: Credit or concurrent registration in Mechanical Engineering 350 or Chemistry 310A or 410A.
Industrial stoichiometry; fluid flow and heat transfer as applied to unit operations such as evaporation, distillation, extraction, filtration, gas-phase mass transfer, drying, and others. Problems, reports, and field trips.

586. Solar Energy Conversion (3)
Prerequisites: Engineering Mechanics 340, Mechanical Engineering 450 and 470.
Application of thermodynamics, fluid mechanics and heat transfer to the thermal design of solar energy conversion systems. Computer simulations utilized.

596. Advanced Mechanical Engineering Topics (1-3)
Prerequisite: Consent of instructor.
Modern developments in mechanical engineering. See Class Schedule for specific content. Maximum credit six units for any combination of Mechanical Engineering 496, 499 and 596.

GRADUATE COURSES IN MECHANICAL ENGINEERING
Refer to the Graduate Bulletin.
Areas of Study:

- American Literature: English 521, 522, 523, 524 and 525.

Creative Writing: English 570, 571, 572, 573, 579, 580, 581W, 582W, and 589.

NOTE: In addition to the courses listed above, appropriate sections of English 496, 498, 526, 527, 549, American Studies 580, and selected comparative literature courses may be used to satisfy the requirements for the major approved by the departmental adviser.

Selection of Courses

Prospective majors of sophomore standing may, with the consent of the course instructor and subject to general university regulations (see "credit for upper division courses" in the section of this catalog on General Regulations), substitute six units of upper division electives for six units of upper division work. These courses must be in the same field as those which they replace, and must be approved by the departmental adviser.

Students of junior or senior standing may substitute for any deficiencies in lower division requirements in English (except English 100) an equivalent number of units of upper division courses selected with the approval of the departmental adviser.

English Major

For the Single Subject Teaching Credential

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

The requirements for the Secondary Credential in English are as follows:

I. A major in English, comparative literature, or linguistics for the A.B. degree.

II. Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

III. Upper Division Writing Requirement. English 500W, 500W, 508W, or 589.

IV. Satisfactory completion of 39 units selected from courses in the following categories: Many of these courses may also be used to satisfy requirements for the major.

A. Courses in Literature (total 16 units)

NOTE: Must include at least one course in British literature and one course in American literature.

1. Lower division survey: 6 units.
   (American, British, or World)
   a. Particularly appropriate: English 250A, 250B, 260A, Comparative Literature 270A.
   b. Appropriate: English 260B, Comparative Literature 270B. (English 563A-560B may be substituted for 260A-260B.)

2. Shakespeare: 3 units.
   a. English 503.

3. Modern Literature: 3 units.
   c. The following courses are also applicable when the topic deals with the Twentieth Century: English 496, 526, 528, 549, Comparative Literature 490, 550, 577.

4. A Course in Genre, Myth, or Literature and Other Disciplines: 3 units.
   b. Appropriate: English 572, Comparative Literature 560, 562, 563, 571.
   c. The following courses are also applicable when the topic deals with a genre or literature and other disciplines: English 496, 549, Comparative Literature 490, 550.

B. Courses in Writing (total 12 units)

NOTE: Must include at least one upper division expository writing course – either English 306W, 500W, 508W, or 582W.

   c. Writing courses taken in other departments may apply towards this requirement if approved by the departmental adviser (English).

C. Courses in Linguistics (total 9 units)

a. Particularly appropriate: Linguistics 410 (History of English), 420 (Modern English) or 520 (Structure of English), 450 (Introduction to Teaching English as a Second Language), 524 (American Dialectology).
   b. Appropriate: Linguistics 101 (Introduction to Linguistics), 550 (Theory and Practice of English as a Second Language), 551 (Sociolinguistics), 552 (Psycholinguistics), Comparative Literature 581 (Literary Uses of Languages).

D. Speech (total 3 units)

a. Particularly appropriate: Speech Communication 101 (Oral Communication), 105 (Intro. to Speech Communication), 111A (Fund. of Interpretation).
   b. Appropriate: Speech Communication 991 (Group Communication).

Course Sequences

All year courses in English may be taken in either semester, and either semester may be taken singly for credit.

Student Initiated Courses

Students may petition for a course which falls within the competency of the English Department but which is not among the regular course offerings for the present or following semester. Petition forms may be obtained from the department secretary.

Undergraduate Seminars

Each semester, if adequate staffing permits, the department may offer several of its courses as special, limited-enrollment seminars. These seminars are designed to give English majors (or anyone who has the consent of the instructor) the opportunity as juniors and seniors to engage in advanced work in small discussion groups.

English Minor

The minor in English consists of a minimum of 15 units, 12 units of which must be in upper division courses. The department offers minors specifically tailored to complement students' majors. All minors will include English 220 (unless a substitution is approved by the department) and 12 upper division units selected from one of the following areas, dependent upon the student's major.

Social Science disciplines, one course from each group:

1. A course in Shakespeare: English 302 or 533.
2. A course in expository writing: English 304W, 306W or 500W.
4. A course in contemporary literature: English 525, 544B, or approved sections of special topics courses.
5. A course in modern topics: English 560, 562, 571.

Fine Arts disciplines, one course from each group:

1. A course in Shakespeare: English 302 or 533.
3. A course in literature and other arts: English 493, Comparative Literature 495, 595, or approved sections of special topics courses.
4. A course in aesthetic writing or appropriate special topics: English 560, 580W, 582W, or approved sections of special topics courses.
Business disciplines, one course from each group:
1. A course in expository writing: English 304W, 305W or 500W
2. A course in Shakespeare, literature and psychology, or popular literature: English 301, 302, 491, 492, 493, 494, 533.
3. A course in American literature: English 521, 522, 523, 524, 525, approved sections of 526 or 528.

Humanities disciplines, one course from each group:
1. A course in Shakespeare: English 302 or 533.
4. A second course in literary history or a course in literature and other disciplines, English 495, Comparative Literature 495, 595, or approved sections of special topics courses.

Science disciplines, one course from each group:
1. A course in technical writing: English 404W.
2. A course in Shakespeare or Bible as Literature: English 302, 405, 533.
3. A course in literature and psychology or popular literature or science fiction: English 301, 306W, 491, 492, 493, 494, 501, approved sections of other special topics courses.

For students whose needs are not accommodated by any of the above patterns:
Students whose majors are not represented by the patterns above, students who wish to design a minor more directly tailored to their specific major, or students who otherwise feel they have special needs are encouraged to consult with their advisers in both major and minor departments to design individualized minors in English. All such minors must have the written approval of both departmental advisers.

The English minor is not available to students majoring in comparative literature. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Children's Literature Certificate
This certificate attests that the student has successfully completed 18 units (minimum GPA 3.0) of planned, advised, coherent, and articulated study in the field of literature for children. Prerequisites include admission to the University and to upper division or graduate standing. The Certificate in Children's Literature may be earned with a specialization either in Education or in English and Comparative Literature.

Specialization in Education. Nine units from courses in group A, six units from group B, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Specialization in English and Comparative Literature. Nine units from courses in group B, six units from group A, and three units of an appropriate elective chosen with the approval of a faculty adviser.

Group A, Education: Education 496*, Educational Technology and Librarianship 578, 596; Elementary Education 512, 522.

Group B, English and Comparative Literature: Comparative Literature 561 (when offered as European Children's Literature). English 496*, 501, 526*, 527*, 528*, 549*.

* With adviser's permission when the subject is closely related to children's literature.

Technical and Scientific Writing Certificate
The purpose of this certificate program is to prepare students for careers in technical and scientific writing. The program is designed for people who are working on degrees in nontechnical, technical, and scientific fields. It also provides a self-improvement opportunity for people seeking employment, promotion, or upward mobility on the job who are not enrolled in degree programs. Students will complete a total of 21 units that must be approved by the Director of the program in the Department of English and Comparative Literature. Applicants for entrance into the program must complete a writing assessment examination, administered by the Director of the program, and may be required to take additional course work to improve writing proficiency.

Required Courses: (9 units)
English 304W, Technical Writing
English 500W, Advanced Composition
English 504, Problems in Technical Communication

Recommended Courses: Students should consult with the Director of the program before selecting any courses so that an individualized program can be developed. Students with technical or scientific backgrounds should concentrate their course work in writing. Those with nontechnical or nonscientific backgrounds should concentrate on either a technical or scientific specialty. English 496, Internship in Technical Writing, is recommended for all students. A maximum of six units of transfer credit may be applied to the program. (12 units.)

LOWER DIVISION COURSES

100. College Composition (3) International students are advised to take Linguistics 100. Prerequisite: Completion of English Placement Test and Writing Competency requirements. (See Graduation Requirements, I: Competency Requirements, section of this catalog.)

Prerequisites: Completion of English Placement Test and Writing Competency requirements. English 302 or 533, recommended for English majors.

Prerequisites: Completion of English Placement Test and Writing Competency requirements. A workshop in clear, effective writing. Includes in-class writing with individual assistance from instructors and tutors. Includes review of grammar, punctuation, and mechanics. Open to students of all levels who wish to improve their writing skills. Credit earned in this course not applicable to a bachelor's degree or General Education.

200. Intermediate Composition (3) I, II International students are advised to take Linguistics 200. Prerequisite: Completion of English Placement Test and Writing Competency requirements. Introduction to Literature (3) I, II

An inquiry into the basic nature of literature. What prompts mankind to the creation of imaginative literature? What purposes does literature serve in the cultural life of humanity? What is the effect of literature on the human spirit? Some consideration may be given to the historical, philosophical, and psychological values of literature. Students should complete a writing assessment examination, administered by the Director of the program, and may be required to take additional course work to improve writing proficiency.

Required Courses: (9 units)
English 304W, Technical Writing
English 500W, Advanced Composition
English 504, Problems in Technical Communication

Recommended Courses: Students should consult with the Director of the program before selecting any courses so that an individualized program can be developed. Students with technical or scientific backgrounds should concentrate their course work in writing. Those with nontechnical or nonscientific backgrounds should concentrate on either a technical or scientific specialty. English 496, Internship in Technical Writing, is recommended for all students. A maximum of six units of transfer credit may be applied to the program. (12 units.)

Prerequisites: Completion of English Placement Test and Writing Competency requirements. A workshop in clear, effective writing. Includes in-class writing with individual assistance from instructors and tutors. Includes review of grammar, punctuation, and mechanics. Open to students of all levels who wish to improve their writing skills. Credit earned in this course not applicable to a bachelor's degree or General Education.

120. Introduction to Literature (3) I, II

An inquiry into the basic nature of literature. What prompts mankind to the creation of imaginative literature? What purposes does literature serve in the cultural life of humanity? What is the effect of literature on the human spirit? Some consideration may be given to the historical, philosophical, and psychological values of literature. Students should complete a writing assessment examination, administered by the Director of the program, and may be required to take additional course work to improve writing proficiency.

Required Courses: (9 units)
English 304W, Technical Writing
English 500W, Advanced Composition
English 504, Problems in Technical Communication

Recommended Courses: Students should consult with the Director of the program before selecting any courses so that an individualized program can be developed. Students with technical or scientific backgrounds should concentrate their course work in writing. Those with nontechnical or nonscientific backgrounds should concentrate on either a technical or scientific specialty. English 496, Internship in Technical Writing, is recommended for all students. A maximum of six units of transfer credit may be applied to the program. (12 units.)

Prerequisites: Completion of English Placement Test and Writing Competency requirements. A workshop in clear, effective writing. Includes in-class writing with individual assistance from instructors and tutors. Includes review of grammar, punctuation, and mechanics. Open to students of all levels who wish to improve their writing skills. Credit earned in this course not applicable to a bachelor's degree or General Education.
305W. Writing Proficiency (3)
Prerequisite: Completion of English Placement Test and Writing Competency requirements and satisfactory completion of Afro-American Studies 120 or English 100 or Linguistics 100 or Mexican-American Studies 111B. PROOF OF COMPLETION OF COURSE AND COMPETENCY PREREQUISITES REQUIRED. Student to bring evidence (grade slip or copy of student record) to first class meeting.
Introduction to theory and practice of creative writing in the major genres, with emphasis on basic concepts and techniques.

281. Creative Writing: Selected Genres (3)
Prerequisite: English 280.
Guidance and extensive practice in writing in one or more of the major genres: poetry, drama, fiction, or the essay. See Class Schedule for specific content.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

Comparative Literature
(See this section of catalog under Comparative Literature.)

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. The Psychological Novel (3)
Psychological novel from its inception to present, including major works from a variety of cultures. Readings designed to aid students in discovering insights which great novelists have unearthed in their explorations of the human psyche.

302. Introducing Shakespeare (3)
Representative tragedies, comedies, and histories. Primarily for the general student not specializing in English or comparative literature. This course does not count toward the English or comparative literature majors. Required to take English 533.

304W. Technical Writing (3)
Prerequisite: English 200.
Exposition and report writing on technical subjects dealt with in such professions as industry, science, and government. Primarily for students in engineering, nursing, the sciences, and such preprofessional areas as law and medicine. Long and short forms including reports, proposals, manuals, and journal articles. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication.

305W. Writing Proficiency (3)
International students are advised to take Linguistics 305W.
Prerequisite: Satisfactory completion of the Writing Competency requirement, the General Education writing requirement, or advanced placement.
Advanced expository writing intended for students not majoring in English or comparative literature. While the course emphasizes style and the development of ideas, students are expected to review grammar, usage, punctuation, and the like, and to pass a mastery test on these topics. This test is required for course credit. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. See Class Schedule for specific content. It is strongly recommended that course be taken at beginning of junior year so that students can apply writing proficiency in upper division courses.

306A.306W. Children's Literature and Advanced Composition (3-3) I, II
Prerequisite: English 200. English 306A and 306W must be taken concurrently.
306A: Reading, analysis, and discussion of classic works of children's literature.
306W: Advanced composition; improvement of student skills through writing assignments based upon reading and work in the lecture part. Primarily designed to meet Upper Division Writing and Literature requirements for Liberal Studies Options 2 and 3, but also open to students with other majors. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication.

405. The Bible as Literature (3) I, II
(Same course as Comparative Literature 405.)
Primarily for the general student not specializing in English or comparative literature. May count only as an elective toward the English major. May be repeated with new title and content. Maximum credit six units. See Class Schedule for specific content.

400. Workshop in Alternative Publishing (3)
History and analysis of various aspects of alternative publishing as an avenue of creative expression for literary artists. Practice in applying creative writing and literary critical criteria to a small, noncommercial publication, such as a literary magazine or small book.

491. Contemporary Topics in Literature (3)
Exploration of writers, works and topics in fiction, poetry, drama, and film, emphasizing the relationship between literature and current concerns. Topics include The City in Fiction and Film, Literature and Identity, Literature of Death, Literature of Contemporary Myth and Folklore, Women in Literature. Primarily for the general student not specializing in English or comparative literature. May count only as an elective toward the English major. May be repeated with new title and content. Maximum credit six units. See Class Schedule for specific content.

492. Studies in Popular Literature (3)
Study of various works or types of literature outside of traditional academic categories of interest that have demonstrated popular appeal, with emphasis on how such literature should be critically appreciated and what such literature reveals about the culture that consumes it. Topics include Detective Fiction, Science Fiction and Fantasy, Romantic Literature. Primarily for the general student not specializing in English or comparative literature. May count only as an elective toward the English major. May be repeated with new title and content. Maximum credit six units. See Class Schedule for specific content.

493. Literature and Film (3)
Relationships between film and genres of literature, focusing on a critical comparison of the techniques of rhetoric, fiction, and drama and those of film. Topics include Literature and Film, Drama and Film, Reading Film. Primarily for the general student not specializing in English or comparative literature. May count only as an elective toward the English major. May be repeated with new title and content. Maximum credit six units.

494. Modern American Fiction (3)
Representative works by twentieth century American authors such as Hemingway, Steinbeck, Faulkner, Fitzgerald, Bellow, Vonnegut, Heller, others. Primarily for the general student. May count only as an elective toward the English major. Maximum credit six units.

495. Contemporary Topics in Literature (3)
Primarily for the general student not specializing in English or comparative literature. May count only as an elective toward the English major. May be repeated with new title and content. Maximum credit six units.

496. Selected Topics in English (1-4) I, II
Prerequisite: Consent of instructor and approval of department chair.
May be repeated with new title and content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor and approval of department chair.
Individual study. Maximum credit six units.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

All 500-level courses — Strongly recommended. Six lower division units in courses in literature and/or creative writing.

500W. Advanced Composition (3) I, II
The theory and practice of expository writing, including the contributions of semantics, rhetoric, and logic. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication.

501. Literature for Children (3)

504. Problems in Technical Communication (3) I, II
Prerequisite: English 304W. Recommended: Graphics or drawing course. Problems in technical writing, including graphics, printing, and reproduction of technical documents; types of technical communication, including reports, manuals, and proposals; manuscript editing and proofreading; audience analysis and readability; writing and recognition of clear technical prose.

507. The History of Literary Criticism (3)
Principles and practices of literary criticism from Greek times to the twentieth century.

508. The Writing of Criticism (3)
Theory and practice of literary criticism: Emphasis on the work of important critics and development of student's own critical writing. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication.

509. Introduction to the Teaching of Composition (3) I
Prerequisite: Consent of instructor based on writing sample and/or test. Techniques for teaching and evaluation of written composition. Provides a theoretical base for these techniques.

521. Early American Literature (3)
Representative works by American writers from the period of America's founding until approximately 1800; likely to include works by Benjamin Franklin, Cotton Mather, Anne Bradstreet, Johnathan Edwards, others.

522. American Literature, 1800 until 1860 (3)
Representative works by American writers from 1800 until 1860; likely to include works by Hawthorne, Melville, Poe, Emerson, Thoreau, Whitman, others.

523. American Literature, 1860 until 1920 (3)
Representative works by American writers from 1860 until 1920; likely to include works by Twain, Henry James, Stephen Crane, Emily Dickinson, Carl Sandburg, Kate Chopin, others.

524. American Literature, 1920 until 1950 (3)
Representative works by American writers from 1920 until 1950; likely to include works by Hemingway, Faulkner, Fitzgerald, T.S. Eliot, Ezra Pound, Eugene O'Neill, Steinbeck, others.

525. American Literature, 1950 until Present (3)
American writers from 1950 until the present; likely to include works by Joseph Heller, Saul Bellow, Norman Mailer, Edward Albee, Kurt Vonnegut, Allen Ginsberg, Sylvia Plath, others.

526. Topics in American Literature (3)
Topics in American literature to include The Literature of the South; Black Writers in America; The Frontier and American Literature; The History of American Literature; The Outback in American Literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

527. Genre Studies in American Literature (3)

532. Individual American Authors (3)
Works of a major American author or, if useful comparisons and juxtapositions warrant it, the works of two or three authors: Melville, Twain, James, Faulkner, Steinbeck, Nabokov; or Pound and Eliot, Emerson and Thoreau, Vonnegut and Barth, others. See Class Schedule for specific content. May be repeated with new title and content. Maximum credit six units.

530. Chaucer (3) I, II
Chaucer's works, with emphasis on The Canterbury Tales and Troilus and Criseyde.

531. Renaissance Literature (3)
English poetry and prose from 1485 to 1603.

533. Shakespeare (3) I, II
An introduction to the writings of Shakespeare.

534. Study of Shakespeare (3)
Prerequisite: English 533. Advanced study of Shakespeare's achievement as a poet and playwright.

536. Seventeenth Century Literature (3)
English prose and poetry from 1603 to 1660.

537. Milton (3)
Milton's works, with emphasis on Paradise Lost.

538A-538B. Restoration and Eighteenth Century Literature (3-3) I, II
English literature in the neo-classical era. Semester I: Dryden, Swift, Pope, and their contemporaries. Semester II: Writers of the middle and late eighteenth century.

540A-540B. English Fiction (3-3)

541A-541B. English Drama (3-3)
English dramatic literature from its beginnings to the nineteenth century. Semester I: The period from the beginning to 1642. Semester II: The period following reopening of the theatres in 1660.

542A-542B. Nineteenth Century British Poetry (3-3)

544A-544B. Modern British Fiction (3-3)
English fiction from 1890 to World War II. Semester II: English fiction from 1939 to the present.

545. Modern British Poetry (3)
British poetry since 1900.

546. Modern British Drama (3)
British drama since 1890.

549. Topics in English Literature (3) I, II

560A-560B. A History of English Literature (3-3) I, II
Survey of major English writers, with emphasis on reading of complete works. Semester I: From the beginning to the neoclassical period. Semester II: Begins with the Romantic writers. Especially appropriate for those students who have not satisfied the lower division survey requirements, for those who will teach English literature, and for those proceeding on to graduate study.

570. Techniques of Poetry (3) I, II
A study of the critical and theoretical literature of poetry from the creative writer's viewpoint, together with reading and discussion of appropriate examples.

571. Techniques of the Short Story (3) I, II
A study of the critical and theoretical literature of the short story from the creative writer's viewpoint, together with reading and discussion of appropriate examples. (Formerly numbered English 571A.)
572. Techniques of Drama (3)
A study of the critical and theoretical literature of drama from the creative writer's viewpoint, together with reading and discussion of appropriate examples.

573. Techniques of the Novel (3) I, II
A study of the critical and theoretical literature of the novel from the creative writer's viewpoint, together with reading and discussion of appropriate examples. (Formerly numbered English 571B.)

579. Topics in Techniques of Writing (3)
A study of the critical and theoretical literature of literary technique or topic such as satire, science fiction, myth and fantasy, children's literature, the long poem, the literary anatomy, etc. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

580. The Writing of Poetry (3) I, II
Prerequisite: English 280.
A writing workshop in poetry. May be repeated with new content. Maximum credit six units.

581W. The Writing of Fiction (3) I, II
Prerequisite: English 280.
A writing workshop in fiction. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. May be repeated with new content. Maximum credit six units.

582W. The Writing of Nonfiction (3)
Prerequisite: English 280.
A writing workshop in nonfictional prose. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

589. Senior Workshop in Creative Writing (3)
An advanced workshop intended only for students who have an extensive background in creative writing. Different sections of the course may treat advanced poetry writing, advanced fiction writing, or other special topics. See Class Schedule for specific content.

Comparative Literature
(See this section of catalog under Comparative Literature.)

GRADUATE COURSES
Refer to the Graduate Bulletin.

European Studies
In the College of Arts and Letters

European Studies courses, the European Studies major with the A.B. in liberal arts and sciences, and the European Studies minor are offered and administered through the Humanities Committee, composed of faculty members from diverse departments. Professor Leon Rosenstein is director of the European Studies Program and adviser to European Studies majors. Refer to the "Humanities" listing.

Family Studies and Consumer Sciences
In the College of Professional Studies and Fine Arts

The undergraduate majors in child development, foods and nutrition, and home economics are accredited by the Council for Professional Development of the American Home Economics Association.

Faculty
Emeritus: Boggs, Cannon, Comin, Dorris, Martin, M., Milne, Somervelle, Stout, Warner
Director (Acting): Spindler
Professors: Cooke, Deutsch, Fulcomer, Gunning, Hewes, Josephson
Associate Professors: Bakewell, Hawkins, Hoover-Plow, Kobinsky, Martin, M., Mikota, Null, Price, Ross, Spindler
Assistant Professors: Dickerson, Schupp
Lecturers: Avery, Gabriel, Harvey, Hill, Jarvenpa, Mello, Robasciotti, Whitney

Offered by the School of Family Studies and Consumer Sciences

Master of Science degree in home economics.
Master of Science degree in nutritional sciences.
Major in child development with the B.S. degree in applied arts and sciences.
Major in foods and nutrition with the B.S. degree in applied arts and sciences.
Major in home economics with the A.B. degree in applied arts and sciences.
Teaching major in home economics for the single subject teaching credential.
Minor in child development.
Minor in home economics.

Child Development Major
With the B.S. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

The child development major is a professional field which merges theory with practical application. Many fields of study, including psychology, biology, home economics, sociology, and anthropology contribute to this interdisciplinary major.

Graduates with a major in child development may work professionally in nursery schools and day care centers, in juvenile homes or in family support and health agencies. Some, after passing the National Teachers Examination, take courses leading to teaching credentials. Others use the human relationships emphasis as the basis for occupations in business and finance. Many go into graduate programs in law, social work, sociology, home economics, marriage and family counseling, or college teaching.

Preparation for the Major. Anthropology 102; Biology 100, 145; Family Studies and Consumer Sciences 107, 735, 151 or 240, 270, 271; Psychology 101, 260; Sociology 101, 201 or Psychology 270. (36 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 37 upper division units to include Family Studies and Consumer Sciences 335, 375, 375L (one unit), 422, and 476; Psychology 350; Sociology 440 or Psychology 440 and 18 units selected with the approval of the advisor, at least 12 and not more than 15 units of which must be in an area in which the student wishes to specialize. A master plan for each student must be filed with the Evaluations Office.

Foods and Nutrition Major
With the B.S. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.
This major is planned for students interested in qualifying professionally for diverse careers in the fields of dietetics, food service management, and food industries. Under faculty direction, students can select course sequences which best suit their career goals. Students can fulfill academic requirements for admission to dietetic internships and/or graduate schools which further qualify them for membership in the American Dietetic Association and registration as a dietitian.

Professional careers in dietetics include administrative, therapeutic, teaching, research, and public service positions in hospitals, schools, clinics, and other institutions. Graduates may also qualify for careers as food service managers in private and public organizations and institutions or as technical specialists within food companies, private or governmental agencies and laboratories, military service, and the mass media.

Preparation for the Major. Family Studies and Consumer Sciences 204, 205A, 205B, 240, 270; Accountancy 100 or 212; Biology 100, 100L, 210 (or 350); Chemistry 100 (or 200 and 201), 130 (or 230), 160 (except with 200 series); Economics 101, 201 (or Mathematics 250); Physics 101; Psychology 101; Sociology 101. (A three-unit computer related course, e.g., Mathematics 107, Information Systems 180, it is needed if Family Studies and Consumer Sciences 507 is not selected in the major.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 40 upper division units to include Family Studies and Consumer Sciences 301, 302, 303, 404, 405, 406, 421 or 422; Biology 410, the remaining units selected with the approval of adviser from Family Studies and Consumer Sciences 308, 309, 407, 480, 482, 507, 508, 510; Accountancy 315; Biology 321; Chemistry 361A, 361B, 467 or 567; Health Science 470; and Management 350, 351 or 352 or Psychology 321.

Home Economics Major

With the A.B. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of the catalog on "Graduation Requirements."

A minor is required with this major.

The home economics major provides a background appropriate for a wide variety of professional careers. Graduates from the teaching credential program are employed in elementary, secondary, vocational, and adult education fields and in cooperative extension. Clothing, textile, and merchandising majors find positions in retail, marketing, textile research, and as consumer consultants. Graduates from the consumer services and housing sequence have completed courses to enter the consumer affairs and family finance fields or use their management skills in working with the elderly, the handicapped, or the low-income. Graduates interested in housing professions find employment in business, educational and governmental organizations.

Preparation for the Major. Family Studies and Consumer Sciences 107, 135, 151, 219, 240, 245, 270; Art 157; Economics 100 or 101 or 102; Psychology 101; Sociology 101. (Family Studies and Consumer Sciences 115, 115L, or competency examination, 217, 260; Biology 100, 100L; Chemistry 100, 130 required for students in merchandising. Natural Science 110A, 110B; Biology 130; Economics 201 required for students in consumer services and housing.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 39 upper division units selected from one of the core professional sequences. A master plan for each student must be filed with the Evaluations Office.

Core Professional Sequences.

Consumer Services and Housing: Family Studies and Consumer Sciences 343, 383, 422, 440, 451, 541, 546, 553. General option: 15 units selected from Family Studies and Consumer Sciences 344, 345, 446, 482, 545; Art 453; Finance 437; Geography 354; Marketing 370; Physics 301; Public Administration 220; Sociology 424. (The prerequisites for Art 453 and Geography 354 have been waived.) Minor option: Related minor with consent of adviser.

Home Economics Minor

For the Single Subject Teaching Credential

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

The major may be used by students in teacher education as an undergraduate major for the A.B. degree in applied arts and sciences.

Preparation for the Major. Family Studies and Consumer Sciences 217, 240, 245, 270, 270A, 271, 290; Biology 100, 100L; Chemistry 100, 130; Economics 100, 101, 102; Psychology 101; Sociology 101. (53 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 26 upper division units to include Family Studies and Consumer Sciences 314, 335, 375, 376 (prerequisite 271 waived), 383, 422, 440, 451, 481, 483, 541, 584.

Child Development Minor

The minor in child development consists of a minimum of 18 units to include Family Studies and Consumer Sciences 270, 370, 371, and twelve units selected from Family Studies and Consumer Sciences 375, 375L, 477, 478, 570, 576, 579; Psychology 432.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

* Indicates course with prerequisites not included in list of courses acceptable for minor.

Home Economics Minor

The minor in home economics consists of a minimum of 18 to 21 units in family studies and consumer sciences, 12 units of which must be in upper division courses. The 18 to 21 units must be selected from the following areas:

Foods and Nutrition: Family Studies and Consumer Sciences 204, 205A, or 205B, and 12 units selected from 301, 302, 303, 403, 404, 405, 406, 480, 507, 508, 510 (and/or 596 if appropriate).

Consumer Services: Family Studies and Consumer Sciences 240, 245, and 12 units selected from Family Studies and Consumer Sciences 344, 440, 541, 545 (and/or 596 if appropriate).

Child Development: Family Studies and Consumer Sciences 135, 270, 271, and 12 units selected from Family Studies and Consumer Sciences 375, 375L, 376, 436, 440, 478, 579, 580 (and/or 596 if appropriate).

Clothing, Textiles and Fashion Merchandising: Family Studies and Consumer Sciences 217, 290, 295, 361, 482, 500 (and/or 596 if appropriate).

Housing: Family Studies and Consumer Sciences 245, 319, 343, 345, 446, 545, 566 (and/or 596 if appropriate).

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

* Indicates course with prerequisites not included in requirements listed above.

LOWER DIVISION COURSES

107. Nutrition Today (3) I, II

Obtaining nutritional needs from a varied food supply.

Not open to foods and nutrition majors or students with credit in Family Studies and Consumer Sciences 204.

115. Principles of Apparel Construction (2) I, II

Comparative analysis of construction quality, basic theories, techniques, and procedures for apparel construction. Laboratory optional upon passing competency examination.
115L. Apparel Construction Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Family Studies and Consumer Sciences
115. Laboratory course in apparel construction techniques. Maximum credit two units.

135. Marriage and Family (3) I, II
Love, maturity, dating, compatibility, conflict as they relate to preparation for successful
marriage and family living.

151. Dynamics of Family Management (3) I, II
Value systems and application of principles of decision making to individual, professional,
and family management in changing socioeconomic environments.

202. Nutrition for Athletes (3)
Prerequisite recommended: Family Studies and Consumer Sciences 107.
Review of basic diet which will provide nutritional adequacy. Analysis of current theories and
practices related to nutrition and athletic performance.

204. Fundamentals of Nutrition (3) I, II
Prerequisites: Biology 100, 100L, Chemistry 100 and 130, or 200 and 201.
Nutrition as applied to the stages of the normal life cycle.

205A. Foods I (3) I, II
One hour lecture and six hours of laboratory.
Prerequisites: Chemistry 100 and 130. Proof of completion of prerequisites required.
Introduction to composition, properties and quality attributes of foods, methods of preparation,
consumer evaluation, and basic sanitation are stressed.

205B. Foods II (3) I, II
One hour lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 205A and credit or concurrent
registration in Family Studies and Consumer Sciences 204. Proof of completion of prerequisites
required.
Food legislation, additives, preservation, meal management and international/cultural foods
are emphasized.

217. Fundamentals of Clothing and Human Behavior (3) I, II
Cultural, social, psychological, physical, and aesthetic factors which affect clothing behav-
ior. (Formerly numbered Family Studies and Consumer Sciences 317.)

219. Consumer Issues in Clothing and Textiles (3) I, II
Consumer decision-making processes and behavior patterns in the consumption of clothing
and textiles. Social, political, economic, and technological factors affecting consumption
patterns.

240. Family Income Management (3) I, II
Financial problems involved in the effective management of the family resources.

245. Fundamentals of Housing and Interiors (3) I, II
Two lectures and three hours of laboratory.
Architectural, functional and aesthetic factors of housing and interiors as related to family
needs.

260. Fashion Merchandise Analysis (3) I, II
Prerequisite: Family Studies and Consumer Sciences 217.
Introduction to the fashion industry; manufacturing, wholesaling, and retailing of apparel
products and household textiles. (Formerly numbered Family Studies and Consumer Sciences
396.)

270. Principles of Child Development (3) I, II
Prerequisites: Psychology 101 and Sociology 101.
Study of the child from conception through adolescence, with emphasis on principles of
growth and development. Directed observations of children.

271. Human Development: Early Childhood (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 270 or Psychology 330.
Physical, social, emotional, and intellectual development of the young child with applica-
tions for guidance. Observing, recording individual and group behavior of children.

275. Materials for Nursery School (3)
Four hours of activity.
Prerequisite: Family Studies and Consumer Sciences 270.
Selection and evaluation of basic instructional modes and practices appropriate for young
children, direct experiences with various media and techniques.

278. Child Care Parent Participation (2)/Cr/NC
One lecture and two hours of activity.
Child care practices and group management in a child care facility. Not open to students
with credit in Family Studies and Consumer Sciences 279.

279. Child Care Observation/Participation (1)/Cr/NC I, II
Two hours of fieldwork per week as arranged. Plus orientation and evaluation.
Prerequisites: Family Studies and Consumer Sciences 270 and permission of director of
Campus Children's Center.
Observation and participation in Campus Children's Center. Experiences related to cogni-
tive, physical, and social development of young children in group setting. Not open to students
with credit in Family Studies and Consumer Sciences 278.

286. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific
content. Limit of nine units of any combination of 286, 486, 586 courses applicable to a
bachelor's degree.

UPPER DIVISION COURSES
(Iterndented for Undergraduates)

301. Science of Foods (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 205B, Biology 210, Physics 107.
Proof of completion of prerequisites required.
The structure and physical, chemical and functional properties, and quality attributes of
foods; food processing and processed induced changes and interactions of food components;-
regulatory agencies and laws; group project studies; data interpretation.

302. Advanced Nutrition (5)
Three lectures and four hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 204, Biology 410, and one course in
biochemistry. Proof of completion of prerequisites required.
Integration of cellular, physiological, and biochemical relationships with human nutrient
requirements. Application and evaluation of techniques used to assess nutritional status,
including basic methods, experimental animal and human studies.

303. Quantity Food Production (3)
Two lectures and three hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 205B.
Application and evaluation of techniques and equipment utilized in food service operations
for quality and financial control, production, distribution and service of food.

308. Purchasing for Restaurants (2)
Identification and description of food, supplies, equipment and furnishings. Provides
methods, criteria for recognizing quality and for evaluating, specifying, purchasing and
methods.

309. Eating Disorders and Weight Control (2)/Cr/NC
Prerequisite: Upper division standing in foods and nutrition or other majors with consent of
instructor.
Obesity and other eating disorders. Reviewing of etiology, incidence, socioeconomic influences
of pathogens and treatments. Treatment techniques practiced include modification of
changes and interactions of food components;...
314. Principles of Apparel Design (3) I
One lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 115; 115L, or competency examination. Proof of completion of prerequisites required.
Development of techniques in fabric manipulation. Problem-solving strategies in apparel design utilizing fabric draping and master pattern blocks. (Formerly numbered Family Studies and Consumer Sciences 516.)

319. Textiles (3) I
One lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 219; Chemistry 100, 130. Proof of completion of prerequisites required.
Fiber, yarn, and fabric construction and finishes as they relate to selection and care of textiles. (Formerly numbered Family Studies and Consumer Sciences 119.)

335. Interaction in Families (3) I, II
Prerequisite: Family Studies and Consumer Sciences 135.
Marriage adjustment and family interaction throughout the life cycle.

343. Home Energy Issues (3)
Two lectures and three hours of laboratory.
Prerequisite: Natural Science 110A.
Current energy issues and alternatives. Laboratory experience to acquaint students with current research findings. Selection, use, and care of equipment with concern for scarcity of resources.

344. Introduction to Family Housing (3) I
Prerequisites: Psychology 101 and Sociology 101.
Fundamental housing concepts, criteria affecting choice of housing, demographic forces related to demand for housing. National housing dilemma, housing for special needs and elderly, housing alternatives for sheltering of individuals and families.

345. Housing and Interiors: Historical Influences (3) I
Prerequisite recommended: History 105.
Critical appraisal of aesthetic and functional qualities of historical and contemporary housing environments.

350. Family Resource Management (3)
Efficient management of the home, family cooperation, establishment of goals, and productive use of money, time, and energy for a variety of family lifestyles. Not open to home economics majors, or to students with credit in Family Studies and Consumer Sciences 451.

361. Fashion Merchandising Field Experience (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 260 and consent of program advisor. Practical application of classroom theory and executive development techniques.

362. Fashion Merchandise Budget and Planning (3) I
Prerequisites: Family Studies and Consumer Sciences 361.
Current merchandising calculations and techniques necessary for planning store sales for different markets and financial standpoint. They are used as a guide to pricing, buying, and fiscal statements as they are done in the field of fashion merchandising.

370. Research, Assessment, and Evaluation of Children and Families (3) I
Prerequisites: Family Studies and Consumer Sciences 270 and 271.
Research methods in child and family development.

371. Human Development: Middle Childhood and Adolescence (3) I
Prerequisites: Family Studies and Consumer Sciences 270.
Child development between the ages of 8 and 18, emphasizing work by Erikson, Piaget, Money, Douvan, and Adelson.

375. Child Development Program (3) I, II
Prerequisites: Family Studies and Consumer Sciences 271; concurrent registration in Family Studies and Consumer Sciences 376A for one unit only.
Program models in early childhood education. Communication techniques, basic skills and strategies in working with young children. Development, implementation and evaluation of an appropriate curriculum and environment.

376A. Laboratory Experiences in the Child Study Center: Preschool (1-3) I, II
Three hours of laboratory for each unit of credit.
Prerequisites: Family Studies and Consumer Sciences 271; first unit requires concurrent registration in Family Studies and Consumer Sciences 376. Application to take additional units requires prior consent of instructor.
Directed experiences with children, ages 3 to 5 years, in mainstreamed setting. Designing and implementing developmentally appropriate activities in all areas of preschool program. May be repeated, at advanced level, with consent of instructor. Maximum credit seven units. (Formerly numbered Family Studies and Consumer Sciences 376L.)

376B. Laboratory Experiences in the Child Study Center: Toddlers (1-3) I, II
Three hours of laboratory for each unit of credit.
Prerequisites: Family Studies and Consumer Sciences 271; first unit requires concurrent registration in Family Studies and Consumer Sciences 376. Application to take additional units requires prior consent of instructor.
Directed experiences with toddlers, ages 20 to 30 months, in a mainstreamed setting. Planning and implementing developmentally appropriate activities and administering a program for young children and their families. Maximum credit four units. (Formerly numbered Family Studies and Consumer Sciences 376L.)

376C. Laboratory Experiences in the Child Study Center: Infants (1-3) I, II
Three hours of laboratory for each unit of credit.
Prerequisites: Family Studies and Consumer Sciences 271 and/or 271.
Directed experiences with infants from birth to 15 months of age. Developmental characteristics and firsthand experience with details of program planning and implementation for infants. (Formerly numbered Family Studies and Consumer Sciences 376L.)

383. Consumer Information Systems (3) I, II
Prerequisites: Twelve upper division units in family studies and consumer sciences.
Electronic data processing systems and capabilities relative to family studies. Computer applications in data processing and management of consumer information. Introduction to household management including family resources, problem-solving, and application in household management including family resources, problem-solving, and decision-making processes. Professional use of computer-based information systems which interface with households, agencies, and institutions.

404. Food Systems Management (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 303.
Managerial functions in food service systems.

405. Experimental Food Science (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 301. Proof of completion of prerequisites required. Application of principles and methods of physical and sensory evaluation and food component analysis to conventional and fabricated foods, effects of additives and ingredient variation, project studies, data interpretation and report writing.

406. Diet Therapy (4) I, II
Three lecture and three hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 302. Proof of completion of prerequisites required.
Dietary management of pathological and debilitating diseases.

407. Supervised Field Experience in Nutrition Counseling and Education (3) I, II Cr/NC
Two lectures and three hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 302, consent of instructor, and a B average in the major field. Proof of completion of prerequisites required. Training in general counseling techniques for nutritional assessment. Supervised field experience with various community based nutrition programs.
414. Advanced Apparel Design (3) II
One lecture and six hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 314.
Creation of original designs utilizing fabric draping and master pattern blocks. (Formely numbered Family Studies and Consumer Sciences 521.)

415. Creative Approach to Functional Clothing (3)
One lecture and six hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 414.
Clothing as it affects the physical and psychological well-being of the individual. Functional aspects of clothing. Problem-solving approach to meet clothing needs of disabled persons and persons in special occupations. (Formery numbered Family Studies and Consumer Sciences 315.)

416. Professional Issues: Foods and Nutrition (1) I, II
Prerequisite: Six upper division units in family studies and consumer sciences.
Philosophical base of family studies and relations of its specialties to the field as a whole. Not open to students with credit in Family Studies and Consumer Sciences 422.

422. Contemporary Issues in Family Studies and Consumer Sciences (3) I, II
Prerequisite: Six upper division units in family studies and consumer sciences.
Analysis of current and emerging forces and issues having impact on individuals and families served by professionals and programs related to family studies and consumer sciences.

430. Parent-Child Interaction (3) I
Prerequisite: Completion of Foundations section B (Social and Behavioral Sciences) of General Education.
Theories and philosophies of child rearing and development; contemporary strategies for successful parenting. Not open to child development majors or students with credit in Family Studies and Consumer Sciences 335, 478, or 536.

436. The Individual, Family, and Society (3) I, II
Prerequisites: Psychology 101, Sociology 101.
Analysis of individual and family needs and the social institutions and agencies which satisfy these needs. Emphasis on relevant social issues. Includes eight to ten hours of field trips to community agencies.

437. Violence in Families (3)
Prerequisite: Family Studies and Consumer Sciences 235.
Abusive interaction in families, physical and emotional. Present conditions, trends, preventive measures and treatment techniques, and organizations analyzed. Theoretical and applied aspects will be studied.

439. Field Experience in Family Studies (3)
One lecture and nine hours of fieldwork.
Prerequisites: All required courses for the Child Development Major and Family Studies and Consumer Sciences 436.
Field experience in family support agencies under joint supervision of agency staff and course instructor; participation in agency staff meetings, individual conferences and class meetings.

440. Family Financial Strategies (3) I, II
Prerequisite: Family Studies and Consumer Sciences 240.
Financial problems and practices of families with regard to various socioeconomic levels. Family financial counseling techniques. Relationship of the family to economic and political systems.

446. Housing and Interiors: Contemporary Design (3) II
Two lectures and three hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 245.
Influence of contemporary designers on structure, interiors and furnishings used in planning the total housing environment.

451. Family Management Theory and Analysis (4)
Three lectures and two hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 151 and 240.
Home management related to cultural and socioeconomic needs of families. Systems management theory as it relates to family life cycle, changing roles, and varied family forms. Practical application and field experience.

462. Fashion Merchandising Seminar (3) II
Prerequisite: Family Studies and Consumer Sciences 280.
Innovative practices in the apparel industry. Industry investigation and report on a fashion project.

476. Development of Creative Behavior in Young Children (3) I, II
Prerequisite: Family Studies and Consumer Sciences 375.
Examination of creative behavior; philosophical and empirical approaches to experiences designed for use with young children.

477. Administration of Child Development Programs (3) I
Prerequisite: Family Studies and Consumer Sciences 375.
Historical and philosophical background of programs for young children; current research; laws and regulations; planning, operating, evaluating child care centers and nursery schools.

478. Working with Parents (3) I, II
Prerequisite: Family Studies and Consumer Sciences 270 or Psychology 330.
An investigation of philosophy, issues, and current trends in working with parents.

480. Demonstration Techniques (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Six units in family studies and consumer sciences. Recommended: Development, Administration and Technology 404 and Speech Communication 204.
Organizing materials and developing techniques used for demonstrations and presentations in business, promotional and educational settings. Preparation of scripts, photographic and television productions, and professional demonstrations.

481. Materials and Techniques for Teaching Home Economics (3) II
Two lectures and three hours of laboratory.
Prerequisite: Six units in family studies and consumer sciences.

482. Educational Practices and Instructional Resources (3) I, II
Prerequisite: Fifteen units in Family Studies and Consumer Sciences.
Principles of learning as they relate to teaching home economics to adults. Organization of material; selection, use and evaluation of teaching techniques.

483. Program Development in Home Economics (4) I
Three lectures and two hours of activity.
Prerequisite: Twelve upper division units in family studies and consumer sciences.
Development and design, instructional procedures and evaluation strategies for consumer-home economics programs.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 396, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

507. Processing Food and Nutrition Data (3)
One lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 302 and 303.
Application of computer logic to food service management, diet planning and analysis.

508. Advanced Food Systems Management (3)
Prerequisite: Family Studies and Consumer Sciences 404.
Analysis of current topics in food systems management. Application of management principles in individual special projects.

510. Nutrition and Community Health (3)
Two lectures and three hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 302.
Exploration of nutrition problems in the community with consideration of current and potential means of resolving them.

519. Textile Analysis and Testing (3)
One lecture and six hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 319.
Analysis based on physical tests for differences due to variation in fiber, yarn, and fabric structure and finishes. Suitability of various characteristics for specified end uses.

520. Clothing and Human Behavior (3)
Two lectures and three hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 217, Psychology 101 and Sociology 101.
Concepts and theories of human behavior as they apply to clothing usage. Significance of impressions of individuals that result from their attire in the dynamics of social interaction of contemporary Western societies.

522. Clothing and Textiles: Historical Influences (3)
Historical overview of clothing and textiles with emphasis on important socioeconomic and cultural influences.

536. Family Study (3)
Prerequisites: Family Studies and Consumer Sciences 335 and Sociology 101.
Dynamics of family living; attitudes, practices, social and psychological interaction and family life patterns in different cultures, social classes and ethnic groups.

539. Family Relationships in Literature (3)
Insights through creative literature into the variations in relationships between the sexes and between generations in various cultures and subcultures. Fiction viewed as social documents which reveal changing expectations and ways of coping with stress.

541. Consumer Interest (3)
Prerequisite: Family Studies and Consumer Sciences 240 or 440.
Analysis of consumer legislation, consumer information and consumer protection programs.

545. Family Housing (3)
Two lectures and three hours of laboratory.
Prerequisite: Family Studies and Consumer Sciences 245.
Advanced housing problems at various stages of the family life cycle and the different socioeconomic levels.

546. Environmental Factors of Housing (3)
Prerequisite: Family Studies and Consumer Sciences 245.
Problems of developing effective housing for families in various cultural situations. Investigation of sociopsychological, economic and legislative factors of housing.

553. Supervised Field Work in Home Management (3)
One lecture and six hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 271, 451, 536.
Management and social problems as they relate to the home and family. Supervised field work with various community agencies and selected families.
French

in the College of Arts and Letters

Faculty
Emeritus: Ghiibert, Messier
Chair: Branan
Professors: Branan, Glasgow, Jackson, Nelson
Associate Professors: Cox, Palmer, Schorr
Assistant Professor: Benkov

Offered by the Department of French and Italian Languages and Literatures
Master of Arts degree in French.
Minor in French.
Teaching major in French for the single subject teaching credential in foreign languages.

Advising
All College of Arts and Letters majors are urged to consult with their department advisor as soon as possible, they are required to meet with their department advisor within the first two semesters after declaration or change of major.

French Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

Students majoring in French must complete a minor in another field to be approved by the departmental advisor in French.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

French Major
For the Single Subject Teaching Credential in Foreign Languages
All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

This major may be used by students in teacher education as an undergraduate major for the A.B. degree in liberal arts and sciences. A minor in another field approved by the departmental advisor in French is required for the degree.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

French Minor
The minor in French consists of a minimum of 15 units in French, six units of which must be in upper division courses.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

High School Equivalents
High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school foreign language courses can be used as follows:
1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language count as the equivalent of three college semesters, thus fulfilling the foreign language requirement.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences
Students electing the study of French to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete French 200A or 200B or 200C or 200D or the equivalent level of achievement. The usual sequence of course work is French 100A, 100B and 200A or 200B or 200C or 200D. Refer to section of catalog on Graduation Requirements* for additional ways to satisfy competency.

LOWER DIVISION COURSES

Native speakers of French will not receive credit for taking lower division courses except with advance approval from the department.
All lower division courses in French are taught in French.

No credit will be given when French 100A, 100B, 200, 301, or 302 are taken concurrently or out of sequence. However, French 200A-200B-200C-200D may be taken in any order.

100A. Elementary (5) I, II
Pronunciation, speaking and writing, readings on French culture and civilization, essentials of grammar. Not open to students who have completed three years of high school French in the academic years 1982-83 and 1983-84.

100B. Elementary (5) I, II
Pronunciation, speaking and writing, readings on French culture and civilization, essentials of grammar. Not open to students who have completed three years of high school French in the academic years 1982-83 and 1983-84.

200A. French Grammar (3) I, II
Pronunciation, speaking and writing, readings on French culture and civilization, essentials of grammar. Not open to students with credit in French 202.

Comprehensive survey of French grammar at the intermediate level. Analysis and use of typical French structures.
200B. Reading French (3) I, II
Prerequisite: French 100B or three years of high school French.
Majors and minors should enroll concurrently in either French 200A, 200C, or 200D. Not open to students with credit for more than 10 units of 200-level French. Emphasis on reading: short stories, plays, cultural material, etc.

200C. Writing French (3) I, II
Prerequisite: French 100B or three years of high school French.
Majors and minors should enroll concurrently in either French 200A, 200B, or 200C. Not open to students with credit for more than 10 units of 200-level French. Emphasis on written composition: study of a variety of prose models and practice in writing.

200D. The Grammar of Spoken French (3) I, II
Prerequisite: French 100B or three years of high school French.
Majors and minors should enroll concurrently in either French 200A, 200B, or 200C. Not open to students with credit in French 212.
Analysis of grammar and use of modern French through study of cultural materials, for proficiency in oral communication.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(intended for Undergraduates)
All upper division courses in French are taught in French unless otherwise stated. French 301 and French 302 are not open to students who hold a French baccalaureat.

301. Advanced Grammar and Composition (3) I, II
Prerequisite: Twelve units of 200-level French. Advanced grammar and stylistics, intensive writing practice.

302. Advanced Grammar and Composition (3) I, II
Prerequisite: French 301
Advanced grammar and stylistics, intensive writing practice

305A. Survey of French Literature (3) I
Prerequisite: Twelve units of 200-level French. Important movements, authors, and works in French literature from the Middle Ages to the Enlightenment.

305B. Survey of French Literature (3) II
Prerequisite: Twelve units of 200-level French. Continuation of French 305A from the Enlightenment to the present.

401. French Phonetics and Diction (3)
Prerequisite: Twelve units of 200-level French. Study of the sound system of French as a means of improving pronunciation and diction. Phonetic transcription, classroom exercises and laboratory work.

411. Explication de Textes (3)
Prerequisite: Twelve units of 200-level French. An introduction to the analytical approach to the detailed study of literature. Demonstrations by instructor and students.

421. French Civilization (3) I
Prerequisite: Twelve units of 200-level French. French culture from the earliest times to the Enlightenment, with emphasis on the people, their social and political institutions, their arts and letters. Not open to students with credit in Humanities 310.

422. French Civilization (3) II
Prerequisite: Twelve units of 200-level French. French culture from the Enlightenment to the present. Continuation of French 421. Not open to students with credit in Humanities 311.

431. Applied French Linguistics (3)
Prerequisite: Twelve units of 200-level French. Phonemics, morphemics, syntax and semantics of present day French.

496. Topics in French Studies (1-4)
Topics in French literature, culture and linguistics. May be repeated with new content. Maximum credit nine units. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. May be taught in English. See Class Schedule for specific content.

499. Special Study (1-3) I, II
Prerequisite: French 302, 305A, 305B.
Individual study. Maximum credit six units. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in French available in any given semester.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

501. Translation (3)
Prerequisite: French 302. Stylistic comparison of French and English through translation of a variety of prose styles from English to French and from French to English.

521. Seventeenth Century French Literature (3)
Prerequisite: French 302. Major seventeenth-century dramatists with emphasis on Corneille, Molière and Racine.

531. Eighteenth Century French Literature (3)
Prerequisite: French 302. Major eighteenth-century writers of fiction, with emphasis on Voltaire, Diderot and Rousseau.

541. Nineteenth Century French Novel (3)
Prerequisite: French 302. Major novelists of the nineteenth century.

543. Modern French Theatre (3)
Prerequisite: French 302. Major dramatists of modern France.

545. Modern French Poetry (3)
Prerequisite: French 302. Representative French poets of the modern era.

551. Twentieth Century French Novel (3)
Prerequisite: French 302. Major novelists of twentieth-century France.

561. Methods in Teaching French as a Second Language (3)
Prerequisite: French 431. Teaching of French as a second language, contemporary theory and methods. Not open to students with credit or concurrent enrollment in Spanish 561.

596. Topics in French Studies (1-4)
Prerequisite: French 302. Topics in French language, literature and linguistics. May be repeated with new content. Maximum credit nine units. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. See Class Schedule for specific content.

GRADUATE COURSES
Refer to the Graduate Bulletin.
General Studies*

The University offers a number of courses which are not part of a regular departmental curriculum. They provide students with opportunities for achieving academic credit through interdisciplinary and nontraditional course work.

### General Courses

#### LOWER DIVISION COURSES

105. Living in the Information Society (3) I, II
- For further information contact the Department of Telecommunications and Film.
- The media, information and the citizen of postindustrial society. Producers and consumers in an information-centered world. Issues including critical analysis of media messages, personal privacy, and implications for society and government. (Formerly numbered University Studies 105.)

