Schedule of Fees

REGULAR SESSION FEE REFUNDS

Materials and service fees:
To be eligible for partial refunds of materials and service fees, a student withdrawing from college must file an application with the Business Office not later than 14 days following the day of the term when instruction begins: and provided, further, that the amount of $2 shall be retained to cover the cost of registration.

Nonresident and foreign student tuition:
Tuition paid for a course scheduled to continue for an entire semester may be refunded in accordance with the following schedule if application therefor is received by the Business Office within the following time limits:

<table>
<thead>
<tr>
<th>Time limit</th>
<th>Amount of refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before or during the first week of the semester</td>
<td>100 percent of fee</td>
</tr>
<tr>
<td>During the second week of the semester</td>
<td>90 percent of fee</td>
</tr>
<tr>
<td>During the third week of the semester</td>
<td>70 percent of fee</td>
</tr>
<tr>
<td>During the fourth week of the semester</td>
<td>50 percent of fee</td>
</tr>
<tr>
<td>During the fifth week of the semester</td>
<td>30 percent of fee</td>
</tr>
<tr>
<td>During the sixth week of the semester</td>
<td>20 percent of fee</td>
</tr>
</tbody>
</table>

Parking fee:
This schedule of refunds refers to calendar days, commencing on the date of the term when instruction begins:

Nonreserved space per semester:

<table>
<thead>
<tr>
<th>Period</th>
<th>Amount of refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-30 days</td>
<td>75 percent of fee</td>
</tr>
<tr>
<td>31-60 days</td>

THE CALIFORNIA STATE COLLEGES

The California State Colleges are a unique development of the democratic concept of tax-supported public higher education for all qualified students.

Spanning the state from Humboldt County in the north to San Diego in the south, the 17 campuses of the California State Colleges (with another campus soon to be constructed) represent the largest system of public higher education in the Western Hemisphere and one of the largest in the world. Current enrollment exceeds 157,000 full and part-time students. The faculty and administrative staff numbers approximately 8,000.

The individual colleges, each with a geographic, curricular and academic character of its own, offer a solid basic program in the liberal arts. Beyond this, each college is noted for its individuality in academic emphasis which makes for a diversified system. Course offerings leading to the bachelor's and master's degree are designed to satisfy existing student interests and to serve the technical and professional manpower requirements of the state.

The California State Colleges are dedicated to rigorous academic standards. Constant striving for academic excellence is at the heart of the system. The primary responsibility of each faculty within the system is the instructional process on the teacher-student level, with appropriate recognition of the necessary and constructive role of research in any institution of higher education.

Responsibility for the California State Colleges is vested in the Board of Trustees, which is appointed by the Governor, and the Board's administrative arm, the Chancellor. The Trustees and the Chancellor set broad policy for the colleges while delegating considerable independent responsibility for implementation at the college level. A Statewide Academic Senate, made up of representatives elected by the faculty at each college, acts as a consultative body to the area of academic affairs. Although the oldest of the colleges, San Jose State College, dates back a century, the California State College system under an independent Board of Trustees was created by the Donahoe Act of 1900. Formerly, the colleges were under the jurisdiction of the State Board of Education.

Today, the California State Colleges are in a particularly dynamic period of their development. Prior to World War II, there were seven State Colleges with a peak total enrollment of some 13,000. Since 1947, ten new colleges have been developed, one is operating in temporary quarters in southwestern Los Angeles, and another has been authorized, to be located in Kern County. Enrollment in the system is expected to reach 225,000 by 1970.

18
PURPOSES OF THE COLLEGE

The primary purpose of San Diego State College is to provide instruction for undergraduate and graduate students, through the bachelor's and master's degrees, in the liberal arts and sciences, in applied fields and in the professions, including the teaching profession. The doctoral degree is awarded jointly with the University of California.

The programs at San Diego State are designed to aid the student to develop his powers of critical, independent thought and to become aware of the main streams of our Nation's cultural, social, and scientific traditions; to inform him of the political ideas and ideals that have built our Democracy and to stimulate in him an interest in participation in civic life; and to equip him with the knowledge and skills necessary to meet the needs of California and the Nation for competence and leadership.

To achieve these purposes San Diego State College offers:
1. Student personnel services to assist the individual student to plan his educational program and to make progress toward the attainment of immediate and long range goals.
2. General and liberal education for students whose studies lead toward the bachelor's degree or to the higher professions through graduate work.
3. Undergraduate and graduate curricula in teacher education for those students who plan to teach, supervise or administer in California's public schools.
4. Preprofessional curricula for fields such as medicine, dentistry, theology, and law.
5. Four-year curricula in such fields as business, industry, engineering, governmental services, homemaking, and social service.
6. Extension courses in appropriate fields.
7. Courses at the graduate level designed to lead to advanced degrees in a variety of fields.

GROWTH OF THE COLLEGE

San Diego State College is a dynamic institution that looks with pride to more than a half century of continued progress. From its humble founding in 1897 under a local board of trustees, it became a four-year teacher's college in 1921 under the State Board of Education, and in 1935 the liberal arts San Diego State College. With the advent of the California State College system in 1960 it became one of eighteen state colleges under the jurisdiction of a Board of Trustees and chancellor.

During the first year of its existence, the college, with a faculty of seven and a student enrollment of 91, occupied temporary quarters in downtown San Diego. The following year it moved to a new campus on University Heights in a central area of the city. By 1931, growth of the college made necessary another move, this time to its permanent campus of several hundred acres in the eastern part of San Diego.

The original group of buildings to be erected on the campus is of Spanish colonial architecture characteristic of early California.
The College

During its recent years of explosive growth, San Diego State has enjoyed the support of a community alert to its educational needs. To serve the rapidly expanding student population, which now numbers 17,000, many new buildings of modern design have been added. The institution now has classrooms, laboratories, dormitories, and other facilities covering over a million and a half square feet. Buildings include the following: Administration, Business Administration and Mathematics, Chemistry-Geology, Campus Laboratory School, Education, Engineering, Fine Arts, Home Economics, Home Management Residence, Humanities-Social Sciences, Industrial Arts, Library, Life Sciences, Little Theatre, Music, Peterson Gymnasium (men), Physics-Astronomy, Physical Education, Physical Sciences, Speech Arts, Women's Physical Education, Residence Commons, Commons East, and the West Commons (cafeterias), Aztec Shops Bookstore, and Health Service; also included are the Greek Bowl, Track Field, Aztec Bowl (stadium), Scripps Cottage (student lounge and outdoor recreational center), and a faculty lounge and cafeteria. Soon to be completed will be a Speech Drama building.

LOCATION AND BUILDINGS

The campus is situated 12 miles from beach resorts and within a short drive of mountain and desert recreational sites. It lies one mile north of the city's principal east-west thoroughfare, El Cajon Boulevard, and just south of Highway 80, on College Avenue.

San Diego provides the cultural opportunities usually found in cities of over 600,000. Many of these are to be found in Balboa Park, a heritage of the 1915-1916 and 1933-1934 expositions. Houses here are the Fine Arts Gallery, the Museum of Man with its exhibits in anthropology, natural history and American archaeology, and the Old Globe Theatre, renowned not only as an architectural likeness of the Shakespearean counterpart, but also for the excellence of its productions in contemporary drama and the annual Summer Shakespeare Festival. Noteworthy are the Outdoor Organ, horticultural gardens, and Balboa Bowl, locale for the Starlight Opera and Summer Symphony. Also in Balboa Park and unsurpassed in its natural setting is the world-famous San Diego Zoo with its latest and most delightful feature, the Children's Zoo.

The University of California at San Diego offers opportunity for cooperative studies in the biological sciences and provides facilities in the physical sciences to complement those already existing locally in the Naval Electronics Laboratory and the great aeronautical and missile industries. Other institutions located in this area include the San Diego Junior Colleges, Grossmont College, and Southwestern College; California Western University at Point Loma, with a liberal arts program and a School of Law; and the University of San Diego at Alcala Park, with its College for Men, College for Women, and School of Law.

FACULTY

The college faculty numbers over 1000 members who have received their advanced training in over 100 colleges and universities of the United States or foreign countries. The faculty is distinguished not only in terms of formal education, but also represents a variety of practical experience in business, industry, and the professions. Both past and recent contributions to publications and research are significant and impressive. For listings and further details see the Faculty Directory.

LIBRARY

The library resources and services of the college for study and research are noteworthy. The book collection contains over 375,000 volumes and more than 10,500 California government publications and it has extensive holdings of the publications of the United Nations, Organization of American States, Council of Europe, other international bodies, and of municipal governments. It holds over 150,000 microform publications and has a curriculum materials collection of 41,000 items.

Twenty-one reference librarians assist students and faculty in their reading, study, and research. To aid the student to develop his powers of critical, independent thought through wide acquaintance with books, the library has an open shelf arrangement which gives direct access to nearly all books.

ACCRREDITATION

San Diego State College is a member of the following educational associations:

- Western College Association
- American Association of Colleges for Teacher Education
- American Association of Collegiate Schools of Business
- National Association of Schools of Music
- National League for Nursing
- Western Association of Graduate Schools
- Council of Graduate Schools in the United States
- Engineers' Council for Professional Development

Through membership in these associations, San Diego State College is fully accredited. It is also accredited by the National Council for Accreditation of Teacher Education and by the California State Board of Education. It is on the approved list of the American Chemical Society and is approved by the Veterans Administration for the education of veterans.

DEGREES AND CERTIFICATES

San Diego State College offers the following degrees and certificate:

- Bachelor of Arts
- Bachelor of Science
- Bachelor of Education (or Vocational Education)
- Master of Arts
- Master of Science
- Master of Business Administration
- Master of Social Work

A nondegree program leading to the Certificate in Public Administration is offered by the Political Science Department.

TYPES OF CURRICULA OFFERED

San Diego State offers the following types of curricula:

UNDERGRADUATE CURRICULA. Undergraduate curricula provide the following opportunities for study:

1. Liberal arts and sciences: Curricula in the academic major fields, leading to Bachelor of Arts degree in liberal arts and sciences.

2. Applied arts and sciences: Curricula in major fields leading to the Bachelor of Science or Bachelor of Arts degree in applied arts and sciences.

3. Professional curricula: The School of Business Administration offers the Bachelor of Science degree in business administration with majors in nine fields; the School of Engineering offers the Bachelor of Science degree in engineering with specialization available in four fields; and the School of Education offers curricula in preparation leading to graduate credentials at all levels of public school teaching.

4. Preprofessional and nondegree curricula: Programs are offered in pre-dentistry, prelegal, and premedical, leading to transfer to professional schools. A nondegree program is offered in public service, leading to the Certificate in Public Administration. The Air Force offers an ROTC program, leading to a commission in the Air Force Reserve.
The College

GRADUATE CURRICULA. The Graduate Division offers curricula leading to the Master of Arts or Master of Science degree in a wide variety or fields, the Master of Business Administration, the Master of Social Work, and a joint-doctoral program in chemistry.

ACADEMIC YEAR

San Diego State operates on the semester plan. The academic year, which consists of two semesters of 18 weeks each, begins in September and ends in June. The academic year is defined in the State Administrative Code, Chapter 5, Section 42800, as follows: "The beginning date of the academic year of the college shall be Monday of the week preceding the week that class instruction is scheduled to begin in the regular fall session, and the ending date shall be the second calendar day following the last day that final examinations are regularly scheduled for the following spring semester." Dates for the current academic year are carried in the calendar in this catalog.

PUBLICATIONS

The General Catalog, which is published annually in April, may be obtained free of charge by writing to the Registrar. The catalog carries information on admissions, fees and tuition, programs and degrees, courses, scholarships, residence halls, student services and activities, and a faculty directory.

The Graduate Bulletin, issued in April of each year, is available without cost to the applicant upon request made to the Graduate Office. The bulletin gives complete information on all graduate programs.

The Summer Sessions Bulletin, issued each April, carries information on the various summer terms. The bulletin includes an application form, information on admission and registration, fees, living accommodations in residence halls, courses, institutes, workshops, and study tours. Write to the Summer Sessions Office for a free bulletin.

The Bulletin for Classes Meeting at 4 O’Clock or Later and the Extension Courses Bulletin are issued prior to the next semester by the Office of Extended Services. These bulletins give information on courses and programs to be offered in the next semester. They will be mailed upon request without charge by the Office of Extended Services.

For a Bulletin of the Imperial Valley Campus, write to the Director, Imperial Valley Campus, 720 Heber Avenue, Calexico, California. This bulletin carries information on admissions, courses, and programs. It is available prior to the opening of each semester and will be mailed free of charge upon request.

The Clay Schedule and Instructions for Registration is published prior to the opening of each session and may be purchased at the Aztec Shops Bookstore on the campus. The current price is $6, subject to change. An additional charge of ten cents is made for mailing. Address requests to the Bookstore.

The Daily Aztec, a daily newspaper, is issued daily in regular seminars and once a week in Term I Summer Session. The cost of the paper is included in the student activity fee, Del Studente, the campus yearbook, is published at the close of the spring semester. It is sold at the Bookstore or may be obtained at a reduced price when ordered in advance. A Student Handbook is published at the beginning of the academic year and is distributed free of charge to new students at time of registration or may be obtained from the Office of the Dean of Activities. It contains information on scholastic and social life, services offered, customs of the college, and other material designed to encourage the student to participate fully in the life of the college. The Alumni News is published monthly by the Alumni Association and distributed to its members.

Special bulletins and brochures are issued at irregular intervals by the various divisions and offices of the college. Information on these special publications which may be currently available may be obtained by writing to the Office of Publications and Public Relations.
SPECIAL PROGRAMS AND SERVICES

SPECIAL PROGRAMS

In addition to the undergraduate and graduate programs available on the campus during the regular semesters, the following special programs, designed to meet the needs of special groups of students, are also offered: the Campus Program, the Program for Classes Meeting at 4 O’Clock or Later, Summer Sessions, Extension Courses Program, Teacher Education, and Veterans’ Education.

IMPERIAL VALLEY CAMPUS

LOCATION AND FUNCTIONS

The Imperial Valley Campus of San Diego State was established in September 1959 as one of several off-campus centers authorized for the state colleges of California. It is located at the intersection of Seventh Street and Heber Avenue in Calexico, California, adjacent to Rockwood Plaza, a park located near the center of the city. Adjoining Rockwood Plaza on the opposite side are the Calexico Public Library and the City Hall, which are of the same early Spanish style architecture as Calexico is adjacent to Mexicali, Baja California, Mexico, a city of over 300,000.

The program at this campus is an integral part of San Diego State and is under the direction of the Dean of Education. The curriculum includes the full Teaching Credential with specializations in elementary, secondary, and special education. Counseling, testing, and admission of students are provided by the Director and a full-time instructional staff. In addition to the regular program, the campus also assists in the administration of extension courses for the Southeastern California area. The campus operates on the regular basis of Fall and Spring Semesters, with summer sessions conducted in fully refrigerated air-conditioned buildings.

PROGRAM

The program at the Imperial Valley Campus is restricted to upper division and postgraduate courses applicable to a bachelor’s degree and the standard teaching credential. General education programs are similar to those described in this catalog for elementary and secondary teaching; however, not all majors and minors available on the main campus are offered at Imperial Valley Campus.

The Imperial Valley Campus is designed to serve the needs of the following: (1) junior college graduates, (2) transfer students who have completed two years of college work, (3) persons now teaching, but who wish to complete requirements for a bachelor’s degree and/or a teaching credential, (4) those holding provisional credentials who desire to become fully certified, and (5) college graduates who wish to complete the requirements for a regular teaching credential.

Available in the area to students needing certain lower division college work in connection with their work at this campus is the Imperial Valley College, a public junior college offering the first two years of college work.

The regulations of San Diego State College governing admissions, course work and graduates, as listed in this catalog, are applicable to students attending the Imperial Valley Campus.

INFORMATION

Information on admission, registration, programs, and classes may be obtained by writing the Director, Imperial Valley Campus of San Diego State College, Calexico, California. Telephone 357-3721 or 352-5872.

Special Programs and Services

PHYSICAL FACILITIES: OFFICES, CLASSROOMS, STUDENT UNION, BOOKSTORE

The Imperial Valley Campus is comprised of a cluster of three large buildings set in a landscaped area. The buildings are of early traditional Spanish architecture, with thick plastered walls and red tiled roofs.

The administrative offices are all located in the central building. Classrooms are found in each of the buildings on the campus. All are large, comfortable, and equipped with refrigerated air-conditioning. All resident faculty members maintain offices on campus.

Excellent facilities have been provided for student use in the student union, consisting of two large rooms entirely separated from the office and classroom areas. The rooms which are complete with television, sofa, lounge chairs, small tables, and easily movable chairs can be used for conferences, meetings, etc. Snack facilities are available to students in late afternoon and evening classes.

FACULTY

The full-time faculty and many of the part-time faculty are regular members of the San Diego State instructional staff. There are full-time resident faculty members in the areas of English, geography, history, mathematics, political science, psychology, sociology, Spanish, speech arts, elementary education, secondary education, and special education. More than seventy-five per cent of the full-time faculty possess the doctoral degree. Part-time faculty selected from outstanding educators of the Imperial Valley augment the instructional programs of the Imperial Valley Campus.

LIBRARY

The Imperial Valley Campus Library is housed in the north wing of the three building complex. It contains over 15,000 books, 1700 pamphlets, and 120 periodicals. Stacks are separated from the study area. Additional loan privileges are available to students and faculty through the State College library in San Diego, the Imperial County public libraries, the Calexico City Library, school libraries, and the Imperial County Schools Library. Books and reference materials are also available from the Imperial Valley College library.

SPECIAL CLINIC

The Imperial Valley Campus plans to operate a clinic which will serve public school teachers of Southeastern California. The Speech Correction Clinic, directed by a speech therapist, will be used primarily for the education of teachers who wish to specialize in speech correction. The clinic will afford in-service teachers the opportunity to do actual case work, under supervised conditions, with proper equipment and materials. A Learning Disabilities Clinic is to be added at a later date.

AUDIO-VISUAL EQUIPMENT

A basic collection of audio-visual equipment is available for classroom use. Films and other instruction materials are available to the staff and students through the Audio-Visual Department of the Imperial Valley Education Center. Additional films and materials and films are also obtained from the San Diego State College Audio-Visual Services. Films may also be rented from outside sources as needed.

FINANCIAL ASSISTANCE

Grants and scholarships available at San Diego State and Imperial Valley Campuses are described elsewhere in this catalog. Consideration is usually given to students on the basis of academic achievement, financial need, character, and promise. National Defense Education Act Loans and United Student Aid Fund Loans are also available, as well as the usual various veteran benefits.

PLACEMENT AND EMPLOYMENT

The college provides a centralized placement service in cooperation with the Division of Education. Students are aided in securing part-time and full-time positions and in obtaining information concerning occupational trends. Staff members maintain contact with schools for teacher placement.
Special Programs and Services

CLASSES MEETING AT FOUR O'CLOCK OR LATER

In order to meet the needs of adults in the community for work on the college level, some courses are scheduled to begin at four o'clock or later. These include both undergraduate and graduate courses and carry full college credit. Classes offered at this time are part of the regular college offerings and are taught by faculty members of the college.

Students enrolling in these classes must be fully matriculated students who have met all admission requirements of the college, including the filing of an official application for admission, the filing of all official transcripts from other schools and colleges, and in the case of undergraduates, the completion of required tests for admission.

A bulletin on Classes Meeting at 4 O'Clock or Later, describing current offerings, eligibility for admission, and procedures for registration, is issued each semester and may be obtained upon request from the Extended Services Office. Application of new undergraduate students for admission to the college must be filed with the Office of Admissions before expiration of the deadline date for filing applications. This date is carried in the calendar of this catalog.

SUMMER SESSIONS PROGRAM

San Diego State conducts an intersession and two summer sessions which offer credit applicable to graduation and residence requirements. During the Intersession, one of one to two weeks, from one to two units of credit may be earned; during the six-week Term I Summer Session, six units of academic credit may be earned; and during the three-week Term II Summer Session, three units may be earned. Tuition is for credit per semester unit. (Refer to the section of this catalog on Schedule of Fees for information on fees.) Information concerning the courses, special workshops, and requirements for admission may be obtained by communicating with the Summer Sessions Office.

A Summer Sessions Bulletin is available during the month of April and will be mailed free of charge upon request.

EXTENSION COURSES PROGRAM

In order to serve more adequately the educational needs of the community, the college cooperates with off-campus organizations and groups in arranging extension classes. In response to expressed needs when the enrollment is sufficiently large to justify the instruction, offerings are made each semester in a number of departments including education, business administration, and the arts and sciences. Classes may be organized at various locations within San Diego, Riverside, and Imperial. A minimum of 18 to 20 students is usually required in order to maintain a class. The usual class carries three units of credit and meets once a week, either in the late afternoon or evening. These courses are listed in a special Bulletin of Extension Courses published each semester. Refer to the section of this catalog on Schedule of Fees for information on fees.

For limitations on extension credit, see the section of this catalog on Credit for Extension of Classes, current offerings, and eligibility for registration, communicated with the Extended Services Office.

HONORS PROGRAM

The Honors Program at San Diego State provides opportunities for superior students to use and develop their talents in a variety of ways, both colloquium and directed study.

Those who have taken the Advanced Placement Examinations should refer to the section of the catalog so titled.

Prior to entrance, freshmen who have superior high school records may, on the basis of their college aptitude test scores, be invited to participate in a special advising program. Here attention is given to individual needs and interests. Later, as sophomores, such students are eligible for the Honors Colloquium (Humanities 66).

Some departments offer Honors sections of selected courses. Normally, admission is by invitation, but any student interested should consult the Class Schedule for the name of the faculty member in charge and consult with him to establish eligibility. Currently honors sections are offered in Economics 1A-1B, Mathematics 31, 32, Physics 4A-4B-4C, Political Science 1, 2, and Psychology 1. Admission requirements for all courses are the same as those required by the regular course.

Upon completion of the sophomore year a student who has maintained a superior scholastic record may be eligible for admission to the upper division Honors Program of his major department. Specific requirements and details of these programs may vary from department to department. To apply, a student should consult his major adviser or the chairman of his major department.

The purpose of the San Diego State Honors Program is, within practicable limits, to meet the individual needs of the most capable students. Credit by examination, based on regular attendance, modification of curriculum requirements in the major and minor, and individual study are other opportunities available with the consent of the major adviser or other authorities.

INTERNATIONAL PROGRAMS

The California State Colleges offer academic year programs of study at a number of distinguished universities abroad. In 1965-66 the cooperating universities were: University of Aix-Marseille, France; Free University of Berlin and University of Hamburg, Germany; Waseda University, Tokyo, Japan; University of Granada and University of Madrid, Spain; University of Stockholm and University of Upsala, Sweden; National University, Taiwan. Academic work successfully completed at the cooperating universities abroad may be applied toward the degree requirements of the college in accordance with college regulations.

A selection among applicants from all California State Colleges is made on the basis of academic, linguistic and personal qualifications. The criteria are:

a. Upper division or graduate standing at the beginning of the academic year;

b. Academic achievement;

c. Proficiency in the language of instruction;

d. Faculty recommendations.

Cost to the student includes round trip transportation from San Francisco to the host university, room and board for the academic year and medical insurance. In 1966-67 these costs are: France, $1,970; Germany, $1,970; Japan, $1,670; Sweden, $2,070; Taiwan, $1,270; Italy, $1,970. Payments may be scheduled throughout the academic year.

Programs in Japan, Sweden, and Taiwan do not require previous linguistic preparation; applicants for all other programs must demonstrate adequate facility in the language of instruction at the host university.

Application for the 1967-68 academic year should be made early in the fall semester. Detailed information may be obtained at the office of the Dean of Liberal Arts and Sciences, San Diego State College, or by writing to the Office of International Programs, 1600 Holloway Avenue, San Francisco, California 94132.

TEACHER EDUCATION PROGRAM

The college maintains a modern elementary school on the campus where it has developed an extensive program for the education of elementary school teachers. The elementary school offers an elementary program which offers the use of workshops, the library, and shops, affords unusual opportunities for the induction of students into teaching. By arrangement with schools in the San Diego metropolitan area, observation and student teaching, and directed teaching are provided in the elementary and secondary schools and in the junior college.
Special Programs and Services

VETERANS' EDUCATION

The college has been approved by various accrediting agencies to offer courses for veterans leading to the baccalaureate in numerous fields and to the master's degree and various teaching credentials. A veterans' window is maintained in the Registrar's Office to facilitate registration, aid in the establishment of benefits, and serve as an information center.

SERVICES

RESEARCH BUREAUS

BUREAU OF BUSINESS AND ECONOMIC RESEARCH

The Bureau of Business and Economic Research is an organized research activity serving the needs of the School of Business Administration. Operationally, it is a part of the School of Business Administration, with a director and an editor. Fiscal matters are coordinated through the San Diego State College Foundation. The principal objectives of the bureau are to (1) conduct research in the areas of economics and business, with special reference to local and regional problems; (2) facilitate research in these areas by the faculty and students; (3) seek cooperative arrangements with outside individuals and organizations for conducting specific research projects; (4) compile local and regional data; (5) publish the results of bureau research investigations and aid the faculty in publication of their research. Graduate students are encouraged to make use of bureau facilities. The Bureau is a member of the Associated University Boards of Business and Economic Research.

BUREAU OF EDUCATIONAL RESEARCH

The Bureau of Educational Research, within the Division of Education, is administered by a Coordinator and his assistant. The objective of the bureau is to improve the quality of education through research by (1) fostering research on the part of individual faculty members who wish to make use of its services, (2) cooperating in community-based studies, (3) serving faculty graduate advisers as a resource in research design and techniques, and (4) engaging in the dissemination of information about education.

CENTER FOR SURVEY RESEARCH

The Center for Survey Research has been established to encourage nonprofit research in the sample survey field. The Center is prepared to undertake surveys requested by government or nongovernment organizations, and with persons on a local, state, or national basis. Faculty members who wish to submit application for off-campus support in survey research in the name of the Center may do so, upon approval of the project by the Center's Advisory Committee. The Center is administered by a Director.

COMPUTER CENTER

The College Computer Center is an adjunct to the instructional programs of the college, similar to the Library. Its purpose is to achieve an integration with the various curricula so that ultimately the student or faculty member has access to the computer's functional equipment, which is leased from the IBM Corporation. In addition, the center offers computer programs in the fields of data processing and scientific computation. A general elementary course is offered in the Department of Computer Science, and courses relating to the specialized application of digital computers are offered in mathematics, business administration, and engineering.

ECONOMICS RESEARCH CENTER

The Economics Research Center collects research materials, and publishes occasional monographs. Research facilities are available to advanced students for their research reports and to faculty members in economics, and in other fields, for the purpose of aiding research projects. The regular faculty seminars of the Economics Department, meetings of the local chapter of the American Economics Association, and special Economics conferences are held in this Center.

INSTITUTE OF LABOR ECONOMICS

The Institute of Labor Economics is an activity of the Economics Department with its administration under a director. The Institute, located in the Economics Research Center, provides materials and direction for research in labor problems, collective bargaining, labor legislation, and social security.

PUBLIC AFFAIRS RESEARCH INSTITUTE

The Public Affairs Research Institute is an agency of San Diego State College. It is organized to conduct research on a nonprofit basis into community and governmental problems of a public and/or administrative nature. The Institute is staffed by members of the faculty of San Diego State College and operates under the advisory supervision of a board appointed by the president of the college. Closely associated with the Institute is the Public Administration Center with a specialized and growing collection of research materials. The Institute engages in cooperative or joint research efforts with the various departments of instruction, institutes and research centers of the college. Administration of the Institute is under a director.

SOCIAL RESEARCH CENTER

The Social Research Center is a facility of the Department of Sociology. It provides physical equipment and space for the planning and processing of sociological research in such areas as urban growth and development, political research, public opinion research, cultural and social surveys. Current plans include expansion of the demographic factors, and social surveys. The Center is administered by a director and an assistant director, whose duties include consulting assistance in the designing and execution of studies and in the preparation of proposals to funding agencies.

SAN DIEGO STATE COLLEGE PRESS

The San Diego State College Press operates under supervision of a publications board composed of representatives from each of the 10 college divisions. Financial assistance was initially obtained from the local chapters of the California State University Press, the American Association of University Professors, and the Association of California College Professors. The Press publishes important faculty-sponsored research reports, community studies, documents, and literary articles.

SPEECH CORRECTION CLINIC

A speech and hearing clinic in which college students are trained in the applications of speech correction techniques, auditory, and language development for children and adults, is held throughout the school year and in Summer Session I. The clinic admits those with speech and hearing problems, ages three to adult. Because of limitations in staff, not all who apply can be admitted. Cost is borne by the patient. Exceptions are those who are not able to pay for speech and hearing services. Speech and hearing services are provided primarily for those who can pay their own costs.

Arts X-175, The Role of Parents in Problems of Speech Correction (2 units).
Special Programs and Services

CLINICAL TRAINING CENTER

The Clinical Training Center prepares college students to identify and diagnose children's and young adults' physiological and psychological difficulties, to teach and give remediation, and to test and counsel. Students from the departments of Education, Psychology and Speech Arts receive a variety of carefully planned experiences, including an opportunity to work with children and youth under supervision on a one to one ratio or in very small groups. In addition, they take part in frequent staff meetings which utilize the interdisciplinary approach toward solution of children's problems. Meetings with parents of the children with whom they work is a regular function of the training program.

While the primary purpose of the Center is to train teachers and clinicians, a community service is offered to those who have problems with school achievement, speech, hearing, educational and vocational planning, and school adjustment. Referrals are ordinarily made by schools, other agencies, or individuals. Parents, for example, may make a referral either directly to the Center or through their child's school. In general, preference would be given to the child who might profit best by specialized help and who meets the needs of training college students. There are specific criteria of selection of children for each strand of the total program.

AUDIO-VISUAL CENTER

The Audio-Visual Center provides projection, audio, photographic, and graphic services to all instructional areas of the college. Materials are purchased, rented, or finest, are housed in a center designed especially for use in this college. HIGHLY equipped for closed-circuit television of programs originating on the campus and Broadcasting production classes.

STUDENT SERVICES

ACTIVITIES, AND HOUSING

LOANS AND SCHOLARSHIPS

PERSONNEL SERVICES CENTER

The Personnel Services Center is made up of the Student Counseling Office, Test Office, and Foreign Student Office. The function of the Center is to help students gain the greatest benefit from their college experiences through counseling, testing, and related personnel services. A staff of counselors is available to students who wish help in the solution of problems of a personal, social, academic, or occupational nature.

The program of student advising is coordinated through the Center. Students wishing to set up general majors do so in the Counseling Office. Official change of major forms are available at the Registrar's office.

HEALTH SERVICE

As a part of the program of student personnel services, the college provides health services for the protection and maintenance of student health. These health services are administered under the direction of a physician who is assisted by several part-time physician specialists and a full-time staff, and are available to the students when school is in regular session for consultation, treatment or minor physical difficulties, emergencies, and counseling as to additional proper procedures.

Full-time nurses are on duty when school is in regular session. A student must be currently enrolled for seven or more units of credit to be eligible for other than emergency treatment.

As part of the regular admission procedure, a health statement is required of each student. A form is furnished prior to registration for the purpose of recording the results of a physical examination done by the student's private physician. The physical examination is important as it serves as an aid in compiling a complete health record. Careful attention is given to students undergoing private remedial treatment and those for whom a modification of study load or limited participation in physical activities seems advisable. A follow-up procedure is in effect for the student who has been urged to consult his family physician for correction of defects discovered during the examination.

Physical examinations are also required before students are authorized to participate in the organized programs of intramural recreation or intercollegiate athletics.

A student health insurance program, available to those who carry seven or more units, is currently in effect. This insurance, which gives coverage for hospitalization and specified medical services for a six-month period, may be purchased at the time of registration. The insurance policy for the second six-month period covers the summer months for those students who continue in the succeeding fall program. Refunds on a prorated basis may be made to those students who are graduating seniors, or to those individuals who drop out of school during the period covered by the insurance policy.

PLACEMENT CENTER

The college provides a centralized placement service in cooperation with the various departments of the college. Students are aided in securing part-time and full-time positions and in obtaining information concerning occupational trends. Liaison is maintained with the Personnel Services Center on matters relating to senior vocational counseling. Staff members maintain constant contact with schools,
Student Services
Activities and Housing

businesses, and industries. Seniors and graduate students should contact the Placement Center early in the year in which they expect to receive degrees or credentials.

Going to college is regarded as a full-time job. Students are normally expected to spend in class and study a total of three hours per week for each unit of college work attempted. A normal 16-unit load therefore represents a 48-hour week. Students are strongly advised to take this into consideration before accepting any part-time job.

STATE VOCATIONAL REHABILITATION

Assistance to certain students having physical handicaps or limitations may be available through the Bureau of Vocational Rehabilitation, California State Department of Education. Services available include diagnosis, counseling and guidance, psychological testing, provision of fees, books, and supplies, subsistence and transportation allowances. Restorations to reduce or remove disabilities may also be provided and can include medical and psychiatric treatment, artificial appliances, hospitalization and allied therapy. Applicants must be residents of California for one year and have a significant disability which interferes with employment. Information is available at the agency offices, New State Office Building, 1350 Front Street, Room 4053, San Diego.

IMPROVEMENT OF WRITING COMPETENCY

Standard English, free from flagrant errors in grammar and spelling, is required on written assignments throughout the college. To help students attain a reasonable approximation of the writing style common to the freshman year, the English Department offers several courses in composition, beginning with Writing Improvement Center. The Writing Center, established by the Reading and Writing Improvement Center, is located in the Health Science building. This program is under the supervision of the College Committee.

READING AND WRITING LABORATORIES

A Reading Laboratory and a Writing Laboratory are maintained by the English Department. The Reading Laboratory offers a remedial service to those wishing to improve reading or writing ability, or to secure individual help with study problems at any level of college work. The service is open to all students enrolled in English R or English W as they do in any course. He may also report for special help without registration. The laboratory course carries no college credit.

STUDENT ACTIVITIES PROGRAM

A rich field of extracurricular activities is available to San Diego State students. Concerning the nature and scope of these opportunities, the Office of the Dean of Student Life offers a service to students desiring advice and assistance in planning appropriate programs of activities. Many opportunities are available through musical and dramatic productions, television, and theater productions. Among the approximately 150 student organizations, recreational, religious, and social fraternities and sororities, national and social fraternities and sororities. Inquiries regarding national social fraternities and sororities at the Panhellenic Council, San Diego State College.
**Student Services**

**Activities and Housing**

**OFF-CAMPUS HOUSING**

San Diego State is located in a residential district of apartment houses and small homes. The campus is about 10 miles east of the downtown central business section of San Diego, five or six miles west of the neighboring cities of La Mesa and El Cajon. Information on housing facilities, as well as on residence halls, may be obtained from the Director of Housing, San Diego State College.

**EATING FACILITIES**

During the time college is in session, two modern cafeterias are operated on the campus, serving breakfast, lunch, and dinner at modest cost per meal. Restaurant facilities off-campus are not generally available in the immediate vicinity of the campus, with a few exceptions, but many such places are available within one mile of the campus.

**TRANSPORTATION**

Bus line transportation to the college, connecting with all areas of the metropolitan area, is available daily, except Sundays and holidays. Route S operates north-south on College Avenue, between the campus and the College Grove Shopping Center at Ryan Road. Transfer points for connecting east-west bus lines are at El Cajon Boulevard with Route E, at University Avenue with Route 7, and at Streamview Drive with Route 5.

**PARKING**

On-campus parking areas are provided for students, faculty and staff. Visitor Information Booths are located at the entrance to the campus on College Avenue Information on location of parking areas and to the section of the catalog for Schedule of Fees for information on parking fees. The traffic headquarters office is located at the entrance to the Administration Building.

**COST OF LIVING**

Each student should plan his budget based upon individual needs. The wide range of tastes and financial resources of students in a college with an enrollment of 17,000 makes it difficult to give specific information on the cost of going to college. Life and activities on a modest budget. A table of estimated costs is given below as a guide to students in planning the college budget.