200. Selected Activities (1-3) Cr/NC
- Prerequisite: Twelve units of college credit and a minimum grade point average of 2.0.
- Supervised experience in college or community activities.

275. Honors Special Study (1)
- For further information contact the Division of Undergraduate Studies.
- Prerequisite: Admission to the University Honors Program.
- Special study associated with a lower division course offered as an honors section, and serving as an extension of the course. (Formerly numbered University Studies 275.)

#### UPPER DIVISION COURSES (Intended for Undergraduates)

300. Honors Course (1-3)
- Refer to Honors Program. (Formerly numbered University Studies 300.)

310. Our Global Future: Values for Survival (3)
- For further information contact Dr. Mary E. Clark in the Department of Biology.
- Prerequisite: One course from each of the three areas of Foundations in General Education. Identifies resource and social crises toward which contemporary American values are leading; examines the nature of human action; contrasts other value systems with ours; considers origins of our values and the individual's potential for changing them. Interdisciplinary team taught. (Formerly numbered University Studies 210 and 250 and General Studies 210.)

---

* General Studies courses offered as University Studies courses prior to academic year 1984-85.

### Human Services Courses

The College of Human Services sponsors General Studies courses 302 and 502. The purpose of these courses is to provide an opportunity for interdisciplinary study for students entering human service professions. Refer to the Class Schedule for specific content. (Formerly numbered University Studies 302 and University Studies 502 respectively)

302. Selected Topics in Human Services (1-3) Cr/NC

502. Advanced Topics in Health and Human Services (1-3)

### Innovative Courses

General Studies courses (250, 350, 550) are interdisciplinary courses characterized by new methods of teaching and learning. These courses are proposed by faculty or by students acting through a faculty sponsor and may be offered up to four semesters. Questions about individual courses should be directed to the department or departments listed immediately after the General Studies number (250, 350, 550) in the Class Schedule; general inquiries about General Studies courses (250, 350, 550) as a whole should be directed to the chair of the University Curriculum Committee.

250. Innovative Approaches to Teaching and Learning (1-6)

350. Innovative Approaches to Teaching and Learning (1-6)

550. Innovative Approaches to Teaching and Learning (1-6)

### Liberal Arts Courses

The College of Arts and Letters sponsors General Studies courses 101 and 301 which are interdisciplinary courses. They fall into two main categories: (1) Lecture series on topics of current interest for which the humanities and social sciences bring insight; and (2) Workshops designed to give liberal arts students skills desirable for advancement in their major, but not normally offered by their departments.

Students interested in enrolling in General Studies 101 and 301 should contact the faculty adviser of the department(s) offering the course for further details. (Formerly numbered University Studies 101 and University Studies 301 respectively)

101. The Liberal Arts in Today's World (1-3) Cr/NC

301. The Liberal Arts in Today's World (1-3) Cr/NC
**Geography**

**In the College of Arts and Letters**

**Faculty**  
Emeritus: Colombo, Eidemiller, Kiewiet de Jonge, Richardson, Storm, Taylor  
Chair: Griffin  
Professors: Ford, Greenwood, Griffin, Johnson, Keen, O'Brien, Pryde, Quastler, Stutz.  
Wright, Yahr  
Associate Professors: Blick, Fredrich, McArthur  
Assistant Professors: Aguado, Stow  
Lecturer: Jones

**Offered by the Department**  
Master of Arts degree in geography.  
Major in geography with the A.B. degree in liberal arts and sciences.  
Minor in geography.  
Certificate in cartography.

**Advising**  
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

**Geography Major**

**With the A.B. Degree in Liberal Arts and Sciences**

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."  
Preparation for the major and the major consist of basic requirements in the lower and upper division for all students, plus additional requirements in one of the following areas of specialization: (a) General Geography, (b) Physical Geography, (c) Resource and Environmental Geography, (d) Transportation and Urban Geography, (e) Applied Geography.

**Basic Requirements for All Students**

**Preparation for the Major.** Geography 101, 101L, 102. (7 units.)

**Foreign Language Requirement.** Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

**Upper Division Writing Requirement.** Passing the University Writing Examination or English 304W, 305W, 500W, 508W, 581W, or 582W, with a grade of C (2.0) or better.

**Major.** A minimum of 26 to 38 upper division units to include Geography 305 (two units), Geography 498A (1 unit), and either Geography 498B (2 units) or at least two additional units in geography other than the major requirements. Students wishing to take Geography 498B must have an overall GPA of 3.0 and/or the consent of the department.

Graduation with Distinction. A student desiring to graduate with Distinction in Geography must meet the University requirements listed in the section of this catalog on "Graduation Requirements." In addition, must have completed Geography 498B by the time of graduation and be recommended by the geography faculty.

In addition to the basic requirements, the student must complete the requirements in one of the following areas:

1. **General Geography**
2. **Physical Geography**
3. **Resource and Environmental Geography**
4. **Transportation and Urban Geography**
5. **Applied Geography**

**Additional Preparation for the Major.** Geography 103.

**Major (continued).** Fifteen units from Geography 378, 401, 501-509; six units from 382, 488, 581-589; and three units from each of the following groups: (a) 380-381; (b) 320-339, 521-540; (c) 350-371, 554-576. (35 units.)

**Certificate in Cartography.**

**Additional Preparation for the Major.** Geography 103; Biology 100, 100L.

**Major (continued).** Geology 370 and 371; these three units from each of the following groups: (a) 320-339, 521-540; (b) 350-365, 554-579; (c) 380-381; (d) 382, 488, 581-589. Nine units from Geography 378, 570-576*, six units from Geography 401, 501-506. (38 units.)

**Geography Minor**

The minor in geography consists of a minimum of 18 units of geography to include Geography 101, 102 and one of the following:

**Physical** (a) 18 units selected from Geography 370, 371, 570-576; (b) 382, 488, 581-589; (c) 380-381; (d) 320-339, 521-540; (e) 350-371, 554-576; (f) 378, 401, 501-506, (g) 507-509. (35 units.)

**Cartography Certificate**

The purpose of the program is to prepare students to carry out different types of mapping activities in public and private organizations. Students must apply for admission to the program before the completion of 15 certificate units and must complete the required units with a 2.5 grade point average.
The certificate requires 21 units to include six units selected from Civil Engineering 218, Mathematics 107 and 137; and fifteen units selected from Geography 381*, 382*, 486*, 495, 581, 582. Courses with relevant content may be substituted for the courses listed above with the approval of the certificate adviser.

* Geography 101 is a prerequisite for this course.

LOWER DIVISION COURSES

101. Introduction to Physical Geography (3) I, II
The nature of maps, weather and climates of the world; natural vegetation, land forms and their associated soils, with reference to their climatic relationships; the seas and their coasts. Related field observations.

101L. Physical Geography Laboratory (1) I, II
Three hours of laboratory. Prerequisite: Credit or concurrent registration in Geography 101. Practical exercise and observation in map analysis, weather elements, climatic regions, and the earth's landform features. Designed to supplement Geography 101.

102. Introduction to Cultural Geography (3) I, II
Introduction to cultural geography, covering the elements of culture, such as technology, race, language, religion, political organization, methods of livelihood, settlement patterns and population, and the regional distribution of these elements over the earth. Occasional field trips may be arranged.

103. Introduction to Meteorology (3) I, II
The composition, structure, and circulation of the atmosphere, including elementary theory of storms and other weather disturbances. May be followed by, or taken with, Geography 103L.

103L. Introduction to Meteorology Laboratory (1) I, II
Three hours of laboratory. Prerequisite: Credit or concurrent registration in Geography 103. Practical exercise in surface and upper air observations, weather codes, and elementary weather map analysis.

UPPER DIVISION COURSES

Intended for Undergraduates

305. Concepts and Trends in American Geography (2)
Prerequisites: Geography 101 and 102. Major trends, concepts and methods of American geography. Introduction to basic geographic literature and information sources. Emphasis on newly evolving aspects of geography and the dynamic nature of the discipline.

312. Culture Worlds (3) I, II
Prerequisites: Geography 101 and 102. The evolution, distinguishing cultural characteristics, and physical features of major cultural regions of the world. Role humans have played in the alteration of natural landscape. (Formerly numbered Geography 312A-312B.)

320. California (3) I, II
Prerequisite recommended: Geography 101 or 102. Systematic and regional analysis of the topography, climate, natural vegetation, and their relationships with the past and present activities of man and his use of the land. Offered in summer with a 10-day tour. Maximum credit three units.
A. Lecture course (occasional field trips may be arranged)
B. Fieldwork course

321. United States (3) I, II
Prerequisite recommended: Geography 101 or 102. The natural regions of the United States, their formation and economic and historical development.

322. Canada and Alaska (3) II
Prerequisite recommended: Geography 101 or 102. The physical and historical bases of Canadian and Alaskan regionalism; the economic and strategic importance of these two areas.

323. Middle America (3) I, II
Prerequisite recommended: Geography 101 or 102. The land and peoples of Mexico, Central America, and the islands of the Caribbean; a survey of the resources, economies, and trade of the region. Maximum credit three units.
A. Lecture course (occasional field trips may be arranged)
B. Fieldwork course

324. South America (3) I, II
Prerequisite recommended: Geography 101 or 102. The physical regions and human geography of South America, including the history of colonization and the exploitation of resources.

325. Geography of San Diego County (3) I, II
Prerequisite recommended: Geography 101 or 102. Analysis of the physical and cultural geography of San Diego County. Topics covered will include landform, population, industry, transportation, and the effects of human activities on the natural environment. Maximum credit three units.
A. Lecture course (occasional field trips may be arranged)
B. Fieldwork course

331. Monsoon Asia (3)
Prerequisite recommended: Geography 101 or 102. Geographic basis for the political heritage, economics, and peoples of China, Japan, Indonesia, India, and other countries of Southern, Southeastern, and Eastern Asia.

335. The Middle East and North Africa (3) I, II
Prerequisite recommended: Geography 101 or 102. The geographic basis for the political heritage, economies, religious institutions, and peoples of North Africa and the Middle East.

336. Europe (3)
Prerequisite recommended: Geography 101 or 102. Systematic analysis of the geographic bases of modern European life. Regional investigations of Europe except the Soviet Union.

337. Soviet Union (3)
Prerequisite recommended: Geography 101 or 102. Natural resources, agricultural production, industrial growth, and transportation.

339. Oceania (3)
Prerequisite recommended: Geography 101 or 102. The physical geography, peoples, economies, and trade of Oceania, Australia, and New Zealand.

350. Political Geography (3) I, II
Geography as it relates to the strength of nations and international relations.

351. Economic Geography; Primary Production (3)
Prerequisite recommended: Geography 101 or 102. The geography of agricultural production and the extractive industries in relation to world commerce. Occasional field trips may be arranged.

353. Location of Economic Activity (3) I, II
Prerequisite recommended: Geography 101 or 102. Spatial arrangement and interrelationship of resources, production, exchange and consumption; principles and theory in industrial location; selecting favorable locations for capital investments, determining growth potential of service and market areas, meeting environmental impact requirements.

354. Geography of Cities (3) I, II
Prerequisite recommended: Geography 101 or 102. Survey of the location, function and spread of cities; the spatial and functional arrangement of activities in cities, leading to an analysis of current urban problems: sprawl, city decline, metropolitan transportation. Maximum credit three units.
A. Lecture course (occasional field trips may be arranged)
B. Fieldwork course
356. **Social Geography (3)**
Prerequisite: Geography 102.
Analyzing the spatial distribution of sociocultural phenomena. Emphasis on social regions, spatial behavior, and cultural landscapes. Topics include landscape image and design, patterns of folk and ethnic culture and spatial diffusion processes.

357. **Historical Geography (3)** I, II
Prerequisite: Geography 101 or 102.
Transformation of the natural and cultural landscape with emphasis on the utilization and significance of resources. Exploration, migration, and settlement in relation to geographic phenomena.

358. **Transportation Geography (3)** I, II
Prerequisite recommended: Geography 101 or 102.
The spatial distribution of transportation networks and commodity movement and their relationship to the distribution of economic activity.

359. **Geography of Air Transportation (3)** I, II
Prerequisite recommended: Geography 101 or 102.
Evolution, current status, with emphasis on the U.S. and future of commercial air transportation as influenced by government regulations, economic conditions, corporate strategies, and technological change.

360. **Geography of Tourism (3)**
Distribution and patterns of domestic and international tourism. Background, physical, cultural, and social characteristics, modes of travel, destinations, environmental and cultural impact, problems and future. Occasional field trips.

361. **Human Perception: Space and Place (3)** I, II
Human perception and spatial behavior in a broad range of physical and cultural settings designed to provide an understanding of key relationships between people and place.

362. **Conservation of Environmental Quality (3)** I, II
Prerequisite recommended: Geography 101 or 102.
Quality of man's habitat in a changing human and natural environment; water, air and soil pollution, urban crowding, disappearance of open space, and decreasing opportunities for outdoor recreation. Occasional field trips may be arranged.

363. **Conservation of Natural Resources (3)** I, II
Prerequisite recommended: Geography 101 or 102.
Nature and extent of mineral, soil, water, forest, and wildlife resources and their conservation, with particular emphasis on the United States against a general background of world resources. Conservation philosophies and practices and their geographic bases. Maximum credit six units.

364. **Map Investigation (3)** I, II
Two lectures and three hours of laboratory.
Prerequisite: Geography 101 or 102.
Use of the map as an analytical tool in geography. History of developments in cartography.

365. **Maps and Graphic Methods (3)** I, II
Two lectures and three hours of laboratory.
Prerequisite: Geography 101 or 102.
The art and science of creating graphs and maps as media for describing and analyzing geographic phenomena. Laboratory instruction and practice in cartographic techniques with emphasis on presenting qualitative data.

366. **Use and Interpretation of Aerial Photographs (3)** I, II
Two lectures and three hours of laboratory.
Prerequisites: Geography 101 and consent of instructor. Stereoscopic interpretation and cartographic representation of landforms, vegetation, and land use. Emphasis on practical exercises.
507. Geography of Natural Vegetation (3) I, II
Prerequisite: Geography 101.
The natural vegetation associations of the world, their distribution, classification and development, including relationship to human activities. Maximum credit three units.
A. Lecture course (occasional field trips may be arranged)
B. Fieldwork course

508. Physical Climatology (3) I
Prerequisite: Geography 103.
Effects of latitude, altitude, mountains, ocean currents, wind systems, and various surfaces on the distribution of solar radiation, temperature, precipitation, and other climatic elements. Statistical reduction and interpretation of climatic data.

509. Regional Climatology (3) II
Prerequisite: Geography 103.
The causes of climatic types as they occur throughout the world. Principles of several climatic classifications.

510. Urbanization and Modernization in Latin America (3)
Prerequisite: Geography 102, 323 or 324.
Analysis of specific aspects of urbanization and modernization processes in Latin America. Emphasis on changing spatial relationships resulting from rapid urban growth and culture change. Occasional field trips.

511. Historical Geography of Latin America (3) (Offered at IVC only)
Prerequisite: Geography 102, 323 or 324.
Changes in the Latin American cultural landscape over time. The people, exploration, settlement and changing geographical patterns of all or a part of the region. Origin and diffusion studies will be stressed.

512. Advanced Regional Geography (3)
Prerequisite: At least one upper division course in the subject region.
Intensive study of a major country or subregion. May be repeated with different course content for a maximum of six units. See Class Schedule for specific content.

513. World Cities: Comparative Approaches to Urbanization (3) II
Prerequisite: Geography 354.
Worldwide trends in urbanization and cultural variations in those trends. Case studies of particular world cities from variety of culture areas such as London, Mexico City, Tokyo, Cairo, and New York, with focus on internal city structure.

514. Historic Preservation and Urban Design (3)
Prerequisite: Geography 102.
Processes of growth and change in cities. Techniques for preserving, renovating, rehabilitating, and recycling valued buildings and neighborhoods. International comparisons of preservation policies and practices and analyses of urban patterns resulting from them. American values and the concept of place.

515. Location and Spatial Structure of Cities (3)
Prerequisite: Geography 354 or three units of upper division course work in a related field.
Principles and characteristics of urban growth and settlement; the internal structure and functioning of urban centers; spatial models of urban land use; growth management, transportation problems, and sociopolitical urban problems. Occasional field trips may be arranged.

516. Advanced Transportation Geography (3)
Prerequisite: Geography 358 or 559.
Topics in the spatial analysis of transportation, e.g., spatial interaction patterns, diffusion process, models in spatial analysis. Occasional field trips may be arranged.

517. Urban Transportation Geography (3)
Prerequisite: Three units of upper division urban or transportation course work in geography or related field.
Urban transportation networks and their effects, past, present and future, on the economy and physical structure of the urban region. Occasional field trips may be arranged.

518. Land Use Analysis (3) II
Prerequisite: Geography 370.
Problems of maintaining environmental quality in the process of land conversion from rural to urban uses with emphasis on land capability and suitability studies. Occasional field trips may be arranged.

519. Energy Resources and the Environment (3) I, II
Prerequisite: Geography 371. Recommended: Physics 107 or 301.
Location and distribution of conventional and renewable energy resources, their environmental effects, and policy questions regarding future development and use of energy resources.

520. Geography as Human Ecology (3)
Prerequisite: Geography 370.
Human ecology related to resource geography. Occasional field trips may be arranged.

521. Water Resources (3) II
Prerequisite: Geography 370 or 371.
Occurrence and utilization of water resources and the problems of water resource development. Occasional field trips may be arranged.

522. Geography of Recreation and Land Use (3) I, II
Prerequisite: Geography 101 or 102.
Importance of location and environment in the use, management, and quality of recreation areas. Maximum credit three units.
A. Lecture course (occasional field trips may be arranged)
B. Fieldwork course

523. Geography of Marine Resources (3)
Prerequisite: Geography 101 or 102.
Economic geography of use of marine biotic and mineral resources. Occasional field trips may be arranged.

524. Advanced Cartography (3)
Two lectures and three hours of laboratory.
Prerequisite: A three-unit course on mapping. Advanced laboratory instruction and practice in cartographic techniques.

525. Automated Cartography (3)
Two lectures and three hours of laboratory.
Prerequisite: Three units from Geography 380, 381, 382, 488, 585, or 589, or from graphics or computer programming.
Computerized methods in presenting and comprehending spatially variable information of a quantified nature; examination of existing automated mapping systems.

526. Quantitative Methods in Geographic Research (3) I, II
Prerequisite: Mathematics 250 or equivalent course in statistical methods.
Quantitative methods in geographic research, including computer solutions.

527. Intermediate Remote Sensing (4) II
Three lectures and three hours of laboratory.
Prerequisites: Geography 488 and 585.
Multispectral remote sensor systems and interpretation of imagery from nonphotographic sensors. Computer-assisted image processing. Visible and infrared scanners, microwave radiometers and radar systems. Geographic analysis of selected terrestrial and oceanographic processes.

528. Field Geography (3)
Two lectures and three hours of laboratory.
Prerequisites: Senior or graduate standing and the completion of at least 12 units in geography, including Geography 101 and 102, and consent of instructor.
Data collection techniques. Field use of topographic maps, drafting systems, automated land use, land cover and land capability mapping. Directed field work.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Geological Sciences
In the College of Sciences

Faculty
Emeritus: Brooks, McEuen, Roberts, Thomas, Threet
Chair: Abbott
Professors: Abbott, Berry, Berline, Dorman, Gastil, Jiracek, Kern, Krummenacher, Miller, Peterson, Walawender
Associate Professors: Frost, Girty, Huntley, Marshall, Placek
Assistant Professor: Rockwell
Lecturer: Terry

Offered by the Department
Master of Science degree in geological sciences.
Major in geological sciences with the B.S. degree in applied arts and sciences.
Option in engineering geology.
Option in geochemistry.
Option in ecology.
Option in geophysics.
Option in hydrogeology.
Option in marine geology.
Option in palaeontology.
Minor in geological sciences.
Minor in oceanography.

Geological Sciences Major
With the B.S. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." Refer to department for listing of General Education requirements. Geological sciences majors must take all upper division courses listed for the major under Basic Requirements for All Students and the major continued option selected for letter grades only. These upper division courses may not be taken for credit/no credit.

Preparation for the major and the major consist of basic requirements in the lower and upper division for all students plus the requirements in one of the following options: (a) Geology, (b) Engineering Geology, (c) Geochemistry, (d) Geophysics, (e) Marine Geology, (f) Paleontology

Basic Requirements for All Students
Preparation for the Major. Geological Sciences 100 and 101, 105, 221, 224, Biology 100 or 110; and Chemistry 200 and 201. (28 units.) Recommended: a foreign language and a course in mechanical drawing if not completed in high school.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36-40 upper division units in approved courses to include Geological Sciences 305, 308, 498A-498B or 498A-498C, 508. (14 units.) Geological Sciences 508 is an optional course in the geophysics and marine geology degree options.

Options
In addition to the basic requirements, the student must complete the requirements in one of the following options:

(a) Geology

Major (continued). Geological Sciences 506, 507, 524, and either 525 or 530; at least one of the following: Geological Sciences 314, 502, 505, 520, 521, 526, 540, 550, 551; plus additional departmentally approved courses to complete a minimum of 36 upper division units for the major. (22 units.)

(b) Engineering Geology

Major (continued). Geological Sciences 314, 526, 550, 551, and one of the following: Geological Sciences 505, 510, 550, 548 or Civil Engineering 465, Civil Engineering 301, 462, 463. (22 units.)

Because of the preparation in mathematics, physics, and geology called for in this emphasis, the College of Engineering will not require of majors in this option the prerequisites specified for Civil Engineering 301, 444, and 462. Courses to satisfy the requirement of 36 upper division units in the major may be selected from upper division geological sciences courses not explicitly excluded. Students may petition the department to include courses from other disciplines to complete the upper division major requirement.

(c) Geochemistry

Additional Preparation for the Major. Chemistry 230 or 231, and 251; Mathematics 150, 151, 252; Physics 195, 196, 197, 197L. (32 units.) Recommended: Mathematics 107, Physics 195L, 196L.

Major (continued). Geological Sciences 530, Chemistry 410A-410B; either Geological Sciences 506 and 526, or Geological Sciences 524 and 525, seven units of electives approved by the departmental adviser. (22 units.)

(d) Geophysics

Major (continued). Geological Sciences 510, 512, and an additional nine units selected from 507, 520, 521, 526, 530, 540, 551, Mathematics 494A-494B or Engineering 310 and 510; from 507, 520, 521, 526, 530, 540, 551; Mathematics 340A-340B or an additional three units selected from Physics 40A, 410B, Electrical Engineering 340. (30 units.)

Major (continued). Geological Sciences 530, 540, 545, and four of the following courses: Geological Sciences 506, 524, 525, 526, 548; Biology 517; Chemistry 501; plus additional Geological Sciences 506, 524, 525, 526, 548, Courses to satisfy the departmentally approved courses to complete a minimum of 36 upper division units for the major. Recommended: Chemistry 410A-410B for students anticipating postgraduate studies. (28 units.)

(f) Paleontology

Additional Preparation for the Major. Biology 100, 110, 203, 204, 205, 210, 215; Mathematics 150, or 121 and 122 (alternative of 121 and 122 should not be selected by students planning academic work beyond the B.S. degree); Physics 180A-180B and 182A-182B. (25-26 units.)

Major (continued). Geological Sciences 506, 507, 516, 526; two courses from the following: Biology 353, 515, 517, 522, 526, plus additional departmentally approved courses to complete a minimum of 36 upper division units for the major. (20 units.)

(g) Hydrogeology

Major (continued). Geological Sciences 314, 505, 510 or 512, 526, 530, 551; Mathematics 340A-340B. (24 units.)

Geological Sciences Minor
The minor in geological sciences consists of a minimum of 20 units in geological sciences, twelve of which must be in upper division courses, to include Geological Sciences 100, 101,
Oceanography Minor

The minor in oceanography consists of a minimum of 19 upper division units to include Biology 616 or 517, Chemistry 501, Geological Sciences 540, 545, 546, Oceanography 541. Oceanography 320 is not applicable toward the oceanography minor.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

100. General Geology (3) I, II
Pursuit of understanding the earth as a whole and its past, present and future evolutionary processes. Unifying concepts such as plate tectonics and its implications, the magnitude of geologic time, uniformitarianism, and the ramifications of the fossil record will be explored. Open to all students except those with previous credit in geology.

101. General Geology Laboratory (1) I, II
Three lectures and three hours of laboratory. Arrangement for field study during the semester.

105. Historical Geology (4) I, II
The origin, occurrence, identification, and classification of rocks in hand specimen. Development and classification of landforms with emphasis on processes involved. Three lectures and three hours of laboratory. Unifying concepts such as plate tectonics and its implications, the magnitude of geologic time, uniformitarianism, and the ramifications of the fossil record will be explored. Open to all students except those with previous credit in geology.

221. Mineralogy (4) I, II
The origin, occurrence, identification, and classification of rocks in hand specimen. Three lectures and three hours of laboratory. Prerequisites: Geological Sciences 100 and 101.

224. Geology for Engineers (2) I, II
With credit in Geological Sciences 100 and 101, open only to students majoring in engineering. Not open to students with credit in Geological Sciences 510 or 512.

230. Introduction to Geophysics (3) I, II
Recognition of common earth features and materials with experience in both field and map relationships. Designed to accompany and augment Geological Sciences 100. Not open to students with previous laboratory credit in geology.

253. Geology for Engineers (2) I, II
Earth materials, geologic processes, and methods of geologic interpretation of particular concern to the engineer. Open only to students majoring in engineering. Not open to students with credit in Geological Sciences 100 and 101.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
### Upper Division Courses

#### (Also Acceptable for Advanced Degrees)

**502. Geology of North America (3) I**
- Prerequisite: Geological Sciences 105.
- A regional analysis of North American geology, its structural, stratigraphic, and tectonic patterns and hypotheses concerning their origin and evolution.

**505. Photogeology (3) II**
- Two lectures and three hours of laboratory.
- Prerequisites: Geological Sciences 305 and 314.
- Geologic interpretation of aerial photographs, elementary stereoscopy and stereometry applied to structural and stratigraphic problems, and compilation of geologic maps from annotated aerial photographs.

**506. Paleontology (3) I, II**
- Two lectures and three hours of laboratory.
- Prerequisites: Geological Sciences 105 and either Biology 100-100L or 110-110L.
- Principles and methods, exemplified by a study of the morphology, classification, habit, and geologic significance of fossil invertebrates.

**Vertebrate Paleontology**, see Biology 526.

**507. Stratigraphy (3) II**
- Two lectures and three hours of laboratory.
- Prerequisites: Geological Sciences 105 and 224.
- Stratigraphic principles and practices. Consideration of the North American stratigraphic record.

**508. Field Geology (4) I, II (4 or 6) Summer**
- One lecture and three hours of laboratory and seven weekend field sessions.
- Summer: Twenty-four days in the field (4 units); ten additional days of field and laboratory work (6 units).
- Prerequisites: Geological Sciences 308.
- Summer: Geological Sciences 308 and 524.
- Geologic investigation of an assigned area with preparation of an individual report and a geologic map.
- Summer: Geological investigation of an assigned area with preparation of an individual report and a geologic map. Students enrolling for six units will undertake additional petrographic and geochemical studies as part of their report.

**510. Petroleum Geophysics (3) I**
- Two lectures and three hours of laboratory. Occasional field trips.
- Prerequisites: Geological Sciences 305, Mathematics 252, Physics 195, 196, 197.
- Recommended: Physics 195L, 196L, 197L.
- Airborne, surface, and bore-hole geophysical techniques as presently used in oil exploration.

**512. Mining Geophysics (3) II**
- Two lectures, and three hours of laboratory or occasional field trips.
- Prerequisites: Geological Sciences 305, Mathematics 252, Physics 195, 196, 197.
- Recommended: Physics 195L, 196L, 197L.
- Airborne, surface, and bore-hole geophysical techniques used for delineation of ore bodies.

**516. Micropaleontology (3) II**
- Two lectures and three hours of laboratory.
- Prerequisite: Geological Sciences 506.
- The morphology, classification and geologic significance of the various microfossils.

**520. Ore Deposits (3) I**
- Prerequisites: Credit or concurrent registration in Geological Sciences 224 and 305.
- Geologic relations, origin, distribution, and economics of metallic and nonmetallic mineral deposits.

**521. Petroleum Geology (3) II**
- Prerequisites: Geological Sciences 224 and 305.
- Geologic occurrence of petroleum and the application of geologic principles in exploration and production.

**524. Optical Mineralogy (3) I, II**
- Two lectures and three hours of laboratory.
- Prerequisite: Geological Sciences 221.
- Theory and use of the polarizing microscope for determining optical properties of minerals as an aid to their identification.

**525. Petrography (3) II**
- Two lectures and three hours of laboratory.
- Prerequisite: Geological Sciences 524.
- A study of rocks with the polarizing microscope; identification of mineral constituents; interpretation of textures; classification of rocks; problems of genesis.

**526. Sedimentology (3) I**
- Two lectures and three hours of laboratory.
- Prerequisites: Geological Sciences 105 and 224.
- Origin, description, and interpretation of sedimentary rocks and structures.

**530. Geochemistry (3) I, II**
- Two lectures and three hours of laboratory.
- Prerequisites: Geological Sciences 224; Chemistry 201; Mathematics 121 and 122, or 150.
- The relationship of basic chemical principles to geologic phenomena and environments, including applications to geologic exploration problems.

**540. Marine Geology (3) I**
- Prerequisites: Geological Sciences 105, and either Geological Sciences 224, 314, 502, or 506.
- Plate tectonic origin and history of the ocean basins. Formation and distribution of sediments in response to biological, chemical, and geologic processes.

**545. Descriptive Physical Oceanography (3) I**
- Two lectures and three hours of laboratory.
- Prerequisites: Mathematics 121 and 122 or 150. Physics 180A or 195.
- Physical environment of oceans including heat, water, and salt budgets, physical properties of sea water, sea ice, air-sea relationships, effects of light and sound, distribution of temperature, salinity, density, surface current, deep circulation, water mass formation, instruments and methods of study.

**548. Coastal and Estuarine Physical Oceanography (3) II**
- Prerequisites: Mathematics 121 and 122 or 150. Physics 180A or 195.
- Physical processes of marine coastal areas and estuaries. Includes longshore currents, rip currents, and wave refraction and diffraction, mechanics of sediment transport, forces and dynamics of estuarine circulations and tides.

**550. Engineering Geology (3) II**
- Two lectures and three hours of laboratory.
- Prerequisite: Geological Sciences 305.
- Relationships between geologic processes and works of humans. Topics include rock and soil mechanics, ground water flow, slope stability, seismicity, land subsidence, and evaluation of soil and rock materials with respect to dam sites, tunnel alignments, and building foundations.

**551. Hydrogeology (3) I**
- Two lectures and three hours of laboratory.
- Prerequisites: Geological Sciences 305 and Mathematics 150.
- Theory of ground water flow. Exploration for and development of the ground water resource, aquifer tests, water quality, and water resource management. Occurrence of water in alluvial, sedimentary, volcanic, plutonic, and metamorphic terrains.

**596. Advanced Topics in Geology (1-4)**
- Prerequisite: Consent of instructor.
- Advanced special topics in the geological sciences. See Class Schedule for specific advanced topics.

### Graduate Courses

Refer to the Graduate Bulletin.
German

In the College of Arts and Letters

Faculty
Emeritus: Lawson, Walker, Wolf
Chair: Wulbern
Professors: Boney, Dukas, Paulin, Schaber, Tanaka, Westervelt, Wulbern
Associate Professor: Dunkle

Offered by the Department of German and Russian Languages and Literatures

Master of Arts degree in German.*

Major in German with the A.B. degree in liberal arts and sciences.
Teaching major in German for the single subject teaching credential in foreign languages.
Minor in German.

* No students will be admitted to this program during the current academic year.

Advising

All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

German Major

With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

Students majoring in German must complete a minor in another field to be approved by the departmental adviser in German.

Preparation for the Major, German 101, 102, 201, 202, 211, and 212 (21 units).

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major.

Major. A minimum of 30 upper division units to include German 301, 302, 310; 15 units selected from German 403, 501, 510, 540, 545, 549, 555, 561, 596, and Humanities 320 and 321.

German Minor

The minor in German consists of a minimum of 15 units in German, six units of which must be in upper division courses.

COURSES IN THE MINOR MAY NOT BE COUNTED TOWARD THE MAJOR, BUT MAY BE USED TO SATISFY PREPARATION FOR THE MAJOR AND GENERAL EDUCATION REQUIREMENTS, IF APPLICABLE.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:
1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language count as the equivalent of three college semesters, thus fulfilling the foreign language requirement.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences

Students electing the study of German to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete German 101 or the equivalent level of achievement. The usual sequence of course work is German 101, 102, and 201. Refer to section of catalog on "Graduation Requirements" for additional ways to satisfy competency.

LOWER DIVISION COURSES

Native speakers of German will not receive credit for taking lower division courses in German except with advance approval from the department.

All lower division courses in German are taught in German.

No credit will be given for German 101, 102, 201, 202, 301 taken out of sequence. German 302 may be taken before 301.

101. First Course in German (4.5) I, II
Four lectures and one hour of laboratory. Pronunciation, oral practice, readings on German culture and civilization. Minimum essential level of achievement. Not open to students who have completed three years of high school German unless the third course was completed five or more years ago.

102. Second Course in German (4.5) I, II
Four lectures and one hour of laboratory. Continuation of German 101. Not open to students who have completed four years of high school German unless the fourth course was completed five or more years ago.

201. Third Course in German (4) I, II
Prerequisite: German 102 or two years of high school German. Continuation of German 101. Not open to students who have completed four years of high school German unless the fourth course was completed five or more years ago.

202. Fourth Course in German (4) I, II
Prerequisite: German 201 or four years of high school German. Continuation of German 201.
211. Conversation (2) I, II
Prerequisite: German 102 or three years of high school German.
Practice in the spoken language with emphasis on the articulation of German sounds;
practical vocabulary; conversation on everyday cultural topics.

212. Conversation (2) I, II
Prerequisite: German 201 or 211, or four years of high school German.
Continuation of German 211.

UPPER DIVISION COURSES
(Indicated for Undergraduates)

All upper division courses in German are taught in German unless otherwise stated.

301. Grammar and Composition (3)
Prerequisites: German 202 and 212.
Grammar and stylistics; intensive writing practice; reports based on outside reading.

302. Grammar and Composition (3)
Prerequisites: German 202 and 212.
Grammar and stylistics; intensive writing practice; reports based on outside reading.

310. Introduction to German Literature (3)
Prerequisite: German 202.
Introduction to literary study in German, with selected readings representative of different periods and genres.

403. Advanced Oral and Written German (3)
Prerequisites: German 301 and 302.
Advanced forms of oral and written German.

420. German Civilization (3) I, II
Prerequisite: Twelve units of German language at the 200-level or higher.
Culture of past and present with emphasis on creative achievements of German people in visual arts, music, philosophy, and letters. Taught in German.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisites: Fifteen upper division units in the major with an average of B (3.0) or better and consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

505. Applied German Linguistics (3)
Prerequisites: German 301 and 302.
Linguistic study of modern German; integration of modern linguistic theory with the language classroom.

510. German Phonetics (3)
Prerequisites: German 202 and 212.
Sounds and intonation of German.

540. German Literature from Its Beginning to the Baroque Period (3)
Prerequisite: German 310.
Literature from the eighth century to about 1700.

545. German Literature of the Eighteenth Century (3)
Prerequisite: German 310.
Reading and discussion of representative works of significant authors and movements of the eighteenth century.

549. Goethe's Faust (3)
Prerequisite: German 310.
Goethe's Faust, Parts 1 and 2: its philosophical content and its position in German and European literature; lectures, reading, reports.

555. German Literature of the Nineteenth Century (3)
Prerequisite: German 310.
Reading and discussion of representative works of significant authors and movements of the nineteenth century.

561. German Literature of the Twentieth Century (3)
Prerequisite: German 310.
Reading and discussion of representative works of significant authors and movements of the twentieth century.

596. Topics in German Studies (3)
Prerequisites: German 310 (for literary topics) or 505 (for linguistic topics).
Topics in German language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

GRADUATE COURSES
Refer to the Graduate Bulletin.

Greek
Refer to section on Classics.
Health Science

In the College of Human Services

Faculty
Emeritus: Barnes, Fellers, Harper, Kitzinger
Chair (Acting): Boskin
Professors: Bender, Burgess, McTaggart, Sorochan
Associate Professors: Boskin, Kessler, Noto, Senn, Sleet

Offered by the Department
Major in health science with the B.S. degree in applied arts and sciences.
Emphasis in community health education.
Teaching major in health science for the single subject teaching credential in health science.

Minor in health science.

Health Science Major
With the B.S. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

Emphasis in Community Health Education
Preparation for the Major, Health Science 101, 102; Biology 120, 120L, 150; Chemistry 100; Family Studies and Consumer Sciences 107; Psychology 101; Sociology 101; Speech Communication 103. (30 units.)

Upper Division Writing Requirement, Passing the University Writing Examination or English 304W or 305W with a grade of C (2.0) or better.

Major. A minimum of 40 upper division units to include Health Science 400, 401, 402, 406, 470, 490, 497 (six units), 561; Biology 336; Development, Administration and Technology 532; Social Work 360; and three units of electives in health science.

Health Science Major
For the Single Subject Teaching Credential
All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.
This major may be used by students in teacher education as an undergraduate major for the B.S. degree in applied arts and sciences.

Preparation for the Major, Health Science 102; Biology 150; Chemistry 100; Family Studies and Consumer Sciences 107; Psychology 101; Sociology 101; Speech Communication 103. (23 units.)

Upper Division Writing Requirement, Passing the University Writing Examination or English 304W or 305W with a grade of C (2.0) or better.

Major. A minimum of 39 upper division units to include Health Science 301, 321, 331, 345, 350, 355, 400, 470, 475, 490, 574, 575, Biology 336.

Health Science Minor
The minor in health science consists of a minimum of 15 or 18 units in health science selected from one of two areas:
Community Health Education: Health Science 101, 301, 400, 401, 470, 561.
School Health: Health Science 101, 320 or 321, 331, 475, 574, 575, Biology 336.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

101. Health and Life-style (3) I, II
Major variables in human health experience with attention to personal health assessment and application of health knowledge to health behavior.

102. Community Health (3) I, II
Community health problems; the role of the citizen, of the public, and of community health agencies in promoting and protecting the health of the community.

170. Physiology of Reproduction (2)
A series of lectures and discussions dealing with normal and abnormal physiology and anatomy of reproduction; facts and frauds in sex hygiene, and related topics.

220. The Biology of Health (3)
Prerequisite: Biology 100.
Basic human biology in health and disease; the nature and scope of health education.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Concepts of Health Science (3)
Development and application of concepts in individual, family, and community health. Involvement in health project work. Not open to students with credit in Health Science 101.

320. Health Education for Elementary Teachers (3) I, II, S
The teacher's function in the different aspects of the elementary school health program, with emphasis on the planning and presentation of instructional materials and community resources and relationships.

321. Health Education for Secondary Teachers (2) I, II, S
The teacher's function in the secondary school health program.

351. Crisis Management (3) I, II
Physical and psychological crisis situations, various procedures and techniques in immediate management and follow-up referrals.

345. Safety and Accident Prevention (3) II
Prerequisites: Health Science 102; First Aid and CPR certification required.
Causes and incidence of accidents with emphasis on role of education, prevention, and injury control.

350. Environmental Health Education (3)
Environmental hazards of living and working in this modern technological world, including air, noise, land, food, and water pollution.

351. Occupational and Environmental Hazards (3)
Recognition and prevention of morbidity and mortality in occupational and environmental settings.

355. Consumer Health (3)
Hazards of consumer products from the viewpoint of design and use.

382. International Health (3)
Population dynamics, vital statistics, global disease patterns, and analysis of variations among nations and cultures with respect to health problems and health care services.

400. Health Education as a Profession (3) I, II
Prerequisite: Health Science 101 or 301.
Principles of health education and its role in the health system. For students with professional interests in health education.

401. Change Process in the Community (3) I, II
Prerequisites: Psychology 101, Sociology 101 and declared health science majors or minors.
Attitude formation, behavior change, decision making, perception, motivation, group behavior, etc., and their relationship to the practice of health and human services.
402. Communications in Health Education (3) I, II
Prerequisites: Health Science 400, Speech Communication 103.
Development and production of health presentations for group and individual levels; including written, oral, and graphic methods.

406. Health Education Methodology (3)
Prerequisite: Health Science 400.
Strategies, techniques, and materials for planning and conducting health education. Applications of learning theory in the development and use of educational methodologies in health education.

470. Communicable and Noncommunicable Diseases (3) I, II
Causes, prevention and control of communicable, degenerative and chronic health disorders.

471. Death Education (3)
Cultural, psychological, physical and personal aspects of death with emphasis on educational approaches.

475. Human Sexuality (3) I, II
Examination of the development of sexual values, attitudes, and behavior from infancy to old age.

490. Measurement and Evaluation in Health Science (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Successful completion of the SDSU Mathematics Competency requirement and Health Science 101 or 301. Proof of completion of prerequisites required.
Measurement in health science; data gathering techniques; organization, presentation and interpretation of data; computer utilization; basic principles of evaluation of student achievement.

491. Advanced Measurement and Evaluation in Health Science (3) II
Prerequisite: Health Science 490.
Measurement and evaluation of accumulated health science data.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

497. Supervised Field Experience (1-6) I, II Cr/NC
Prerequisites: Community Health Education students: Senior standing and Health Science 401, 402 and 560.
Supervised practical experience in local health agencies and/or schools. Maximum credit six units.

499. Special Study (1-3) I, II, S
Prerequisite: Consent of special study adviser.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

520. Administration of the School Health Program (3)
Administrative responsibilities of the school health program. Principles, policies, and practices involved in health instruction, health services, environment, legal implications, and community relationships.

560. Introduction to Public Health (3)
Prerequisite: Health Science 400.
Philosophy, development, organization, administration, and legal aspects of public health in the United States. Disease prevention and control, health education, and other functions and activities of official health departments, voluntary agencies, private physicians and others engaged in professional health work.

561. Health and Medical Care (3)
Prerequisite: Senior or graduate standing with a major or minor in health education or a closely related area.
Health values, concepts, and attitudes; health products and facilities; hospital care and hospitalization plans; governmental health controls; economic and cultural influences on health and medical care; professional contributions, relationships, and careers; national and international health programs.

573. Health in Later Maturity (3)
An approach to the conservation of human resources, with emphasis on understandings, attitudes, and practices related to health in later maturity. Designed for those with a personal or professional interest in the field.

574. Habit-Forming Substances (3) I, II
Tobacco, alcohol, and other drugs; their use, misuse and abuse.

575. Sex Education (3)
Prerequisite: Health Science 475.
Philosophy, current procedures, and materials needed for development of healthy attitudes and scientific knowledge appropriate for the understanding of human sexuality.

596. Workshop in Health Science (1-3)
Selected problems in health science are used as a basis for workshop experiences. Maximum credit six units; maximum credit three units applicable to a master's degree. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Hebrew
In the College of Arts and Letters

Faculty
Assistant Professor: Gefter

Offered by the Department of
Classical and Oriental Languages and Literatures

Courses in Hebrew.
Major or minor work in Hebrew is not offered.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences

Students electing the study of Hebrew to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Hebrew 201 or the equivalent level of achievement. The usual sequence of course work is Hebrew 101, 102, and 201. Refer to section of catalog on “Graduation Requirements” for additional ways to satisfy Bachelor of Arts degree in liberal arts and sciences.

LOWEST DIVISION COURSES

All lower division courses in Hebrew are taught in Hebrew.
No credit will be given for Hebrew 101, 102, 201 taken out of sequence.

101. Elementary (4)
Four lectures and one hour of laboratory.
Beginning Reading, writing, and conversational skills. Essentials of grammar. Not open to students who have completed three years of high school Hebrew unless the third course was completed five or more years ago.

102. Elementary (4) II
Four lectures and one hour of laboratory.
Prerequisite: Hebrew 101.
Continuation of Hebrew 101. Not open to students who have completed four years of high school Hebrew unless the fourth course was completed five or more years ago.

201. Intermediate (4) I
Four lectures and one hour of laboratory.
Prerequisite: Hebrew 102.
Continuation of Hebrew 102. Applications of grammar and reading skills. Additional practice in conversation.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

UPPER DIVISION COURSES
(intended for Undergraduates)

All upper division courses in Hebrew are taught in Hebrew unless otherwise stated.

496. Topics in Hebrew Studies (1-4)
Topics in Hebrew language, literature, culture, and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit eight units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.
History

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section on catalog on "Graduation Requirements."

Upper Division Writing Requirement. History 430W with a grade of C (2.0) or better

Major. A minimum of 39 upper division units in history to include History 430W with the remaining units distributed in the following pattern:

United States: Twelve units to include History 410A-410B and six units (preferably in sequence) selected from History 537A-537B, 541A-541B (unless used to fulfill California requirement below), 544A-544B, 545A-545B, 546A-546B, 547A-547B, 548A-548B.

California: Three units selected from History 541A or 541B.

Africa, Asia, Latin America and the Middle East: Six units selected from History 415A-415B, 420, 421, 473A-473B, 475A-475B, 574;

Elective: Three units. History 425 is recommended.

The major for the Single Subject Teaching Credential has been submitted to the Commission on Teacher Credentialing. Consult department to verify current program requirements.

History Minor

The minor in history consists of a minimum of 18 units in history to include six sequential units in the lower division. Twelve units must be in upper division history, distributed in no more than two of the fields listed under the history major.

If courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Lower Division Courses

100. World History (3)

The growth of civilizations and the interrelationships of peoples of Europe, Asia, Africa, and America to 1650.

101. World History (3)

Modern history from a global perspective, 1650 to the present.

105. Western Civilization (3)

Development of European culture, thought and institutions from ancient times through the seventeenth century. Not open to students with credit in History 305A.

106. Western Civilization (3)

Development of modern societies and states to the present day. Not open to students with credit in History 306B.

110A-110B. American Civilization (3-3)

The political and social development of the United States, with emphasis on the rise of American Civilization and ideals. This course is primarily for lower division students.

The year course meets the graduation requirements in American institutions, U.S. Constitution and California state and local government.

115A-115B. Comparative History of the Americas (3-3)

The western hemispheres from ancient times to the present, with focus on the interactions between the European, Amer-Indian and Afro-American cultures, institutions and traditions. Semester I: Ancient American civilizations. European colonial systems, creation of new nations. Semester II: Nations and cultures of the Americas since independence.

The year course meets the graduation requirements in American institutions, U.S. Constitution and California state and local government.

120. Introduction to Asian Civilizations (3)

Development of distinctive cultures, thought and institutions in Asia.

121. Asian Civilizations in Modern Times (3)

The rise of Asian nations and nationalism with emphasis on the nineteenth and twentieth centuries.

Upper Division Courses

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

Upper Division Courses (Intended for Undergraduates)

305A-305B. The Sources of Civilization in the West (3-3)

Prerequisite: Open only to upper division students. Survey of the most important ideas and attitudes which have shaped Western Civilization since ancient times. Emphasis on cultural themes rather than a political continuum. Not open to students with credit in History 105 and 106. The course cannot be used to satisfy requirement for the major.

310A-310B. United States History (3-3)

Survey of American history, Semester I: to 1877. Semester II: 1877 to the present. Designed primarily for students seeking upper division elective or graduation requirements in American institutions. 310A-310B together meet all graduation requirements in American history and institutions, U.S. Constitution, and California government. Not open to students with History 110A-110B or the equivalent; it may not be counted toward requirements for the major.

340. Environmental Problems in Historical Perspective (3) I, II

Past attitudes, policies, and behavior toward the land in context of religious and ethical beliefs, social values, economic practices, and political systems. Cannot be used to satisfy requirements for the major.

396W. Writing Proficiency (3)

Expository writing course intended only for students not majoring in history. Emphasis on clear, concise, and well-organized prose based on study of selected historical questions. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilling the Writing Competency requirement, and completed the General Education requirement in Written Communication. May not be used to fulfill upper division requirements in the history major.

430W. The Writing of History (3) I, II

Historical method and research in some aspect of history. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilling the Writing Competency requirement, and completed the General Education requirement in Written Communication. (Formerly numbered History 430.)

499. Special Study (1-3) I, II

Prerequisite: Consent of department chair and instructor.

Individual study. Maximum credit six units.

Field (a). Ancient, Medieval and Early Modern Europe

Upper Division Course (Intended for Undergraduates)

496. Issues in History (1-4)

Refer to Field (g) Topical Subjects.

Upper Division Courses (Also Acceptable for Advanced Degrees)

500A-500B. Ancient History (3-3)

Semester I: Greece to the Roman Conquest. Semester II: Rome to the fifth century A.D.

501. History of Ancient Near Eastern Civilizations (3)

Major civilizations of Near East from the origin of civilization to Roman Conquest, including Egyptians, Babylonians, Hebrews and Persians. Social, political, and religious problems.

503A-503B. Europe in the Middle Ages (3-3)

European social, cultural, and political developments from the fall of Rome to the Renaissance.
504. Medieval Spain (3)
Survey of the Spanish regions to the early sixteenth century. Social and economic developments.

506. The Renaissance (3)
The intellectual, artistic, and social transformation of Europe from the fourteenth through the early sixteenth century.

507. The Reformation (3)
Continental Europe in the sixteenth century; split of Christendom, the religious wars, national rivalries, the expansion of Europe and the beginnings of the scientific revolution.

513A. Scandinavia (3)
The major political, social, and economic developments in Scandinavia from the Viking Age to the end of the Napoleonic Wars.

Field (b). Modern Europe
UPPER DIVISION COURSES
(Intended for Undergraduates)

407A-407B. Modern Europe (3-3) I, II
History of Europe from the Renaissance to the present. Social, economic, and intellectual trends, the development of the nation-state, and the reasons for continental conflict. Semester I: The Renaissance to 1789. Semester II: The French Revolution to contemporary times. Required for the teaching credential in history.

408A-408B. England (3-3)
Political and social history of England from the earliest times to the present day, stressing the origins of American institutions and social patterns. Recommended for majors in English.

496. Issues in History (1-4)
Refer to Field (g). Topical Subjects.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

509. Europe in the Seventeenth Century (3)
Continental Europe from 1600 to the death of Louis XIV. Shift of power from southern and central Europe to northern Atlantic countries; the growth of the state, and the expansion of commerce.

510A-510B. Europe’s Age of Enlightenment (3-3)
Semester I: Monarchies and monarchs at peace and war; economic and social transformations; the Baroque and the growth of the Enlightenment from 1690 to 1760 Semester II: Despots, dreamers and enlightened reformers in the last generations of Europe’s "Old Regime," 1760-1789.

511A. The Age of European Revolution (3)
Major economic, social, intellectual, and political changes in Europe from 1789 to 1848. Effects of French Revolution, Industrial Revolution, and Romanticism on European history.

511B. The Age of Nationalism in Europe (3)
Economic, social, and intellectual developments in Europe from 1848 to 1890 that contributed to the age of nation building.

512A. The Great War: A Turning Point in European History (3)
Forces and events that shaped Europe in period prior to and during World War I, 1890-1919.

512B. The Age of Dictators and Contemporary Europe (3)
Europe in the age of dictatorship, world war, decline, and recovery.

513B. Scandinavia (3)
The major political, social, and economic developments in Scandinavia from 1814 to the present.

514A. The French Revolution and Napoleonic Era (3)
Prerequisites: History 105 and 106. France on the eve of the Revolution; the Great Revolution, 1789-1799, the Napoleonic Era.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

530. Colonial America (3)
Settlement of British colonies in North America and their development into a distinctive American civilization through modification of Old World institutions in the new environment.

531. The American Revolution (3)
Development of colonial resistance to British rule after 1760, the War for Independence, the Confederation, and the Constitution of 1787. This course meets the requirements in United States Constitution.

532. The Early Republic (3)
Political, economic, and social development of United States from Washington through John Quincy Adams. This course meets the requirements in United States Constitution.

533A. The Jacksonian Era (3)
Territorial expansion, democratic politics, revivalism, and the slavery controversy.

533B. Civil War and Reconstruction (3)
The Civil War and Reconstruction, emphasizing political affairs and the role of Lincoln.

534. The Rise of Modern America, 1868-1900 (3)
Economic, social, political, and intellectual developments from the end of the Civil War to the close of the 19th century.

535A. The Age of Reform (3)
The United States from the 1890s to the Crash of 1929.

535B. The Age of Roosevelt (3)
The United States in Depression, War, and Cold War.

536. The United States Since World War II (3) I, II, S
Major foreign and domestic issues confronting the United States, and the government policies and popular movements generated in response.

537A-537B. The Westward Movement (3-3)
The American frontier: Expansion, exploration, settlement and building of the new states, with emphasis on frontier problems of defense, communications, finance, etc.; the development of cultural institutions. The causes, effects and results of the frontier experiences of the American people. This year course meets the graduation requirement in American history, institutions and ideals.

538A-538B. The American Southwest (3-3)
Semester I: Exploration, colonization and development of the Southwest under Spanish and Mexican rule. Emphasis on frontier institutions and Indian policy. Semester II: Anglo-American penetration and acquisition of the Southwest. Themes such as boundary problems, mining, transportation, water, ranching and ethnic relations.

540. Environmental History of the United States (3)
The relationship of Americans to their environment from colonial times to the present with emphasis on how attitudes and values have affected personal behavior and public policy toward the land.

541A-541B. California (3-3)
Political institutions, social, cultural, economic and intellectual development, international background, Semester I: To 1850; Spanish and Mexican heritage. Semester II: 1850 to the present. History 541B will fulfill the requirement in California state and local government.

442A-442B. People Out of Our Past (3-3)

496. Issues in History (1-4)
Refer to Field (g). Topical Subjects.

UPPER DIVISION COURSES
(Intended for Undergraduates)

415A-415B. Latin America (3-3)
Semester I: Colonial Period to approximately 1825. Semester II: Republican Latin America.

545A-545B. Constitutional History of the United States (3-3)
American constitutional history since the establishment of the federal government. This year course meets the graduation requirement in U.S. Constitution and in American history, institutions, and ideals.

546A-546B. Development of American Capitalism (3-3)
The changes in agriculture, industry, labor, banking, transportation and commerce in a capitalist society with emphasis on the prominent personalities who made the changes possible.

547A-547B. Intellectual History of the American People (3-3)
Survey of American thought from 1620 to the present, focusing on the ideas of individuals, groups and movements in religion, politics, society, the arts and reform. Emphasis on liberal and conservative impulses and their role in the making of the modern American mind. This year course meets the graduation requirements in American institutions, U.S. Constitution, and California state and local government.

548A-548B. Social History of the United States (3-3)
Historical survey of American society emphasizing demographic trends, the changing role of the family, social structure, immigration patterns, religious movements, developments in education, the economy, and entertainment.

Field (d). Latin America

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

511A-511B. Mexico (3-3)
Prerequisite: History 115A-115B or 415A-415B.
Semester I: Colonial and modern Mexico. Semester II: Emphasis on the twentieth century.

552. Brazil (3)
Survey of history of Brazil from Portuguese backgrounds to present. Brazil as a tropical society. Recommended for students minorin in Portuguese.

553. Caribbean Island Nations (3)
History of island nations of Caribbean with emphasis on Cuba, Haiti, and Dominican Republic in the nineteenth and twentieth centuries.

554. The Andean Republics of South America (3)
The historical development of Chile, Bolivia, Peru and Ecuador with emphasis on race relations and social revolutions in the 20th century.

555. Modernization and Urbanization in Latin America (3)
Historical treatment of the phenomena of urbanization and modernization in Latin America with attention to pre-Columbian and Iberian traditions and influence of education, church, military, and foreign investment.
556. Guerrilla Movements in Latin America (3)
History of sociopolitical conditions which culminated in guerrilla movements in the twentieth century Latin America. Use of guerrilla writings and accounts as well as recent Latin American films and U.S. Defense Department counterinsurgency training films.

557. History of Latin American Popular Culture and Social Thought (3)
Examination of the ways Latin Americans have historically viewed their cultures and societies from the dual perspectives of elites and the masses. Popular Culture—the Latin American self-image reflected in family relations, folklore, myth, legend, popular music and art and mass expression.

558. Latin America in World Affairs (3)
History of Latin America's political and economic relations with Europe, the Soviet Union, the United States, and the Third World.

Field (e). South, Southeast and East Asia

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

420. Asia's Dynamic Traditions (3)
Emergence and continuing vitality of historic traditions in India, China, and Japan. Topical, comparative survey emphasizing Confucian, Buddhist, and Hindu ideas and the interaction with institutions of family and village. Not open to students with credit in History 120.

421. Asia's Emerging Nations (3)
Historic changes which contributed to the rise of modern Japan, India, and China. Topical, comparative approach emphasizing ways Asian societies have responded to challenges of imperialism, nationalism, revolution, war, and modernization. Not open to students with credit in History 121.

496. Issues in History (1-4)
Refer to Field (g). Topical Subjects.

FIELD (f). Africa and Middle East

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

473A-473B. Middle Eastern History from the Rise of Islam to the Present (3-3)
Semester I: Islamic civilization in the imperial ages, 600-1600. Semester II: Colonialism and nationalism in the modern Middle East.

475A-475B. Africa (3-3)
Semester I: Civilization of precolonial Africa both north and south of the Sahara from the advent of Islam to 1860. Semester II: Colonial and postcolonial Africa.

574. The Arab-Israeli Question, Past and Present (3)
Arab-Israeli conflict over Palestine in perspective of Zionism, Arab nationalism, and Great Power relations from the nineteenth century to the present.

FIELD (g). Topical Subjects

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

425. Great Historians and Historical Literature (3)
Lectures and readings in the history of history and the works of major historians. Open to all upper division students; especially recommended for history and social science majors.

435. History Through Film (3)
Critical analysis of selected historical problems, eras, and events, using film as the principal historical document. Maximum credit six units.

481A-481B. The Contemporary World in Historical Perspective (3-3)
Trends and developments in the recent past which can contribute to an understanding of the problems of our age. (Formerly numbered History 581A-581B.)

482A-482B. War and Civilization (3-3)
The political and social implications of warfare, of the development of military technologies, and of changing concepts of military organization. Semester I: Through the eighteenth century. Semester II: Napoleonic Wars to the present.

483A-483B. The Quest for Peace (3-3)
Prerequisite: Six units in history. Historical analysis of man's efforts to control violence from the Greeks to the present.

484. The Rise of Modern Science (3)
Historical development of scientific ideas from ancient Greece to Scientific Revolution of the seventeenth century, concentrating on interaction between science and other aspects of society such as politics, economics, religion, and technology.

485. Science and the Modern World (3)
From Newton to Einstein, from Darwin to DNA: modern development of interaction between science and other aspects of society such as politics, economics, philosophy, religion, and technology.
486. World War II (3)
Causes of World War II, its course, and its legacy for today's world.

496. Issues in History (1-4)
Examination of selected problems and current issues in history. May be repeated with change of content. Maximum credit six units with change of content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Refer to Class Schedule for specific content.

A. Ancient, Medieval, and Early Modern Europe
B. Modern Europe
C. United States
D. Latin America
E. South, Southeast, and East Asia
F. Africa and Middle East
G. Topical Subjects

499. Special Study (1-3) I, II
Prerequisite: Consent of department chair and instructor. Individual study. Maximum credit six units.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

596. Selected Studies in History (1-4)
Topics in the various fields of history, such as biography, war, science, technology, urbanization, minority groups, immigration, and capitalism. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. See Class Schedule for specific content. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Humanities Major
With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

**Preparation for the Major.** History 100 and 101, or 105 and 106; three units selected from Humanities 130, 131, 135, 140, Women's Studies 205; three units selected from Art 258, 259, Music 151, Drama 105, 120; three units selected from Philosophy 101, 102, 103, Religious Studies 101, Comparative Literature 270A-270B; and three additional units selected from the courses listed above excluding history. (18 units.)

**Foreign Language Requirement.** Twelve units in Arabic, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, or Spanish.

**Upper Division Writing Requirement.** Passing the University Writing Examination of English 500W or 508W with a grade of C (2.0) or better.

**Major.** A minimum of 36 upper division units selected with the approval of the advisor to include Humanities 401A-401B, 402A-402B, Asian Studies 458A-458B, Classics 340; twelve units from two or more of the following areas: Art 365, 366, 371, 557, 558, 559, 560, 561, 562, 566, 567, 568, 569, 570, 572, 575, 576, 577, Music 351A, 351B, 351C, 351D, 351E, 351F, 580, Drama 460A-460B; and three units in Humanities 469.

**Humanities Minor.**

The minor in humanities consists of a minimum of 21 units, 12 of which must be upper division. No more than six units may be taken in any one department. In order to ensure a cohesive minor, students must seek prior approval of the humanities minor adviser to determine which courses can be used to satisfy requirements for this minor. The plan must be approved and filed with the Evaluations Office.

**Plan B - Interdisciplinary Structure.** Six units selected from Humanities 130, 140, 157, 158; Women's Studies 205; three units from Humanities 402B; nine units selected from Humanities 401A, 401B, 402A, Classics 340, Spanish 441; and three units selected from Art 258, 259, Drama 105, 120, Music 151.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

**LOWER DIVISION COURSES**

101. Introduction to Humanities (3)

Preliminary investigation: How values and ideals are expressed in the literary, artistic and intellectual achievements of individuals and civilizations throughout the world.

102A-102B. Introduction to European Heritage (3-3)

Integrated survey from an interdisciplinary perspective of the major achievements of European culture, especially those in art, literature, music, and philosophy, and emphasizing their relevance for contemporary civilization. Semester I: 476 to 1600. Semester II: 1600 to 1540.

130. The Jewish Heritage I (3)

Major Hebraic concepts of the Biblical and post-Biblical periods; their impact on Western civilization and their contemporary relevance.

131. The Jewish Heritage II (3)

Major Jewish concepts from medieval through modern times; their impact on Western civilization and their contemporary relevance.

140. Mythology (3) I, II, S

Comparative themes and figures from various mythologies of the world. Interpretation of myths; their influence on art, culture, and history.

157. Arab-Islamic Culture and Civilization (3)

Interdisciplinary survey of Islamic culture and civilization, emphasizing religious beliefs, their developments, and their role in creating or being integrated with sociopolitical systems of the Islamic Near East from the time of Muhammad to the present.

158. African Culture and Civilization (3)

An interdisciplinary survey.

296. Experimental Topics (1-4)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

**UPPER DIVISION COURSES (Intended for Undergraduates)**

310. French Civilization (3) I

French culture from the earliest times to the Enlightenment, with emphasis on the people, their social and political institutions, their arts and letters. Not open to students with credit in French 421.

311. French Civilization (3) II

French culture from the Enlightenment to the present. Continuation of Humanities 310. Not open to students with credit in French 422.

320. German Civilization (3)

Investigation of the forces shaping German civilization in the Middle Ages and the Renaissance. Emphasis on history of ideas with reference to their manifestations in the arts and social institutions.

321. German Civilization (3) II

Investigation of the forces shaping German civilization since the Renaissance. Emphasis on history of ideas with reference to their manifestations in the arts and social institutions.

330. Russian Civilization (3) I

The major currents and characteristics of Russian culture, as expressed through the centuries in literature, art, philosophy and music from the beginnings to early nineteenth century.

331. Russian Civilization (3) II

Modern Russia's cultural development from early nineteenth century (The Golden Age) to the present.

340. Italian Civilization (3) I

The major aspects of Italian civilization with emphasis on literature, art, philosophy, music and history from the earliest times to the Renaissance.

341. Italian Civilization (3) II

Continuation of Humanities 340 from the Renaissance to the present.

350. Spanish Civilization (3)

The principal aspects of Spanish civilization with emphasis on literature, philosophy and the arts. Not open to students with credit in Spanish 440.

370. The Humanities and the Modern World (1) Irregular Cr/NC

Lectures open to the public. Weekly lectures on literature, language, philosophy and cultural history. Reading and reports required of students enrolled for credit. Maximum credit three units.

400. Civilization Through Travel/Study (1-3)

Travel through supervised foreign travel/study tour. May be repeated with new content. Maximum credit six units.

401A-401B. The Cultural Heritage of Europe I, II (3-3) I, II

European civilization from the Middle Ages to the end of the sixteenth century; emphasis on major cultural movements. Semester I: Romanesque and Gothic; Semester II: Renaissance, Reformation, Mannerism.
390 / Humanities

402A-402B. The Cultural Heritage of Europe III, IV (3-3) I, II
European civilization from the seventeenth to twentieth centuries with emphasis on major
cultural movements. Semester I: Baroque, Rococo, Neo-Classicism; Semester II: Romanticism,
Realism, Naturalism, Symbolism, Expressionism, Existentialism, Structuralism.

496. Topics in Humanities (3)
Selected topics in literature and the arts. Comparative themes and critical approaches. May
be repeated with new content. See Class Schedule for specific content. Limit of nine units of
any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit
six units.

499. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

580. Seminar: Topics (3)
Special topics appropriate to the interdisciplinary study of civilization. Reading, observation
and evaluation of scholarly literature of topic under consideration. May be repeated with new
content. See Class Schedule for specific content. Maximum credit six units.

Industrial Arts

In the Department of Industrial Studies
In the College of Professional Studies and Fine Arts

Faculty
Emeritus: Anderson, Irgang, McLoney, McMullen, Rasmussen
Chair: Dirksen
Professors: Bailey, G.D., Dirksen, Guentzler, Hammer, Thiel
Associate Professors: Bailey, G.W., Lybarger, Marsters, McEowen

Offered by the Department of Industrial Studies
Master of Arts degree in industrial arts.
Major in industrial arts with the A.B. degree in applied arts and sciences.
Teaching major in industrial arts for the single subject teaching credential.
Minor in industrial arts.

Industrial Arts Major
With the A.B. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation
requirements listed in the section of this catalog on "Graduation Requirements."
A minor is not required with this major.

Preparation for the Major. Industrial Arts 100 and 121 to be taken at the beginning of the
major; four courses selected from Industrial Arts 115, 131, 140, 151, 161, 171 and 181. (17
units.)

Upper Division Writing Requirement. Passing the University Writing Examination or
completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units to include nine units in each of two of the follow-
ing fields: industrial drawing, metalworking, plastics, woodworking, electricity-electronics,
power technology, graphic arts, industrial crafts, and photography; and six additional units in
industrial arts excluding Industrial Arts 498 and 499.

Industrial Arts Minor
For the Single Subject Teaching Credential
All candidates for a teaching credential must complete all requirements as outlined in this
section of the catalog under the College of Education.
This major may be used by students in teacher education as an undergraduate major for the
A.B. degree in applied arts and sciences.

Preparation for the Major. Industrial Arts 100 and 121 to be taken at the beginning of the
major; four courses selected from Industrial Arts 115, 131, 140, 151, 161, 171, and 181. (17
units.)

Upper Division Writing Requirement. Passing the University Writing Examination or
completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 33 upper division units to include Industrial Arts 492; nine units in each
of three of the following fields: industrial drawing, metalworking, woodworking, electricity-
electronics, power technology, graphic arts; and three additional units in industrial arts
excluding 498 and 499.

Industrial Arts Minor
The minor in industrial arts consists of 23 units in industrial arts. To include Industrial Arts 100,
121, six units selected from Industrial Arts 115, 131, 140, 151, 161, 171, 181, and 12 upper
division units to include six units in each of two of the following fields: industrial drawing,
metalworking, plastics, woodworking, electricity-electronics, power technology, graphic arts,
industrial crafts, and photography.

Courses in the minor may not be counted toward the major; but may be used to satisfy
preparation for the major and general education requirements, if applicable.
CERTIFICATE

Manual Arts Clinical Training
(Vocational Rehabilitation Therapy)

Students may complete the academic and clinical requirements leading to the Manual Arts
Therapist certificate issued by the Veterans Administration of the United States Government.
This certification requires the completion of a bachelor's degree with an Industrial Arts major
and 280 hours of clinical training in a veterans hospital. Consult an adviser in the Department
of Industrial Studies for more detailed information.

LOWER DIVISION COURSES

100. Introduction to Industrial Studies (2) I, II
   - Required of all industrial arts majors during their first semester.
   - The history and philosophy of industrial arts with emphasis on the current status and
development of the secondary school curriculum. Discussion of professional requirements,
obligations and development.

115. Industrial Plastics (3) I, II
   - Six hours of laboratory.
   - Production methods, mechanical and physical properties, composition of plastics. The
   - basic processes: molding, casting, thermoforming, reinforcing and foaming.

121. Industrial Drawing (3) I, II
   - Six hours of laboratory.
   - Fundamental theories, procedures and techniques of modern industrial drafting; study and
   - practice intended to develop skill and judgment in application to drafting as the universal
   - medium for communication of construction activities.

131. Industrial Metalworking (3) I, II
   - Six hours of laboratory.
   - Exploration of basic materials and methods employed by industry to produce metal
   - products. The attainment of knowledge and skills involved in the primary fabrication
   - techniques of sheet metal, bench metal, art metal, foundry, forging, machining, and welding.

140. Introduction to Photography (3) I, II
   - Six hours of laboratory.
   - A consideration of photographic optics and chemistry; nature of light and image formation;
   - photographic emulsions, exposure and development. Composition and lighting. Not open to
   - students with credit in Industrial Arts 540 or Journalism 350.

151. Industrial Woodworking (3) I, II
   - Six hours of laboratory.
   - Introduction to wood technology and ecology; safe practices; fasteners; adhesives; abrasives;
   - science of working with wood, emphasizing hand tools.

161. DC and AC Circuit Analysis (3) I, II
   - Six hours of laboratory.
   - Planning, designing, constructing, and experimenting to develop skills and acquire knowl-
   - edge in the electronics field. Basic principles, their application to modern electronic equipment;
   - and correct use of test equipment.

171. Power Mechanics (3)
   - Six hours of laboratory.
   - Introduction to the various forms of power transmission with emphasis on small gas engines
   - and automotive preventive maintenance.

181. Introduction to Graphic Arts (3) I, II
   - Six hours of laboratory.
   - The theory and practice in planning, designing and processing in the various graphic
   - reproduction activities involving type, stencils, paper, and allied materials.

UPPER DIVISION COURSES

(Intended for Undergraduates)

301. Industrial Crafts (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Previous industrial arts experience.
   - Emphasis on skills in the industrial arts crafts by laboratory experiences in such areas as
   - jewelry, lapidary, leather, enameling and mosaics. Stress on creativity in design and in utilization
   - of materials.

315. Tooling for Plastics Production (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 115.
   - Design and use of basic tooling; dies for injection and compression molding, forms for
   - reinforced plastics processes, and molds for thermoforming and casting.

321. Intermediate Industrial Drawing (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 121.
   - Complex theories and techniques of graphic delineation. Activities selected to develop
   - individual competence.

331. Machine Tool Processes (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 131.
   - Study of machine tools as a manufacturing medium emphasizing precision measurement,
   - standards, tolerance and inspection methods.

341. Intermediate Photography (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 140 or 540.
   - Exposure theory, sensitometry, contrast control, specialized development, and advanced
   - studies of photographic lenses and equipment.

351. Machine Woodworking (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 151.
   - Experience in the use of selected woodworking machines which offer opportunities for the
   - development of construction activities in wood. Emphasis on creative design and sound safety
   - practices.

361. Transistor Circuits and Applications (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 161.
   - Development of skills through planning, designing, constructing and experimenting;
   - Emphasis on the application of advanced transistor principles for use in power, transmission,
   - communication, radio and television.

371. Power Systems (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 171.
   - Power systems to include sources of power, power transmission, and its utilization. Emphasis
   - on internal combustion engine to include theory of operation, system design, and machining
   - on engine. Emphasis on automotive operations.

381. Intermediate Graphic Arts (3) I, II
   - Six hours of laboratory.
   - Prerequisite: Industrial Arts 181.
   - Activities in the various graphic arts with emphasis on new technology in the industry.

402. Advanced Industrial Arts Crafts (3) I, II
   - Advanced techniques of industrial arts crafts. Development of audiovisual aids, projects,
   - and resource materials with emphasis on physical setting, organization, and other pertinent
   - laboratory problems.
416. Thermoplastics (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 315.
Composition and selection of materials; evaluation of physical and mechanical properties of various thermoplastics; special techniques for processing and production of thermoplastics.

422. Architectural Drafting (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 121.
Architectural drafting, primarily in small home planning. Development of drafting skills and understanding of good contemporary home design.

432. Welding Processes and Procedures (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 131.
A study of the basic welding processes with emphasis on physical principles and properties, inspection methods and equipment operations.

443. Problems in Photography (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 341.
Technique, research problems in photography.

444. Color Photography (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 341.
Theory and application of color photography.

452. Wood Manufacturing Applications (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 351.
Course designed to increase professional skills, craftsmanship, advanced technical skills in equipment maintenance, patternmaking, design analysis, and upholstery.

462. Electronic Circuit Applications (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 361.
Development of advanced skills with application to industrial electronics. Techniques in the use of electronics test equipment and analysis of electronic devices using FET, SCR, and TRIACs.

464. Basic Digital Computers (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 361.

472. Power System Diagnosis (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 371.
Theory and application of various types of diagnostic testing equipment, with emphasis on trouble shooting and power system analysis.

482. Advanced Graphic Arts (3)
Six hours of laboratory.
Prerequisite recommended: Industrial Arts 381.
Planning activities and perfecting of skills in printing and publication; efficient operation of machines and equipment.

491. Manual Arts Therapy Clinical Training (6)
Prerequisite: Consent of department chair.
Supervised experiences in manual arts therapy at various Veterans Administration Hospitals and rehabilitation centers. Students will acquire, through observation and participation, clinical insight and experience in procedures and practices in the field. Two hundred forty hours of clinical training required.

492. Teaching Methods in Industrial Education (3) I, II
Study of methodology needed to teach industrial subjects. It is recommended that this course be taken prior to student teaching.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 496, 496, 504 courses applicable to a bachelor's degree.

498. Senior Project (3) I, II
Six-hour project course.
Prerequisite: Consent of instructor.
Each student will work on a project in a selected industrial arts activity area. Oral progress reports will be made and a final written report is required.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

503. Advanced Industrial Crafts (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 402.
Advanced techniques of industrial crafts. Concentration on the design of craft projects with best utilization of materials. Development, in at least three areas specified by the instructor, of individual exhibits showing originality.

517. Thermoset Plastics (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 115.
Composition and selection of materials; evaluation of physical and mechanical properties of various thermoset plastics, special techniques for processing and production of thermoset plastics.

523. Industrial Arts Drawing (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 121.
Practice in and analysis of modern industrial drafting techniques and theories.

533. Applied Metal Forming Operations (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 131.
Theory of conventional and high energy industrial forming processes augmented with laboratory forming experiences.

540. Photography for Teachers (3)
Six hours of laboratory.
Designed for more mature students to learn photographic skills useful in teaching. Not open to students with credit in Industrial Arts 140 or Journalism 350.

542. Advanced Photography (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 140 or 540.
A consideration of advanced negative control, projection printing techniques, composition and editorial content, architectural and illustrative photography, and flood flash techniques.

553. Construction Woodworking (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 351.
Residential building construction techniques and advanced machine operations.
563. Industrial Control Circuits (3)
Six hours of laboratory.
Prerequisite: Industrial Arts 361.
Advanced problems in industrial electronics circuit development, analysis, theory and application.

573. Power Systems Accessories (3) I, II
Six hours of laboratory.
Prerequisite: Industrial Arts 371.
Study of accessory power systems and technological innovations in education and power related industries.

583. Industrial Arts Graphic Arts (3)
Six hours of laboratory.
Prerequisite recommended: Industrial Arts 381.
Advanced techniques in developing skills involved in graphic arts facilities.

596. Experimental Topics in Industrial Arts (1 or 2)
Prerequisite: Consent of instructor.
Individual laboratory work on complex projects on an experimental basis. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

Interdisciplinary Programs

For information on additional interdisciplinary programs, refer to this section of the catalog under the headings of American Studies, Asian Studies, Family Studies and Consumer Sciences (Child Development), Humanities (European Studies), Latin American Studies, Liberal Studies, and Social Science.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

African Studies Minor
Dr. Wade C. Pendleton, Anthropology Department, is adviser for this minor.
The minor in African Studies consists of a minimum of 15 units, 12 of which must be upper division, to include History 475A and 475B, Humanities 158; and six units from the following courses in any two departments: Anthropology 449*, Geograpy 335*, Political Science 364, and Religious Studies 340*. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Additional prerequisites required for this course.

Energy Studies Minor
Dr. Alan R. Sweelder, Physics Department, and Dr. Philip R. Pryde, Geography Department, are co-advisers for this minor.
The interdisciplinary minor in energy studies consists of a minimum of 18 units to include 12 units selected from Biology 316, Economics 452, Mechanical Engineering 352, Mechanical Engineering 482, and Consumer Sciences 343, Geography 571, Physics 301, plus six units selected from Art 247 or 347, Biology 544, Economics 453, Electrical Engineering 380, 580, Mechanical Engineering 582, 586, Geography 371, Geological Sciences 521, Industrial Arts 171, Natural Science 351, Political Science 334, or three units of 499 with the approval of the adviser. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. Courses in the major department or required for the major may not be used to satisfy requirements for the minor. Additional prerequisites are required for these courses.

Environment and Society Minor
Dr. Warren Johnson, Department of Geography, is adviser for this minor.
The minor in environment and society consists of a minimum of 15 units to include nine units selected from Biology 454, Economics 452, 453 or 555, and Geography 370 or 471; and six units selected from Anthropology 428, Biology 454, 500, 544, Economics 452, 453, 454, 455, 555, Geography 370, 371, 570, 574, 575, 576, History 340, 540, Political Science 334, 335, 555, Sociology 350. Recommended: Geological Sciences 303, Physics 301.
Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Additional prerequisites required for these courses.

Gerontology Minor
Dr. Shirley A. Lockery, University Center on Aging, is adviser for this minor.
The minor in gerontology consists of a minimum of 18 units to include Health Science 573, Psychology 335, Sociology 327, and nine units selected from Anthropology 109, Biology 473, Psychology 335, Sociology 327, and nine units selected from Anthropology 109, Biology 473, Psychology 335, Sociology 327.
Family Studies and Consumer Sciences 496 "Aging in the Family;" Nursing 343, 343L, Recreation 580, Social Work 120, Sociology 528, 596 "New Views on Aging" and "Images of Aging in Film," Women's Studies 421 or Communicative Disorders 580, and General Studies 502 (when content relevant to aging).

Additional prerequisites may be required for the courses in this minor.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Jewish Studies Minor

Dr. Ita G. Sheres, Department of English and Comparative Literature, is adviser for this minor.

The minor in Jewish Studies provides a balanced interdisciplinary study of Jewish contributions to world culture and history. It serves the needs of students who plan to (1) specialize in disciplines in which an understanding of Jewish contributions is essential, or (2) follow careers in teaching, community service, foreign service, or the ministry. Students seeking a minor in Jewish Studies may want to consider combining it with a major in Social Science with an emphasis on Africa and the Middle East. Many courses relevant to this major are available in anthropology, economics, geography, history, political science, and sociology.

The minor in Jewish Studies consists of 18 to 22 units to include Humanities 130 and 131, or Hebrew 101, 102 and 296, and 12 units selected from Comparative Literature 405 (English 405), 526, 571 (Legend and Mysticism), 577 (Kafka), History 406 (Jewish History), Philosophy 336, 555; Religious Studies 496* (Hasidism and Jewish Mysticism), 590* (Martin Buber).

Relevant courses not here listed may apply to the minor with approval of the Coordinator of Jewish Studies. The 12 upper division units are to be taken in no more than two departments.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Middle East Studies Minor

Dr. Wade C. Pendleton, Anthropology Department, is adviser for this minor.

The minor in Middle East Studies consists of a minimum of 15 units, 12 of which must be upper division, to include Humanities 157, Religious Studies 340*, six units from History 475A, 473B and 574; and three units from Anthropology 474*, Art 365*, Comparative Literature 635, and Political Science 363.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Russian and East European Studies Major

With the A.B. in Liberal Arts and Sciences

Dr. Vytautas Dukas, Department of German and Russian Languages and Literatures, is adviser for this major.

Preparation for the Major. Russian 101, 102, 201, 202, or equivalent. (17 units.) Lower division prerequisites for the upper division courses to be taken in the major: (3-9 units.)

Foreign Language Requirement. The foreign language requirement is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units to include nine units from at least two departments in the humanities selected from Comparative Literature 513, 514, Humanities 330, 331, History 51A-51B, nine units from at least two departments in the social sciences selected from Economics 330, Geography 336, 337, Political Science 356, 359; six units in Russian selected from 301, 302, 305A-305B, 555A-555B, 561A-561B, 563, 580, 581; and six units of electives selected with the approval of the adviser.

Italian

In the College of Arts and Letters

Faculty

Emerita: Vergani, L.
Professor: Vergani, G.

Offered by the Department of

French and Italian Languages and Literatures

Minor in Italian.

Italian Minor

The minor in Italian consists of a minimum of 15 units in Italian, six units of which must be in upper division courses in the language.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college majors. These high school courses will not count as college credit toward graduation. Students who have completed three years of high school level language courses may be placed in the first semester college course, although students with fewer than three years of high school level language courses may take the first semester college course if they wish.

Secondary school language courses can be used as follows:

1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language courses may take the first semester college course if they wish.

2. The first three years of high school level language count as the equivalent of the first college level college course, although students with fewer than four years of high school level language college courses may complete the second semester college course for graduation credit.

3. Four years of high school level language count as the equivalent of three college semesters, thus fulfilling the foreign language requirement.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences

Students electing the study of Italian to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Italian 200A or 200B or the equivalent level of achievement. The usual sequence of course work is Italian 100A, 200A or 200B and 301A or 301B. Refer to section on catalog on "Graduation Requirements" for additional ways to satisfy competency.

LOWER DIVISION COURSES

Native speakers of Italian will not receive credit for taking lower division courses in Italian except with advance approval from the department.

All lower division courses in Italian are taught in Italian.

No credit will be given when Italian 100A, 100B, 200, or 301 are taken concurrently or out of sequence. However, Italian 200A and 200B may be taken in any order.

100A. Elementary (5) I, II

Pronunciation, speaking and writing, readings on Italian culture and civilization, essentials of grammar. Not open to students who have completed three years of high school Italian. Open only to students who have completed three years of high school Italian unless by permission of the department. (Numbered in the third course was completed five or more years ago. (Numbered Italian 101 in academic years 1962-63 and 1963-64.)
### Italian

**100B. Elementary (5) I, II**  
Prerequisite: Italian 100A or two years of high school Italian.  
Continuation of Italian 100A. Not open to students who have completed four years of high school Italian unless the fourth course was completed five or more years ago. (Numbered Italian 102 in academic years 1982-83 and 1983-84.)

**200A. Intermediate Grammar and Composition (3) II**  
Prerequisite: Italian 100B or three years of high school Italian.  
Comprehensive survey of Italian grammar at the intermediate level. Study of a variety of prose models and practice in writing.

**200B. Reading and Speaking Italian (3) I**  
Prerequisite: Italian 100B or three years of high school Italian.  
Emphasis on the spoken language with readings of cultural material serving as a basis for discussion.

### UPPER DIVISION COURSES  
(Intended for Undergraduates)

All upper division Italian courses are taught in Italian unless otherwise noted.

**301. Advanced Oral and Written Composition (3)**  
Prerequisite: Six units of 200-level Italian.  
Grammar review. Reading of modern Italian prose, with written reports and oral discussions in Italian.

**305A. Italian Literature (3)**  
Prerequisite: Six units of 200-level Italian.  
Important movements, authors and works in Italian literature from Middle Ages to the Renaissance.

**305B. Italian Literature (3)**  
Prerequisite: Six units of 200-level Italian.  
Continuation of Italian 305A from the Renaissance to the present.

### LOWER DIVISION COURSES

Native speakers of Japanese will not receive credit for taking lower division courses except with advance approval from the department.

All lower division courses in Japanese are taught in Japanese.

**101. Elementary Japanese I (4)**  
Four lectures and one hour of laboratory.  
Elementary language skills: fundamental grammar, idiomatic expressions, hiragana, katakana, and basic kanji characters. Reading, writing, speaking, oral-aural drills, and relationship between language and culture.

**102. Elementary Japanese II (4)**  
Four lectures and one hour of laboratory.  
Prerequisite: Japanese 101.  
Continuation of Japanese 101. Preparation for the fourth course.

**201. Intermediate Japanese I (4)**  
Four lectures and one hour of laboratory.  
Prerequisite: Japanese 102.  

**202. Intermediate Japanese II (4)**  
Four lectures and one hour of laboratory.  
Prerequisite: Japanese 201.  
Continuation of Japanese 201. Preparation for advanced courses in Japanese. (Formerly numbered Japanese 304.)

**206. Experimental Topics (1-4)**  
Topics to be announced. May be repeated with new content. Limit of nine units of any combination of 206, 496, 596 courses applicable to a bachelor's degree.
UPPER DIVISION COURSES (Intended for Undergraduates)

All upper division courses in Japanese are taught in Japanese unless otherwise stated.

301. Third Year Japanese I (3)
Three lectures and one hour of laboratory.
Prerequisite: Japanese 202.
Strengthening communication skill in Japanese; various literary styles; additional joyo kana. Cultural values shaping modern Japanese society; intercultural communication. Preparation for Japanese 302.

302. Third Year Japanese II (3)
Three lectures and one hour of laboratory.
Prerequisite: Japanese 301.
Continuation of Japanese 301. Strengthening communication skill in Japanese; various literary styles; most joyo kana. Cultural values shaping modern Japanese society; intercultural communication. Preparation for Fourth Year Japanese I.

496. Topics in Japanese Studies (1-4)
Topics in Japanese language, literature, culture and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit eight units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

Journalism

In the College of Professional Studies and Fine Arts

The Department of Journalism is accredited by the American Council on Education for Journalism/Mass Communication.

Faculty
Emeritus: Julian, Whitney, Wimmer
Chair: Brown
Professors: Broom, Brown, Buckalew, Holowach, Odendahl, Sorensen
Associate Professors: Dozier, Hartung, Towers
Assistant Professors: Severn, Spevak, Strickland
Lecturer: Center

Offered by the Department

Master of Science degree in mass communication (in cooperation with other departments).
Major in journalism with the A.B. degree in liberal arts and sciences.
Emphasis in advertising.
Emphasis in news-editorial.
Emphasis in photojournalism.
Emphasis in public relations.
Emphasis in radio-TV news.
Teaching major in journalism for the single subject teaching credential in English/journalism.
Minor in journalism.

Journalism Major

With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

Journalism majors must complete 30 units in journalism, 24 of which must be upper division units. Majors may exceed 30 units only upon petition to the Department of Journalism, but the maximum number of journalism units that will be credited toward the degree for graduation is 33. A maximum of six lower division units in journalism may be applied to the total of 30 units.

A minor is required; however, to preserve an appropriate balance between journalism/mass communication courses and courses in liberal arts and sciences, journalism majors may not minor in telecommunications and film.

Students are required to achieve a passing score on the Department of Journalism grammar, spelling, and punctuation examination before enrolling in journalism skills, activity and laboratory courses.

Emphasis in Advertising

Preparation for the Major. Journalism 220. (3 units.)
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Departmental screening in Journalism 310 with a grade of C (2.0) or better, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in journalism to include Journalism 310, 460, 463, 465, and 466; nine units of upper division electives.

Emphasis in News-Editorial

Preparation for the Major. Journalism 220. (3 units.)
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”
Upper Division Writing Requirement. Departmental screening in Journalism 310 with a grade of C (2.0) or better, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in journalism to include Journalism 310, 326; either 320 and 526 or 441 and 449, 502; nine units of upper division electives.

Emphasis in Photojournalism
Preparation for the Major. Journalism 220 (3 units.)
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Departmental screening in Journalism 310 with a grade of C (2.0) or better, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in journalism to include Journalism 310, 350, 450, 451, and 502; nine units of upper division electives.

Emphasis in Public Relations
Preparation for the Major. Journalism 220 (3 units.)
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Departmental screening in Journalism 310 with a grade of C (2.0) or better, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in journalism to include Journalism 310, 350, 460, 480, 481, 502, and 585; nine units of upper division electives.

Emphasis in Radio-TV News
Preparation for the Major. Journalism 220 (3 units.)
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Departmental screening in Journalism 310 with a grade of C (2.0) or better, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in journalism to include Journalism 310, 470, 474, 475, and 502; nine units of upper division electives.

Journalism Major
For the Single Subject Teaching Credential in English/Journalism
All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

A major in journalism selected from any one of the emphases in journalism may be used by students in teacher education as an undergraduate major for the A.B. degree in liberal arts and sciences.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Departmental screening in Journalism 310 with a grade of C (2.0) or better, or passing the University Writing Examination, or completing one of the approved writing courses with a grade of C (2.0) or better.
350. News and Feature Photography (3)
One lecture and four hours of activity.
Prerequisites: Journalism 220, upper division standing.

350, News and Feature Photography (3)
Principles and techniques of journalism, including fundamentals of camera operation, composition, developing and printing of black and white photographs for publication. News values in photography. Not open for credit to students with credit in Industrial Arts 140.

406. Mass Communication and Society (3)
Prerequisite: Upper division standing.
Social factors underlying nature, functions of mass media. Theories, models, research in mass media as culture carriers, opinion shapers; other societal interrelationships. (Formerly numbered Journalism 508.)

425. Editorial and Critical Writing (3)
Prerequisite: Journalism 320.

441. Magazine Article Writing (3)
Prerequisites: Journalism 220, upper division standing.
Planning, gathering material, writing and marketing articles for specialized and general publications. Production of expository articles and marketing of at least one.

443. Magazine Editing and Production (3)
Two lectures and three hours of activity.
Prerequisite: Journalism 310.

450. Advanced News and Feature Photography I (3)
One lecture and four hours of activity.
Prerequisites: Journalism 310 and 350.
Role of photography in mass communication. Emphasis on photographic essay and innovation in photojournalism. Field and laboratory practice in telling stories with photographs. Information gathering for captions; accuracy, completeness.

451. Photographic Journalism (3)
One lecture and four hours of activity.
Prerequisites: Journalism 310 and 350.
Advanced techniques of photography and darkroom. Documentary journalism. Experimentation with photo derivation and color photography. Field and laboratory practice in covering news events with still cameras.

460. Principles of Advertising (3)
Prerequisite: Upper division standing.
Principles of advertising, including copywriting, layout, typography, production, social responsibility, consumer and market surveys, and advertising research studies.

463. Advertising Copy, Layout and Design (3)
One lecture and four hours of activity.
Prerequisites: Journalism 310 and 460.

465. Advertising Research and Analysis (3)
Prerequisites: Journalism 310 and 460.
Evaluation and use of data collecting and measurement for advertising media. Cases, practices and problems. Quantitative and qualitative characteristics of advertising.

466. Advertising Campaigns (3)
Prerequisites: Journalism 463 and 465, or Telecommunications and Film 540.
Cases, practices and problems with advertising campaigns, including political campaigns. Decision making in copy themes, art work, media imagery. Advertising campaign targets. Evaluating results.

475. Radio and Television News Production (3)
Two lectures and six hours of activity.
Prerequisites: Journalism 310 and 470 or Telecommunications and Film 310, and satisfactory score on departmental grammar, spelling and punctuation examination.

480. Principles of Public Relations (3)
Prerequisites: Journalism 310 and 480.
Principles, theories, methods and objectives in public relations. Survey of public relations problems and practices.

481. Public Relations Techniques and Media Usage (3)
One lecture and four hours of activity.
Prerequisites: Journalism 310 and 318.
Practical applications of public relations techniques with emphasis on writing and media usage. News releases, publications and printed materials, audio-visual techniques, speeches and special events. Field and laboratory practice.

490. Internship in Journalism (1-3) Cr/NCR
Prerequisites: Upper division standing, permission of instructor. Admission to Journalism 430.
Supervised work with areas under the combined direction of practitioners and professors. Maximum credit three units.

496. Experimental Topics (1-3) Cr/NCR
Prerequisites: Upper division standing, permission of instructor.
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of six units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. No more than three units in journalism to apply to the degree in journalism.

499. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study or project, normally in a research area selected by the student. Maximum credit three units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500. Current Problems in Mass Communication (3)
Prerequisites: Journalism 220, or Telecommunications and Film 100, or Economics 100, or Political Science 101, or Sociology 101; and upper division standing.
Forces affecting American mass communication today: government restrictions, economics, pressure groups, censorship, mechanical developments, interrelationships of the media and society, professional ethics.
Law of Mass Communication (3)  
Prerequisites: Journalism 220, or Political Science 102, or Telecommunications and Film 100, and upper division standing.  

History of Mass Communication (3)  
Prerequisites: Journalism 220 or History 110B, and upper division standing.  
American journalism from colonial times to the present, with special attention to twentieth century trends and developments, including the emergent concept of social responsibility.

Research Methods in Mass Communication (3)  
Prerequisites: Journalism 320 or 450 or 460 or 470 or 480. Upper division standing.  
Investigative tools and evaluation methods of mass media research: content analysis, readership studies, audience measurement, experimental designs, and representative studies.

Advanced Editing Techniques (3)  
One lecture and four hours of activity.  
Prerequisite: Journalism 220.  
Principles of typography, page and publication design: use of graphics and other pictorial material. Selection, evaluation, editing and display of news. Attention to electronic editing.

Investigative Reporting (3)  
One lecture and four hours of activity.  
Prerequisite: Journalism 220.  
Development of articles of substance and depth in specialized areas. Research, analysis and interpretation of complex issues in the news. Special problems of the sustained, reportorial effort. Field and laboratory practice.

Problems and Practices In Public Relations (3)  
Prerequisite: Journalism 481.  
Current public relations practices and problems in a wide variety of commercial, industrial, financial, governmental, cultural and social organizations.

Latin American Studies  
In the College of Arts and Letters

Faculty  
Latin American Studies is administered by the Latin American Studies Committee. The program draws upon courses offered by faculty in the departments of Anthropology, Art, Comparative Literature, Economics, Geography, History, Journalism, Mexican-American Studies, Political Science, Public Administration and Urban Studies, Sociology, Spanish and Portuguese Languages and Literatures, and Women's Studies, and the College of Business Administration.

Professor Thomas M. Davies, Jr., is the undergraduate advisor.

Offered by Latin American Studies  
Master of Arts degree in Latin American Studies.  
Major in Latin American studies with the A.B. degree in liberal arts and sciences.

Minor in Latin American studies.

Advising  
All College of Arts and Letters majors are urged to consult with their department advisor as soon as possible; they are required to meet with their department advisor within the first two semesters after declaration or change of major.

Latin American Studies Major  
With the A.B. Degree in Liberal Arts and Sciences  
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

The major provides (1) a basis for a more effective understanding of the cultures and governments of the western hemisphere; and (2) a basic education and training for a business or professional career involving understanding of Latin America.

High school students preparing to enter this program should include in the high school course of study at least three years of study in one foreign language, preferably Spanish or Portuguese. Proficiency in either of these languages is indispensable to a successful career in this area of study.

Preparation for the Major. Portuguese 101, 211, 212, or Spanish 101, 102, 201, 202, 211 and 212 with a minimum grade point average of 2.0 for all work attempted (11-21 units). 12 units selected from Anthropology 101, Economics 101 and 102, Geography 101, History 115A-115B, Latin American Studies 101, Political Science 101 and 103.

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units selected from courses in anthropology, art, economics, geography, history, Latin American studies, Mexican-American studies, political science, Portuguese, sociology, Spanish and Women's Studies, with not less than 12 units in one field and nine in each of two other fields. At least 33 units must be in courses having Latin American content. The student will file with the Evaluations Office a master plan approved by the advisor for the Latin American Studies curriculum.

The Latin American Studies major includes Latin American studies courses acceptable for the Latin American studies curriculum. Major courses include (3 units): 498, 499, 580; Anthropology 442, 443*, 470, 476; Art 561, 562; Comparative Literature 445, 446; Economics 336, 365, 464, 483, 562, 565; Geography 323, 334, 498A, 498B (when relevant); History 415A-415B, 496 (when relevant); 551A-551B, 553, 554, 555, 556, 557, 558; Mexican-American Studies 333, 335, 350A, 376; Political Science 382, 566, 567, 568; Portuguese 353; Sociology 404*, 506*, 519*, 558*; Spanish 306A-306B, 441, 442, 470, 471, 472, 515A-515B, 520, 522, 524, 596* (when relevant); Women's Studies 310 (when relevant), and 499 (when relevant) taken in one of the departments listed above.

* Indicates course with prerequisites not included in requirements listed above.

Refer to section on Classics.
Latin American Studies Major – Imperial Valley Campus

At the Imperial Valley campus the major in Latin American studies is essentially the same as the Latin American studies major offered at the San Diego campus. It is designed to provide (1) a foundation of understanding of the history, culture and governments of the countries of Latin America and the multiple interrelationships among those countries; and (2) a basic education and training for a business or professional career involving understanding of Latin America.

Preparation for the Major: The lower division preparation for the major can be fulfilled by taking the following courses at Imperial Valley College, or their equivalent: Elementary Spanish; Intermediate Spanish or Bilingual Spanish; Intermediate Conversational Spanish or Bilingual Oral Spanish; Advanced Conversational Spanish; and 12 units selected from Physical Anthropology, Physical Geography, History of the Americas, Introduction to Political Science, Comparative Politics, and Civilization of Spanish America and Brazil.

A minimum grade point average of 2.0 is required for all work attempted.

Foreign Language Requirement: The foreign language requirement for graduation is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement: Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major: A minimum of 36 upper division units selected from the courses listed below with at least 12 units in one field and nine in two other fields. At least 33 units will be courses having Latin American content. Latin American Studies 344. Anthropology 442; Art 496 (when relevant); 561, 562; Comparative Literature 445; Economics 365, 464, 496 (when relevant); 556; Geography 323, 324, 496 (when relevant); History 415A-415B, 496 (when relevant); 538A-538B, 551A-551B, 552, 557, 558; Mexican-American Studies 333, 335, 350A, 376; Political Science 366, 567, 568; Sociology 350, 404, 506, 519; Spanish 306A-306B, 470, 471, 472, 515A-515B; Women's Studies 310 (when relevant).

Latin American Studies Minor:

The minor in Latin American studies consists of a minimum of 15 units of Latin American content courses. At least 12 of these units must consist of upper division courses. In addition, students must complete Spanish 201 or the equivalent or Portuguese 211 or the equivalent. No more than six units may be drawn from any one department's or program's offerings. The student will file with the Evaluations Office a master plan approved by the adviser for the Latin American studies curriculum. Units may be selected from among the following:

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable. In designing their Latin American studies programs for a minor, students may not include courses drawn from their major department.

* Courses to be included with approval of the undergraduate adviser in Latin American studies.
+ Additional prerequisites may be required for courses in the minor.

LOWER DIVISION COURSE

101. Latin American Heritage (3)
Introduction to Latin American cultures and peoples from an interdisciplinary perspective.
Liberal Studies

For further information regarding Liberal Studies, consult the Office of the Division of Undergraduate Studies.

Liberal Studies Major

With the A.B. Degree in Applied Arts and Sciences and in Liberal Arts and Sciences

The liberal studies major provides three options for students wishing to follow degree programs involving more than one discipline or area of study. Option 1 offers the opportunity to combine three disciplines in a focused program of study; Option 2 permits the student a more general education with courses chosen from four broad groups and is designed mainly for students planning to enter elementary education; Option 3 is an alternative to Option 2 for students interested in bilingual/bicultural education.

OPTION 1. Liberal Studies in Three Departments with the A.B. Degree in Liberal Arts and Sciences

The student selects three departments participating in this liberal studies option to provide a cohesive plan not otherwise provided in the regular programs of the university. Approval of the plan must be secured from each of the involved departmental advisers and from the Division of Undergraduate Studies prior to completion of 90 semester units. Fulfillment of a foreign language requirement (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Preparation for the Major. A minimum of two courses (normally defined as six units) in each of the three departments selected in the major must be completed in the lower division as foundation for upper division courses. In departments where lower division offerings are insufficient to meet this requirement, the total minimum upper division requirement may be extended.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units selected from three departments, with no fewer than nine units from any one. No courses numbered 296, 496, 499, or 596 may be used for the major.

A minor is not required with this major.

OPTION 2. Liberal Studies in the Multiple Subjects Groups with the A.B. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

Completion of the Liberal Studies Option 2 major also fulfills General Education requirements.

A minor is not required with this major.

The Liberal Studies Major Option 2 meets all the requirements for the multiple subjects diversified major as specified in the Ryan Bill, and is recommended for prospective elementary teachers.

Advising for this major is available at the University Advising Center (CL-107), and in a descriptive booklet available at the bookstore.

Preparation for the Major. (Completion of preparation for the major also fulfills the General Education requirements.) Fifty-two units distributed as follows: (Courses listed under numbers 1, 2, 3, and 6 must be taken for a letter grade.)

Group A: English and Speech (12 units)
1. Composition – Three units selected from Afro-American Studies 120; English 100; Linguistics 100; Mexican-American Studies 111B.
3. Speech – Three units selected from Afro-American Studies 140; Mexican-American Studies 111A; Speech Communication 103.
4. Literature – Three units selected from English 220; Comparative Literature 270A, 270B.

Group B: Mathematics and Science (16 units)
5. Mathematics – Mathematics 210A.
6. Mathematics – Mathematics 210B.

With approval of the mathematics adviser, any of the following pairs of mathematics courses may be substituted for Mathematics 210A, 210B: Mathematics 121, 122, 150, 151; 310A, 310B.

7. Biological Science – Three units (or four including laboratory) selected from Biology 100, 100L; strongly recommended, 110, 110L, 120, 120L, 130, 130L; Natural Science 110B.
8. Physical Science – Three units (or four including laboratory) selected from Astronomy 101, 109; Geological Sciences 100, 101; Natural Science 100, 102, 110A, 210A, 210B; Physics 103.

Either item 7 or 8 must include a laboratory.

9. Mathematics/Science Elective – Three units selected from any course approved in 7 or 8 above or from the following: Anthropology 101; Chemistry 100; Geography 101; Mathematics 104, 107, 140; Natural Science 103; Physics 105, 201.

Group C: Social Science (9 units)
10. Global Perspective – Anthropology 102 or Geography 102.
12. U.S. Organization – Three units selected from Economics 100, 101, 102; Sociology 101; or any General Education American Institutions course.

Group D: Humanities and Fine Arts (15 units)
13. Values and Ethics – Three units selected from Philosophy 102, 103, 103; Religious Studies 101.
14. Western Civilization – Three units selected from Art 258, 259; Drama 120; History 105, 106; Humanities 102A, 102B.
15. Art or Drama – Three units selected from Art 100, 101, 102; Drama 105, 255.
17. Language or Elective – Three units selected from items 13 through 16 above or from the following: Art 158; Classics 140; Drama 130; Humanities 101, 140; Music 151; or any foreign language course.

Additional Requirements.
1. Health Science 101 or 320.
2. Physical Education 241.

Pattern Requirement.

One three-unit course in the major or preparation for the major must be selected from Afro-American, American Indian, Mexican-American, or Women's Studies courses listed in the Liberal Studies curriculum. Afro-American Studies 120, 140, Mexican-American Studies 111A, 111B do not meet this requirement.

Upper Division Writing Requirement. English 306W (very strongly recommended) or English 500W with a grade of C (2.0) or better.

Major. Thirty-seven units distributed as follows:

Group A: English and Speech (9-12 units)
Required – Linguistics 420. (Communicative Disorders credential students ONLY may substitute Communicative Disorders 531.)
### Liberal Studies

**Required** - Either English 306A and 306W (very strongly recommended) or English 500W and three units selected from: Afro-American Studies 460; English 301, 302, 405, 494, 501; Comparative Literature 470; Mexican-American Studies 335; Women's Studies 352.

**Electives** - Zero to three units of electives selected from required courses listed above or from the following: Afro-American Studies 362; Communicative Disorders 305; Linguistics 452 (recommended), 521, 522, 524, 550, 552, 553; Mexican-American Studies 461, 464; Speech Communication 475.

**Group B**: Mathematics and Science (7-10 units)

**Required** - Mathematics 496 "Algorithms" only (strongly recommended) or 310A.

**Required** - Natural Science 412A or 412B or 412C.

**Electives** - Zero to three units selected from required courses listed above or from the following: Astronomy 301; Biology 304, 307, 319, 321, 324, 327, 330, 336, 339, 341, 341L, 365, 454, 480; Geological Sciences 301, 303; Mathematics 310B; Natural Science 305, 315, 316, 317, 333, 431; Oceanography 320; Physics 301.

**Group C**: Social Science (12-15 units)

**Required** - Six units in history/political science to be selected as follows:
- If American Institutions has not been completed at lower division level, select from one of the following sequences: History 310A-310B, 410A-410B, 450A-450B, Political Science 305 and 320, 305 and 321, 320 and 321, Women's Studies 314A-314B.
- If American Institutions has been completed at lower division level, select three units of history and three units of political science from History 407A, 407B, 412A, 412B, 412C.

**Required** - Psychology 310 or 330.

**Option 3: Liberal Studies with Bilingual/Bicultural Spanish Emphasis in the Multiple Subjects Groups with the A.B. Degree in Liberal Arts and Sciences**

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." Completion of the Liberal Studies Option 3 major also fulfills General Education requirements.

A minor is not required with this major.

The Liberal Studies Major Option 3 meets all the requirements for the multiple subjects diversified major as specified in the Ryan Bill and is recommended for prospective elementary teachers.

Advising for this major is available at the University Advising Center (CL-107) and in a descriptive booklet available at the bookstore.

The Liberal Studies Option 3 major is designed to help prepare students to enter the Bilingual Emphasis program of the College of Education. A student majoring in this emphasis will have a good preparation for passing the bilingual competency tests. Completing this major, however, is no guarantee of passing the entrance exams. In general, students should select those courses which will improve oral and written Spanish language ability, English language proficiency, and cultural awareness and sensitivity. Students should take courses in Spanish when offered, e.g., history taught in Spanish.

**Spanish Language Requirement**: Students need to have proficiency in Spanish equivalent to four years of high school or Spanish 101, 102, 201 to follow this curriculum.

**Maximum Units in One Department**: 24 units, upper division and lower division combined. Mexican-American Studies and Multicultural Education are considered one department.

**Preparation for the Major**: Fifty-one units distributed as follows: (Courses listed under numbers 1, 2, 3, and 6 must be taken for a letter grade.)

**Group A**: English and Speech (12 units)

1. **English Composition** - English 100 or Mexican-American Studies 111B.
2. **Composition** - English 200.
3. **Speech** - Mexican-American Studies 100A or Speech Communication 103.
4. **Literature** - Three units selected from English 220, Comparative Literature 270A, 270B.

**Group B**: Mathematics and Science (13 units)

5. **Mathematics** - Mathematics 210A.
6. **Mathematics** - Mathematics 210B. (Students may substitute calculus sequences approved by the Department of Mathematical Sciences or Mathematics 310A and 310B for items 5 and 6.)
7. **Biological Science** - Three units (or four including laboratory) selected from Biology 100, 101L (strongly recommended), 110L, 110L 120L, 120L, 130L, 130L; Natural Science 110B.
8. **Physical Science** - Three units (or four including laboratory) selected from Astronomy 101, 105, Geological Sciences 100, 101; Natural Science 100, 102, 110A, 210A, 210B, Physics 103.

* Either item 7 or 8 must include a laboratory.

**Group C**: Social Science (9 units)

9. **Global Perspective** - Anthropology 102 or Geography 102.
11. **United States Organization** - Three units selected from Economics 100, 101, 102; History 110A, 110B; Mexican-American Studies 120A, 120B, 141A, 141B; Political Science 101, 102; Sociology 101.