---

**Student Services**

**Loans and Scholarships**

**ESTIMATED EXPENSES FOR ONE SEMESTER**

**Typical Costs for Living on Campus**

- Materials, service, student activity, and student union fee: $51.00
- (Non-resident tuition for out-of-state students of $300, or Foreign Student tuition of $212.50, is in addition to above fee.)
- Books and supplies: $75.00
- Room, board, health services, parking: $420.00
- Clothing, laundry, cleaning: $124.00
- Personal: $180.00
- **Total: $850.00**

**Typical Cost for Commuting Students**

- Materials, service, student activity, and student union fee: $51.00
- Books and supplies: $75.00
- Lunches: $81.00
- Transportation: $90.00
- Parking: $13.00
- Personal: $90.00
- **Total: $400.00**

**FINANCIAL AID**

San Diego State College makes every effort to see that students who wish to attend are not prevented from doing so because of inadequate financial resources. To this end, financial aid in the form of loans and opportunity for part-time employment on or off the campus is made available to qualified applicants. In majority of cases, a student will be offered a package financial aid plan which may include one or more of the following: grant, part-time employment, loan. The programs explained below are administered by the Financial Aid Office, Administration Building, Room 207.

**SAN DIEGO STATE COLLEGE FOUNDATION LOAN PROGRAM**

Through the generosity of a number of individuals and groups, funds have been established to assist students with both emergency and deferred loans. Completion of at least one semester of full-time attendance at San Diego State is required before the student is eligible. The amount that may be borrowed, based on college-related need, may not exceed $500. Repayment is generally made during the semester; however, senior and graduate students in their last year of college may select deferred repayment plans. Most loans under this program are free of interest. Applications are available throughout the academic year.

**NATIONAL DEFENSE STUDENT LOAN PROGRAM**

National Defense Student Loans under the National Defense Education Act of 1958, are available to students who meet the specific qualifications. All students, both entering and continuing, may apply for these loans. The amount that may be borrowed, based on college-related need, may not exceed $1,000 per year for an undergraduate, or $2,500 per year for a graduate student. Repayment begins nine months after the student ceases to carry on at least one-half the normal full-time academic work load and ends ten years and nine months after such date. The interest rate is three percent simple interest per year. This loan program provides for service as a full-time teacher in a public or other non-profit elementary or secondary school or institution of higher education.
NURSING STUDENT LOAN PROGRAM

San Diego State College participates in the Nursing Student Loan Program under the Nursing Training Act of 1964. All students, both entering and continuing, may apply for these loans if they plan to enroll in a full-time course leading to the Bachelor of Science degree in nursing. The amount that may be borrowed, based upon college-related need, may not exceed $1,000 per year. Repayment begins one year after the student leaves college and may extend over a ten year period. The interest rate is based upon prevailing Federal interest rates; at the time the loan is made, and ranges between three per cent and five percent simple interest.

UNITED STUDENT AID FUND PROGRAM

United Student Aid Fund Loans in conjunction with the student's home town bank, are available to those students meeting specific qualifications. Students who may be completed thirty credit hours or more are eligible to apply. The amount that may be borrowed, based upon college-related need, may not exceed $1,000 per year for undergraduates or $2,000 per year for graduate students. Repayment begins five months from the time the borrower graduates and may extend between thirty-six and fifty-four months. Interest is 6% simple interest, beginning at the time the loan is granted.

EDUCATIONAL OPPORTUNITY GRANT

San Diego State College has applied for funds which would provide Opportunity Grants of between $200 and $800 to students who show academic promise, are of to pursue higher education. Opportunity Grants will be available to both entering freshmen and transfer students, as well as continuing students. These grants may complete the normal four year undergraduate degree program.

COLLEGE WORK-STUDY PROGRAM

San Diego State College participates in the College Work-Study Program under the Economic Opportunity Act of 1964. Students may qualify for financial aid in the form of part-time employment. Students, entering and continuing, will be eligible to apply. Where other financial aid is available, the maximum amount of work-study grants will be combined with loans, scholarships or other financial aid. Students may work on or off campus for up to fifteen hours per week. The rate of pay for such employment is $1.25 to $2.10 per hour.

MINIMUM REQUIREMENTS FOR APPLICATIONS

San Diego State College participates in the College Scholarship Service (CSS) of the College Entrance Examination Board. As a participant, the institution subscribes to the principle that the amount of financial aid granted to a student should be based upon financial need. The CSS assists the college in determining a student's need for financial assistance. All students (undergraduate and graduate) who request financial aid must submit a copy of the Parents' Confidential Statement as part of the application process. In addition, San Diego State College as one of the recipients of the financial aid application and brochure, may be secured in the Financial Aid Office.

APPLICATION FOR AID

Students may request assistance for all programs explained above on one financial aid form provided by the college. Applicants must complete the Parents' Confidential Statement. Applications are available between February 15 and June 1, 1966 for the 1966-67 academic year. Claims for aid must be submitted before the academic year has begun.

SCHOLARSHIPS

APPLICATIONS

Most donors of scholarships at San Diego State have chosen to grant money to students who have academically proven themselves for at least one semester at San Diego State College; therefore, the college can award only a few music, athletic, and general scholarships to incoming students.

Scholarships ranging from $50 to $500 are granted to outstanding students by the Scholarship Committee. Applications for scholarships can be secured in the Office of the President. Applications should be filed in the Administration Building. Applications should be filed in the Administration Building. Applications should be filed in the Administration Building. Applications should be filed in the Administration Building.

SCHOLARSHIPS AWARDED IN HIGH SCHOOLS

Orderly, freshmen who enter San Diego State with a scholarship have received the award through their high school scholarships committee. For example, the DeWitt Bixby William Memorial offers a $100 scholarship to any high school in the California Scholarship Federation. San Diego City and County for a member of the California Scholarship Federation. The faculty scholarship committee of each high school selects its scholarship recipient. The faculty scholarship committee of each high school selects its scholarship recipient.

FOREIGN STUDENT APPLICATIONS

Foreign students, once registered, may participate in the competition for scholarships at San Diego State. From time to time there are a few small scholarships open to applications from any student.

SCHOLARSHIPS FOR GRADUATE STUDENTS

A few small grants for graduate students are awarded through departmental recommendations of students who have attended San Diego State. Information about recommendations of students who have attended San Diego State College may be obtained by writing to the department in which the applicant is interested.
FACULTY COMMITTEE SCHOLARSHIPS

In addition to more than 600 scholarships granted to students directly by organizations and individuals, the following scholarships are awarded through the Faculty Committee on Scholarships:

ADMISSION

APPLICATION FOR ADMISSION

FILING OF APPLICATIONS

Deadline for Filing Application. An application for admission to the college may be filed during the semester preceding the one in which the applicant expects to enroll. The last dates for filing applications are as follows:

For fall semester: July 15.
For spring semester: December 15.

Required Official Forms. The following official forms must be submitted to the Admissions Office:

1. Application for admission or readmission, accompanied by a $5 application fee. Make check or money order payable to San Diego State College. (Fee may be waived for readmission application if student was regularly enrolled in either of the two semesters immediately preceding the semester for which the application is submitted, unless such student was enrolled at another institution in a regular session subsequent to such previous semester.)
2. Health history record
3. Residency statement

These forms may be obtained from the Admissions Office. Letters from applicants signing intention to enroll will not be considered as applications for admission. The official forms must be filed.

FILING OF RECORDS

File Official Transcripts. The applicant must file the following official transcripts with the Admissions Office:

1. Transcript from high school of graduation or last in attendance (not required of the graduate student who holds a bachelor's degree from an accredited institution, but is required of the student who holds a bachelor's degree from a nonaccredited institution).
2. Transcripts from EACH college attended (including extension, correspondence, summer session, or evening courses). Graduate students must file transcripts IN DUPLICATE, if they plan to enter the master's degree program.
3. Photostat or true copy of the military separation form DD-214 (or equivalent) if applicant has had active military service. (Not required of graduate students.)

An official transcript is one sent directly between schools. The applicant must request the school or college to send the transcript to the Admissions Office, San Diego State College. All records or transcripts received by the college become the property of the college and will not be released nor will copies be made.

COMPLETION OF REQUIRED TESTS

Admissions Tests

1. College Aptitude Test. The American College Test (ACT) is required for matriculation of entering freshmen and transfer students with less than 60 units. Applicants should consult the high school counselor for dates and places where tests are given. Transfer students with more than 60 units are required to take a college aptitude test administered at this college. A test reservation card is filed with the application for admission. Refer to the calendar in this catalog for dates of the test.
2. Writing Competency Test. This test must be taken before registration by all undergraduate students transferring to this college with 45 units or more of advanced standing. Passing this test or satisfactory completion of designated courses or remedial programs is a graduation requirement for all students. Since this test is scheduled to be given at the same time as the college aptitude test, a separate reservation for the test need not be made.
3. English Test for Foreign Students. For admission purposes, all entering foreign students whose native language is not English must take this test. The test will be scheduled by the counselor for foreign students. This test does not take the place of the writing competency test required for graduation.

Teacher Education Tests. These tests are required of all candidates for teaching credentials. Refer to Admission to Teacher Education in the section of this catalog on Professional Curricula in Education, and to the calendar for additional information.

1. Fundamentals Test. This test is required of all candidates for the general elementary and kindergarten-primary credentials before admission to teacher education. May be taken before registration by students transferring to this college with 15 units or more of advanced standing. May also be taken during the regular semester. Make a reservation for this test at the Office of Elementary Education, Education Building.
2. Comprehensive College Test. This test is required of all candidates for any of the secondary school credentials before admission to teacher education. May be taken before registration by students transferring to this college with 60 units or more of advanced standing. May also be taken during the regular semester. Make a reservation for this test at the Test Office, Administration Building one month prior to test date. Fee required.
3. Mathematics Competency Test. A mathematics competency test is required of all candidates for any of the secondary school credentials before admission to teacher education. The test is the same test as the one given to clear the graduation requirement for competency in mathematics. Graduate students must make a reservation for this test at the Evaluations Office in the Administration Building.

Qualification Tests.

Mathematics Placement Examinations. Required of students before enrollment in any of the following courses: Mathematics 1, 4, 9, 12, 21, 22, 40, 50, and Economics 2. These examinations may be taken before registration. Reservations for the examinations are not required. Refer to the calendar in this catalog for examination dates.

Graduate Aptitude Test. This test is required of all graduate students who intend to enroll in a master's degree program. May be taken before registration. Also given during the regular semester. Make reservations for this test at the Test Office, Administration Building. Refer to the Graduate Bulletin for full information and test dates.
Admission

ADMISSION REQUIREMENTS

Requirements for admission to San Diego State College are in accordance with Title 5, Chapter 5, Subchapter 2 of the California Administrative Code as amended by the Board of Trustees of the California State Colleges on January 21, 1963. A prospective applicant who is unsure of his status under these requirements is encouraged to consult with a school or college counselor or contact the college admission office.

ADMISSION AS A FRESHMAN

An applicant who has had no college work will be considered for admission under one of the following provisions. Except as noted, submission of the results of the American College Test is required.

California High School Graduates and Residents. An applicant who is a graduate of a California high school or a legal resident for tuition purposes must have a grade point average and composite score on the ACT which provides an eligibility index* placing him among the upper one-third of California high school graduates. The grade point average is based upon the last three years and does not include physical education or military science. The table below does not cover every case, but gives several examples of the test score needed with a given grade point average to be eligible for admission.

<table>
<thead>
<tr>
<th>Grade Point Average</th>

<td>16</td>
</tr>
<tr>
<td>2.00</td>
<td>14</td>
</tr>
<tr>
<td>1.99 and below</td>
<td>Not eligible</td>
</tr>
</tbody>
</table>

Non-Residents Graduating from High Schools in Other States or Possessions. An applicant who is a non-resident for tuition purposes and who is a graduate of a high school in another state or a U.S. possession must have an eligibility index which would place him among the upper one-sixth of California high school graduates for 1966-67. The minimum required eligibility index in ACT—834 and is calculated as in the previous section.

Graduates of High Schools in a Foreign Country. An applicant who is a graduate of a foreign high school must have preparation equivalent to that of eligible California high school graduates. The college will carefully review the previous record of all such applicants and only those with promise of academic success equivalent to that of eligible California high school graduates will be admitted. Such applicants are not required to take the ACT.

Non-High School Graduates. An applicant who is over 21 years of age, but has not graduated from high school will be considered for admission only when his preparation in all other ways is such that the college believes his promise of academic success is equivalent to that of eligible California high school graduates.

High School Students. A student still enrolled in high school will be considered for enrollment in certain special programs if he is recommended by his principal and his preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given program and does not constitute the right to continued enrollment. Such applicants are not required to take the ACT.

Other Applicants. An applicant not admissible under one of the above provisions should enroll in a junior college or other appropriate institution. Only under the most unusual circumstances will such applicants be permitted to enroll in the college. Permission is granted only by special action.

*For 1966-67 the minimum eligibility index is ACT—738. It is computed by multiplying grade point average by 200 and adding it to 10 times the composite ACT score.

Recommended Preparation. Overall excellence of performance in high school subjects and evidence of academic potential provide the basis for admission at San Diego State College. While no specific pattern is required, the applicant to be properly prepared to undertake a full program of studies and particularly to pursue the required program in General Education, is strongly encouraged to include the following subjects as minimally adequate background for college work:

1. College preparatory English.
2. Foreign language.
3. College preparatory mathematics.
4. College preparatory laboratory science.
5. College preparatory history and/or social science.
6. Study in speech, music, art, and other subjects contributing to general academic background.

The following general outline is suggested as a guide to students in selecting courses in preparation for college.

Recommended for all precollege students: typing, art, music, additional social studies. English; for science majors: slide rule, mechanical drawing. Students should enrich the high school program by selecting freely from courses in the fine arts, practical arts, and the humanities. Many students are availing themselves of the opportunity afforded in high school summer sessions to take courses which otherwise could not be included within the regular semesters.
Admission

ADVANCED PLACEMENT EXAMINATIONS

San Diego State will grant advanced placement and advanced credit to high school students who have satisfactorily completed the Advanced Placement Tests prior to their enrollment at the college. A maximum of 15 semester units, with no more than three units in any one field, will be awarded for these examinations upon completion of one semester at this institution.

High school students who intend to participate in this program should indicate at the time they take the Advanced Placement Examinations that their test scores be sent to the college. To obtain credit or advanced placement, the student should obtain and file an application form in the office of the Vice President for Academic Affairs during the student's first registration at the college.

ADMISSION AS AN UNDERGRADUATE TRANSFER

Any applicant who has attempted college work will be considered for admission under one of the following provisions. An applicant must report all college work attempted (including extension and correspondence courses), no portion of which may be disregarded in transferring. An applicant disregarding this regulation will be subject to dismissal from the college.

Applicants With 60 or More Semester Units. An applicant who has completed 60 or more semester units or the equivalent will be admitted if he has achieved a grade point average of 2.0 (C) on all college work attempted and he was in good standing at the last college attended.

Applicants With Fewer Than 60 Semester Units. An applicant who has completed fewer than 60 semester units or the equivalent may be admitted if he meets the above requirements and he meets requirements currently in effect for first-time freshmen or, if he has been in full-time continuous enrollment at a college since his graduation from high school, he meets the requirements in effect for first-time freshmen at the time of his high school graduation.

Junior College Credit. A maximum of 70 semester units earned in a junior college may be applied toward the degree, with the following qualifications: (a) No upper-division credit may be allowed for courses taken in a junior college; (b) no credit may be allowed for professional courses in education taken in a junior college, other than an introduction to education courses.

ADMISSION OF GRADUATE STUDENTS

FILING OF APPLICATIONS

All students holding a baccalaureate degree who desire to enroll at this college for post graduate study must apply for admission to the Dean of Admissions. In making the application, they must observe the procedures outlined above for admission to the college. If accepted, they will be admitted with unclassified graduate standing or with undergraduate standing.

FILING OF RECORDS

The student must file official transcripts from EACH college or university attended (including extension, correspondence, summer session, or evening courses). If a student plans to enter a master's degree program or a graduate credential program, he must file all transcripts IN DUPLICATE. An official transcript is one sent directly between registrars of schools. The student should request the college or university attended to send the transcript to the Admissions Office, San Diego State College. All records or transcripts received at the Admissions Office become the property of the college and will not be released or withdrawn. A student who has obtained his degree from San Diego State need not file transcripts, except those transcripts covering work he may have taken at other institutions since graduation. He must, however, file an application for readmission to the college and, if he plans to enter a master's degree program, an application for admission to the Graduate Division and must comply with all other admission procedures outlined above.

ADMISSION WITH GRADUATE STANDING: Unclassified

(a) For admission with graduate standing as an unclassified graduate student, a student shall have completed a four-year college course and hold an acceptable baccalaureate degree from an accredited institution, or shall have completed equivalent academic preparation as determined by the appropriate college authorities.

(b) Admission to a state college with graduate standing does not constitute admission to graduate degree curricula.

ADMISSION TO GRADUATE DEGREE CURRICULUM: Classified

A student who has been admitted to San Diego State as an unclassified graduate student, upon application, be admitted to an authorized graduate degree curriculum of the college as a classified graduate student if he satisfactorily meets the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as the appropriate college authorities may prescribe. Only those applicants who show promise of success and fitness will be admitted to graduate degree curricula, and only those who continue to demonstrate a satisfactory level of scholastic competence and fitness, as determined by the appropriate college authorities, shall be eligible to continue in such curricula. Students whose performance in a graduate degree curriculum is judged to be unsatisfactory by the authorities of the college may be required to withdraw from all graduate degree curricula offered by the college.

GRADUATE BULLETIN

The Graduate Bulletin is available at the office of the Graduate Division.

ADMISSION OF FOREIGN STUDENTS

Applicants for admission as either graduates or undergraduates, whose education has been in a foreign country should file an application for admission, official certificates and detailed transcripts of record from each secondary school and college in which the applicant expects to attend. If certificates and transcripts are not in English, they should be accompanied by certified English translations. Credentials will be evaluated in accordance with the general regulations governing admission to the college.

An applicant whose education has been in a language other than English must take the Test of English as a Foreign Language (TOEFL). This test is administered in most foreign countries and test scores must be received by the college before admission to the college can be granted. Information as to the time and place at which this test is given may be obtained by writing to: Educational Testing Service (TOEFL), Princeton, New Jersey, 08540, U.S.A. In addition, after the student's arrival on the San Diego State College campus, he must take the English Test for Foreign Students which will be used by his adviser to assist the student in planning an appropriate course of study.

Arrangements for housing should be completed before the student's arrival on the campus. Detailed information regarding housing may be obtained from the Director of Housing, San Diego State College. Scholarship aid for entering students is limited; no scholarships are specifically reserved for students from another country. Further information regarding scholarships will be found elsewhere in this catalog.

Upon arrival at San Diego State College the student should obtain an appointment as early as possible with the Adviser for Foreign Students.

LIMITATION OF ENROLLMENT

Admission to a state college shall be limited to the number of students for whom facilities and competent instructors are available to provide an opportunity for an adequate college education. The Board of Trustees shall determine the number of students for whom there are available facilities and competent instructors at the college.
REGISTRATION

Students who receive notice that they are eligible for admission to the college must complete additional requirements for registration, such as clearance of residency status, payment of fees, and the keeping of other designated appointments as outlined in the Class Schedule and Instructions for Registration, a publication issued prior to the beginning of each semester and sold at the campus Bookstore.

RESIDENCY STATUS CLEARANCE

The laws of the State of California require this college to determine the residency status of each student enrolling prior to the payment of fees. A student who has not been a legal resident of this State for a period of one year just prior to registration is assessed nonresident tuition in addition to the other fees.

The residency classification received by any student is subject to review and change. Each student is held responsible for notifying the Residency Office of any change in his legal status as a resident of California.

REGISTRATION PRIORITY FOR PAYMENT OF FEES

Each student is assigned a priority number which determines the order in which he registers and pays fees. The schedule for registration and payment of fees is published in the Class Schedule and Instructions for Registration, which is available at the student Bookstore prior to the beginning of each semester. Priority numbers appear on the Notice of Admission for entering students, and on the permanent identification cards for students continuing their uninterrupted enrollment in the regular semesters.

ADVISING

Provision is made at the time of registration for each new student to obtain assistance from a faculty adviser in arranging a program. The faculty adviser is assigned at the time of registration. Each student should thereafter schedule a conference with his adviser at least once during each semester.

CHANGES OF PROGRAM

A student is responsible for any change in his program after registration. Forms for changes in program are available at the Registrar's Office. A fee of $1 is charged for each change of program. Check the calendar for deadline dates for changes of program.
GENERAL REGULATIONS

STUDENT RESPONSIBILITY FOR CATALOG INFORMATION

Students are held individually responsible for the information contained in the catalog. Failure to read and comply with college regulations will not exempt a student from whatever penalties he may incur.

MARKING SYSTEM

GRADES AND GRADE POINTS

The following grades and grade points are used in reporting the standing of students at the end of each semester:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Outstanding achievement</td>
</tr>
<tr>
<td>B</td>
<td>Comendable</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
</tr>
<tr>
<td>D</td>
<td>Passing</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
</tr>
</tbody>
</table>

Grades of Cr, Aud,Withdrawal passing, Withdrawal failing is not counted in grade average, but units allowed.

GRADE POINT AVERAGE

The scholarship or grade point average is determined by dividing the total number of grade points earned by the number of units attempted. The minimum satisfactory grade point average for a bachelor's degree or recommendation for transfer to another collegiate institution is 2.0 (grade of C). The student must have earned at least twice as many grade points as units attempted.

INCOMPLETE GRADE

An incomplete grade is counted as units attempted with no grade points and remains on the student's record unless made up. One calendar year beyond the end of the term when an incomplete is assigned will be allowed for makeup of the incomplete. The student must arrange with the instructor who gave the incomplete for removal of the course deficiencies, upon completion of which a final grade will be assigned. An incomplete cannot be removed by repeating the course.

Any student who does not make up the incomplete, but instead re-enrolls in the course for credit, he has repeated the course for which he will receive the credit and grade points earned, subject to the regulations for repeating courses. The incomplete grade points earned and cannot thereafter be made up through removal of course deficiencies.

This regulation does not apply to the theses courses numbered 299, which are not counted as units attempted until the final grade has been assigned, provided that the course be completed within the time permitted by the Graduate Office. Students must complete the thesis within one calendar year after registration in the course. If the thesis is not completed within this period, the student must re-register for the course.

INCOMPLETE AT TIME OF GRADUATION

A candidate for graduation with the baccalaureate degree whose record carries an incomplete which was received within the last calendar year will be graduated without the opportunity of making up the incomplete if he is otherwise eligible for graduation; however, the incomplete will be counted as units attempted in determining grade point averages and the incomplete cannot be made up after the degree has been granted. If the student does not wish to be graduated with the incomplete on his record, he must officially withdraw as a candidate for graduation.

GRADE REPORTS TO STUDENTS

Following the close of the seventh week of instruction (eighth week of the semester), reports are sent to students who are doing unsatisfactory work. These deficiency reports, known as D notices, are optional with an instructor. Students should be aware of their progress in a course and not depend upon receipt of formal notice if work is unsatisfactory.

At the end of each semester or summer session in which the student is enrolled, a grade report is sent to the student.

SCHOLASTIC PROBATION

Any student, undergraduate or graduate, whose scholarship record falls below a C average (2.0) for all college work attempted or all college work attempted at San Diego State College will be placed on probation.

Probation may be continued provided that the student obtains a C average or better each semester while on probation. The student will be removed from probation when he has attained a C average or better on all college work attempted and on all college work attempted at San Diego State College.

SCHOLASTIC DISQUALIFICATION

DISQUALIFICATION

Any student on probation whose scholarship falls below a C average (2.0) in any single semester or summer session will be subject to disqualification and dismissal from the college.

Veterans' Eligibility

Veterans who are disqualified from further attendance at this college forfeit their rights to veteran benefits. Specific information should be obtained from the Veterans Administration regarding continuance of education.

PETITION FOR REINSTATEMENT

A disqualified student may be reinstated for reasons satisfactory to the Board of Admissions. Applications for reinstatement must be made on forms which may be obtained at the Admissions Office.

STUDENT DISCIPLINE AND ATTENDANCE

Any student may be placed on probation, suspended, or expelled for one or more of the following causes:

(a) Disorderly, unethical, vicious, or immoral conduct.
(b) Misuse, abuse, theft, or destruction of state property.

The period for which the student may be placed on probation or suspended by the president shall not exceed 12 months. Fees or tuition paid by or for the student for the semester or summer session in which he is suspended will not be refunded. If the student is a minor, the president shall immediately notify the parent or guardian of the action taken. (Reference: California Administrative Code, Chapter 5, Sections 41301, 41302, 41303.)

The above penalties may be applied in cases involving academic dishonesty—cheating in tests, examinations, laboratory work, written work (plagiarism)—that is, for any attempt to get credit for work not performed.
General Regulations

CREDIT

UNIT OR CREDIT HOUR

A unit or credit hour represents 50 minutes of lecture or recitation combined with two hours of preparation per week through one semester of 18 weeks. Two hours of "activity" or three hours of "laboratory" are considered equivalent to one hour of lecture.

CREDIT FOR UPPER DIVISION COURSES

Freshmen may not enroll in upper division or graduate courses (numbered 100 and above); sophomores may not enroll in upper division or graduate courses, with the following exceptions:

(a) A student in the last semester of his sophomore year who is approaching upper division standing and is carrying sufficient lower division units to complete the required minimum of 60 units may carry upper division units for the remainder of his study load.
(b) A student with sophomore standing may carry upper division courses for upper division credit provided that he has the written approval of the chairman of the department and the Vice President for Academic Affairs or his authorized representative. This written approval must be filed at the Evaluations Office, Administration Building, on the Adjunct of Academic Record form, which may be obtained at the Evaluations Office.

CONCURRENT MASTER'S DEGREE CREDIT

A senior who is within seven units of completing requirements for the bachelor's degree and whose overall grade point average is 3.0 or above may petition the Graduate Council to take approved 100-numbered courses for concurrent master's degree credit with the remaining requirements for the bachelor's degree. Enrollment in 200-numbered courses is not permitted. The bachelor's degree must be completed at the end of the semester in which the concurrent credit is earned and not more than six units of such credit will be accepted on the minimum unit requirements for the master's degree. The rules of the Graduate Division concerning academic load must be observed. (For further information, refer to the Graduate Office.)

CREDIT FOR EXTENSION COURSES

The maximum amount of extension and correspondence credit which may be accepted toward the minimum requirements for a degree in the undergraduate degree is 24 semester units, not more than 12 of which may be transferred from another college or university, except that courses taken through the United States Armed Forces Institute, or other official military correspondence schools, shall not be included within these limits. Extension and correspondence credit do not count in satisfaction of the minimum residence requirement. A maximum of six units in extension courses at San Diego State College may be accepted as part of the requirements for the master's degree, subject to limitations described in the section of the catalog on the Graduate Division and in the Graduate Bulletin.

Students desiring to enroll concurrently in extension courses and in the regular college program are subject to the regulations on excess study load. Such students should obtain approval from the Dean of Admissions in advance of registration.

CREDIT BY EXAMINATION

Approval to receive credit-by-examination is granted at the discretion of the appropriate college authorities and under the following conditions:

(1) The student must be matriculated, in good standing (not on probation), be registered in at least one regular course (not Extension) at the time credit-by-examination is authorized, and pay for additional units if cost exceeds fees already paid. Application for credit by examination must be made within the time limits for filing a change of program as listed in the Academic Calendar each semester. In summer sessions the total units earned for courses and examinations can not exceed the limit authorized by the Education Code.

(2) Concurrent approval of the chairman of the department concerned and the Vice President for Academic Affairs is required prior to taking the examination.

The forms for approval may be obtained from the Registrars.

(3) Credit-by-examination is restricted to regular undergraduate courses listed in the general catalog; does not include 200-numbered, 100-numbered, or Extension courses, cannot exceed 30 units as applicable to graduation; and does not count toward residence credit.

(4) Credit-by-examination is not treated as part of the student's study load and, therefore, does not require a petition for excess study load; is not considered for Selective Service purposes or by the Veterans Administration in the application of their respective regulations; and is seldom accepted as transfer credit between college institutions.

CREDIT FOR MILITARY SERVICE

The college is guided by the recommendations of the American Council on Education in granting undergraduate credit toward the bachelor's degree for military service. Postgraduate credit is not granted.

To obtain credit for military service, the student must be fully matriculated and enrolled in the college. The military form DD-214 must be filed with the Administration Office if military credits are to be counted toward the bachelor's degree or used to shorten the time needed for the degree. This form, or equivalent records verifying active military service in the United States armed forces, should be submitted at the time of applying for admission to the college.

COURSES

NUMBERING OF COURSES

Courses numbered 1 through 99 or by letters (A, B, C, etc.) are in the lower division (freshman and sophomore years); those numbered 100 through 199 are in the upper division (junior and senior years); and those numbered 200 through 299 are in the graduate division. Courses numbered 300 or over are professional education courses in the postgraduate program.

ADMITTED COURSE

A student who does not wish to take a course for credit may enroll as an auditor, class size permitting. An auditor must meet all admission requirements and pay the same fees required of students taking the course for credit. An auditor is not held for grades and does not receive credit for the course. A student may change his program from "auditor" to "credit" or vice versa within the time limits authorized for changes of program and subject to the regulations for withdrawal from class.

REPEATED COURSE

A student may repeat a course in which he has received a grade of D or F, but may not receive credit for the course more than once. A repeated course is counted as units attempted and is credited with the grade points earned, the effect being an averaging of the grades. If a student repeats a course in which he has received a grade higher than D, the repeated course will not be counted as units attempted nor will grade points be counted in the student's record. An incomplete cannot be removed by repeating the course.

STUDENT CLASSIFICATION

MATRICULATED STUDENT

A matriculated student is one who has complied with all requirements for admission to the college and has received his official Notice of Admission. All students taking courses in any regular semester of the college must be matriculated students. Only in summer sessions or in extension courses may a student who has not matriculated be accepted for enrollment in a college course.
General Regulations

SUMMER SESSION OR EXTENSION-CLASS STUDENT

Each student who enrolls in one or more summer session classes shall be classified as a summer session student. Each student who enrolls in one or more extension classes shall for his extension class work be classified as an extension class student. Such students need not be matriculated students as a prerequisite for enrollment in classes.

RESIDENT OR NONRESIDENT STUDENT

Each student, as a condition for enrollment in a regular semester, must be classified as a resident or a nonresident student. Residency status is defined in the California Administrative Code, Sections 23759, 23760, 41901, and 41902.

LOWER DIVISION STUDENT

Freshman. A student who has earned a total of fewer than 30 semester units.
Sophomore. A student who has earned a total of 30 to 59 semester units, inclusive.

UPPER DIVISION STUDENT

Junior. A student who has earned a total of 60 to 89 semester units, inclusive.
Senior. A student who has earned a total of 90 semester units or more.

GRADUATE STUDENT

Graduate. A student who has completed a four-year college course with an acceptable baccalaureate degree from an accredited institution. For information on classification of graduate students, refer to the section of this catalog on the Graduate Division.

STUDENT PROGRAM AND RECORDS

TRANSCRIPTS OF RECORD

A student may obtain an official transcript of his record by filing an application at the Registrar's Office. A fee of $1 is charged (first copy free). One week should be allowed for the processing and mailing of the transcript. Transcripts sent from one college to another are considered as official. Transcripts presented by a student to a college are considered to be unofficial and are usually not accepted. Transcripts from other schools or colleges become the property of this college and will not be released nor will copies be made.

EVALUATION

An evaluation is a summary of college work completed and of requirements to be completed for a bachelor's degree or credential. To be eligible for an evaluation, a student must have completed at least 60 units of acceptable college work and be qualified for full matriculation. Authorization for more than one evaluation during any one semester or one evaluation in nine weeks of summer session requires special permission of the Board of Admissions and Evaluations.

APPLICATION FOR AN EVALUATION

A student who has earned 60 semester units or more, who has not received an evaluation, should apply at the Evaluations Office for an official evaluation. The evaluation is made on the regulations in effect at the time the student entered this college, except as otherwise provided in the California Administrative Code, Chapter 5, Section 40601, Election of Regulations. (Further information is given in the section on Graduation Requirements.)

AFTER an interval of five years from the time an evaluation is made, courses in education to be applied toward a teaching credential are subject to re-evaluation.

STUDY LIST LIMITS

Students who enroll for more units than authorized, including courses taken concurrently outside this college, will not receive credit for the excess number of units.

UNDERGRADUATE PROGRAM

For the undergraduate student, a normal semester's program is 16 units, with 12 units considered the minimum full-time load. A student may carry up to 17 1/2 units with the permission of his adviser. Greater variations are subject to approval of the Vice President for Academic Affairs, or his authorized representative.

Students accepting extensive part-time employment are strongly advised to limit their study loads in college. Going to college is regarded as a full-time job. Students are normally expected to spend in class and study a total of three hours per week for each unit of college work attempted. A normal 16-unit load therefore represents a 48-hour week.

GRADUATE PROGRAM

For information on study list limits for the graduate program, refer to the Graduate Bulletin.

CHANGE OF MAJOR OR CURRICULUM

At the time of admission to the college, each undergraduate student is assigned to a major field or curriculum, or is designated as an undeclared major. After registration, any student wishing to change his major or curriculum, must make application at the Registrar's Office. The code designation for a major carried on the student's identification card is considered his official major.

Veterans using veteran benefits must obtain appropriate approval from the Veterans Administration for necessary changes in letters of eligibility.

WITHDRAWAL TO ENTER MILITARY SERVICE

Under certain conditions, a student withdrawing from college to enter military service is entitled to apply for refund of materials and service fees or for partial credit (but not both). To qualify under this regulation, the student must (a) be a citizen who, because of his own initiative, receives orders to immediate extended active duty, or (b) be a civilian who receives orders to immediate extended active duty by government action, or (c) be a reservist called to immediate extended active duty. (Not applicable to other military personnel enrolled in the college.)

Entrance upon extended active military duty must be without unreasonable and unnecessary delay (normally within 30 days) after the date of withdrawal from college to qualify the student for refund or partial credit. Verification of entry upon extended active duty is required and must be by written statement of the commanding officer or by official copy of orders. Application for withdrawal from college may be made by the student in person, or by telephone or mail. Forms for withdrawal will also be sent to the student if requested by a person designated by the student as his representative in making the request.

If the student is passing in courses at the time of withdrawal from college, partial credit may be granted in undergraduate courses at the rate of one-third credit for completion of the first six weeks of the semester, or two-thirds for the first 12 weeks. The college does not wish to influence the student in choosing between partial credit and refund of fees; however, it should be pointed out that partial credit in a course may not satisfy some specific requirement for which that course may be needed and if the course is later repeated by the student the partial credit will be lost as "repeated" work.

REAPPLICATION

A student who withdraws from college must file application for readmission if a full semester lapses between the time of his withdrawal and return to college. No application will be accepted for readmission after September 15 of each academic year.

A $5 application fee for readmission is required if the applicant was not regularly enrolled in either of the two semesters immediately preceding the semester for which the application is submitted, or if the student was enrolled at another institution subsequent to the last attendance at San Diego State. Make check or money order payable to San Diego State College.
General Regulations

CHANGE OF PROGRAM AFTER REGISTRATION

A change of program after registration includes the following: withdrawal from a class; adding a class; adding or reducing units to a class for which the student is already registered; changing from audit to credit or from credit to audit; changing a section of the same course.

A change of program may be made on or before the published dates. Forms for the change of program may be obtained at the Registrar's Office. A fee of $1 is charged for each change of program made after registration. The effective date of withdrawal or change of program is the date on which the completed and acceptable forms are filed by the student at the Registrar's Office.

FINAL EXAMINATIONS

No final examination shall be given to individual students before the regular time. Any student who finds it impossible to take a final examination on the date scheduled must make arrangements with the instructor to have an incomplete grade reported and must take the deferred final examination within the time allowed for making up incomplete grades.

WITHDRAWAL AND READMISSION

OFFICIAL WITHDRAWAL

The student is held for every course appearing on his official study list. Any withdrawal from college or withdrawal from a class must be officially filed at the Registrar's Office; otherwise the student will receive a grade of "F" in the course. Application for withdrawal is made at the Registrar's Office.

Withdrawal Deadline Dates and Penalties. If a student withdraws officially from college or from a class by the end of the third week of classes, the course will not be recorded on the permanent record. If he withdraws after the third week and not later than the end of the ninth week of classes, either a W (withdrawal passing) or WF (withdrawal failing) will be recorded, depending upon whether he is passing or failing the course on the date of filing the request for withdrawal. (WF is equivalent to a failing grade.) After the ninth week of classes, withdrawal from a class is not permitted. A final grade will be recorded for each class for which the student is enrolled. Withdrawal from college (that is, from all courses) will be permitted up to 10 days preceding the final examination schedule; however, the student will receive a W or WF grade in each class, depending upon whether he is passing or failing in the class on the date of filing his request for withdrawal from college.

UNOFFICIAL WITHDRAWAL

Unofficial withdrawal officially from class or from college will receive failing grades in all courses which he stops attending. An unofficial withdrawal is one in which a student stops attending classes without filing official withdrawal forms within the deadlines established for withdrawing.

Veterans unofficially withdrawing will have veteran's allowances immediately suspended and will be subject to full repayment of allowances received after date of unofficial withdrawal.

GRADUATE DIVISION REGULATIONS

The general regulations described in this section of the catalog apply to both undergraduate and graduate students. For information on additional regulations for graduate students, refer to the section of this catalog on the Graduate Division and to the Graduate Bulletin.

TRANSFER TO GRADUATE SCHOOLS

Attention of students who plan to transfer to graduate schools is called to the fact that admission to graduate programs, at this or any other college or university, may be determined by the student's undergraduate preparation. A bachelor's degree from an accredited collegiate institution does not necessarily insures admission to a graduate school. The student's undergraduate scholastic standing and selection of courses appropriate to graduate study in the institution to which the student expects to transfer are factors in determining his eligibility for admission. The University of California, for example, reserves the right to evaluate and possibly reduce the credit in certain work which has been used for the student's bachelor's degree. Examples of such work would be credit for nurses' training, credit transferred from certain foreign schools, credit for military service, courses of a nonacademic nature, or credit by examination.

The student should determine as early as possible in his undergraduate program what the requirements are of the graduate school to which he expects to transfer. His undergraduate program, in consultation with his adviser, should be planned accordingly.

SECOND BACHELOR'S DEGREE

A second bachelor's degree may be earned if the student has an excess of 24 units beyond the minimum requirements for the first bachelor's degree, makes a complete change in major or degree, fulfills all requirements for the degree as required by this college, and has approval of the Vice President for Academic Affairs.
GRADUATION REQUIREMENTS
FOR THE BACHELOR'S DEGREE

SUMMARY OF REQUIREMENTS

To qualify for graduation the student must complete the following requirements: (1) minimum number of units, (2) residence requirement, (3) minimum scholarship average, (4) upper division course requirement, (5) a major, and a minor if required, (6) competency tests, (7) all college regulations, (8) requirement in American institutions, and (9) 45 units of general education in addition to the major, (10) application for graduation.

REQUIREMENTS

1. UNITS

Graduation with a bachelor's degree represents a four-year college course of study with a minimum of 124 to 132 semester units required as follows:

BACHELOR OF ARTS DEGREE. A minimum of 124 semester units.

BACHELOR OF SCIENCE DEGREE. A minimum of 128 semester units (except for students with a major in engineering which requires 132 semester units).

BACHELOR OF EDUCATION (OR B.V.E.) DEGREE. A minimum of 124 semester units.

2. RESIDENCE

For all degrees, except the bachelor of education, a minimum of 24 semester units must be earned in residence credit, at least half of which must be completed among the last 20 semester units counted toward the degree. Credit in summer sessions may be counted as residence credit on a unit-for-unit basis. Credit for “extension courses” or “credit-by-examination” cannot be counted as residence credit.

For residence requirements for the B.E. degree, refer to the section of this catalog on the Bachelor of Education Degree.

3. SCHOLARSHIP

Each student shall complete with a grade-point average of 2.0 (grade C on a five-point scale) or better: (a) all units attempted; (b) all units in the major; and (c) all units attempted at this college.

4. UPPER DIVISION COURSE REQUIREMENTS

Graduation with a bachelor's degree requires a minimum of 36 to 45 semester units in courses carrying upper division credit (may include the major, minor, general education, and electives), distributed as follows:

BACHELOR OF ARTS DEGREE. A minimum of 40 upper division semester units in applied arts and sciences or 45 upper division semester units in liberal arts and sciences.

BACHELOR OF SCIENCE DEGREE. A minimum of 36 upper division semester units.

BACHELOR OF EDUCATION (OR B.V.E.) DEGREE. For a description of requirements for the B.E. degree, refer to the section of this catalog on the Bachelor of Education Degree. Requirements for the B.V.E. degree are 40 upper division units.

5. MAJOR AND MINOR

Each student shall complete as a requirement for graduation one major and, if required by the major department, one minor. Some majors also include a foreign language requirement.

Major. The major consists of a pattern of prescribed upper division courses totaling not less than 24 units for the A.B. degree and not less than 36 units for the B.S. degree. The maximum number of units for a major is determined by the college.

Courses in the major are exclusive of those courses used to meet the requirements in general education. Lower division prerequisite and related courses required by the department in preparation for the major may be used in general education if applicable. Such course or courses, however, may not be used as part of the minimum unit requirement in the student's minor.

Minor. The minor normally consists of from 15 to 22 units, at least six units of which must be in upper division courses. Specific requirements and maximum number of units are determined by the college.

6. COMPETENCY TESTS

To qualify for graduation with any bachelor's degree, except the B.E. degree, each student must demonstrate competence in mathematics, speech, and the writing of English by satisfactorily passing the college tests in these areas or by passing courses or programs of study specifically designated in lieu of these competency tests. For special regulations governing the B.E. degree, refer to that degree. Descriptions of the competency tests follow:

MATHEMATICS COMPETENCY TEST

The Mathematics Competency Test is required of all new students before registration. Students failing to make a satisfactory score on this Mathematics Competency Test must take those courses required by the Mathematics Department. All students taking the B.E. degree must satisfy the graduation requirements by satisfactorily completing Mathematics 3, 10B, or 18, or by satisfactorily completing programmed instructional material designated by the Mathematics Department.

SPEECH COMPETENCY TEST

The Speech Competency Test is given to students who are enrolled in Speech Arts 3, Oral Communication, a required course in general education for all bachelor's degrees except the B.E. degree. Students failing the test are required to enroll concurrently in Speech Arts 2, Oral Communication Laboratory, and complete the course for an additional one unit of credit (not applicable to general education) as part of the graduation requirement in speech competency.

WRITING COMPETENCY TEST

The Writing Competency Test must be taken by all students except candidates for the B.E. degree at the first scheduled date for the test following the student's completion of 45 units of college work. All students transferring to this college with 45 units or more of advanced standing credit must take this test before registration regardless of the degree for which they are working. Passing of this test or the recital, which includes the writing of an essay, or satisfactory completion of English W, English 100, or remedial programs prescribed for the student by the College Committee on English is a graduation requirement, except for B.E. degree students.

7. ALL-COLLEGE REGULATIONS

Compliance with all regulations prescribed by the college is a requirement for graduation with any bachelor's degree.
Graduation Requirements

8. AMERICAN INSTITUTIONS

Each student to qualify for graduation with a bachelor's degree shall demonstrate competence in the following areas of American institutions:
2. American history, including the study of American institutions and ideals.
3. The principles of state and local government established under the Constitution of the State of California.

The student shall meet these requirements by passing a comprehensive examination on these fields prepared and administered by the college or by completing appropriate courses.

Students transferring from other accredited institutions of collegiate grade who have already met these requirements shall not be required to take further courses or examinations therein.

The graduation requirement in American institutions may be fulfilled by any one of the following alternatives:

**COMPLETION OF AMERICAN INSTITUTIONS THROUGH COURSES**

The graduation requirement in American institutions may be met by satisfactory completion of one of the following groups of courses:
(a) History 17A and 17B
(b) History 172A and 172B
(c) Political Science 1 and 2
(d) Political Science 115 and 142 or 143 or 148.

**COMPLETION OF AMERICAN INSTITUTIONS THROUGH EXAMINATIONS**

The graduation requirement in American institutions may be met by satisfactory completion of a comprehensive examination in each of the following areas:
1. American history, institutions and ideals
2. United States Constitution
3. California state and local government

Students electing to remove requirements through examination may obtain a bibliography of suggested reading at the Evaluations Office in the Administration Building. Examinations for removal of these requirements are given once each semester and in Term I summer session.

**COMPLETION OF AMERICAN INSTITUTIONS THROUGH COMBINATION OF COURSES AND EXAMINATIONS**

The graduation requirement in American institutions may be met by satisfactory completion of a combination of courses or a combination of courses and examinations in the required areas.

Students electing to remove requirements in this manner should select courses from those listed below:

<table>

9. GENERAL EDUCATION REQUIREMENTS

In order to provide students with opportunities for education which contributes to their effectiveness as citizens, as members of social groups, and as individuals capable of appreciating and participating in the culture in which they live, a plan of General Education requirements has been established.

A minimum of 45 semester units in general education must be completed in addition to courses in the major. The major is defined as the required block of upper division courses. The student should refer to the requirements in his major field before selecting general education courses.

Students with majors in applied arts and sciences must select general education courses in accordance with the pattern described below. Students in liberal arts and sciences must follow the pattern outlined in the section of this catalog on Liberal Arts and Sciences.

The pattern requirements in general education may be fulfilled by examinations with an accompanying reduction in the 45 units but without course credit. Permission to take such examinations must be obtained from the Dean of the College and have the approval of the department in which the examination will be taken. Examinations in American institutions are given each semester and during the summer session; these examinations may be taken once without the Dean's permission.

**SPECIFIC REQUIREMENTS**

For specific explanation of requirements in general education, refer to the following descriptions:

**NATURAL SCIENCES**

A. Natural Sciences (9-12 units). Students must include at least one course from Group 1 and at least one of the options from Group 2. If, in meeting these requirements, the student has not completed at least nine units, additional courses may be selected as indicated in Group 3. The courses selected must include at least one unit of laboratory in one of the groups. Not more than 12 units from this area may be counted in the total requirement of 45 units of general education.

**Group 1. Life Sciences**

(a) Lecture and laboratory
   Biology 1 and 2, or 4, Botany 4.
(b) Lecture only
   Biology 1.
Graduation Requirements

Group 2. Physical Sciences
(a) Lecture and laboratory
Astronomy 1 and 9; Chemistry 1A or 2A or 10A; Geology 1A or 2 and 3; Physical Science 1 and 3, or 2 and 4, or 5 and 3; Physics 2A and 3A, or 4A, or 5.
(b) Lecture only
Astronomy 1; Geography 1 or 3; Geology 2; Physical Science 1, 2, or 5; Physics 2A.

Group 3. Electives
Any course in astronomy, biology, botany, chemistry, geology, microbiology, oceanography, physical science, physics, or zoology.

SOCIAL SCIENCES

B. Social Sciences (9-12 units). Students must complete the requirements in Groups 1 and 2, and may elect courses from Group 3 to complete a minimum of nine and maximum of 12 units in this area. The Group 1 requirements may be met in whole or in part by examination, or by other options described in this section of the catalog on American Institutions.

Group 1. American Institutions
History 17A and 17B; or 172A and 172B, or Political Science 1 and 2; or 115 or 142 or 143 or 148.
If the entire requirement is met by examination, substitute three units in anthropology, economics, geography, (except 1 or 3), or sociology (except 15), and three units in history or political science for the six-unit requirement.

Group 2. Social Sciences
Select one course: Anthropology 1A, 1B, or 1C; Economics 1A or 103A; Geography 2; or Sociology 1 or 10.

Group 3. Electives
Business Administration 30A, 134; or any course in the departments of anthropology, economics, geography (except 1 or 3), or sociology (except 15).

LITERATURE, PHILOSOPHY, AND THE ARTS

C. Literature, Philosophy, and the Arts (8-12 units). Students must complete Groups 1, 2, and 3, and may elect courses from Group 4, but may not count more than six units in any one of the fields of literature, philosophy, art, or music, nor more than 12 units in the area as a part of the 45 unit requirement in general education.

Group 1
Select one course in literature from English 2, 50A, 50B, 52A, 52B, 56A, 56B, 60A, 60B; Humanities 66A, 66B.

Group 2
Philosophy 1A or 20; Humanities 66A, 66B, or any course in literature in the departments of English, foreign language, and comparative literature.

Group 3
Two or three units selected from Art 2A, 5, 50A, 50B, 51; or Music 7A, 51, 52, 70 through 88, 151, 170 through 188; or Philosophy 1A or 20 (if neither is elected under Group 2); or students may substitute a maximum of three units of mathematics courses numbered 18 or above.

Group 4. Electives
Up to three units of courses in the departments of art, music, or philosophy; or any course in literature in the departments of English, foreign language, and comparative literature; or Speech Arts 3, 67, 130, 154A, 154B, 190; or History 4A, 4B, 111A, 111B.

COMMUNICATION

D. Communication. (5-8 units). Students must complete Groups 1 and 2, and may elect one course from Group 3, but may not count more than eight units in the area as a part of the 45 unit requirement in general education.

Group 1
Speech Arts 3 or 4 (or two units of 1X for foreign students).

Group 2
English 1A.

Group 3. Electives
English 1B, 61, 62, 106; or Speech Arts 11A, 55A, 60A, 60B.

PERSONAL AND SOCIAL DEVELOPMENT

E. Personal and Social Development (7-10 units). Students must complete Group 1 and may elect courses from Group 2, but may not count more than 10 units in the area as a part of the 45 unit requirement in general education.

Group 1
Psychology 1; Health Education 21; and
Four semesters of physical education activities.
(A physical education activity taken in summer session may be counted in lieu of one taken during the fall or spring semester.)

Group 2. Electives
Business Administration 182; Health Education 65, 90; Home Economics 1, 4A, 15, 35, 70, 150; Industrial Arts 5, 6, 85; Library Science 1; Psychology 11, 12, 14, 106, 107, 145; Social Welfare 35; Sociology 35.

ELECTIVES

F. Electives (0-6 units). Students must complete the minimum requirements (38 units) in areas A through E. To fulfill the total requirement of 45 units in general education, students may elect courses within the areas as indicated or may select from the following courses:

1. Aerospace Studies
Two units will be granted for completion of Aerospace Studies 1A-1B and two units for Aerospace Studies 21A-21B. Two additional units will be granted for completion of Aerospace Studies 131A. These six units correspond to the parts of the AFROTC program which lie in the areas of social science, natural science, communication, and other areas of the general education pattern; however, these units will not be included within the unit minima or maxima specified in any such area.

2. Foreign Language
A maximum of six units may be selected in foreign language.

3. Mathematics
A maximum of six units in this area of general education electives may be elected in Mathematics 3, 10A, 10B, or in courses numbered 18 and above.
Graduation Requirements

10. APPLICATION FOR GRADUATION

Application for graduation must be made by the student. A candidate for graduation at mid-year must file the application with the Evaluations Office, Administration Building, not later than the end of the third week of classes of the fall semester. A candidate for graduation in June or summer session must file an application for graduation not later than the end of the eleventh week of classes of the fall semester of the academic year in which he expects to graduate. Refer to the calendar in this catalog for deadline date for filing. A $2 fee is charged for filing applications for graduation after deadline date.

ELECTION OF REGULATIONS FOR GRADUATION

The California Administrative Code, Chapter 5, provides as follows:

40401. Election of Regulations. A student remaining in continuous attendance in regular sessions and continuing on the same curriculum in a state college may, for purposes of meeting graduation requirements, elect to meet the graduation requirements in effect either at the time of his entering the curriculum or at the time of his graduation therefrom, except that substitutions for discontinued courses may be authorized or required by the proper college authorities.

AUTHORIZATION FOR GRADUATION

The California Administrative Code, Chapter 5, provides as follows:

40400. Procedure for Granting Diplomas, Certificates, and Degrees. The Board of Trustees, upon recommendation of the faculty of the college, shall issue the appropriate diploma, certificate or degree to a student who has completed the prescribed course of study.

GRADUATION WITH HONORS

With the approval of the faculty, graduation with honors is granted to those students in each graduating class who have achieved high grade point averages by the beginning of the fall semester for mid-year graduates and by the end of the fall semester for June and summer session graduates.

The grade point average is computed on work done at this institution, except that if the grade point average for work at other collegiate institutions is lower, that work is included in the computation of the grade point average on which honors will be granted.

GRADUATION WITH DISTINCTION IN THE MAJOR

Upon recommendation of his major department and with the approval of the faculty, a student doing superior work in his major field may be graduated with distinction in that field.

COMMENCEMENT EXERCISES

Commencement exercises are held once a year at the end of the spring semester for students who were graduated at mid-year, those graduating at the end of the spring semester, and students who expect to complete requirements for graduation in the summer session.

GRADUATE DIVISION
GRADUATE DIVISION

ORGANIZATION AND ADMINISTRATION

All graduate work leading to advanced degrees is under the jurisdiction of the Graduate Division and responsibility for all graduate curricula is delegated to the Graduate Council under the chairmanship of the Dean of Graduate and Professional Studies who also serves as the administrative officer of the Graduate Division.

Under the provisions of Section 41001 of the Administrative Code (see the section of this catalog on Admissions), the Graduate Council, through the Graduate Office, admits all students to authorized graduate degree curricula, determines their eligibility to continue in such curricula, and, in the cases of unsatisfactory performance, requires students to withdraw from all graduate curricula.

The Graduate Council is the appropriate college authority for the administration of all matters related to graduate degree curricula, requirements for which are specified in Section 40504 of the Administrative Code quoted below.

ASSOCIATION MEMBERSHIP

San Diego State College is a member of the Western Association of Graduate Schools and the Council of Graduate Schools in the United States.

DEGREES OFFERED

All advanced degrees are conferred by the Trustees of the California State Colleges upon recommendation of the faculty of San Diego State College. These degrees are designed to provide instruction for graduate students in the liberal arts and sciences, in applied fields, and in the professions, including the teaching profession.

ADMISSION PROCEDURES

Any student, holding the baccalaureate degree and wishing to be admitted to San Diego State College for post-graduate study, must apply for admission to the college at the Admissions Office and comply with the regulations of the Admissions Office as stated in the section of this catalog on Admissions.

UNCLASSIFIED GRADUATE STANDING

Acceptable graduate students are admitted to the college by the Admissions Office with unclassified graduate standing. Admission to the college with unclassified graduate standing does not constitute admission to graduate degree curricula in the Graduate Division.

CLASSIFIED STANDING IN THE GRADUATE DIVISION

A student who has been admitted to the college by the Admissions Office with unclassified graduate standing who desires to earn an advanced degree must file an application for admission to an authorized advanced degree curriculum and the Graduate Division. If the applicant meets the requirements of Section 41001 of the Administrative Code, he will be admitted to the graduate curriculum of his choice and to the Graduate Division with classified graduate standing. The Graduate Office notifies the Registrar to change the status of the student from unclassified to classified standing.

FAILURE TO MEET ADMISSION REQUIREMENTS

If the applicant fails to meet the requirements for classified graduate standing, he may remain in the college with unclassified graduate standing and enroll in any undergraduate course for which he has the necessary prerequisites.

Unclassified graduate students are not eligible to enroll in 200-numbered courses except with permission of the instructor and the Dean of Graduate and Professional Studies. All credit earned by an unclassified graduate student is subject to evaluation as to its acceptance in satisfaction of master's degree requirements.

Undergraduate students are not permitted to enroll in 200-numbered courses.

WITHDRAWAL AND REINSTATEMENT

A graduate student who has begun work on a graduate degree and has taken no courses within the last calendar year is considered to have withdrawn from the degree curriculum. If he wishes to resume his work, he must file an application for readmission to the Graduate Division. He will then be required to comply with regulations and requirements in effect at the time his application for readmission is accepted.

Any student who was not in attendance during the semester preceding the semester in which he wishes to enroll must apply for readmission to the college.

Any graduate student whose performance is judged to be unsatisfactory by the Graduate Council may be required to withdraw from all graduate degree curricula offered by San Diego State College.

ADVANCED DEGREE CURRICULA

REQUIREMENTS FOR THE DOCTOR OF PHILOSOPHY

The requirements for the Doctor of Philosophy degree are stated fully in the Graduate Bulletin.

REQUIREMENTS FOR MASTER'S DEGREE

The minimum requirements for the Master of Arts degree, the Master of Science degree, the Master of Business Administration degree, and the Master of Social Work degree are established by the Board of Trustees of the California State Colleges. Students seeking to enter a curriculum in the Graduate Division leading to these degrees must comply with the admissions procedures described above, be advanced to candidacy, and meet the scholastic, professional and personal standards, including the passing of examinations, required in the Graduate Division.

The Master of Arts and the Master of Science degrees require 30 semester units of graduate work; the Master of Business Administration and the Master of Social Work are two-year master's degrees and require 54 and 58 units of graduate work respectively. At least 30 units of work must be earned in residence at San Diego State College for the M.B.A. degree and at least 24 units for all other master's degrees. All acceptable credit must have been earned within seven years of the date when all requirements for the degree are completed. A grade point average of 3.0 (grade of B on a five point scale) or better must be earned in all courses taken to satisfy the requirements for the master's degree.
Graduate Division

DEGREES OFFERED

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy degree in Chemistry is offered jointly with the University of California, San Diego.

MASTER OF ARTS

The Master of Arts degree is offered with the following majors:

- Anthropology
- Art
- Biology
- Business education
- Chemistry
- Economics
- Education
- English
- French
- German
- Geography
- Health education
- History
- Industrial arts
- Mathematics
- Music
- Philosophy
- Physical education
- Physical science
- Physics
- Political science
- Psychology
- Social science
- Sociology
- Spanish
- Speech arts

MASTER OF SCIENCE

The Master of Science degree is offered with the following majors:

- Aerospace engineering
- Astronomy
- Biology
- Business administration
- Chemistry
- Civil engineering
- Electrical engineering
- Geology
- Mathematics
- Mechanical engineering
- Physics
- Psychology
- Public administration

MASTER OF BUSINESS ADMINISTRATION

MASTER OF SOCIAL WORK

GRADUATE BULLETIN

Complete details on the operation and administration of these requirements, together with other administrative regulations on graduate study as determined by the Graduate Council, will be found in the Graduate Bulletin, which is available at the Graduate Office.
APPLIED ARTS AND SCIENCES

DEGREE PROGRAMS

REQUIREMENTS FOR THE A.B. OR B.S. DEGREE

Students taking majors offered in applied arts and sciences must complete the graduation requirements listed below for the A.B. or B.S. degree. (Refer to the graduation requirements listed below for the A.B. or B.S. degree. (Refer to the

GRADUATION REQUIREMENTS

1. A minimum of 124 semester units for the A.B. degree or 128 units for the B.S. degree in the General Programs in applied arts and sciences.
2. At least 24 units earned in residence, half of which must be completed among the last 20 units counted toward the degree.
3. A scholastic grade point average of 2.0 (grade of C on a five-point scale) or better in all units attempted.
4. All units attempted in (a) all units attempted in the A.B. degree or 36 upper division units for the B.S. degree.
5. One major, and one minor if required by the department offering the major.
6. Satisfactory completion of competency tests in mathematics, speech, and writing, or completion of appropriate courses designated in lieu thereof.
7. All regulations established by the college.
8. American institutions, to include competency in American history, institutions, and ideals, U.S. Constitution, and California state and local government.
9. Forty-five units in general education courses in addition to the major, distributed as prescribed in the section on Graduation Requirements.
10. Application for graduation.

MAJORS FOR THE A.B. OR B.S. DEGREE

The major consists of a prescribed pattern of upper division courses totaling not less than 24 units for the A.B. degree or 36 units for the B.S. degree. The number of units beyond the minimum may be specified in the description of the major. Courses in the major may not be counted in the 45 unit general education requirement. Also required as preparation for the major are the lower division prerequisite and related courses prescribed by the department. Additional requirements may include foreign language and a minor. Such courses, not included in the upper division, may be counted in general education if pattern which constitutes the major, may be counted in general education if applicable.

DESCRIPTION OF MAJORS IN 
APPLIED ARTS AND SCIENCES

ART MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

The major in art may be planned with an emphasis on crafts, on graphic arts, or on graphic communication. The program with emphasis on crafts leads in the direction of industrial design, interior design, cabinet making, sculpture, weaving, textile design, ceramics, jewelry design, and the like. The program with emphasis on graphic arts leads in the direction of such fields as illustration, portraiture, landscape painting, mural design, and fashion design. The program with emphasis on graphic communication leads in the direction of the professional goal of art direction, advertising design, fashion illustrating, or production illustration.

BASIC REQUIREMENTS FOR ALL STUDENTS

Prerequisites for all students. Art A, B, 2A, 2B, 14A, 50A, 50B. (16 units.)

In addition to these courses, the student must complete the requirements in one of the fields of emphasis listed below.

EMPHASIS ON CRAFTS

In addition to the basic requirements, the student emphasizing crafts must complete the following courses:

Prerequisites. Art 7, 13, 17A, and 61. (9 units.)

Major. A minimum of 24 upper division units to include Art 106A, 111A, 113A; six units selected from Art 117A, 117B, 119A, 119B, and 12 units of upper division art electives.

EMPHASIS ON GRAPHIC ARTS

In addition to the basic requirements, the student emphasizing graphic arts must complete the following courses:

Prerequisites. Art 15A, 16A, and four units of art electives. (8 units.)

EMPHASIS ON GRAPHIC COMMUNICATION

In addition to the basic requirements, the student emphasizing graphic communication must complete the following courses:

Prerequisites. Art 7, 14B, 15A, and 16A. (8 units.) Recommended electives: Art 15B, 94A.

EMPHASIS ON ART EDUCATION

(For students in Teacher Education)

This emphasis is available in applied arts and sciences only to students who have been admitted to and continue in Teacher Education to time of graduation.

ELEMENTARY TEACHING

In addition to the basic requirements, the student emphasizing art education for elementary teaching must complete the following courses:

Prerequisites. Art 15A, 17A or 18A, and 61 (7 units.)

Major. A minimum of 24 upper division units to include 117A or 118A, 119A, 120A, 156, 161, and thirteen units of art electives, eight of which should be in one area of concentration, as approved by the adviser in art for teaching programs.

SECONDARY TEACHING

In addition to the basic requirements, the student emphasizing art education for secondary teaching must complete the following courses:

Prerequisites. Art 15A, 16A, 17A, 18A, 61, and 70A. (13 units.)

MINOR

Minor. A minor is not required with this major.

ASTRONOMY MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Astronomy 9, 10, 50, 51; and Physics 4A-4B-4C. (20 units.) Recommended: Chemistry 1A-1B.

Major. A minimum of 24 upper division units to include Astronomy 104A-104B, 112A-112B, 198A-198B; and nine units of physics to include Physics 101, 103, and 105. Recommended: Physics 106, 151, 175; and Astronomy 103, 105, and 150.

Minor in Mathematics. Students majoring in astronomy must complete a minor in mathematics to include Mathematics 50, 51, 52, 119, and three units of upper division mathematics electives. (Mathematics 124, 170, or 175 recommended.)

BIOLOGY MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

(For students in Teacher Education)

This major is available in applied arts and sciences only to students who have been admitted to and continue in Teacher Education to time of graduation. (Refer to the section on Liberal Arts and Sciences for a description of the biology major in that program and to the School of Education for a description of the teaching major.)

Prerequisites. Biology 1, 2, and 15; Botany 50 and 51; Zoology 50 and 60; Chemistry 1A, 1B, and 12; Physics 2A and 2B. (44 units.)

Major. A minimum of 24 upper division units to include Biology 101, 110, and 157; Microbiology 101; one course selected from Biology 111, Botany 114, 119-S, Zoology 112, 114, 119-S; and four additional units in biology, botany, microbiology, or zoology.

Minor. A minor is not required with this major for the degree; however, a major in science, which may be completed in the undergraduate program, is recommended.

BIOLOGY MAJOR

WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Biology 1, 2, and 15; Botany 50 and 51; Zoology 50 and 60; Chemistry 1A-1B or 2A-2B; and Physics 2A-2B. (40 units.)

Major. A minimum of 36 upper division units in biology, botany, microbiology, and zoology, to include the following: Biology 101, 110, 155, 161; Microbiology 101; the remaining units to be selected with approval of the adviser.

Minor. A minor is not required with this major.

BOTANY MAJOR

WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Biology 1, 2, and 15; Botany 4; Chemistry 1A-1B and 12; Mathematics 21 or 46; and Physics 2A-2B and 3A-3B. (35-37 units.) Recommended:

76
Applied Arts and Sciences

Major. A minimum of 16 upper division units in the biological sciences to include Biology 101, 110, and 155; Botany 101 or 102 or 103, 114, 150, and 190A-190B; Microbiology 101. Botany 140 is recommended.

Minor. A minor is not required with this major.

CHEMISTRY MAJORS

IN APPLIED ARTS AND THE SCIENCES

Three majors in chemistry are offered in applied arts and sciences. A chemistry major is also offered in liberal arts and sciences.

The chemistry majors available in applied arts and sciences are as follows:

(1) Chemistry major with the B.S. degree and Certificate of the American Chemical Society, a program designed to qualify graduates for many types of positions as chemists and for admission to graduate work in chemistry,

(2) Plan A, a chemistry major with the A.B. degree and Certificate of the American Chemical Society, designed to prepare students for graduate work in chemistry;

and

(3) Plan B, a chemistry major with the A.B. degree, designed for students who do not intend to become professional chemists but who desire the major in chemistry (without the Certificate of the American Chemical Society) as part of a liberal education or as preparation for entering a related profession.

CERTIFICATE OF THE AMERICAN CHEMICAL SOCIETY

The Department of Chemistry is on the approved list of the American Chemical Society. Programs leading to the B.S. degree or the A.B. degree (Plan A) are designed to meet the standards prescribed for the Certificate of the American Chemical Society. The program leading to the A.B. degree (Plan B) is not offered with the Certificate. Provision is made for students taking the chemistry major in liberal arts and sciences to obtain the A.B. degree with or without the Certificate.

FOREIGN LANGUAGE

Foreign language (German) is required in all programs leading to the Certificate of the American Chemical Society. Under Plan B, foreign language is not required. Foreign language is required with the chemistry major in liberal arts and sciences, whether the major is taken with or without the Certificate.

CHEMISTRY MAJOR

WITH THE B.S. DEGREE IN APPLIED ARTS AND THE SCIENCES

AND CERTIFICATE OF THE AMERICAN CHEMICAL SOCIETY

The curriculum outlined below for the B.S. degree in applied arts and sciences is based upon the recommendations of the Committee for Professional Training of Chemists of the American Chemical Society. It qualifies graduates for many types of positions as chemists and provides the training required by most universities for admission to graduate work in chemistry.

Requirements

Prerequisites. Chemistry 1A-1B, 5, 12, and 13; Physics 4A-4B-4C; and Mathematics 50, 51, and 52. (44 units.)

Major. A minimum of 36 upper division units in chemistry to include Chemistry 110A-110B, 111, 112, 113, 127A, 155, one unit of 198; and 14 units of upper division electives in chemistry.

Foreign Language Requirement. (a) Credit in German 8A-8B or (b) completion of German 1 and 2 with a grade of C or better and a demonstrated proficiency in the reading of scientific German as determined by the Chemistry Department in consultation with the Department of German and Russian.

Minor. A minor is not required with this major.

### CHEMISTRY MAJOR—PLAN B

**WITH THE A.B. DEGREE IN APPLIED ARTS AND THE SCIENCES**

**FOR RELATED PROFESSIONS**

Plan B is designed for students who desire the major in chemistry as part of a liberal education or in preparation for training in a related profession or for high school teaching. Plan B is not designed for students who intend to become professional chemists or who intend to earn advanced degrees in chemistry or who plan to teach in junior colleges. Through Plan B and an appropriate choice of electives, graduates can meet the requirements for admission to medical and dental schools.

**Requirements**

**Prerequisites.** Chemistry 1A-1B, 4, and 12; Physics 2A-2B-3A-3B; and Mathematics 21 and 22. (32 units.) French or German recommended.

**Major.** A minor of 24 upper division units in chemistry to include Chemistry 109A, 109B, 199C, 112, 150; and eight units of upper division electives in chemistry. Chemistry 121A is required for all teaching majors and strongly recommended for other Plan B majors.

**Minor.** A minor is not required with this major.

### GEOLOGY MAJOR

**WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES**

**Prerequisites.** Geology 1A or 2 and 3, Geology 1B, 11, and 24; Chemistry 1A-1B; Engineering 2; Mathematics 22 or 50; and Physics 2A-2B-3A-3B or 4A-4B-4C (39-43 units.) Recommended: Chemistry 4 or 5 or Geology 110, Mathematics 51, and a course in mechanical drawing if not completed in high school. Foreign language is also recommended.

**Major.** A minimum of 24 upper division units in geology to include Geology 100, 108, 108A, 108B, and 198. For the geophysical fields, the following courses should be taken in addition to the major: Mathematics 118A, Physics 103, 120A, and 112.

**Minor.** A minor is not required with this major.

### GEOLGY MAJOR

**WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES**

The major consists of basic requirements in the lower and upper division for all students plus the requirements in one of the following options: (a) General Physical or Economic Geology, (b) Paleontology and Stratigraphy, (c) Geophysics, and (d) Geochemistry.

**Basic Requirements for All Students**

**Prerequisites.** Geology 1A or 2 and 3, 1B, 21, 24; Chemistry 1A-1B; Engineering 2; and Biology 1 and 2. (31-32 units.) Recommended: A foreign language and a course in mechanical drawing if not completed in high school.

**Major.** Thirty-six or 40 upper division units in approved courses to include the courses in one of the following options:
Applied Arts and Sciences

OPTIONS

In addition to the basic requirements, the student must complete the requirements in one of the following options:

(a) General Physical or Economic Geology

Additional prerequisites. Mathematics 12 or equivalent, 40 and 50; Physics 2A-2B; Chemistry 4 or 5; and Geology 130. (24-25 units.)

Major. Geology 106, and two of the following courses: Geology 107, 107, 110, 112; and electives approved by the departmental advisor to complete 36 upper division units.

(b) Paleontology and Stratigraphy

Additional prerequisites. Mathematics 15; Mathematics 40 and 50 or 21 and 22 (Mathematics 21 and 22 should be taken only by students planning to pursue no academic work beyond the B.S. degree); Physics 2A-2B-3A-3B. (17-21 units.)

Major. Geology 106, 107, and 116; Geology 110 and two courses chosen from the following list, provided at least 3 units are chosen from upper division courses: Zoology 50 or 112, 60, 106, 114; Biology 115; Botany 51 and 112.

(c) Geophysics

Additional prerequisites. Mathematics 50, 51, and 52; and Physics 4A-4B-4C. (25 units.)

Major. Geology 118A; Physics 101, 103, 105, and 110; Geology 110 and 112. (21 units.) Recommended: Mathematics 118B, Physics 114.

(d) Geochemistry

Additional prerequisites. Chemistry 5 and 12; Physics 4A-4B-4C; Mathematics 50, 51, and 52. (32 units.)

Major. Geology 106, 125, 110; Chemistry 110A, and electives approved by the departmental advisor to complete 36 upper division units.

Minor. A minor is not required with this geology major.

HEALTH EDUCATION MAJOR

WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Health Education 29; Home Economics 4A; Zoology 8, and either Zoology 9 or 22 plus 23; Psychology 12, Biology 1, and Sociology 1. (23 units.)

Major. A minimum of 36 upper division units to include Health Education 100, 145, 146, 150 or 151, 153, 169, 192, Ed. 121P, the remaining units to be selected from Health Education or closely related fields with approval of advisor.

Minor. A minor is not required with this major.

HOME ECONOMICS MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

The major in home economics is available in three areas of emphasis: (1) General home economics; (2) Food and nutrition; and (3) Human development and family life.

MAJOR WITH EMPHASIS IN GENERAL HOME ECONOMICS

Prerequisites. Home Economics 2, 3, 15, 30, 35, 40, 70; Anthropology 1C; Art 2A; Biology 1; Chemistry 2A-2B; Economics 1A; Physics 5; and Sociology 1. (42 units.)

Major. A minimum of 24 upper division units to include Home Economics 100, 115, 131, 132, 170, 179; and eight units selected from Home Economics 102, 105, 116, 117, 118, 119, 143, 171, 175, 178, and 180.

Applied Arts and Sciences

MAJOR WITH EMPHASIS IN FOOD AND NUTRITION

This program is planned for students interested in qualifying professionally in the field of dietetics, institutional food management or commercial home economics. A student who successfully completes this program and receives a departmental recommendation is eligible to apply for a year of internship under auspices of the American Dietetic Association. Upon completion of an administrative food service or dietetic internship, or a three-year apprenticeship under a qualified dietitian in a recognized hospital, the student is eligible for membership in the American Dietetic Association and recognition as a qualified dietitian. Additional food and nutrition careers include extension service, teaching, business, health agencies and research.