**Group D**: Humanities and Fine Arts (17 units)

12. **Values and Ethics** - Three units selected from Philosophy 101, 102, 103; Religious Studies 401A, 401B, 402A, 402B.
13. **Western Civilization** - Three units selected from Art 258, 259; Classics 140; Drama 120, 121; History 105, 106; Humanities 102A, 102B.
14. **Art or Drama or Music** - Three units selected from Art 100, 101, 105; Drama 105, 255; Music 101, 102.

**Spanish Language** - Spanish 202.

**Spanish Language** - Spanish 211 and 212.

(Students with equivalent knowledge and proficiency may substitute, with written permission of the major adviser, alternative courses in place of items 15 and 16.)

**Additional Requirements** (for entrance into Teacher Education).

1. Health Science 101 or 320.
2. Physical Education 241.

**Upper Division Writing Requirement**: English 306W (very strongly recommended) or English 500W with a grade of C (2.0) or better.

**Major**: Thirty-seven units distributed as follows:

**Group A**: English and Speech (12 units)

* Required - English 306A-306W (very strongly recommended) or 500W and 501.

* Required - Linguistics 420 and 553.
Linguistics
In the College of Arts and Letters

Faculty
Emeritus: Elgin, Tidwell
Chair: Webb
Professors: Donahue, Frey
Associate Professors: Bar-Lev, Kaplan, Seright, Underhill, Webb
Lecturers: Bardovi-Harlig, Delahunty

Offered by the Department
Master of Arts degree in linguistics.
Major in linguistics with the A.B. degree in liberal arts and sciences.
Teaching major in linguistics for single subject teaching credential in English.
Minor in linguistics.
Certificate in applied linguistics and English as a second language (ESL).

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Linguistics Major

With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."

Students majoring in linguistics must complete a minor in another field approved by the departmental adviser in linguistics. Recommended fields include anthropology, communicative disorders, ethnic studies, a foreign language, history, journalism, literature, philosophy, psychology, public administration and urban studies, sociology, and speech communication.

Preparation for the Major. Linguistics 101. (3 units)

Students should note that a number of the upper division required and recommended courses listed below have lower division prerequisites, but these prerequisites do not constitute requirements per se for the completion of the major.

Foreign Language Requirement. Competency equivalent to that which is normally attained through three college semesters of a foreign language with a B (3.0) average, or the equivalent. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or Linguistics 396W, English 305W or 500W with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units is required: at least 15 of these must include Linguistics 521 and 522; a maximum of nine units may be selected from Afro-American Studies 360, 362, 363; American Studies 501; Anthropology 304, 410; Communicative Disorders 305; French 401, 431; German 505, 510; Journalism 503; Philosophy 521, 522, 531; Russian 580, 581; Sociology 422, 424, 440, 557; Spanish 448, 449; Speech Communication 391, 496 (when appropriate), 520, 535. Substitutions may be made at the discretion of the undergraduate adviser.

Linguistics Major
For the Single Subject Teaching Credential in English

For a description of the single subject teaching credential in English with a major in linguistics, refer to this section of the catalog under English.

Minor in Linguistics
The minor in linguistics consists of a minimum of 15 units, 12 of which must be upper division units and at least 12 of which must be from linguistics.
The student must select a specialization from one of the following subject areas. The following courses are appropriate for all subject areas: Linguistics 101, 420, 520, 521, 522, 551, 552. Linguistics 496 and 499 may be appropriate for any area depending on content.

**Descriptive and Theoretical Linguistics:** Linguistics 523, 525, 550, 560. Anthropology 510. Philosophy 531.

**Applied Linguistics:** Linguistics 450, 525, 550, 553; Anthropology 410.

**Historical Linguistics:** Linguistics 410, 560 (both required).

**Linguistics and English (recommended for English majors):** Linguistics 410, 450, 470, 525, 550, 560; Anthropology 410.

**Linguistics and Foreign Languages (recommended for foreign language majors):** Linguistics 410, 450, 550, 553, 560; Anthropology 410.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

### Applied Linguistics and English as a Second Language (ESL) Certificate

The Linguistics Department offers a basic and an advanced Certificate in Applied Linguistics and English as a Second Language (ESL). The basic certificate requires 12 units to include either Linguistics 430 or 520, Linguistics 550, 552, and either Linguistics 524 or 551. Under certain circumstances comparable courses taken at other institutions may count toward the certificate. Such courses must be evaluated and approved by the Certificate advisor. In addition, there is a 15-hour tutoring practicum requirement. In order to enroll, you must contact the certificate advisor in the Department of Linguistics. Refer to the Graduate Bulletin for information on the advanced certificate.

### LOWER DIVISION COURSES

#### General

**101. Introductory Linguistics (3) I, II**

Introduction to the principles and practice of modern linguistics as applied to the study of English. Not open to students with credit in upper division linguistics courses.

**250. Directed Language Study (3) I, II**

Prerequisite: Consent of instructor.

Directed independent study of a foreign language not offered within the course structure at San Diego State University with the aim of acquiring a basic competency in reading, writing, and grammar. No instruction in speaking or understanding the spoken language is included in this course.

**296. Experimental Topics (1-4)**

Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

### English Composition for International Students

**100. English Composition for International Students (3)**

Prerequisite: Completion of English Placement Test and Writing Competency requirements (See Graduation Requirements, I: Competency Requirements, section of this catalog.) PROOF OF COMPLETION OF COMPETENCY PREREQUISITE REQUIRED. Student to bring to first class meeting evidence of one of the following: Test score of 44+ on SAT/ACT or 18+ on ACT or 7 essay and 150+ total on EPT or proof of having passed the final examination in Academic Skills 110 or credit for Academic Skills 150.

This course introduces college-level written English; attention to English language/grammar needs of non-native speakers of English, grammatical and rhetorical techniques for effective writing, based in part on study of models of current American writing. Not open to students with credit in Afro-American Studies 120 or English 100 or higher-numbered composition or creative writing course or Mexican-American Studies 111B.

### UPPER DIVISION COURSES

**200. Advanced English for International Students (3)**

Prerequisites: Completion of English Placement Test and Writing Competency requirements and satisfactory completion of English 100 or equivalent. PROOF OF COMPLETION OF COURSE AND COMPETENCY PREREQUISITES REQUIRED.

Continuation of English 100, developing standard written English from wider language experience. Practice and training in the formal and informal language, idioms and practical English phonetics. Exercises based on a variety of dialects, content, and styles. Not open to students with credit in English 200.

**305W. Advanced Composition for International Students (3) I, II**

Advanced expository writing, with practice in the various associated skills (organization, research, presentation, rhetoric). The goal is to enable non-native English speakers to function in English in advanced university levels. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication.

**336W. Writing Proficiency (1)**

Prerequisite: Consent of instructor. Limited to linguistics majors.

Upper division writing course taken in conjunction with any 500-numbered linguistics course. Emphasizes composition skills in research methods, essay organization, paragraphing, course. Emphasizes composition skills in research methods, essay organization, paragraphing. The goal is to enable non-native English speakers to function in English in advanced university levels. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication.

**410. History of English (3) I, II**

The history of English and its present-day use.

**420. Modern English (3) I, II**

Principles of linguistics, structure of modern English, with attention to sounds and sentence patterns. Psychology of language, language acquisition, sociolinguistics, language study, content of language. Students with credit in linguistics 520 or 560 may not enroll. Not open to students with credit in linguistics 520.

**450. Introduction to Teaching English as a Second Language (3) I, II**

Introduction to English as a second language, bilingual, and foreign language teaching. Survey of ESL methods and techniques. Not open to students with credit in linguistics 520.

**452. Child Language Acquisition (3) I, II**

**496. Experimental Topics in Linguistics (1-4) I, II**

Selected study of a selected topic in linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

**499. Special Study (1-3) I, II**

Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

### UPPER DIVISION COURSES

(Also Acceptable for Advanced Degrees)

**520. Structure of English (3) I, II**

The structure of modern English, including the various approaches to linguistic analysis.

**521. Phonology (3) I, II**

Prerequisite: Linguistics 420 or 520.

Introduction to the theoretical principles of transformational-generative phonology.
522. Syntax (3) I, II
Prerequisite: Linguistics 420 or 520.
Introduction to the theoretical principles of transformational-generative syntax.

523. Phonemics and Morphemics (3)
The study of procedures for arriving at the phonetic inventory of languages and the structuring of sound units (both linear and intonational) into phonemic systems; the study of morphemic hierarchies and their arrangements in forming words.

524. American Dialectology (3) I, II
The development of American English; regional and cultural differences in pronunciation, grammar and vocabulary.

525. Semantics and Pragmatics (3)
Prerequisite: Linguistics 101.
Advanced semantic theory; systematic analysis of the interaction of sequences of language with real world context in which they are used.

550. Theory and Practice of English as a Second Language (3) I, II
Prerequisite: Linguistics 450 or 420 or 520.
The nature of language learning; evaluation of techniques and materials for the teaching of English as a second language.

551. Sociolinguistics (3) I, II
Prerequisite: A course in introductory linguistics.
Investigation of the correlation of social structure and linguistic behavior.

552. Psycholinguistics (3) I, II
Prerequisite: A course in introductory linguistics.
Psychological aspects of linguistic behavior.

553. Functional Bilingual Linguistics (3) I, II
Prerequisites: Knowledge of Spanish, Linguistics 520, and consent of instructor.
Recommended prerequisite: Communicative Disorders 528.
English and Spanish linguistic differences as related to children's second language acquisition, assessment of children's linguistic competence in second language learning through contrastive analyses of English and Spanish phonology, morphology and syntax. Research on current linguistic theories in second language acquisition and in bilingualism.

554. Linguistics and Computers (3) I, II

555. Historical Linguistics (3)
Prerequisites: Linguistics 410 and 520 or 521.
Methods and principles used in historical study of language; processes of language change in phonology, morphology, syntax, and semantics; linguistic reconstruction; origin of language; language families; development of writing; examples from various language families.

556. Selected Topics in Linguistics (3)
Advanced study of selected topics. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units, selected with approval of the departmental adviser before starting upper division work, including Mathematics 521A, 524, and 534A and one or two-course sequence chosen from the following: Mathematics 370 and 372, 521A and 521B, 521A and 537, 537 and 531, 534A-534B, 534A and 535, 541A-541B, 551A and 551B, 550 and 553. The student must complete an outline for the major and file a copy signed by the adviser with the Evaluations Office.

Mathematics Major

With the B.S. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major.

The purpose of this major is to provide a good background for employment or graduate work in applied mathematics or in that science.

Preparation for the Major. Mathematics 107, 150, 151, 252, 253. (19 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include Mathematics 524, 534A, at least nine units selected from Mathematics 336, 341A, 341B, 362, 521A, 531, 532, 533, 534B, 537; 12 units from a science to which mathematics may be applied (these should be from a single science and must be approved by the B.S. adviser); and nine units of electives in mathematics excluding Mathematics 302, 303, 310A-310B. Student must complete outline for major and file a copy signed by adviser with Evaluations Office.

In addition the student must complete Mathematics 524 with a grade of C or better prior to enrolling in Mathematics 370, 372, 573, 576, 578, 580, 581, 582, 583, 584, and certain sections of 596.

Emphasis in Applied Mathematics

This emphasis is designed to train the student in those areas of mathematics which may be applied to formulate and solve problems in other disciplines. The program is designed to qualify the student for employment as an applied mathematician, but the graduate would be well prepared for graduate study in pure or applied mathematics.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 35 upper division units to include Mathematics 524, 524A, at least nine units selected from Mathematics 336, 341A, 341B, 362, 521A, 531, 532, 533, 534B, 537; 12 units from a science to which mathematics may be applied (these should be from a single science and must be approved by the B.S. adviser); and nine units of electives in mathematics excluding Mathematics 302, 303, 310A-310B. Student must complete outline for major and file a copy signed by adviser with Evaluations Office.

In addition the student must complete Mathematics 524 with a grade of C or better prior to enrolling in Mathematics 370, 372, 573, 576, 578, 580, 581, 582, 583, 584, and certain sections of 596.

Auxiliary Area. A minimum of 12 units from an area to which mathematics may be applied. A typical requirement might be Physics 195, 195L, 196L, 197L, 197L; or Chemistry 200, 201, and a course for which these are prerequisites, or Biology 201 and 202 and courses for which these are prerequisites, or Economics 101, 102, 307, 541. The intent is to train the student in an area in some depth. Some latitude may be allowed in the choice of department and mix of courses, but all programs must be approved by the Applied Mathematics adviser. The 12-unit requirement is minimal, and a minor in an approved field is highly recommended.

Emphasis in Computer Science

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units in mathematics to include Mathematics 370, 372, 524, 534A; at least nine units from Mathematics 336, 341A, 341B, 521A, 531, 532, 533, 534B, 537; 12 units from a science to which mathematics may be applied (these should be from a single science and must be approved by the B.S. adviser); and nine units of electives in mathematics excluding Mathematics 302, 303, 310A-310B. Student must complete outline for major and file a copy signed by adviser with Evaluations Office.

In addition the student must complete Mathematics 524 with a grade of C or better prior to enrolling in Mathematics 370, 372, 573, 576, 578, 580, 581, 582, 583, 584, and certain sections of 596.

Emphasis in Statistics

Preparation for the Major. Mathematics 107, 150, 151, 250, 252, 253. (22 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Mathematics Major

For the Single Subject Teaching Credential

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education. This major may be used by students in teacher education as an undergraduate major for the A.B. degree in liberal arts and sciences.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units in mathematics to include Mathematics 302, 314, 357, 521A, 524, 534A, an upper division course in geometry; and six units of electives selected with the approval of the single subject credential adviser. Student must complete outline for major and file a copy signed by adviser with Evaluations Office.

Single Subject Waiver Program in Mathematics

Students who do not wish to complete a major in mathematics but want to satisfy the requirements for the single subject waiver program in mathematics must complete the following requirements.

To be admitted to the program, students must demonstrate competency in high school mathematics (algebra, geometry and trigonometry) by passing a mathematics placement test.

Waiver Program. A minimum of 45-46 units to include Mathematics 107, 150, 151, 252, 253, 302, 314, 357, 521A, 524, 534A; an upper division course in geometry; and 12 units of electives selected with the approval of the single subject credential adviser. Students may substitute equivalent courses from physical and mathematical sciences. Students must complete outline for major and file a copy signed by adviser with Evaluations Office.

An approved calculus sequence of 12 units may be substituted for the 13-unit calculus requirement.
Computer Science Minor

The minor in computer science consists of a minimum of 18-24 units in mathematics to include Mathematics 107, 108; and at least 12 upper division units from the courses listed below, or at least nine upper division units from the courses listed below if the student completes a full calculus sequence, i.e., Mathematics 121, 122, or 150, 151; or 141, 142. The courses selected are subject to the approval of the minor adviser. Mathematics 370, 371, 372, 541A, 573, 574, 575, 576, 578, 580 and 596.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Mathematics Minor

The minor in mathematics consists of a minimum of 18-22 units in mathematics to include 12 upper division units, at least six of which have as prerequisite Mathematics 151 or 142, or Mathematics 262 and nine upper division units in mathematics, at least six of which have as prerequisite Mathematics 151 or 142. The courses selected will be subject to the approval of the minor adviser. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Mathematics Placement Examinations

All students who expect to enroll in Mathematics 104, 106, 107, 119, 120, 121, 140, 250, and have not completed prerequisite courses at San Diego State University must take the mathematics placement tests. These tests may be used to satisfy all or part of the prerequisite requirements for these courses, and they also serve as a basis for the selection of students for the mathematics honors program. The schedule for these examinations will be posted on the mathematics bulletin board. Provision is also made for these examinations to be taken by the entering freshman or the transfer student prior to registration. Refer to the calendar.

LOWER DIVISION COURSES

104. Trigonometry (2) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I. Proof of completion of prerequisites required.
Basic concepts of analytic trigonometry.

106. Introduction to Computer Programming with FORTRAN (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I. Proof of completion of prerequisites required.
Introduction to problem solving on a computer, design of algorithms, and use of FORTRAN language. Extensive programming.

107. Introduction to Computer Programming (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I. Proof of completion of prerequisites required.
Introduction to machine and data organization; the rudiments of job control; design and analysis of algorithms; flowcharts. Extensive programming of problems on the computer in PASCAL.

108. Intermediate Computer Programming (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement; qualification on the Mathematics Placement Examination, Part I, and Mathematics 107. Proof of completion of prerequisites required.
Further training in program design and development, especially with regard to larger projects. More complete presentation of a programming language. Basic data structures and algorithms.

118. Topics in Mathematics (3)
Prerequisites: Satisfaction of Entry-Level Mathematics requirement and the Mathematics Competency requirement. Proof of completion of prerequisites required.
Topics selected from algebra, analysis, geometry, logic, probability, or statistics, designed to give student insight into structure of mathematical theories and their applications. Not open to students with credit in Mathematics 140 or higher numbered courses.

119. Elementary Statistics for Business (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I. Proof of completion of prerequisites required.
Descriptive statistics: histogram, frequency polygon measures of central tendency and variability. Elementary probability and sampling distributions, including binomial, Normal, Bayes theorem. Point and interval estimation of means, proportion. Not open to students with credit in Mathematics 250. Students with credit or concurrent registration in another statistics course other than Mathematics 250 will be awarded a total of four units for the two (or more) courses.

120. Mathematics for Business Analysis (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I. Proof of completion of prerequisites required.
Basic mathematics for business students, including topics from finite mathematics and calculus.

121. Calculus for the Life Sciences I (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I, and Mathematics 121. Proof of completion of prerequisites required.
A continuation of Mathematics 121 with topics from integral calculus and an introduction to elementary differential equations. Not open to students with credit in Mathematics 141 or 150.

122. Calculus for the Life Sciences II (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement; qualification on the Mathematics Placement Examination, Part I; and Mathematics 121. Proof of completion of prerequisites required.
A continuation of Mathematics 121 with topics from integral calculus and an introduction to elementary differential equations. Not open to students with credit in Mathematics 141 or 150.

137. Machine Organization and Assembly Language (4) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement; qualification on the Mathematics Placement Examination, Part I; and Mathematics 108. Proof of completion of prerequisites required.
Basic concepts of computer organization and machine language. Not open to students with credit in Mathematics 250. Students with credit or concurrent registration in another computer science course other than Mathematics 250 will be awarded a total of four units for the two (or more) courses.

138. Higher Level Languages (1-2)
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement; qualification on the Mathematics Placement Examination, Part I; and Mathematics 107. Proof of completion of prerequisites required.
Syntax and semantics of a given high level language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language. Units will depend on language.

140. College Algebra (3) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I. Proof of completion of prerequisites required.
Functional notation, mathematical induction, complex numbers, De Moivre's theorem, binomial theorem, determinants, etc. Not open to students with credit in Mathematics 150.

141. Calculus for the Social Sciences (4) I, II
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and either qualification on the Mathematics Placement Examination, Parts I and II, or Mathematics 140 taken at this university. Proof of completion of prerequisites required.
Types of functions and their graphs, especially those arising from social and behavioral models; trigonometry; single variable calculus, including techniques of integration, differentiation, and optimization. Not open to students with credit in Mathematics 121 or 150.
142. Calculus for the Social Sciences (4) I, II
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement, either qualification on the Mathematics Placement Examination, Parts I and II, or Mathematics 140 taken at the university, and Mathematics 141. Proof of completion of prerequisites required.
Matrix and vector algebra, and linear systems of equations and inequalities; multivariate calculus, including optimization methods; elementary techniques for solution of differential and difference equations. Not open to students with credit in Mathematics 122 or 151.

149. Introductory Matrix Algebra (3)
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement and either qualification on the Mathematics Placement Examination, Parts I and II, or Mathematics 140 taken at this university. Proof of completion of prerequisites required.
Matrices, vectors, linear dependence and independence, basis, change of basis, similarity and congruence. Applications to systems of equations, characteristic values and orthogonality.

150. Single Variable Calculus (5) I, II
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement and either qualification on the Mathematics Placement Examination, Parts I, II, and III, or Mathematics 104 and 140 taken at this university with minimum grades of C. Proof of completion of prerequisites required.
Concepts and techniques of one variable calculus. Differentiation and integration of algebraic, logarithmic, exponential, trigonometric and inverse trigonometric functions of one variable, with applications.

151. Calculus and Analytic Geometry (4) I, II
Prerequisite: Mathematics 150 with minimum grade of C.
Plane analytic geometry, polar coordinates, parametric equations in the plane, techniques of integration, indeterminate forms, improper integrals, Taylor's formula and infinite series.

210A. Structure and Concepts of Elementary Mathematics (3) I, II
This course or its equivalent is required for students working toward a teaching credential in elementary education.
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement and the Mathematics Competency requirement. Proof of completion of prerequisites required.
Sets and relations, functions, the development of the number system from the natural numbers, including the whole numbers, the integers, the rational numbers and the real numbers.

210B. Structure and Concepts of Elementary Mathematics (3) I, II
This course or its equivalent is required for students working toward a teaching credential in elementary education.
Prerequisites: Satisfaction of the Entry-Level Mathematics requirement and the Mathematics Competency requirement and Mathematics 210A. Proof of completion of prerequisites required.
Elementary number theory and congruences, metric and nonmetric geometry, introduction to logic, probability and statistics and some concepts from algebra.

250. Basic Statistical Methods (3) I, II
Prerequisite: Satisfaction of the Entry-Level Mathematics requirement and qualification on the Mathematics Placement Examination, Part I. Proof of completion of prerequisites required.
Descriptive statistics: histogram, measures of central tendency and variability; sampling distribution; methods of estimation and hypothesis tests for means, proportions, variances. AOV models: linear regression and correlation, nonparametric methods. Not open to students with credit in Mathematics 121 or concurrent registration in another statistics course.

252. Multivariable Calculus (4) I, II
Prerequisite: Mathematics 151 with minimum grade of C.
Concepts and techniques of several variable calculus. Partial differential and multiple integration with applications. Analytic geometry and vectors in three dimensions. Line integrals and Green's Theorem, differential equations. (Formerly numbered Mathematics 162.)

255. Linear Algebra and Differential Equations (3), II, S
Prerequisite: Mathematics 142 or 252.
First-order ordinary differential equations; matrices and systems of equations, vector spaces, linear transformations, eigenvalues and eigenvectors. Applications to higher-order ordinary differential equations and first-order systems. Not open to students with credit in Mathematics 340A.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

299. Special Study (1-3)
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Intended for Undergraduates)

302. Basic Mathematical Concepts (3) I, II
Prerequisite: Mathematics 150.
Prerequisite: Mathematics 150. Mathematics 121 or Mathematics 141 taken at this university with minimum grades of C. Proof of completion of prerequisites required.
Concepts of secondary school mathematics from teacher's point of view to include real number systems, sets, mappings, relation, operations topics from mathematics systems and number theory.

303. History of Mathematics (3) I, II
History of mathematics from ancient times to the modern times.

310A-310B. Modern Elementary Mathematics (3-3)
Modern Elementary Mathematics 310A is prerequisite to 310B.
Prerequisite: Mathematics 210B or qualification on Mathematics Education Placement Test.
Mathematics 310A is prerequisite to 310B. Mathematics 310A is not open to students with credit in Mathematics 151 or concurrent registration in another mathematics course.

314. Mathematics Curriculum and Instruction (3)
Prerequisite: Mathematics 151.
Prerequisite: Mathematics 151. Principles and procedures of mathematics instruction in secondary schools. For secondary and postsecondary teachers and teacher candidates. Course cannot be used as part of major or minor in mathematics or teacher credential.

336. Introduction to Mathematical Modeling (3) I
Prerequisite: Mathematics 122 or 142 or 252.
Prerequisite: Mathematics 122 or 142 or 252. Emphasis on classes of models such as equilibrium models and compartment models. Not open to students with credit in Mathematics 336.

340A-340B. Methods of Applied Mathematics (3-3) I, II
Prerequisite: Mathematics 252. Mathematics 340A is prerequisite to 340B.
Prerequisite: Mathematics 252. Mathematics 340A is prerequisite to 340B. Mathematics 340A is open only to students with credit in Mathematics 530. Mathematics 340B is open only to students with credit in Mathematics 530. Mathematics 340B is not open to students with credit in Mathematics 340B.

340C. Methods of Applied Mathematics (3)
Prerequisite: Mathematics 340B.
Prerequisite: Mathematics 340B. Finite and infinite dimensional vector spaces: linear transformations and matrix representations, eigenvalues and eigenvectors, systems of linear differential, eigenvalue problems, linear differential equations, Laplace transforms, Fourier series and integrals, numerical analysis of the Bessel and gamma functions, partial differential equations, applications. Not open to students with credit in Mathematics 530.

341A. Methods of Applied Mathematics I (3) I, II
Prerequisite: Mathematics 252.
Prerequisite: Mathematics 252. Vector calculus, Stokes theorem and related integral theorems. Second-order linear partial differential equations, spherical harmonics, Legendre polynomials. Not open to students with credit in Mathematics 340B.
341B. Methods of Applied Mathematics II (3) II
Prerequisite: Mathematics 341A.
Fourier and Laplace transforms and applications, perturbation theory, Green's functions.
Hilbert spaces, orthonormal expansions and delta functions. Not open to students with credit in Mathematics 340C.

350A. Statistical Methods (3) I
Prerequisite: Mathematics 119 or 250 or equivalent statistics course.
One- and two-sample hypothesis tests, paired difference tests, tests for variances, analysis of variance. Linear regression and correlation. Chi-square tests. Simple nonparametric tests. The power of hypothesis tests.

350B. Statistical Methods (3) II
Prerequisite: Mathematics 350A.
Multiple regression, factorial models and nonparametric methods, all with emphasis on applications.

357. Probability and Statistics (3) II
Prerequisite: Mathematics 142 or 151.
Probability, measures of central tendency and dispersion, characteristics of frequency functions of discrete and continuous variables; applications. Highly recommended for all prospective secondary school teachers of mathematics (Formerly numbered Mathematics 577.)

362. Optimization Theory (3) I
Prerequisite: Mathematics 253.
Necessary and sufficient conditions for optimizations in one and several variables. Euler's equation. Lagrange multipliers, linear programming, the simplex method. Introduction to duality and linear programming. (Formerly numbered Mathematics 562.)

370. Data Structures (3)
Prerequisite: Mathematics 108.
Basic concepts of data. Linear lists, strings, arrays, and orthogonal lists. Representation of trees and graphs. Multilinked structures. (Formerly numbered Mathematics 570.)

371. Discrete Mathematics, with Computer Applications (3)
Prerequisite: Mathematics 122 or 142 or 151.
Equivalence and order relations, Boolean algebra, finite machines and their optimization, logical design.

372. Programming Languages (3)
Prerequisite: Mathematics 108.
Formal definition of programming languages including specification of syntax and semantics. Structure of algorithmic languages. Special purpose languages. (Formerly numbered Mathematics 572.)

480. ADA and Programming Methodologies (3) I, II
Prerequisite: Mathematics 370.
Introduction to programming in ADA. Advanced concepts and features present in a variety of modern programming languages and programming methodologies as applied in ADA.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 266, 496, 696 courses applicable to a bachelor's degree.

498. Directed Readings in Mathematics Literature (1)
Prerequisite: Credit or concurrent registration in the upper division mathematics course in which readings are to be undertaken.
Individually directed readings in mathematics literature. May be repeated for a maximum of three units, taken each time from a different instructor.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

510. Introduction to the Foundations of Geometry (3) II
Prerequisite: Mathematics 122 or 142 or 151.
The foundations of Euclidean and hyperbolic geometries. Highly recommended for all prospective teachers of high school geometry.

511. Projective Geometry (3) I
Prerequisites: Mathematics 122 or 142 or 151 and consent of instructor.
Concurrence of lines, collinearity of points and other properties of figures not altered by projections; construction and study of ellipses, hyperbolas, and parabolas by means of projections.

512. Non-Euclidean Geometry (3)
Prerequisite: Mathematics 122 or 142 or 151.
History of attempts to prove the fifth postulate; emphasis on plane synthetic hyperbolic geometry; brief treatment of other types of non-Euclidean geometry.

520A. Linear Algebra (3) I, II
Prerequisite: Mathematics 142 or 252.
A study of linear equations, Euclidean spaces, linear transformations, matrices, determinants, and eigenvalues. (This course will be offered for the last time during the 1986-87 academic year.)

520B. Applied Linear Algebra (3)
Prerequisite: Mathematics 520A.
Jordan forms, vector and matrix norms, condition numbers, generalized inverses, linear programming, analysis of a few standard algorithms in linear algebra. (This course will be offered for the last time during the 1986-87 academic year.)

521A-521B. Abstract Algebra (3-3) I, II
Prerequisites: Mathematics 142 or 252. Mathematics 521A is prerequisite to 521B.
Selected topics from abstract algebra to include introduction to the theory of groups, theory of equations, and finite mathematics.

522. Number Theory (3)
Prerequisite: Mathematics 142 or 252.
Selected topics from the theory of numbers to include congruences, Diophantine equations, and a study of prime numbers.

523. Mathematical Logic (3)
Prerequisite: Mathematics 142 or 151 or Philosophy 120.
The logical rules of proof governing sentential connectives and the universal and existential quantifiers with applications. Not open to students with credit in Philosophy 521.

524. Linear Algebra (3) I, II
Prerequisite: Mathematics 253.
Systems of linear equations and inequalities, normed linear spaces, matrix norms, condition numbers, generalized inverses, linear, bilinear and quadratic forms. Euclidean spaces, Sylvesters law, the spectral theorem, and canonical forms. Not open to students with credit in Mathematics 520A-520B.

530. Differential Equations (3) I, II
Prerequisite: Mathematics 142 or 252.
Ordinary differential equations with applications to geometry, physics and chemistry. Not open to students with credit in Mathematics 340A. (This course will be offered for the last time during the 1986-87 academic year.)

531. Partial Differential Equations (3)
Prerequisite: Mathematics 337.
Study of boundary-initial value problems via separation of variables, eigenfunction expansions, Greens functions, and transform methods. Introductory material includes uniform convergence, divergence theorems and Fourier series. Not open to students with credit in Mathematics 340B.
552. Functions of a Complex Variable (3)
Prerequisite: Mathematics 142 or 252.
Analytic functions, Cauchy-Riemann equations, theorem of Cauchy, Laurent series, calculus of residues.

553. Vector Analysis and Differential Geometry (3)
Prerequisite: Mathematics 253.
Vector algebra, differentiation and integration, classical theory of curves and surfaces, divergence theorem, Stokes' theorem and related integral theorems, curvilinear coordinates, elements of tensor analysis. Applications to geometry and physics.

554A. Advanced Calculus I (3) I, II
Prerequisite: Mathematics 253.
Properties of the real numbers, continuity and differentiability functions of one real variable, the Riemann integral, infinite series, uniform convergence.

554B. Advanced Calculus II (3) I, II
Prerequisite: Mathematics 554A.
Functions of several real variables; continuity and differentiability, transformations, Jacobians, Green's and Stokes' theorems.

555. Introduction to Topology (3)
Prerequisite: Mathematics 554A.

557. Differential Equations (3)
Prerequisite: Mathematics 253.
Ordinary differential equations with topics including boundary value problems, stability and Laplace transforms, applications in physics and chemistry. Not open to students with credit in Mathematics 530.

541A. Numerical Analysis and Computation (3) I
Prerequisites: Mathematics 107 and 253.

541B. Numerical Analysis and Computation (3) II
Prerequisites: Mathematics 340A or 530, 524 and 541A.

550. Probability (3)
Prerequisite: Credit or concurrent registration in Mathematics 253.
Probability, computation of probability by enumeration of the cases, discrete and continuous random variables, density functions, moments, limit theorems, selected distributions.

551A. Mathematical Statistics (3) I, II
Prerequisite: Mathematics 253.
Probability models in the theory of statistics, sampling distributions with applications in statistical inference.

551B. Mathematical Statistics (3) II
Prerequisite: Mathematics 551A.
Point and interval estimation and hypothesis testing in statistical models with applications to problems in various fields.

552. Applied Time Series Analysis (3) I
Prerequisite: Mathematics 551B.
Computation and statistical analysis relative to time series arising in economics, engineering and biomedical research. Box-Jenkins methodology. Robust and nonparametric techniques.

553. Stochastic Processes (3)
Prerequisite: Mathematics 550.
Introduction to stochastic processes with selected applications.
583. Computer Simulation (3) I, II
Prerequisites: Mathematics 350A and 541A.
Methodology of simulation for discrete and continuous dynamic systems. State-of-the-art programming techniques and languages. Statistical aspects of simulation. Students will design, program, execute and document a simulation of their choice.

584. Aspects of Interactive Computer Graphics (3) I, II
Prerequisites: Mathematics 253 and 370.
Theoretical and practical concepts and software requirements related to use of interactive computer graphics. Mathematical functions used in 3D graphics; data structures and languages both for programming graphical system and for communication between a user and the graphical system.

586. Software Engineering (3) II
Prerequisite: Mathematics 372.
Theory and methodology of programming complex computer software. Analysis, design and implementation of programs. Team projects required.

596. Advanced Topics in Mathematics (1-4) I, II
Prerequisite: Consent of instructor.
Selected topics in classical and modern mathematical sciences. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

Mexican-American Studies

In the College of Arts and Letters

Faculty
Chair: Cuellar
Professors: Griswold del Castillo, Vega
Associate Professors: Cuellar, Gonzalez, Rodriguez, Villarino

Offered by the Department
Major in Mexican-American studies with the A.B. degree in liberal arts and sciences.
Minor in Mexican-American studies.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Mexican-American Studies Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”
A double major is strongly recommended for students majoring in Mexican-American studies.

Preparation for the Major: Mexican-American Studies 110A-110B. (6 units.)

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Students majoring in Mexican-American studies must demonstrate knowledge of Spanish by satisfactory completion of written and oral examinations administered by the Department of Mexican-American Studies. Refer to section of catalog on “Graduation Requirements.”

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units to include Mexican-American Studies 301 and 21 units selected from: (social sciences) Mexican-American Studies 303, 304, 306, 320, 324, 334, 350A-350B, 355, 360, 370, 450, 481, 484; or 21 units selected from (humanities) Mexican-American Studies 310, 324, 333, 334, 335, 375, 376, 380, 396W, or 21 units selected from (bilingual systems) Mexican-American Studies 460, 461, 464, 490. Up to nine units, with appropriate content, can be applied to each area of specialization from Mexican-American Studies 496, 497 and 499.

Mexican-American Studies Minor
The minor in Mexican-American studies consists of a minimum of 18 units in Mexican-American studies to include Mexican-American Studies 110A-110B and 12 units of upper division courses selected from any one of the following three areas in Mexican-American studies: (social sciences) Mexican-American Studies 301, 303, 304, 306, 320, 324, 334, 350A-350B, 355, 360, 370, 450, 481, 484; (humanities) Mexican-American Studies 310, 333, 334, 335, 375, 376, 380, 396W; (bilingual systems) Mexican-American Studies 460, 461, 464, 490.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.
Mexican-American Studies Minor — Imperial Valley Campus

The minor in Mexican-American studies consists of a minimum of 18 units in Mexican-American studies to include 12 units of upper division courses selected from any one of the following three areas: (bilingual systems) Mexican-American Studies 461, 464, 465 (humanities) Mexican-American Studies 333, 335, 376, 380, (social sciences) Mexican-American Studies 320, 350A-350B, 360, 481, 484.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

110A-110B. Introduction to Mexican-American Studies (3-3)
Introduction to the culture and the civilization of the Mexican American. Semester I: History, Mexican and U.S. roots, the new identity. Semester II: Contemporary problems; social and political movements.

111A. Oral Communication (3)
Training in the process of oral (speech) expression: addressing the barrio; formal delivery Mexican-American Studies 111A is equivalent to Speech Communication 103. Not open to students with credit in Afro-American Studies 140 or Speech Communication 103 or 104.

111B. Written Communication (3)
Prerequisites: Completion of English Placement Test and Writing Competency requirements. (See Graduation Requirements, I: Competency Requirements, section of this catalog.) Proof of completion of competency prerequisite required. Student to bring to first class meeting evidence of one of the following: Test score of 44+ on SAT/ISSE or 18+ on ACT or 7 essay and 150+ total on EPT or proof of having passed the final examination in Academic Skills 110 or credit in Academic Skills 150.
Training for students from Hispanic backgrounds in the process of written expression. English grammar and composition; the essay, the term paper, Mexican-American Studies 111B is equivalent to English 100. Not open to students with credit in English 100 or higher-numbered composition or creative writing course or Afro-American Studies 120 or Linguistics 100.

120A-120B. The Mexican-American Role in the American Political System (3-3)
Semester I: Relationship between the Mexican-American community and the American political system. Semester II: The Mexican American in relation to his city, county, and state institutions in California. This year course meets the graduation requirement in American institutions.

130. Mexican Literature in Translation (3)
Contemporary Mexican prose and poetry in translation.

140. History and Sociology of Racism (3)
Survey and analysis of majority group racism and its effects upon minority ethnic groups and society.

141A-141B. History of the United States (3-3)
Emphasis on Spanish and Mexican influence. Semester I: U.S. expansion to 1848. Semester II: 1848 to the present. The Treaty of Guadalupe Hidalgo; history of Mexican immigration; farm labor and urban Chicano history; contemporary movements. This year course meets the graduation requirement in American Institutions.

UPPER DIVISION COURSES

(Interested for Undergraduates)

301. Political Economy of the Chicano People (3)
Prerequisite recommended: Mexican-American Studies 110A-110B.
Political and economic roots of the oppression and exploitation of the Chicano from historical, institutional and theoretical points of view. Parallels between the experience of the Chicano and other Hispanic groups.

303. Barrio Studies (3)
Prerequisite recommended: Mexican-American Studies 110A or 110B.
Sociological and practical analysis of barrio problems and agencies. Observation in formal agencies for experience and sensitizing. Community fieldwork and application of theory.

304. Narcotics in the Mexican-American Community (3)
Prevention and cure of drug problems; old and new methods; formal and informal agencies explored.

306. Immigration Law and Practices (3)
Legal and political status of the immigrant from Mexico; process of immigration, counseling the immigrant.

310. Mexican and Chicano Music (3)
Music of Mexico and the Southwest including folk dances appropriate for children and adults. Emphasis on the corrido, its history and development in Mexico and the U.S. Course will be taught bilingually.

320. Mexican-American Life Styles (3)
The Mexican-American family in the past, present, and future. Traditional and evolving roles of the man and the woman. The new alternatives in the twentieth century.

324. Grammatica Cantada (Pedagogia, Musica y Cultura) (3)
Methods and materials of Spanish instruction through music of Mexico and the Southwest.

331. Chicano Poetry; Creative Writing (3)
Reading and writing of Spanish-English macaronic verse: a writing workshop in which students are given opportunity to criticize each other's work. Poetry is the point of departure and goal in sight. Maximum credit six units.

333. Pre-Hispanic Literature in Translation (3)
Literature of Nahua and Maya areas in translation: studied as literature.

334. Language of the Barrio (3)
Pachuco, calo, and barrio Spanish: a linguistic study.

335. Mexican-American Literature (3)
Ideas, forms, history of significant Mexican-American prose, poetry and other literary genres.

350A-350B. Chicano History (3-3)
Semester I: Review of indigenous origins; Hispanic institutions and northward expansion; Semester II: Review of Mexican American history; Mexican American influences and contributions; the multilingual and multicultural Southwest.

355. The United States-Mexico International Border (3)
Prerequisite: Upper division standing.
History, culture, economics, and politics of U.S.-Mexico border region. Theories and policy issues surrounding development of region: local regional problems and major agencies, institutions, organizations addressing these problems.

360. Effects of Political and Economic Institutions on the Barrio (3)
Prerequisite recommended. Mexican-American Studies 301.
Analysis of unique needs of within the barrio and their relationship to political and economic analysis of unique needs of within the barrio and their relationship to political and economic development of alternative institutions; a study of the consumer society; research and theoretical development of alternative economic modes in a multicultural society.

370. Families in the Southwest: Documents and Methods (3)
Family history in the Southwest. Emphasis on Mexican and Chicano family, methodology and materials in research. History of important families in the Southwest. Preparation of family histories.

375. U.S./Mexico Border History (3)
Prerequisite recommended: Mexican-American Studies 110A.

380. Chicano Folklore (3)
Prerequisite recommended: Mexican-American Studies 110A or 110B.
Analysis of ancient myths and their contemporary manifestations.

Mexican-American Studies / 435
396W. Chicano Prose: Creative Writing (3)
A writing workshop. Mutual criticism. Exploration of new form and content in Mexican-American prose. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. Maximum credit six units.

450. Border Health Conditions and Cultural Practices (3)
Prerequisite recommended: Mexican-American Studies 110A or 110B.
Health practices and health conditions on the border. Environmental health issues, health-related risk factors/lifestyles, health services delivery, and cultural components of health behaviors, including review of trends.

460. Bilingual Concepts (3)
Prerequisite recommended: Mexican-American Studies 110A-110B.
Bilingual and bicultural philosophy; investigation of bilingual rationales and exploration of research in the area.

461. Bilingual Linguistics (3)
Prerequisite recommended: Mexican-American Studies 110A or 110B.
Basic elements of linguistics in English and Spanish; definitions and applications. A study of comparative elements in bilingual linguistics. Taught bilingually.

465. Literature for the Chicano Bilingual Student (3)
Chicano literature for the preschool, elementary, and junior high bilingual Chicano student (Formerly numbered Mexican-American Studies 465A).

480. The Mexican American and the Schools (3) I, II
Prerequisite recommended: Mexican-American Studies 110A or 110B.
The Mexican-American child's experience in the school system from preschool through high school with emphasis on social, intellectual and emotional growth and development.

481. Contemporary Issues and the Chicano Child (3)
Housing and neighborhoods, family structure; Chicano culture and health; medical needs, problems of education, emotional, social and intellectual growth, meaningful school curriculum, measurement and evaluation of academic skills and relationship to the education of urban and rural Chicano child.

484. Counseling the Mexican-American Student (3)
Motivation counseling at all levels; parent counseling and involvement; recruiting for secondary continuation and college.

496. Selected Topics in Mexican-American Studies (1-3)
Intensive exploration of selected topics in the area of Mexican-American Studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

497. Senior Survey in Mexican-American Studies (3)
Survey integrating studies of selected areas of Mexican-American Studies. Senior report will be written.

499. Special Study (1-3)
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

Military Science
In the College of Professional Studies and Fine Arts

Faculty
Chair: Ford
Professor: Ford
Assistant Professors: Belletti, Kershner, Roberts, Sponbeck
Lecturers: Bollenbach, Oelke, Rader, Stone

Offered by the Department
Army ROTC curriculum leading to a commission as a Second Lieutenant in the U.S. Army Minor in Military Science.

Curriculum
The Department of Military Science offers both a four-year and a two-year Army Reserve Officers Training Corps (ROTC) program designed to develop future officers in the areas of leadership, management, foreign policy, national security, military history, and military skills. Enrollment in the Army ROTC program is not a requirement for taking military science courses.

The Army ROTC program consists of one course per semester along with one leadership laboratory period per month. The four-year program is divided into two parts: the Basic Course and the Advanced Course. The Basic Course is usually taken in the freshman and sophomore years. No military commitment is incurred during this time, and students may withdraw at any time through the end of the second year. The first year consists of one-unit introductory courses each semester. The second year consists of two-unit courses with instruction in Civil-Military Relations and Military Leadership. Uniforms, necessary military science textbooks, and materials are furnished without cost. After completing the Basic Course, students who have demonstrated officer potential and have met physical and scholastic standards are eligible to enroll in the Advanced Course. This course is normally taken in the final two years of college and is designed for community and junior college graduates and students of four-year colleges who desire an accelerated military science and designated enriched courses. In addition to the core curriculum, students must complete one course in the area of written communications, human behavior, and military history. Students are also recommended to take a course in management and national security studies.

A paid six-week Advanced Camp is held during the summer between the junior and senior years. This camp permits students to put into practice the principles and theories acquired in the classroom. All students in the Advanced Course receive uniforms, transportation, salary, transportation, meals and lodging will be furnished. No military obligation is incurred as a result of Basic Camp attendance.
Cross Enrollment
Students can participate in Army ROTC while attending area community and junior colleges or other four-year area colleges. For further information concerning cross enrollment, contact the Department of Military Science.

Applying for the Program
SDSU students enroll in military science courses by signing up during registration in the same manner as for other University classes. There is no advance application needed for the freshman or sophomore classes. The freshman classes consist of one-unit courses, Military Science 100A and 100B. The sophomore classes consist of Military Science 201 and 202. The Advanced Course classes consist of Military Science 301 and 302 during the first year and Military Science 410 and 411 during the second year. Students need to contact the Department of Military Science to enroll in the Army ROTC program and to receive information on lab schedules and activities. Students enrolling in other area colleges and universities need to contact the Department of Military Science at SDSU for curriculum requirements and application procedures.

Financial Assistance
All students have the opportunity to compete for three- and two-year scholarships. These scholarships cover all tuition, laboratory fees, textbooks, supplies and a $100 monthly subsistence allowance during the school year. These scholarships are competitive nationwide and the initial processing is accomplished by the Military Science department during the spring semester each year. In addition, two-year scholarships are available at the Basic Camp at Fort Knox, Kentucky. Students enrolling in other area colleges and universities need to contact the Department of Military Science at SDSU for curriculum requirements and application procedures.

Military Science Minor
The minor in military science consists of a minimum of 15 units to include Military Science 301, 302, 410, 411; and Military Science 499 or Sociology 499. (3 units.)

LOWER DIVISION COURSES

100A-100B. Introduction to the U.S. Army (2-2) I, II
Semester I: Structure, organization, and missions of the U.S. Army. Preparation and development for officer status. Semester II: Officer leadership, development, and functions. Emphasizing command responsibilities for a basic foundation of military fundamentals.

201. Civil-Military Relations (2) I
Theories of civil-military relations as developed by Huntington and Perlmutter; analysis of governmental and military sector interrelationship, focus of power and manner of control.

202. Psychological Theories of Military Leadership (2) II
Psychological theories, models and concepts as applied in the practice of military leadership. Style and role of small unit military leader in applying principles of motivation, organizational behavior, participative group management in solving military leadership problems. Simulations, case studies and diagnostic tests.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Skills of Military Leadership (3) I
Techniques and skills required of military leaders. Military methods of instruction, review of essential map reading skills and case studies of military leadership techniques.

302. Theory and Dynamics of the Military Organization (3) II
Prerequisite: Military Science 301.
Current tactical doctrine and military techniques of planning and coordination required to apply doctrine to small unit operations.
Music
In the College of Professional Studies and Fine Arts
The Department of Music is a Member of the National Association of Schools of Music.

Faculty
Emeritus: Anderson, Byth, Fye, Forman, Hurst, Lambert, Loomis, Moore, Rohlfeisch, Rost.
Smith, D., Smith, J.D., Snider, Springfield.
Chair: Biggs
Logan, Meadows, Mitchell, Mirzak, O'Donnell, Shelden, Ward-Steinman, D., Yates
Associate Professors: Dutton, Hill
Assistant Professors: Fillingstad, Kolar, Liebowitz, Stauffer
Lecturers: Bouterse, Erb, Friedricks, Peterman, Ward-Steinman, S., Warman

Applied Music Instruction
Piano: Bruderer, Fillingstad, Kolar
Harpsichord: Paul
Organ: Fall, Spellman
Flute: Bursill-Hall, Reynolds
Oboe: Michel
Clarinet: Liebowitz
Saxophone: Rotter
French Horn: Cable
Trumpet: Logan, Siebert

Offered by the Department
Master of Arts degree in Music.
Master of Music degree
Bachelor in music with the A.B. degree in applied arts and sciences.
Bachelor in music degree in applied arts and sciences.
Teaching major in music for the single subject teaching credential.
Minor in music.

Music Curricula
The music curricula are designed to fulfill the needs of all students: (1) those who have professional ambitions in music performance, or seek a foundation for graduate study leading to college or university teaching; (2) those who are preparing for one of the several state teaching credentials; (3) those whose major professional interest is in another department, and are seeking musical study as a minor; and (4) those who are interested in music as an elective study area for the enrichment of their cultural background.

General Basic Requirements
General basic requirements for the B.M. degree in applied arts and sciences, the B.A. degree with a major in music in applied arts and sciences or in teacher education are as follows:

1. All new students and transfer students who wish to enroll as music majors or minors are given placement examinations in music theory and auditions on their major instrument and piano. On the basis of these exams and auditions, recommendations of specific courses will be made by the department adviser. The specific courses are Music 158A-158B, 259A-259B, 358A-358B; Music 250 and 450 with the appropriate letter suffix; and Music 110A, 110B, 110C, 110D.

2. Each semester of private instruction concludes with a solo performance before a faculty jury. The jury grade accounts for one-third of the final semester grade; the teacher's grade accounts for the remaining two-thirds.

3. To qualify for upper division study, music majors must pass a Junior Level Examination. This is a more intensive solo performance before a faculty jury at the close of the fourth semester of study in Music 250. If it is not passed, a grade of “I” (Incomplete) is recorded. This must be resolved before enrollment in upper division study is permitted.

4. The Junior Level Aural Skills Examination is a requirement for graduation. It is given at the end of each semester and may be retaken until passed. The exam includes sight-singing, melodic and harmonic dictation, error detection, chromatic and modern harmony. A final grade of C (minimum) is required in each semester of the CMP courses in order to advance to the next higher course.

5. Students are encouraged to participate in at least one performing group each semester.

6. Attendance at and performance in recitals is a requirement of all music majors as set forth in the department recital regulations. Refer to Music Department Student Handbook for detailed information.

Music Major
With the A.B. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Preparation for the Major. Music 110A-110B, 110C-110D may be taken in full or in part by examination.

110A, four units selected from courses numbered 320A through 335, 158A-158B; four units selected from courses numbered 170 through 189; four units of Music 250, 259A-259B, 293-299 units.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 28 to 32 upper division units to include Music 358A-358B, five units selected from courses numbered 369 through 389; one unit selected from Music 449A or 449B.

Music Major
With the B.M. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Preparation for the Major. Music 110A-110B, 110C-110D may be taken in full or in part by examination.

158A-158B, 259A-259B; six units selected from courses numbered 170 through 189; four to eight units in Music 250.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. Thirty-eight to forty-two upper division units to include Music 358A-358B, four units selected from courses numbered 369 through 389; one unit selected from Music 449A or 449B.

Music History and Literature. Ten units to include Music 367, 497, and seven units must include one of the following:

(a) Performance. Ten units to include Music 367, 497, and seven units to be selected with the aid of the departmental adviser. (Pianists, vocalists, and string performers must include the aid of the departmental adviser. (Pianists, vocalists, and string performers must include the aid of the departmental adviser.

(b) Music History and Literature. Ten units to include Music 499 and six units of courses to be selected with the aid of the departmental adviser from related fields such as history, etc.

During the senior year, the student emphasizing music history and literature is required to organize, prepare program notes, and present two recitals consisting of recorded or “live” music.
performances. Each will deal with representative works of a certain period, composers, or styles to be compared. Such students must pass an audition of the lecture and the music to be performed no less than one month in advance of the recitals.

(c) Composition. Ten units to include two units of Music 207, two units of Music 497, two units of Music 507, and four units selected with the aid of the departmental adviser.

The emphasis may not be formalized until completion of Music 158B, or waiver by examination.

The student emphasizing composition is required to present a concert of his compositions during the senior year and present the scores of works to be performed to the music faculty no less than one month in advance of the performance.

Foreign Language Requirement. Eight to twelve units (or equivalent knowledge demonstrated in a test of reading knowledge administered by the foreign language department concerned in consultation with the Department of Music) as follows:

1. Vocalists—one semester each of French, German, and Italian.
2. Music History and Literature students—three semesters of one foreign language chosen from French, German, or Italian.
3. All others—two semesters of one foreign language chosen from French, German, or Italian (except that classical guitar students may substitute Spanish).

Music Major

For the Single Subject Teaching Credential

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education. Students in teacher education may use this major for the B.A. degree in applied arts and sciences by completing additional departmental requirements in recital attendance and performance.

Admission to teacher education is required prior to graduation with this major.

Preparation for the Major.

Music 110A-110B, 110C-110D (may be waived in full or in part by examination); 115A; four units selected from courses numbered 320A through 335; 158A-158B; four units selected from courses numbered 170 through 189; 246; four units of Music 250, 258A-258B (32-36 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 33 upper division units to include Music 355, 356A-356B; four units selected from courses numbered 369 through 389, 446A-446B, 448A or 449A, 449B; four units of Music 250, 552A-552B.

Electives in Music

The Music Department offers certain courses for students who are interested in music as an elective study area for the enrichment of their cultural background. Courses particularly suited for these needs are Music 151 and 351 and the music courses numbered 170 to 189 and from 369 to 389. Some students will be musically prepared to elect courses which may or may not be included in this group. Enrollment by qualified students who wish to elect these courses is encouraged.

Performance Studies for Credit

Credit may be allowed for performance studies under the following conditions:

1. Properly enrolled music majors may enroll for performance studies with resident faculty without an additional fee.

2. Properly enrolled music majors who elect to study off-campus with a teacher approved by the Department of Music may do so and may apply for credit by examination. Application for such credit must be made each semester in the Office of the Registrar within the official time limits for filing a change of program. The examination will consist of the regular jury examination required of all music majors at the conclusion of each semester.

3. Students may under no circumstances change teachers in the middle of a semester without first securing the permission of the chair of the Department of Music.

4. Prior to the start of performance studies at San Diego State University, students are required to take a preliminary audition conducted by Department of Music faculty which will indicate status at the beginning of their studies.

5. Students who have dropped out of school or have stopped taking performance studies for credit for one semester or more, upon resumption of that instruction for credit are required to present another preliminary audition.