Requirements

Prerequisites. Home Economics 2, 3, 4A, 15, 35, 40, 70; Art 2A; Biology 1 and 2; Business Administration 1A; Chemistry 2A-2B; 3; Economics 1A; Physics 5; Sociology 1; and Zoology 22. (49 units.)

Major. Thirty-five units to include Home Economics 100, 102, 103, 104, 105, 106, 151, 180; Microbiology 101; Psychology 106; and six units to be selected with consent of the adviser, preferably from Business Administration.

MAJOR WITH EMPHASIS IN HUMAN DEVELOPMENT AND FAMILY LIFE

Objectives. (1) to make available for all students general education for marriage, parenthood, and family living which promotes satisfying relations in home and community; (2) to provide professional education for work with children and families in connection with nursery schools, parent education, Home Advising Service, recreation, and community programs such as Girl Scouts and Campfire Girls; (3) to offer preprofessional education for college teaching, research, marriage and family counseling, and community social services for families.

Requirements

Prerequisites. Home Economics 2, 3, 35, 40, 45, 70; Sociology 1; Psychology 12 or 40; Zoology 22; Art 2A; Anthropology 1C (31 units.)

Major. Twenty-five upper division units to include Home Economics 135, 151, 170, 171, Psychology 145; and ten additional units selected with approval of advisor to meet one or the stated objectives of this program. Courses will be selected from home economics, sociology, psychology, anthropology, and social welfare.

Minor. A minor is not required with the home economics major.

INDUSTRIAL ARTS MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Industrial Arts 11, to be taken at the beginning of the major; five courses to be selected from Industrial Arts 21, 51, 51, 61, 71, 81, and 85. (17 units.)

Major. A minimum of 24 upper division units to include nine units in each of two of the following fields: industrial drawing, general metalworking, general woodcutting; three units in the areas just mentioned, or from industrial arts crafts, photography, or multiple activities in industrial arts.

Minor. A minor is not required with this major.

JOURNALISM MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Journalism 50, 51A, and 51B. (9 units.)

Major. A minimum of 24 upper division units in journalism to include Journalism 101, 117, 121, 131, and one year's enrollment in 199 (or 92) or in 124, or the equiva-
Applied Arts and Sciences

Minor. A minor is not required with this major; however, several minors are available to increase the scope of training for careers in journalism. Available are those in business administration for students interested in advertising or newspaper management, and in speech arts (broadcasting emphasis) for those interested in radio and television news. Students planning to enter public relations should work out with their advisors a pattern of courses from other departments to supplement requirements for a major in journalism.

MATHEMATICS MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Mathematics 40 (unless exempted by examination); Mathematics 50, 51, and 52. (13-18 units.) Recommended: Physics 4A-4B-4C.

Major. A minimum of 24 upper division units which should be approved by the advisor before starting upper division work. This must include Mathematics 121A and 121B, and may include six units of approved related area courses.

Minor. A minor is not required with this major.

MEDICAL TECHNOLOGY CURRICULUM

IN APPLIED ARTS AND SCIENCES

The curriculum in medical technology, which prepares for the licensed occupation of Public Health Microbiologist or Clinical Laboratory Technologist or Biotechnologist, may be obtained by taking the microbiology major with the B.S. degree, but following a modified arrangement of courses. A description of the curriculum follows:

MEDICAL TECHNOLOGY CURRICULUM

Public Health Microbiologist. To fulfill the academic requirements to qualify for the licensing examination given by the State of California Public Health Department for Public Health Microbiologist, the student should include Microbiology 189, in addition to the major in microbiology described below for the B.S. degree, except that he may choose from the following courses sufficient units to complete his major: Biology 103, Microbiology 106, 108, and Zoology 108 and 126.

Clinical Laboratory Technologist or Biotechnologist. To fulfill the academic requirements to qualify for the licensing examination given by the State either for Clinical Laboratory Technologist or Biotechnologist, the student should include Microbiology 189, Physics 2A and 3A, and either Zoology 9, Microbiology 106, or Biology 101, in addition to the major in microbiology described below for the B.S. degree, except that he should substitute Chemistry 114A-114B for Chemistry 115A-115B, and he may choose from the following courses sufficient units to complete the major: Biology 103, Microbiology 106, 108, and Zoology 108 and 126.

MICROBIOLOGY MAJOR

WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Microbiology 1 (or 101); Biology 1, 2, and 15; and Chemistry 1A-1B, 4 or 5, and Chemistry 13 (29 units). Recommended: French or German; Chemistry 13; Mathematics 21 and 22, or 46 and 50; Physics 2A-2B; and Zoology 8 and 9.

Major. A minimum of 36 upper division units in microbiology and approved related fields to include Microbiology 101, 103, 104, 105, 107, and 109; Zoology 126; Chemistry 115A-115B; and electives selected with approval of the advisor. Recommended: Biology 103; Chemistry 109A, 109B; Microbiology 106 and 108.

Minor. A minor is not required with this major.

MUSIC MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

MUSIC CURRICULUM

Several plans of study are available with varying degrees of emphasis on performance, history and literature, creative activity, and teaching.

The music curricula are designed to fulfill the needs of all students: (1) those who have professional ambitions in music performance, or seek a foundation for graduate study leading to college or university teaching, (2) those who are preparing for one of the several state teaching credentials with music as either a major or minor, (3) those whose major professional interest is in another department, and are seeking musical study as a minor, and (4) those who are interested in music as an elective study area for the enrichment of their cultural background.

General Basic Requirements

General basic requirements for the A.B. degree with a major in music in applied arts and sciences or in teacher education are as follows:

1. Upon entering the department, each student is required to take an examination in piano for classification, and to commence on no less than four consecutive semesters of class or private piano study for credit.

2. Upon entering the department, each student is required to declare his major instrument (voice, piano, clarinet, etc.), take an examination thereon for classification, and continue the development of his performance ability through class or individual study for credit after admission to the program.

3. Appearance in at least one student recital during each semester in residence, according to departmental recital requirements.

4. As laboratory experience, participation in two performing groups each semester, beginning with the first semester and continuing for eight semesters for students in the teaching credential program, one of which must be a major group (chorus, ensemble, orchestra, or band) in which the major instrument or voice is regularly used.

Course Requirements

Prerequisites. Music 9A-9B, 10A-10B (may be waived in full or in part by examination), 52, 93A-93B, eight units selected from courses numbered 70-88, and four units following fields of emphasis:

(a) Performance. Five units from Music 153, 154ABCDE, 167, 197, 199.

(b) Music History and Literature. Seven units from Music 154ABCDE, 197, 199.

(c) Composition. Seven units from Music 105, 109B, 197, 199.

Students emphasizing performance must appear in a joint recital during the junior year and must present an audition of the compositions to be performed before the music faculty preceding the recitals.

The student emphasizing music history and literature is required to organize, prepare program notes, and present two recitals of his own composition, or certain periods, or with certain composers or styles. The student must pass a preliminary audit of the material to be performed before the music faculty at least one month in advance of the recital.
**Applied Arts and Sciences**

**Foreign Language Requirement.** Twelve units in one foreign language chosen from French, German, or Italian, or equivalent knowledge demonstrated in a test of reading knowledge administered by the foreign languages department concerned in consultation with the Music Department. (Exception: Voice students must substitute four units each of French, German, and Italian, or the equivalent, in lieu of 12 units in one foreign language.)

**Minor.** A minor is not required with this major.

**Total Units:** 30-34

- May be waived in part or in full by examination.
- In addition to the upper division courses in the major, the student must have a sufficient number of upper division units to meet the minimum of 40 required for the A.B. degree.

**ELECTIVES IN MUSIC**

The Music Department offers certain courses which fulfill the needs of students who do not have music as a major or minor subject but who are interested in music as an elective study area for the enrichment of their cultural background. Courses particularly suited for these needs are Music 51 and 151 and the music courses numbered 70 to 88 and from 170 to 188. Some students will be musically prepared to elect courses which may or may not be included in this group. Enrollment by qualified students who wish to elect these courses is encouraged.

---

**Applied Arts and Sciences**

**CREDIT FOR MUSIC STUDY UNDER PRIVATE INSTRUCTORS**

Credit may be allowed for private instruction in music under the following conditions:

1. The applicant for such credit must be either a regularly enrolled student in the Music Department of the college (that is, a music major or minor), or he must have as a prerequisite or be taking concurrently with his private study, three units chosen from these specific courses: Music 7A, 9A, 31, or 151.
2. The instructor giving such private work must be approved by the Music Department. All private work and names of all such teachers must be registered in the office of the Music Department chairman at the beginning of the semester.
3. Under no circumstances may a student change teachers in the middle of a semester without first notifying the chairman of the Music Department and securing his permission for this change.
4. Prior to the start of private study in San Diego State College, the student is required to take a placement examination conducted by the Music Department faculty at the beginning of the semester, which will show the status of the student at the beginning of his work.
5. Students who have dropped out of school, or have stopped taking Applied Music for credit for one semester or more, upon the resumption of that instruction for credit are required to take the placement examination.
6. Evidence that the standards of the Music Department have been met will be shown by an examination conducted by the Music Department faculty at the end of the semester.
7. Ten clock hours of lessons and adequate preparation to pass the Applied Music examinations and the curriculum requirements of the department are required for one unit of credit.

**NURSING MAJOR**

**WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES**

The Department of Nursing is an agency member of the National League for Nursing. It is accredited by the California Board of Nursing Education and Nurse Registration and by the National League for Nursing.

**Curriculum**

The nursing curriculum consists of a four-year course of study leading to a B.S. degree in nursing. Graduates of the program are eligible to write the examination for licensure as a registered nurse.

The curriculum in nursing requires completion of a minimum of 128 semester units of work as prescribed. Opportunity for clinical laboratory practice is offered in hospitals and health agencies. During the first semester only, all courses are held on the San Diego State campus.

Any student who is regularly admitted to the college may enter the nursing program. Students will normally enter the program in the freshman year, beginning with the fall semester. Students who enter with advanced standing credit from other colleges will be required to complete the remaining requirements in the nursing program for the degree. Graduate nurses from accredited programs in nursing who hold the R.N. license may normally be expected to complete requirements for the degree within three years, subject to satisfactory completion of placement examinations in the professional nursing courses.

**Course Requirements**

**Prerequisites.** Nursing 1, 33A-33B, 34A-34B, and 36 (23 units); Chemistry 2A-2B; 1; Microbiology 1; Physics 5; Zoology 8 and 9; Sociology 1. (28 units)

**Pattern credit in general education will be allowed in Health Education 21 for completion of the entire nursing curriculum; and the lower division zoology may be counted in place of biology for general education purposes. Other general education credit will be allowed as appropriate courses are completed; the remaining three units to be selected from electives in social science or in communication.

**Minor.** Forty-five units to include Nursing 112, 114, 116, 118, 120, 124, 125, 126 (33 units); and the following related courses: Anthropology 100B, Psychology 106, 131; and Sociology 136. (12 units)

**Minor.** A minor is not required with this major.
PHYSICAL EDUCATION MAJOR—MEN

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Physical Education 70, 71, 72, 73, 74, 75, 76A, 76B, 77; Zoology 8 and 22. (16 units.)

Students may be excused from skills courses, Physical Education 71 through 76B, by passing a competency test for the activity concerned. Major students are expected to take Conditioning in a regularly scheduled activity course. Credit in four semesters of activity courses is required for graduation.

Major. A minimum of 25 upper division units to include Physical Education 169, 171, 172, 173, 174, or nine units of upper division electives in physical education, health education, or recreation; and three additional units of upper division electives in physical education, health education, or recreation.

Minor. Students majoring in physical education must complete a minor in another field.

PHYSICAL EDUCATION MAJOR—WOMEN

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Fourteen units to include three units of physical education activity courses, including Physical Education 2A-2B, 3A-3B, and one unit of activity electives; Physical Education 52, 56A-56B; and Zoology 8 and 22.

Major. Twenty-seven upper division units to include Physical Education 151 or 154, 155, or 156, 160, 167, 168, and 12 units from health education and/or physical education courses selected with approval of the department adviser.

Minor. Students majoring in physical education must complete a minor in another field.

EMPHASIS IN DANCE

Prerequisites. Physical Education 12A, 12B, 54, 81, 82; one unit selected from 2A, 2B, 3A, 3B; Zoology 8; and 16 units of art, music, and speech arts selected from Art 2A, 2B, 5, 50A, 50B, 51, Music 10A, 51, Speech Arts 5, 8, 11A, 15A or 55B, and 63. (28 units.)

Major. A minimum of 24 upper division units to include three to four units from Physical Education 151 or 154A, 155, 157A, 178, 181, 182A, 182B, 183, and two units of upper division electives to be selected with the approval of the dance adviser. Two courses may be taken on campus and must participate in a minimum of four semesters of dance programs, preferably in the junior and senior years. Substitution for such participation will require department approval.

Minor. Students majoring in physical education with emphasis in dance must complete a minor in another field.

PHYSICAL SCIENCE MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

(For students in Teacher Education)

The major in physical science is offered by the Division of the Physical Sciences. The major is open only to students admitted to Teacher Education.

Prerequisites. Courses should include work in the areas of astronomy, chemistry, geology, mathematics, physics, and biology, and must include prerequisites for the upper division courses selected for the major.

Major. A minimum of 24 upper division units with at least 18 in the physical sciences. At least six of these 18 units must be in either chemistry, or physics. Upper division courses must be approved by the department adviser. All courses for teaching programs must be approved by the adviser in the physical sciences for teaching programs.

Minor. A minor is required for the degree; however, students planning to use this major for a credential in secondary teaching should include in the undergraduate program one of the teaching minors required for the credential.

PHYSICS MAJOR

WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Physics 4A-4B-4C, 73; Chemistry 1A-1B; Mathematics 50, 51, and 52, or their equivalents. (38 units.)

Major. A minimum of 36-39 upper division units in physics and mathematics to include Physics 101, 103, 110, 112, 120A, 120B, 170, 198A, and 198B; Mathematics 119 and 170. The program planned in consultation with the departmental adviser for this degree must be designed to provide either a four-year terminal program or preparation to enter the graduate program toward a master of science degree. The remaining courses are to be prescribed by the Department of Physics. Concentrations in the areas of applied physics, physical electronics, nuclear physics and teacher education are available in this degree.

Minor. A minor is not required for this major with the B.S. degree.

PSYCHOLOGY MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

(For students in Teacher Education)

This major is available in applied arts and sciences only to students who have been admitted to and continue in Teacher Education to time of graduation. The psychology major in liberal arts and sciences is available to all students. (Refer to the section in this catalog on Liberal Arts and Sciences for a description of the liberal arts and sciences major, and to the School of Education for the teaching major.)

Prerequisites. Psychology 40, 50, and 70. Recommended courses in related fields: six units in biology and/or zoology; three units in philosophy; and six units in anthropology and/or sociology.

Major. A minimum of 24 upper division units in psychology to include Psychology 103, 110, 131, 151, and twelve additional units in psychology selected with approval of the departmental adviser.

Minor. A minor is not required for this major with the degree.

PUBLIC ADMINISTRATION MAJOR

WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

This major in public administration is offered by the Political Science Department.

Prerequisites. Political Science 2 and 2A and Economics 1A-1B. (12 units.) A three-unit course in statistics must be taken either in lower division or as part of the upper division courses in the major.

Major. A minimum of 36 upper division units to include Political Science 140, 190, 191, and 198; Economics 131; and additional upper division courses to complete the major, selected with approval of the departmental adviser, including a three-unit course in statistics if not taken in the lower division.

Minor. A minor is not required with this major.

CERTIFICATE IN PUBLIC ADMINISTRATION

A Certificate in Public Administration (a nondegree program) is also offered by the Political Science Department. The certificate program is designed primarily for persons who hold administrative or managerial positions and those who seek to prepare for such responsibility.

Previous academic experience is not a prerequisite for beginning work on the certificate program. Eligibility will be established, however, by approval of the Director of Public Administration. To receive the Certificate in Public Administration, the candidate must complete an approved pattern of eight courses, with a grade point average of 2.5. Candidates for this certificate program may obtain further information on requirements by writing to the Director of Public Administration, San Diego State College.
Applied Arts and Sciences

PUBLIC PERSONNEL MANAGEMENT MAJOR WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

This major, in public personnel management is offered by the Political Science Department.

Prerequisites: Political Science 1 and 2, Economics 1A-1B, and Psychology 1 and 11. (18 units.)

Major. Thirty-eight upper division units to include Political Science 140, 144, 145, 146, 147, 148, Economics 150, 151, 155, Psychology 104A, 105, 121, and 152. Another political science course may be substituted for Political Science 108 on the basis of individual counseling. Recommended in addition to the major: Business Administration 134, Economics 131, Political Science 142, 143, 155, and Psychology 131.

Minor. A minor is not required with this major.

RADIO AND TELEVISION BROADCASTING MAJOR WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES

This major in radio and television broadcasting is offered by the Speech Arts Department.

The purpose of the curriculum in broadcasting is three-fold: to provide the student with the theory and scholarly background for a thorough understanding of all aspects of the broadcasting profession and contributing fields; to encourage the student to develop a philosophy of broadcasting based upon the liberal arts; and a grasp of the role of mass media in today's society; and to provide training and experience in all phases of radio, television and film performance, production, management, and general operations. This includes practical assignments in radio, through the college-operated KEBS-FM, productions for television stations, closed-circuit television programming, and practical film responsibilities.

Prerequisites. Speech Arts 56, 80, 81, 82, 83, and 85. (18 units.) Students taking the B.S. degree with a major in Broadcasting will substitute Speech Arts 1 for the general education requirement Speech Arts 3. Demonstration of proficiency in typing is required.

Major. A minimum of 36 upper division units distributed as follows: Speech Arts 159, 167, 168, 182, 183, 184, 186, 187, 188; and 6-7 units from one of the following eleven allied professional sequences: (1) playwriting Speech Arts 110A, 110B; (2) radio Speech Arts 140A, 140B; (3) film Speech Arts 67, 146; (4) journalism Journalism 124A, 124B, 132; (5) mass media Journalism 121, 122, 132; (6) education Education 101, 111, Speech Arts 185; (7) art Art 107, 114A, 114B; (8) music Music 71, 151; or (9) business Business Administration 150, 153.

Minor. A minor is not required with this major.

RECREATION ADMINISTRATION MAJOR WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Recreation 60, 80; two units of physical education activity courses (women must include 2A, 2B, 3B, and 11); Physical Education 53; Art 61, or Physical Education 73 and 75 and 76A or 76B; Sociology 1; and eight additional units of electives from courses in art, music, speech, and physical education (12 units.).

Major. Thirty-eight upper division units to include Business Administration 141 (prerequisite waived for recreation administration major), 145; Health Education 146, Industrial Science 144, Psychology 106; Recreation 140 or Speech Arts 110, Recreation 165, 170, 184A or 184B; Sociology 114, 125. Recommended electives: Sociology 3, 4, 158; Business Administration 132, 140, 150, Economics 1A; Geography 153; Health Education 65; Home Economics 35; Humanities 138; Industrial Arts 85; Journalism 51A; Music 7A; Political Science 1, 2, 140, 143; Social Welfare 100, 183; Sociology 135, 140, 148, 157; Speech Arts 4.

Minor. A minor is not required with this major.

SOCIAL SCIENCE MAJOR WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

For students in Teacher Education

This major in social science is offered by the Division of the Social Sciences.

The major is available in applied arts and sciences only to students who have been admitted to and continue in teacher education to time of graduation. The social science major in liberal arts and sciences is available to all students. (Refer to the catalog on Liberal Arts and Sciences for a description of the major in liberal arts and sciences; and to the School of Education for a description of the teaching major in social science.)

Prerequisites. A six-unit sequence in each of three of the following fields: (1) anthropology; (2) economics; (3) geography; (4) history; (5) political science; and (6) sociology. (18 units.) Courses recommended for these sequences are as follows: Anthropology 1A-1B, Economics 1A-1B, Geography 1 and 2, History 4A-4B or 8A-8B, Political Science 1 and 2, Sociology 1 and 10.

Major. Thirty upper division units to include 15 units from any field named above; six units from each of two additional fields named above; and three units of electives from any of the fields named above. Courses covering four fields named above, including six units of U.S. history, must be completed either in lower division prerequisites or in the major.

Minor. A minor is not required with this major for the degree.

SPECIAL MAJOR WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

The special major, consisting of three fields, offers a general type of education leading to objectives not otherwise provided in the regular programs of the college. Assistance in arranging the special major may be obtained in the Personnel Services Center in the Administration Building. The plan for the major must be cleared with the Evaluation Office for appropriate use of courses, approved by the department chairman in each of the three fields selected, and finally approved by the Dean of Counseling and Testing. Forms are provided for this purpose.

Prerequisites. A minimum of a six-unit course in each of the three fields selected in the major must be completed in the lower division as foundation for upper division courses.

Major. The major consists of 36 upper division units chosen from these three fields, with not more than 15 nor fewer than nine units from any one field. If two of the three fields selected are majors offered only in liberal arts and sciences, the special major is governed by the regulations required by that program. If two of the three fields are selected from those not exclusively in the liberal arts and sciences programs, the special major is governed by the regulations in applied arts and sciences. The three fields selected are subject to approval by the Dean of Counseling and Testing.

Students in Teacher Education electing the Fine Arts teaching major for elementary teaching will be following a special major pattern specifically designed for elementary teaching. Advising for this teaching major will be obtained from the advisor assigned in the School of Education.

Minor. A minor is not required with this major.
SPEECH ARTS MAJOR
WITH THE A.B. DEGREE IN APPLIED ARTS AND SCIENCES

The major in speech arts is available in four areas of emphasis: Broadcasting, Public Address, Speech and Hearing Pathology, and Theater, including Design for Theater and Design for Television. Students planning to take the Standard Teaching Credential—Secondary may use the teaching major in speech and drama as a minor in speech arts for the A.B. degree in lieu of one of the areas of emphasis.

MAJOR WITH EMPHASIS IN.Broadcasting

Prerequisites. Speech Arts 67, 80, 81, 82, 83, and 85. (18 units.) Students electing this emphasis will substitute Speech Arts 1 for the general education requirement Speech Arts 3.

Major. Twenty-five units consisting of Speech Arts 100, 154A, 154B, 167, 181, 383, 186, and 188.

Minor. Students emphasizing broadcasting in the speech arts major must complete a minor of 15 units which brings to him an academic content field in another discipline.

MAJOR WITH EMPHASIS IN PUBLIC ADDRESS

Prerequisites. Speech Arts 11A or 11B, 60A, 60B, and one unit each of 61 and 64. (11 units.) Students electing this emphasis may take Speech Arts 4 as part of general education.

Major. Twenty-five upper division units to include Speech Arts 100, 101, 130, 161, 190, 191, 192A, 192B, and three units of electives.

Minor. A minor is not required with the speech arts major with this emphasis for the degree.

MAJOR WITH EMPHASIS IN SPEECH AND HEARING PATHOLOGY

Prerequisites. Speech Arts 1, 70, and 3 units selected from Speech Arts 4, 11A, 11B, 60A, 60B, 69. (9 units.)

Major. A minimum of 24 units selected with the approval of the adviser from the following courses: Speech Arts 100, 109 (Speech Correction), 170, 171A, 171B, 172, 173, 174, 176, 177, 178, 179A, 179B, 180A, 180B.

Minor. A minor is not required with the speech arts major with this emphasis for the degree.

MAJOR WITH EMPHASIS IN THEATER

Prerequisites. Speech Arts 8, 55A, 56, and 55B or 11A, and one lower division course in broadcasting. (15 units.) Speech Arts 1 or 4 will be substituted for Speech Arts 2, and students electing this emphasis will take Speech Arts 5 as part of general education.

Major. Twenty-four upper division units in speech arts to include Speech Arts 100, 118A, 154A, 155, 159, and 9 units from Speech Arts 108B, 116, 118B, 140A, 140B, 145, 152, 154B, 156, 160, and 161. In addition to course requirements, the student must participate in a minimum of five Major Theater performances and three Studio Theater activities.

Minor. A minor is not required with the speech arts major with this emphasis for the degree.

MAJOR WITH EMPHASIS IN DESIGN FOR THEATER

Prerequisites. Speech Arts 5, 8, 55A or 55B, 56, and 81. (15 units.) Students electing this emphasis will substitute Speech Arts 1 for Speech Arts 3.

Major. Twenty-four upper division units in speech arts to include Speech Arts 100, 140A, 140B, 145, 152, 154A, 154B, and 159. In addition to course requirements, the student must participate in a minimum of five Major Theater performances and three Studio Theater activities.

Minor. A minor is not required with the speech arts major with this emphasis for the degree.

MAJOR WITH EMPHASIS IN DESIGN FOR TELEVISION

Prerequisites. Speech Arts 8, 56, 81, 83, and 86. (15 units.)

Major. Twenty-four upper division units in speech arts to include 140A, 140B, 145, 152, 154A, 154B, 156, 160, 182, and 184.

Minor. A minor is not required with the speech arts major with this emphasis for the degree.

ZOOLOGY MAJOR
WITH THE B.S. DEGREE IN APPLIED ARTS AND SCIENCES

Prerequisites. Biology 1, 2, and 15; Zoology 50, and 60 or 106; Chemistry 1A-1B and 12; Physics 2A-2B; and Mathematics 21 or 40. (38-40 units.) Recommended: Mathematics 22 or 50.

Major. A minimum of 36 upper division units, 28 of which must be in biology, botany, microbiology and zoology, to include the following: Biology 101 or Zoology 140, Biology 110 and 155, Botany 101 or 102 or 103; Biology 101 or 103; or Microbiology 101, or Zoology 108; Biology 105 or Zoology 100 or 102. Units to complete the major must be selected with the approval of the adviser; up to 8 upper division units can be in chemistry, geology, mathematics and physics.

Minor. A minor is not required with this major for the B.S. degree.
LIBERAL ARTS AND SCIENCES
LIBERAL ARTS AND SCIENCES

A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

PURPOSE OF THE PROGRAM
The purpose of a four-year collegiate program in liberal arts and sciences is to develop the student's intellectual interests and mental and physical fitness, and to increase his fund of information, his ability to think accurately, and his judgment; and thus to make him adaptable to various and changing life situations. A liberal education provides a foundation useful for many occupations and especially for graduate work leading into the professions; it is even more valuable as a preparation for assuming civic leadership and for attaining a balanced intellectual and emotional life. Hence the program in liberal arts and sciences aims to introduce college students to the major domains of human knowledge:
1. The natural sciences, physical and biological, for an understanding of the world and the complicated forces of life.
2. The social studies, for developing a knowledge and appreciation of the institutions and complex influences in society and of the privileges and obligations of citizenship.
3. The tools of critical understanding and the integration of knowledge—language, logic, mathematics, psychology, philosophy.
4. The sources of aesthetic enjoyment—literature, the fine arts, music—for understanding, enjoyment, and, if possible, creation of the beautiful.

REQUIREMENTS FOR THE DEGREE
The student must complete the following requirements for the A.B. degree in liberal arts and sciences. Refer to the section in this catalog on Graduation Requirements for additional, college-wide requirements.
1. A minimum of 124 semester units. No more than 48 units in one department may be counted in meeting the 124 units.
2. At least 24 units earned in residence, half of which must be completed among the last 20 units counted toward the degree.
3. A scholastic grade point average of 2.0 (grade of C on a five-point scale) or better in (a) all units attempted, (b) all units in the major, and (c) all units attempted at this college.
4. At least 45 upper division units.
5. One major, and one minor if required by the department offering the major.
6. Satisfactory completion of competency tests in mathematics, speech, and writing, or completion of appropriate courses designated in lieu thereof.
7. All regulations established by the college.
8. American institutions, to include competence in American history, institutions, and ideals; U.S. Constitution; and California state and local government.
9. Distribution of course work to fulfill the pattern below; this pattern fulfills the general education requirements for the degree.
10. Application for graduation.

THE MAJOR
The liberal arts and sciences major consists of a pattern of prescribed upper division courses totaling not less than 24 units. Also required as preparation for the major are lower division prerequisite and related courses, a requirement in foreign language, and a minor, if required by the department offering the major. Majors, which are described later in this section of the catalog, are offered in the following fields:

THE MINOR
A minor may be required by the department offering the major. In departments not requiring a minor, the minor is optional with the student. A minor generally consists of from 13 to 22 units, at least six units of which must be in upper division courses. Minors may be selected from those listed below.

These minors are described in the section of this catalog on Minors for All Degrees.
Liberal Arts and Sciences

GENERAL EDUCATION AND DISTRIBUTION OF COURSES

The degree in liberal arts and sciences requires, in addition to a major field, a distribution of course work to be selected according to the following pattern. Completion of the pattern of courses will satisfy the requirements in general education. No single course may be used to meet more than one requirement in the following pattern of distribution. For prerequisites to certain courses, refer to the description of courses in the section of this catalog on Announcement of Courses.

DISTRIBUTION OF COURSES

A. Natural Science

1. A combination of two or more courses to complete a minimum of nine units fulfilling:

   (a) Not less than three units including laboratory in life science from Biology 1 and 2, or 4; Biology 1 and Botany 4.
   (b) Not less than three units including laboratory in physical science from Astronomy 1 and 9; Chemistry 1A or 2A or 10A; Geology 1A or 2 and 3; Physics 1 and 2; or 4 and 5; and Physics 4A or 2A and 3A, or 5.
   (c) If, in meeting the above requirements, the student has not completed at least nine units, the remaining units of the total requirement of nine may be satisfied by choosing a course, with or without laboratory, from the following: Geography 1 or 3; or any course in astronomy, biology, botany, chemistry, geology, microbiology, oceanography, physical science, physics, or zoology.

2. Mathematics

   This requirement may be satisfied by Mathematics 18 or a higher numbered course. Students accepted in the elementary credential program may satisfy this requirement by taking Mathematics 10A-10B.

B. Social Science

1. American Institutions

   Political Science 1 and 2 or Political Science 115 and 142 or 148, or History 17A and 17B or History 172A and 172B. (May be met in whole or in part by examination or by various options. Refer to the section of this catalog on Graduation Requirements, American Institutions, for an outline of options. If the entire requirement is met by examination, add three units to the requirement in Social Science, below.)

2. Social Science

   Two 3-unit courses, choosing from Anthropology 1A, 1B, or 1C (one course only) or 100A or 100B, Economics 1A or 10A, Geography 2, Sociology 1 or 102. If the entire requirement in American Institutions is met by examination, add a second semester to one of the above (but not Geography 1 or 3), or add a 3-unit course in political science.

C. The Humanities and Fine Arts

1. A one-year course in western civilization

   Choose either History 4A-4B or English 52A-52B.

2. Six units in literature, philosophy, or the history or appreciation of art or music

   To be taken in a department or departments other than those in which the requirement in western civilization was met. Applicable courses: Art 1, 30A, 50B, 51; Music 51, 52, 151; Humanities 66A-66B; in the Department of Philosophy, any course in literature in the department of English numbered 10 or above, or any course in literature in a foreign language or in comparative literature.

3. The student must complete at least three units in literature or philosophy either in fulfilling the above requirements or elsewhere.

D. Other

   1. Foreign language as required by the major department

      The foreign language requirement of a knowledge of a language other than one's native tongue may be met by the satisfactory completion of twelve units in one foreign language, by written examination administered by the foreign language department concerned in consultation with the student's major department, or by four years of one language in high school. (Refer to the specific foreign language in the section of this catalog on Announcement of Courses for complete information on course equivalents for high school language study.)

   2. Communication

      Oral and Writing in English (3 or 4 units)

      (If excused from all or part of the requirement in written communication, an equal number of units in literature.)

   3. Psychology 1

   4. Health Education 21

   5. Physical education activity courses

   (Four semesters required)

   TOTAL: 51-64

   Courses to complete the major, the minor (if any), and electives 73-80

   UNITS REQUIRED FOR GRADUATION: 124

DESCRIPTION OF MAJORS AND CURRICULA

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

AFRICA AND THE MIDDLE EAST
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

The curriculum in Africa and the Middle East is an area of emphasis in the social science major. This curriculum is offered by the Division of the Social Sciences.

Prerequisites: History 4A-4B or Political Science 1 and 3; Economics 1A-1B; Anthropology 1B; and Geography 1, 18 units.

Major. Thirty upper division units from the departments of anthropology, economics, geography, history, political science, and sociology, chosen with the consent of the adviser and including not less than 15 units in one department and six units in each of two other departments. Required courses in this curriculum include:

- History 157, 158B; Geography 125 and 130; Political Science 188; Economics 119; Anthropology 132. Additional recommended courses to complete the requirements above are as follows: History 156, 158A or 121A-121B; Geography 150A and 150B; History 157, 158B and 167; Economics 102, 190, and 196; Anthropology 153, 154, and 156.

Foreign Language Requirement. French 1, 2, 3, 4 (or equivalent competence demonstrated by examination). Recommended: Comparative Literature 52A-52B.

Minor. A minor is not required with this curriculum.

AMERICAN STUDIES
IN LIBERAL ARTS AND SCIENCES

The American Studies Curriculum, offered by the Division of the Humanities, is designed for the undergraduate student who wishes to earn a liberal arts degree with a concentration in American studies. The program stresses the American heritage in both its uniqueness and its debts to other societies. The curriculum well as inside the Division of the Humanities.
Liberal Arts and Sciences

Major and Minor Combinations. A departmental major is required in history (with concentration in American history) or in English (with concentration in American literature). A minor, to be approved by the faculty adviser in American Studies, is required, and may be taken in any department of the college which offers an appropriate grouping of courses. Knowledge of one foreign language is required, as specified in the departmental major.

Within the scope of the American Studies program, the English-Social Science or the Social Science-English major-minor combination, as defined by the state for a general secondary teaching credential, may be arranged in consultation with the adviser for the program.

Course Requirements and Recommendations. Arrangement of courses in the American Studies curriculum must conform to the following pattern:

1. Forty-two units in courses on American culture, with from 12 to 18 units in each of the following fields: 42
   (a) History of the United States
   (b) American literature and philosophy
   (c) The United States in the social sciences of anthropology, economics, geography, political science, and sociology

   Courses will be selected from approved lists, with approval of the adviser in American Studies.

II. Fifteen units of courses in the foreign backgrounds of American civilization, as recorded and interpreted by history, literature, philosophy, the arts, and the social sciences 15

   Courses will be selected from approved lists, with approval of the faculty adviser in American Studies.

III. Humanities 98, Integration in the Humanities 3

Total course requirements 60

The student will file with the Evaluations Office a master plan approved by the faculty adviser in American Studies.

ANTHROPOLOGY MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Anthropology 1A, 1B, and 1C. (9 units.)

Major. A minimum of 24 upper division units in anthropology to include Anthropology 102, 103, 112, 114, 126, and 197. (100A-100B may not be counted in the minimal upper division course requirements.) Courses should be selected in consultation with an advisor.

In addition to the major, supporting courses in a field of emphasis should be chosen from the following groups:

Archaeology: Art, geography, geology, history.

Physical anthropologoy: Psychology, statistics, zoology.

Museumology: Art, education, psychology.

Ethnology and social anthropology: History, languages, psychology, political science, social science.

Foreign Language Requirement. See above, under Distribution of Courses, D.2.

Minor. A minor is not required with this major.

ASTRONOMY MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Astronomy 9, 10, 50, 51; and Physics 4A-4B-4C. (20 units.) Recommended: Chemistry 1A-1B.

Major. A minimum of 24 upper division units to include Astronomy 104A-104B, 105. Recommended: Physics 106, 151, 175, and Astronomy 103, 105, and 150.

Foreign Language Requirement. See above, under Distribution of Courses, D.1.

Minor in Mathematics. Students majoring in astronomy must complete a minor in mathematics to include Mathematics 50, 51, 52, 119, and three units of upper division mathematics electives. (Mathematics 124, 125, or 175 recommended.)

BIOLOGY MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Biology 1, 2, and 15; Chemistry 1A-1B, and 12; Physics 2A-2B and 3A-3B; Mathematics 50 or Mathematics 21 and 22. (34-35 units.)

Major. A minimum of 24 upper division units to include Biology 101, 110, 155, an advanced course in the biological sciences for which Biology 101, 110, or Microbiology must be included in either lower or upper division.