6. At the end of each semester, the Department of Music will sponsor a jury examination to satisfy itself that its standards have been met.

7. Students enrolled in performance studies must be concurrently enrolled in the Comprehensive Musicianship program until such time as the CM requirements are fulfilled.

Music Minor

To be admitted to the minor program, the student must demonstrate vocal or instrumental performing ability and take the placement examination in comprehensive musicianship.

The minor in music consists of 24 units in music to include Music 110A-110B, 158A-158B, 258A-258B, and six units of upper division electives selected in consultation with the departmental adviser.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

101. Recitals (1) I, II Cr/NC

Preparation for individual solo performances and attendance at a minimum of 12 concerts or recitals in accordance with departmental requirements. Maximum credit four units.

102. Basic Musicianship for Non-Music Majors (3) I, II

Two lectures and two hours of activity.

Rudimentary music theory involving the elements of music: melody, rhythm, and harmony. Development of an understanding of these elements through instrumental and vocal experiences which include the use of unison and part-singing, the keyboard, and simple melodic and harmonic instruments.

103A. Basic Aural Skills (1) I, II

Three hours of laboratory.

Prerequisite: Music 103A.

Continued emphasis on ear-training and sight-singing. May be taken as preparation to enter Music 158A.

103B. Aural Skills (1) I, II

Three hours of laboratory.

Prerequisite: Music 103A.

Continued emphasis on ear-training and sight-singing. May be taken as review for the Junior Level Aural Skills Examination.

110A-110B. Piano—Elementary Class Instruction (1-1) I, II

Two hours.

Prerequisite: Music 110A is prerequisite to 110B.

Basic keyboard experience through study of music reading, notation, scales, chords, and sight-reading covering a repertoire of beginning and intermediate songs and piano literature, with emphasis on keyboard harmony. Required of music majors and minors and credential candidates for teaching in the kindergarten-primary level.

110C-110D. Piano—Elementary Class Instruction (1-1) I, II

Two hours.

Prerequisite: Music 110C is prerequisite to 110D.

Continuation of Music 110A-110B.

115A. Voice—Elementary Class Instruction (1) I, II

Two hours.

Prerequisite: Music 115A.

Observation of individual or group lessons; critiques and discussion; performance in class.
140. Guitar—Elementary Class Instruction (1) I, II
Two hours.
Open to all persons interested in fundamentals of guitar and elementary music skills.
151. Introduction to Music (3) I, II
Practical approach to hearing music with understanding and pleasure, through study of representative compositions of various styles and performance media, great musicians and their art. Music correlated with other arts through lectures, recordings, concerts. Closed to music majors and minors.
153. Opera Theatre (2) I, II
Six or more hours per week.
The interpretation and characterization of light and grand opera. Specific work in coordination of operatic ensemble. Maximum credit eight units.
158A-158B. Comprehensive Musicianship (3-3) I, II
Two lectures and two hours of activity.
Prerequisite: Music 158A is prerequisite to 158B.
Direct analysis of musical styles and forms as they have evolved historically; composition, improvisation, performance, and instrumentation; sight-singing, dictation, harmony. Parallel developments in related arts; comparisons with non-Western musical systems.
166. Elements of Jazz I (2) I, II
Prerequisite: Music 158B.
Jazz harmony. Building a basic repertoire. Harmonic analysis of jazz standards.
169. Recorder: Elementary Instruction (1) I, II
Two hours.
Learning music fundamentals and music reading through recorder playing of soprano and alto instruments. Progresses from simple one note exercises through familiar folk songs into sight reading new material. Rhythm and intonation given special emphasis.

**Performance Organization Courses (Music 170 through 199)**

The performance organization courses are devoted to the study in detail and the public performance of a wide range of representative literature for each type of ensemble and designed to provide students with practical experience in rehearsal techniques.

170. Chamber Music (1) I, II
Three hours. Four hours for opera.
Prerequisite: Consent of instructor.
Sections for string, woodwind, brass, piano, vocal, and mixed ensemble groups. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

175. Marching Band (1) I
Concurrent registration in Music 175 and 176 required. Combined activity, six hours.
Prerequisite: Consent of instructor.
Maximum credit two units.

176. Symphonic Band (1) I, II
Semester I: Concurrent registration in Music 175 and 176 required. Combined activity, six hours. Semester II: Activity, five hours.
Prerequisite: Consent of instructor.
Maximum credit four units.

177. Wind Ensemble (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Maximum credit four units.

180. Symphony Orchestra (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Maximum credit four units.

185. Concert Choir (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Maximum credit four units.

188. University Chorus (1) I, II
Three hours.
Open to all persons interested in performing oratorio, cantata, opera, and the extended choral works. No entrance auditions are required. Maximum credit four units.

189. Jazz Ensemble (1) I, II
Three hours.
Prerequisite: Consent of instructor.
Maximum credit four units.

207. Composition Laboratory (1) I
Three hours of laboratory.
Prerequisite: Consent of instructor.
Original writing in different homophonic and polyphonic forms for various media. Maximum credit two units.

246. Practicum in Music (3) II
Two lectures and two hours of activity.
Materials and techniques used in music instruction at the elementary and secondary school level, including instrumental, vocal, and general music, with field observation. (Formerly numbered Music 246A-246B.)

250. Performance Studies (1-2) I, II
Prerequisite: Open only to music majors. Audition and approval by departmental faculty.
Fifteen one-half hour private lessons or thirty one-hour group sessions for one unit. Fifteen one-hour private lessons for two units.
Studies in technical, stylistic, and aesthetic elements of artistic performance. Candidates for the B.M. degree with Performance emphasis enroll for two units of credit per semester. Candidates for the A.B. degree and for the B.M. degree in composition and in music history and literature enroll for one unit of credit per semester. For conditions under which credit is given, see Performance Studies for Credit in the section of the music major. Maximum credit for Music 250 is eight units.

A. Piano
B. Harpsichord
C. Organ
D. Voice
E. Flute
F. Oboe
G. Clarinet
H. Saxophone
I. Medieval or Renaissance Instruments
J. Bassoon
K. French Horn
L. Trumpet
M. Trombone
N. Baritone Horn
O. Tuba
P. Percussion
Q. Violin
R. Viola
S. Cello
T. Contrabass
U. Double Bass
V. Classical Guitar
W. Classical Accordion
X. Composition
Y. Non-Western Instruments
Z. Musical Instruments

258A-258B. Comprehensive Musicianship (5-5) I, II
Four lectures and two hours of activity.
Prerequisite: Music 158B. Music 258A is prerequisite to 258B.
Continuation of Music 158A and 158B. Late 19th and 20th century history and literature. Counterpoint and texture in Medieval and Renaissance styles.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

**UPPER DIVISION COURSES (Intended for Undergraduates)**

301. Recitals (1) I, II Cr/NC
Preparation for individual solo performances and attendance at a minimum of 12 concerts or recitals in accordance with department requirements. Maximum credit four units.

310. Electronic Music (2)
One lecture and three hours of laboratory.
Prerequisite: Consent of instructor.
Principles and techniques of electronic sound synthesis, musique concrete, and multimedia application in live performance.
**Jazz, electronic music. Individual projects in instrumentation, composition, analysis, Western musics.**

**308A-308B. Comprehensives Musicanship (5-5) I, II**

Four lectures and two hours of activity. 
Prerequisite: Music 256B. Music 358A is prerequisite to 358B. 
Continuation of Music 258A-258B. 
Counterpoint from 18th to 20th century. 
Serial techniques, jazz, electronic music. 
Individual projects in instrumentation, composition, analysis, non-Western musics.

**335. Percussion-Elementary Class Instruction (1) I, II**

Fundamentals of percussion through acquisition of elementary skills. 
Two hours. 
Prerequisite: Music 102 or 158B. 
Open to students with credit in Music 140.

**330. Brass-Elementary Class Instruction (1) I, II**

Fundamentals of the clarinet and flute by lecture and acquisition of elementary skills. 
Two hours. 
Fundamentals of oboe and bassoon by lecture and acquisition of elementary skills. 
Prerequisite: Music 320A.

**325A. Clarinet and Flute-Elementary Class Instruction (1) I, II**

Analytical study of music suitable for children of all ages. 
Background information, musical structure and functions of this music in the lives of children are included. 
Two hours. 
Prerequisite: Music 166. 
Melodic, rhythmic, and harmonic analysis of jazz solos and compositions.

**343. Music Literature for Children (3) I, II**

Offered at Imperial Valley Campus only. 
Prerequisite: Music 102 or 158B. 
Analytical study of music suitable for children of all ages. 
Background information, musical structure and functions of this music in the lives of children are included. 
Two hours.

**345. Music Literature for Children (3) I, II**

Offered at Imperial Valley Campus only. 
Prerequisite: Music 102 or 158B. 
Analytical study of music suitable for children of all ages. 
Background information, musical structure and functions of this music in the lives of children are included. 
Two hours.

**349. Collegium Musicum (1) I, II**

Prerequisite: Consent of instructor. 
Performance of medieval and renaissance music on reproductions of historical instruments. 
Maximum credit four units. (Formerly numbered Music 190 and 390.)

**351. Great Music (3) I, II**

Significant music literature of the various historical periods with emphasis on the stylistic characteristics through directed listening. 
A. Musical Masterpieces of the 18th and 19th Centuries. 
B. Musical Masterpieces of the 20th Century. 
C. Masterpieces of Grand Opera. 
D. Jazz History and Appreciation. 
E. Music of Africa and the Americas. 
F. Music of Asia and the Pacific.

**353. Opera Theatre (2) I, II**

Six or more hours per week. 
Characterization and characterization of light and grand opera. 
Specific work in coordination of opera ensemble. 
Maximum credit: eight units.

**355. Ethnic Musics (3)**

World music outside the European art tradition with emphasis on the musics of India, Africa, East Asia, and Indonesia.

**358A-358B. Comprehensives Musicanship (5-5) I, II**

Four lectures and two hours of activity. 
Prerequisite: Music 256B. Music 358A is prerequisite to 358B. 
Continuation of Music 258A-258B. 
Counterpoint from 18th to 20th century. 
Serial techniques, jazz, electronic music. 
Individual projects in instrumentation, composition, analysis, non-Western musics.

**364A-364B. History of Jazz (2-2) I, II**

Jazz style and forms as they have evolved historically. 
Classroom playing experience in jazz styles as a part of study. 
Designed for music majors.

**366. Elements of Jazz II (3) I, II**

Prerequisite: Music 166. 
Techniques and materials of jazz. 
Melodic, rhythmic, and harmonic analysis of jazz solos and compositions.

**367. Junior Recital (1) I, II**

Prerequisite: Junior standing in music. 
Selection of literature for recital program not to exceed 15 minutes in length; theoretical analysis and historical study of scores chosen; preparation and public performance; and examination before committee of music department faculty.

**369. Symphonic Band (1) I, II**

Section for string, woodwind, brass, piano, vocal, and mixed ensemble groups. 
May be repeated with new content. 
See Class Schedule for specific content. 
Maximum credit four units.

**370. Chamber Music (1) I, II**

Prerequisite: Consent of instructor. 
Section for string, woodwind, brass, piano, vocal, and mixed ensemble groups. 
May be repeated with new content. 
See Class Schedule for specific content. 
Maximum credit four units.

**375. Marching Band (1) I, II**

Prerequisite: Consent of instructor. 
Section for string, woodwind, brass, piano, vocal, and mixed ensemble groups. 
May be repeated with new content. 
See Class Schedule for specific content. 
Maximum credit four units.

**377. Wind Ensemble (1) I, II**

Prerequisite: Consent of instructor. 
Maximum credit four units.

**380. Symphony Orchestra (1) I, II**

Prerequisite: Consent of instructor. 
Maximum credit four units.

**384. Jazz Ensemble (1) I, II**

Prerequisite: Consent of instructor. 
Maximum credit four units.
### UPPer Division Courses (Also Acceptable for Advanced Degrees)

<table>
<thead>
<tr>
<th>Course Code</th>

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>440</td>
<td>Intermediate Guitar</td>
<td>I, II</td>
<td>Two hours. Prerequisites: Music 102 and 140. Music reading, theory of chord structure, chord progressions, and playing styles of classical, jazz, folk, and popular music.</td>
</tr>
<tr>
<td>448</td>
<td>Practicum in Music</td>
<td>I, II</td>
<td>One lecture and two hours of activity. Advanced materials and techniques used in instruction with field observation. A. Choral Music B. Instrumental Music</td>
</tr>
<tr>
<td>448A-448B</td>
<td>Choral Conducting</td>
<td>(1-1) I, II</td>
<td>Three hours. Prerequisite: Music 258B. Music 448A is prerequisite to 448B. Elements of baton technique and development of basic skills common to choral conducting. Representative literature and techniques for choral organizations will be studied and performed. Practical experience in typical conducting situations will be emphasized in various grade levels.</td>
</tr>
<tr>
<td>449A-449B</td>
<td>Instrumental Conducting</td>
<td>(1-1) I, II</td>
<td>Three hours. Prerequisite: Music 258B. Music 449A is prerequisite to 449B. Orchestra and band scores of graduated levels of advancement. The class will prepare and conduct instrumental works in public performance.</td>
</tr>
<tr>
<td>450</td>
<td>Performance Studies</td>
<td>(1-2) I, II</td>
<td>Prerequisite: Open only to music majors. Audition and approval by departmental faculty. Fifteen one-half hour private lessons or thirty-one-hour group sessions for one unit; fifteen one-half hour private lessons for two units. Studies in technical, stylistic and aesthetic elements of artistic performance. Candidates for the B.M. degree with Performance emphasis enroll for two units of credit per semester. Candidates for the A.B. degree and for the B.M. degree in composition and in music history and literature enroll for one unit of credit per semester. For conditions under which credit is given, see Performance Studies for Credit in the section on the music major. Maximum credit for Music 450 is eight units. A. Piano B. Harpsichord C. Organ D. Voice E. Flute F. Oboe G. Clarinet H. Saxophone I. Medieval or Renais. Instruments</td>
</tr>
<tr>
<td>458</td>
<td>Comprehensive Musicianship Pedagogy</td>
<td>(3)</td>
<td>One lecture and four hours of activity. Personalized System of Instruction (PSI) or the Keller Plan as used in a music theory class. Experience as a tutor-proctor in Music 158A-158B, Comprehensive Musicianship, PSI section.</td>
</tr>
<tr>
<td>461</td>
<td>Rhythmic Skills</td>
<td>(1) I, II</td>
<td>Two hours of activity. Systematic refinement of rhythmic skills based mainly on exercises and techniques developed in teaching classical music of India. Multiple patterns, cross rhythms, and a variety of meters through spoken syllables and hand clapping.</td>
</tr>
<tr>
<td>465</td>
<td>Elements of Jazz III</td>
<td>(2) I, II</td>
<td>Prerequisite: Music 366. Style analysis of jazz solos. Techniques of improvisation. Analysis of repertoire. Not open to students with credit in Music 566.</td>
</tr>
<tr>
<td>469</td>
<td>Stylistic Interpretation</td>
<td>(2) I, II</td>
<td>One lecture and two hours of activity. Prerequisite: Music 369. Individual and group projects in period musical styles. Application of original treatises and manuscripts to performance on historical and modern instruments. May be repeated with new content. Maximum credit six units.</td>
</tr>
</tbody>
</table>

#### 475. Band Pageantry | (2) II |
- One lecture and two hours of activity.
- Prerequisite: At least one semester of college marching band.
- Marching band drill styles and techniques. Practical experience in marching band techniques.

#### 496. Experimental Topics | (1-4) |
- Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

#### 497. Senior Research | (2) I, II |
- Prerequisite: Senior standing in music.
- Selection of literature for recital program not to exceed one hour in length; theoretical analysis and historical study of scores chosen; preparation and public performance; and examination before committee of music department faculty.

#### 499. Special Study | (1-3) I, II |
- Prerequisite: Consent of the department chair.
- Individual study. Maximum credit six units.

#### UPPER DIVISION COURSES

<tr>
<td>542</td>
<td>Performance Studies Laboratory</td>
<td>(2) I, II</td>
<td>One lecture and three hours of laboratory. Prerequisite: Music 541A is prerequisite to 542A and 541B is prerequisite to 542B. Practical experience in the teaching of individual or group lessons. A. Piano B. Strings C. Voice</td>
</tr>
<tr>
<td>552A-552B</td>
<td>History of Music</td>
<td>(3-3) I, II</td>
<td>Prerequisite: Music 358B. Music 552A is prerequisite to 552B. The chronological development of musical art and forms from the Middle Ages to the present. Analytical score study and assigned recordings. Familiarity with musicological resources through individual assignments.</td>
</tr>
<tr>
<td>553</td>
<td>Proseminar in Ethnomusicology</td>
<td>(3)</td>
<td>Prerequisites: Music 258B. Ethnomusicological theory and methodology, including history of the field and its relation to such disciplines as anthropology and linguistics. Areas of concentration include organology, field work, notation, transcription and analysis.</td>
</tr>
</tbody>
</table>
554. Music Literature (2) I, II
   Prerequisite: Music 298B.
   A concentrated study of the literature in the several areas listed. Analysis by use of scores and of recordings, when available.
   A. Chamber Music Literature – (See Class Schedule for specific content.)
   B. Symphonic Literature – (See Class Schedule for specific content.)
   C. Keyboard Literature
   D. Song Literature

561. Area Studies: Ethnomusicology (3) I, II
   Prerequisites: Music 351E and 351F.
   A specialized study of selected traditional genres of world music, social and environmental context in which they exist. Relationship of music, dance, and theater.
   May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

562. World Music in Context (2)
   One lecture and two hours of activity.
   Prerequisites: Music 351E or 351F and consent of instructor.
   Practical experience in the performance of specialized traditional genres of world music, social and environmental context in which they exist. Relationship of music, dance, and theater.
   May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

566A-566B. Jazz Arranging and Composition (2-2) I, II
   Prerequisite: Music 466.
   Analysis of jazz compositions and arrangements; arranging and composing for large and small jazz ensembles.

568. Advanced Collegium Muslicum (1) I, II
   Prerequisite: Music 360.
   Preparation and performance of representative works by a specific medieval or renaissance composer on historical instruments.
   May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

570. Advanced Chamber Music (1) I, II
   Three hours.
   Prerequisite: Consent of instructor.
   Study and public performance of established repertory as well as new compositions.
   Sections for string, woodwind, brass, piano and mixed ensemble groups. May be repeated with new course content. See Class Schedule for specific content. Maximum credit four units.

580. Analogs in Music, Art, and Literature (3) I
   Prerequisite: At least one survey course in music history or appreciation, art history, or comparative literature.
   Cross-influences and correspondences in the arts from the standpoints of style, texture, rhythm, and form.

596. Special Topics in Music (1-3)
   A specialized study of selected topics from the several areas of music. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
   Refer to the Graduate Bulletin.
110A-110B. Energy in Nature with Laboratory (4-4) Three lectures and three hours of laboratory. An integrated introduction to the natural sciences at the university level. Selected topics from physics, chemistry and biology focused on the themes of energy and the relationships between processes and structures in nature. Weekly laboratory sessions include demonstrations, discussions, problem exercises and experiments.

210A-210B. Structure and Concepts of Physical Science (4-4) I, II Three lectures and three hours of laboratory. Emphasis on processes of inquiry which are characteristic of physical science. Approach is suited for people interested in science instruction at the elementary level. Not open to students with credit or concurrent registration in Natural Science 100 or 102.

296. Experimental Topics (1-4) Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

305. Modern Physical Science (3) I, II Prerequisite: A college-level course in the physical sciences or life sciences. Development of scientific models and allied technologies and their influence on the development of societal attitudes and public policy. Discussion of contemporary problems such as environmental degradation and energy utilization, climatic change, uses of computers, and armaments.

311. Readings in Physical Science (3) I, II Prerequisite: Upper division standing and completion of lower division science requirement. Reading of selected materials with informal class discussion of topics. Emphasis on the historical background, the philosophical implications, and the impact of science on thought and culture.

314. Personalities in Science (1) I, II Prerequisite: Consent of instructor. Selected topics in classical and modern natural science. May be repeated with new content.

316. History of Science II (3) I, II Prerequisite: Completion of the General Education Foundations requirement in natural science and three units in classics history category of Foundations. Recommended: Astronomy 101 and a course in chemistry. The major developments during the 16th through 19th centuries. The scientific revolution, the rise of empiricism, the emerging role of scientific societies. Histories of particular theories in both the life sciences and physical sciences.

317. Development of Scientific Thought (3) I, II Prerequisite: Six units from astronomy, chemistry, geological sciences, natural science, or physics. Recommended: Mathematics 121. Basic scientific concepts and their historical development with emphasis on the problem of theory construction. The relationship between disciplined imagination and observational fact, as illustrated by selected case histories. Limitations of scientific inquiry.

333. Technology and Human Values (3) I, II Prerequisite: Completion of Foundations of Learning requirement in natural science. Recommended: Natural Science 100 or 102. Technologies such as solar and fusion power, lasers, computer services, transport, synthetic food and their impact on values and lifestyles of developed countries. Characteristics of post-industrial society, future shock and biological revolution. Curve extrapolation and simulation by games and computer.

351. Solar Energy (3) I, II Prerequisite: Completion of a lower division course in the physical sciences and mathematics competency requirement or Academic Skills 102. Principles and practical aspects of solar energy including radiation transfer, optics, solar spectrum, heat transfer and storage, active solar and passive solar devices and systems, and design of passive solar buildings and shelters.

400. Seminar (1-3) I, II A directed study of a topic to be chosen by instructor and announced in Class Schedule. Maximum credit six units.

412A-412B. Processes and Inquiry in the Natural Sciences (4-4-4) I, II Three lectures and two hours of activity. Prerequisite: Completion of general education requirements in natural science. Investigation of processes of inquiry and rational thinking skills characteristic of the sciences. A. Physical Sciences B. Earth Sciences (mostly chemistry and astronomy) C. Life Sciences

430. Interpretation of Quantum Mechanics (3) I, II Prerequisite: Completion of a course in chemistry or Natural Science 102. Theories of chemical evolution with emphasis on multidisciplinary aspects involving geology, geochemistry, cosmochemistry and molecular biology.

460. Topics in Natural Science (1-4) I, II Prerequisite: Consent of instructor. Selected topics in classical and modern natural science. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

499. Special Study (1-3) I, II Prerequisite: Consent of instructor. Individual study or laboratory work on a special problem in physical science selected by the student. Maximum credit six units.

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

500. Seminar in Curriculum and Instruction in Science (3) Prerequisite: Teacher Education 453. Factors directing the changing science curriculum in secondary schools; recent trends and changes in current science curriculum in the teaching of science in secondary schools and in science curriculum development; current practices in science teaching in secondary schools.

596. Special Topics in Natural Science (1-4) I, II, S Prerequisite: Minimum ten units of natural science. Selected topics in natural science for preservice and inservice secondary teachers and candidates for the M.A. in Education. May be repeated with consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES Refer to the Graduate Bulletin.
Naval Science
In the College of Professional Studies and Fine Arts

Faculty
Chair: O'Keefe
Professor: O'Keefe
Assistant Professors: Berg, Cuddy, Dobson, Meader, Schartmann, Stier, Tollefson

Offered by the Department
NROTC curriculum.

NROTC Curriculum
The Department of Naval Science offers two programs, a scholarship and a nonscholarship program leading to a commission in the United States Navy or United States Marine Corps. Scholarship Program students receive tuition, fees, books and a stipend of $100 per month while nonscholarship or College Program students receive a $100 per month stipend during their final two years of college. All students receive instruction in essential naval science subjects which, in conjunction with a baccalaureate degree in the field of their major, qualifies them for commissions as Ensign, United States Navy or Second Lieutenant, United States Marine Corps.

Naval science courses are open to all students having an interest in history, national security, foreign policy, organizational leadership, management and the military services. Enrollment in the Naval Reserve Officer Training Corps (NROTC) is not a requirement for taking naval science courses.

LOWER DIVISION COURSES

101. Introduction to Naval Science (2)
Structure, principles, and practices; lines of command and control; logistical organizations, functions and services of major components of the Navy and Marine Corps; shipboard organization.

102. Naval Ships Systems I (3)
Types, structure, and purpose of naval ships; compartmentation, propulsion systems, auxiliary power systems, interior communications, ship control, ship design and stability.

201. Naval Ships Systems II (3)
Theory and principles of operation of naval weapons systems including types of weapons and control systems, capabilities and limitations, theory of target acquisition, identification and tracking, trajectory principles, and the basics of naval ordnance.

202. Sea Power and Maritime Affairs (2)
Prerequisite: Naval Science 201.
Sea power and maritime affairs; general concept of sea power (including Merchant Marine); role of naval warfare components used to support the Navy's mission; sea power as an instrument of national policy; comparative study of U.S. and Soviet strategies.

UPPER DIVISION COURSES
(Intended for Undergraduates)

301. Navigation and Naval Operations I (3)
Prerequisite: Advanced standing.
Theory, principles and procedures of ship navigation. Topics include mathematical analysis, spherical triangulation, practical work involving sight reduction, sextants, publications, required logs/reports, piloting, celestial and electronic navigation techniques.

302. Navigation and Naval Operations II (3)
Prerequisite: Naval Science 301.
Principles and procedures of ship movement and employment including tactical formations and dispositions, relative motion, communications, sonar-radar search and screening theory, rules of the road, lights, signals and navigational aids.

310. Evolution of Military Conflict (3)
Prerequisite: Advanced standing.
Forms of warfare through history to formulate the sense of historical continuity in the evolution of warfare, to develop a basic sense of strategy and alternative military actions, and to explore impact of historical precedent on military thought and actions.

401. Naval Leadership I (3)
Prerequisite: Advanced standing.
Principles of leadership and management. Development of skills in the areas of communications, counseling, control, direction, management and leadership.

402. Naval Leadership II (2)
Prerequisite: Naval Science 401.
Human resource management, naval personnel management, material management and the administration of discipline.

410. Amphibious Operations (3)
Prerequisite: Advanced standing.
Concept of amphibious warfare, doctrinal origins, and its evolution as an element of naval policy during the twentieth century.
Nursing
In the College of Human Services
Agency Member of the National League for Nursing
Agency Member of the American Association of Colleges of Nursing
Accredited by the California Board of Registered Nursing
and by the National League for Nursing

Faculty
Emeritus: Coveny, Laibo, Moses, Nye, Thomas
Director (Acting): Flagg
Professors: Black, Salerno, Wozniak
Associate Professors: Flagg, Feitosa, Gutinno, Heiniken, Hines, Loveridge, Mechanic, Reed,
Stankev, Sweeney, Verderber
Assistant Professors: La Monica, Leslie, Moffett, Shively
Lecturers: Borgie, Bornm, Broom, Carson, Colwell, Fraser, Georges, Gilbert, Goldberger,
Good, Holm, Jordan, Lischke, Meador, Mitchell, Palomo, Rapps, Schreiber, Small-Capistrano,
Smith, Wallace

Offered by the School of Nursing
Master of Science degree in nursing.
Major in nursing with the B.S. degree in applied arts and sciences.
Health services credential.

Standards for Admission
Admission to the University
In addition to the requirements for admission to the University as listed in the section of this
catalog on "Graduation Requirements," the following criteria must be met for admission to the
University as a nursing major.
1. High School Course Requirements. The following courses are required:
   a. One year English composition at junior/senior level.
   b. One year advanced algebra.
   c. One year chemistry with a laboratory.
   d. One year biology.

2. Transfer Students. Transfer students will be required to demonstrate the four high school
course requirements or introductory college or university course work in the same
disciplines.

First-time freshman and transfer student applicants requesting a nursing major will be
ranked and evaluated on the basis of performance in required high school courses or introduc-
tory college or university course work in the same disciplines. Points will be granted each
applicant up to a maximum of 16 with grades of A (4) or B (3). Those applicants who select
nursing as a major and meet the high school requirements will be given priority for enrollment
and advisement as nursing majors. First-time freshman and transfer student applicants
accepted as nursing majors are subject to further screening to determine their eligibility to be
admitted into the professional course work.

Admission to the Professional Program in Nursing
1. Declaration of Major. Only students who are declared nursing majors at SDSU will have
their application considered.

2. Prerequisite Courses. The following courses and course grades are required for admission
to the nursing program:
   a. Course grade requirement (C or better) in each required university course:
      Biology 210
      Chemistry 130
      Psychology 101
      Sociology 101
   b. Course grade requirement (B or better) in each of these required university courses:
      Biology 150 and 261

3. Minimum Grade Point Average. Applicants must complete the six prerequisite courses with
a minimum overall grade point average of 2.5. (NOTE: The minimum grade point average of
the last three nursing classes admitted to Nursing has been 3.2 or better.)

4. Writing Competency Requirement. All students must demonstrate their writing compe-
tence on one of the following tests:
   a. By a score of 47 on the Test of Standard Written English of the Scholastic Aptitude Test
   b. By a score of 20 on the American College Tests
   c. By a score of 153 on the English Placement Test

Students who have not achieved the minimum score on the writing competency test must
register in Academic Skills 110 and/or 150 prior to admission to the nursing program.

5. Additional Point System. Applicants requesting admission to the professional course work
will be ranked and evaluated on the basis of a point system. A maximum of 94 points can be
earned in meeting the prerequisite courses, writing competency, recognition of outstanding
achievement, health care experience and bilingual ability requirements, and applicants will
be ranked in accordance with points earned. For specific additional point system allocation,
consult the School of Nursing office.

6. Health Requirement. To meet the specific health requirements, a medical examination and
immunizations must be completed. The medical examination is in addition to the medical
required for admission to the University. For specific information concerning medical exami-
nation and immunization series, consult the School of Nursing office.

7. Academic Credit Through Examination. Academic credit by examination may be
obtained by those whose prior education and/or experience provides the knowledge and
skills required to meet the objectives of one or more courses. Students who believe they may
be eligible for credit by examination should contact the School of Nursing office. For
appointment for special advising prior to submitting their application for admission.
Consult the "Academic Credit Through Examination" in the "General Regulations" section of this catalo.

8. Formal Application. Application to the nursing program must be made during the semester
that the student is completing prerequisite non-nursing courses (22 units). Obtain applica-
tion form at the College of Human Services or School of Nursing. Consult School of Nursing
for deadline date.

Special Instructions
1. Change of Major. Requests for change of major during the 1984-85 academic year will be
granted only on a space available basis. Students must be admitted to the University as
declared nursing majors.

2. Full-Time Study. Students enrolled in the nursing program are required to carry a full-time
study load. Students with extenuating circumstances may petition the Student Affairs
Committee for special consideration.

3. Liability Insurance and Transportation. Students enrolled in the nursing program are
required to provide their own professional liability insurance and transportation to off-
campus clinical agencies and for home visits.

4. Impacted Program. The Nursing Major is designated as an impacted program and specific
requirements related to admissions are imposed. Consult "Locally and Statewide Impacted
Regulations" in the "Admissions" section of this catalog for regulations.

5. Honors Program. To be eligible for the honors program, students must complete the six
preprerequisite courses with a minimum overall grade point average of 2.5. The honors
program is available to students in the senior level who meet the specific additional point system allocation,
consult the School of Nursing office.

6. Health Insurance. All students are advised to obtain health insurance coverage. Students
are responsible for health care costs when services are rendered by a health care agency.

### Nursing Major

**With the B.S. Degree in Applied Arts and Sciences**

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.”

A minor is not required with this major.

Nursing majors are eligible to take the State Board Registered Nurse license examination after completing the specified six semesters of the prescribed curriculum. Graduates are eligible to apply for the California Certificate of Public Health Nursing.

Nursing majors are advised to consult with the School of Nursing office on a semester basis for program modification or policy revisions.

**Preparation for the Major.** Upon acceptance into the program, Nursing 202, 204, 250, 252, Chemistry 160, three units in statistics, and three units in growth and development must be successfully completed before continuation in the upper division courses required for the major.

**NOTE:** A grade of C (2.0) or better is required in all nursing or corequisite courses. No nursing course may be repeated more than once.

Progress in the nursing program is dependent upon completion of corequisite and nursing courses in the prescribed sequence as outlined below. While corequisite courses may be completed prior to the specified semester, students will not be permitted to progress to the next semester until both corequisite and nursing courses are completed at each semester.

**Upper Division Writing Requirement.** Passing the University Writing Examination or English 304W with a grade of C (2.0) or better.

**Major.** A minimum of 45 upper division units in nursing to include Nursing 306, 308, 310, 350, 354, 356, 412, 414, and 452 or 454.

+ May be satisfied by examination.

### General Education Requirements

Students will complete a minimum of 50 units in General Education to include a minimum of nine upper division units. No more than 12 units may be used for General Education credit from any one department or academic unit.

**I. Communication and Analytical Reasoning:** 12 units

A. Written Communication (6 units)
B. Oral Communication (3 units)
C. Statistics (3 units)

**II. Foundations of Learning:** 26 units

A. Natural Science (11 units)
1. Life Sciences (8 units) to be satisfied by:
   - Biology 150 (4 units)
   - Chemistry 130 (4 units)
2. Physical Sciences (3 units) to be satisfied by:
   - Chemistry 130 (3 units)
   - Chemistry 160 (3 units)
B. Social and Behavioral Sciences (6 units) to be satisfied by:
   - Psychology 101 (3 units)
   - Sociology 101 (3 units)
C. Humanities (9 units)
   - At least three units must be taken from three of the four areas 1, 2, 3, 4, from the Humanities section of the regular General Education program. Refer to General Education requirements in the Graduation Requirements section of the catalog.

**III. Explorations:** Twelve units to include Psychology 351 and at least three units from Humanities. At least nine of the twelve units must be upper division and three must be cross-cultural. Refer to General Education requirements in the Graduation Requirements section of the catalog.

### Health Services Credential

San Diego State University offers curricula leading to the Health Services Credential. This authorizes the holder to hold a School Nurse. For information concerning the credential, the student is referred to the School of Nursing Office, SS-101.

The Health Services Credential has been approved by the Commission on Teacher Credentialing.

All applicants seeking admission to the Health Services Credential must be admitted to the University and accepted as a classified postbaccalaureate student.

### Standards for Admission

1. Baccalaureate degree in nursing or related field (including community health nursing).
2. Current California Registered Nurse License.
3. Required admission and advisement required with School of Nursing Graduate Adviser.

### Program

The following program elements are required of all health services credential candidates:

- (31 units) + Nursing 412 is a prerequisite for the program.

* Prerequisites waived for students in this program.
LOWER DIVISION COURSES

202. Nursing Science I (5) I, II
Three lectures and six hours of laboratory.
Prerequisites: Admission to the nursing program. Satisfactory completion or concurrent registration in Chemistry 150 and concurrent registration in Nursing 204.
Analysis of the nursing process and the role of the professional nurse in utilization of the process. Emphasis on determining and measuring variables relevant to assessment.

204. Nurse-Client Relationships (3) I, II
Study of nurse-client communication and its application to the clinical practice of nursing. Emphasis on development of each student's ability to communicate in collaborative health team efforts and in patient care situations.

250. Nursing Science II (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Nursing 202, 204, course in growth and development; and concurrent registration in Nursing 282.
Differentiation of assessment variables and their impact on diagnosis, planning and implementation of care. Laboratory includes experiences with clients having a variety of nursing diagnoses requiring determination of differential priorities in planning and implementing care.

252. Stress in the Health Continuum (5) I, II
Three lectures and six hours of laboratory.
Prerequisite: Concurrent registration in Nursing 250.
Focus on psychological, social, and biological stressors affecting man's health status and the modalities of nursing intervention which promote health. Emphasis on developmental and situational stressors commonly experienced in modern society and on the adaptive and maladaptive behavioral and biological responses from birth through senescence.

UPPER DIVISION COURSES

(Prepared for Undergraduates)

300. Honors Course (2-2) I, II
Prerequisites: Nursing 350, 354 and 356; concurrent registration in Nursing 412 and 414.
Cumulative overall G.P.A. of 3.5.
Current issues and trends in the nursing profession will be studied in depth, with emphasis on ethics, values, philosophy, and history.

306. Nursing Science III (3) I, II
Prerequisites: Nursing 250, 252; concurrent registration in Nursing 306, 310 and Psychology 351.
Analysis of the implementation of quality client care and rights with emphasis on cultural variations. Exploration of professional, ethical, and legal aspects of nursing practice.

308. Adult Health Nursing (6) I, II
Three lectures and nine hours of laboratory.
Prerequisites: Nursing 250, 252; concurrent registration in Nursing 306, 310 and Psychology 351.
Application of theories of stressors and/or biological responses specifically affecting the adult on the health-illness continuum. Laboratory focuses on the application of the nursing process in implementing preventive, supportive, and restorative therapeutic modalities which assist the adult client to reestablish, maintain, or develop new adaptive responses.

310. Psychosocial Nursing (6) I, II
Three lectures and nine hours of laboratory.
Prerequisites: Concurrent registration in Nursing 306, 308 and Psychology 351.
Theory and clinical laboratory in the application of the nursing process to the care of clients evidencing maladaptive responses to psychosocial stressors. Presentation of theories describing and explaining maladaptive behaviors and application of nursing interventions in a variety of treatment modalities.

320. Health and the Nature of Stress (3) I, II
Interdisciplinary focus on health; psychosocial and physiological stressors affecting health status. Concepts of stress theory with attention to developmental and situational stressors commonly experienced in modern society. People's adaptive and maladaptive responses from birth through senescence and death.

335. The Professional Role (3) Irregular
Development of the nurse profession in Western Civilization. Focus on the multifaceted role of the professional nurse in modern social order.

343. Health Care of the Aged (3)
Prerequisite: Open to Nursing and non-nursing majors.
Assessment of the mental and physical health care needs of the aged client and principles of gerontology.

343L. Health Care of the Aged Laboratory (2)
Six hours of laboratory.
Prerequisites: Credit or concurrent registration in Nursing 343 and consent of instructor.
Open to students with clinical background in nursing or a related health discipline.

350. Nursing Science IV (3) I, II
Prerequisites: Nursing 306, 308 and 310; concurrent registration in Nursing 354 and 356.
Analysis of evaluation phase of nursing process as a form of documentation of qualitative care. Emphasis on development of critical elements, criteria, and conclusions in effecting objective evaluation of client care.

354. Maternal-Neonatal Nursing (6) I, II
Three lectures and nine hours of laboratory.
Prerequisites: Concurrent registration in Nursing 350 and 356.
A family-centered focus encompassing adaptive and maladaptive responses to stressors in the maternity cycle and their effect on the neonate. Clinical laboratory focuses on the application of nursing theory and process in providing preventive, supportive and restorative care to mothers and neonates.

356. Child Health Nursing (6) I, II
Three lectures and nine hours of laboratory.
Prerequisites: Concurrent registration in Nursing 350 and 356.
Stressors affecting the child on health-illness continuum. Nursing theory and laboratory focuses on application of nursing process in providing preventive, supportive and restorative therapeutic modalities in a variety of settings. Emphasis on the child in the family and the necessary intervention to promote adaptation of the child to attain, maintain or regain an optimum level of health.

412. Health Care Systems and Methods (5) I, II
Three lectures and six hours of laboratory.
Prerequisites: Nursing 350, 354 and 356; concurrent registration in Nursing 414.
Theories and functions of nursing management within health care delivery systems. Role and function of nurse managers as they manage personnel and clients.

414. Community Health Nursing (5) I, II
Three lectures and six hours of laboratory.
Prerequisite: Concurrent registration in Nursing 412.
Assessment and utilization of community health care concepts and delivery with emphasis on promotion of health, prevention of illness and individual and group teaching techniques. Consideration given to cultural aspects of health care.

452. Clinical Nursing in Complex Situations (5) I, II
Three lectures and six hours of laboratory.
Prerequisites: Nursing 412, 414; concurrent registration in Nursing 453.
Theory and selected laboratory experiences in the care of clients with complex health problems requiring intensive nursing care. Consideration will be given to student's preference for specific clinical area of concentration.

453. Basic EKG Monitoring (1) I, II
Prerequisite recommended: Concurrent registration in Nursing 452.
Basic electrophysiological and interpretive concepts necessary for identification and management of supraventricular and ventricular rhythms.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

300. Client Assessment (4)
Three lectures and three hours of laboratory.
Prerequisite: Permission of graduate adviser.

496. Special Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

GRADUATE COURSES
Refer to the Graduate Bulletin.
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

541. Oceanography (3) I, II
Prerequisites: Chemistry 200; Mathematics 121 and 122 or 150; Physics 180A or 195, 195L.
Multidisciplinary examination of the physical, chemical, biological and geological aspects of
the marine environment and the relationship of man with the sea. Intended for science majors
only.

561. Deep Sea Oceanography (3) I, II
Prerequisites: Biology 515 and Chemistry 361A.
Concepts of deep sea oceanography including abyssal biology, physics and chemistry
instruments and methods of deep sea research, biogeochemistry of oceanic ridges, and high-
pressure biochemistry.

For additional courses in Oceanography see:
Biology 513. Marine Microbiology
Biology 515: Marine Invertebrate Zoology
Biology 517: Biological Oceanography
Chemistry 501: Chemical Oceanography
Geological Sciences 540. Marine Geology
Geological Sciences 545. Descriptive Physical Oceanography
Geological Sciences 548. Coastal and Estuarine Physical Oceanography

Philosophy
In the College of Arts and Letters

Faculty
Emeritus: Lauer, Nelson, O'Reilly, Raja, Shields
Chair: Howard
Professors: Carella, Feenberg, Friedman, Howard, McClurg, Rosenstein, Snyder, Warren,
Weissman
Associate Professors: Gregor, Troxell, Weston
Assistant Professor: Chaffin
Lecturers: Freeman, Wawrytko

Offered by the Department
Master of Arts degree in philosophy.
Major in philosophy with the A.B. degree in liberal arts and sciences.
Minor in philosophy.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as
soon as possible; they are required to meet with their department adviser within the first two
semesters after declaration or change of major.

Philosophy Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation
requirements listed in the section of this catalog on "Graduation Requirements."
A minor is not required with this major.

Preparation for the Major:
Six lower division units in philosophy including Philosophy 120.

Foreign Language Requirement:
Competency (equivalent to that which is normally
attained through three consecutive courses of college study) is required in one foreign
language as part of the preparation for the major. Refer to section of catalog on "Graduation
Requirements."

Upper Division Writing Requirement:
Passing the University Writing Examination or
English 305W, or English 500W, or History 396W with a grade of C (2.0) or better.

Major:
A minimum of 27 upper division units in philosophy (18 of which must be in 500-
numbered courses) to include 301 and 303. The remaining units for the major distributed as
follows:

a. Three units from among 502, 504, 505.
b. Three units, either 506 or 507.
c. Three units from among 523, 525, 537.
d. Three units from among 511, 527, 528.
e. Three units from among 521, 522, 531.
f. Three units from among 532, 541, 542.
g. Three units of electives in any 500-numbered course.

Philosophy Minor
The minor in philosophy consists of a minimum of 15 units in philosophy. 12 units of which
must be in upper division courses. At least six units must be in one of the following groups:

Values: Philosophy 329, 334, 510, 512, 527, 528, 533, 535, 541 and 542.
Knowledge and Reality: Philosophy 521, 522, 523, 525, 531, 537, 575 and 596.

Philosophy 301 is recommended.
Courses in the minor may not be counted toward the major, but may be used to satisfy
preparation for the major and general education requirements, if applicable.
LOWER DIVISION COURSES

101. Introduction to Philosophy: Values (3) I, II
Introduction to philosophical inquiry with emphasis on problems of value. Each student is encouraged to think independently and formulate his own tentative conclusions.

102. Introduction to Philosophy: Knowledge and Reality (3) I, II
Introduction to philosophical inquiry with emphasis on problems of knowledge and reality. Each student is encouraged to think independently and formulate his own tentative conclusions.

103. Historical Introduction to Philosophy (3) I, II
Introduction to philosophical inquiry through study of the works of major philosophers in their historical contexts.

120. Logic (3) I, II
Introduction to deductive and inductive logic. Logic and language. Analysis of fallacies. Uses of logic in science and daily life.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (Intended for Undergraduates)

300. Honors Course (1-3)
Refer to Honors Program.

301. History of Philosophy I (3) I, II
Prerequisite: Three units of philosophy. Thales through Marcus Aurelius.

302. History of Philosophy II (3) I, II
Prerequisite: Six units of philosophy. Nicholas of Cusa through Kant.

303. History of Philosophy III (3)
Prerequisite: Six units of philosophy. Concept of human nature. Descriptive and normative aspects of major theories of human nature.

320. Social Ethics (3)
Ethical issues of contemporary life. Individualism vs. collectivism; democracy vs. dictatorship; ethical problems arising in law, medicine, business, government and interpersonal relationships.

330. Medical Ethics (3)
Value judgments upon which medicine is based and the ethical issues which medicine faces.

334. Philosophy of Literature (3)
Study of literature of philosophical significance, and of philosophical problems of literature.

336. Jewish Philosophy (3)
Prerequisite: Three units of philosophy. Outstanding men and movements, e.g., Biblical ethics and law, Philo of Alexandria, the rabbinical tradition, the Kabbala, Moses ben Maimon, Moses Mendelssohn and Martin Buber.

351. Chinese Philosophy (3)
Philosophical traditions which have shaped the intellectual life and culture of China. Emphasis on foundational texts surviving from pre-Han China.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisites: Twelve upper division units in philosophy and consent of instructor. Individual study. Maximum credit six units.

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

502. History of Philosophy II (3)
Prerequisite: Philosophy 301.

504. Continental Philosophy After Kant (3)
Prerequisite: Six units of philosophy. Major figures and movements in European philosophy from Hegel to Nietzsche.

505. British Philosophy After Hume (3)
Prerequisite: Six units of philosophy. British philosophy from the late eighteenth century to World War I.

506. Twentieth Century Continental Philosophy (3)
Prerequisite: Six units of philosophy. Major figures and movements in European philosophy from Husserl to the present.

507. Twentieth Century Anglo-American Philosophy (3)
Prerequisite: Six units of philosophy. Major figures and movements in Anglo-American philosophy since World War I.

508. Existentialism (3)
Prerequisite: Six units of philosophy. The philosophical aspects of Existentialism. Major emphasis is on the diversity of thought within a common approach as this is shown in individual thinkers.

509. Ordinary Language Analysis (3)
Prerequisite: Six units of philosophy. Foundations of linguistic philosophy with emphasis on achieving an awareness of the relationship between thinking and language.

510. Philosophy of Law (3)
Prerequisites: Three units of philosophy and three units of political science. The nature of law and the logic of legal reasoning. An exploration of certain key legal concepts such as causation, responsibility, personality, and property.

512. Political Philosophy (3)
Prerequisite: Philosophy 101, 102 or 103. Selected aspects of the political structures within which we live, such as law, power, sovereignty, justice, liberty, welfare.

521. Deductive Logic (3)
Prerequisite: Philosophy 120. Principles of inference for symbolic deductive systems; connectives, quantifiers, relations and sets. Interpretations of deductive systems in mathematics, science and ordinary language.

522. Inductive Logic (3)
Prerequisite: Philosophy 120. Definition, classification and division. The logic of experimentation and statistics. Formation and validation of hypotheses. Probability theories.

523. Theory of Knowledge (3)
Prerequisite: Six units of philosophy. The major theories of human knowledge: mysticism, rationalism, empiricism, pragmatism.

525. Metaphysics (3)
Prerequisite: Six units of philosophy. Prominent theories of reality, e.g., realism and nominalism, materialism and idealism, teleology and determinism.

527. Values and Social Science (3)
Prerequisite: Six units of philosophy. Analysis and discussion of the nature of values and value-judgment with particular reference to the social sciences. Among relevant issues: the naturalistic fallacy, facts and values, authoritarianism, emotivism, objective relativism; the individual and the community.
528. Theory of Ethics (3)
Prerequisite: Six units of philosophy.
Significant and typical value theories and systems and the concrete problems such theories seek to explain. Emphasis will be on moral values.

531. Philosophy of Language (3)
Prerequisite: Six units of philosophy.
An introduction to theories of meaning for natural languages and formal systems; concepts of truth, synonymy and analyticity; related epistemological and ontological problems.

532. Philosophy of History (3)
Prerequisite: Six units of philosophy.
The nature of history and historical inquiry. As metaphysics: A study of theories of historical development. As methodology: History as science, truth and fact in history, historical objectivity, the purpose of history.

533. Philosophy of Education (3)
Prerequisite: Philosophy 101, 102 or 103.
Various philosophical viewpoints concerning education. The functions of education as conceived by major figures in the Western philosophical tradition.

535. Philosophy of Religion (3)
Prerequisite: Six units of philosophy.
Philosophical examination of issues raised by the religious impulse in man.

536. Philosophy of Mind (3)
Prerequisite: Three upper division units in philosophy.
Analysis of the concept of mind, intention, behavior, etc. Developments generated by works of such philosophers as Wittgenstein, Wisdom, and Ryle.

537. Philosophy of Science (3)
Prerequisite: Six units of philosophy.
The basic concepts and methods underlying contemporary scientific thought. Contributions of the special sciences to a view of the universe as a whole.

541. History of Aesthetics (3)
Prerequisite: Philosophy 101, 102 or 103.
Major documents in the history of aesthetics.

542. Philosophy of Art (3)
Prerequisite: Six units of philosophy.
The nature of aesthetic experience. Principal contemporary theories of art in relation to actual artistic production and to the function of art in society.

554. American Philosophy (3)
Prerequisite: Six units of philosophy.
American philosophy from 1850 to the 1920s; idealism, pragmatism, new and critical realism.

575. A Major Philosopher (3)
Prerequisite: Six units of philosophy.
The writings of one major philosopher. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

596. Selected Topics (3)
Prerequisite: Six units of philosophy.
A critical analysis of a major problem or movement in philosophy. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Limit of nine units of any combination of 596 and 795 applicable to a master’s degree.

GRADUATE COURSES
Refer to the Graduate Bulletin.

---

Physical Education

In the College of Professional Studies and Fine Arts

Faculty
Emeritus: Andrus, Benten, Broadbent, Cave, Friedman, Kasch, Landis, Lockman, Murphy, Olsen, A., Schutte, Schwob, Scott, Sportsman, Terry, Toelkesen, Wilhelm, Williamson, Ziegenfuss
Chair: Carlson
Professors: Aftens, Carlson, Carter, Cullen, Fox, Grawunder, Olsen, L., Phillips, Selder
Sucec
Associate Professors: Barone, Francis, Franz, Hempel, King, McKenzie, Nunn, Simmons, Wells, Willis
Assistant Professors: Buono, Gutowski, Meckikof, Quinn, Sandback, Smith, Wallace, Whoby

Offered by the Department
Master of Arts degree in physical education.
Major in physical education with the A.B. degree in liberal arts and sciences.
Major in physical education with the A.B. degree in applied arts and sciences.
Emphasis in athletic training.
Emphasis in dance.
Teaching major in physical education for the single subject teaching credential.
Adapted physical education credential.
Minor in dance.
Minor in physical education.

Physical Education Major

With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the requirements listed in the section of this catalog on "Graduation Requirements."

Preparation for the Major
Biology 150, 336; Physical Education 276; Psychology 101; four units of activity classes. (16 units.)

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W or 306W with a grade of C (2.0) or better.

Major. A minimum of 14 upper division units in physical education to include 12 units from Physical Education 371, 376A, 385, 476, 560, 561, 570, and 12 units selected with the approval of the adviser.

Physical Education Major

With the A.B. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the requirements listed in the section of this catalog on "Graduation Requirements."

Emphasis in Athletic Training
Purpose of the emphasis is to prepare students to meet the academic requirements necessary for a career in athletic training and to meet degree requirements for National Certification in athletic training. Students wishing to meet all requirements for National Certification by the National Trainers Association must also complete a minimum of two years' clinical internship under the direct supervision of a certified athletic trainer. Students interested in completing this requirement at San Diego State must make application for clinical internship to the athletic department. Selection is competitive and limited in number. Applications are accepted in Spring for Fall selections.

---

Physical Education Minor

With the A.B. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the requirements listed in the section of this catalog on "Graduation Requirements."

Emphasis in Athletic Training
Purpose of the emphasis is to prepare students to meet the academic requirements necessary for a career in athletic training and to meet degree requirements for National Certification in athletic training. Students wishing to meet all requirements for National Certification by the National Trainers Association must also complete a minimum of two years' clinical internship under the direct supervision of a certified athletic trainer. Students interested in completing this requirement at San Diego State must make application for clinical internship to the athletic department. Selection is competitive and limited in number. Applications are accepted in Spring for Fall selections.

---

GRADUATE COURSES
Refer to the Graduate Bulletin.

---
Preparation for the Major. Physical Education 265, 276; Biology 100, 100L, 150; Chemistry 100, 130; Family Studies and Consumer Sciences 204; Psychology 101. (25 units.) Recommended: Physics 107.

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W or 305W with a grade of C (2.0) or better.

Major. A minimum of 37 upper division units to include Physical Education 361, 382, 368, 2 units. 571, 576A, 385, 560, 561, 563, 564, 565, 567, 570; Biology 336. Recommended: Health Science 301, 574, 576. This emphasis does not meet the teaching credential requirements.

Emphasis in Dance
Preparation for the Major. Biology 150, 336; Physical Education 133A, 133B, 134A-134B, 135A-135B, 136A-136B, 153, 154; Psychology 101; and six units selected from the areas of art, dance, and music with the approval of the adviser in dance. (29 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W or 305W with a grade of C (2.0) or better.

Major. A minimum of 43 upper division units to include Physical Education 376B, 385, 450, 451, 452, 453, 454, 455, 550, 551, 552, 553, 557, 560, 561, 570, and four units selected from Physical Education 341B, 346D, 346F, 456. In addition to course requirements, the student must be a member of the Choreographer’s Ensemble and participate in a minimum of three semesters of dance programs. Substitution for such participation will require approval of the Dance Committee. This emphasis does not meet the teaching credential requirements. Physical Education 398 (3 units). Supervised Field Experience (in an advanced dance area), may be substituted for Physical Education 453.