Foreign Language Requirement. See above, under Distribution of Courses, D.1.

Minor. A minor is not required with this major.
BOTANY MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Biology 1, 2, and 15; Botany 4; Chemistry 1A-1B, and 12; Mathematics 21 or 40; and Physics 2A-2B and 3A-3B. (35-37 units.)

Major. A minimum of 24 upper division units to include Biology 101, 110, and 155; Botany 101 or 102 or 165, 130, and 190A-190B. Botany 114 and 140 and Microbiology 101 are recommended.

Foreign Language Requirement. See above under Distribution of Courses, D.I., Foreign Language (preferably French, German, or Russian).

Minor. A minor is not required with this major.

CHEMISTRY MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

This major is designed for students desiring emphasis on chemistry as part of a liberal arts and sciences education or as preparation for entering a related profession. By appropriate choice of electives, graduates can meet the requirements for admission to medical schools. By careful choice of courses and either appropriate high school preparation (with trigonometry and two or three years of German, or with Advanced Placement credit) or the equivalent in additional college courses (taking the required courses in chemistry, physics, and mathematics as specified in Plan A, chemistry major in applied arts and sciences), students may complete the requirements for both the liberal arts and sciences degree and the major in chemistry with the Certificate of the American Chemical Society, as preparation for graduate work in chemistry. (See also the chemistry majors described in the section of this catalog on Applied Arts and Sciences.)

Requirements

Prerequisites. Chemistry 1A-1B, 4, and 12; Physics 2A-2B and 3A-3B; and Mathematics 21 and 22. (32 units.)

Major. A minimum of 24 upper division units in chemistry to include Chemistry 109A-109B, 109C, 112, 150; and eight units of upper division electives in chemistry.

Foreign Language Requirement. See above under Distribution of Courses, D.I., Foreign Language (preferably French or German).

Minor. A minor is not required with this major.

ECONOMICS MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Economics 1A-1B (or 103A-103B), 2, and at least six units from Business Administration 1A, 1B, Mathematics 21 and higher numbered courses, or Philosophy 1A, 1B, and 20. (15 units.) Students planning careers in law, business, or government are advised to take at least one semester of accounting.

Major. A minimum of 24 upper division units in economics to include Economics 100A-100B. Six of the 24 units may be in related fields to be selected with approval of the Departmental Academic Requirements Committee. Students planning to pursue graduate work in economics are advised to take Economics 107, Quantitative Economics. (Economics 103A-103B may not be used to fulfill minimal upper division requirements in the major.)

Foreign Language Requirement. See above, under Distribution of Courses, D.I., Foreign Language.

Minor. Students majoring in economics must complete a minor in another field.

ENGLISH MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Twelve units of lower division English, to include English 56A and 56B and six units selected from courses numbered 59 and above.

Major. A minimum of 24 upper division units in English, selected with the approval of the departmental adviser, and including at least three units of Shakespeare (117A or 117B), six units of British literature before 1800 exclusive of Shakespeare (chosen from 116A, 116B, 118A, 118B, 120A, 120B, 141A, 151), and six units of British literature after 1800 (chosen from 119A, 119B, 126A, 126B, 129A, 129B, 141B).

Selection of Courses

Prospective majors of sophomore standing may, with the consent of the course instructor and subject to general college regulations (see Credit for Upper Division Courses in the section of the catalog on General Regulations), substitute six units of upper division electives for six units of lower division work, such upper division units to be selected from the following: English 101A, 101B, 116A, 116B, 118A, 118B, 119A, 119B, 126A, 126B, 143A, 143B.

Students of junior or senior standing may substitute for any deficiencies in lower division requirements in English (except English 1A and 1B) an equivalent number of units of upper division courses selected from the following: English 101A, 101B, 116A, 116B, 118A, 118B, 119A, 119B, 120A, 120B, 126A, 126B, 143A, 143B, 151.

Foreign Language Requirement. See above under Distribution of Courses, D.I., Foreign Language (excluding courses in conversation).

Minor. A minor is not required with this major.

EUROPEAN STUDIES

IN LIBERAL ARTS AND SCIENCES

Specialization in European Studies beyond the requirements for a departmental liberal arts degree is available. The largest groupings of courses are in the departments of Foreign Languages and History and in Comparative Literature, and are offered regularly by other departments and other divisions of the college. The extended curriculum in European Studies provides (1) the basis for a superior understanding of European civilization, (2) a foundation for graduate work in the major departments, and (3) preparation for residence in continental Europe.

Major and Minor Combinations. A departmental major is required in history (with a concentration upon European history), or in French, German, or Spanish. A minor is required in comparative literature, economics, French, German, political science, or Spanish. The major and minor must not both be one European language besides English is required.

Course Requirements. A minimum of 60 units, including a departmental major as described above and one or two departmental minors, selected with the approval must be in upper division. The distribution of courses must include the following:

(a) Literature (no fewer than 12 units)
(b) European history (no fewer than 12 units)
(c) European geography (no fewer than 6 units)
(d) Foreign languages (no fewer than 16 units, or the equivalent in one language)
(e) Humanities 198, Integration of the Humanities (3 units)
FRENCH MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES
Prerequisites. French 1, 2, 3, 4, 10, and 11. (20 units.) Recommended: History 4A-4B.
Major. A minimum of 24 upper division units in French to include French 101A-101B, 102A-102B, and 12 units in the period literature of the language.
Minor. Students majoring in French must complete a minor in another field to be approved by the departmental adviser in French.

GEOGRAPHY MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES
Prerequisites. Geography 1, 2, 3, 60; and Geology 1A. (16 units.) Geology 1A may be counted as part of a geology minor if desired.
Major. A minimum of 24 upper division units in geography to include Geography 100, 101, 102, 104, 181A, and 12 units of electives in geography, no fewer than six units nor more than nine units of which shall be from among the courses numbered 120 to 139, inclusive.
Foreign Language Requirement. See above, under Distribution of Courses, D.1., Foreign Language.
Minor. Students majoring in geography must complete a minor in another field to be approved by the major adviser.

GEOLOGY MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES
Prerequisites: Geology 1A, or 2 and 3, Geology 1B, 21, and 24; Chemistry 1A-1B, Engineering 2; Mathematics 22 or 50; and Physics 2A-2B or 3A-3B or 4A-4B-4C. (39-45 units.) Recommended: Chemistry 4 or 5 or Geology 130, Mathematics 51 and a course in mechanical drawing if not completed in high school.
Major. A minimum of 24 upper division units in geology to include Geology 100, 105, 106, 109A-109B, 198, and seven units of electives in geology. For the geophysics fields, the following courses should be taken in addition to the major: Mathematics 118A, Physics 103, 120A, and Geology 112.
Foreign Language Requirement. See above, under Distribution of Courses, D.1., Foreign Language.
Minor. A minor is not required with this major.

GERMAN MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES
Prerequisites. German 1, 2, 3, 4, 10, and 11. (20 units.)
Major. A minimum of 24 upper division units in German to include German 101A-101B, 102A-102B, and 12 units in the period literature of the language.
Minor. Students majoring in German must complete a minor in another field to be approved by the departmental adviser in German.

HISTORY MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES
Prerequisites. History 4A-4B or 8A-8B. (6 units.) Recommended: Both 4A-4B and 8A-8B, and Political Science 1 and 2, or Economics 1A-1B. No freshman shall enroll in more than one lower division course in history during any one semester without permission of the major adviser.
Major. A minimum of 24 upper division units in history to include History 198 and a minimum of a year of concentration in each of three of the following fields: (a) Ancient and Medieval; (b) Modern Europe; (c) United States; (d) Latin America; (e) South and East Asia; (f) Africa and the Middle East. These courses must be selected under the guidance of the chairman of the department.
POLITICAL SCIENCE MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES
Prerequisites. Political Science 1, 2, and 3. (9 units.)
Major. A minimum of 24 upper division units to include (a) three units in Political Science 128, 197, or 198 and (b) 21 upper division units in political science distributed among at least three of the groups listed below, provided that at least three units shall be taken in Group I.
Group I, Political Theory. Courses numbered 100 to 114.
Group II, Politics. Courses numbered 115 to 129.
Group III, Public Law. Courses numbered 130 to 139.
Group IV, Public Administration. Courses numbered 140 to 164.
Group V, International Relations. Courses numbered 165 to 179.
Group VI, Comparative Government. Courses numbered 180 to 195.

Students majoring in political science are advised to become as familiar as possible with related social science fields.

Foreign Language Requirement. See above, under Distribution of Courses, D.I., Foreign Language.

Minor. Students majoring in political science must complete a minor in another field to be approved by the chairman of the major department.

PSYCHOLOGY MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES
Two plans are provided for the major in psychology: Plan A for those students who wish to extend their liberal arts education in the field of psychology; and Plan B for those students expecting to pursue the study of psychology beyond the A.B. degree.

Plan A
Plan A is for a nonprofessional major in psychology and is designed to provide the student with a greater understanding of his expanding group relations and to happy and effective family and community living. The recommended pattern of courses for this program is not designed to facilitate graduate and professional study in psychology.

Prerequisites. Psychology 40 and 50. Recommended courses in related fields: six units in biology and/or zoology; three units in philosophy; and six units in anthropology and/or sociology.

Major. A minimum of 24 upper division units in psychology to include Psychology 106, 131, and 145. It is expected that each student under Plan A will select, with the assistance of his adviser, a pattern of courses in line with his particular objectives in pursuing Plan A. For most students in Plan A, the following courses will be found particularly helpful: Psychology 105, 107, 122, 150, and 152.

Plan B
The purpose of Plan B is to facilitate the specific preparation of those students who wish to pursue graduate and professional preparation in clinical, industrial and personnel, social, and theoretical-experimental psychology.

Prerequisites. Psychology 40, 50, and 70. Recommended courses in related fields: six units in biology and/or zoology; three units in philosophy; and six units in anthropology and/or sociology.

Major. A minimum of 24 upper division units in psychology to include Psychology 105, 110, 178, and one of the following: 111, 112, or 113; and ten additional units selected from courses in consultation with the departmental adviser.
Liberal Arts and Sciences

Foreign Language Requirement. See above, under Distribution of Courses, D.I., Foreign Language.

Minor. A minor is not required with this major in psychology under either Plan A or Plan B.

RUSSIAN MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Russian 1, 2, 3, 4, 10, and 11. (20 units.) Recommended: History 4A-4B.

Major. A minimum of 24 upper division units in Russian to include Russian 101A-101B, 102A-102B, and 12 units in the period literature of the language.

Minor. Students majoring in Russian must complete a minor in another field to be approved by the departmental adviser in Russian.

SOCIAL SCIENCE MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

The major in social science is offered by the Division of the Social Sciences.

Prerequisites. A six-unit sequence in each of three of the following fields: (1) anthropology, (2) economics, (3) geography, (4) history, (5) political science, and (6) sociology. (18 units.) Courses recommended for these sequences are as follows: Anthropology 1A-1B, Economics 1A-1B, Geography 1 and 2, History 4A-4B or 8A-8B, Political Science 1 and 2, Sociology 1 and 10.

Major. Thirty upper division units to include 15 units from any field named above; six units from each of two additional fields named above; and three units of electives from any of the fields named above. Courses electives for courses in the four fields named above, must be completed either in lower division prerequisites or in the major.

Foreign Language Requirement. See above, under Distribution of Courses, D.I., Foreign Language.

Minor. A minor is not required with this major.

Curriculum in Africa and the Middle East

The social science major may be taken with an emphasis in Africa and the Middle East. For a description of this program, refer to Africa and the Middle East in its alphabetical order above.

SOCIAL WELFARE MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

The major in social welfare is offered by the School of Social Work. This curriculum in social welfare provides preparation for (1) admission to accredited graduate schools of social work, (2) immediate employment in those corrections and welfare positions which do not require graduate training, and (3) more effective participation in community affairs based on an understanding of modern society's complex social welfare programs. This curriculum should be pursued by those who plan careers in federal, state, or local welfare or corrections agencies, social work in the public schools including preparation for a teaching credential, settlement houses, youth work, such as scouting, boys' clubs or recreation, work in institutions for the defective, delinquent or mentally ill, and/or executive positions in social work and correction.

Prerequisites. Sociology 1, 10, and 60; Economics 1A-1B; History 17A-17B or Political Science 1 and 2; and Psychology 6 or 12. (24 units.) Recommended: Biology 1 and 2 and courses from anthropology and speech arts.

Liberal Arts and Sciences

Major. Thirty-six upper division units distributed as follows: Social Welfare 100, 180, 182, 189, Sociology 140 and six units selected from Sociology 113 or (114), 121, 125, 150, 157, and Social Welfare 183, 184, 185, 186, 187; Psychology 150 and six units selected from Psychology 106, 107, 109, 131, and 152; three units selected from Political Science 105, 112, 122, 140, 142, 143, 147; three units selected from Economics 102, 111, 131, 150, 151, 170, and 185. Recommended: Zoology 165 and courses from anthropology. Students should consult with the adviser in social welfare for selection and arrangement of courses.

Foreign Language Requirement. See above, under Distribution of Courses, D.I., Foreign Language.

Minor. A minor is not required with this major.

SOCIOLOGY MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Sociology 1, 10, and 60. (9 units.) Advanced students in junior and senior years entering the major may take Sociology 102 in place of Sociology 1, but may not use 102 to fulfill minimal upper division requirements in the sociology major.

Major. A minimum of 24 upper division units in sociology to include Sociology 101, 122, and 140.

Foreign Language Requirement. See above, under Distribution of Courses, D.I., Foreign Language.

Minor. Students majoring in sociology must complete a minor in another field.

SPANISH MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Spanish 1, 2, 3, 4, 10, and 11. (20 units.)

Major. A minimum of 24 upper division units in Spanish to include Spanish 101A-101B, 102A-102B, and 12 units of courses in the period literature of the language.

Minor. Students majoring in Spanish must complete a minor in another field approved by the departmental adviser in Spanish.

SPECIAL MAJOR

WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

The special major, consisting of three fields, instead of the usual major-minor pattern, offers a general type of education leading to objectives not otherwise provided in the regular programs of the college. Assistance in arranging the special major may be obtained at the Personnel Services Center in the Administration Building. The plan for the major must be cleared with the Evaluations Office for three fields selected, and finally approved by the dean of Counseling and Testing.

Prerequisites. A minimum of a year course in each of the three fields selected in the major must be completed in the lower division as foundation for upper division courses.

Major. Thirty-six upper division units chosen from three fields, with not more than 15 units fewer than nine units from any one field. At least two of the fields must be chosen from the majors in liberal arts and sciences listed above; the third may be selected from the same list or from other fields in the college curriculum.

Foreign Language Department. See above, under Distribution of Courses, D.I., Foreign Language.

Minor. A minor is not required with this major.
Liberal Arts and Sciences

ZOLOGY MAJOR
WITH THE A.B. DEGREE IN LIBERAL ARTS AND SCIENCES

Prerequisites. Biology 1, 2, and 15; Zoology 50, and 60 or 106; Chemistry 1A-1B and 12; Physics 2A-2B; and Mathematics 21 or 40. (38-40 units.)

Major. A minimum of 24 upper division units in biology, botany, microbiology and zoology to include the following: Biology 101 or Zoology 140; Biology 110 and 155; Botany 101 or 102 or 103; Biology 101 or 103, or Microbiology 101, or Zoology 108; Biology 105 or Zoology 100 or 102.

Foreign Language Requirement. See above under Distribution of Courses, D.1., Foreign Language (preferably French, German, or Russian).

Minor. A minor is not required with this major.

PROFESSIONAL CURRICULA

SCHOOL OF BUSINESS ADMINISTRATION
SCHOOL OF EDUCATION
SCHOOL OF ENGINEERING
SCHOOL OF SOCIAL WORK
SCHOOL OF 
BUSINESS ADMINISTRATION

DEPARTMENTAL ORGANIZATION

Five departments comprise the School of Business Administration: Accounting, Business Law and Finance, Management, Marketing, and Business Education. Each department offers its separate majors and minors.

ACCREDITATION

The School of Business Administration is a member of the American Association of Collegiate Schools of Business.

BUREAU OF BUSINESS AND ECONOMIC RESEARCH

The Bureau of Business and Economic Research is an organized research activity serving the needs of the School of Business Administration. Its chief purpose is to facilitate research by faculty and students in the areas of economics and business. For further information, refer to the section in this catalog on Research Facilities, under Special Programs and Services.

COURSES IN BUSINESS ADMINISTRATION

Courses in business administration are listed and described in the section of this catalog on Announcements of Courses.

THE MASTER'S DEGREE

The School of Business Administration offers the Master of Arts degree for teaching service with a concentration in business education, the Master of Science degree in business administration with concentrations in eight areas, and the Master of Business Administration degree, a two-year graduate program. For further information, refer to the Graduate Bulletin and to the section in this catalog on the Graduate Division.

DEPARTMENTAL MAJORS AND MINORS

The following listed majors and minors are offered by each of the five departments in the School of Business Administration.

DEPARTMENT OF BUSINESS LAW AND FINANCE

Major in Business Law and Finance
Minor in Business Law

DEPARTMENT OF ACCOUNTING

Major in Accounting with the B.S. degree
Minor in Accounting

DEPARTMENT OF MANAGEMENT

Major in Management with the B.S. degree
Minor in Management

DEPARTMENT OF BUSINESS EDUCATION

Major in Business Education
Minor in Business Education

DEPARTMENT OF MARKETING

Major in Marketing with the B.S. degree
Minor in Marketing

GRADUATION REQUIREMENTS

The student must complete the requirements listed below for the bachelor's degree. (Refer to the section of this catalog on Graduation Requirements for specific information.)

1. A minimum of 128 semester units for the B.S. degree.
2. At least 24 units earned in residence, half of which must be completed among the last 20 units counted toward the degree.
3. A scholastic grade point average of 2.0 (grade of C on a five-point scale) or better in (a) all units attempted, (b) all units in the major, and (c) all units attempted at this college.
4. At least 36 upper division units for the B.S. degree.
5. One major.
6. Satisfactory completion of competency tests in mathematics, speech, and writing, or completion of appropriate courses designated in lieu thereof.
7. All regulations established by the college.
8. American institutions, to include competence in American history, institutions, and ideals, U.S. Constitution, and California state and local government.
9. 45 units in general education exclusive of courses in the major.
10. Application for graduation.

THE MAJOR

Each major in business administration consists of a pattern of prescribed upper division courses. The minimum number of units required is stated in the description of each major. Also required as preparation for the major are the lower division prerequisite courses. Some majors require additional courses in a prescribed pattern in areas other than the major.

Business administration majors are not required to complete a minor for the degree. For information on general education and other degree requirements, refer to the section of this catalog on Graduation Requirements.

Any student majoring in Business Administration must make sure that 40 percent of the units counting toward graduation are taken outside of the fields of business and economics.

DEPARTMENT OF ACCOUNTING

ACCOUNTING MAJOR

WITH THE B.S. DEGREE IN BUSINESS ADMINISTRATION

Prerequisites. Business Administration 1A-1B, 30A-30B, 80, Economics 1A-1B, Economics 2 or Mathematics 12, and Mathematics 20. (25 units.) Students who expect to use Economics 1A and/or Business Administration 30A to meet general business administration and economics.

Major. A minimum of 36 upper division units to include Business Administration from the following:

100, 101, 102, 106, 127, 132, 150, and Economics 100A or 100B; nine units selected from: Accounting: Business Administration 107, 108, 112, 114, 115, 116, 119
Economics: Economics 115, 170
Finance, Management, Marketing, and Business Education: Any upper division course may be selected in these areas, but only one course may be taken in each department.

In addition to courses in the major and in general education, 12 upper division elective units outside of business administration and economics are required. (Any courses in one foreign language may be taken to satisfy this requirement.)
ACCOUNTING MINOR

The minor in accounting is offered to students who are not majors in the School of Business Administration. The minor consists of from 15 to 22 units in accounting, of which Business Administration 1A-1B and 100 must be included. At least eleven units must be in upper division courses.

DEPARTMENT OF BUSINESS LAW AND FINANCE

FINANCE MAJOR

WITH THE B.S. DEGREE IN BUSINESS ADMINISTRATION

All students majoring in finance must meet the requirements listed below in (1) the major, and (2) pattern requirements outside the Department of Economics and the School of Business Administration.

(1) REQUIREMENTS WITHIN THE MAJOR FIELD

Prerequisites. Business Administration 1A-1B, 30A-30B, 80, Economics 1A-1B, Economics 2 or Mathematics 12, and Mathematics 20. (25 units.) Students who expect to use Economics 1A and/or Business Administration 30A to meet general education requirements must complete compensating units in courses outside business administration and economics.

Major. A minimum of 36 upper division units to include Business Administration 100, 127, 128, 130, 132, 135, and 197; Economics 100A, 100B, and 135; the remaining five units to be selected from business administration and economics courses with consent of the adviser.

(2) PATTERN REQUIREMENTS OUTSIDE THE DEPARTMENT OF ECONOMICS AND SCHOOL OF BUSINESS ADMINISTRATION

Eight to nine units in one of the departments of the Divisions of the Life, Physical, or Social Sciences (except Economics) as listed below in (a); and eight to nine units in one of the departments of the Divisions of the Humanities or Fine Arts as listed in (b) below. A minimum of 17 units is required.

No courses taken to satisfy the requirements in (1) may be used to satisfy any other requirement of (2) or of general education.

(a) Divisions of the Life, Physical, and Social Sciences. Courses to be selected with consent of the adviser from all upper division courses (except in economics) and Chemistry 1A-1B, 4 or 5, and Physics 4A-4B-4C.

(b) Divisions of the Humanities and Fine Arts. Courses to be selected with consent of the adviser from all upper division courses and Art 5, 50A, 50B, 51, 52A, 72B, Music 52, and Speech Arts 4, 60A, 60B, 61, and 64, or from all courses in foreign languages, but not less than eight units in one language.

INSURANCE MAJOR

WITH THE B.S. DEGREE IN BUSINESS ADMINISTRATION

Prerequisites. Business Administration 1A-1B, 30A-30B, 80, Economics 1A-1B, Economics 2 or Mathematics 12, and Mathematics 20. (25 units.) Students who expect to use Economics 1A and/or Business Administration 30A to meet general education requirements must complete compensating units in courses outside business administration and economics.

REAL ESTATE MAJOR

WITH THE B.S. DEGREE IN BUSINESS ADMINISTRATION

The major in real estate is offered primarily for the student desiring to acquire a core of essential knowledge of the principles of real estate and urban land economics which will prepare him to engage in professional real estate activities or general business. The student in the School of Business Administration seeking a career in real estate development, land management, real estate finance, insurance, and related fields will have the opportunity to select courses in economics, political science, sociology, and other areas so as to develop a broad educational background in this field of study.

Prerequisites. Business Administration 1A-1B, 30A-30B, 80, Economics 1A-1B, Economics 2 or Mathematics 12, and Mathematics 20. (25 units.) Students who expect to use Economics 1A and/or Business Administration 30A to meet general education requirements must complete compensating units in courses outside business administration and economics.

Major. A minimum of 36 upper division units to include Business Administration 127, 132, 135, 150, 170, 171, 173, 174, Political Science 100, and six to seven units selected from Business Administration 100, 106, 107, 120, 121, 135, Economics 110, 135, 138, 142, 170, 171, and 185. Fifteen upper division units outside of business administration and economics are required from any of the following fields: Divisions of Humanities, Life Sciences, Physical Sciences or Social Sciences. Courses are to be selected with consent of the adviser.

FINANCE MINOR

A minor in finance is offered to students who are not majors in the School of Business Administration. The minor consists of from 15 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, and Economics 135.

INSURANCE MINOR

A minor in insurance is offered to students who are not majors in the School of Business Administration. The minor consists of from 15 to 22 units and must include Business Administration 1A-1B, 30A-30B, and nine upper division units.

REAL ESTATE MINOR

A minor in real estate is offered to students who are not majors in the School of Business Administration. The minor consists of from 15 to 22 units and must include Business Administration 1A-1B, 30A-30B, and nine upper division units to be selected with approval of the adviser in this field.
DEPARTMENT OF MANAGEMENT

MANAGEMENT MAJOR

WITH THE B.S. DEGREE IN BUSINESS ADMINISTRATION

The major in management with the B.S. degree is offered in three areas of concentration: business management, employee relations, and production and operations management.

Students majoring in management must complete all three of the following requirements: (1) requirements in the professional curriculum of the major, (2) requirements in one of the areas of concentration of the major, and (3) in addition to the major, pattern requirements outside the Department of Economics and the School of Business Administration.

(1) PROFESSIONAL CURRICULUM WITHIN THE MAJOR FIELD

Prerequisites: Business Administration 1A-1B, 30A, 80; Economics 1A-1B; Mathematics 7, 12, and 30. (23 units.)

Major: Business Administration 102, 127, 131, 132, 134, 135, 140, 145, 149, 150, Economics 100A, and Mathematics 130A. (37 units.)

(2) AREAS OF CONCENTRATION WITHIN THE MAJOR FIELD

Select one area:

(a) Business Management. Twelve units made up of one upper division three unit course from each of four of the following fields: accounting, business law, economics, employee relations, finance, insurance, marketing, production management, purchasing, and real estate.

(b) Employee relations. (1) At least six units from Business Administration 141, 142, and 143 and (2) six units from Economics 150, 151, 152, Psychology 105, 121, 124, 133, and Sociology 120. (12 units.)

(c) Production and Operations Management. (1) Business Administration 136 and either 137 or 138, and (2) six units from Business Administration 162, Economics 107, Mathematics 130B, Philosophy 121, 122, Psychology 121, 124. (12 units.)

(3) PATTERN REQUIREMENTS OUTSIDE THE DEPARTMENT OF ECONOMICS AND THE SCHOOL OF BUSINESS ADMINISTRATION

A minimum of 16 units of pattern requirements must be taken. These requirements are met by taking a minimum of eight units in the area of Life, Physical, and Social Sciences as indicated in (a) below and a minimum of eight units in the areas of Humanities and Fine Arts as indicated in (b). These requirements may also be met by taking the four year AFROTC program of lower and upper division aerospace studies courses.

Courses taken to satisfy the requirements shown in (a) and (b) above are in addition to and may not be used to satisfy any requirements in general education nor may they be used to satisfy requirements listed in (1) and (2) above.

(a) Life, Physical, and Social Sciences: A minimum of eight units to be selected, with consent of advisor, from one department in the Divisions of Life, Physical, or Social Sciences, excluding the Department of Economics. All upper division courses and the following lower division courses are suitable: Chemistry 1A-1B, 4, or 5 and Physics 4A-4B-4C.

(b) Humanities and Fine Arts: A minimum of eight units to be selected, with consent of advisor, from one department in the Divisions of Humanities and Fine Arts. All upper division courses and the following lower division courses are suitable: English 30A-30B, 41, 52A, 52B, Music 52, Speech Arts 4, 60A-60B, 61, and 64. All courses in a foreign language are acceptable but at least eight units must be taken in one language.

BUSINESS MANAGEMENT MINOR

A minor in business management is offered to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, and six to nine additional units of upper division courses approved by the adviser in this field.

EMPLOYEE RELATIONS MINOR

A minor in employee relations is offered to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, 140, and three to six units of upper division courses approved by the adviser in this field.

PRODUCTION AND OPERATIONS MANAGEMENT MINOR

A minor in production and operations management is offered to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, 135, and three to six units of upper division courses approved by the adviser in this field.

DEPARTMENT OF MARKETING

MARKETING MAJOR

WITH THE B.S. DEGREE IN BUSINESS ADMINISTRATION

The major is planned so that the student will attain a comprehensive, rigorous knowledge of marketing, and be prepared for work in the marketing field. The student is required to complete all courses in business administration, economics or mathematics identifying with the general education program and courses in the minor. The student is also encouraged to work in the areas of the major that interest him.

Requirements

Prerequisites: Business Administration 1A-1B, 30A-30B, 50, 80; Economics 1A-1B; either Economics 2 or Mathematics 12, and Mathematics 20. (27 units.) Students majoring in Business Administration and Economics must complete compensating units in courses outside business administration and economics.

Major: A minimum of 37 upper division units to include Business Administration 102, 132, 140, 150, 151, 157, and 158; 12 units selected from Business Administration 107, 125, 133, 134, 141, 161, 162, 163, 164, 165, and six units selected from Business Administration and/or Economics courses with the approval of the adviser. In addition to the upper division units in the major, the student is required to take upper division elective units outside of Business Administration and Economics.

MARKETING MINOR

A minor in marketing is offered to students who are not majors in the School of Business Administration. The minor consists of from 17 to 22 units and must include Business Administration 30, Economics 1A-1B, and nine units of upper division courses approved by the adviser in this field.
DEPARTMENT OF BUSINESS EDUCATION

OFFICE MANAGEMENT MAJOR

WITH THE B.S. DEGREE IN BUSINESS ADMINISTRATION

The major in office management is offered with two options: (1) the major with a concentration in office administration (38 upper division units); and (2) the major with a concentration in executive secretarial (37 upper division units).

Requirements

Students must complete the following requirements: (1) Courses in the Professional Curriculum, required of all majors; (2) courses in one of the Areas of Concentration; and (3) from 18-19 additional units of General Electives approved by the adviser, at least 12 units of which must be in courses outside the fields of business administration and economics.

PROFESSIONAL CURRICULUM

(Required of all students in the major)

Prerequisites. Business Administration 1A, 1B, 30A, 30B, 73, 74, 80, Economics 1A, 1B, 2, and Mathematics 7 and 20. (29 units.) Demonstration of proficiency in typing is required. Students who expect to use Economics 1A and/or Business Administration 30A to meet general education requirements must complete compensating units in courses outside business administration and economics.

Major. Twenty-five units to include Business Administration 102, 127, 132, 135, 140, 184, 185, and 186. In addition, students must complete the courses in one of the Areas of Concentration.

AREAS OF CONCENTRATION

(Select one option)

(1) OFFICE ADMINISTRATION

Major (continued). Thirteen upper division units, in addition to courses in the Professional Curriculum, to include the following: Business Administration 100 and 164; and six units selected from Business Administration 120, 128, 145, 151, 182, 189.

(2) EXECUTIVE SECRETARIAL

Prerequisites. Business Administration 72 and 75B. (5 units.)

Major (continued). Twelve upper division units to include Business Administration 183 and nine units selected from Business Administration 120, 128, 145, 164, 182, 189.

GENERAL ELECTIVES

In addition to requirements in the Professional Curriculum and in one of the Areas of Concentration, students in the Office Administration option must complete 18 units of lower or upper division General Electives, or 19 units in the Executive Secretarial option, courses to be selected with approval of the adviser. At least 12 units must be in courses outside the fields of business administration and economics.

Minors

BUSINESS EDUCATION MINOR

A minor in business education is offered to students who are not majors in the School of Business Administration. The minor consists of not less than 21 units, exclusive of course equivalents, to include the following courses: Business Administration 1A, 1B, 72, 73, 74; nine upper division units, including Business Administration 189; and three additional lower or upper division units selected in consultation with the adviser in business education.

OFFICE MANAGEMENT MINOR

A minor in office management is offered to students who are not majors in the School of Business Administration. The minor consists of 21 units and includes the following courses: Business Administration 1A, 1B, 73, and 74 (proficiency in typewriting required); and fourteen additional units to be selected in consultation with the business education adviser. Nine of these additional units must be in upper division.
CREDENTIALS

On May 24, 1963, the State Board of Education adopted new regulations for credentials, designed to implement the Licensing of Certified Personnel Law of 1961. Students who had completed two years of college and were enrolled in a program of teacher education prior to November 1, 1963, have until September 14, 1965, to complete requirements for current credentials for public school service in California. All other students must meet the new credential regulations which became effective on January 1, 1964.

By completing specialized preparation, additional authorization may be earned in: (1) Specialization in Teaching of Exceptional Children, authorizing teaching in the area of mentally retarded or speech and hearing handicapped in kindergarten and grades one through fourteen; and (2) Specialization in Librarianship, authorizing service as librarian and teaching of librarianship in kindergarten and grades one through fourteen.

| (2) A standard designated subjects credential | Teach grade or technical courses at grade levels specified on the credential |
| (3) A standard designated services credential | Perform pupil personnel services or health services as specified on the credential |
| (4) A standard supervision credential | Serve as supervisor, consultant, or other intermediate administrative position including school principal |
| (5) A standard administration credential | Serve as a district superintendent or in intermediate level administrative positions, including those services authorized by the standard supervision credential |

† This program is not offered at San Diego State College.

ADMISSION TO TEACHER EDUCATION

APPLICATION FOR ADMISSION

Students who plan to earn a credential for elementary teaching should apply for admission to Teacher Education during the second semester of the freshman year. Students transferring in after the freshman year should apply immediately. For secondary teaching, application for admission should be made during the junior year. For other credentials, see the appropriate coordinator for details. Application for admission may be made at a special meeting held each semester. (For date and place of this meeting, refer to the calendar in this catalog.) No courses in education may be taken until admission is granted; any exception to this rule must have the approval of the appropriate admissions committee.

STANDARDS FOR ADMISSION

The standards for admission to Teacher Education are different from those for admission to the college; therefore, admission to the college does not guarantee that Teacher Education will base their decision upon the following factors:

1. A satisfactory score on the college aptitude test taken at the college.
2. Competence in the use of English and satisfactory ability in arithmetic, handwriting, reading and spelling as indicated by scores on fundamentals tests for
School of Education

those applying for elementary education. (See the college calendar for dates of these tests which should be taken in the second semester of the freshman year.)

3. Satisfactory scores on The Comprehensive College test and mathematics competency test, for secondary and junior college teaching. (See the college calendar for dates of these tests, which should not be taken prior to the junior year.)

4. Satisfactory quality of speech and voice control.

5. Results of the college health examination given for teaching credential candidates.

6. Interviews with representatives of the Admissions Committee and, for secondary education only, with a representative of the department in which the student is a major. The Admissions Committee will base its evaluation upon the following factors established by the Board of Trustees: intelligence, scholarship, professional aptitude, personality and character, speech and language usage, and many-sided interests.

7. Satisfactory grade point averages on the first two years or more of a given curriculum and on all subsequent work taken for the credential. Minimum grade point averages are indicated below:
   a. Elementary teaching, 2.20.
   b. Health and development credential, 2.20.
   c. Secondary teaching, all subjects, 2.50, and major field, 2.75.
   d. Junior college teaching, 2.50.

8. For administration, supervision, and pupil personnel services credential candidates, a satisfactory grade point average (minimum 2.75) on all work applicable to that credential, exclusive of the work applied to the basic credential.

9. For secondary teaching candidates, an official evaluation and program approved by the authorized departmental representative in the student's major field and by a representative in secondary education.

TRANSFER STUDENTS

Elementary education students who have completed two or more semesters of work in another college, upon transferring to San Diego State College, should make application for admission to Teacher Education as soon as they enroll in the college. Secondary education students should enroll when they have achieved junior standing. All transfer students admitted to the college with either upper division or graduate standing should take the necessary tests for admission to Teacher Education at the earliest time the tests are given. (See academic calendar for dates.)

TRANSFER STUDENTS WITH PROVISIONAL CREDENTIALS

Teachers with a provisional credential who are teaching and working concurrently toward a regular credential may have a program designed to fit their background. According to present law, teachers on provisional credentials are required to embark upon a program with an accredited institution leading to a degree and/or a credential before the provisional credential can be renewed. Before the renewal can be certified by San Diego State College, the student must be fully matriculated in the college and must complete admission to Teacher Education. (Refer to the requirements stated above for admission to Teacher Education.) Also, at the time of renewal, successful teaching experience must be verified. For an evaluation of college credit completed to date, make formal application at the Evaluations Office, Administration Building, San Diego State College. For additional details, see the Coordinator of Elementary Education or the Coordinator of Secondary Education.

ADVANCED STANDING IN TEACHER EDUCATION

A student transferring into San Diego State College with advanced standing must complete a minimum of six units of professional education work in residence at San Diego State College before recommendation for a credential, regardless of extent of education work already completed elsewhere.

EVALUATION OF CREDITS

After an interval of five years, courses in education are re-evaluated and subject to reduction in credit, in light of such new requirements as may have been put into effect and changes in educational procedures. Students formerly in attendance will not be considered to be working in the curriculum until an evaluation and statement of credit has been issued from the Evaluations Office. All courses taken either at this college or elsewhere must be approved by an official adviser in order to be credited toward meeting credential requirements or pattern requirements for a degree.

GENERAL EDUCATION REQUIREMENTS FOR ELEMENTARY, SECONDARY, AND JUNIOR COLLEGE TEACHING

In addition to meeting the general education requirements for graduation, described in the section of this catalog on Graduation Requirements, credential candidates must meet the pattern of area requirements outlined below. Because these general education requirements for a credential are similar in many respects to those for graduation from San Diego State, students will, by careful selection of courses, be able to meet most of both sets of requirements concurrently.

PATTERN REQUIREMENTS

Forty-five semester units of course work must be completed in the following areas. (Not more than six semester units of course work taken to satisfy this requirement may also be used to satisfy the fulfillment of the requirements for either a major or a minor.)

1. Humanities, excluding foreign languages for the purposes of this requirement but including a year of English. (In addition, the applicant shall demonstrate competency in composition either by passing a course in composition or by passing an examination given by the institution in lieu thereof.)

2. Social Sciences. (The course work taken to satisfy the requirement of knowledge of the Constitution of the United States may be counted toward this requirement.)

3. Natural Sciences.

4. Mathematics, requiring as a prerequisite an understanding and knowledge of high school algebra and geometry.

5. Fine Arts.

6. A foreign language. (The successful completion in an approved institution of an examination covering the speaking, reading, writing, and understanding of a foreign language shall be accepted in lieu of course work in a foreign language; but shall not count toward the 47 semester units specified.) For any credential for students who have completed successfully in a high school two full school years in a single foreign language.

Specialization in Elementary Teaching

Candidates for the Standard Teaching Credential with specialization in elementary teaching must complete course work in five of the six areas. In addition, the structure, arithmetic, and algebra of the real number system or three semester units above.

Specialization in Secondary and Junior College Teaching

Candidates for the Standard Teaching Credential with specialization in secondary school or junior college teaching must complete course work in four of the six areas listed above.
STANDARD TEACHING CREDENTIAL—ELEMENTARY

GENERAL REQUIREMENTS

To be recommended by San Diego State College for the Standard Teaching Credential with specialization in elementary teaching, an applicant shall have completed successfully a program including the following requirements:

I. Four years, or the equivalent, of college or university education with a baccalaureate or higher degree from an approved institution.

II. A fifth year of postgraduate education taken at the upper division or graduate level. (Under certain conditions, including the completion of a major and of the required undergraduate work in professional education, this fifth year may be postponed, and completed during the first five years of teaching. Further details on this option are available in the office of the Coordinator of Elementary Education.)

III. Forty-five semester hours in general education as outlined in the preceding section on General Education.

IV. One of the majors specified for elementary teaching.

V. One of the minors specified for elementary teaching, or specialized preparation to serve as (1) a librarian or to teach librarianship, or (2) a teacher of exceptional children.

VI. The following professional courses in education: Education 111, 112, 130, 131, 132, 202 (30-31 units). This sequence of professional courses will typically begin in either the first or second semester of the junior year.

VII. The following courses (unless taken as part of the major, minor, or general education): Art 2A, Geography 1, 2, Health Education 120, Mathematics 10A, Music 1A, Physical Education 53, and Speech Arts 3.

MAJORS AND MINORS FOR ELEMENTARY TEACHING

Candidates for the Standard Teaching Credential with specialization in elementary teaching must complete one major and one minor in addition to the required courses in professional education. Advisers for these majors will be in the School of Education unless stated otherwise in the major description.

MAJOR

Majors for elementary teaching available at this college are described below. Although these teaching majors need not be completed until the end of the postgraduate year, most students will need to complete an undergraduate major applicable toward a bachelor's degree.

Students in Teacher Education at the time of graduation who complete the teaching major in the undergraduate program, including prerequisites, will normally meet the requirements for the corresponding major for a bachelor's degree. Any exceptions are noted in the description of the teaching major.

DESCRIPTION OF MAJORS FOR ELEMENTARY TEACHING

ART MAJOR

FOR ELEMENTARY TEACHING

Teaching Major. A minimum of 24 upper division units to include Art 117A or 118A, 119A, 120A, 121A, (a) Teaching of exceptional children.

Degree Requirements. A minor is not required with this major for the bachelor's degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

CHEMISTRY MAJOR

FOR ELEMENTARY TEACHING

The major in chemistry for elementary teaching requires an undergraduate major in chemistry. All courses in the teaching major must be approved by the adviser in chemistry for teaching programs. It is recommended that six units of graduate work be taken in chemistry.

ENGLISH MAJOR

FOR ELEMENTARY TEACHING

Prerequisites. English 56A, 56B, and six additional units selected from English courses numbered 50 or above. (12 units.)

Degree Requirements. Students in Teacher Education using this teaching major foreign language (or equivalent). A minor is not required for the degree; however, the bachelor's degree is required for the credential.
School of Education

FRENCH MAJOR

FOR ELEMENTARY TEACHING
Prerequisites. French 1, 2, 3, 4 (or equivalents), 10 and 11. (20 units.)

Teaching Major. Twenty-four upper division units to include: French 101A, 101B, 102A, 102B, 122, 140, 141, 150, and three upper division units of electives in French. In addition to the major, credential candidates must complete Education 136.

Proficiency Examinations: Before taking a student teaching assignment in the language, the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of French and Italian, in the language and its area civilization. (French 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of French and Italian for permission to take these examinations.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor’s degree must complete a minor in another field approved by the adviser in French. The minor may be selected from the teaching minors.

GERMAN MAJOR

FOR ELEMENTARY TEACHING
Prerequisites. German 1, 2, 3, 4 (or equivalents), 10 and 11. (20 units.)

Teaching Major. Twenty-four upper division units to include German 101A, 101B, 102A, 102B, 122, 140, 141, 150, and three upper division units of electives in German. In addition to the major, credential candidates must complete Education 136.

Proficiency Examinations: Before taking a student teaching assignment in the language the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of German and Russian, in the language and its area civilization. (German 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of German and Russian for permission to take these examinations.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor’s degree must complete a minor in another field approved by the adviser in German. The minor may be selected from the teaching minors.

MUSIC MAJOR

FOR ELEMENTARY TEACHING
Prerequisites. Music 9A, 9B, 59A, 59B, 10A-B-C-D, 15A, 15B, 52; four units selected from Music 20A, 20B, 25A, 25B, 30A, 30B, and 35; eight units selected from courses numbered Music 70 through 88; and four units of Music 50. (37 units.)

Teaching Major. A minimum of 27 upper division units to include Music 146A, 146B, 152A, 152B, 108, 109A; three units selected from Music 120A, 120B, 125A, 125B, 125C, 130A, 130B, and 135; six units selected from courses numbered Music 170 through 179; three units of Music 150; and four units of upper division music.

Degree Requirements. Students in Teacher Education who complete this teaching major, including prerequisites, in the undergraduate program, may offer it as the additional departmental requirements in recital attendance and performance and proficiency examinations in voice and piano.
School of Education

PHYSICAL SCIENCES MAJOR

For Elementary Teaching

Prerequisites: Lower division course work in each of the following areas: astronomy, chemistry, geology, mathematics, and physics, including prerequisites for the upper division courses selected for the major.

Teaching Major: A minimum of 24 upper division units in any two or more of the academic subject areas of the physical sciences and mathematics, selected with approval of the adviser in the physical sciences for teaching programs.

Degree Requirements: Students in Teacher Education who complete this teaching major using the indicated prerequisites, in the undergraduate program may offer it as a physical science major with the A.B. degree in applied arts and sciences. A minor is not required for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

PHYSICS MAJOR

For Elementary Teaching

The major in physics for elementary teaching requires an undergraduate major in physics. All courses in the teaching major must be approved by the adviser in physics for teaching programs. It is recommended that six units of graduate work be taken in physics.

SOCIAL SCIENCES MAJOR

For Elementary Teaching

Prerequisites: A six-unit sequence in one of the following fields: (1) anthropology, (2) economics, (3) geography, (4) history, (5) political science, (6) sociology; and six additional units in one or two of the remaining fields.

Teaching Major: A minimum of 24 upper division units to include 12 units from any one field named above; and six units from each of two additional fields named above. (It is recommended that no less than six units of upper division or graduate work in the field selected for the 12-unit concentration be taken in the postgraduate year.)

Degree Requirements: Students in Teacher Education using this teaching major for the bachelor's degree will be graduated with a major in social science. The degree may be taken in applied arts and sciences or in liberal arts and sciences. Students in liberal arts and sciences must complete 12 units of acceptable courses in one foreign language (or equivalent). A minor is not required for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

SPANISH MAJOR

For Elementary Teaching

Prerequisites: Spanish 1, 2, 3, 4 (or equivalents), 10 and 11. (20 units.)

Teaching Major: Twenty-four upper division units to include Spanish 101A, 101B, 102A, 102B, 122, 140, 141, 150, and three upper division units of electives in Spanish. In addition to the major, credential candidates must complete Education 116.

Proficiency Examinations: Before taking a student teaching assignment in the language, the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of Spanish and Portuguese in the language and its area civilization. (Spanish 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of Spanish and Portuguese for permission to take these examinations.

Degree Requirements: Students in Teacher Education using this teaching major for the bachelor's degree must complete a minor in another field approved by the adviser in Spanish. The minor may be selected from the teaching minors.

School of Education

DESCRIPTION OF MINORS FOR ELEMENTARY TEACHING

BIOLOGY MINOR

For Elementary Teaching

The minor in biology for elementary teaching consists of Chemistry 2A-2B plus at least 20 units in biology to include Biology 1, 2, and 4. Electives in the biological sciences must be chosen in consultation with the departmental adviser for teaching programs. It is recommended that electives be selected from: Zoology 50, 60, 165, 119-S; Botany 101, 103, 119-S; Microbiology 101 or 110; Biology 109, 138, and 165.

CHEMISTRY MINOR

For Elementary Teaching

The minor in chemistry for elementary teaching consists of not less than 20 units in chemistry, six units of which must be in upper division courses. All courses must be approved by the chemistry adviser for teaching programs.

ENGLISH MINOR

For Elementary Teaching

The minor in English for elementary teaching consists of not less than 20 units in English to include three units in American literature. At least six units must be in upper division courses.

FRENCH MINOR

For Elementary Teaching

The minor in French for elementary teaching consists of not less than 20 units in French, six units of which must be in upper division courses.

Proficiency Examinations: Before taking a student teaching assignment in the language, the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of French and Italian, in the language and its area civilization. (French 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of French and Italian for permission to take these examinations.

GEOGRAPHY MINOR

For Elementary Teaching

The minor in geography for elementary teaching consists of not less than 20 units in geography to include in the lower division, Geography 1, and either 2 or 60 nine units of upper division courses in geography (exclusive of Geography 112A-112B). Additional geography electives must be taken to complete the minimum.

GERMAN MINOR

For Elementary Teaching

The minor in German for elementary teaching consists of not less than 20 units in German, six units of which must be in upper division courses.

Proficiency Examinations: Before taking a student teaching assignment in the language, the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of German and Russian, in the language and its area civilization. (German 40-41 and 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of German and Russian for permission to take these examinations.
School of Education

HEALTH SCIENCES MINOR

FOR ELEMENTARY TEACHING

The minor in health sciences for elementary teaching consists of 21 units to include Health Education 21, 29, and 65; and in the upper division 15 units to include Health Education 100, 144, 146, 150 and Ed. 121P. Courses should be selected in consultation with the departmental adviser in health education. Students in Teacher Education using this teaching minor for the degree will be graduated with a minor in health education.

INDUSTRIAL ARTS MINOR

FOR ELEMENTARY TEACHING

The minor in industrial arts for elementary teaching consists of not less than 26 units to include Industrial Arts 11 and nine units selected from the following lower division courses: Industrial Arts 21, 31, 51, 61, 71, 81, and 85; and in the upper division, twelve units from the following two-course sequences: 121 and 123, 131 and 133, 151 and 153, 161 and 163, 171 and 173, 181 and 183, 185 and 186, 111 and 112, 101 and 102.

ITALIAN MINOR

FOR ELEMENTARY TEACHING

The minor in Italian for elementary teaching consists of not less than 20 units in Italian, six units of which must be in upper-division courses.

Proficiency Examinations: Before taking a student teaching assignment in the language, the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of French and Italian, in the language and its area civilization. (Italian 40-41 and 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of French and Italian for permission to take these examinations.

MATHEMATICS MINOR

FOR ELEMENTARY TEACHING

The minor in mathematics for elementary teaching consists of not less than 20 units in mathematics, six units of which must be in upper division courses.

MUSIC MINOR

FOR ELEMENTARY TEACHING

The teaching minor in music for elementary teaching is restricted to students admitted to and continuing in the credential program for elementary teachers. The teaching minor consists of not less than 20 units to include the following courses: Music 7A, 10A-B-C, 15A, 15B, 51 (or 151), 144, 146, 166A, and two units of music organization courses numbered 170-188.

PHYSICAL EDUCATION (MEN) MINOR

FOR ELEMENTARY TEACHING

The minor in physical education (men) for elementary teaching consists of not less than 20 units to include Physical Education 70, 71, 72, 73, 75, 77; Recreation 86; Physical Education 171, 172, 173, 177; Health Education 146; Recreation 170; and three units of electives in health education, physical education, or recreation.

PHYSICAL EDUCATION (WOMEN) MINOR

FOR ELEMENTARY TEACHING

The minor in physical education (women) for elementary teaching consists of not less than 22 units to include, in the lower division, Physical Education 1A, 2A, 3A, 2B or 3B, 4A, 4B, 52, 56A-56B, and one unit elective; and in the upper division, 14 units to include: Physical Education 151 or 154, 152, 156, 162, and Recreation 170.

PHYSICS MINOR

FOR ELEMENTARY TEACHING

The minor in physics for elementary teaching consists of not less than 20 units in physics. All courses must be approved by the adviser in physics for teaching programs. Students in Teacher Education using this teaching minor for the degree must include at least six upper division units in physics.

PSYCHOLOGY MINOR

FOR ELEMENTARY TEACHING

The minor in psychology for elementary teaching consists of 21 units to include in the lower division, Psychology 1 and one other three-unit course in psychology; and in the upper division, Psychology 106, 131, 145, and six units of electives from upper division psychology courses.

RUSSIAN MINOR

FOR ELEMENTARY TEACHING

The minor in Russian for elementary teaching consists of not less than 20 units in Russian, six units of which must be in upper division courses.

Proficiency Examinations: Before taking a student teaching assignment in the language, the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of German and Russian, in the language and its area civilization. (Russian 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of German and Russian for permission to take these examinations.

SPANISH MINOR

FOR ELEMENTARY TEACHING

The minor in Spanish for elementary teaching consists of not less than 20 units in Spanish, six units of which must be in upper division courses.

Proficiency Examinations: Before taking a student teaching assignment in the language, the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of Spanish and Portuguese, in the examination in the area civilization. (Spanish 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of Spanish and Portuguese for permission to take these examinations.

SPEECH AND DRAMA MINOR

FOR ELEMENTARY TEACHING

Students taking this minor in speech and drama for elementary teaching will take Speech Arts 3 or 4 for the general education requirements. The minor in speech and drama for elementary teaching consists of 25 units to include 16 lower division units selected with approval of the departmental adviser or drama units selected with approval of the departmental adviser in speech from courses approved for the speech arts teaching major; and nine upper division units approved for the speech arts teaching major. This teaching minor in speech and drama may be used for the bachelor's degree as a minor in speech arts by students in Teacher Education.
School of Education

SPECIALIZED PREPARATION

AS A SUBSTITUTE FOR A MINOR

Specialized preparation in one of the areas listed below may be substituted for a minor for elementary, secondary, or junior college teaching. These programs are described later in this section of the catalog, under the title: Specialized Preparation. The following programs are offered:

(a) Librarian. Specialized preparation to serve as a school librarian and to teach librarianship may be substituted for a minor, but only if the major is in an academic subject matter area.

(b) Teacher of Exceptional Children in one of the following areas: (1) Mentally Retarded or (2) Speech and Hearing Handicapped. Specialization in one of these areas may be substituted for a minor, but only if the major is in an academic subject matter area.

STANDARD TEACHING CREDENTIAL—SECONDARY

GENERAL REQUIREMENTS

To be recommended by San Diego State College for the Standard Teaching Credential with specialization in secondary teaching, an applicant shall have completed successfully a program including the following requirements:

I. Four years, or the equivalent, of college or university education with a baccalaureate or higher degree from an approved institution.

II. A fifth year of postgraduate education taken at the upper division or graduate level.

III. Forty-five semester units in general education as outlined in the preceding section on General Education.

IV. One of the minors specified for secondary teaching.

V. One of the minors specified for secondary teaching, or specialized preparation to serve as (1) a librarian or a teacher of librarianship, or (2) a teacher of exceptional children. (When the major is in a nonacademic subject, the minor must be in an academic subject.)

VI. The following professional courses in education: Education 100, 110, 121, 180A-B-C-D, and 252 (24 units). Also required is Health Education 151 (2 units).

MAJORS AND MINORS FOR SECONDARY TEACHING

Candidates for the Standard Teaching Credential with specialization in secondary teaching must complete one major and one minor in addition to the required courses in professional education.

MAJOR

Majors for secondary teaching available at this college are described below. Although these teaching majors need not be completed until the end of the postgraduate year, most students will need to complete an undergraduate major applicable toward a bachelor's degree.

Students in Teacher Education at the time of graduation who complete the teaching major in the undergraduate program, including prerequisites, will normally meet the requirements for the corresponding major for a bachelor's degree. Any exceptions are noted in the description of the teaching major.

LIST OF MAJORS

Majors will be selected from the following list:

Art
Biology
Business Education
Chemistry
Economics
English
French
Geography
German
Health Sciences

LIST OF MINORS

Minors will be selected from the following list:

Art
Biology
Business Education
Chemistry
Economics
English
French
Geography
German
Health Sciences
History
Industrial Arts
Italian
Mathematics
Music
Physical Education (Men)
Physical Education (Women)

MINOR:

Minors for secondary teaching available at this college are described below. Although these teaching minors need not be completed until the end of the postgraduate year, many students will need to complete an undergraduate minor applicable toward a bachelor's degree.

Students in Teacher Education at the time of graduation who complete the teaching minor in the undergraduate program will normally meet the requirements for the corresponding minor for a bachelor's degree. Any exceptions are noted in the description of the teaching minor.

DESCRIPTION OF MAJORS FOR SECONDARY TEACHING

ART MAJOR

FOR SECONDARY TEACHING

Postgraduate Year. Six units of upper division or graduate art electives, acceptable toward the credential, selected after faculty evaluation of undergraduate work.

Degree Requirements. A minor is not required with this major for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.
School of Education

BIOLOGY MAJOR

FOR SECONDARY TEACHING

Prerequisites. Biology 1, 2, and 15; Botany 50 and 51; Chemistry 1A, 1B, and 12; Physics 2A and 2B; Zoology 50 and 60. (44 units.)

Teaching Major (Undergraduate). A minimum of 24 upper division units to include Biology 101, 110, and 155; Microbiology 101; one course selected from Biology 111, Botany 114, 119-S, Zoology 112, 114, 119-S; and four additional units in biology, botany, microbiology, or zoology.

Postgraduate Year. Six units of courses acceptable for graduate credit on a master's degree program, to be selected from courses in the biology subject matter area.

Degree Requirements. Students in Teacher Education using this teaching major for a bachelor's degree will be graduated with a major in biology with the A.B. degree in applied arts and sciences. A minor is not required for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

BUSINESS EDUCATION MAJOR

FOR SECONDARY TEACHING

Prerequisites. Business Administration 1A, 1B, 10A, 10B, 73, 74, 80; Economics 1A, 1B, 2, and Mathematics 7 and 20. (29 units.) Demonstration of proficiency in typing is required. Students who expect to use Economics 1A and/or Business Administration 10A to meet general education requirements must complete compensating units in courses outside business administration and economics.

Teaching Major (Undergraduate). Twenty-five units to include Business Administration 102, 127, 132, 135, 150, 184, 185, and 186. In addition, students must complete the courses in one of the areas of concentration:

1. Office Administration: Thirteen upper division units, in addition to the courses listed above, to include Business Administration 100 and 164, and six units selected from Business Administration 120, 128, 145, 151, 182, 189.

2. Executive Secretary: Business Administration 72 and 75B, and 12 upper division units to include Business Administration 183 and nine units selected from Business Administration 120, 128, 145, 164, 182, 189.

Postgraduate Year. Six upper division or graduate units acceptable toward the credential.

Degree Requirements. Students in Teacher Education wishing to use this teaching major for the bachelor's degree will be graduated with a major in office management, providing they complete, in addition to the above, those general electives required by the Department of Business Education in the School of Business Administration. A minor is not required for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

CHEMISTRY MAJOR

FOR SECONDARY TEACHING

The major in chemistry for secondary teaching requires an undergraduate major in chemistry. All courses for the teaching major must be approved by the chemistry advisor for teaching programs.

Postgraduate Year. Six units of graduate work in chemistry (unless the six units are taken in the minor).

ECONOMICS MAJOR

FOR SECONDARY TEACHING

Prerequisites. Economics 1A-1B or 103A-103B, and 2. (9 units.)

Teaching Major (Undergraduate). A minimum of 24 upper division units in economics to include Economics 100A-100B. Economics 103A-103B may not be used to fulfill minimal upper division requirements in the major.

Postgraduate Year. Six units of graduate courses in economics to be selected with the approval of the department adviser.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor's degree must complete 12 units of acceptable courses in one foreign language (or equivalent). A minor in another field is required for the degree. The minor may be selected from the approved teaching minors with approval of the adviser in economics.

ENGLISH MAJOR

FOR SECONDARY TEACHING

Prerequisites. Twelve units of lower division English, to include English 56A and 56B and six units selected from courses numbered 50 and above.

Teaching Major (Undergraduate). A minimum of 24 upper division units in English, selected with approval of the departmental adviser, to include English 191, three units from English 117A, 117B; six units from English 130, 131, 132, 133, 134, 135; nine units of British literature exclusive of Shakespeare, to include at least three units in literature before 1800 (chosen from 116A, 116B, 118A, 118B, 120A, 120B, 143A, 143B); and at least three units in literature after 1800 (chosen from 119A, 119B, 120A, 120B, 129A, 129B, 143B); and three units from English 141, 193A, 193B, 198. In addition, English 192 (which may be taken either before or after graduation), Education 121B, and Education 122 are required.

Postgraduate Year. Nine upper division or graduate units in literature of which at least three units must be in British literature. English 290 (Bibliography) and at least one seminar must be included in these nine units. With adviser's approval, English 390 may be taken concurrently with the first seminar the student elects.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor's degree must complete 12 units of acceptable courses in one foreign language (or equivalent). A minor is not required for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

FRENCH MAJOR

FOR SECONDARY TEACHING

Prerequisites. French 1, 2, 3, 4 (or equivalents), 10, and 11. (20 units.)

Teaching Major (Undergraduate). A minimum of 24 upper division units in French to include French 101A, 101B, 102A, 102B, 122, 140, 141. Six upper division units of French in the period literature of the language.

Proficiency Examinations. Before taking a student teaching assignment in the French language (Education 180C, 180D), the candidate for the credential must pass proficiency examinations in oral and written, administered by the Department of French and Italian. Students must take these examinations before taking a student teaching assignment in the language.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor's degree must complete a minor in another field approved by the adviser in French. The minor may be selected from the teaching minors.
School of Education

GEOGRAPHY MAJOR

FOR SECONDARY TEACHING

Prerequisites: Geography 1, 2, 3, 60; and Geology 1A. (16 units)

Teaching Major (Undergraduate). A minimum of 24 upper division units in geography to include 106, 107, 180, 181A, and 12 units of electives in geography.

Postgraduate Year. Six upper division or graduate units acceptable toward the credential, to be selected with the help of the departmental advisor.

Degree Requirements. Students in Teacher Education using this teaching major must complete 12 units of acceptable courses in one foreign language (or equivalent). A minor in another field is required for the degree.

The minor may be selected from the approved teaching minors with the approval of the departmental advisor.

GERMAN MAJOR

FOR SECONDARY TEACHING

Prerequisites. German 1, 2, 3, 4 (or equivalents), 10, and 11. (20 units)

Teaching Major (Undergraduate). A minimum of 24 upper division units in German to include German 101A, 101B, 102A, 102B, 122, 140, 141, and six upper division units in German in the period literature of the language.

Proficiency Examination. Before taking a student teaching assignment in the proficiency examinations, oral and written, administered by the Department of German, the candidate for the credential must pass the German and Russian, in the language and its area civilization. German 40-44 or 140-141 consists with the chairman of the Department of German and Russian for permission to take these examinations.

Postgraduate Year. Six units of graduate courses in German.

Degree Requirements. Students in Teacher Education using this teaching major must complete a minor in another field approved by the advisor in German. The minor may be selected from the teaching minors.

HEALTH SCIENCES MAJOR

FOR SECONDARY TEACHING

Prerequisites: Health Education 29, 65; Biology 1, Home Economics 4A; Zoology 8, and either Zoology 9 or 22 and 23; Sociology 1 and 15. (23 units)

Teaching Major (Undergraduate). A minimum of 36 upper division units to include Health Education 100, 145, 146, 151, 153, 160 or 169, 176 or 192; Psychology Education and closely related fields.

Postgraduate Year. Six units of postgraduate courses in the major or minor acceptable toward the credential.

Degree Requirements. Students in Teacher Education using this teaching major for a bachelor's degree will be graduated with a major in health education with the however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

HOME ECONOMICS MAJOR

FOR SECONDARY TEACHING

Prerequisites. Home Economics 2, 3, 15, 35, 40, 45, 70; Art 2A, Anthropology 1C, Biology 1, Chemistry 2A-2B, Economics 1A, Physics 5, and Sociology 1. (25 units)

Teaching Major (Undergraduate). A minimum of 25 upper division units in home economics to include Home Economics 100, 115, 131, 152, 170, 171, and eight units of home economics electives.

Postgraduate Year. Six upper division or graduate units in home economics acceptable toward the credential and selected with approval of the advisor.

Degree Requirements. A minor is not required for this major for the degree; however, a minor in the areas listed above or from industrial arts courses, or psychology, or comprehensive industrial arts.

INDUSTRIAL ARTS MAJOR

FOR SECONDARY TEACHING

Prerequisites. Industrial Arts 11, plus 15 units selected from Industrial Arts 21, 31, 51, 61, 71, 81, and 85. (17 units)

Teaching Major (Undergraduate). A minimum of 24 upper division units in industrial arts to include nine units in each of two of the following areas of concentration: Industrial drawing, general metalworking, general woodworking, electricity-electronics, graphic arts, or transportation; and six additional units to be selected from the areas listed above or from industrial arts crafts, or photography, or comprehensive industrial arts.

Postgraduate Year. Two of the following courses, selected in the same two areas used for the nine-unit areas of concentration in the undergraduate major: Industrial Arts 202, 203, 205, 206, 207, 208.

Degree Requirements. A minor is not required for this major for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

MATHEMATICS MAJOR

FOR SECONDARY TEACHING

Prerequisites: Mathematics 40 (unless exempted by examination); Mathematics 50, 51, and 52. (15-18 units) Recommended: Physics 4A-4B-4C.
Teaching Major (Undergraduate). A minimum of 24 upper division units in mathematics to include Mathematics 101, 104, 150A, a geometry course and a statistics course. Mathematics 121A is recommended. The major may include six units of acceptable related area courses approved by the departmental adviser.

Postgraduate Year. Six upper division or graduate units acceptable toward the credential, to be selected with approval of the departmental adviser.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor's degree may take the degree in applied arts and sciences or in liberal arts and sciences. Students taking the degree in liberal arts and sciences must complete 12 units of acceptable courses in one foreign language (or equivalent). A minor is not required with the mathematics major for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

MUSIC MAJOR

FOR SECONDARY TEACHING

Prerequisites. Music 9A, 9B, 9A, 9B, 10A-B-C-D, 15A, 15B, 52; eight units selected from courses numbered 70 through 86; four units selected from courses numbered 20 through 30; and four units in the major instrument (37 units.)

Teaching Major (Undergraduate). Twenty-nine units to include Music 108, 109A; three units selected from courses numbered 120 through 135; Music 146A, 146B, 152A, 152B; six units selected from courses numbered 170 through 188; three units in the major instrument; four units of upper division music electives, and Ed 128.

Proficiency Examination. In addition to the major, the credential candidate must pass a departmental proficiency examination in piano and voice, to include the following: (a) Piano: Specific requirements may be obtained in the Music Department Office. (b) Voice: Ability (1) to sing at least one song representative of each of the following periods of vocal literature: classic, romantic, modern; (2) to sing at sight any part of a four-part hymn.

Postgraduate Year. Students in Teacher Education completing this teaching major, including prerequisites, in the undergraduate program may use the teaching major as a major in music for the A.B. degree in applied arts and sciences by completing additional departmental requirements in recital attendance and performance, and proficiency examinations in voice and piano.

PHYSICAL EDUCATION MAJOR (MEN)

FOR SECONDARY TEACHING

Prerequisites. Physical Education 70, 71, 72, 73, 74, 75, 76A, 76B, 77; Zoology 8 and 22 (16 units).

Students may be excused from skills courses, Physical Education 71 through 76B, by passing a competency test for the activity concerned. Major students are expected to take Conditioning in a regularly scheduled activity course. Credit in four semesters of activity courses are required for graduation.

Teaching Major (Undergraduate). A minimum of 25 upper division units to include Physical Education 162, 164, 167, 168, 169, 171, 172, 173, 174, 175, 176, 177; Recreation 170; and three additional units of upper division electives in physical education, health education, or recreation.

Postgraduate Year. Physical Education 201, 202, and 203. (9 units.)

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor's degree are required to complete a minor in another field. The minor may be selected from one of the teaching minors, with approval of the adviser in physical education.

PHYSICAL EDUCATION MAJOR (WOMEN)

FOR SECONDARY TEACHING

Teaching Major (Undergraduate). Twenty-eight upper division units to include Physical Education 151, 152, 154, 155, 156, 160, 162, 167, 168, and 172.

Postgraduate Year. Six units of 200-numbered courses approved by the departmental adviser.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor's degree are required to complete a minor in another field. The minor may be selected from one of the teaching minors, with approval of the adviser in physical education.

PHYSICAL SCIENCES MAJOR

FOR SECONDARY TEACHING

The teaching major in the physical sciences for secondary teaching requires an undergraduate major in physical science, or equivalent. (Refer to the physical science major in applied arts and sciences for a description of requirements.)

The physical sciences teaching major requires a minimum of 24 upper division units, 13 units of which must be in chemistry or physics. This requirement can be met in the undergraduate program as part of the physical science major, or may be completed in the postgraduate year. All courses for the teaching major must be approved by the adviser in the physical sciences for teaching programs.

Postgraduate Year. In the postgraduate year the credential candidate must complete a minimum of six upper division or graduate units in the major or minor. Courses in the major must be approved by the adviser in the physical sciences for teaching programs.

Degree Requirements. Students in Teacher Education using this teaching major for a bachelor's degree will be graduated with a major in physical science with the A.B. degree in applied arts and sciences. A minor is not required for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

PHYSICS MAJOR

FOR SECONDARY TEACHING

The major in physics for secondary teaching requires an undergraduate major in physics. All courses in the teaching major must be approved by the adviser in physics for teaching programs.

Postgraduate Year. Six units of graduate work in physics (unless the six units are taken in the minor).

PSYCHOLOGY MAJOR

FOR SECONDARY TEACHING

Prerequisites. Psychology 40 and 50.

Teaching Major (Undergraduate). A minimum of 24 upper division units in psychology include Psychology 105, 110, 131, 151, and twelve upper division units in psychology selected with approval of the departmental adviser.

Postgraduate Year. Six units of postgraduate courses acceptable toward the credential, to include Psychology 201.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor's degree may take the degree in applied arts and sciences or in liberal arts and sciences. Students taking the degree in liberal arts and sciences must complete 12 units of acceptable courses in one foreign language (or equivalent). A minor is not required with the psychology major for the degree; however, required for the credential.
RUSSIAN MAJOR

FOR SECONDARY TEACHING

Prerequisites. Russian 1, 2, 3, 4 (or equivalents), 10, and 11. (20 units.)

Teaching Major (Undergraduate). A minimum of 24 upper division units in Russian to include Russian 101A, 101B, 102A, 102B, 122, 140, 141, and six upper division units of Russian in the period literature of the language.

Proficiency Examinations: Before taking a student teaching assignment in the language (Education 180C, 180D), the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of German and Russian, in the language and its area civilization. (Russian 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of German and Russian for permission to take these examinations.

Postgraduate Year. Six units of graduate courses in Russian.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor’s degree must complete a minor in another field approved by the adviser in Russian. The minor may be selected from the teaching minors.

SOCIAL SCIENCES MAJOR

FOR SECONDARY TEACHING

Prerequisites. A six-unit sequence in each of three of the following fields: (1) anthropology, (2) economics, (3) geography, (4) history, (5) political science, and (6) sociology. Courses recommended for these sequences are as follows: Anthropology 1A-1B, Economics 1A-1B, Geography 1 and 2, History 4A-4B or 8A-8B, Political Science 1 and 2, Sociology 1 and 10. (18 units.)

Teaching Major (Undergraduate). Thirty upper division units to include 15 units from any field named above; six units from each of two additional fields named above; and three units of electives from any of the fields named above. The major must include six units in U.S. history in either lower or upper division and three units in a fourth field, selected from the social science fields named above. (A total of 24 units in one field, including prerequisites and courses in the major, is required for the credential.)

Postgraduate Year. Six upper division or graduate units to be selected with approval of an adviser for the social sciences major.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor’s degree will be graduated with a major in social science. The degree may be taken in applied arts and sciences or in liberal arts and sciences. Students in liberal arts and sciences must complete 12 units of acceptable courses in one foreign language (or equivalent). A minor is not required with the social science major for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

SPANISH MAJOR

FOR SECONDARY TEACHING

Prerequisites. Spanish 1, 2, 3, 4 (or equivalents), 10, and 11. (20 units)

Teaching Major (Undergraduate). A minimum of 24 upper division units in Spanish to include Spanish 101A, 101B, 102A, 102B, 122, 140, 141, and six upper division units of Spanish in the period literature of the language.

Proficiency Examinations: Before taking a student teaching assignment in the language (Education 180C, 180D), the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of Spanish and Portuguese in the language and its area civilization. (Spanish 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of Spanish and Portuguese for permission to take these examinations.

Postgraduate Year. Six units of graduate courses in Spanish.

Degree Requirements. Students in Teacher Education using this teaching major for the bachelor’s degree must complete a minor in another field approved by the adviser in Spanish. The minor may be selected from the teaching minors.

SPEECH AND DRAMA MAJOR

FOR SECONDARY TEACHING

Students electing this teaching major will take Speech Arts 4 instead of Speech Arts 3 to meet the general education requirements.

Prerequisites. Speech Arts 11A or 11B, 55A or 55B, 56, 60A or 60B, 63, 70, 86, and three units selected from Speech Arts 1, 5, 8, 11A or 11B, 55A or 55B, 60A or 60B. (21 units)

Teaching Major (Undergraduate). Twenty-nine upper division units in speech arts to include the following: Speech Arts 100, 101, 140A, 154A or 154B, 159, 160, 169, 191, 192A or 192B; and six units selected from Speech Arts 108, 110, 116, 118A, 130, 140B, 141-S, 145, 152, 154A or 154B, 155, 156, 162, 164, 192A, 192B.

Postgraduate Year. In the postgraduate year the credential candidate must complete six upper division or graduate units (unless taken in the minor) selected from the following courses: Speech Arts 108, 116, 118A, 118B, 130, 145, 152, 154A, 154B, 155, 156, 162, 164, 185, 192A, 192B, or any 200-numbered course in speech arts approved by the adviser.

Degree Requirements. Students in Teacher Education using this teaching major for the A.B. degree will graduate with a major in speech arts in applied arts and sciences. A minor is not required for the degree; however, a teaching minor, which may be completed in the undergraduate program, is required for the credential.

DESCRIPTION OF MINORS FOR SECONDARY TEACHING

ART MINOR

FOR SECONDARY TEACHING

The teaching minor in art for secondary teaching consists of the following: in the lower division, Art A, B, 2A, 2B, 15A, 16A, 50A, and 50B; in the upper division, Art 156 (or one of the following: Art 153, 154, 155); and six units from Art 106A, 115A, 116A, 117A, 119A, 126A, 156. (27 units)

BIOLOGY MINOR

FOR SECONDARY TEACHING

The minor in biology for secondary teaching consists of Chemistry 1A-1B, and Biology 1, 2, and 15; in the upper division, Biology 101, 110, and 155.