Physical Education Major
For the Single Subject Teaching Credential
All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education. This major may be used by students as an undergraduate major for the A.B. degree in physical education at the University of California, San Diego. The major may be used by students as an undergraduate major for the A.B. degree in physical education at the University of California, San Diego.

Preparation for the Major. Biology 150, 336; Physical Education 190, 265, 276; Psychology 101. (15 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or English 304W or 305W with a grade of C (2.0) or better.

Major. A minimum of 41 upper division units to include Physical Education 340, 341, 343, 345, 371, 376A, 380, 385, 560, 561, 563, 564, 565, 567, 568, 570, two units from team sports (346A 346B, 346F), two units from individual sports (346B, 346G, 346H, 346I), six units from Physical Education 322, 351, 341 or 346.

Adapted Physical Education Credential
Admission Categories
Level I: Physical Education major with an interest in adapted physical education, completion of a minimum of 45 units with a GPA of 2.5 or better, and official application to the Coordinator of Adapted Physical Education.

Level II: Physical Education major with a minimum of 2.75 after 90 units including the completion of Physical Education 371, 560, 561, 567, 568 and at least two units of Physical Education 368, and official application to the Coordinator of Adapted Physical Education.

Level III: Certified. Completion of all courses required for physical education major, the selection of student teaching, and the completion of pre-service program requirements. (Preliminary credential). The student must have a 3.0 required course in which a grade lower than C is earned may be repeated only with prior approval of the coordinator.

Exercise Leadership Certificate
This program is designed to prepare individuals interested in working in preventive and rehabilitative exercise programs for the certifications of (1) Exercise Technologist, (2) Fitness and rehabilitative exercise programs, and (3) Exercise Specialist which are awarded by the American College of Sports Medicine (ACSM). Prerequisites for the program are an undergraduate degree in any major and previous work in physical activity programs. All prerequisites to certificate program courses are required. Applications should be made to the director of the certificate program.

Thirty units are required to include Biology 590, Physical Education 362, 366, 367, 670, 680, 690, 790, and 796 (6 units with SDSU Adult Fitness Program), and the student may be applied to a graduate degree program in physical education and be admitted to the graduate program in physical education. Recommendations for admission to the American College of Sports Medicine for ACSM certification will be based on completion of course work with a GPA of 3.0 or better and fulfillment of specific certification set by ACSM.
## Types of Activity Courses
Adapted physical education classes to care for special needs are offered. The content of these courses is planned to give each student an opportunity to participate in many activities of carry-over value, developmental nature and recreational interest. An opportunity is afforded students to participate in competitive sports in the extramural and intramural programs.

### LOWER DIVISION COURSES
Courses offered for one unit credit meet two hours per week or equivalent. "A" signifies a beginning class, "B" intermediate.

May be repeated with new activity for additional credit. See Class Schedule for specific content.

---

139. **Competition Fitness** (1) Cr/NC
- Two hours of activity.
- Fitness program for student wishing to prepare for high-level competitive athletics. Theoretical aspects included. Maximum credit one unit applicable to a bachelor's degree and athletic eligibility.

140A. **Sabre Fencing** (1)

141A-141B. **Martial Arts** (1-1)
- Physical Education 141A is prerequisite to 141B.

145. **Waterskiing** (1)

146. **Surfing** (1)

147. **Windsurfing** (1)

150A-150B. **Horseback Riding** (1-1)
- Physical Education 150A is prerequisite to 150B.

153. **Introduction to Dance** (2)
- Dance as an art form with emphasis on the development of contemporary trends; American dance personalities and their contributions.

154. **Rhythmic Analysis Related to Movement** (2)
- Music as related to movement; notation and simple music forms applied to all movement activities; percussion accompaniment; writing of percussion scores, music repertoire for dance.

171. **Intercollegiate Practice in Athletics** (1) I, II Cr/NC
- Maximum combined credit for any combination of 171 series is four units. (Formerly numbered Physical Education 339.)

### Offered in Fall (2) I, II Cr/NC
- A. Basketball
- B. Cross Country
- C. Football
- D. Gymnastics
- E. Swimming
- F. Soccer

### Offered in Spring (2) I, II Cr/NC
- D. Gymnastics
- G. Volleyball
- H. Baseball
- I. Golf
- J. Softball
- K. Tennis
- L. Track

190. **Skill Competency in Physical Education** (2) Cr/NC
- Four hours of activity.
- Designed for potential physical education majors and minors as a prerequisite to all professional teaching method course offerings. Proficiency tests will be given in each area commonly taught in secondary physical education.

241. **Physical Education of Children** (2) I, II
- Four hours of activity.
- Scientific principles, programs, activities, and instructional techniques for physical education in elementary schools. Practical field experience with elementary students. Not open to physical education majors.

285. **Techniques in Athletic Training** (2) I, II
- One lecture and three hours of laboratory.
- Prerequisite: Biology 150.
- Athletic training techniques and emergency field care of athletic injuries. Theory and techniques of basic athletic first aid, emergency procedures including CPR, bandaging and taping.

276. **Introduction to Sport and Physical Education** (2) I, II
- Overview of discipline of physical education. Development of a basic philosophy and background for entering profession.

296. **Experimental Topics** (1-4)
- Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
330. Skin and Scuba Diving (1)
Prerequisites: Medical examination, waiver for hazardous procedures, pass swimming competency test. Concurrent registration in Physical Education 320L.
Function and knowledge of underwater diving to include diving physiology, hypobaric conditions, medical hazards, safety procedures associated with scuba diving, proper care and operation of equipment.

330L. Skin and Scuba Diving Laboratory (1)
Three hours of laboratory.
Prerequisite: Concurrent registration in Physical Education 320.

332. Practicum: Life Saving and WSI (2)
Four hours of activity.
Prerequisites: Intermediate swimming class at SDSU or its equivalent. (Swimmers level of Red Cross.)
Content designed to qualify expert swimmers in both American Red Cross Life Saving and Water Safety Instructor’s Certification. Includes methods and materials for teaching all levels of swimming.

333. Instructor’s Course in Swimming for the Handicapped (1)
Two hours of activity.
Prerequisites: Medical exam, waiver for hazardous procedures, pass swimming competency test.
To develop knowledge of various types of handicapping conditions, as well as how to adapt programs, methods and materials for these conditions. Red Cross certification (WSI) is given upon satisfactory completion of course.

334. Practicum: Theory and Analysis of Coaching Competitive Sports (2)
Four hours of activity.
Concentrated study to include mechanical analysis, tactics and strategy, scouting, officiating and rules, and daily-seasonal practice planning in one of the sports listed below.
A. Basketball
B. Football
C. Baseball
D. Track and Field (including Cross Country)
F. Additional sports (offered on student demand) may be repeated with new content.

340. Physical Education for Elementary Schools (3) I, II
Two lectures and two hours of activity.
Prerequisite: Physical Education 371.
Objectives, curricula, activities, and application of basic scientific principles for the conduct of elementary school physical education. Includes a practicum experience. Not open to students with credit in Physical Education 141 or 241.

341. Practicum: Physical Education Activities for Elementary Schools (2)
Four hours of activity.
Prerequisite: Physical Education 241 or 340.
In-depth study of selected physical education activities for elementary school children.
Includes teaching techniques, unit planning, progressions and resource materials.
A. Rhythm and dance activities for children
B. Educational games for children
C. Gymnastics activities for children
F. Developmental motor activities for primary school children

346. Practicum: Physical Education Activities for Secondary Schools (2)
Four hours of activity.
Prerequisite: Skill competencies for the specific activities of that section as determined by the instructor.
Selection and care of equipment and facilities; analysis of skills; progressions for skills, drills and the game; lead-up activities; safety; performance cues; resources; terminologies; skill evaluations; and prescriptions.
A. Basketball, Volleyball
B. Track and Field
C. Racquetball, Softball
D. Folk, Square and Ballroom Dance
F. Modern Dance
G. Combatives
H. Gymnastics
I. Tennis, Badminton
K. Flag Football, Soccer

347. Leadership for Physical Education (3) I, II
Two lectures and two hours of activity.
Prerequisite: Physical Education 385.
Theory and development of leadership behavior of physical educators, emphasizing leadership qualities unique to diverse physical activity settings.

350. Ballet for Professional Dance (2) I, II
Four hours of activity.
Prerequisites: Physical Education 135A and 135B.
Advanced work in ballet to enhance performance skills of dancers interested in career in dance.

352. Workshop in Dance (1-2)
Two hours per unit.
Choreographic techniques and skills with visiting master teachers: written report or project. Maximum credit four units.

361. Weight Training and Physical Fitness (2) I, II
One lecture and two hours of activity.
Circulatory-respiratory endurance, muscular strength and endurance, selection and care of equipment and facilities, and programs in the areas of flexibility, weight training and aerobics. (Formerly numbered Physical Education 345A.)

362. Exercise Physiology Laboratory (1)
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Physical Education 561.
Laboratory experiences in the application of exercises and the analysis of the results.

364. Kinesiology–Biomechanics Lab (1)
Three hours of laboratory.
Prerequisites: Physical Education 560 and 563.
Experiments in application of kinesiology and biomechanics to human movement.

366. Adapted and Special Physical Education Laboratory (1-4)
Three hours of laboratory per unit.
Prerequisite: Credit or concurrent registration in Physical Education 567 or 568.
Supervised laboratory of practicum experience in adapted or special physical education programs. Maximum credit four units.

369. Practicum in Athletic Training (1-3)
Three hours of laboratory per unit.
Prerequisite: Physical Education 265.
Practical training and clinical applications of basic and advanced techniques of athletic training and sports medicine. Athletic first aid, emergency procedures, bandaging, taping, use of physical therapy modalities, and application of therapeutic exercises to be performed in actual athletic medicine clinics. Maximum credit six units.

371. Physical Growth and Development (3)
Principles of human growth, performance as affected by developmental levels and individual differences in structure and function.
476A. History and Philosophy: Physical Education and Sport (3)
Prerequisite: Physical Education 276.
Integrated approach to understanding of historical, philosophical, and sociological forces shaping development of physical education and sport. (Formerly numbered Physical Education 376.)

476B. History and Philosophy: Dance (3) II
Prerequisite: Physical Education 153.
Integrated approach to understanding of historical, philosophical, and sociological forces shaping development of dance. (Formerly numbered Physical Education 556.)

380. Organization and Administration of Physical Education (3)
Organization of physical education programs in the public schools. Includes curriculum development, program content, legal bases, materials, facilities and constraints in the discipline of physical education.

385. Measurement and Evaluation in Physical Education (3)
Use of testing and measurement to improve and evaluate instruction. Concepts of elementary statistics, computer use, objectives definition, test construction, test evaluation, and test program administration. (Formerly numbered Physical Education 585.)

398. Supervised Field Experience (1-3) Cr/NC
Supervised practical experience in the area of physical education. Maximum credit six units.

380A. Organization and Administration of Physical Education (3)
Organization of physical education programs in the public schools. Includes curriculum development, program content, legal bases, materials, facilities and constraints in the discipline of physical education.

376A. History and Philosophy: Physical Education and Sport (3)
Prerequisite: Physical Education 276.
Integrated approach to understanding of historical, philosophical, and sociological forces shaping development of physical education and sport. (Formerly numbered Physical Education 376.)

455. Intermediate Improvisation (1)
Two hours of activity.
Prerequisite: Completion of lower division prerequisites for emphasis in dance.
Exploiting improvisation through specific stimulus leading to the acquisition of basic improvisational skills.

455. Intermediate Improvisation (1)
Two hours of activity.
Prerequisite: Physical Education 454.
Practice in more complex arrangements of improvisation.

456. Dance Pedagogy (2)
Four hours of activity.
Prerequisite: Completion of preparation for the major in physical education with emphasis in dance.
Teaching modern dance in the commercial studio environment.
GRADUATE COURSES

Refer to the Graduate Bulletin.
A minor is not required with this major.

Preparation for the major and the minor consist of basic requirements in the lower and upper division for all students plus additional upper division requirements in one of the following areas:

- Foundations of Physics
- Scientific Instrumentation
- Modern Optics
- Radiation Physics
- Senior Research

Basic Requirements for all Students

Preparation for the Major: Chemistry 200, 201; Mathematics 150, 151, 252; Physics 180, 195L, 196, 196L, 197, 197L. (35 units) Recommended: Mathematics 107.

Upper Division Writing Requirement: Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Areas of Specialization

In addition to the basic requirements, the student must complete the requirements in one of the following areas:

- (a) Foundations of Physics
  Required: Physics 510, and 532 or 564.
  Recommended: Physics 350B, 552.
  Strongly recommended: Physics 532, 564.

- (b) Scientific Instrumentation
  Required: Physics 513, 516A.
  Recommended: Physics 516B.
  Strongly recommended: Physics 520.

- (c) Modern Optics
  Required: Physics 306, 552, 553.
  Recommended: Physics 516A, 532.

- (d) Radiation Physics
  This option is intended as preparation for students intending to pursue the M.S. degree in radiological health physics.
  Required: Biology 570, 570L, 571.
  Recommended: Mathematics 250; Physics 513, 564.

- (e) Senior Research
  Students taking this area of specialization must be sponsored by a member of the faculty.
  Required: Physics 498A-498B and a minimum of four (4) additional upper division units approved by faculty sponsor.
  Recommended: Additional Physics 499 in conjunction with 498A-498B.

Physics Minor

The minor in physics consists of a minimum of 15 units in physics, 11 units of which must be in upper division courses. The department requires that the upper division units for the minor be selected from the courses in one of the areas listed below. Prerequisites: Physics 180A-180B or 195, 195L, 196, 196L, 197, 197L. Mathematics 252.

- Scientific Instrumentation (also appropriate for all science majors above). Physics 311, 313, and 513 must be taken. One or more additional courses to be selected from Physics 516A, 516B, 520.
- Modern Optics (appropriate for all science and engineering majors). Physics 306 and 553 must be taken. Additional courses may be selected from Physics 311, 313, 354A, 400A, 499, 552.

Radiation Physics: In lieu of the prerequisites listed above, a student may substitute Physics 180A-180B and 182A-182B; Mathematics 252. (Suitable for all majors; particularly recommended for life science majors.) Physics 302, 311, and three units of electives.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

103. Physics for Poets

Physics as natural philosophy. How physical theories grow and change through interaction with experiment. Holography, black holes, fusion, acoustics, lasers, and other topics form a framework through which the laws of physics and their philosophical and historical foundations are explored.

107. Introductory Physics with Laboratory

Three lectures and three hours of laboratory. Some of the more important phenomena and concepts in physics with practical illustrations and applications. Not open to students with credit for Physics 115 (formerly numbered Physics 40). 115A-115B, 180A-180B, 195, 195L, 196, 196L, 197, 197L.

115. Elementary Physics with Laboratory

Two lectures, one discussion and three hours of laboratory. Preparation for the major and the minor. Foundations of wave motion, behavior of light, energy, mass and motion. For non-science majors. Not open to students with credit in Physics 115 (formerly numbered Physics 40). 115A-115B, 180A-180B, 195, 195L, 196, 196L, 197, 197L.

148. Special Study (1-2) I, II

Prerequisite: Consent of supervising instructor. Individual study and laboratory work in the area of the student's major interest. Each student will be assigned a member of the staff who will supervise his work.

180A-180B. Fundamentals of Physics (3-3) I, II

Prerequisite: Credit or concurrent registration in Mathematics 121 or 150. Physics 180A is prerequisite to 180B.

Recommended: For Physics 180A, concurrent registration in Physics 182A; for Physics 180B, concurrent registration in Physics 182B.

Course provides a thorough basis in mechanics, electricity, magnetism, optics, and modern physics in a two-semester calculus-based sequence. Intended mainly for life science majors. Physics 180A not open to students with credit in Physics 185. Physics 180B not open to students with credit in Physics 195. Physics 180B not open to students with credit in Physics 196.

182A-182B. Physical Measurements (1-1) I, II

Three hours of laboratory.

Prerequisite for 182A: Credit or concurrent registration in Physics 180A.

Prerequisite for 182B: Credit or concurrent registration in Physics 180B.

A laboratory course to accompany Physics 180A-180B. Semester I: Properties of matter. A laboratory course to accompany Physics 182A-182B. Semester II: Electricity, DC circuits, oscilloscope techniques, electric and magnetic fields, and optics. 182B not open to students with credit in Physics 195. 182B not open to students with credit in Physics 196.

195. Principles of Physics (3) I, II

Three hours of laboratory.

Prerequisite: Consent of supervising instructor in Mathematics 150.

This course is designed to give a thorough understanding of the fundamental principles of physics in the areas of mechanics and wave motion.

195L. Principles of Physics Laboratory (1) I, II

Three hours of laboratory.

Prerequisite: Consent of supervising instructor in Physics 182B.

Experiments in mechanics, wave motion, resonance phenomena using precision air tracks. Not open to students with credit in Physics 182A.

196. Principles of Physics (3) I, II

Prerequisites: Physics 185, credit or concurrent registration in Mathematics 151.

This course is designed to give a thorough understanding of the fundamental principles of physics in the areas of electricity and magnetic fields.
190L. Principles of Physics Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Physics 190.
Experiments in DC circuits, AC circuits, electrical resonance, oscilloscope measurement techniques, and electric and magnetic fields. Not open to students with credit in Physics 180.

197. Principles of Physics (3) I, II
Prerequisites: Physics 190, credit or concurrent registration in Mathematics 252.
This course is designed to give a thorough understanding of the fundamental principles of physics in the areas of wave motion, electromagnetic waves, optics, special relativity and atomic and nuclear physics.

197L. Principles of Physics Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Physics 197.
Experiments in optics, lasers, holography and nuclear counting.

201. Physics of Sound, Hearing and Speech (4)
Three lectures and three hours of laboratory.
Prerequisite: Qualification on the Mathematics Placement Examination.
Fundamental nature of sound and applications to hearing and speech.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

301. Energy and Conservation (3)
Prerequisite: Completion of the fundamental physical concepts underlying energy, its conversion, utilization and conservation. Not open to physics majors.

302. Nuclear Energy (2)
Prerequisite: Physics 107, or 115, or 180B and 182B, or 197 and 197L.
Nuclear sources of energy, including solar, geothermal, hydrocarbon, and an introduction to nuclear reactors and their environmental impact.

304. Concepts of Modern Physics (3)
Prerequisites: Physics 100B, Mathematics 122.
Modern physics for nonphysics majors, including relativity, introductory quantum theory, and atomic, nuclear, and solid state physics. Not open to physics majors or to students with credit in Physics 284A-284B.

306. Optics (3)
Prerequisites: Physics 197, 197L.
Reflection, refraction, matrix methods, dispersion, polarization, double refraction, interference, diffraction, Fourier optics, coherence theory, lasers, and holography with applications to optical instruments, wave propagation, and the nature of light.

311. Electronics for Scientists (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Physics 180B and 182B, or 196 and 196L.
To and DC circuits, diodes, transistors, conventional and operational amplifiers. Designed to introduce science majors to modern electronic devices and their utilization in scientific instrumentation.

313. Advanced Electronics (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Physics 311.
Conventional and operational amplifiers, oscillators, analog to digital conversion, pulse and digital electronics. Emphasis is on applications to modern scientific instrumentation.

330A-350B. Classical Mechanics (3-3) I, II
Prerequisites: For 330A, Physics 197, 197L, and credit or concurrent registration in Mathematics 340A or 530. For 350B, Physics 350A and credit or concurrent registration in Mathematics 340B or 531.
Newtonian mechanics, wave motion, Lagrange's equations, Hamilton's equations, generalized coordinates, normal coordinates, small oscillations, special theory of relativity.

354A-354B. Modern Physics (3-3) I, II
Prerequisites: For 354A, Physics 197, 197L, and credit or concurrent registration in Mathematics 340A or 530. For 354B, Physics 354A and credit or concurrent registration in Mathematics 340B or 531.

357. Advanced Physical Measurements (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Physics 197, 197L, and Physics 311.
A course which stresses both laboratory experiments and techniques of data and error analysis. The experiments are taken from several of the major areas of physics.

400A-400B. Classical Electromagnetism (3-3)
Prerequisites: For 400A, Physics 197, 197L, and credit or concurrent registration in Mathematics 340A or 530. For 400B, Physics 400A and credit or concurrent registration in Mathematics 340B or 531.
Electrostatics, magnetostatics, electromagnetic induction, Maxwell's. equations, radiation and wave propagation.

460. Thermal Physics (3)
Prerequisite: Physics 354A.

496. Selected Topics in Physics (1-4) I, II
Prerequisite: Consent of instructor.
Selected topics in classical and modern physics. May be repeated with consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

498A. Senior Research (1) I, II Cr/NC?
One discussion period and two additional hours per week to be arranged.
Prerequisite: Senior standing in physics and an acceptable plan for graduation within one year. Selection and design of individual research project. Oral and written progress reports.

498B. Senior Research (2) I, II
Two discussion periods and four additional hours per week to be arranged.
Prerequisite: Physics 498A.
Laboratory work, progress reports, oral and written final reports.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study or laboratory work on a special problem in physics selected by the student. Each student will be assigned a member of the staff who will supervise his work. Credit, hours and topics to be arranged in each case. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

510. Quantum Mechanics (3)
Prerequisites: Physics 350A, 354B, Mathematics 340B or 531.
The mathematical and physical foundations of the quantum theory in terms of the mathematical and physical foundations of the quantum theory in terms of the mathematical and physical foundations of the quantum theory in terms of...
513. Electronic Instrumentation (2) I
 Six hours of laboratory.
 Prerequisite: Physics 313.
 Transducer principles and applications; theory and design of active filters, modern signal
detection and enhancement techniques, instrumentation design. (Formerly numbered Physics 413.)

516A-516B. Theory of Scientific Instrumentation (3-2)
 Prerequisites: Physics 313; Mathematics 340B or 531. Physics 516A is prerequisite to 516B.
 Linear system analysis using Fourier techniques. Introduction to the stochastic treatment of
signals and noise, using concepts from probability and statistics. Optimization of detection
systems with respect to signal-to-noise ratio. Applications to spectroscopy.

520. Microprocessor Instrumentation (3)
 Two lectures and three hours of laboratory.
 Prerequisite: Credit or concurrent registration in Physics 513.
The electronics of microprocessor-based computer and control systems. Assembly
language programming, interfacing of analog inputs and outputs. The microcomputer as a
multiple purpose signal processing instrument.

524. Physical Principles of Remote Sensing (3) I
 Prerequisites: Physics 306, Mathematics 340A.
 Physical principles of electromagnetic techniques in remote sensing. Topics include elec-
tromagnetic scattering, optical and radar image acquisition problems.

532. Solid State Physics (3) II
 Prerequisites: Physics 350A, 354; Mathematics 340B or 531.
 Elastic, thermal, electric, magnetic and optical properties of solids. Introduction to the
energy band theory of solids, with applications to semiconductors and metals.

542. Acoustics (3)
 Prerequisite: Physics 350A.
 Wave motion, production, reception, transmission and analysis of sound. Special applica-
tions such as environmental noise, underwater and seismic waves.

552. Modern Optics and Lasers (3)
 Prerequisite: Physics 306.
 Electromagnetic theory, matrix methods of optics, propagation of Gaussian beams, optical
resonators, interaction of radiation and atomic systems, theory of laser oscillation, nonlinear
optics, specific laser systems, optical detectors, applications of lasers in physics.

553. Modern Optics Laboratory (2)
 Six hours of laboratory.
 Prerequisite recommended: Credit or concurrent registration in Physics 552.
 Experiments in various fields of modern optics such as holography, physics of lasers,
Fourier transform spectroscopy, Raman spectroscopy, light modulation techniques, fiber
optics, spatial filtering, diffraction grating spectroscopy, radiometry, and nonlinear optics.
May be repeated with new content with the approval of the instructor for a maximum of four units.

564. Nuclear and Elementary Particle Physics (3)
 Prerequisite: Physics 264B.
 Nuclear and elementary particle phenomena including nuclear structure of reactions,
nuclear devices, elementary particle symmetry and structure, and experimental methods.

570. Relativity (3)
 Prerequisites: Physics 354A, 400A; Mathematics 340B or 531. Recommended: Mathematics
149 or 520A.
 Relative coordinates, Lorentz transformation, covariant formulation of the laws of physics,
applications of special relativity. Introduction to curved space time, cosmology.

596. Special Topics In Physics (1-4) I, II
 Prerequisite: Consent of instructor.
 Selected topics in classical and modern physics. May be repeated with the consent of the
instructor. See Class Schedule for specific content. Limit of nine units of any combination of
296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
 Refer to the Graduate Bulletin.
LOWER DIVISION COURSES

101. Introduction to Politics and the American Political System (3)
Basic political concepts as applied to the American political system. The American political system as a constitutional democracy with reference to specific topics.

102. Introduction to American and California Government and Politics (3)
Political processes and institutions in the United States and California. Consider a variety of public policy issues such as environmental quality, health, education, relations between government and business, taxation, and foreign affairs as reflected in the dynamics of national and state politics.

103. Introduction to Comparative Government (3) I, II
Analytical models and techniques for examination of the problems of decision making and control in various political systems. Emphasis on patterns of political action in various cultural contexts.

201. Elementary Statistics for Political Science (3)
Prerequisites: Political Science 101 and 102 and qualification on the Mathematics Placement Examination. Quantitative methods in political science. Tabular and graphic presentation, measures of central tendency, simple correlation and sampling techniques. Students with credit or concurrent registration in another statistics course will be awarded a total of four units for the two (or more) courses.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

310. Politics and the Arts (3)
Prerequisites: Political Science 101 and 102.
The contribution of the artistic media to the activity and understanding of politics.

495. Internship in Politics (2-6)
Prerequisites: Three upper division units within Field III and consent of instructor.
Students will be assigned selectively to functional areas of politics, such as political party headquarters, elective public offices and nonpartisan political groups for work under joint internship conferences. (Formerly numbered Political Science 340.)

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

497. Investigation and Report (3) I, II
Senior thesis. Analysis of special topics. Admission by permission of instructor.

499. Special Study (1-3) I, II
Prerequisites: Twelve upper division units in political science and consent of the instructor. Individual study. Maximum credit six units.

Political Theory (Field I)

301A-301B. History of Western Political Thought (3-3)
Prerequisite: Political Science 301A is prerequisite to 301B.

302. Modern Political Thought (3)
Major writers of political thought in the last two centuries, including Burke, J.S. Mill, Freud, Marx, Weber and Sartre. The following topics may be covered: conservatism, liberalism, utilitarianism, socialism, fascism, positivism and existentialism.
338. The Legislative Process (3)
A detailed analysis of legislatures. Special attention will be devoted to the impact of dynamic factors on formal procedures. May include a substantial amount of material about foreign political systems.

348. Internship in National Politics (9)
Prerequisites: Three upper division units within Field III and consent of instructor.
Students will be assigned to political agencies in Washington, D.C., such as Congressional staffs, interest groups, executive agencies, legal/judicial offices and political party committees. Maximum credit three units applicable to the major or minor in political science.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

522. Urban Politics (3)
Prerequisite: Political Science 101 or 102.
The processes by which social conflicts in American urban areas are represented and regulated. Urban political culture; ecology; group development and activity; power structures; and reform movements are surveyed. The character of the urban political "problem" and proposed solutions are evaluated. Meets graduation requirement in California state and local government. When taken with Political Science 305 or 320, will also meet all requirements in American Institutions.

523. Community Political Analysis (3)
Prerequisite: Political Science 101 or 102.
Community power structures. Analysis of policy alternatives; strategies of community development and approach to social planning and organization. Examples are primarily from the American experience, but some comparative materials may be discussed.

530. Political Parties (3)
Prerequisite: Political Science 102 or 320.
The American party system as part of the process of government; party organization and activities; nominating and campaign methods; theories and functions of the party system; party responsibility. The functioning of political parties in the American political system. May include a substantial amount of material about foreign political systems.

531. Interest Groups and Political Movements (3)
Prerequisite: Political Science 101 or 102.
Pressure group activity; lobbies; mass movements; factors which explain the origins and motivations of group behavior; votes, money, information, protest as political resources; theories of pluralism; power elite and mass society; class and ethnic politics. May include a substantial amount of material about foreign political systems.

536. The American Presidency (3)
Prerequisites: Political Science 101 and 102.
Analysis of principal institutions, functions and problems of the presidency and federal executive branch. Attention given to presidential leadership, staffing, executive-legislative relations and policy formation.

537. The Politics of Bureaucracy (3)
Prerequisites: Political Science 101 and 102.
An analysis of the bureaucracy as an actor in the political system. May include a substantial amount of material about foreign political systems.

Public Law (Field IV)
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

345. Constitutional Government (3)
Constitutionalism as a concept of legal and political philosophy; foundations of American constitutionalism; origin and framing of the American Constitution; development of constitutional principles through judicial interpretation.

346. Law and the Political System (3)
Forces influencing the making of law; relationship between social and legal change; nature and limits of the judicial function. (Formerly numbered Political Science 546.)

347A-347B. American Constitutional Law (3-3)
Substantive principles of American constitutional law. Rights and liberties protected by the Constitution against action of federal and state governments. May include problems of judicial review, federalism, separation of powers, nature of selected congressional-presidential powers. Meets graduation requirement in United States Constitution. (Formerly numbered Political Science 547A-547B.)

348. The Supreme Court and Contemporary Issues (3)
Recent decisions of the Supreme Court of the United States and their relationship to contemporary political and social issues. Not open to those students with credit for Political Science 347A-347B.

350. Jurisprudence (3)
Prerequisite: Political Science 101 or 102 or three upper division units within Field IV.
Theoretical foundations of law and legal systems. (Formerly numbered Political Science 550.)

354. Special Problems in Public Law (3)
Prerequisites: Political Science 101 and 102, and three upper division units within Field IV.
Exploration of selected issues in the field of law.

Comparative Politics (Field V)
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

356. Governments of Continental Europe (3)
The political systems of countries of western continental Europe.

357. Government of England (3)
The structure and functioning of the English parliamentary system with emphasis on political principles and parties.

358. Comparative Communist Political Systems (3)
The interrelations between the theory and practice of government in the Soviet Union and the non-communist world as represented by other socialist states.

359. Government and Politics in the Soviet Union (3)
Theoretical and practical aspects of government and politics in the Soviet Union, with some attention to foreign affairs.

361. Governments and Politics of the Developing Areas (3)
Prerequisite: Political Science 101 or 102.
Theoretical and practical aspects of the governmental and political systems of developing nations.

362. Governments and Politics of East Asia (3)
The internal political structure and foreign policies of China, Japan and Korea.

363. Governments and Politics of the Middle East (3)
The governmental and political structures of representative states in the Middle East including Turkey, Israel and the Arab states.

364. Political Change in Modern Africa (3)
Dynamics of social and political change in modern Africa.

370. Political Violence (3)
Prerequisite: Political Science 101, 102 or 103.
Underlying conditions, expressions and consequences of violence within political systems.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

555. Comparative Political Systems (3)
Prerequisite: Political Science 103.
An examination of selected political and governmental systems for purposes of comparative study and analysis to determine similarities, differences and general patterns and universals among political systems.
560. Comparative Public Policy (3)
Prerequisite: Political Science 103 or 335.
Ways that political and social factors shape policy choices, implementation strategies, and policy outcomes in selected countries, emphasis on industrialized nations. Policy areas chosen from: education, health, nutrition, crime, transportation, housing, energy, population control, poverty, unemployment, inflation.

566. Political Change in Latin America (3)
Prerequisite: Political Science 101 or 103.
General pattern of politics and political development in Latin America with an emphasis on those features which condition domestic and foreign policy making.

567. Political Systems of Latin America (3)
Prerequisite: Political Science 566.
Domestic and international politics of selected Latin American states.

568. The Mexican Political System (3)
Prerequisite: Political Science 101 or 103.
Principal factors in Mexican governmental decision making. Ideology, political groups, tactics of leaders and governmental structure.

International Politics (Field VI)

UPPER DIVISION COURSES
(Intended for Undergraduates)

375. International Relations (3)
Dynamics of conflict and cooperation among national, international and transnational factors; contributing political, economic, and social factors.

377. The Conduct of American Foreign Relations (3)
The legal, administrative and political organizations by which American foreign policies are formulated and implemented.

379. National Security Policy (3)
Objectives, instruments, and consequences of national security policy. (Formerly numbered Political Science 579.)

381. International Relations of the Developing Nations (3)
Prerequisite: Six units of political science.
Cooperation and conflict between the developing nations and relations of such nations with the developed countries.

382. International Relations of the Latin American States (3)
The foreign policies of the Latin American states; the organization of American states; relationships with the United Nations and with the United States.

390. Dynamics of Modern International Crises (3)
Origins, development and control of selected international crises since World War II

393. Institute on World Affairs (3)
Contemporary problems in international relations. May be repeated once for credit with permission of the instructor. See Class Schedule for specific content.

394. Special Problems in International Politics (3)
Prerequisites: Political Science 101, 102 and three upper division units within Field VI.
Intensive exploration of selected issues in the field of international politics.

UPPER DIVISION COURSE
(Also Acceptable for Advanced Degrees)

577. Principles of International Law (3)
The function of law in the international community. The historical development of the ideas and rules of international law and their place in the modern diplomatic and legal structure.

GRADUATE COURSES
Refer to the Graduate Bulletin.

---

Portuguese

In the College of Arts and Letters

Faculty
Chair: Barrera
Professor: Silverman

Offered by the Department of Spanish and Portuguese Languages and Literatures
Minor in Portuguese.
Courses in Portuguese.
Major work in Portuguese is not offered.

Portuguese Minor
The minor in Portuguese consists of a minimum of 15 units in Portuguese, six units of which must be in upper division courses. Recommended: History 552.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

High School Equivalents
High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various courses.

Secondary school language courses can be used as follows:
1. The first two years of high school level language count as the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language college semesters, may complete the second semester and complete three years of foreign language in high school. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language count as the equivalent of three college semesters, thus fulfilling the foreign language requirement.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences
Students electing the study of Portuguese to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Portuguese 302 or the equivalent level of achievement. The usual sequence of course work is Portuguese 101, 301, and 302. Refer to section of catalog on "Graduation Requirements" for additional ways to satisfy competency.

LOWER DIVISION COURSES
Native speakers of Portuguese will not receive credit for taking lower division courses in Portuguese except with advance approval from the department.

All lower division courses in Portuguese are taught in Portuguese.

No credit will be given for Portuguese 101, 301, 302 taken out of sequence.

101. Elementary/Intensive (5) I, II
Five lectures and one hour of laboratory. Pronunciation, oral practice, reading on Luso-Brazilian culture and civilization. Essentials of grammar. Not open to students who have completed three years of high school Portuguese unless the third course was completed five or more years ago.

211. Conversation and Grammar Review (3)
Prerequisite: Credit or concurrent registration in Portuguese 101.
Emphasis on spoken language and major grammatical points.
212. Conversation and Grammar Review (3)  
Prerequisite: Credit or concurrent registration in Portuguese 101 with consent of instructor.  
Continuation of Portuguese 211.

296. Experimental Topics (1-4)  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES  
(Intended for Undergraduates)

All upper division courses in Portuguese are taught in Portuguese unless otherwise stated.

301. Advanced Oral and Written Composition (3)  
Oral and written composition in Portuguese, based on models from modern Portuguese and Brazilian literature. Not open to students who have completed four years of high school Portuguese unless the fourth course was completed five or more years ago.

302. Advanced Oral and Written Composition (3)  
Oral and written composition in Portuguese, based on models from modern Portuguese and Brazilian literature.

499. Special Study (1-3) I, II  
Prerequisite: Consent of instructor.  
Individual study Maximum credit six units.

UPPER DIVISION COURSES  
(Also Acceptable for Advanced Degrees)

534. Portuguese Literature (3)  
A study of important movements, authors and works in the literature of Portugal from its beginnings to the present.

535. Brazilian Literature (3)  
A study of the important movements, authors and works of the literature of Brazil from the colonial period to modern times.

Psychology

In the College of Sciences

Faculty

Emeritus: Carlson, Hunrichs, Kaplan, O., Kidwell, Leukel, Peiffer, Ptasows, Sand, Segal, Turner, Voeks  
Chair: Litrownik  
Associate Professors: Brown, Defran, Fenson, Fragaszy, Hornbeck, Lee, Lynn, McCordick, Price, Scolay, Smith  
Assistant Professors: Ingram, Murphy

Offered by the Department

Master of Arts degree in psychology  
Master of Science degree in psychology  
Major in psychology with the A.B. degree in liberal arts and sciences.

Psychology Major

With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." A minor is not required with this major. Two plans are provided for the major in psychology: Plan A for those students who wish to extend their liberal arts education in the field of psychology, and Plan B for those students expecting to pursue the study of psychology beyond the A.B. degree.

Plan A

Plan A is for a nonprofessional major in psychology and is designed to provide students with a greater understanding of human behavior as the emphasis in their liberal arts education. The recommended pattern of courses for this program is not designed to facilitate graduate and professional study in psychology.

Preparation for the Major. Psychology 101, 110 or 270, 210 and 260. (12 units.) Recommended courses in related fields: Six units in General Education courses in biology; three units in General Education courses in philosophy; and six units in General Education courses in anthropology and/or sociology.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in psychology to include Psychology 330, 340, 350 and 351. It is expected that students under Plan A will select, with the assistance of their advisor, a pattern of courses in line with their particular objectives in pursuing Plan A.

Plan B

The purpose of Plan B is to facilitate the specific preparation of those students who wish to pursue graduate and professional preparation in clinical, industrial and personnel, social, and theoretical-experimental psychology.

Preparation for the Major. Psychology 101, 210, 260, and 270. (12 units) Recommended courses in related fields: Six units in General Education courses in biology; three units in General Education courses in philosophy; and six units in General Education courses in anthropology and/or sociology.
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements."

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in psychology to include Psychology 350, 405, 410, and one of the following: 412, 413, 414, 415, 416, 417, 418 or 419; and ten units selected from courses in consultation with the departmental adviser.

Psychology Minor

Academic Skills 103 is a required prerequisite to this minor (except for Personality and Social). The minor in psychology consists of 18-23 units selected from the following areas:

Experimental: Psychology 101, 210, and 270 or equivalent; 4 units of upper division psychology to include Psychology 410 and three of the following: Psychology 316, 414, 416, 417, 419, 567, (23 units.)

Industrial/Organization: Psychology 101 and 270 or equivalent; 12 units of upper division psychology to include Psychology 329, 405, and two of the following: Psychology 321, 322, 326, 342, (18-19 units.)

Personality and Social: Psychology 101 and 210 or 260; 12 units of upper division psychology of which nine must be selected from Psychology 330, 340, 350 and 351. (18 units.)

Phylosophical: Psychology 101, 210, 260, and 270 or equivalent; 11 units of upper division psychology to include Psychology 410, 413, and 480. (23 units.)

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

101. Introductory Psychology (3) I, II

Prerequisite: Psychology 101. An examination and interpretation of the factors which go into the making of the person as he adapts himself to the social world about him. The development of the normal personality.

210. Principles of Learning and Perception (3) I, II

Prerequisite: Psychology 101. The nature of psychological inquiry. Emphasis on principles and basic experimental data of learning and perception.

260. Introduction to Physiological Psychology (3) I, II

Prerequisite: Psychology 101. Physiological mechanisms underlying the psychological phenomena of sensation, perception, emotion, motivation, learning and psychosomatic disorders.

270. Statistical Methods in Psychology (3) I, II

Prerequisite: Qualification on the Mathematics Placement Examination. Recommended: Psychology 101. Quantitative methods in psychology. Measures of central tendency and variability; graphic methods and percentiles, linear correlation, applications of the normal probability curve, chi-square, and an introduction to statistical inference. Students with credit or concurrent registration in another statistics course will be awarded a total of four units for the two (or more) courses.

UPPER DIVISION COURSES

300. Honors Course (1-3) I

Prerequisite: Psychology 101. An examination and interpretation of the factors which go into the making of the person as he adapts himself to the social world about him. The development of the normal personality.

301-S. Contemporary Problems in Psychology (1) S

Prerequisite: Psychology 101. Current testable theories re a particular area of psychology. It is open to the public. A series of six weekly lectures by visiting psychologists on subjects related to current research problems. Reading and reports required of students enrolled for credit. See Class Schedule for specific content. Maximum credit three units.

305. Perapsychology: Fact and/or Fiction (3)

Prerequisite: An introductory course in a social or biological science. Recommended: Psychology 110. Critical evaluation of the scientific evidence for and against the existence of psychic phenomena. Current testable theories related to such phenomena.

310. Cognitive Psychology (3) I, II

Prerequisite: Psychology 101. Recommended: Psychology 210. Theory and research focusing on information processing approach to human mental processes. Topics include sensation and perception, learning, memory, thinking, understanding, and language.

314. Comparative Animal Psychology (3)

Prerequisite: Psychology 101 or other introductory course in a social or biological science. Behavior of both captive and wild animals. Psychological factors and behavioral differences across species and their evolutionary and developmental histories.

316. Operant Behavior (3) I

320. Personnel and Industrial Psychology (3) I, II

Prerequisite: Psychology 101. Psychological factors in selection, appraisal and training.

321. Organizational Psychology (3) I, II

Prerequisite: Psychology 101. Psychological factors in motivation to work, working in groups, industrial organizations, communications and conflict in motivation to work, working in groups, and in industrial organizations.

322. Consumer Psychology (4)

Prerequisite: Psychology 101. How humans select, buy, use, and dispose of products.

325. Principles of Personnel Interviewing (3)

Prerequisite: Psychology 101. Supervised practice in interviewing potential candidates and analyzing the interview process.

330. Developmental Psychology (3) I, II

Prerequisite: Psychology 101. The psychological development of the normal individual from conception through childhood, adolescence, maturity, and old age. Stress is laid upon the interdependence of the various periods of the individual's life.

335. Psychology of Later Maturity (3)

Prerequisite: Psychology 101. The psychological, physiological, and sociological factors influencing behavior in the later years of life.
498 / Psychology

462. Sleeping and Dreaming (3)
Sleep and sleep disorders: electrophysical, neurophysiological, biochemical, psychological, and psychological aspects.

481. Philosophical Issues in Psychology (3)
Prerequisite: Six units of psychology
Metaphysics, epistemology, and the philosophy of science as related to issues in contemporary psychology.

496. Selected Topics in Psychology (1-4)
Prerequisite: Psychology 101
Intensive study in specific areas of psychology. See Class Schedule for specific content.
Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

497. Senior Project (1-3) I, II
Prerequisites: Twelve units of psychology and consent of instructor
An individual investigation and report on a research project. Maximum credit six units.

499. Special Study (1-3) I, II
Prerequisite: Consent of department chair
Individual study, including library or laboratory research and a written report. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

551. Clinical Psychology: Theory and Practice (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Psychology 350
Clinical assessment, theory and practice of behavior change, and professional ethics.

570. Advanced Statistics (3) I
Prerequisite: Psychology 270
Further study of quantitative methods in psychology with emphasis on methods of correlation, chi-square, and contingency, and an introduction to the analysis of variance.

571. Correlational Analysis (3)
Prerequisite: Psychology 270
Quantitative methods in psychology with emphasis on methods of correlation, multiple correlation, partial correlation, and factor analysis.

580. History of Psychology (3)
Limited to psychology majors with senior standing or graduate students.
The historical background of modern psychology.

587. Advanced Principles of Learning and Cognition (3)
Prerequisites: Psychology 210 and 270
Empirical data, basic principles and theoretical positions of major theorists in learning and cognitive psychology.

596. Selected Topics in Psychology (3)
Prerequisites: Psychology 101 and consent of instructor
Intensive study in specific areas of psychology. See Class Schedule for specific content.
Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

Public Administration and Urban Studies
In the College of Professional Studies and Fine Arts
Public Administration and Urban Studies is a Member of the National Association of Schools of Public Affairs and Administration (NASPAA)

Faculty
Emeritus: Bigger, Kitchen, Love
Chair: Rea
Professors: Clapp, Gazel, Gilbreath, Gitchoff, Rea
Associate Professors: Boostrom, Gupta, Henderson, Ross, Sparrow, Stock, Sutton
Assistant Professors: Calavita, Caves, Pugh, Walshok, Waste

Offered by the School of Public Administration and Urban Studies
Master of City Planning degree.
Master of Public Administration degree.
Major in criminal justice administration with the B.S. degree in applied arts and sciences.
(Refer to this section of the catalog on Criminal Justice Administration.)
Major in public administration with the A.B. degree in applied arts and sciences.
Emphasis in city planning.
Minor in public administration.
Certificate in public administration (available at Imperial Valley Campus only).

Public Administration Major
With the A.B. Degree in Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements.* A minor is not required with this major.

Preparation for the Major.
Accountancy 210A-210B or 212, Information Systems 180, Economics 101 and 102, Political Science 102, Public Administration 200, 220, and a three-unit course in statistics. (25 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major.
A minimum of 36 upper division units to include Public Administration 301, 310 or 312 or 315, 330, 340, 450, 460, 497 or 498; and 15 units selected with the approval of an adviser and filed with the Evaluations Office one semester before graduation.

Emphasis in City Planning.
Preparation for the Major.
Accountancy 210A-210B or 212, Economics 101 and 102, Information Systems 180, Political Science 102, Public Administration 200, 220, and a three-unit course in statistics. (25 units)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major.
A minimum of 36 upper division units to include Public Administration 301, 310 or 315, 330, 340, 450, 460, 497 or 498, and Public Administration 320, 420, 525, and two courses selected from Public Administration 310, 350, 510, and 512. A master plan of courses taken to fulfill this emphasis must be approved by a city planning program faculty adviser and filed with the Evaluations Office one semester before graduation.
Public Administration Minor

The minor in public administration consists of 24 units to include Political Science 102 and a course in Statistical Information Systems 180. Public Administration 301, 310 or 312 or 315, 330, 450, and two additional courses with the consent of a public administration adviser. Prerequisites for the minor include Economics 101 and 102. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Public Administration Certificate (Imperial Valley Campus)

To receive the certificate a candidate must complete approved program of 18 units with a minimum grade point average of 2.5. Up to two public administration courses taken at another institution may be included among the required courses with approval of the program adviser. Requirements include Public Administration 301, 330, three units selected from Public Administration 340, 341, or 450, and nine units in an area of specialization selected with the approval of the adviser.

LOWER DIVISION COURSES

200. The Urban Scene (3) I, II
Key issues in public administration, criminal justice administration, and city planning emphasis on land ownership and public decision-making processes, organizational behavior, effectiveness of criminal justice policies, zoning, and land use considerations.

220. Administrative Report Writing (3)
Study and practice of various methods used to develop effective writing skills applicable to communication in the public sector. This course will not satisfy the general education requirement in English composition.

UPPER DIVISION COURSES

(Desired for Undergraduates)

301. Concepts and Issues in Public Administration (3)
Theory and practice of governmental administration in differing environments: role of administrators in public policy, issues facing administrators, techniques of administration.

305. Studies in Public Administration (1-3) I, II Cr/NC
Offered only in Extension.
Analysis of selected administrative processes and problems of governmental agencies, their legal and political relations to other agencies and to the public. May be repeated with new content with consent of instructor. Maximum credit three units.

310. Management of Urban Governments (3) I, II
Problems of local units of government in the urban environment. Organization and function of local agencies. Emphasis on California.

312. Management of State Governments (3) I, II
Administrative and constitutional problems of state management in the American federal system. Emphasis on California.

316. Management of the Federal Government (3) II
Prerequisite: Public Administration 301. Problems in the administration of the federal government; for example, leadership, specialization, unity of command, oversight.

320. Introduction to Urban Planning (3) I, II
An introduction to community planning: regional, county, and city. Consideration of the Master Plan, including its purposes, contents, and method of adoption.

330. Public Personnel Administration (3) I, II
Analysis of personnel problems. Supervision and management of public employees and public organizations in an age of change.

340. Administrative Behavior (3) I, II
Social, psychological, and behavioral theories of organization; concepts of administrative leadership; organization and the individual; emphasis on governmental organizations.

341. Administrative Management (3) I, II
Areas and problems of administrative research, management and operations in public organizations including forecasting, resource allocation, planning and administration of programs, preparation of administrative reports. Quantitative models of managerial decision making.

350. Contemporary Urban Issues (3)
Focus on urban areas and urbanism from a public policy perspective; course examines and critiques the physical, economic, social and political dimensions of contemporary American cities utilizing a multidisciplinary approach.

420. Methods of Analysis in City Planning (3) II
Prerequisites: Public Administration 320 and basic statistics course. Methods of primary data collection and analysis of secondary data sources for problem solving in city planning, techniques associated with urban design and urban development.

450. Fiscal and Budgetary Policy (3) I, II
Prerequisites: Economics 101 and 102, Public Administration 301. Policies of fiscal administration and budgeting; political implications of the governmental budget process, revenue, debt, and treasury management; the functions of accounting and financial reporting.

460. Administration and Public Policy Development (3) I, II
Process of formulating public policy with emphasis on the role of public agencies.

462. Selected Topics in Public Affairs (3)
Selected topics in the administration of public policy and problems of public administrative organization. May be repeated with new content. Maximum credit six units.

463. Science, Technology and Public Policy (3)
Scientific and technological innovations currently being introduced into public organizations and their impact on the public policy-making process, and effects of government regulations and policy on scientific and technological developments in society.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

497. Investigation and Report (3) I, II
Prerequisite: Consent of instructor. Analysis of special topics. Admission by permission of instructor.

498. Internship in Public Administration (2-6) I, II Cr/NC
Prerequisites: Public Administration 301, 341 and all lower division required courses; credit or concurrent registration in Public Administration 330 or 340 and 450; senior standing and a "B" (3.0) average in the major.

499. Special Study (1-3) I, II
Prerequisite: Twelve division units in public administration. Individual study. Maximum credit six units.

UPPER DIVISION COURSES

(Also Acceptable for Advanced Degrees)

510. Intergovernmental Relations in the United States (3) I
Prerequisite: Public Administration 310 or 312 or 315. Constitution, political and administrative characteristics of American federalism, including regionalism, interstate compacts, and grants-in-aid.

512. The Metropolitan Area (3)
Prerequisite: Public Administration 310 or 312. Problems of government and administration arising from population patterns and physical and social structures of metropolitan areas.
520. Decision Making in the Urban Community (3)
Prerequisite: Public Administration 310.
Processes of decision making in the management of urban communities.

525. The U.S. City Planning Process (3) I
Prerequisite: Public Administration 320 or graduate standing.
Description and critique of traditional city planning process; styles and roles of city planner; city planning values and ethics.

530. Negotiation and Bargaining in the Public Service (3)
Prerequisite: Public Administration 301.
Specific issues such as strategies, the effects of threat, the physical setting, use of a third-party observer and theories of advocacy. Emphasis on analyzing simulations of the bargaining process and developing effective negotiation skills.

531. Governmental Employer-Employee Relations (3)
Prerequisite: Public Administration 330.
Historical development, legal basis and organizational implications of governmental employer-employee relations; emphasis on California local government.

540. Public Administrative Systems Analysis (3)
Prerequisites: Public Administration 301 and a statistics course.
Systems and organization analysis; work standards and units; procedures analysis; administrative planning.

550. Budgetary and Financial Administration in the Public Sector (3) II
Prerequisites: Public Administration 301 and 450.
Management trends in public sector financial administration; budgetary procedures and techniques; control and monitoring systems. Cash management, capital projects management, debt administration, disbursement, funds management, and auditing.

570. Administrative Law (3)
Prerequisite: Public Administration 301.
The law of public office and public officers, powers of administrative authorities, scope and limits of administrative powers, remedies against administrative action.

580. Comparative Public Administration (3)
Prerequisite: Public Administration 301.
Administrative organization and process of selected foreign and American governments. Analysis of the cultural basis of administrative systems.

GRADUATE COURSES IN PUBLIC ADMINISTRATION AND URBAN STUDIES
and CITY PLANNING
Refer to the Graduate Bulletin.

Recreation
In the College of Professional Studies and Fine Arts

Faculty
Emeritus: Butler, Hanson
Chair: Dustin
Professors: Dixon, Duncan, Dusty, Gattas, Geba
Associate Professors: Hutchinson, Lamke, Peterson
Assistant Professor: Nambo
Lecturers: Levin, Saiz

Offered by the Department
Major in recreation administration with the A.B. degree in applied arts and sciences.
Emphasis in outdoor recreation.
Emphasis in recreation systems management.
Emphasis in recreation therapy.
Minor in recreation.

Recreation Administration Major
With the A.B. Degree In Applied Arts and Sciences
All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."
The major in recreation administration may be planned with an emphasis in one of the following three areas: (1) Outdoor Recreation, (2) Recreation Systems Management, or (3) Recreation Therapy.
A minor is not required with this major.

Emphasis in Outdoor Recreation
Preparation for the Major.
Recreation 101, 107, 204, 205, 284, Biology 100, 100L; Geography 101; Geological Sciences 100, 101, (26 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 42-48 upper division units to include Biology 330, Geography 370, 575; Recreation 351, 464, 486, 498 (6 or 12 units), 565, 575, and nine units selected from Biology 358, 454, 520, 523, 524, 525, 544; Geography 570, Geological Sciences 301, History 340; Political Science 334, Psychology 340; Recreation 496, 549, 549.

Emphasis in Recreation Systems Management
Preparation for the Major.
Information Systems 290; Psychology 101; Recreation 101, 107, 204, 205, 284, Sociology 101; six units selected from Accountancy 100; Economics 101; Finance 140; Information Systems 180. (30 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 42 upper division units to include Recreation 351, 464, 498 (12 units), 565; and nine units selected from Recreation 360, 460; 470, 475, 485, 549, 575, 580; plus twelve units from Counselor Education 400; Economics 370; Marketing 370, 371, 373, Psychology 321, 340, 342, 347; Public Administration 301, 340, 350, 460; Sociology 325, 506, 514, 557.