BUSINESS EDUCATION MINOR

FOR SECONDARY TEACHING

The teaching minor in business education for secondary teaching consists of not less than 21 units, exclusive of course equivalents. This minor includes the following courses: Business Administration 1A, 1B, 72, 73, 74; nine upper division units including Business Administration 189; and three additional lower or upper division units selected in consultation with the adviser in business education.

CHEMISTRY MINOR

FOR SECONDARY TEACHING

The minor in chemistry for secondary teaching consists of not less than 20 units in chemistry, six units of which must be in upper division courses. All courses must be approved by the chemistry adviser for teaching programs.
School of Education

ECONOMICS MINOR

FOR SECONDARY TEACHING

The minor in economics for secondary teaching consists of not less than 21 units to include Economics 1A-1B and 15 upper division units in economics courses selected with approval of the departmental adviser.

ENGLISH MINOR

FOR SECONDARY TEACHING

The minor in English for secondary teaching consists of 27 units to include the following:

Lower Division: English 1A and a year course chosen from English 50A-50B, 56A-56B, or 60A-60B. (9 units.)

Upper Division: Eighteen units of upper division courses in English to include English 191, 192, and at least one course from each of the following areas: Nineteenth Century English Literature, selected from English 119A, 119B, 126A, 126B, or 143B; Shakespeare, selected from English 117A or 117B; American Literature, selected from English 131, 132, 133, 134, or 135; and three units of electives in upper division English.

Education 122 is required in addition to the minor.

FRENCH MINOR

FOR SECONDARY TEACHING

The minor in French for secondary teaching consists of not less than 20 units in French, exclusive of course equivalents, to include in the lower division, French 1, 2, 3, 4, 10, and 11 (or equivalents); and in the upper division, French 101A, 101B, 102A, 102B, and 122.

Proficiency Examinations. Before taking a student teaching assignment in the language (Education 180C, 190B), the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of French and Italian, in the language and its area civilization. (French 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairperson of the Department of French and Italian for permission to take these examinations.

 GEOGRAPHY MINOR

FOR SECONDARY TEACHING

The minor in geography for secondary teaching consists of not less than 20 units in geography to include in the lower division, Geography 1, and either 2 or 60 (Geography 112A-112B may be substituted); and in the upper division, at least nine units of upper division courses in geography (exclusive of Geography 112A-112B). Additional geography electives must be taken to complete the minimum of 20 units.

GERMAN MINOR

FOR SECONDARY TEACHING

The minor in German for secondary teaching consists of not less than 20 units in German, exclusive of course equivalents, to include in the lower division, German 1, 2, 3, 4, 10, and 11 (or equivalents); and in the upper division, German 101A, 101B, 102A, 102B, and 122.

Proficiency Examinations: Before taking a student teaching assignment in the language (Education 180C, 180D), the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of German and Russian, in the language and its area civilization. (German 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairperson of the Department of German and Russian for permission to take these examinations.

MATHEMATICS MINOR

FOR SECONDARY TEACHING

The minor in mathematics for secondary teaching consists of not less than 21 units, exclusive of course equivalents to include in the lower division, Mathematics 50 and 51; one course in related upper division, nine units in mathematics to include Mathematics 104 and six units

HEALTH SCIENCES MINOR

FOR SECONDARY TEACHING

The minor in health sciences for secondary teaching consists of 21 units to include Health Education 21, 29, and 65; and in the upper division 15 units to include Education 100, 145, 146, 151, and Education 121P. Courses should be selected in consultation with the departmental adviser in health education. Students in Teacher Education using this teaching minor for the degree will be graduated with a minor in health education.

HISTORY MINOR

FOR SECONDARY TEACHING

The minor in history for secondary teaching consists of a minimum of 21 units to include the following courses: in the lower division, History 4A-4B, or 8A-8B, or 17A-17B; and 15 additional units in History to include not less than 12 upper division units selected with the approval of the adviser.

HOME ECONOMICS MINOR

FOR SECONDARY TEACHING

The minor in home economics for secondary teaching consists of 24 units to include, in the lower division, Home Economics 1, 15, 35, 70; and in the upper division, Home Economics 150, 170, 171, and five units of upper division electives in home economics.

INDUSTRIAL ARTS MINOR

FOR SECONDARY TEACHING

The minor in industrial arts for secondary teaching consists of 26 units to include Industrial Arts 11 and nine units selected from the following lower division courses: Industrial Arts 21, 31, 35, 61, 81, 85; and in the upper division, two of the following two-course sequences: Industrial Arts 121 and 123, 131 and 133, 151 and 153, 161 and 163, 171 and 173, 181 and 183, 185 and 186, 101 and 102, 111 and 112.

ITALIAN MINOR

FOR SECONDARY TEACHING

The minor in Italian for secondary teaching consists of not less than 20 units in Italian, exclusive of course equivalents, to include in the lower division, Italian 1, 2, 3, 4, 10, and 11 (or equivalents); and in the upper division, Italian 101A, 101B, 102A, 102B, and 122.

Proficiency Examinations: Before taking a student teaching assignment in the language (Education 180C, 180D), the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of French and Italian, in the language and its area civilization. (Italian 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairperson of the Department of French and Italian for permission to take these examinations.

School of Education
School of Education

MUSIC MINOR
FOR SECONDARY TEACHING

The minor in music for students with specialization in secondary teaching consists of 26 units to include the following requirements:

General Basic Requirement. Demonstration of vocal or instrumental performing ability by placement audition before admission to the minor program may be granted.

Upper Division. Music 146A-146B, four units in the major instrument, three units of music organization courses 170-188, and 3-6 units selected from Music 120A, 120B, 125A, 125B, 130A, 130B, and 135.

PHYSICAL EDUCATION (MEN) MINOR
FOR SECONDARY TEACHING

The minor in physical education (men) for secondary teaching consists of 21 units to include, in the lower division, Physical Education 70, 71, 72, 73, 74, 75, 76A, 76B, 77; and in the upper division, 12 upper division units in physical education approved by the adviser in physical education.

PHYSICAL EDUCATION (WOMEN) MINOR
FOR SECONDARY TEACHING

The minor in physical education (women) for secondary teaching consists of a minimum of 25 units to include the following: In the lower division, Physical Education 1A, 2A, 2B, 3A, 3B, 4A, 4B, 11, 13A, 14A, 16A, 18A, 16A-56B, and 62; in the upper division, 15 upper division units in Physical Education to include Physical Education 151 or 154, and 155 or 156.

PHYSICS MINOR
FOR SECONDARY TEACHING

The minor in physics for secondary teaching consists of not less than 20 units in physics. All courses must be approved by the adviser in physics for teaching programs. Students in Teacher Education using this teaching minor for the degree must include at least six upper division units in physics.

POLITICAL SCIENCE MINOR
FOR SECONDARY TEACHING

The minor in political science for secondary teaching consists of not less than 20 units to include six units of lower division work and the remaining fourteen or more units in upper division courses under advisement.

PSYCHOLOGY MINOR
FOR SECONDARY TEACHING

The minor in psychology for secondary teaching consists of 21 units to include in the lower division, Psychology 1 and one other three-unit course in psychology; and in the upper division, Psychology 106, 131, 145, and six units of electives from upper division psychology courses.

RUSSIAN MINOR
FOR SECONDARY TEACHING

The minor in Russian for secondary teaching consists of not less than 20 units in Russian, exclusive of course equivalents, to include in the lower division, Russian 1, 2, 3, 4, 10, and 11 (or equivalents); and in the upper division, Russian 101A, 101B, 102A, 102B, and 122.

* May be waived in part or in full by examination, units waived to be used in courses 120A through 135.

Proficiency Examinations: Before taking a student teaching assignment in the language (Education 180C, 180D), the candidate for the credential must pass proficiency examinations, oral and written, administered by the Department of German and Russian, in the language and its area civilization. (Russian 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of German and Russian for permission to take these examinations.

SPANISH MINOR
FOR SECONDARY TEACHING

The minor in Spanish for secondary teaching consists of a minimum of 20 units in Spanish, exclusive of course equivalents, to include in the lower division, Spanish 1, 2, 3, 4, 10, and 11 (or equivalents); and in the upper division, Spanish 101A, 101B, 102A, 102B, and 122.

Proficiency Examinations: Before taking a student teaching assignment in the language (Education 180C, 180D), the candidate for the credential must pass proficiency examination, oral and written, administered by the Department of Spanish and Portuguese, in the language and its area civilization. (Spanish 40-41 or 140-141 prepare for this latter examination in the area civilization.) The candidate must consult with the chairman of the Department of Spanish and Portuguese for permission to take these examinations.

SPEECH AND DRAMA MINOR
FOR SECONDARY TEACHING

Students taking this minor in speech and drama for secondary teaching will take Speech Arts 3 or 4 for the general education requirements.

The minor in speech and drama for secondary teaching consists of 25 units to include the following: 16 lower division units selected with approval of the departmental adviser from the prescribed speech and drama teaching major pattern; and nine upper division units selected with approval of the departmental adviser from courses approved for the speech and drama teaching major.

Students in Teacher Education using this teaching minor for the bachelor's degree will be graduated with a minor in speech arts.

SPECIALIZED PREPARATION
AS A SUBSTITUTE FOR A MINOR

Specialized preparation in one of the areas listed below may be substituted for a minor for elementary, secondary, or junior college teaching. These programs are described later in this section of the catalog, under the title: Specialized Preparation. The following programs are offered:

(a) Librarian. Specialized preparation to serve as a school librarian and to teach librarianship may be substituted for a minor, but only if the major is in an academic subject matter area.

(b) Teacher of Exceptional Children in one of the following areas: (1) Mentally Retarded or (2) Speech and Hearing Handicapped. Specialization in one of these subject matter areas.
STANDARD TEACHING CREDENTIAL—JUNIOR COLLEGE

GENERAL REQUIREMENTS

To be recommended by San Diego State College for the Standard Teaching Credential with specialization in junior college teaching, an applicant shall have completed successfully a program including the following requirements:

I. A master's degree, doctor's degree, or other postgraduate degree approved by the State Board of Education requiring not less than five years, or its equivalent, of college or university education secured in an approved institution. The degree shall be in a subject matter area, except that a master's degree in library science shall be accepted if the applicant has substituted for the minor specialization prepared in librarianship.

II. Forty-five semester hours in general education as outlined in the preceding section in General Education.

III. One of the majors specified for junior college teaching.

IV. One of the minors specified for junior college teaching. (When the applicant's major is not in an academic subject matter area, 12 semester hours of the minor must be in upper division or graduate courses in a single academic subject.)

V. The following professional courses in education: Education 201, 223, 251, and 316 (10 units).

SPECIALIZED PREPARATION WHICH MAY BE SUBSTITUTED FOR A MINOR

APPLICABLE TO STANDARD TEACHING CREDENTIALS WITH SPECIALIZATION IN ELEMENTARY, SECONDARY, OR JUNIOR COLLEGE TEACHING

SCHOOL LIBRARIAN

Specialized preparation to serve as a school librarian may be substituted for the minor in the Standard Teaching Credential in either elementary, secondary, or junior college teaching, when the major is in an academic subject matter area.

Requirements consist of the following: Library Science 110, 118, 119, 136, 138, 184, 231, 232; Education 183 (4 units); two courses selected from Library Science 225, 226, 227.

EXCEPTIONAL CHILDREN: AREA OF THE MENTALLY RETARDED

The program of specialized preparation to serve as a Teacher of Exceptional Children: Area of the Mentally Retarded, may be substituted for a minor for the Standard Teaching Credential in either elementary, secondary, or junior college teaching, when the major is in an academic subject matter area.

Requirements consist of the following: Education 167, 168 or 169, 171, 172, 173, 182, Psychology 109, Speech Arts 170, and two units of electives with approval of the adviser. (26 units.)

EXCEPTIONAL CHILDREN: AREA OF SPEECH AND HEARING HANDICAPPED

The program of specialized preparation to serve as a Teacher of Exceptional Children: Area of Speech and Hearing Handicapped, may be substituted for a minor for the Standard Teaching Credential in either elementary, secondary, or junior college teaching, when the major is in an academic subject matter area.

Requirements consist of the following:

Lower Division: Speech Arts 70. (3 units.)

Upper Division: Speech Arts 100, 170, 171A, 171B, 172, 173, 174, 176, 177, 178, 179A, 179B (34 units), Speech Arts 180A, 180B (6 units); and Education 167 and 184. (7 units.)

STANDARD DESIGNATED SERVICES CREDENTIAL

PUPIL PERSONNEL SERVICES

To be recommended by San Diego State College for the Standard Designated Services Credential with a specialization in Pupil Personnel Services, an applicant shall have completed successfully a program including the following requirements:

I. A master's degree in an academic subject matter area or in counseling or psychology and course work covering certain specified areas. The course work requirements may be satisfied by completion of the following courses or their equivalents: Education 167, 225A, 225B, 226, 231, 232, 233, 234, 239, and 332.

II. Sixty to seventy semester hours of postgraduate work in the area of pupil personnel services. An applicant who has had three years of successful full-time teaching experience may have the option of substituting up to thirty units of postgraduate work in areas other than pupil personnel services.

III. Four hundred and eighty clock hours of supervised field experience. An applicant who has had three years of successful full-time teaching experience may substitute this experience for one half of this requirement. An applicant who has had successful school experience as a full-time pupil personnel worker may substitute this experience at the rate of one year for one half of this requirement. This requirement may be satisfied by completion of Education 331 or equivalent.

Note: All applicants for this credential must complete I, II, and III as outlined above. Applicants who wish to obtain a credential which includes authorization work covering certain specified areas; applicants who wish to obtain a credential which must complete requirements for the psychometrist; applicants who wish to perform the services of school psychologist (a) substitute course work in other areas in satisfying the sixty unit requirement. Applicants desiring these special authorizations should consult the Coordinator of Guidance Studies for further information.
School of Education

SPECIALIZATION IN HEALTH

To be recommended by San Diego State College for the Standard Designated Services Credential with a specialization in Health, authorizing service as a school nurse, an applicant shall have completed successfully a program including the following requirements:
I. Possession of a valid certificate of public health nursing issued by the California State Board of Public Health. (Waived for applications filed prior to September 1, 1967.)
II. Five years of college or university education, including a baccalaureate degree.
III. The following professional courses: Education 111 or 113, 167, 115 or 230, Health Education 152, 153; Nursing 16, 160. (20 units.)
IV. One hundred and eighty clock hours of supervised field experience, or the authorized equivalent in terms of actual experience. (For details, see the Coordinator of the Health and Development program.)

STANDARD SUPERVISION CREDENTIAL

The Standard Supervision Credential authorizes the holder to serve as a supervisor, consultant, coordinator, or in an equivalent supervisory or intermediate administrative position at all grade levels in all areas that his credential (basic) authorizes him to teach or serve. However, to serve as a principal, his college of university preparation must include a major in an academic subject area, or a diversified major as provided for by law.

Note: By State interpretation, department heads do not need to possess the Standard Supervision Credential.

To be recommended by San Diego State College for the Standard Supervision Credential, an applicant shall have completed successfully a program including the following requirements:
I. Six years of college or university education including:
(a) A master’s degree, the nature of which is determined as follows:
(1) For students not intending to serve as administrators, i.e., principals, or vice-principals, any master’s degree will meet the State requirements for the Supervision Credential.
(2) For students planning to become principals or vice-principals, any of the following options:
(a) A master’s degree in an academic subject.
(b) A master’s degree in a nonacademic subject, for example, Business Administration, Health and Safety, and Agriculture, etc.
(c) A master’s degree in Education in a specialized field in Education such as Elementary Teaching, Counseling, School Administration, etc.

Note: If the student selects option (b) or (c), care must be exercised to fulfill the requirement for an academic major and to meet the minimum requirement of 12 semester units in academic subject area(s) taken as a graduate student. Such courses may carry either upper division or graduate designations.
II. The possession of a valid basic credential.
III. Five years of successful full-time classroom teaching experience.
IV. Admission to the program for school supervision and administration. (For details, see the Coordinator of Administrative Studies.)
V. The following professional courses:
(a) For the elementary school concentration, Standard Supervision Credential: Education 260, 261, 262, 263, 264A-B-C, and 266A-B-C.
(b) For the secondary school concentration, Standard Supervision Credential: Education 260, 261, 262, 263, 265A-B-C, and 267A-B-C.

School of Education

STANDARD ADMINISTRATION CREDENTIAL

The Standard Administration Credential is required for service as superintendent or assistant, associate, or deputy superintendent. The holder may also serve as principal or supervisor if he possesses the basic credentials required and an academic master's degree.

The rules and regulations of the State Board of Education prescribe either (a) a doctorate or (b) an academic master's degree.

At the present time, San Diego State College is not recommending for this credential. Courses required for this credential will be offered, for the present at least, on an irregular basis as demand for them occurs.

BACHELOR OF EDUCATION DEGREE

B.E. DEGREE WITH THE GENERAL ELEMENTARY OR KINDERGARTEN-PRIMARY CREDENTIAL

Provisions for the granting of the bachelor of education degree are made in the California Administrative Code, Chapter 5, Section 40592. In addition to the outline below, the student must complete the graduation requirements listed in the section of this catalog on Graduation Requirements.

PURPOSE OF THE DEGREE

The purpose of this degree is to increase the professional competence of the individual as an elementary teacher in the California public schools. Through the curriculum provided, the applicant is guided into those learning experiences which best meets his cultural and professional needs on the basis of his previous preparation and of the services he is to render.

ELIGIBILITY FOR CANDIDACY

To be eligible to enter the program for this degree at San Diego State College the applicant must obtain full admission to the college, be admitted to the teacher education program of the college, must have completed a minimum of 60 semester units of standard college work acceptable toward the degree, and must hold a basic credential.

RESIDENCE REQUIREMENTS

A minimum of 24 semester units shall be earned in course work at San Diego State College (exclusive of credit-by-examination). Twelve of the 24 units must be in residence courses and must be secured after the candidate has earned at least 90 semester units.

REQUIREMENTS FOR THE DEGREE

The candidate must complete a four-year college course of 124 semester units as defined by the college, must meet the grade requirements established by the college for a bachelor's degree and credential, and must include in his program the following requirements:

1. General education
   (a) Social sciences
   Shall include required instruction in American history, institutions and ideals; U.S. Constitution; and California state and local governments; and courses selected from the fields of anthropology, economics, geography, history, political science, sociology, and similar fields. Courses must be selected from two or more of these fields.

2. Natural sciences
   Shall include the fields of astronomy, biology, botany,
School of Education

chemistry, geology, physics, physiology, zoology, and similar fields. At least one course must be selected from a physical science and one from a life science.

(c) Literature, philosophy or the arts. Courses in fine and practical arts shall not exceed 3 of these 6 units.

(d) Health and physical education 2

(e) Oral and written expression 3

(f) Psychology 2

(g) Additional units in general education 14

May be selected in whole or in part from the foregoing six general areas or may include courses in family life education or mathematics or not more than 6 units in foreign language. At least one course in general education must include instruction in fire prevention.

(2) Teaching background, minimum 15 units

In addition to the 45 semester units required in general education, the teaching background in subject fields shall be selected according to the needs of the applicant, as prescribed by the teacher education department, with not less than 2 semester units in each of at least four of the following fields:

(a) Art. Includes subject matter, laboratory or activity in the graphic or industrial arts.

(b) English and speech. Includes oral and written expression, American or world literature, children's literature, dramatics, or use of books and libraries.

(c) Physical education, health, and hygiene. Includes personal hygiene, first aid, health education, games, rhythms, or physical activities.

(d) Mathematics.

(e) Music.

(f) Social science, including geography.

(g) Natural science.

(3) Major in elementary education 24 units

Shall include courses from each of the following areas:

(a) General elementary school methods or methods of teaching basic elementary school subjects.

(b) Principles of elementary education or elementary school curriculum.

(c) Child psychology or child growth and development.

(d) Other appropriate professional courses in education including instruction in the use and educational value of audio and visual aids.

(4) Credit for teaching experience 8 units

A maximum of 8 semester units may be allowed for directed teaching and/or teaching experience on the elementary school level. Credit for teaching experience may be allowed at the rate of four units for one year of verified successful teaching experience.

(5) Additional units required 32 units

Courses to complete the 124 units required for the degree shall be selected from the offerings of the college that best serve the cultural and professional needs of the candidate.

Total 124 units

CREDIT-BY-EXAMINATION

A maximum of 30 units may be secured by examination in subjects included in the fields of study mentioned above. Students requesting credit-by-examination must comply with the provisions of the college established for this purpose. Refer to the section of this catalog on General Regulations, Credit-by-Examination.

School of Education

BACHELOR OF VOCATIONAL EDUCATION DEGREE

ELIGIBILITY

The purpose of this degree is to promote the professional advancement of the vocational teachers in California. Eligible candidates for this degree shall be limited to those vocational teachers who meet the requirements established in the California Administrative Code, Chapter 5, Section 4003, and who are recommended by the Board of Examiners for Vocational Teachers.

MAJOR

The major in vocational arts consists of at least 24 upper division units to include the credits recommended by the Board of Examiners for Vocational Teachers for the applicant's occupational, managerial, and supervisory experience, and additional courses, if needed, to complete the minimum of 24 upper division units, to be selected with approval of the administrative dean of the School of Education.

The professional courses in teacher education completed by the applicant may be used toward electives.

GRADUATION REQUIREMENTS

Graduation requirements for this degree are the same as those for the A.B. degree in applied arts and sciences. Refer to the section of this catalog on Graduation Requirements for more complete information. Further information on this degree may be obtained from the administrative dean of the School of Education.
SCHOOL OF ENGINEERING

ACREDITATION

The undergraduate curriculum in Engineering, with options in aerospace, civil, electrical and electronic, and mechanical engineering, is accredited by the Engineers' Council for Professional Development.

COURSES IN ENGINEERING

The School of Engineering offers courses at the undergraduate and graduate level. These individual courses are described in the section of this catalog on Announcements of Courses. At the undergraduate level, the School prescribes certain patterns of its courses, combined with those of other academic divisions of the college, as a program of 132 semester units leading to the degree, Bachelor of Science in Engineering. This program is described in detail below. At the graduate level, the School offers the Master of Science degree in specific major fields of engineering.

GRADUATE PROGRAM

The Master of Science degree is offered in aerospace, civil, electrical, and mechanical engineering. For further information, refer to the Graduate Bulletin and to the section in this catalog on the Graduate Division.

UNDERGRADUATE PROGRAM

The objective of the engineering program at San Diego State College is to provide the intellectual and physical environment best calculated to encourage students to develop their capacities toward a successful career in the profession of engineering. The graduate of this program is able to assume personal responsibility for the development and application of engineering knowledge with wisdom and judgment for the benefit of mankind. He is qualified to take the Engineer-In-Training examination as a first step to professional registration, to enter industry at the junior engineer level, or to continue his formal education at the graduate level. Because the engineer's work is predominantly intellectual and varied, and not of a routine mental or physical character, this program places emphasis upon the mastery of a strong core of subject matter in the physical sciences, mathematics, and the engineering sciences of broad applicability. Woven throughout the pattern is a continuing study of the socio-humanistic facets of our civilization, because the engineering graduate must expect to find his best expression as a leader of men, conscious of the social and economic implications of his decisions.

Although the profession of engineering presents in practice a variety of specialties, the undergraduate student confines his attention during the first two years of the four-year program to a common pattern of course work in fundamentals. During his junior and senior years he may give outlet to his interest in a broad field of engineering by electing a total of 29 units of course work in aerospace, civil, electrical and electronic, or mechanical engineering. Even here, during this upper division work, the student is involved with his fellow in the study of a common core of the engineering sciences; these courses, together with those elected in a specialty field, are taught with an emphasis upon universal application and cross-fertilization of thought.

School of Engineering

High School Preparation

The program of 132 semester units prescribed by the School of Engineering for the bachelor of science degree assumes that the entering student brings a high school preparation which includes physics, chemistry, geometry, trigonometry, two years of algebra, and mechanical drawing. Some remedial courses in these areas may be selected in the college, although delay in graduation usually results. Students with deficiencies are urged to consider enrolling in the Summer Sessions.

Placement examinations are specifically required in mathematics and in drawing, in addition to the qualifying examinations taken by all applicants for admission as freshmen to the college.

REQUIREMENTS FOR THE B.S. DEGREE IN ENGINEERING

Graduation Requirements

1. A minimum of 132 semester units for the B.S. degree in engineering.
2. At least 24 units earned in residence, half of which must be completed among the last 20 units counted toward the degree.
3. A scholastic grade point average of 2.0 (grade of C on a four-point scale) or better in (a) all units attempted, (b) all units in the major, and (c) all units attempted at this college.
4. At least 36 upper division units.
5. A major in engineering as prescribed by the School.
6. Satisfactory completion of competency tests in mathematics, speech, and writing, or completion of appropriate courses designated in lieu thereof.
7. All regulations established by the college.
8. American institutions, to include competence in American history, literature, and ideals; U.S. Constitution; and California state and local government.
9. 45 units in general education courses in addition to the major, distributed as prescribed in the section of this catalog on Graduation Requirements.
10. Application for graduation.

MAJOR IN ENGINEERING

The major in engineering consists of a pattern of prescribed upper division courses totaling 53 units, to include the requirements for all students and the requirements in the student's selected field of specialization. Courses in the major are in addition to 45 units of general education. A minor is not required. (For additional information on general education and requirements for the degree, refer to the section of this catalog on Graduation Requirements.)

Also required as preparation for the major are the lower division prerequisite and related courses prescribed by the School. These courses may be counted in general education if applicable.

MINOR IN ENGINEERING

A minor in engineering is available to students in other academic divisions of the college. The minor consists of from 15 to 22 upper division units, nine units of which must be in upper division courses. The courses should follow a logical sequence and must be approved by the dean of the School of Engineering.

OUTLINE OF REQUIREMENTS

The program of study for the first two years is the same for all students in the School of Engineering. The recommended pattern is shown below. Course descriptions and prerequisites are given in the section of this catalog on Announcements of Courses.

†Certain qualified students may, with consent of the adviser, elect one upper division course during the second semester of the sophomore year.

ENGINEERING APITUDE AND ACHIEVEMENT TESTS

To provide faculty advisers with additional information for aiding students in planning their programs, two types of standardized examinations are given. The Engineering-Physical Science Aptitude Test is given to all entering freshmen students early in the first semester of registration. Students admitted to the college with advanced standing may file a transcript of previous college work with the dean of the School of Engineering in lieu of taking the aptitude test.

The Engineering Achievement Test is given once each semester for those students who have completed lower division requirements either at this college or at another institution. Dates for the test are announced by the School of Engineering; students may register with the School office to take the examination.

UPPER DIVISION REQUIREMENTS

The program of study for the last two years embraces the fundamental engineering sciences and their application to specific problems in selected fields of engineering practice, together with an opportunity for the student to approach an intellectual maturity in social, economic, ethical, and aesthetic thought.

The student must complete (1) the upper division requirements for all students; (2) the requirements of the selected field of specialization in accordance with an approved master plan filed during the first semester of the junior year; and (3) the remaining units of general education.

Recommended patterns in the four fields of specialization are shown below. Course descriptions and prerequisites are given in the section of this catalog on Announcement of Courses.

### SCHOOL OF SOCIAL WORK

The School of Social Work offers a two-year program of professional education at the graduate level leading to the Master of Social Work degree. The objectives of the program are to equip the student with the essential knowledge, philosophy, and basic skills for his responsible entry into the profession of social work.

A description of the program and requirements for the Master of Social Work degree will be found in the Graduate Bulletin. Information on requirements for admission to the college and to the Graduate Division is carried in the section of this catalog on the Graduate Division. Course descriptions and a list of the faculty of the School of Social Work appear in the section of the catalog on Announcement of Courses, under the title: Social Work.

Further information may be obtained by writing to the Dean of the School of Social Work, San Diego State College.
MINORS FOR ALL DEGREES
MINORS FOR ALL DEGREES
(For a description of teaching minors, refer to the School of Education)

ACCOUNTING MINOR
The minor in accounting is offered to students who are not majors in the School of Business Administration. The minor consists of from 15 to 22 units in accounting, of which Business Administration 1A-1B and 100 must be included. Eleven units must be in upper division courses.

AEROSPACE STUDIES MINOR
The minor in air science consists of from 15 to 22 units in air science, ten units of which must be in upper division courses. Veterans may apply credits allowed for military service to clear lower division requirements for the minor.

ANTHROPOLOGY MINOR
The minor in anthropology consists of from 15 to 22 units in anthropology, nine units of which must be in upper division courses (except Anthropology 100A-100B).

ART MINOR
The minor in art consists of from 15 to 22 units in art, six units of which must be in upper division courses.

ASTRONOMY MINOR
The minor in astronomy consists of from 15 to 22 units in astronomy, nine units of which must be in upper division courses.

BIOLOGY MINOR
The minor in biology consists of from 15 to 22 units in biology to include Biology 3 and 4, or the equivalent, and a minimum of nine upper division units in biology selected with approval of the biology adviser.

BOTANY MINOR
The minor in botany consists of from 15 to 22 units in botany, six units of which must be in upper division courses.

BUSINESS EDUCATION MINOR
The minor in business education is offered to students who are not majors in the School of Business Administration. The minor consists of not less than 21 units, exclusive of course equivalents, to include the following courses: Business Administration 1A, 1B, 72, 73, 74; nine upper division units, including Business Administration 189; and three additional lower or upper division units selected in consultation with the adviser in business education.

BUSINESS MANAGEMENT MINOR
The minor in business management is offered by the Management Department to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, and six to nine additional units of upper division courses approved by the adviser in this field.

CHEMISTRY MINOR
The minor in chemistry consists of Chemistry 1A-1B, 4 or 5, 12 (or equivalents), and six units of upper division courses in chemistry. (24 units.)

COMPARATIVE LITERATURE MINOR
The minor in comparative literature consists of from 15 to 22 units in comparative literature, nine units of which must be in upper division courses.

DANCE MINOR
The minor in dance consists of Physical Education 2A-2B, 3A-3B, 12A-12B, 81, 82; two units selected from Physical Education 155A or 178, 181, 182A, or 182B; and three upper division units to be selected from the areas of art, music, speech arts, and others, with the approval of the adviser in dance. (21 units.)

ECONOMICS MINOR
The minor in economics consists of from 15 to 22 units in economics, nine units of which must be in upper division courses (except Economics 103A-103B).

EMPLOYEE RELATIONS MINOR
The minor in employee relations is offered by the Management Department to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, 140, and three to six units of upper division courses approved by the adviser in this field.

ENGINEERING MINOR
The minor in engineering consists of from 15 to 22 units in engineering, nine units of which must be in upper division courses. The courses should follow a logical sequence and must be approved by the dean of the School of Engineering.

ENGLISH MINOR
The minor in English consists of from 15 to 22 units in English, nine units of which must be in upper division courses.

FINANCE MINOR
The minor in banking and finance is offered by the Department of Business Law and Finance to students who are not majors in the School of Business Administration. The minor consists of from 16 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, and Economics 135.

FRENCH MINOR
The minor in French consists of from 15 to 22 units in French, six units of which must be in upper division courses.
MINORS FOR ALL DEGREES

GEOGRAPHY MINOR
The minor in geography consists of from 15 to 22 units in geography, nine units of which must be in upper division courses.

GEOLOGY MINOR
The minor in geology consists of from 15 to 22 units in geology, six units of which must be in upper division courses.

GERMAN MINOR
The minor in German consists of from 15 to 22 units in German, six units of which must be in upper division courses.

HEALTH EDUCATION MINOR
The minor in health education consists of from 15 to 22 units in health education, nine units of which must be in upper division courses approved by the departmental advisor in health education; courses to include Health Education 100, and 63 or 160.

HISTORY MINOR
The minor in history consists of from 15 to 22 units in history to include six sequence units in the lower division. At least nine units must be in upper division courses, including a year course.

HOME ECONOMICS MINOR
The minor in home economics consists of 18 units in home economics to include Home Economics 3, 127, 74, 150, and six upper division units of electives in home economics.

INDUSTRIAL ARTS MINOR
The minor in industrial arts consists of 20 units in industrial arts to include Industrial Arts 11, 21, and one lower division and one upper division course in each of two of the following fields: drafting, general woodworking, general metalworking, electricity-electronics, transportation, and graphic arts. Electives should be chosen in consultation with the adviser.

INSURANCE MINOR
The minor in insurance is offered by the Department of Business Law and Finance to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, 30A-30B, and nine upper division units, including Business Administration 120 and either Business Administration 121 or 124.

ITALIAN MINOR
The minor in Italian consists of from 15 to 22 units in Italian, six units of which must be in upper division courses.

JOURNALISM MINOR
The minor in journalism consists of from 15 to 22 units in journalism to include Journalism 49, 51A, 51B, 102, and 151.

LIBRARY SCIENCE MINOR
The minor in library science is offered by the School of Education. The minor consists of from 15 to 22 units in library science, six units of which must be in upper division courses.

MARKETING MINOR
The minor in marketing is offered by the Marketing Department to students who are not majors in the School of Business Administration. The minor consists of from 15 to 22 units and must include Business Administration 90, Economics 1A-1B, from 17 to 22 units and must include Business Administration 150 and six upper division courses, including Business Administration 150 and six units selected with approval of the adviser in this field.

MATHEMATICS MINOR
The minor in mathematics consists of from 15 to 22 units in mathematics, six units of which must be in upper division courses. Courses should be selected in consultation with the adviser in mathematics.

MICROBIOLOGY MINOR

MUSIC MINOR
The general basic requirements for the minor in music are as follows:
(1) Demonstration of vocal or instrumental performing ability before admission to the minor program may be granted.
(2) Proficiency in piano equivalent to Music 10ABCD.
Coursework in the minor consists of 22 units in music to include the following:

OFFICE MANAGEMENT MINOR
The minor in office management is offered by the Department of Business Administration to students who are not majors in the School of Business Administration. The minor consists of 21 units and includes the following courses: Business Administration 1A, 1B, 3A, 3B, and nine upper division units (proficiency in typing required), and four units from Business Administration 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 116, 117, 121, 122, 126, 127, 131, 132, 150.

PHILOSOPHY MINOR
The minor in philosophy consists of from 15 to 22 units in philosophy, nine units of which must be in upper division courses, to include Philosophy 101.

PHYSICAL EDUCATION MINOR
The minor in physical education consists of from 15 to 22 units in physical education, nine units of which must be in upper division courses. The minor should be planned in consultation with the adviser in physical education.

PHYSICS MINOR
The minor in physics consists of from 15 to 22 units in physics, six units of which must be in upper division courses.
Minors for all Degrees

POLITICAL SCIENCE MINOR
The minor in political science consists of from 15 to 22 units in political science, to include Political Science 1 and 2 (or 1 and 3), six units of upper division political science, and electives in political science to complete the minor.

PRODUCTION AND OPERATIONS MANAGEMENT MINOR
The minor in production and operations management is offered by the Management Department to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, Economics 1A-1B, Business Administration 132, 135, and three to six units of upper division courses in economics and business administration approved by the adviser in this field.

PSYCHOLOGY MINOR
The minor in psychology consists of from 15 to 22 units in psychology, nine units of which must be in upper division courses.

PUBLIC ADMINISTRATION MINOR
The minor in public administration is offered by the Political Science Department. The minor is available to students majoring in fields other than political science or public administration. The minor consists of from 15 to 22 units to include Political Science 1 and 2, 140, and six units of upper division courses selected from Political Science 197, 198, or other upper division political science course approved by the adviser in public administration.

RADIO AND TELEVISION BROADCASTING MINOR
The minor in radio and television broadcasting is offered by the Speech Arts Department. The minor consists of a minimum of 15 to 22 units (to include Speech Arts 80 and 81), at least six of which must be in upper division courses.

REAL ESTATE MINOR
The minor in real estate is offered by the Department of Business Law and Finance to students who are not majors in the School of Business Administration. The minor consists of from 19 to 22 units and must include Business Administration 1A-1B, 30A-30B, and nine upper division units, including Business Administration 170 and six units to be selected with approval of the adviser in this field.