Emphasis in Recreation Therapy
Preparation for the Major.
Biology 150; English 100; Information Systems 290; Psychology 101; Recreation 101, 107, 204, 205, 284; Sociology 101. (30 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 45 upper division units to include Recreation 351, 361, 371, 432, 464, 498 (12 units), 565; Biology 362; and twelve units selected from Counselor Education 400; Drama 310; Psychology 330, 335, 350, 351, 452, 454; Recreation 549, 575, 580; Sociology 513, 514, 516, 523, 526, 527, 528.
Recreation Minor
The minor in recreation consists of a minimum of 24 units to include Recreation 101, 107, 204, 205, 208, and nine upper division units selected from Recreation 340, 351, 361, 371, 452, 464, 475, 485, 486, 496, 546, 548, 549, 565, 575, 580.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

101. Introduction to Recreation Systems (3) I, II
Basic role of recreation and park systems in today’s society. Scope of recreation services, their history, philosophy, facilities, programs, personnel and evaluation.

107. Recreation Planning and Leadership (3) I, II
Two lectures and three hours of laboratory.

110. Principles of Camp Counseling (3) I, II
Principles of camp counseling and campcraft skills. Practical sessions aimed at preparing leaders for all aspects of organized youth camping. Required attendance at two weekend outings.

204. Challenges of Leisure (3) I, II
Prerequisites: Psychology 101 and Sociology 101.
Study of leisure and its impact on contemporary life; issues affecting recreation in today’s society. (Formerly numbered Recreation 104.)

205. Wilderness and the Leisure Experience (3) I, II
Use and abuse of natural resources for recreational purposes. Firsthand study of the effects of increased leisure on wilderness areas. Field experiences required.

208. Recreational Arts (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Recreation 107.
Development of an appreciation for leadership techniques in special events and the performing arts—music, dance, drama, arts and crafts. Focuses on organization, leadership, and supervision of these activities, rather than on the mastery of performing arts skills.

284. Supervised Field Work (3) I, II Cr/NC
Prerequisites: Consent of instructor or department chair, credit or concurrent registration in Recreation 107, and 125 hours experience in recreation leadership.
Observation and participation in community recreation leadership. Practical experience in a week at an agency.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific bachelor’s degree.

UPPER DIVISION COURSES

300. Honors Course (1-3) I, II
Refer to Honors Program.

340. Conduct of Recreational Sports (3) I, II
Three lectures plus outside practical experience in the conduct of recreational sports programs.
Organization of competition, community sports programs, administration of intramural athletics, and techniques of officiating.

351. Recreation for Special Populations (3) I, II
Analysis of the sociopsychological aspects of special populations and their implications for leisure time pursuits. Field trips may be included.

Recreation Minor
The minor in recreation consists of a minimum of 24 units to include Recreation 101, 107, 204, 205, 208, and nine upper division units selected from Recreation 340, 351, 361, 371, 452, 464, 475, 485, 486, 496, 546, 548, 549, 565, 575, 580.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

101. Introduction to Recreation Systems (3) I, II
Basic role of recreation and park systems in today’s society. Scope of recreation services, their history, philosophy, facilities, programs, personnel and evaluation.

107. Recreation Planning and Leadership (3) I, II
Two lectures and three hours of laboratory.

110. Principles of Camp Counseling (3) I, II
Principles of camp counseling and campcraft skills. Practical sessions aimed at preparing leaders for all aspects of organized youth camping. Required attendance at two weekend outings.

204. Challenges of Leisure (3) I, II
Prerequisites: Psychology 101 and Sociology 101.
Study of leisure and its impact on contemporary life; issues affecting recreation in today’s society. (Formerly numbered Recreation 104.)

205. Wilderness and the Leisure Experience (3) I, II
Use and abuse of natural resources for recreational purposes. Firsthand study of the effects of increased leisure on wilderness areas. Field experiences required.

208. Recreational Arts (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Recreation 107.
Development of an appreciation for leadership techniques in special events and the performing arts—music, dance, drama, arts and crafts. Focuses on organization, leadership, and supervision of these activities, rather than on the mastery of performing arts skills.

284. Supervised Field Work (3) I, II Cr/NC
Prerequisites: Consent of instructor or department chair, credit or concurrent registration in Recreation 107, and 125 hours experience in recreation leadership.
Observation and participation in community recreation leadership. Practical experience in a week at an agency.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific bachelor’s degree.

UPPER DIVISION COURSES

300. Honors Course (1-3) I, II
Refer to Honors Program.

340. Conduct of Recreational Sports (3) I, II
Three lectures plus outside practical experience in the conduct of recreational sports programs.
Organization of competition, community sports programs, administration of intramural athletics, and techniques of officiating.

351. Recreation for Special Populations (3) I, II
Analysis of the sociopsychological aspects of special populations and their implications for leisure time pursuits. Field trips may be included.

Recreation Minor
The minor in recreation consists of a minimum of 24 units to include Recreation 101, 107, 204, 205, 208, and nine upper division units selected from Recreation 340, 351, 361, 371, 452, 464, 475, 485, 486, 496, 496W, 504, 546, 548, 549, 565, 575, 580.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

101. Introduction to Recreation Systems (3) I, II
Basic role of recreation and park systems in today’s society. Scope of recreation services, their history, philosophy, facilities, programs, personnel and evaluation.

107. Recreation Planning and Leadership (3) I, II
Two lectures and three hours of laboratory.

110. Principles of Camp Counseling (3) I, II
Principles of camp counseling and campcraft skills. Practical sessions aimed at preparing leaders for all aspects of organized youth camping. Required attendance at two weekend outings.

204. Challenges of Leisure (3) I, II
Prerequisites: Psychology 101 and Sociology 101.
Study of leisure and its impact on contemporary life; issues affecting recreation in today’s society. (Formerly numbered Recreation 104.)

205. Wilderness and the Leisure Experience (3) I, II
Use and abuse of natural resources for recreational purposes. Firsthand study of the effects of increased leisure on wilderness areas. Field experiences required.

208. Recreational Arts (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Recreation 107.
Development of an appreciation for leadership techniques in special events and the performing arts—music, dance, drama, arts and crafts. Focuses on organization, leadership, and supervision of these activities, rather than on the mastery of performing arts skills.

284. Supervised Field Work (3) I, II Cr/NC
Prerequisites: Consent of instructor or department chair, credit or concurrent registration in Recreation 107, and 125 hours experience in recreation leadership.
Observation and participation in community recreation leadership. Practical experience in a week at an agency.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific bachelor’s degree.

UPPER DIVISION COURSES

300. Honors Course (1-3) I, II
Refer to Honors Program.

340. Conduct of Recreational Sports (3) I, II
Three lectures plus outside practical experience in the conduct of recreational sports programs.
Organization of competition, community sports programs, administration of intramural athletics, and techniques of officiating.

351. Recreation for Special Populations (3) I, II
Analysis of the sociopsychological aspects of special populations and their implications for leisure time pursuits. Field trips may be included.

361. Scientific Foundations of Recreation Therapy (3) I, II
Prerequisite: Recreation 351 required for recreation majors; open to others with consent of instructor.
Theoretical principles of therapy and prevention. Survey of medical and psychiatric pathologic and terminologic.

371. Professional Foundations of Recreation Therapy (3) I, II
Prerequisite: Recreation 351 required for recreation majors; open to others with consent of instructor.
Analysis of present-day policies, programs, implementation and future aspects of professional principles of recreation therapy.

396W. Writing in Recreation Settings (3) I, II
Prerequisite: Satisfactory completion of the Writing Competency requirement; the General Education writing requirement, or advanced placement.
Theory and practice of writing in the field of recreation with application to various settings.

452. Clinical Methodology of Recreation Therapy (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Recreation 351, 361, 371.
Integration and application of clinical principles and therapeutic procedures. Emphasis on methodological and theoretical constructs of recreation therapy.

460. Industrial, Corporate and Military Recreation (3) I, II
Prerequisite: Junior standing. Recommended: Recreation 101 and 107.
Industrial, corporate, and military recreation services with emphasis on organizational patterns including underlying and theoretical concepts, finances, types of programs, specialized administrative skills, and current trends and issues.

464. Supervision of Recreation Agencies (3)
Prerequisite: Recreation 107.
Interagency relations, personnel policies and procedures, volunteer coordination, supervisory techniques, community organization, public relations and fund raising in public, private and commercial settings.

470. Recreational Travel and Tourism Management (3)
Prerequisite: Recommended: Recreation 101 and 204.
Tourism management, economics, marketing and development. Recognizing indicators of tourism’s recreational, social and cultural impact. Organization of tourism industry and its components.

475. Commercial Recreation Management (3)
Analysis of commercial recreation field, including design, development, programming and marketing aspects of various commercial recreation enterprises.

484. Directed Leadership (3) I, II, S Cr/NC
One lecture and eight hours of supervised activity.
Prerequisite: Recreation 284.
Supervised leadership experience in public and private recreation agencies. Maximum credit six units.

485. Outdoor Recreation Planning and Policy (3) I, II
Nature and scope of recreation in nonurban areas. Public demand for recreation and its impact on natural resources. Management, planning, research and operation of regional and national park and recreation areas. (Formerly entitled "Non-Urban Recreation Resources").

486. Interpretative Techniques in Outdoor Recreation (3) I, II

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific bachelor’s degree.
498. Internship in Recreation Systems (6 or 12) Cr/NC
Twenty off-campus hours required per week for 6-unit program, or 40 off-campus hours required per week for 12-unit programs.
Prerequisites: Consent of instructor or department chair; completion of all required lower division recreation courses, and completion of both Standard or Multimedia First Aid certificate and CPR certificate by end of semester.
Students will be assigned to various governmental, commercial, private or medical agencies conducting recreation programs. Variety of experiences in supervision and administration. Maximum credit 12 units.

499. Special Study (1-3) I, II
Prerequisite: Consent of special study adviser.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

548. Aquatic Administration (3)
Management of swimming pools, beaches, lakes and marinas; safety factors; legal requirements; health standards; facilities and programming.

549. Camp Administration (3)
Prerequisite: Recreation 110.
Operation of resident, day and travel camps. Staff management, health and safety, finances, food services, maintenance, planning and publicity.

565. Recreation Systems Administration and Research (3) I, II
Prerequisite: Recreation 464.
Organizational behavior, budgeting, financing, legal and legislative aspects, contracts, grants and future trends of recreation systems. Methods of investigation, data analysis, and reporting in relation to research needs in recreation. (Formerly numbered Recreation 465.)

575. Designing Recreation Areas and Facilities (3)
Prerequisite: Recreation 101.
Design principles and concepts applied to planning and development of park and recreation areas and facilities. (Formerly titled Management of Recreation Areas and Facilities.)

580. Leisure and the Aging Process (3)
Concepts of the relationship between leisure and gerontology are examined. Influence of leisure and recreation on work and life satisfaction of older adults.

GRADUATE COURSES
Refer to the Graduate Bulletin.
296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Intended for Undergraduates)

300. Honors Course (1-3) I, II
Refer to Honors Program.

301. Hebrew Scriptures (3) I, II
Prerequisite: Three units of religious studies.
Problems of composition and historical significance in the context of religious meanings of the scriptures known to Jews as the Tanakh (the Pentateuch, the Prophets and the Writings) and to Christians as the Old Testament.

305. The New Testament (3) I, II
Prerequisite: Three units of religious studies. Prerequisite recommended: Religious Studies 301.
The problems of composition and historical significance in the context of religious meanings.

310. Greek and Latin Fathers (3)
Prerequisite: Three units of religious studies.
Readings in patristic thought from Ignatius of Antioch through Augustine.

312. Russian Orthodox Spirituality (3)
Prerequisite: Three units of religious studies.
Major doctrines, practices and developments in Eastern Christianity with focus on Russian Orthodoxy.

314. Medieval Western Christianity (3)
Prerequisite: Three units of religious studies.
Readings in source materials illustrative of the doctrinal and institutional development of the Western Church during the medieval period to early stages of the Reformation.

316. The Reformation and Beginnings of Modern Christianity (3)
Prerequisite: Three units of religious studies.
Readings in source materials illustrative of the doctrinal and institutional development of the Western Church during the Reformation and the Enlightenment.

318. Modern Religious Thought in the West (3)
Prerequisite: Three units of religious studies.
Selected issues in religious thought in Europe and America during the nineteenth and twentieth centuries.

330. Topics in Judaism (3)
Prerequisite: Three units of religious studies.
Selected topics such as early Hebrew religion, the Talmudic period, medieval Judaism, modern Judaism from the emancipation to the Holocaust, contemporary thought. May be repeated with different content. See Class Schedule for specific content. Maximum credit six units.

340. Islam (3)
Prerequisite: Three units of religious studies.
Major doctrines, practices and developments from the time of Mohammed to the present.

350. Dynamics of Religious Experience (3)
Prerequisite: Three units of religious studies.
Chief data and major approaches in the study of individuals' religious behavior and experiences. Special attention to relevant problems in world religions and philosophical views of man.

353. The Human Dimension of Religion and Psychology (3) II
Prerequisite: Three units of religious studies.
The meeting of religion and psychology. Selected religious thinkers and selected psychologists and personality theorists from the psychoanalytic, behavioral and humanistic traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units of which three units may be applicable to General Education.

354. Religion and Society (3)
Prerequisite: Three units of religious studies.
Theological and religious interpretations of the social dimension of human existence. Critique of social science inquiry into traditional and contemporary forms of religious life.

360. Religion, Literature and the Arts (3)
Prerequisite: Three units of religious studies.
The relations between religion, literature and the arts in major cultural traditions.

363. Religion and the Sciences (3)
Prerequisite: Three units of religious studies.
Relation of the natural sciences to religious questions of nature, humanity and destiny.

365. Religion and Contemporary Moral Issues (3)
Prerequisite: Three units of religious studies.
Critical exploration of moral dilemmas (biomedical, social, economic, political) from eastern and western religious perspectives.

396W. Writing/Research Methods (1) I, II
Prerequisite: Six upper division units in religious studies. Must be taken in conjunction with an upper division course in religious studies to satisfy upper division writing requirement.

401. Religions of India (3)
Prerequisite: Three units of religious studies.
Phenomenological studies in the major religious traditions of India, especially Hinduism and Buddhism.

403. Religions of the Far East (3)
Prerequisite: Three units of religious studies.
Phenomenological studies in the major religious traditions of East Asia, especially China and Japan.

480. Ways of Spiritual Transformation (3)
Doctrines and practices of metaphysical self-transformation; studies in readings selected from various world religions.

496. Experimental Topics (1-4)
Prerequisite: Three units of religious studies.
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

498. Senior Project (3)
Prerequisite: Religious Studies 396W, twelve upper division units in religious studies, and consent of instructor.
Seminar workshop and project in the comparative study of religious practices, doctrines, themes (such as religious ethics, mysticism), phenomenological studies in religions, etc.

499. Special Study (1-3) I, II
Prerequisite: Twelve upper division units in religious studies.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

506. Spiritual Traditions of India (3)
Prerequisite: Three units of religious studies.
Inda's religious and philosophical modes of thought, reading and analysis of primary texts in translation.

508. Spiritual Traditions of East Asia (3)
Prerequisite: Three units of religious studies.
China and East Asian religious and philosophical modes of thought, especially those of China and Japan; reading and analysis of primary texts in translation.

518. The Oracular Tradition (3)
Prerequisite: Three units of religious studies.
Oracular traditions of East and West, with special attention to the I Ching and the Tarot.
522. Religion in America (3)
Prerequisite: Three units of religious studies.
Selected topics in religion in America, such as Deism, transcendentalism, pragmatism, church-state relations, Jewish identity, etc. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

580. A Major Figure (3) I, II
Prerequisite: Three units of religious studies.
Life, works and significance of one major figure in a religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

581. A Metaphysical Doctrine (3) I, II
Prerequisite: Three units of religious studies.
Systematic study of a selected theme or problem basic to the teachings of one of the major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin

Russian
In the College of Arts and Letters

Faculty
Chair: Wulbern
Professors: Dukas, Fetzer, Kozlik

Offered by the Department of
German and Russian Languages and Literatures
Master of Arts degree in Russian.
Major in Russian with the A.B. degree in liberal arts and sciences.
Teaching major in Russian for the single subject teaching credential in foreign languages.
Minor in Russian.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration or change of major.

Russian Major
With the A.B. Degree In Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."
Students majoring in Russian must complete a minor in another field to be approved by the departmental adviser in Russian.

Preparation for the Major. Russian 101, 102, 201, 202, 211 and 212. (21 units.)

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in Russian to include Russian 301, 302, 305A-305B; and 12 units in 500-level courses in Russian.

Russian Major
For the Single Subject Teaching Credential in Foreign Languages
All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.
This major may be used by students in teacher education as an undergraduate major for the A.B. degree in liberal arts and sciences. A minor in another field approved by the departmental adviser in Russian is required for the degree.

Preparation for the Major. Russian 101, 102, 201, 202, 211, and 212. (21 units.)

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units in Russian to include 301, 302, 305A-305B, 430, 580, 581; and nine upper division units in Russian.

Proficiency Examination. Before taking a student teaching assignment in Russian, the candidate for the credential may be required to pass an oral and written proficiency examination in the language, administered by the Department of German and Russian Languages and Literatures. The candidate must consult with the chair of the Department of German and Russian Languages and Literatures concerning this examination.
Russian Minor

The minor in Russian consists of a minimum of 15 units in Russian to include Russian 201 and six units of upper division courses. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

Secondary school language courses can be used as follows:
1. The first two years of high school level language count as the equivalent of the first semester of a college level course, although students with fewer than three years of high school level language may complete the first semester college course for graduation credit.
2. The first three years of high school level language count as the equivalent of the first two college semesters, although students with fewer than four years of high school level language may complete the second semester college course for graduation credit. Students who have completed three years of foreign language in high school will not receive credit for the first semester college course unless at least five years separate the last high school course and the first college course.
3. Four years of high school level language count as the equivalent of three college semesters, thus fulfilling the foreign language requirement.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences

Students electing the study of Russian to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Russian 201 or the equivalent level of achievement. The usual sequence of course work is Russian 101, 102, and 201. Refer to section of catalog on "Graduation Requirements" for additional ways to satisfy competency.

LOWER DIVISION COURSES

Native speakers of Russian will not receive credit for taking lower division courses in Russian except with advance approval from the department.

All lower division courses in Russian are taught in Russian.

No credit will be given for Russian 101, 102, 201, 202, 301, 302 taken out of sequence.

101. First Course in Russian (4½) I, II
Four lectures and one hour of laboratory. Pronunciation, oral practice, reading in Russian literature, minimum essentials of grammar. Not open to students who have completed three years of high school Russian unless the third course was completed five or more years ago.

102. Second Course in Russian (4½) I, II
Four lectures and one hour of laboratory. Prerequisite: Russian 101 or two years of high school Russian. Continuation of Russian 101. Not open to students who have completed four years of high school Russian unless the fourth course was completed five or more years ago.

201. Third Course in Russian (4) I
Prerequisite: Russian 102 or three years of high school Russian. Practical application of the basic principles of the language. Oral practice, reading in Russian of cultural material.

202. Fourth Course in Russian (4) II
Prerequisite: Russian 201. Continuation of Russian 201.

211. Conversation (2) II
Prerequisite: Russian 102 or three years of high school Russian. Practice in the spoken language with emphasis on the articulation of Russian sounds; practical vocabulary; conversation on everyday cultural topics.
Social Science
In the College of Arts and Letters

Faculty
Social Science is administered through the Social Science Committee, composed of faculty members from the Departments of Anthropology, Economics, Geography, History, Political Science and Sociology. Albert O'Brien, Department of History, is coordinator.

Advising
All College of Arts and Letters majors are urged to consult with their department advisor as soon as possible; they are required to meet with their department advisor within the first two semesters after declaration or change of major.

Social Science Major
With the A.B. Degree in Liberal Arts and Sciences
All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." The adviser for this emphasis is Dr. Wade C. Pendleton, Department of Anthropology.

Preparation for the Major.
Three units of statistics selected from Economics 201, Mathematics 250, Political Science 201, Psychology 270, or Sociology 201. A six-unit sequence in each of these three following departments selected from: (1) Anthropology 101, 102; (2) Economics 100, 101, 102; (3) Geography 101, 102; (4) History 105, 106, 110A-110B, 115A-115B; (5) Mexican-American Studies 110A-110B, 115, 120A-120B, 125; (6) Political Science 101, 103, 110; (7) Sociology 101, 110. Statistics courses taken in a social science department may not be used in fulfillment of that department's six-unit sequence. (21 units.)

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Students are encouraged to meet the foreign language competency requirement for the Social Science major by taking a language appropriate to their interests in African or Middle Eastern studies. Refer to the section of this catalog on "Graduation Requirements." An minor is required with the major.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Emphasis in Africa and the Middle East
The adviser for this emphasis is Dr. Wade C. Pendleton, Department of Anthropology.

Preparation for the Major.
History 100, 101, Humanities 157 and/or 158, and three to six units selected from Anthropology 101, 102, Comparative Literature 270A, 270B, Economics 101, 102, Geography 101, 102. (15 units.) Students should note that a number of the upper division required and recommended courses listed below have lower division prerequisites, but these prerequisites do not constitute requirements per se for the completion of the major.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Students are encouraged to meet the foreign language competency requirement for the Social Science major by taking a language appropriate to their interests in African or Middle Eastern studies. Refer to the section of this catalog on "Graduation Requirements." An minor is required with the major.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Major. A minimum of 30 upper division units, selected with the consent of the adviser, to include at least 15 units in anthropology, economics, geography, history, political science or religious studies, or a combination of 15 units in art, comparative literature and religious studies. (21 units.) The following courses are recommended: Anthropology 449 or 474, Geography 335, six units from History 470A, 470B, 472A and 472B, and Political Science 365 or 366. In addition, the following courses are recommended: Anthropology 390, 424, 426, 428; Art 365, 569; Comparative Literature 535; Economics 365, 489, Political Science 361, 381; Religious Studies 340.

Emphasis in Environment
The advisers for this emphasis are Dr. Warren Johnson, Department of Geography, and Dr. Douglas Strong, Department of History.

Preparation for the Major.
Biology 100 and 101: a six-unit sequence in each of the following fields: (1) anthropology, (2) economics, (3) geography, (4) history, (5) political science, and (6) sociology. (22 units.) Courses recommended for these sequences are as follows: Anthropology 100 and 102, Economics 101 and 102, Geography 101 and 102, History 105, 106, or 110A-110B or 115A-115B, Political Science 101 and 102, Sociology 101 and 110. Additional recommended courses include Biology 140 and Geological Sciences 100 and 101.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements." The adviser for this emphasis is Dr. Wade C. Pendleton, Department of Anthropology.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Major. A minimum of 30 upper division units to include nine units selected from Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Emphasis in the Middle East
The adviser for this emphasis is Dr. Wade C. Pendleton, Department of Anthropology.

Preparation for the Major.
History 100, 101, Humanities 157 and/or 158, and three to six units selected from Anthropology 101, 102, Comparative Literature 270A, 270B, Economics 101, 102, Geography 101, 102. (15 units.) Students should note that a number of the upper division required and recommended courses listed below have lower division prerequisites, but these prerequisites do not constitute requirements per se for the completion of the major.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Students are encouraged to meet the foreign language competency requirement for the Social Science major by taking a language appropriate to their interests in African or Middle Eastern studies. Refer to the section of this catalog on "Graduation Requirements." An minor is required with the major.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Major. A minimum of 30 upper division units, selected with the consent of the adviser, to include at least 15 units in anthropology, economics, geography, history, political science or religious studies, or a combination of 15 units in art, comparative literature and religious studies. (21 units.) The following courses are recommended: Anthropology 449 or 474, Geography 335, six units from History 470A, 470B, 472A and 472B, and Political Science 365 or 366. In addition, the following courses are recommended: Anthropology 390, 424, 426, 428; Art 365, 569; Comparative Literature 535; Economics 365, 489, Political Science 361, 381; Religious Studies 340.

Emphasis in Environment
The advisers for this emphasis are Dr. Warren Johnson, Department of Geography, and Dr. Douglas Strong, Department of History.

Preparation for the Major.
Biology 100 and 101: a six-unit sequence in each of the following fields: (1) anthropology, (2) economics, (3) geography, (4) history, (5) political science, and (6) sociology. (22 units.) Courses recommended for these sequences are as follows: Anthropology 100 and 102, Economics 101 and 102, Geography 101 and 102, History 105, 106, or 110A-110B or 115A-115B, Political Science 101 and 102, Sociology 101 and 110. Additional recommended courses include Biology 140 and Geological Sciences 100 and 101.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements." The adviser for this emphasis is Dr. Wade C. Pendleton, Department of Anthropology.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Major. A minimum of 30 upper division units to include nine units selected from Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Emphasis in the Middle East
The adviser for this emphasis is Dr. Wade C. Pendleton, Department of Anthropology.

Preparation for the Major.
History 100, 101, Humanities 157 and/or 158, and three to six units selected from Anthropology 101, 102, Comparative Literature 270A, 270B, Economics 101, 102, Geography 101, 102. (15 units.) Students should note that a number of the upper division required and recommended courses listed below have lower division prerequisites, but these prerequisites do not constitute requirements per se for the completion of the major.

Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Students are encouraged to meet the foreign language competency requirement for the Social Science major by taking a language appropriate to their interests in African or Middle Eastern studies. Refer to the section of this catalog on "Graduation Requirements." An minor is required with the major.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 396W or Sociology 396W with a grade of C (2,0) or better.

Major. A minimum of 30 upper division units, selected with the consent of the adviser, to include at least 15 units in anthropology, economics, geography, history, political science or religious studies, or a combination of 15 units in art, comparative literature and religious studies. (21 units.) The following courses are recommended: Anthropology 449 or 474, Geography 335, six units from History 470A, 470B, 472A and 472B, and Political Science 365 or 366. In addition, the following courses are recommended: Anthropology 390, 424, 426, 428; Art 365, 569; Comparative Literature 535; Economics 365, 489, Political Science 361, 381; Religious Studies 340.

Social Science Major
For the Single Subject Teaching Credential
All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education. This major may be used by students in teacher education as an undergraduate major for the A.B. degree in liberal arts and sciences. The adviser for this emphasis is Dr. Wade C. Pendleton, Department of Anthropology.
Foreign Language Requirement. Competency (equivalent to that which is normally attained through three consecutive courses of college study) is required in one foreign language as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements." Spanish is recommended for those planning to work in this part of the United States.

Upper Division Writing Requirement. Passing the University Writing Examination or Anthropology 396W or History 396W or History 430W or Sociology 396W with a grade of C (2.0) or better.

Major. A minimum of 30 upper division units as follows:

Three units of geography selected from Geography 312, 321, 350, 351, 354, 356, 371.

Six units of history selected from History 541A-541B.

Quantitative Analysis in the Social Sciences Certificate

The Director of the Social Science Research Laboratory is coordinator for this program. The purpose of this certificate program is to prepare students to be able to carry out social science work which is often required in public agencies and the private sector. The certificate requires fifteen units, nine to twelve of which must be upper division to include:

UPPER DIVISION COURSE (intended for Undergraduates)

498. Senior Seminar (3)
Advanced reading and independent research on selected topic integrating at least two of the social science disciplines. Usually taught by two instructors representing two of the six social science disciplines of anthropology, economics, geography, history, political science and sociology.

GRADUATE COURSES
Refer to the Graduate Bulletin.
518 / Social Work

Preparation for the Major. Social Work 110, 120, 130; Biology 100; Economics 100; Health Science 101; Psychology 101; Sociology 101; Psychology 270 or Sociology 201 or Mathematics 119. (27 units.)

Foreign Language Requirement for Liberal Arts and Sciences only. Competency (equivalent to 103) in one foreign language is required as part of the preparation for the major. Refer to section of catalog on "Graduation Requirements.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 42 upper division units, in a prescribed pattern to include Social Work 350, 360, 370A-370B, 381, 483A-483B, 485A-485B (6 units), 491, and six units of upper division electives in social work.

Recommended: Biology 336 and 336L, Psychology 330, Sociology 422, and courses from anthropology, literature, history, philosophy, political science, economics, psychology and sociology. Students should consult with their adviser in social work for selection and arrangement of courses.

Social Work Minor

The minor in social work consists of 24 units to include Social Work 110, 120, Psychology 101; Sociology 101, and Social Work 360, 370A, 381, and 496 or 499.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Human Services Paraprofessional Certificate Program

This certificate is designed primarily for ex-offenders and ex-substance abusers who seek paraprofessional positions in human services. A certificate in paraprofessional human services may be sought by ex-offenders and ex-substance abusers who:

(a) do not meet the prerequisite requirements for a major in social work for the A.B. degree, but who are interested in pursuing a paraprofessional career in human services; (b) are not required to program; (c) have already earned a bachelor's degree and are not interested in a second degree.

Students are admitted to the certificate program as regular students of San Diego State University. Students must apply to the program as well as to the university. Credibility for the Program:

Awarding of the certificate requires completion of an approved pattern of ten courses (30 units) with a minimum grade point average of 2.0, to include Social Work 350, 360, 370B, 381, 483A-483B (3 units), Health Science 296; Philosophy 101, and one course in another professional discipline with consent of coordinator. Course offerings under this program may only be taken in the on-campus program.

For further information, consult the Coordinator, Undergraduate Social Work Program.

LOWER DIVISION COURSES

Note: All social work courses numbered 110-596 formerly offered under rubric of social welfare.

110. Human Societies and Social Problems (3) I, II

Perspectives on problems of human societies and their relation to contemporary social problems and issues. Emphasis on distributive problems and forms of stratification.

120. Explorations in Human Services (3) I, II

Two lectures and three hours of field work. Orientation to the field of social welfare. Readings, class discussions and participation in social work activities on campus and in the community. Work as a volunteer in the agency is required in a variety of field settings. Scheduling is flexible.

130. Marriage and Contemporary Human Relations (3) I, II

Developing understanding and ability to evaluate various concepts, attitudes and value systems as they relate to marriage and other contemporary human relationships. Assist students in acquiring abilities to develop and sustain interpersonal relationships.

UPPER DIVISION COURSES

(350) Cultural Pluralism (3) I, II

Understanding of the American society as a culturally pluralistic social process and an understanding of social work as a culturally directed profession with emphasis on the concept of cultural identities created by one's values, ideologies, knowledge and behavior.

351. Perspectives on Life in Urban Communities (3) I, II

Characteristics and processes of contemporary urban communities as they shape the lifestyles of people. Urban communities examined in terms of their functional and dysfunctional capacities for meeting human needs.

360. Perspectives on Human Behavior and the Social Environment (3) I, II

Prerequisite: Completion of Foundations section of General Education. Interdisciplinary, comparative, and critical approach to explanatory theories of human behavior. Focus on interrelatedness of factors that affect the nature and quality of human life with linkage to the social welfare of individuals, families and communities.

370A. Social Policies and Social Issues (3) I, II

Prerequisites: Social Work 110 and 120. Major social forces and institutions as they relate to and determine social policy emphasizing social welfare services in an industrialized society.

370B. Social Provision and Program Evaluation (3) I, II

Prerequisite: Social Work 370A. Issues and dilemmas related to the provision of social services, and analysis of social work programs. Evaluating effectiveness and efficiency of social service programs and social work services.

381. Seminar in Basic Skills in Social Work Practice (3) I, II

Prerequisite: Junior standing. Helping skills in social work practice make use of assessment and interviewing theory. Addresses written, verbal interpersonal skills with individuals, small groups and communities with regard to assessment in social work practice.

382. Seminar in Intermediate Skill Development for Social Workers (3) I, II

Prerequisite: Social Work 381. Students are expected to participate in simulation of social work practice situations. Presentation of research and theory will be interwoven with structured activities and methods. Assimilation of knowledge and skills.

400. Social Work Practice: Child Welfare (3) I, II

Prerequisite: Social Work 370A. Problems of children and supportive, supplementary and substitute social services which have been developed to meet these needs.

410. Social Work Practice: Family Issues (3) I, II

Prerequisite: Social Work 370A. Issues relative to social work intervention with families, including major social work and interpersonal family problem situations. Family practice methods and social service provisions, and social policy issues around family needs.

420. Aging and the Social Services (3) I, II

Prerequisite: Social Work 370A. Contemporary status, social problems and needs, and developmental theories of the elderly population. Social service delivery system which serves the elderly.
483A-483B. Integrating Seminar (3-3) I, II
Prerequisites: Social Work 370B and a 2.0 grade point average in all junior level social work courses required in the major; concurrent registration in Social Work 489A for 483A; concurrent registration in Social Work 489B for 483B.

The integration of social work theory, principles and practice techniques.

484A-484B. Field Experience in Social Work (3-9, 3-9) I, II
Prerequisites: Completion of all 300-level social work courses with a minimum 2.0 grade point average; concurrent registration in Social Work 483A for 484A; concurrent registration in Social Work 483B for 484B; arrangements made during prior semester with Coordinator of Field Instruction.

A minimum of 12 units (6 in Social Work 489A and 6 in Social Work 489B) is required. Students spend 16 hours per week per semester in practice field assignments in selected social work agencies or settings.

491. Methods of Social Work Research (3) I, II
Prerequisite: Social Work 370B.
Definition and purpose of research in social welfare and social work. Formulation of research problems, selecting a design and methodology; techniques of collecting, organizing, interpreting and analyzing data.

496. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

497. Investigation and Report (3) I, II
Prerequisite: Consent of instructor.
Analysis of special topics in social welfare.

499. Special Study (1-3) I, II Cr/NC
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

540. Seminar in Social Effects of the Legal Process (3)
Prerequisite: Upper division, undergraduate social work major; or classified graduate standing in the School of Social Work; or classified graduate standing or uncategorized standing with consent of the director.
Structure and functions of law as it bears upon such groups as defendants in criminal prosecutions, recipients of welfare programs, conservatees in mental health hearings, children in juvenile court dependency proceedings. The legal conflicts social workers may encounter between their ethics and their duties to clients and agency.

550. Seminar in Administration and Decision Making in Human Service (3)
Prerequisite: Upper division, undergraduate social work major; or classified graduate standing in the School of Social Work; or classified graduate standing or uncategorized standing with consent of the director.
Relationship between the development of social policy and its actual implementation through program development and delivery of human services. Administrative actions including development are considered in the ways that policy is shaped and reflected through social programs.

596. Experimental Topics (1-4)
Selected topics in social work. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Sociology Minor
The minor in sociology consists of 15-21 units, twelve of which must be upper division units, nine of which must be in one of the following areas (exclusive of prerequisites):

**Theory and Methods:** Prerequisites: Sociology 101*, 201, Sociology 400, 401, 403, 405, 460, 464, 465.
**Power Relations and Inequality:** Prerequisites: Sociology 101*, 422, 440, Sociology 325, 333, 424, 537, 546, 547, 557. (Sociology 422 is prerequisite to 537, Sociology 440 is prerequisite to 546.)
**Social Change:** Prerequisites: Sociology 101*, Sociology 350, 404, 506, 508, 519, 546, 547, 557. (Sociology 440 is prerequisite to 546.)
**Law and Society:** Prerequisites: Sociology 101*, Sociology 440, 510, 513, 514, 515, 516, 518, 525.
**Health and Social Behavior:** Prerequisites: Sociology 101*, Sociology 350, 510, 523, 526, 527, 528, 534.
**Sociology of Organizations and Institutions:** Prerequisites: Sociology 101*, Sociology 422, 432, 440, 465, 520, 521, 538, 539.
**Social Interaction and Intimate Relations:** Prerequisites: Sociology 101*, Sociology 333, 334, 440, 534, 535, 536.
**Social Research:** Prerequisites: Sociology 101*, 201*. Sociology 460, 464, 465, 560.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

* Unless waived by the department.

---

LOWER DIVISION COURSES

101. Introductory Sociology (3) I, II
This course is prerequisite to all upper division courses in sociology. Basic theoretical perspectives, concepts, and methods of sociology applied to analysis of social issues and processes. Selected topics include, e.g., social stratification, social organization, minority-majority relationships, social change, deviant behavior.

110. Contemporary Social Problems (3) I, II
Prerequisite: Sociology 101.
Modern social problems recognizing the sociological factors involved. Emphasis on the scientific method of approach. An evaluation of various causes and solutions of problems not open to students with credit in Mexican-American Studies 115.

201. Elementary Social Statistics (3) I, II
Prerequisites: Sociology 101 and qualification on the Mathematics Placement Examination. Analysis and presentation of elementary materials in the fields of sociology and social work. Tabular and graphic presentation, analysis of frequency distribution, trends, simple correlation, sampling and reliability techniques. Students with credit or concurrent registration in another statistics course will be awarded a total of four units for the two (or more) courses.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES
(Indented for Undergraduates)

300. Honors Course (1-3)
Refer to Honors Program.

325. Minority Group Relations (3) I, II
Prerequisite: Sociology 101.
Theories of ethnic prejudice. Analysis of racial and ethnic discrimination. An analytical inquiry into sources of friction and causes of conflict between majority and minority groups.

333. Sex Roles in Contemporary Societies (3) I, II
Prerequisite: Sociology 101.
Male-female relationships in occupational, educational, and familial settings viewed historically and cross-culturally. Changing concepts of femininity and masculinity. Images of men and women in literature, in the mass media, and in laws and judicial decisions.

334. Love, Jealousy, and Envy (3)
Prerequisite: Sociology 101.
Sociological understanding of human emotions developed through consideration of history and social context. An examination of the social and psychological implications of envy. Psychological and cultural causes of envy and jealousy. Sociological approaches to understanding and management of emotions analyzed from a sociological point of view. Some implications for self-understanding and the development of human relationships.

350. Population and Contemporary Issues (3) I, II
Prerequisite: Sociology 101.
Analysis of population processes as they affect and are affected by such contemporary issues as rapid world population growth, famine, ecological pressures, abortion, women's liberation, racial and ethnic relations, and illegal migration.

359W. Writing in Sociology (3)
Prerequisite: Sociology 101.
Introduction and practice in methods of writing in the social sciences. Principles of scientific writing and research. Writing and presentation of social science papers. Satisfies University upper division writing requirement for students who have completed 40 units, fulfills the Writing Competency requirement, and completed the General Education requirement in Written Communication.

400. History of Social Thought (3)
Prerequisite: Sociology 101.
Development of social thought prior to the appearance of sociology as a scientific discipline. Major emphasis on European contributions.

401. Classical Sociological Theory (3) I, II
Prerequisite: Sociology 101.
Theories of the major early European and American sociologists, including Marx, Weber, Durkheim, Pareto, Cooley, Mead and others.

403. Contemporary Sociological Theory (3)
Prerequisite recommended: Sociology 101.
Types and trends of contemporary sociological theory. Selected theoretical works.

404. Social Change (3) I, II
Prerequisite: Sociology 101.
Social change at the interpersonal, institutional, and societal levels in a comparative perspective. Detailed analysis of modernization.

405. Sociological Laboratory II (1)
Three hours of laboratory. Prerequisite: Must be taken in conjunction with a three-unit upper division course. The application of experimental, quantitative or qualitative methods to sociological problems and/or the use of experimental, social simulation teaching techniques.

422. Social Organization (3) I, II
Prerequisite: Sociology 101.
Major forms of social organization such as institutions, associations, bureaucracies, primary groups, and social stratification. Study of underlying processes of development, social control and organizational change.

424. Wealth, Status and Power (3) I, II
Prerequisite: Sociology 101.
Distribution of wealth, power, privilege and prestige in society. Causes, outcomes and dynamics of inequality; process of upward and downward social mobility; and changing characteristics of social class to politics, the economy, and other institutions.

432. Formal Organization (3)
Prerequisite: Sociology 101.
The structure and dynamics of various types of complex formal organization. Their development, internal structure and processes, external relations and function in contemporary society.
440. Social Psychology: Sociological Approaches (3) I, II
Prerequisite: Sociology 101.
Survey of the major theoretical frameworks, problems and findings of sociology and social psychology concerning group behavior and group membership, the socialization of the individual, and processes of social interaction.

460. Quantitative Methods in Social Research (3) II
Prerequisite: Sociology 201.
The use of parametric and nonparametric techniques in the analysis of social research data, including analysis of variance, covariance, multiple and partial correlation techniques.

464. Survey and Experimental Research Methods (3) I, II
Prerequisite: Sociology 201.
Examination of the research process from research design through data processing, analysis, and interpretation. Emphasis on quantitative research techniques including sample surveys, questionnaire construction, scaling techniques and experimental designs.

465. Qualitative Research Methods (3)
Prerequisite: Sociology 201.
Examination of field research methods including interviewing, observation, participant observation and case studies. Problems in research design, gaining and maintaining rapport, and analysis and interpretation of data.

480. Field Internship (3-6) I, II
Prerequisite: Sociology 201.
Supervised field placement of students in community agencies. Practical experiences related to studies within the sociology curriculum. Maximum credit six units.

485. Contacts and Careers: A Sociological Perspective (3) I, II
Prerequisite: Sociology 101.
Sociological examination of how careers are initiated and shaped by the social network and career paths.

496. Experimental Topics (1-4) I, II
Prerequisite: Consent of the instructor.
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 496, 496, 596 courses applicable to a bachelor's degree.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

506. Modernization of Traditional Societies (3)
Prerequisite: Sociology 101.
Examines theories of social change relative to industrialization and urbanization of pre-industrial societies. Comparative study of institutional and social-psychological consequences of industrialization, utilizing historical and contemporary study of macrosocial change.

508. Sociology of the Future (3)
Prerequisite: Sociology 101.
Examines sociological aspects of alternative futures and the role of contemporary behavior in creating those futures. Analysis of projections in selected areas such as family, technology, work and leisure.

510. Sociology of Deviance (3) I, II
Prerequisite: Sociology 101.
Survey of many alleged aberrant phenomena in society as seen in society today in various forms of individual, family, community and world disorganization, such as crime, prostitution, extreme alcoholism, migratory workers, divorce, revolution, war, etc.

513. Criminology (3) I, II
Prerequisite: Sociology 101.
The extent and characteristics of crime; consideration of physical, mental, economic and sociological causes of crime.

514. Juvenile Delinquency (3) I, II
Prerequisite: Sociology 101.
The nature and extent of delinquency; the causative factors involved; methods of control and prevention, with special attention to the protective and remedial measures offered by the school, home, juvenile court, correctional institutions and camps, probation and parole, and recreational agencies.

515. Societal Processing of Criminals and Delinquents (3)
Prerequisite: Sociology 101.
Sociological features of social processing of criminals and delinquents in terms of sociological theory, concepts and research.

516. Sociology of Punishments and Corrections (3)
Prerequisite: Sociology 101.
Historical, theoretical and empirical analyses of punishment and rehabilitation, analysis of contemporary correctional settings, and examination of prison populations and alternatives to prison.

518. Women and Crime (3)
Prerequisite: Sociology 101.
Female criminality in our society and the feminist movement. Examination of social science literature on women and crime and the experience of women with the criminal justice system, crime and the feminist movement. Examination of field research methods including interviewing, observation, participant observation and case studies. Problems in research design, gaining and maintaining rapport, and analysis and interpretation of data.

519. Topics in Comparative Societies (3)
Prerequisite: Sociology 101.
Analysis of contemporary social structure, the process of modernization and current social problems in selected areas of the world. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

520. Industrial Sociology (3) I, II
Prerequisite: Sociology 101.
Industrial bureaucracies as they relate to social environment. Consequences of various models of organization for managerial, worker, and marginal work roles. Functions of labor unions, and industrial structures and conflict.

521. Sociology of Occupations and Professions (3) I, II
Prerequisite: Sociology 101.
Division of labor, status ranking of occupations, authority structures, occupational and professional organization, occupational socialization, problems of identity and role conflict.

523. The Sociology of Mental Illness (3) I, II
Prerequisite: Sociology 101.
The social definition, ecology and control of mental illness across various societies. The social differences between mental illness and other forms of deviance. The role of social differentiation, stratification and urbanization upon the incidence, prevalence, and differential service utilization of mental illness.

526. Sociology of Health and Illness (3) I, II
Prerequisite: Sociology 101.
Sociological conception of health, disease, and healing; socialization, roles, conflict and social control in medical settings; health and medical institutions in comparative sociocultural contexts.

527. Sociology of Aging (3) I, II
Prerequisite: Sociology 101.
Study of the social processes and patterns of development and change in the second half of the life cycle. Conceptual, data-based, and policy-oriented research in cross-cultural comparisons of occupational, educational, familial, recreational, and political opportunities for the aging.
528. Sociology of Death (3) I, II
Prerequisite: Sociology 101.
Examines sociological concepts and theories of the process of dying. Comparative study of death and dying with emphasis on social, psychological and social organization approaches. Consideration of contemporary social-ethical issues surrounding dying in our society.

534. Sexuality in Modern Society (3) I, II
Prerequisite: Sociology 101.
Analysis of landmark sex research and pornography in the United States and in selected other societies. Changing norms in premarital, marital and extramarital attitudes and behaviors. Implications for the individual, family and society.

535. The American Family and its Alternatives (3) I, II
Prerequisite: Sociology 101.
Analysis of contemporary dating, engagement, marriage, family, and other intimate relationships in the United States as they are affected by changes in the culture.

536. The Family in Cross-Cultural Perspective (3)
Prerequisite: Sociology 101. Recommended: Sociology 535.
Comparative study of selected family systems in the past and present. Family and par-family forms in intentional communities of the 19th century compared with contemporary communal experiments. Ethnic and class differences in family organization. (Not open to students with credit in Family Studies and Consumer Sciences 536.)

537. Political Sociology (3)
Prerequisite: Sociology 422.
Social organization of political processes. Power and authority, social class, primary groups, collective behavior, social change and other sociological factors considered in their relationships to political processes.

538. Sociology of Religion (3)
Prerequisite: Sociology 101. Recommended: Sociology 401 and 546.
The role of religion in society as cult and institution, including primitive religion, modern sects and churches, ritual, secularization and religious movements.

539. Sociology of Education (3) I, II
Prerequisite: Sociology 101.
Social organization of education, teaching as a profession. Class, ethnic and other social factors affecting the educational process. Educational institutions and the community.

540. Sociology of Mass Communication (3) II
Prerequisite: Sociology 101. Recommended: Sociology 440 and 546.
Sociological analysis of the processes and effects of mass communications in different social systems, their functions and dysfunctions and their relationships to other social institutions.

546. Collective Behavior (3)
Prerequisite: Sociology 440.
The basic processes of social behavior in masses and groups, including crowd behavior, fads, fashions, crazes, panics, rumors; sects and cults; heroes and scapegoats; social movements; effects of mass communication.

547. Protests, Reforms and Revolutions (3) I, II
Prerequisite: Sociology 101. Recommended: Sociology 422 and 545.
Revolutionary and reform movements in relationship to the larger society. Conditions leading to development of social movements, emergence of leadership, ideologies, strategies, recruitment of members and social consequences, case studies in depth.

557. Urban Sociology (3) I, II
Prerequisite: Sociology 101.
The structure and function of the modern city: types of neighborhoods; forms of recreation; social forces in a metropolitan area; types of urban personalities and groups; rural-urban conflicts of culture. Practical field studies required.

558. Urbanization and Modernization in Latin America (3)
Prerequisite: Sociology 101.
Impact of urbanization and modernization on status, class, and power relations in Latin America. Changes in beliefs, attitudes and values as affected by the processes of urbanization and modernization.

560. Applied Sociological Research (3) I, II
Prerequisite: Sociology 464 or 465.
Practical research skills learned while participating in original and applied sociological research projects. Group, rather than individual, research projects.

596. Current Topics in Sociology (1-3) I, II
Prerequisite: Sociology 101.
Selected specialized, controversial or currently relevant topics in sociology. Maximum credit any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units. (Formerly numbered Sociology 511.)

597. Investigation and Report (3) I, II
Prerequisites: Fifteen units in sociology and consent of instructor.
Analysis of special topics in sociology. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.
Spanish
In the College of Arts and Letters

Faculty
Emeritus: Baker, Sender
Chair: Barrera
Professors: Barrera, Case, Christensen, Head, Jiménez-Vera, Lemus, Segade, Silverman
Associate Professors: Higgins, O'Brien, Santaíl, Talamantes, Weeter, Young

Offered by the Department of Spanish and Portuguese Languages and Literatures
Master of Arts degree in Spanish.
Major in Spanish with the A.B. degree in liberal arts and sciences.
Teaching major in Spanish for the single subject teaching credential in foreign languages.
Minor in Spanish.
Certificate in Translation and Certificate in Court Interpreting.

Advising
All College of Arts and Letters majors are urged to consult with their department adviser as soon as possible; they are required to meet with their department adviser within the first two semesters after declaration of major.

Spanish Major
With the A.B. Degree in Liberal Arts and Sciences

All candidates for a degree in liberal arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements." Students majoring in Spanish must complete a minor in another field approved by the departmental adviser in Spanish.

Preparation for the Major: Spanish 101, 102, 201, 202, 211, and 212 or equivalents. See adviser. (21 1/2 units.)

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in Spanish to include Spanish 301, 302, and 18 units selected from the following areas of specialization:

Spanish Linguistics: Spanish 305A-305B, 306A-306B, Spanish 301, 302, and 18 units selected from the following areas of specialization:

Spanish Major
For the Single Subject Teaching Credential in Foreign Languages

All candidates for a teaching credential must complete all requirements as outlined in this section of the catalog under the College of Education.

A.B. degree in liberal arts and sciences. A minor in another field approved by the departmental adviser in Spanish is required for the degree.

Preparation for the Major: Spanish 101, 102, 201, 202, 211, and 212. (21 1/2 units.)

Foreign Language Requirement. The foreign language requirement for graduation is automatically fulfilled through course work for preparation for the major.

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Spanish Minor

The minor in Spanish consists of a minimum of 15 units in Spanish, six units of which must be in upper division courses.

Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Translation Certificate and Court Interpreting Certificate

The Department of Spanish and Portuguese Languages and Literatures offers a Certificate in Translation and a Certificate in Court Interpreting. Both certificates require 15 units in Spanish and Portuguese Languages and Literatures. In addition, the student must complete an examination in the field of interpretation from Spanish to English and from English to Spanish. Prospective candidates for the certificates should possess a bilingual facility in Spanish and English. All students must complete a grade of B or better in Spanish 305W (pass the University Writing Examination), and Spanish 301, 302 and 450 (University Upper Division Writing Competency Examination). Upon completing 15 units from the course work, students must take a departmental examination. Upon successful completion of an examination, the student shall be awarded the appropriate certificate.

High School Equivalents

High school foreign language courses may be used for purposes of placement in college and may be counted toward major and general education requirements, if applicable.

Conflict Between Minor and General Education Requirements

Minor in Spanish may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.

Foreign Language Requirement for the A.B. Degree in Liberal Arts and Sciences

Students electing the study of Spanish to fulfill the foreign language requirement for the Bachelor of Arts degree in liberal arts and sciences must successfully complete Spanish 201 or 306A, 306B, and 448, 450, 561; six units from 440, 441, 442, and three units of upper division electives.
LOWER DIVISION COURSES

Native speakers of Spanish from foreign countries will not receive credit for taking lower division courses in Spanish, except with advance approval from the department.

All lower division courses in Spanish are taught in Spanish.

No credit will be given for Spanish 101, 102, 201, 202, 301 taken out of sequence.

101. Elementary (41/2) I, II
Four lectures and one hour of laboratory
Prerequisites: Spanish 101 or two years of high school Spanish.
Continuation of Spanish 101. Not open to students who have completed four years of high school Spanish unless the third course was completed five or more years ago.

102. Elementary (41/2) I, II
Four lectures and one hour of laboratory
Prerequisites: Spanish 101 or two years of high school Spanish.
Continuation of Spanish 101. Not open to students who have completed four years of high school Spanish unless the fourth course was completed five or more years ago.

201. Elementary (41/2) I, II, S
Four lectures and one hour of laboratory
Prerequisites: Spanish 102 or three years of high school Spanish.
Continuation of Spanish 102, with additional outside reading and oral and written reports.

202. Intermediate (4) I, II, S
Prerequisites: Spanish 201 or four years of high school Spanish.
Review of essentials of Spanish grammar. Readings in Spanish of cultural materials, short stories, novels or plays; oral practice, outside readings with oral and written reports.

211. Intermediate Conversation and Writing (2)
Prerequisites: Spanish 102 or three years of high school Spanish.
Emphasis on the spoken language with a modicum of writing practice; practical vocabulary and useful phrases, conversation on assigned social, cultural or literary topics at an intermediate level; all class discussion conducted in Spanish. Not open to students with credit for Spanish 211-Y.

211-Y. Intermediate Conversation and Writing in Mexico (3)
Prerequisites: Spanish 102 or three years of high school Spanish.
Emphasis on the spoken language with a modicum of writing practice; practical vocabulary and useful phrases, conversation on assigned social, cultural or literary topics at an intermediate level; all class discussion conducted in Spanish; course arranged in four fashion in Mexico during winter interim or summer period. Not open to students with credit for Spanish 211.

212. Intermediate Conversation and Writing (2) I, II, S
Prerequisites: Spanish 201 and 211 or four years of high school Spanish.
Continuation of Spanish 211. May be taken concurrently with Spanish 202.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES

(Exposed for Undergraduates)

All upper division courses in Spanish are taught in Spanish unless otherwise stated.

301. Advanced Oral and Written Composition (3) I, II, S
Advanced Spanish composition. All class discussions conducted in Spanish. Not open to students with credit for Spanish 301-Y.

301-Y. Advanced Conversation and Writing in Mexico (3)
Prerequisites: Spanish 211 or 211-Y and 212 or five years of high school Spanish or near native-level proficiency.
Emphasis on the spoken language with practice in the written language; conversation on assigned social, cultural or literary topics at an advanced level; all class discussion conducted in Spanish; course arranged in four fashion in Mexico during winter interim or summer period. Not open to students with credit for Spanish 301.

302. Advanced Oral and Written Composition (3) I, II, S
Prerequisites: Spanish 301.
Continuation of Spanish 301, with additional outside reading and oral and written reports. All class discussions conducted in Spanish.

303. Advanced Composition and Style (3)
Prerequisites: Spanish 301 and 302.
Expository writing course, based on study of outstanding works of imaginative literature, the arts, emphasis on mastery of style and organization.

304. Introduction to Spanish-English/English-Spanish Translation (3) I, II
Prerequisite: Spanish 450.

305A-305B. Survey Course in Spanish Literature (3-3)
Prerequisite: Spanish 202.
Important movements, authors and works in Spanish literature from the Middle Ages to the present.

306A-306B. Survey of Spanish-American Literature (3-3)
Prerequisites: Spanish 202 and 212.
Reading from representative Spanish-American authors during colonial, revolutionary and modern periods.

440. Spanish Civilization (3)
Prerequisites: Spanish 202 and 212.
The major currents and characteristics of Mexican culture, as expressed through the centuries in literature, philosophy and the arts. Not open to students with credit in Humanities 350.

441. Spanish-Amerlcan Civilization (3)
Prerequisites: Spanish 202 and 212 (except at the Imperial Valley Campus.)
The major currents and characteristics of Mexican culture, as expressed through the centuries in literature, philosophy and the arts.

442. Mexican Civilization (3)
Prerequisites: Spanish 202 and 212.
The major currents and characteristics of Mexican culture, as expressed through the centuries in literature, philosophy and the arts.

448. Spanish Linguistics (3) I, II, S
Prerequisites: Spanish 301 and 302.
Structural, historical and applied Spanish linguistics. (Formerly numbered Spanish 548.)

449. Phonetics and Phonemics (3) I, II, S
Prerequisites: Spanish 301 and 302.
Study of Spanish and Spanish phonemic systems. Problems involved in teaching of Spanish pronunciation to English-speaking students. (Formerly numbered Spanish 549.)

450. Advanced Grammar (3) I, II, S
Prerequisites: Spanish 301 and 302.
Significant systematic features of modern Spanish grammar with analysis of passages from literature. Required for credential applicants. (Formerly numbered Spanish 490.)

450. Golden Age Literature (3) I, II, S
Prerequisites: Spanish 305A-305B.
Major writers and works, concentrating on prose and lyric poetry. (Formerly numbered Spanish 550.)
UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

510A-510B. Modern Spanish Drama (3-3)
Prerequisites: Spanish 305A-305B.
Semester I: Development of Spanish theater from 1800 to Spanish Civil War. Major literary movements and themes analyzed through study of works of representative dramatists of the period. Semester II: Spanish theater from the Civil War to the present. Theater of the absurd, theater of social justice, underground theater, and new directions in today's Spanish drama.

515A-515B. Mexican Literature (3-3)
Prerequisites: Spanish 306A-306B.
Aspects of Mexican culture. Semester I: A rapid survey of Mexican literature from the colonial period to the twentieth century. Semester II: The twentieth century, with emphasis on the contemporary Mexican novel and theater.

520. Caribbean Area Countries Literature (3)
Prerequisites: Spanish 306A-306B.
Literature of Caribbean Islands, Central America, Colombia and Venezuela, from colonial period to present. Special emphasis on contemporary era.

521. Andean Countries Literature (3)
Prerequisites: Spanish 306A-306B.
Literature of Ecuador, Peru, Bolivia and Chile from the period immediately preceding the Spanish conquest to the present.

524. River Plate Literature (3)
Prerequisites: Spanish 306A-306B.
Literature of Argentina, Paraguay and Uruguay from colonial period to present.

530. Nineteenth Century Spanish Novel and Short Story (3)
Prerequisites: Spanish 305A-305B.
The development of the novel and short story in Spain in the nineteenth century.

532. Twentieth Century Spanish Novel and Short Story (3)
Prerequisites: Spanish 305A-305B.
The development of the novel and short story in Spain from 1936, with emphasis on the novel of the generation of 1898.

533. Contemporary Spanish Novel (3)
Prerequisites: Spanish 305A-305B.
The development of the novel and short story in Spain since 1936.

556. Translation of Literary Works: A Critical Comparison (3)
Prerequisites: Spanish 493.
Techniques and methods of translating literary texts from English to Spanish and Spanish to English; textual and stylistic problems in different periods, genres, and dialects, with emphasis on contemporary literature.

557. Spanish/Spanish-American Dialectology (3)
Prerequisites: Spanish 450; one English composition course and one linguistics course.
Phonological, morphological, syntactic and lexical characteristics of the principal dialects of Spanish.

561. Methods in Teaching Spanish as a Second Language (3)
Prerequisites: Spanish 448 or 450.
Teaching of Spanish as a second language: contemporary theory and methods. Not open to students with credit or concurrent enrollment in French 561.

596. Selected Studies In Spanish (3)
Topics in Spanish or Spanish-American language, literature, culture and linguistics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

Refer to the Graduate Bulletin.
Speech Communication
in the College of Professional Studies and Fine Arts

Speech Communication Major

With the A.B. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on “Graduation Requirements.” A minor is not required with this major.

Preparation for the Major. Speech Communication 105, 111A, 135, 160, and three units of electives (except Speech Communication 105). (15 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 27 upper division units to include Speech Communication 350, 356 and 392; three units selected from Speech Communication 362, 391, 392, 407, and 506; and 15 units selected from 300- through 500-numbered Speech Communication courses excluding 396W. No more than nine units from the following Speech Communication courses: 300, 301, 309, 361, 400, 496, 499.

Speech Communication Major

For the Single Subject Teaching Credential in English/Speech

This major may be used by the students in teacher education as an undergraduate major for the A.B. degree in applied arts and sciences.

Preparation for the Major. English 100, Speech Communication 105, 111A, 135, 160, 191, 204. (21 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or completing one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in speech communication to include Speech Communication 362, 391, 392, 506, 530; three units of 392; and six units selected from any of the courses above.

Credentail requirements. Eighteen units to include:
1. Language: Three units from Linguistics 101, 520, 524 or 550.
2. Literature: Nine units from English 250A or 250B; 256A or 256B; or 527 or 528.
3. Composition: Six units from English 200 and 500W.

Speech Communication Minor

The minor in speech communication consists of a minimum of 24 units to include 12 units selected from Speech Communication 111A, 135, 160, 191, 204; and 12 units of electives most selected from Speech Communication 296, 496, 596; and 692. Electives may be used to satisfy preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES

103. Oral Communication (3) I, II
Training in fundamental processes of oral expression: method of obtaining and organizing material; outlining; principles of attention and delivery; practice in construction and delivery of material; evaluation. Practice in oral interpretation of selected texts. Practice through recording and live presentation of various forms of speech. Speech Communication 103 recommended in general education curriculum.

105. Introduction to Speech Communication (3) I, II, S
The status of the discipline, interrelationships among communication specialties within the field, and career opportunities. Intended for students who are either considering or who are committed to a speech communication major or minor. This class should be completed as early as possible.

111A. Fundamentals of Interpretation (3) I, II
Literature and principles of its oral presentation by the interpreter.

111B. Intermediate Interpretation (3)
Prerequisite recommended: Speech Communication 111A.

135. Principles of Communication (3) I, II
Identifying, identifying, and study of fundamental communication principles such as identification, description, and study of fundamental communication principles such as identification, description, perception, and memory. Discussion of interpersonal communication context.

160. Argumentation (3) I, II
Argument as a form of discourse: organizing, supporting, presenting, and refuting arguments in a variety of contexts; evaluating arguments, including common fallacies in reasoning.

161. Intercollegiate Forensics (1) I, II Cr/NC
Prerequisite recommended: Speech Communication 111A.
Instruction in four areas: analysis, research, and evaluation of events, practice in oral interpretation of selected texts.

191. Group Discussion (3) I, II

204. Advanced Public Speaking (3) I, II
Advanced Public Speaking 103.
Prerequisite recommended: Speech Communication 103.
Practice in expository and persuasive speaking on subjects of current interest. Practice in expository and persuasive speaking in both formal and informal settings. Practice in expository and persuasive speaking on subjects of current interest. Practice in expository and persuasive speaking.

296. Experimental Topics (1-4)
Selected topics. May be repeated with new content. See Class Schedule for specific course content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a major. 296 topics may be repeated with new content. See Class Schedule for specific course content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a major.

American Studies 111A. (Formerly numbered Speech Communication 111A.)
300. Honors Course (1-3) I, II Cr/NC
Refer to Honors Program.

301. Management of Speech Activities (1) I, II Cr/NC
Two hours of activity.
Planning, preparation, management and supervision of speech tournaments and other interscholastic activities under the supervision of the speech communication staff. Maximum credit two units.

309. Workshop in Speech (1-3) Cr/NC
Prerequisite: Speech Communication 105.
Study of some problems in speech communication. Maximum credit six units.

315. Nonverbal Communication (3)
Prerequisites recommended: Speech Communication 204 or 391 and 135.
Theory and practice of nonverbal aspects of speech communication, with emphasis on proxemics, kinesics, and paralinguistics.

345. Interpersonal Communication Theory and Application (3) I, II
Prerequisite: Speech Communication 135.
Theory and application of effective interpersonal communication principles in both intimate and nonintimate contexts. Addresses theoretical and empirical evidence on communication behaviors and strategies and emphasis on initiation, development, and termination. Relationship of communication behaviors to relational goals.

350. Classical Rhetorical Theory to 1700 (3)
Rhetorical theories from the origins to the Renaissance. Emphasis on the theories of Plato, Aristotle, Cicero and Quintillian, and the application of principles to rhetorical discourse.

354. Contemporary Rhetorical Theory and Criticism (3) I, II
Emphasis on rhetorical criticism and contemporary developments since the Renaissance. The theories of Blair, Campbell, Whitely, Richards, Weaver, Burke and others investigated as systems of rhetorical criticism and sources of principles of rhetorical discourse.

361. Intercollegiate Forensics (1) I, II Cr/NC
Two hours of activity required.
Two field trips required. Three hours of activity and two coaching hours to be assigned. Credit for participation in intercollegiate program. Maximum credit four units for Speech Communication 161 and 361.

362. Advanced Argumentation (3) I
Prerequisite recommended: Speech Communication 160.
The approaches to argument and the patterns and problems in argument. Consideration of implications for society, written and oral reports.

380. American Public Address (3) I, II
Public discourse from the colonial period to the present.

391. Group Communication (3) I, II
The theoretical processes of small group communication. Emphasis on the theory of group formation, interaction, procedures, and leadership.

392. Business and Professional Speech (3)
Prerequisite recommended: Speech Communication 204.
Communication principles in a variety of business and professional contexts, including interviewing, technical and nontechnical oral presentations. Skills in parliamentary procedure also developed.

398W. Research and Writing in Speech Communication (3)
Prerequisite: Speech Communication 105.
Rationale for research and research techniques in speech communication. Practice in writing research reports. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication.

400. Contemporary Forensic Problems (2) I, II Cr/NC
Prerequisite: Speech Communication 160.
Identification of significant arguments in political, economic and social problems confronting Twentieth Century United States. Use of case studies to emphasize research tools leading to comprehensive analysis. Oral performance stressed. See Class Schedule for specific content. Maximum credit eight units.

406. Organizational Communication (3) I, II
The organization as a communication system; role of the organization in persuasive campaigns; communication strategies and problems within the organizational structure.

407. Communicative Perspectives on Interviewing (3)
Prerequisite recommended: Speech Communication 135.
Application of communicative theory to interviewing situations. Emphasis on perception, source, message, and receiver variables, defensive communication, feedback, phrasing of questions, ways to enhance respondent participation, and formulation of behavioral objectives. Classroom simulation, supplemented by out-of-class interviews.

475. Intercultural Communication (3) I, II
Study of communication with emphasis on the influence of cultural background, perception, social organization, language and nonverbal messages in the cross-cultural communication experience.

485. Internship in Speech Communication (1-3) I, II
Prerequisites: Nine units of speech communication to include Speech Communication 105, and approval of the Director of Internships.
Prearranged and supervised fieldwork or activity that extend of academic course work in speech communication. Maximum credit six units, no more than three of which may be taken in any one semester.

486. Selected Topics in Speech Communication (1-4) I, II
Prerequisite: Twelve units in speech communication.
A specialized study of selected topics from the areas of speech communication. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit nine units.

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor.
Individual study. Maximum credit six units.
589. Ethics of Speech Communication (3)
Classical and modern ethical concepts applied to oral persuasion.

590. Empirical Study in Speech Communication (3) I, II
Philosophy of social science and application to current research in speech communication. Theories and constructs related to communication: analysis of current research literature. (Formerly numbered Speech Communication 537.)

592. Persuasion (3) I, II
Prerequisite recommended: Speech Communication 103 or 204.
Persuasion with emphasis on psychological principles. Research project on a significant problem.

596. Selected Topics in Speech Communication (1-3)
Prerequisite: Senior standing or above.
Specialized study. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

---

Telecommunications and Film

In the College of Professional Studies and Fine Arts

Faculty
Emeritus: Jones, Lee
Chair: Anderson
Professors: Anderson, Heighton, Jameson, Johnson, Madsen, Real, Sanders, Steen,
Witgerspoon, Wylie
Associate Professors: Martin, Meador
Assistant Professors: Blue, Cahill
Lecturers: Mickelson, Van Deerlin

Offered by the Department
- Master of Arts degree in radio-television.
- Major in radio-television, with the A.B. degree in applied arts and sciences.
- Major in radio-television, with the B.S. degree in applied arts and sciences.
- Major in drama, with emphasis in design for television. See Drama.
- Minor in radio-television.

Radio-Television Major
With the A.B. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."
The A.B. degree is designed for students interested in developing a more liberal education as they develop competency in and understanding of, radio, television and film. The A.B. degree permits flexible programs utilizing courses in and out of the department which will prepare students in such broad areas as design for television and film, media communications theory, broadcast advertising, instructional radio and television, and the like.
A minor is required with this major.

Preparation for the Major: Telecommunications and Film 100, 110, 121, 122, 123, and 160.

Upper Division Writing Requirement. Passing the University Writing Examination or English 305W with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units in telecommunications and film to include Telecommunications and Film 200 or 505 and 21 units of electives selected with the approval of the department. No more than 27 upper division units in telecommunications and film may be counted toward the 124 units required for graduation.

Radio-Television Major
With the B.S. Degree in Applied Arts and Sciences

All candidates for a degree in applied arts and sciences must complete the graduation requirements listed in the section of this catalog on "Graduation Requirements."
The B.S. degree is designed to prepare students for professions in radio, television and film or for occupations where extensive knowledge of these media is required.
A minor is not required with this major.

Preparation for the Major: Telecommunications and Film 100, 110, 120, 121, 122, 123, and 160. Telecommunications and Film 260 and 280 are required for students selecting the production sequence; 260 or 280 is required for students selecting 401 in the management sequence. (21-27 units.)

Upper Division Writing Requirement. Passing the University Writing Examination or English 305W with a grade of C (2.0) or better.

Major. A minimum of 36 upper division units to include a core professional sequence, a minimum of six units in an allied professional sequence, and six to twelve units of electives as required.
Core Professional Sequences.  
Management: Telecommunications and Film 310, 400, 500, 505, 540 and six units selected from Telecommunications and Film 401, 530, 535, 590 (21 units.)  
Production: Telecommunications and Film 401, 510, 550A and nine units selected from Telecommunications and Film 520, 550B, 560, 580, 589, 590 (18 units.)  

Alleged Allied Sequences. (Courses taken in Core Professional Sequences cannot be counted toward the Allied Professional Sequence.)  
Criticism: Comparative Literature 562; Linguistics 551; Music 351, 355, Philosophy 523, 531, 541, 542; Speech Communication 354, 530.  
Education: Education 376, 377, 383; Development, Administration and Technology 540, 541, 544; Psychology 330, Telecommunications and Film 570.  
Graphic Art: Art 340, 341, 440, 441, 590; Industrial Arts 381, 482.  
Industrial Arts: Industrial Arts 341, 361, 443, 444, 462, 563.  
Information Systems: Information Systems 380, 480, 482.  
International Media: Political Science 375, 577; Telecommunications and Film 363, 590.  
Law and Government: Journalism 502; Political Science 335, 346, 347A, 347B, Telecommunications and Film 505.  
Management: Management 350, 351, 352, 356, 453, Telecommunications and Film 401, 500.  
Mass Communication: Journalism 408, 500, 503, 509; Political Science 310, 326; Psychology 326, 342; Sociology 422, 440, 460, 545, 546; Telecommunications and Film 400, 562.  
News: Journalism 320, 325, 474, 475, 502, 529; Telecommunications and Film 310, 505.  
Performance: Drama 330, 431, 532; Speech Communication 380, 508, 535; Telecommunications and Film 390, 391.  
Playwriting: Drama 420; English 527, 572, 581W; Telecommunications and Film 510.  
Production Design and Management: Art 381, 451, 481, 581; Drama 440, 448, 540, 545A; Psychology 320, Telecommunications and Film 550A, 550B.  
Research Methods: Telecommunications and Film 400; Management 301, 304, Journalism 509, Psychology 322, 342, 405, Sociology 460, 464.  

Radio-Television Minor  
The minor in radio-television consists of a minimum of 15-24 units, 12 units of which must be in upper division. The minor is a focused pattern of courses selected with the approval of the departmental adviser for minors. Requirements for admission to the minor are Sophomore standing (30 or more units completed) with a minimum grade point average of 3.0 overall and a grade of B or better in either Telecommunications and Film 100, 160 or 315.  
Radio-television minors may select one of the following areas:  
Film as Art and Communication: Telecommunications and Film 160, 363, 364, 562, and three units of electives.  
Public Telecommunication: Telecommunications and Film 100 or 315, 505, 570, 575, 590  
Telecommunications Management: Telecommunications and Film 100 or 315, 500, 505, plus nine units selected from the following: Telecommunications and Film 400, 440, 530, 535, 540, 575.  

Obtaining courses to fulfill this minor is not easy because of the high demand for courses. Courses in the minor may not be counted toward the major, but may be used to satisfy preparation for the major and general education requirements, if applicable.  

Lower Division Courses  
100. Backgrounds in Broadcasting (3) I, II  
Theory and operation of the broadcasting industry to include the history and regulation of broadcasting in the U.S., the social and economic setting of American broadcasting and the organization of commercial and educational radio and television stations.  
101. History of American Film Industry (3) II  
Major forces that shaped and are shaping the American motion picture industry. How the character and direction of the industry has been determined by corporate structure of the motion picture industry. Problems associated with censorship and impact of new technologies.  
110. Telecommunications and Film Writing (3) I, II  
Prerequisites: Satisfactory completion of the English Placement Test and Writing Competency requirements. Proof of completion of prerequisites required. Limited to telecommunications and film majors.  
Theory and practice in writing for electronic and film media. Audience analysis, problems of timing, aural style, scripting techniques.  
120. Staging and Art for Television and Film (3) I, II  
Two lectures and more than three hours of activity.  
Prerequisite: Limited to telecommunication and film majors.  
Aesthetic considerations and technical practices in staging, lighting, and graphics for television and film. Practical experience in university sponsored productions.  
121. Audio Production (3) I, II  
Two lectures and more than three hours of activity.  
Prerequisite: Limited to telecommunication and film majors.  
Theory of audio production, use of basic audio equipment, and basic sound production.  
122. Still and Motion Picture Photography (3) I, II  
Two lectures and more than three hours of activity.  
Prerequisite: Limited to telecommunication and film majors.  
Basic film equipment and its use in preparation of photographic materials for film and TV production. Practical experience in University sponsored productions.  
123. Video Production (3) I, II  
Two lectures and more than three hours of activity.  
Prerequisite: Limited to telecommunication and film majors.  
Video production.  
160. Cinema as Art and Communication (3) I, II  
An appreciative survey of cinema in its various forms. Historical and stylistic influences on the aesthetic values and social implications of cinema. Illustrated by screen examples.  
260. Film Techniques (3) I, II  
Two lectures and three hours of activity.  
Prerequisite: Telecommunications and Film 110, 120, 121, 122, with average grade of 2.0 or better.  
Principles of film theory and practice in cinematography and editing; use of motion picture better.  
280. Television Production and Directing (3) I, II  
Two lectures and more than three hours of activity.  
Prerequisite: Telecommunications and Film 110, 120, 121, 122, 123, with average grade of 2.0 or better.  
Theory and practice in the skills and knowledge of television production. Includes basic program types, responsibilities of director, and director's relationships to production staff.  
296. Experimental Topics (1-4)  
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
UPPER DIVISION COURSES
(Intended for Undergraduates)

310. Radio and Television News Writing and Editing (3) I, II
Gathering, writing and editing news in special forms required by radio and television. This course not open to students with credit in Journalism 470.

315. Theory and Criticism of Broadcasting and Film (3)
Analysis of social, political, economic and aesthetic criticism of broadcasting and film. The function of radio, television and film in the mass communication process. Not open to communications and film majors.

320. Workshop in Educational Television (3)
Open to teachers and students interested in instruction by television. The procedures and theories of television production as it pertains to closed-circuit and instructional use of television. The selection and utilization of program content and the method of presenting material through the television medium will be discussed and demonstrated. Not open to students with credit in Development, Administration and Technology 553.

363. International Cinema (3) I
Foreign feature films as expression of rational cultures. Maximum credit six units of which three units may be applicable to General Education. May be repeated with new content. See Class Schedule for specific content.

364. Film Classics (3) I, II
Prerequisite: Upper division standing.
Viewing and analysis of those American and foreign theatrical films particularly of the sound era, which represent milestones in the development of the cinema. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

390. Broadcast and Film Performance (3) I
Two lectures and more than three hours of activity. Prerequisites: Drama 110 or Speech Communication 111A, and Drama 130.
Preparation and delivery of materials before the microphone and camera. Practical experience in University-sponsored productions.

391. Acting for TV and Film (3) II
Two lectures and more than three hours of activity. Prerequisite: Drama 130.
Interrelationship between acting and the various media - radio, television, film. Experience in film and television productions. Practical experience in University-sponsored productions.

400. Broadcast Research (3)
Prerequisite: Two courses in broadcasting, journalism or marketing.
Research in radio and television decision-making processes. Methodologies, analyses and applications of audience, programming, and advertising research.

401. Business Aspects of Television and Film Production (3) I, II
Prerequisites: Telecommunications and Film 260 or 280. Normally taken concurrently with Telecommunications and Film 560 or 580. Financing, preproduction planning, and postproduction of television and film. (Formerly numbered Telecommunications and Film 501.)

440. Broadcast Commercial Practices (3) I
Prerequisite: Twelve units in telecommunications and film. Consideration of the structure and procedures in broadcast advertising organizations. Policies, training, and evaluation of research tools.

495. Workshop in Broadcasting (1-3)
Study of some problem in radio, television or film. Maximum credit six units. (Formerly numbered Telecommunications and Film 495A.)

496. Experimental Topics (1-3)
Prerequisites: Upper division standing, permission of instructor. Selected topics. May be repeated with new content. See Class Schedule for specific bachelor's degree.

497. Internship in Telecommunications and Film (3) Cr/NC
Supervised work in area telecommunications and film organizations under combined supervision of professionals and professors. (Formerly numbered Telecommunications and Film 495B.)

499. Special Study (1-3) I, II
Prerequisite: Consent of instructor. Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

500. Broadcast Management (3) I, II
Prerequisite: Telecommunications and Film 100
Administration and organization of radio and television, including radio and television as Social effects and criticism of television programing, research, campaign planning, media strategy, time purchasing, and evaluation.

505. Government and Broadcasting (3) I, II
Prerequisite: Telecommunications and Film 100
Responsibilities of broadcasters as prescribed by law, governmental policies and regulations, and significant court decisions.

510. Script Writing for Broadcasting and Film (3) I, II
Prerequisites: Telecommunications and Film 260 or 280, and satisfaction of the English Placement Test and Writing Competency requirements. Proof of completion of prerequisites required. Development of a single program and series ideas. Scripting of dramatic original and adaptation forms, and the documentary.

520. Directing Television and Film Drama (3) I, II
Two lectures and more than three hours of activity. Prerequisite: Credit or concurrent registration in Telecommunications and Film 260 or 280. Planned for prospective directors of plays for television and film. The student will become acquainted with principles, procedures and methods. Practical experience in University-sponsored productions.

530. Radio Programming (3) II
Two lectures and more than three hours of scheduled activity. Prerequisites: Telecommunications and Film 100 and 121. Study work in broadcast on KPBS-FM.

535. Television Programing (3) I, II
Prerequisite: Two courses in radio and television decision-making processes. Methodologies, analyses and applications of audience, programming, and advertising research.

540. Broadcast Advertising (3) I, II
Prerequisites: Two courses in broadcasting, journalism or marketing.
Structure of television programing. Problems such as ratings, advertisers and scheduling.

550A. Advanced Lighting and Staging for Television and Film (3) I, II
Prerequisites: Telecommunications and Film 260 or 280 and consent of instructor. Theory and analysis of production design elements for television and film, including art direction and lighting, scene design and decoration. (Formerly numbered Telecommunications and Film 550.)

550B. Advanced Lighting and Staging for Television and Film (3) I, II
One lecture and more than six hours of activity. Prerequisites: Telecommunications and Film 550A and consent of instructor. Practical experience in development of technical and production design elements for dramatic television and film, including art direction, lighting, scene design and decoration for dramatic television and film, including art direction, lighting, scene design and decoration for dramatic television and film, including art direction, lighting, scene design and decoration for dramatic television and film.
544 / Telecommunications and Film

560. Advanced Film Production (3) I, II
One lecture and more than six hours of activity.
Prerequisites: Telecommunications and Film 260, 510, 520 and consent of instructor;
Practicum in direction and production of 16mm dramatic and nondramatic films. Cameras,
lighting, design, sound techniques. Experience in University-sponsored productions. Maximum
credit six units. (Formerly numbered Telecommunications and Film 560A-560B.)

562. Documentary and Propaganda Film/Television (3) I, II
Prerequisite: Telecommunications and Film 160.
Analysis through viewing of persuasive concepts, techniques and forms in international and
documentary film and television programs.

565. Animated Film Techniques (3) II
Two lectures and more than three hours of activity.
Screening of representative examples and production of a filmograph or animated motion
picture. Practical experience in University-sponsored productions.

570. Public Telecommunications (3) I, II
Prerequisite: Telecommunications and Film 100.
Role of public broadcasting and related technology in the United States. Applications of
telecommunication technology for instruction in the home, classroom, and industry.

575. Technological Trends in Telecommunication (3) I
Prerequisite: Twelve units in telecommunications and film.
Developments and trends in telecommunication and related technology, with their implications
for the future.

580. Advanced Television Producing and Directing (3) I, II
One lecture and more than six hours of activity.
Prerequisites: Telecommunications and Film 280, 510, 520 and consent of instructor;
Program development, presentational techniques and individual projects in the producing,
direction and production of television programs. Practical experience in University-sponsored
productions. Maximum credit six units. (Formerly numbered Telecommunications and Film
580A-580B.)

590. International Broadcasting (3)
Prerequisite: Telecommunications and Film 100 or 315, or Journalism 200.
Comparative study of broadcasting in various world areas; economic, social and political
determinants of broadcasting patterns.

596. Selected Topics in Telecommunications and Film (1-3) I, II
Prerequisite: Twelve units in telecommunications and film.
Specialized study of selected topics from the areas of telecommunications and film. May be
repeated with new content. See Class Schedule for specific content. Limit of nine units of any
units.

GRADUATE COURSES
Refer to the Graduate Bulletin.

University Studies
Refer to section on General Studies.

545

Women's Studies
In the College of Arts and Letters

Faculty
Chair: Watson
Professors: Boxer (Associate Dean), Zimmerman
Associate Professors: Huublé, Jones, Kohen, Watson
Assistant Professor: Matteo
Lecturer: Phillips

Offered by Women's Studies
Major in women's studies.
Minor in women's studies.

Women's Studies Major
With the A.B. Degree in Liberal Arts and Sciences.
All candidates for a degree in liberal arts and sciences must complete the graduation
requirements listed in the section of this catalog on "Graduation Requirements."
Students majoring in women's studies must complete a minor in another field to be
approved by the chair or major advisor of the department.

Preparation for the Major.
Women's Studies 101 or 330, and 201 and 205, (9 units.)

Foreign Language Requirement. Competency (equivalent to that which is normally
attained through three consecutive semesters of college study) is required in one foreign
language as part of the preparation for the major. Refer to section of catalog on "Graduation
Requirements."

Upper Division Writing Requirement. Passing the University Examination or completing
one of the approved writing courses with a grade of C (2.0) or better.

Major. A minimum of 24 upper division units to include twelve units from Group I; six units
from Group II; and Women's Studies 590 and 595 or 597.

Group I: Women's Studies 310, 320, 325, 335, 340, 341A-341B, 351, 352, 356, 360,
365, 370, 375, 390.

Group II: (Prerequisite: Three upper division units in women's studies.) Women's Studies
345, 415, 421, 422, 453, 480, 485.

Women's Studies Minor
The minor in women's studies consists of a minimum of 18 units in women's studies to
include Women's Studies 101 or 330, and 201 or 205, the remaining 12 units must be upper
division and include at least one course from three of the following groups:

Group A: Courses which investigate the experience of women in varying cultures, subcul-
tures and historical eras — Women's Studies 310, 335, 340, 341A-341B, 415.

Group B: Courses which examine biological, psychological and sociological influences on
women's personality and behavior — Women's Studies 320, 325, 360, 365, 390, 421, 422.

Group C: Courses which explore artistic expression by and about women — Women's
Studies 351, 352, 356, 453.

Group D: Courses which examine the roles of women in political and economic life —
Women's Studies 370, 375, 480, 485.

Students planning graduate work in women's studies should include Women's Studies 590
and 595.

Courses in the minor may not be counted toward the major, but may be used to satisfy
preparation for the major and general education requirements, if applicable.

LOWER DIVISION COURSES
Women's studies courses are open to all students.

100. New Views of Women (1) Cr/NC
Lecture series:
Overview of new research and fresh interpretation about women, feminism and changing
relationships between the sexes. Presentations from the perspective of various disciplines.
351. Women in the Arts (3)...

330. The Women's Movement Today (3)... Concepts of women in mythic, classic, Judeo-Christian, and major modern philosophical traditions. Images and roles of women found in the humanities, their impact and contemporary relevance.

296. Experimental Topics (1-4)...
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

UPPER DIVISION COURSES (intended for Undergraduates)

301. Topics In Feminism (1-3)...
Feminism from varying disciplinary and cross-disciplinary perspectives to include feminism and feminism; socialism and feminism; future dreams and designs. Primarily for the general student. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

310. Women in Cross-Cultural Perspective (3) I, II...
Women from an anthropological perspective, social, economic, legal and ideological aspects of women's position in selected preindustrial or transitional compared with industrial societies.

320. Socialization of Women (3) I, II...
Theories of socialization; summary of studies on the impact of formal and informal social institutions on female development.

325. Psychology of Women (3) I, II...
Theories of the psychological development of women; investigation of biological and cultural factors influencing personality and behavior.

330. The Women's Movement Today (3) I, II...
Intensive study of the contemporary women's movement; feminist views of political, economic, and social institutions which affect women's lives. Not open to students with credit in Women's Studies 101. (Formerly numbered Women's Studies 430.)

335. Women-Identified Women (3)...

340. Women in Modern History (3)...
Social, cultural, economic, political, and ideological aspects of women's history with emphasis on impact of modernization on roles of women in family and society in Western civilization.

341A-341B. Women in American History (3-3)...
History of American social, cultural, economic, political, and intellectual institutions, focusing on the role and perspective of women. Semester I: From colonization to 1860; Semester II: From 1860 to the present. The year course meets the graduation requirements in American Institutions, U.S. Constitution, and California state and local governments.

351. Women in the Arts (3)...
Images of women in society as reflected in the plastic, graphic and performing arts; artistic contribution of women. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

352. Women in Literature (3) I...
Definitions of women in society as reflected in literature and literary criticism.

356. Women in Popular Culture (3)...
Images and concepts of womanhood found in popular culture and mass media. Topics include critical theories, popular literature, television, women's magazines, myth and ritual, and the impact of feminism.

360. Women's Sexuality (3)...
Current research and theories on the psychological, social, and psychophysiological aspects of women's sexuality; examination of the relationships among social expectations, sexual customs and traditions, and sexual behavior, responses, identity.

365. Women and Health (3)...
Physical and psychological aspects of women's health; women's role in the health care system. Topics include established and alternative medical institutions, physical and mental health, reproduction and related issues.

370. Women and the Law (3) I, II...
Legal factors affecting women in employment, education, health and welfare, property ownership and criminal justice, including investigation of public policy issues which affect women's lives.

375. Sex, Power and U.S. Politics (3)...
Social, economic and political factors which explain women's political status and participation. Topics include institutional structures, leadership and ideology, power and authority, and the women's movement as a political movement.

390. Women and Education (3)...
The educational process and female role socialization; research into personnel policies and curriculum. New learning methods and environments, e.g., women's studies programs, child care centers, and "free" schools.

415. Women, Mythology and Ritual (3)...
Prerequisite: Three upper division units in women's studies.

421. Life Cycles of Women (3)...
Prerequisite: Three upper division units in women's studies.

430. Women and Work (3)...
Comparative analysis of the place of women in various economic systems, and the processes which determine political power.

480. Women and Political Systems (3)...
Comparative analysis of the place of women in various political theories, political and economic systems, and the processes which determine political power.

485. Economics of Women and Work (3)...
Prerequisite: Three upper division units in women's studies. Topics will include economic analyses of economic factors which affect women's lives. Topics will include economic analyses of economic factors which affect women's lives. The marriage, divorce, fertility and child care: women's occupations, earnings, and education, the marriage, divorce, fertility and child care: women's occupations, earnings, and education, the marriage, divorce, fertility and child care: women's occupations, earnings, and education, the marriage, divorce, fertility and child care: women's occupations, earnings, and education.

496. Experimental Topics (1-4)...
Selected topics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.
498. Field Experience (3) I, II
Prerequisites: Three upper division units in women's studies and consent of instructor. Observation and analysis of public and private agencies in the San Diego area which deal primarily with women.

499. Special Study (1-3)
Prerequisites: Three upper division units and consent of the department chair and instructor. Individual study. Maximum credit six units.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

590. Feminist Thought (3)
Prerequisite: Six upper division units in women's studies. Readings in feminist theory and contemporary theoretical perspectives on core concepts and issues in feminist scholarship. Focus on understanding from a feminist perspective and on the significance of analyzing female experiences.

595. Seminar In Women's Studies (3)
Prerequisites: Six upper division units in women's studies and consent of instructor. Directed research in women's studies. Field of investigation will vary with instructor. Methods of investigation, development of bibliography, presentation of paper based on original research. See Class Schedule for specific content.

597. Research Project (3) I, II
Prerequisites: Six upper division units in women's studies and permission of adviser. Individual research project. May be taken in place of Women's Studies 595, Seminar in Women's Studies.

### List of Additional Faculty

- AYALA, REYNALDO (1959) - Associate Professor of Geography, Imperial Valley Campus
- B.A., University of Minnesota; M.S., Texas A&M University; Ph.D., Southern Illinois University
- BAESE, SARA (1975) - Professor of Management
- A.B., Drake University; M.A., University of Montana; Ph.D., University of Utah
- BICK, JAMES D. (1981) - Associate Professor of Mathematics
- A.B., Franklin College; M.S., Indiana University; Ph.D., University of Northern Colorado
- BECK, LINDA L. (1968) - Professor of Mathematics
- B.S., Rice University; M.A.S., Southern Methodist University
- BECKER, GEORGE J. (1969) - Professor of Mathematics
- A.B., St. Peter's College; M.A., Fordham University; Ph.D., New School for Social Research
- BECKER, GERALD A. (1968) - Professor of Mathematics
- A.B., State University of Iowa
- BECK, LESTER A. (1967) - Associate Professor of Psychology
- B.S., M.Ed., Ph.D., University of Minnesota.
BOVER, JAMES (HI&I) ........................................ B.S., M.S.M.E., Purdue University. Registered Professional Engineer.

BEE, CLIFFORD F. (1966) ...................................... Professor of Mechanical Engineering

BEHM, ROBERT J. (1975) ........................................ Associate Professor for Distant Learning Programs, College of Extended Learning

BELACCO, A.B. (1971) ........................................... Professor of Management

BELLOS, GEORGE E. (1966) .............................. Associate Professor of Marketing

BELCH, DAVID W. (1957) .................................... B.S., Pennsylvania State University; M.S., University of Colorado; Ph.D., University of California, Los Angeles.

BELCHER, DAVID W. (1957) ............................... Professor of Marketing

BELCHER, GEORGE E. (1980) ......................... Associate Professor of Marketing

BELL, CHARLES B. (1981) .................................... Professor of Public Health and Mathematical Sciences

BELLETTI, CHARLES J. (1986) .......................... Professor of Assistant to the President

BELLESH, J. (1976) .................................................... Professor of Health Sciences

BENJAMIN, ROBERT L. (1953) ......................... Professor of Speech Communication

BENKOV, EDITH J. (1983) ................................. Assistant Professor of French

BENDER, STEPHEN ............................................. Assistant Professor of Teacher Education

BENDER, STEPHEN ............................................. Assistant Professor of Teacher Education

BENNING, ABBOTT R. (1982) .......................... Professor of Public Health

BENJAMIN, ROBERT L. (1963) ......................... B.A., University of California; M.S., University of Wisconsin.

BERG, ROBERT V. (1963) ..................................... Professor of Art

BERGE, DENNIS E. (1963) ................................. B.S., B.S. San Diego State University; Ph.D., Stanford University.

BERGER, LEVY A. (1983) ..................................... Professor of Physics

BERGNER, JOSEPH J. (1976) ......................... Assistant Professor of Drama

BERND, MARLOWE J. (1970) ........................... B.S., University of Southern California; Ph.D., University of California.

BERNARD, J. (1981) .................................................... Professor of Public Health

BERNARD, J. (1981) .................................................... Professor of Public Health

BERNDT, CHRISTIANE (1993) ...................... B.A., University of California; M.S., Stanford University.

BERGSE, EDITH A. (1987) .............................. Assistant Professor of French

BETINA, KATHE R. (1992) ............................. B.A., University of Pennsylvania; M.Phil., Yale University.

BETANCOURT RAMON (1984) ...................... Assistant Professor of Electrical and Computer Engineering

BINGHAM, JAMES (1959) ............................. B.S., M.E., Ohio State University.

BIRCH, MICHAEL J. (1984) ............................. Professor of Music

BLACK, BARBARA B. (1970) .......................... B.S., B.S. School of Nursing; B.S., University of Minnesota; M.S., Indiana University

BLACKETT, DAVID M. (1982) ...................... B.S., B.B.A. University of Massachusetts; M.B.A. Bowling Green University

BLASCO, J. M. (1992) .......................................... Professor of Geography

BLOCK, RUSSELL R. (1960) .......................... B.S., B.A. University of California; J.D., University of California.

BLOOMBERG, WARNER (1972) ............... A.B., M.A., Ph.D., University of Chicago.

BLUE, JAMES (1964) .......................................... Assistant Professor of Telecommunications and Film

BRON, MARY A. (1965) ................................... Assistant Professor of Drama

BROWN, HAROLD K (1965) ........................ B.A., M.A., University of Southern California; Ph.D., University of California.

BROWN, JAMES (1980) .............................. B.S., Pennsylvania State University; M.BA., Drexel University; Ph.D., University of Pittsburgh.

BROWN, JAMES R. (1968) ....................... B.S., Pennsylvania State University; M.S., Indiana University; Ph.D., University of California.

BROWN, RUTH M. C. (1971) ........................... B.A., Texas Western College; M.A., Indiana University; Ph.D., University of California.

BRUCE, PETER J. (1982) .............................. B.A., Indiana University; M.A., University of Iowa; Ph.D., University of California.

BRUCHE, K. (1979) .................................................... Professor of Music

BUCY, JEFF B. (1980) ............................... B.S., B.A., M.A., University of Texas; M.S., Ph.D., Purdue University.

BRYSON, REBECCA B. (1980) ...................... B.A., Queen's College; M.A., Ph.D., Purdue University.

BOER, ELAINE M. (1971) ........................ A.B., M.A., University of Kansas; M.A., University of Wisconsin; Ph.D., University of Texas.

BOORSTIN, RONALD L. (1971) ............... B.A., M.A., California State University; Long Beach; Master of Science of Library Science, University of California.

BOYES, MARY (1960) ................................. B.A., University of Colorado; M.A., University of California, San Diego.

BOX, BENJAMIN (1984) .............................. B.S., M.A., University of Michigan; M.P.H., University of Southern California.

BOYER, ROBERT A. (1983) ...................... B.S., M.A., University of Pennsylvania; M.S., University of Southern California.

BOYER, ROBERT A. (1983) ...................... B.S., M.A., University of Pennsylvania; M.S., University of Southern California.

BRADY, F. NEL (1963) ................................. B.S., M.A., Brigham Young University; M.S., Ph.D., Illinois Institute of Technology.

BRADY, RICHARD C. (1977) ...................... B.S., University of California; M.A., Fresno State University; Ph.D., University of California.

BRANNAN, ROBERT J. (1953) ....................... B.A., M.A., University of Illinois; B.F.T., Thunderbird Graduate School of Management.

BRANCA, NICHOLAS A. (1976) ............ B.S., M.S., University of California; M.A., Harvard University; Ed.D., Teachers College, Columbia University.

BRANT, CHARLES L. (1957) ................. B.S., M.A., Ph.D., Stanford University.

NEUMAN, DONALD R. (1969) Associate Professor of English
B.A., University of Pennsylvania; M.A., State University of New York.
PHelps, LEROY N. (1960) B.Sc., Ohio State University; Ph.D., University of Southern California. Associate Professor of Biology.

PHelps, SANDRA (1976) B.A., University of Texas; M.A., Arizona State University; Ph.D., University of Illinois. Career Counselor.

PHILLIPS, WILLIAM D. JR. (1970) B.A., University of Wisconsin; M.A., University of Tennessee; Ph.D., New York University. Professor of History.

PHELGER, CHARLES F. (1971) B.S., M.S., Ph.D., University of California, Berkeley. Professor of Natural Science.

PIERCE, TODD H. (1982) B.S., M.S., Ph.D., University of Michigan. Associate Professor of Mechanical Engineering.

PINCETT, SNEAD, J. (1965) B.S., M.A., Ph.D., University of California, Berkeley. Professor of History.

PIERRE, JOHN G. (1979) B.S., M.S., Ph.D., University of California, Los Angeles. Professor of Geology.

PRITCHARD, DAVID C. (1978) B.S., M.A., Ph.D., University of California, Berkeley. Associate Professor of Social Work.

PRINCE, WALTER H. (1962) B.S., M.S., Ph.D., Colorado State University. Professor of Civil Engineering.

PORTO, JOSE (1979) B.S., M.S., Ph.D., University of Texas. Professor of Business Administration.

PORTO, ROBERT J. (1966) B.S., M.S., Ph.D., University of Arizona. Professor of Physics.

POTRICK, ROD (1970) B.A., B.S., Miami University. Professor of Biology.

POTH, JOHN L. (1969) B.S., Loyola University; M.S., University of Southern California; Ph.D., University of New Mexico. Associate Professor of History.

POLK, HARRY (1984) B.S., University of California, Berkeley; M.A., University of California, Berkeley; Ph.D., University of California, Berkeley. Professor of History.

POPE, VICTOR M. (1980) B.S., National University of Engineering, Peru; M.S., Ph.D., Colorado State University. Professor of Civil Engineering.

POPP DEAN O. (1968) B.A., Williams College; M.S., Ph.D., Purdue University. Professor of Economics.

POYER, WALTER H. (1962) B.S., Utah State Agricultural College; M.A., Western State College; M.A., University of California. Senior Assistant Librarian.

PRESTON, DAVID L. (1971) A.B., Stanford University; M.A., Ph.D., University of Illinois. Associate Professor of Sociology.

PRICE, JUDY M. (1972) A.B., Stanford University; M.A., Ph.D., University of Illinois. Associate Professor of Sociology.

PRICE, LEE (1966) A.B., University of Washington; M.A., Ph.D., Columbia University. Associate Professor of Psychology.

PRIEST, ROBERT J. (1971) A.B., Stanford University; M.A., Ph.D., University of Illinois. Associate Professor of Sociology.

PRICE, ELAINE (1966) A.B., University of Washington; M.A., University of California. Associate Professor of Psychology.

PRICE, GEOFFREY (1969) A.B., American University; M.A., Ph.D., University of Washington. Professor of Geography.

PITMAN, JAY F. (1976) B.S., University of Wisconsin; M.S., Ph.D., University of Washington. Associate Professor of Geological Sciences.

PULIC, DONALD (1960) B.A., University of Michigan. Assistant Professor of Social Work.

PULIC, MAX (1960) B.A., University of Michigan. Assistant Professor of Social Work.

PULIC, MAX (1960) B.A., University of Michigan. Assistant Professor of Public Administration and Urban Studies.

PUMPKIN, JERRY B. (1976) B.S., M.S., University of Wisconsin. Assistant Professor of Special Education.

QUASTLER, JIM D. (1967) B.A., Wayne State University; M.A., Northwestern University; Ph.D., University of Kansas. Professor of Geography.

QUINN, REBECCA A. (1971) B.S., M.S., Central Missouri State College; Ph.D., University of Iowa. Assistant Professor of Physical Education.

QUINTANA, HELEN (A. B. D. M. A. S.). Assistant Professor of Policy Studies in Language and Cross-cultural Education.

RAELOW, ROBERT (1968) B.S., University of New York; M.S., Pennsylvania State University. Professor of Psychology.

RAMAGE, JOHN C. (1979) B.A., University of Oregon; M.A., Ph.D., University of California, Berkeley. Assistant Professor of Psychology.

RAFF, JOHN R. (1968) B.A., Mary Baldwin College; M.A., University of Washington; Ph.D., Rutgers University. Assistant University Librarian, Access Services and Automation.

Part-time Faculty 1984 – 1985

ARTS AND LETTERS
Abbott, Donald R., M.A., History
Agatucci, Cors S., M.A., Academic Skills
Abarbanel, Arthur N., Jr., Academic Skills
Allister, Shirley L., M.A., Academic Skills
Alpert, Leon S., M.A., Economics
Baker, Francisco D., M.A., French and Italian Languages and Literatures
Banksy, Christine D., M.A., English and Comparative Literature
Barrera, Marlen K., M.A., Spanish and Portuguese Languages and Literatures
Bassler, James D., Ph.D., Economics
Bearden, Margaret M., M.A., History
Beveridge, Krisa, M.A., Academic Skills
Bihl, Patricia L., M.A., English and Comparative Literature
Borgens, Helen A., M.A., English and Comparative Literature
Bowen, Susan J., M.A., Women’s Studies
Brown, Gary R., M.A., Academic Skills
Brown, Scott J., M.S., Economics
Brown, Victoria L., M.A., Women’s Studies
Burckett-Evans, Jennifer B., M.A., Spanish and Portuguese Languages and Literatures
Butler, Evelyn A., M.A., English and Comparative Literature
Butler, Raymond J., M.A., Economics
Carter, Kenneth R., M.A., Academic Skills
Caviness, Gregory P., M.A., English and Comparative Literature
Comito, Candelaria L., M.A., English and Comparative Literature
Curts, Marvin V., M.A., Afro-American Studies
Day, Barbara A., Ph.D., History
DiGennaro, Judith C., J.D., Women’s Studies
Dritone, Patricia L., Ph.D., History
Dolansky, Marie, Ed.D., Academic Skills
Duan, Gisela A., M.A., Spanish and Portuguese Languages and Literatures
Dwyer, Joseph M., M.F.A., English and Comparative Literature
Duran, David J., B.A., Academic Skills
Eaton, Gerald G., Ph.D., Sociology
Elman, Dennis M., M.F.A., English and Comparative Literature
Emerick, Laura C., Ph.D., English and Comparative Literature
Fallowe, Randall J., M.A., English and Comparative Literature
Feistlen, Philip, M.A., Academic Skills
Finn, Candice P., M.A., English and Comparative Literature
Finn, Richard D., M.A., English and Comparative Literature
Fish, Hedda A., American Indian Studies
Fiozzi, Michelene E., M.A., American Indian Studies
Fleming, Clyde H., Ph.D., English and Comparative Literature
Flagg, Virginia G., Ph.D., Economics
Freeman, Roderick A., Ph.D., Philosophy
Frelichter, Marilyn S., M.A., English and Comparative Literature
Galloway, Frederick J., M.A., Economics
Garciacielo, Jeffrey M., M.A., Mexican-American Studies
Glass, Candance S., M.F.A., English and Comparative Literature
Godfrey, Jacob, Ph.D., Arts and Letters, General
Gowen, Brent D., M.A., English and Comparative Literature
Green, Leslie A., Ph.D., French and Italian Languages and Literatures
Greenburg, Reva P., Ph.D., History, Women’s Studies
Greene, Myron, M.A., History
Gregg, John A., M.A., English and Comparative Literature
Gregory, Sinda, M.A., English and Comparative Literature
Hall, Dana M., M.F.A., English and Comparative Literature
Haskovic, Marie, Ph.D., Academic Skills
Hawkins, Penelope J., B.A., Classics
Hecht, Beatrice D., Laura, French and Italian Languages and Literatures
Hernandez, Carmen M., M.A., Spanish and Portuguese Languages and Literatures
Hirsch, Susanne D., Ph.D., French and Italian Languages and Literatures
Indermill, Lavanw G., M.A., English and Comparative Literature
Ingham, Charles A., B.A., English and Comparative Literature
Jaeps, Maggie S., M.A., English and Comparative Literature
Jensen, Susan L., M.A., Academic Skills
Johnston, William, Ph.D., Religious Studies
Jones, Robert L., M.F.A., English and Comparative Literature
Jonzon, Edith, Ph.D., French and Italian Languages and Literatures
Kangas, Eric A., M.S., Academic Skills
Keefer, Michael, M.A., Academic Skills
Kehrenberg, Graziella, Laurea, French and Italian Languages and Literatures
Kleibr, Nancy L., Ph.D., Women’s Studies
Krekanian, Michael H., M.F.A., English and Comparative Literature
Kulkarni, Vijayakarthi, M.A., Economics
Mack, James B., B.A., English and Comparative Literature
MacKay, Linda C., J.D., Women’s Studies
Makoff, Lester, M.A., Academic Skills
Manaresch, Antonio, Laura, French and Italian Languages and Literatures
McCany, Nancy M., M.A., Spanish and Portuguese Languages and Literatures
McCorkle, Claire V., M.A., History
Mendes, Janice P., Ph.D., Spanish and Portuguese Languages and Literatures
Moore, Rick A., M.A., Sociology
Moser, Robert J., M.A., Sociology
Mueller, Howard R., Ph.D., Religious Studies
Mustafa, Chowdhury B., M.A., Economics
Pilch, Joyce, M.A., Academic Skills
Omalowska, Ewa M., M.A., English and Comparative Literature
Paynter, E. L., History
Perkins, Carol G., M.A., Women’s Studies
Pincett, Giesel A., M.A., Spanish and Italian Languages and Literatures
Pine, Marjorie, B.A., Spanish and Portuguese Languages and Literatures
Porter, Varla, B.A., Spanish and Portuguese Languages and Literatures
Porto, Margarita, V., Ph.D., Spanish and Portuguese Languages and Literatures
Potis, Stephen W., Ph.D., Academic Skills
Rau, Richard T., M.A., Economics
Ringo, Mary Ann, M.A., Ph.D., History
Rockland, Steven G., M.S., Economics
Rodriguez, Elena F., M.A., Sociology
Roecker, Thomas H., M.A., English and Comparative Literature
Rupi, Harry, Ph.D., Philosophy
Sacilari, Atila, M.A., Spanish and Portuguese Languages and Literatures
Sanchez, Virginia A., M.A., Spanish and Portuguese Languages and Literatures
Shabat, Virginia R., M.A., English
Shahrokhii, Shahrokh, M., Economics
Sheken, Peggy L., M.A., English and Comparative Literature
Silverman, Verna M., M.A., Spanish and Portuguese Languages and Literatures
Somerfie, Rose M., Ed.D., Sociology
Spaulding, Robert F., M.S., Economics
Smith, Donald P., B.A., Economics
Squires, Dale E., Ed.D., Economics
Steele, Louise H., M.A., English and Comparative Literature
Storl, Angela E., M.A., Spanish and Portuguese Languages and Literatures
Velasco, Alfredo, Ph.D., M.A., Mexican-American Studies
Walt, Eugene R., M.A., Economics
Wawrytko, Sandra A., Ph.D., Portuguese Languages and Literatures
West, Michael D., M.F.A., English and Comparative Literature
Whitman, Eleanor R., Ph.D., English and Comparative Literature
Ziai, Behroz, M., Ph.D., Academic Skills
Zobelli, Bonnie J., M.F.A., English and Comparative Literature
Zolyman, Dorothy A., M.A., English and Comparative Literature

BUSINESS ADMINISTRATION
Bekete, Zenebe, J.D., Finance
Belden, Robert A., J.D., Management
Branch, Melanie R., Ph.D., Management
Bray, William O., B.S., Information Systems
Cutsinger, Shannon L., M.S., Finance
English, Richard J., Ph.D., Finance
Fish, Michael A., Ph.D., Finance
Griffith, Peter W., B.S., Finance
Harrington, Don L., J.D., Finance
Herbert, Brent R., M.A., Accountancy
Hoffman, Duane, M.S., Finance
House, Thomak, MBA, Marketing
Kalenberger, Fred J., M.S., Information Systems
Kerrigan, Harry, D., Ph.D., Management
Kirk, Joel M., J.D., Finance
Lambert, Barrett L., M.B.A., Accountancy
Lees, Steven E., Ph.D., Marketing
Lewis, Leroy, Ph.D., Business Administration, General
Lindsay, Mark W., J.D., Accountancy

Mey, Michael, M.B.A., Finance
McClan, Kenneth F., M.B.A., Finance
McGavrick, Dennis M., L.L.M., Accountancy
McMarrick, Joseph L., M.A., Information Systems