RECREATION MINOR
The minor in recreation consists of from 15 to 22 units to include the following: Lower Division: Recreation 60, 80, and two units from the fields of art, dance, drama, or music. Upper Division: Recreation 140 (men), or Speech Arts 110, Recreation 165, 170, and 184A or 184B. Recommended: Physical Education 131, 175, 176, Industrial Arts 101, Psychology 106, and Political Science 144.

RUSSIAN MINOR
The minor in Russian consists of from 15 to 22 units in Russian, six units of which must be in upper division courses.

SOCIAL WELFARE MINOR
The minor in social welfare consists of from 15 to 22 units in social welfare, at least nine units of which must be in upper division courses.
NONDEGREE CURRICULA

PREPROFESSIONAL PROGRAMS
AFROTC PROGRAM
PREPROFESSIONAL PROGRAMS

PROGRAMS AVAILABLE

Preprofessional curricula, which usually require three or four years of collegiate work, are offered. Curricula outlines of preprofessional study, which are presented on the following pages, meet the typical requirements for admission to professional schools. Students planning to enter other professional fields, such as agriculture, forestry, optometry, pharmacy, veterinary science, may obtain assistance from faculty advisers in arranging appropriate preprofessional courses of study.

PREDENTAL CURRICULUM

Candidates for a degree in dentistry should ascertain the entrance requirements of the dental college to which they expect to transfer and should make whatever changes in the following typical requirements that may seem desirable in satisfying the requirements of the specific dental college.

The curriculum for dental hygiene is essentially the same as for predentistry. Students ordinarily elect to concentrate in chemistry and zoology with a major in one of the preclinical subjects in the other.

High school students planning to enter dentistry should include in the high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics, mechanical drawing, and three years in one foreign language if required by the college to which a student expects to transfer.

Many dental schools request that letters of recommendation for applicants be prepared by a predental council rather than by individual professors. Such a council exists on this campus and all western dental schools have been so informed. In order to obtain letters from the council, it is essential that each applicant provide the council with certain information. Obtain the form and instructions from the Office of the Division of Life Sciences. This form must be submitted to the Life Sciences office by April 1 of the year during which application is being made.

RECOMMENDED COURSE OF STUDY FOR PREDENTAL CURRICULUM

Course of Study for Predental Curriculum. Freshman year, physical education activities, Health Education 21, Speech Arts 3, English 1A, English 2 or other literature course, Mathematics 3 and 4, or equivalents, Chemistry 1A-1B, Biology 1 and 2; sophomore year, physical education activities, Psychology 1, Chemistry 4 or 5, and 12, Physics 2A-2B and 3A-3B, Zoology 60, Biology 15, social science including courses in American history, institutions and ideals; U. S. Constitution; and California state and local government.

The following courses for a third year in preparation for dentistry are suggested for students who fail to receive acceptance from a dental college after completing the prescribed 60 units: Chemistry 112, Zoology 100, Art 119A, Psychology 11, 106, and additional courses in general education.

PREMEDICAL CURRICULUM

The following curriculum is designed to meet the requirements of standard American schools of law for a broad and liberal education, while at the same time providing the desirable flexibility in the individual programs. There are two patterns of concentration which will usually be indicated for the premedical student, either of which may be selected, in consultation with the advisor, to fit best the interests of the student. The major-minor pattern and the general major pattern. Subject to individual variation, the fields of economics, history, and political science should receive first consideration when choosing the pattern of concentration as being the most effective background for later professional study in law and for possible activities in the field of business.

RECOMMENDED COURSE OF STUDY FOR PRELEGAL CURRICULUM

Lower division. Business Administration 1A-1B, Economics 1A-1B, Political Science 1 and 2, and a year course in history. Upper division: In the junior and senior years the student will plan his course with the counsel of his advisor in terms of the field of law in which he plans to work, but keeping in mind the entrance requirements and examinations for admission to schools of law. The recommended list below should receive prime consideration by all prelegal students in the selection of courses, though it is to be thought of as flexible in accordance with student needs.

Recommended: Economics 131, 133, 150, 170; History 131A-131B, 175A-175B; Political Science 11A-11B, 119A-119B. Beyond the courses taken in the fields of concentration, upper division electives in English, philosophy, psychology, sociology, and speech arts are recommended. A mastery of English expression is essential. The approval of a prelegal advisor is required for all master plans. If the special major pattern of concentration is chosen, a copy of the master plan is to be filed with the Evaluations Office.

PREMEDICAL CURRICULUM

The completion of entrance requirements for admission to medical colleges requires three years of undergraduate study; however, four years of undergraduate study is usually completed before admission. The premedical student is strongly advised to select a major in a department leading toward an A.B. or B.S. degree. This is more readily accomplished by majoring in biology, chemistry, or zoology, although other departments may be acceptable. Specific requirements for these majors are described for each department. Students planning to enter medicine should include in the high school program the following subjects: elementary algebra, plane geometry, intermediate algebra, chemistry, physics, and two or three years of German or French.

RECOMMENDED COURSE OF STUDY FOR PREMEDICAL CURRICULUM

The following is a list of courses which will satisfy the entrance requirements of most medical colleges. These courses should be included in the program of the medical colleges differ somewhat and specific requirements of the medical school to which the student wishes to apply should be obtained directly from that medical school.

Courses to be included in the program during the first two undergraduate years: Biology 1 and 2; Chemistry 1A and 1B; Chemistry 4 or 5; six semester units of English 1A; 2A-2B, 3A, 3B; Zoology 50 or 60.

Courses to be included in the undergraduate program during the third and fourth years: Chemistry 12 and 12A; Zoology 100 and 106.

The following courses are strongly recommended for inclusion in the undergraduate program: Biology 15, 101, Biology 155 or Zoology 164; Mathematics 21 and 22 or equivalent.

PREPARATION FOR OTHER PROFESSIONS

Programs leading to professional study in agriculture, architecture, forestry, optometry, pharmacy, theology, veterinary science, and other areas may be planned for the student. Since these professional areas of study are not available at this college, the institution granting the degree, professional study in agriculture, architecture, forestry, optometry, pharmacy, theology, veterinary science, and other areas may be planned for the student. Since these professional areas of study are not available at this college, the institution granting the degree, the professional program of study is advised to consult with the college and to determine requirements before arranging his program. Faculty advisers will assist
AFROTC PROGRAM

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

The purpose of AFROTC on college campuses is to produce officers for active duty in the Air Force. The AFROTC programs provide education that will develop skills and attitudes vital to the professional Air Force officer. Upon the completion of the AFROTC program and requirements for a baccalaureate degree, cadets are commissioned second lieutenants in the Air Force and serve a minimum of four years active duty.

The curriculum is a generalized one and consists of courses designed to produce officers who have broad backgrounds as well as high-growth potential. During the advanced course, cadets participate in cadet staff planning and develop workable courses of action for cadet corps activities.

The Division of Aerospace Studies at San Diego State College offers the two-year and four-year AFROTC programs prescribed by law. Both are voluntary and a part of the normal academic program. AFROTC courses are fully transferable to other institutions offering Army, Navy, or Air Force ROTC.

All work is on campus with the exception of the summer training courses conducted at an active Air Force base and light plane flying at a local civilian flying school.

AFROTC graduates who are qualified may apply for Air Force pilot training immediately upon graduation. Other graduates go on active duty in a specialization consistent with their academic major and aptitude. Graduates may request a delay for entry on active duty to continue their education through master's and doctor's degrees. Distinguished graduates may apply for graduate study while on active duty.

FOUR YEAR PROGRAM

The four year program is divided into two courses, basic and advanced. The basic course is for freshmen and sophomores; the advanced is for juniors and seniors. Completion of the basic course, qualification in the Air Force Officer Qualifying Test, and physical qualification are criteria for enrollment in the advanced course.

Students will normally register for this program as first semester freshmen. Portions or all of the basic course may be waived, based on high school ROTC, military school, service academy, or military service.

Between their junior and senior college years, cadets attend a four week summer training course at an Air Force base. Life is centered around junior officer training and aircraft and aircrew indoctrination. Cadets receive physical training and participate in competitive sports. They are trained in the use of weapons, drills, and ceremonies, and observe various organizations as they perform everyday operations. Every facility that can contribute to their understanding of the Air Force and its mission is made available to them.

TWO YEAR PROGRAM

The two year program permits students, who for various reasons did not enroll in the basic course, to begin officer training in their junior year. Students at San Diego State College, or those at other colleges who plan to enroll in San Diego State College as juniors, may take the Air Force Officer Qualifying Test and the physical examination during their sophomore year.

They attend a six-week field training course at an Air Force base in the summer. This course is designed to compress the basic course requirements of the four-year program so that students entering at the junior level will be on a par with their contemporaries who have completed the basic course. The two-year program cadet does not attend an additional four week summer course later.
ANNOUNCEMENT
OF COURSES
Announcement of Courses

Course Numbering
Courses numbered from 1 to 99 are lower division (freshman or sophomore) courses; those numbered 100 to 199 are upper division (junior or senior) courses; those numbered 200 to 299 are graduate courses; those numbered 300 to 399 are professional education courses to be taken at the graduate level.

The Unit or Credit Hour
In the listing of courses that follow, figures in parentheses indicate the unit value of the course. One unit or credit hour represents 50 minutes of recitation or lecture, together with the required preparation, or three hours of laboratory work or two hours of activities, each week for a semester of 18 weeks.

Prerequisites for Undergraduate Courses
Prerequisites for each course are stated in the course description. A student must not enroll in a course for which he is not eligible.

Prerequisites for Graduate Courses
Graduate level (200-numbered) courses require, as a general prerequisite, competence in the specific field as indicated by a substantial amount of upper division study in the field or in a closely related field. Unless otherwise specified in the course description, graduate level courses are open to classified graduate students with the permission of the instructor. Unclassified graduate students must obtain the permission of the instructor and the Dean of Graduate Studies before they may enroll in a graduate level course.

Semester in Which Courses Are Offered
In the listing of courses that follows, Roman numeral I indicates a course offered in the fall semester. Roman numeral II indicates a course offered in the spring semester.

Following the course title are designations of credit and the semester in which course is offered. Examples:

(3) I. Three units. Offered in fall semester.
(3) II. Three units. Offered in spring semester.
(3-3) I, II. Three units each semester. Year course normally beginning in the fall semester.
(3-3) I, II, X. Three units each semester. Year course beginning either semester.
X. An "X" preceding a course number indicates a course offered in extension only.

Although the college fully expects to carry out the arrangements planned in the list of courses, it reserves the right to make changes. Classes in which the enrollment does not come up to the minimum number set by the Trustees of the State Colleges may not be offered or may be postponed.

Aerospace Studies

In the Division of Aerospace Studies

Faculty
Professor: Waid (Chairman)
Assistant Professors: Hansen, Rothman, Smith, G. S.

Offered by the Division of Aerospace Studies
ROTC curriculum. (Described in the section on Preprofessional and Nondegree Curricula.)
Minor in Aerospace Studies. (Described in the section on Minors for All Degrees.)
Summer Camp.
Flight instruction.

Lower Division Courses

1A-1B. Foundations of Aerospace Power (1 1/2-3 1/2)
One lecture and one hour of leadership laboratory.
First semester: Causes of present world conflict; the role and relationship of military power to that conflict; organization for national security.
Second semester: Mission and organization of the Air Force; professional opportunities in the USAF; future Air Force requirements.

2A-21B. World Military Systems (1 1/2-1 1/2)
One lecture and one hour of leadership laboratory.
First semester: Comparative study of Free World land, naval, and air forces.
Second semester: Comparative study of Communist military systems. Trends in military thinking.

Upper Division Courses

131A-131B. Growth and Development of Aerospace Power (3-3)
Three lectures and one hour of leadership laboratory.
First semester: The nature of war; development of air power; and Air Force doctrine.
Second semester: Astronautics and space operations; United States space programs.

141A-141B. The Professional Officer (3-3)
Three lectures and one hour of leadership laboratory.
Prerequisites: Air Science 131A and 131B.
First semester: A study of the professional officer; the Military Justice System; leadership theory and practice.
Second semester: Management principles and functions; problem solving; briefing for commissioned service.

151. Flight Instruction (2) I
Available only to qualified senior AFROTC students.
Ground school is provided by the Aerospace Studies Division. Flight instruction is given by a contracted civilian flying school. Students may qualify for the FAA private pilot certificate.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of Aerospace Studies Division chairman.

Extension Course

X-133. Summer Training Camp (3)
A four-week camp required of all advanced students; normally completed between junior and senior year. Credit granted through the Extension Division on Division chairman.
ANTHROPOLOGY

IN THE DIVISION OF THE SOCIAL SCIENCES

Faculty
Professors: Ezell, Rogers, S. (Chairman)
Associate Professors: Anderson, A., Goldkind
Assistant Professors: Brockington, Buck, Lewis, H., Mann
Lecturers: Echanove, Rohrl

Offered by the Department of Anthropology

Master of Arts degree with a major in anthropology. (See also Master of Arts degree for teaching service in social science. Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)

Major in anthropology with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)

Minor in anthropology. (Described in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

1A. Human Origins (3) I, II
Man's place in nature; fossil evidences of early man; theories of human development; racial variability. Not open to students with credit in Anthropology 100A.

1B. Culture Origins (3) I, II
Prehistoric cultures of Europe and the Middle East; archaeological techniques; basic inventions and cultural innovations; language and culture. Not open to students with credit in Anthropology 100B.

1C. Primitive Societies (3) I, II
Man's relationship to his environment; types of preliterate society; systems of family organization, government, and religion.

UPPER DIVISION COURSES

100A-100B. Principles of Anthropology (3-3)
Human evolution as a biocultural process; man's relation to other forms of life and to his habitat; the growth of cultures; the interplay between biology, culture, and society. Not open to students with credit in Anthropology 1A and 1B. Anthropology 100A-100B may not be used to fulfill minimal upper division requirements in the anthropology major or minor or the general major.

102. Physical Anthropology (3) I
Prerequisite: Anthropology 1A or 100A.

103. Principles of Archaeology (3) II
Prerequisite: Anthropology 1B or 100B.
The historic background and basic techniques of archaeological excavation. Methods of site excavation with particular emphasis on California and the Southwest. Principles of culture dynamics utilized in archaeological interpretation.

115. Primatology (3) I
Prerequisite: Anthropology 1A or 100A.
Description, taxonomy, and comparative anatomy of the anthropoid apes, monkeys, and lesser primates. Primate behavior as a basis for the reconstruction of prehistoric human behavior. Extensive use of the primate collections of the San Diego Zoo.

120. Introduction to Anthropological Linguistics (3) I
Prerequisite: Anthropology 1A or 1B or 1C or 100A or 100B.
An introduction to the structural nuture of language. How languages differ, change, and influence each other. The language families of the world. The significance of language for human social life in a variety of cultures.

122. Language in Culture (3) II
A survey of the full range of anthropological interests in the study of language, and of linguistic interests in the socio-cultural context of language. Designed for students in language and other departments as well as in anthropology.

124. Descriptive Linguistics (3) II
Prerequisite: Anthropology 120.
Principles and techniques of descriptive linguistics. Problems and methods in the phonetic transcription and analysis of unwritten, non-Indo-European languages. Emphasis on articulatory phonetics, field techniques, and work with informants.

150. Ethnological Field Methods (3) I
Prerequisite: Anthropology 152.
An introduction to the problems and techniques of obtaining data in ethnological and social anthropological field work; preparation, gaining and maintaining rapport, evaluating data, participant-observation. A review of literature followed by work with informants.

152. World Ethnography (3) I, II
Prerequisite: Anthropology 1C or 100B.
The cultural patterns of representative aboriginal peoples. Industries, arts, social organization and supernaturalism considered with a view to environmental adjustment, historical development and functional interrelation. Ethnological theories reviewed and applied in interpreting illustrative aboriginal societies.

153. Primitive Religion (3) II
Prerequisite: Anthropology 1C or 100B.

154. Social Anthropology (3) II
Prerequisite: Anthropology 152.
The development of social anthropology as a distinct subfield of cultural anthropology. Readings and analysis of functionalism as theory and methodology in the explanation of social and cultural processes.

155. Peasant Society and Culture (3) II
Prerequisite: Anthropology 1C or 100B.
Analysis of the social organization and culture of present-day small agricultural communities with special emphasis on changes brought about by modernization.

156. Cultural Change and Processes (3) I
Prerequisite: Anthropology 1C or 100B.
The individual and the culture pattern: The acquisition of culture, innovation and invention, direction of cultural development, diffusion and interpenetration of cultures. Illustrations from contemporary and historic peoples: Indians of the Southwest, Eskimos, aboriginal groups of Australia, Africa and Oceania.

157. Meso-American Ethnohistory (3) II
Prerequisite: Anthropology 1B or 1C or 100B.
Aboriginal pre- and post-Conquest civilization of Mexico with emphasis on the developments, changes, and characteristics of aboriginal, mestizo, and creole society in Colonial Meso-America; stress on appropriate texts and codices.

158. Economic Anthropology (3) II
Prerequisite: Anthropology 1C.
Social relationships and cultural values inherent in the economies of primitive and peasant societies. Cross-cultural comparisons made of various means by which goods and services are acquired and distributed in non-Western, non-market-industrial
Anthropology

159. Cultural Ecology (3) I
Prerequisite: Anthropology 1C.
Examination and comparison of the relationships which exist between the natural environment and the socio-cultural processes in non-literate and peasant communities.

160. Primitive Technology (3) I
Prerequisite: Nine units of anthropology.
Techniques of tool manufacture, subsistence, shelter, clothing and arts and crafts of non-industrial peoples.

161. The California Indian (3) I
A survey of native California Indian culture with stress on the Indian groups of Southern California. The industries, arts, social organization, folklore and religion will be considered as revealed through the study of living peoples and archaeological evidences.

162. Cultures of South America (3) II
Prerequisite: Anthropology 1B or 1C or 100B.
Survey of Indian cultures in terms of origins, migration, relation to habitat, cultural variation and relevance to contemporary trends. Development of Inca civilization, the effects of the Spanish conquest and its aftermath.

163. Contemporary Latin American Cultures (3) I
Prerequisite: Anthropology 1C.
A social anthropological approach to the structure and dynamics of contemporary conditions and problems, especially as revealed in studies of particular communities. Included are such topics as ethnic and regional differences within national societies, population change, social consequences of economic changes, changing stratification systems, values, institutional change.

165. Culture and Personality (3) I, II
Prerequisite: Anthropology 1C or 100B.
The relationship of individual personality to culture in a variety of cultures. A consideration of various theories and studies in the social and personality sciences.

166. Honors Course I, II (Credit to be arranged)
Refer to the Honors Program.

167. History of Anthropological Theory (3) II
Prerequisite: Anthropology 1A or 1B or 1C or 100A or 100B.
A review of the development of theories which lie behind the modern science of ethnology and archaeology. Applications of the theory of culture to field methods and interpretation of findings.

169S. Backgrounds of Mexican Civilization (3) Summer
Mexico’s archaeological past and its bearing on historic and recent peoples and cultures. Conflicts between Aztec and Mayan cultures and western civilization. The relationship of Mexican civilization to other Latin American cultures.

170. Archaeology of North America (3) I
Prerequisite: Anthropology 1B or 100A.
Origin of the American Indian and survey of the main prehistoric cultures of the North American continent.

171. Ethnology of North America (3) II
Prerequisite: Anthropology 1C or 100B.
Description and analysis of native cultures and the role of environmental and historical factors in North America.

172. Indian Cultures of the Southwest (3) I
Prerequisite: Anthropology 1B or 1C.
Indian cultures of the past and present in the Southwestern states. Arts, crafts, architecture and religion as revealed through archaeology and ethnology.

173. Archaeological Field Methods (3) II
Prerequisite: Anthropology 103.
Application, through excavation, laboratory analysis, and preparation of reports, of the methods and techniques of archaeology.

174. Prehistoric Archaeology of Europe (3) II
Prerequisite: Anthropology 1A and 1B, or 100A and 100B.
A review of the Stone Age, Bronze Age, and Iron Age cultures of Europe, North Africa, and the Middle East. Industries, habitats, and art of peoples antecedent to recorded history. Methods of investigation used in reconstructing prehistoric civilizations.

175. Cultures of Southeast Asia (3) II
Prerequisite: Anthropology 1C or 100B.
Prehistory, races and cultures of Indonesia, Philippines and nearby mainland Southeast Asia. Includes both primitive and peasant societies and reviews them with respect to environmental, historical and social factors.

176. Early Near and Middle Eastern Civilizations (3) I
Prerequisite: Anthropology 1B and 174.
Anthropological foundations of historic primary civilizations of the Near and Middle East in their early phases of development as revealed by archaeological and other sources.

179. Applied Anthropology (3) II
Prerequisite: Anthropology 154 and 156, and consent of instructor.
The application of anthropological concepts to the solution of practical problems of culture change in industry, corporate organization and community development.

180. Preclassic Aboriginal Civilizations of Middle America (3) II
Prerequisite: Anthropology 1B or 100B.
The development of civilization in Pre-Columbian Mexico and Central America antecedent to the Toltecs, Classic Maya, and related cultures. (Formerly Anthropology 151B, Indian Civilization of Middle America.)

181. Classic Pre-Columbian Civilizations of Middle America (3) I
Prerequisite: Anthropology 1B or 100A.
Aboriginal Mexican and Central American civilizations through the Age of Exploration and Conquest. Aztecs, Mixtecs, Zapotecs, Mayas, and related cultures.

182. Post-Conquest Cultures of Middle America (3) II
Prerequisite: Anthropology 1C or 100B.
Aboriginal and mixed cultures of Mexico and Central America in Colonial and recent epochs. Aftermath of Conquest and exploitation.

197. Investigation and Report (3) I, II
Prerequisite: Consent of instructor.
Analysis of special topics in anthropology and preparation of reports on the results of the study.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

GRADUATE COURSES

200. Seminar (3)
An intensive study in advanced anthropology, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

222. Historical Linguistics (3) I
Prerequisite: Anthropology 120 and 124.
Principles and techniques of historical linguistics, with concentration on the dynamics of linguistic change, comparative linguistics, and historical reconstruction as applied to non-Indo-European languages.
235. Social Structure (3)
Prerequisite: 12 units of upper division credit in anthropology.
A structural and functional approach to the social organization of a wide range of cultures. An examination of theories and generalizations regarding the stability and integration of a wide variety of human societies.

255. Culture and Society in the Nahua Area (3)
Prerequisites: Anthropology 1B or 1C and 12 units of upper division credit in anthropology.
A course designed to permit concentrated studies of the area and those related to it, based on archeology, aboriginal records, colonial accounts, and modern studies; and to permit various approaches to such studies.

256. Cultures and Societies in Southern Meso-America and Central America (3)
Prerequisites: Anthropology 1B or 1C and 12 units of upper division credit in anthropology.
Concentrated studies of ancient civilizations in areas of higher development, based on archeology, aboriginal records, Colonial accounts, and recent studies; and to permit various approaches to such studies.

267. Contemporary Theory in Cultural Anthropology (3)
Prerequisite: 12 units of upper division credit in anthropology.
Contemporary theoretical developments in cultural anthropology: an examination of proposed conceptual frameworks, methodologies, hypotheses, and theories. An analysis of recent literature, with evaluation oriented toward significance for research.

298. Special Study (1-6)
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.
Individual study directed toward the preparation of a paper upon a specific problem. Six units maximum credit.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

ART

IN THE DIVISION OF THE FINE ARTS

Faculty
Emeritus Faculty: Andrews, Jackson
Professors: Dirks, Swiggett (Chairman), Ruocco, Sorenson
Associate Professors: Bigelow, Lingren, Longenecker, Tanzer, Wallace, R.
Assistant Professors: Baker, K., Baxter, R., Berg, Bowne, Covington, Fisch, Higgins, Hopkins, Hunter, L., Miller, A., Rogers, J.
Instructor: Orth
Lecturers: Bliss, Jones, F.

Offered by the Department
Master of Arts degree with a major in art; and a Master of Arts degree for teaching service with a concentration in art. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in art with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Major in art with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in art. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

ART APPRECIATION, HISTORY AND ORIENTATION

Many students, regardless of the field in which they may be majoring, recognize the need for an intelligent approach to the subject of art and art appreciation. However, due to the popular feeling that art is a subject requiring "talent," these students may refrain from enrolling in art courses. For students who desire a better understanding of art, but who do not intend to major in art, the following courses are recommended:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Art 5, Art Orientation</td>
<td>2</td>
</tr>
<tr>
<td>Art 50A-50B, History and Appreciation of Art</td>
<td>4</td>
</tr>
<tr>
<td>Art 51, Survey of Art of the Middle Ages</td>
<td>2</td>
</tr>
<tr>
<td>Art 52A-52B, Survey of Oriental Art</td>
<td>6</td>
</tr>
<tr>
<td>Art 8, The House and Its Environment</td>
<td>2</td>
</tr>
</tbody>
</table>

Other courses which require certain skills but which are not beyond the ability of the average college student are:

Art 61, Design in Crafts | 3 |
Art 2A, Design and Aesthetics | 2 |
Art 94, Costume design | 2 |
Art 108, The House and Its Environment | 2 |

LOWER DIVISION COURSES

A. Drawing and Composition (2) I, II
Six hours. No prerequisite.
Problems involving perspective to develop ability to draw still life, furniture, exteriors, interiors, and the like.

B. Drawing and Composition (2) I, II
Six hours. Prerequisite: Art A.
Drawing of mechanical and natural forms by the use of line and value. Emphasis on proportion and structure. Some quick sketching, gesture and contour drawing.

2A. Design and Aesthetics (3) I, II
One lecture and six hours of laboratory.
Fundamentals of space and color design. Basic course used as a prerequisite for advanced work. Not open to students with credit in Art 6A or 9.

2B. Design and Aesthetics (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Art 2A.
Continuation of Art 2A. Original work in creative design including projects in three dimensions. Not open to students with credit in Art 6B or 10.

5. Art Orientation (2) I
Two lectures. No prerequisite.
An illustrated lecture course dealing with aesthetic meaning and its relation to the structure of art products. Designed to increase both understanding and appreciation of the visual world in general and of the fine arts in particular.

7. Line, Color and Display (2) I, II
Six hours. No prerequisite.
The principles of line, color and arrangement applied to store and window display. Study and observation of windows, color and materials used in display. Building models and practical problems in arranging colors, textures, and forms in windows to fit different kinds of merchandise. (Students who may later wish to apply for upper division credit for this course as applied to a major will be required to do additional work.)
8. The House and Its Environment (2) I, II
Architecture, interior design, landscape and city planning for forming man's physical and aesthetic environment. (Formerly entitled: Home Furnishings.)

13. Furniture Design (2) I, II
Six hours.
Prerequisite: Art 2A. Recommended: Industrial Arts.
Study of the principles of design through the making of furniture.

14A. Beginning Graphic Communication (2) I, II
Six hours.
Prerequisite: Art 2A.
Fundamental art principles applied to lettering, extension of verbal statement through accurate lettering and (original) problems using letter characters as design elements. General introduction to type through hand lettering and typographic design. (Formerly entitled: Lettering.)

14B. Intermediate Graphic Communication (2) I, II
Six hours.
Prerequisite: Art 14A.
The application of lettering to posters, newspaper and magazine advertising, and other forms of commercial art. The study of composition combined with lettering and special study of modern tendencies in publicity. (Formerly entitled: Posters and Commercial Art.)

15A. Life Drawing (2) I, II
Six hours.
Prerequisite: Art B.
Drawing from the nude model.

15B. Life Drawing (2) I, II
Six hours.
Prerequisite: Art 15A.
Continuation of Art 15A.

16A. Oil Painting (2) I, II
Six hours.
Prerequisite: Art B.
Composition of still-life and landscape in color.

16B. Oil Painting (2) I, II
Six hours.
Prerequisite: Art 16A.
Landscape and more advanced composition in color.

17A. Sculpture (2) I, II
Six hours.
Prerequisite: Art 2B. Recommended: Industrial Arts.
Creative design in such materials as clay, wood, stone, concrete, etc.

17B. Sculpture (2) I, II
Six hours.
Prerequisite: Art 17A.
Continuation of Art 17A.

18A. Watercolor Painting (2) I, II
Six hours.
Prerequisite: Art A and B.
Composition of still-life and landscape in watercolor.

18B. Watercolor Painting (2) I, II
Six hours.
Prerequisite: Art 18A.
Continuation of Art 18A.

19A. Ceramics (2) I, II
Six hours.
Prerequisite: Art 2A.

19B. Ceramics (2) I, II
Six hours.
Prerequisite: Art 19A.
Continuation of Art 19A. Introduction to use of the potter's wheel and application of glaze for surface enrichment.

50A. Appreciation and History of Art (2) I, II
Two lectures. No prerequisite.
A survey of art development in painting, sculpture, architecture, and handicrafts from the dawn of art to the Renaissance. Illustrated.

50B. Appreciation and History of Art (2) I, II
Two lectures. No prerequisite.
The period from the Renaissance through the modern school treated in the same manner as in 50A.

51. Survey of the Art of Middle America (2) Irregular
Two lectures. No prerequisite.
A study of Middle American art from earliest time to the present.

52A. Survey of Japanese Art (3) I
A study of the arts of Japan.

52B. Survey of Chinese Art (3) II
A study of the arts of China.

61. Design in Crafts (3) I, II
Six hours.
Prerequisite: Art 2A.
Study of visual and structural form in crafts.

70A. Jewelry (2) I, II
Six hours.
Prerequisite: Art 2A.
Design and fashioning of jewelry and tableware.

70B. Jewelry (2) I, II
Six hours.
Prerequisite: Art 70A.
Continuation of Art 70A.

80A. Weaving (2) I, II
Six hours.
Prerequisite: Art 61.
Study of structure and design of woven fabrics. A variety of exercises in traditional, contemporary, and experimental weaves using a wide range of materials.

80B. Weaving (2) I, II
Six hours.
Prerequisite: Art 80A.
Continuation of Art 80A.

94A. Costume Design (2) I, II
Six hours.
Prerequisite: Art 2A.
Original designs of modern costumes suitable to the individual or to distinct types; the drawing of fashion figures; the rendering of fabrics and textures.
98B. Costume Design (2) I, II
Six hours.
Prerequisite: Art 94A.
Continuation of Art 94A.

98A. The Contemporary House (2) I, II
Six hours.
Prerequisites: Art A, 2A, and 8.
Elementary problems in neighborhood planning, house design, interior design and landscaping. (Formerly entitled: Interior Design.)

98B. General Interior Design Theory (2) I, II
Six hours.
Prerequisite: Art 95A.
New conceptions of space in architecture, landscape and interior design. Various approaches to interior design. Relationship of furniture, fabrics, light, color and art concepts. (Formerly entitled: Interior Design.)

UPPER DIVISION COURSES

100A. Advanced Drawing (2) I, II
Six hours.
Prerequisite: Art B.
A course in drawing with color wherein an objective attitude is taken toward the qualitative aspect of visual subject matter. Objects are studied and represented as visual stimuli rather than as stereotypes.

100B. Advanced Drawing (2) I, II
Six hours.
Prerequisite: Art 100A.
A course in drawing in color wherein objects are represented in such a manner as to include kinaesthetic responses. Aesthetic organization of materials is stressed.

105-S. Classroom Display for Teachers (3) Summer
A lecture and workshop course for elementary and secondary teachers in principles and techniques of modern display to meet various subject, classroom, and school requirements. Special attention to individual problems and needs.

106A. Printmaking (2) I, II
Six hours.
Prerequisites: Art B and 2A.
Introduction to printmaking media: woodcut, wood-engraving, serigraphy, lithography, and intaglio (copper and zinc engraving, drypoint, etching, aquatint, and mixed media). Special emphasis on technical processes.

106B. Printmaking (2) I, II
Six hours.
Prerequisite: Art 106A.
Concentration upon the creation of fine prints in media selected from those studied in Art 106A.

106C. Printmaking (2) I, II
Six hours.
Prerequisite: Art 106B.
Continuation of Art 106B with advanced creative studies in printmaking.

106D. Printmaking (2) I, II
Six hours.
Prerequisite: Art 106C.
Advanced creative studies in printmaking.

107. Color and Design in Merchandise (2) I, II
(Same course as Bus. Adm. 159)
Six hours. No prerequisite.
Principles of line, mass, and color applied to the design of manufactured goods, especially consumer goods, and to merchandise display. Shape and color in relation to utility and sale value. Practical problems.

108. The House and Its Environment (2) I, II
Architecture, interior design, landscape and city planning for forming man's physical and aesthetic environment, its simplicities and complexities. Not open to students with credit in Art 8.

110. Advanced Crafts in the Elementary Schools (2) I, II
Five hours.
Prerequisite: Art 2A.
An advanced design-craft course in which the activities, materials and tools employed are appropriate for the elementary grades. Not open to students with credit in Art 10 or 61.

111A. Industrial Design (2) I, II
Six hours.
Prerequisites: Art A and 2B.
Design of objects for manufacture with reference to their use, materials, and in accordance with factory practices and machine techniques. Practice in the techniques of presentation, working drawings, rendering in perspective and scale models.

111B. Industrial Design (2) I, II
Six hours.
Prerequisite: Art 111A.
Continuation of Art 111A.

112A. Design and Composition (2) I, II
Six hours.
Prerequisites: Art A, B, 2B, and 16A.
Structure in picture making. The controlled use of line, value, color, and texture to organize the effect of depth, movement, volume, etc., in the recognizable image. Oil technique.

112B. Design and Composition (2) II
Six hours.
Prerequisite: Art 112A.
Continuation of Art 112A.

113A. Advanced Furniture Design (2) I, II
Six hours.
Prerequisite: Art 13. Recommended: Industrial Arts 5.
Principles of design through the making of furniture.

113B. Advanced Furniture Design (2) I, II
Six hours.
Prerequisite: Art 113A.
Continuation of Art 113A.

114A. Design for Advertising (2) I
Six hours.
Prerequisite: Art 14B.
Advanced course for advertising design students. Aims to develop professional concepts and techniques through student projects.

114B. Advanced Advertising Design (2) II
Six hours.
Prerequisite: Art 114A.
Advanced study with emphasis on the development of a portfolio of advertising design samples by the individual student.
114C. Advanced Advertising Design (2) I, II
Six hours.
Prerequisite: Art 114B.
Continuation of Art 114B.

114D. Advanced Graphic Communication (2) I, II
Six hours.
Prerequisite: Art 114C.
Advanced study of communication levels achieved through a symbolic imagery and typographic design.

115A. Life Drawing and Painting (2) I, II
Six hours.
Prerequisites: Art 15A and 16A.
Drawing and painting from nude and costumed models.

115B. Life Drawing and Painting (2) I, II
Six hours.
Prerequisite: Art 115A.
Continuation of Art 115A.

115C. Life Drawing and Painting (2) I, II
Six hours.
Prerequisite: Art 115B.
Continuation of Art 115B.

115D. Life Drawing and Painting (2) I, II
Six hours.
Prerequisite: Art 115C.
Continuation of Art 115C.

116A. Advanced Painting (2) I, II
Six hours.
Prerequisite: Art 16A or 16B.
Painting in oil from still life, landscape, or models, stressing composition.

116B. Advanced Painting (2) I, II
Six hours.
Prerequisite: Art 116A.
Continuation of Art 116A.

116C. Advanced Painting (2) I, II
Six hours.
Prerequisite: Art 116B.
The influence of art media and picture plane on aesthetic organization in representational painting.

116D. Advanced Painting (2) I, II
Six hours.
Prerequisite: Art 116C.
Continuation of Art 116C.

117A. Advanced Sculpture (2) I, II
Six hours.
Prerequisites: Art 2B and 17A or 17B.
Creative design in such materials as clay, wood, stone, concrete, etc.

117B. Advanced Sculpture (2) I, II
Six hours.
Prerequisite: Art 117A.

117C. Advanced Sculpture (2) I, II
Six hours.
Prerequisite: Art 117B.
The influence of art media and tools on aesthetic organization in sculpture in relief and in the round.

117D. Advanced Sculpture (2) I, II
Six hours.
Prerequisite: Art 117C.
Continuation of Art 117C.

118A. Advanced Watercolor Painting (2) I, II
Six hours.
Prerequisite: Art 18B.
Composition of still life and landscape in watercolor.

118B. Advanced Watercolor Painting (2) I, II
Six hours.
Prerequisite: Art 118A.
Continuation of Art 118A.

119A. Ceramics (2) I, II
Six hours.
Prerequisite: Art 19B.
Basic methods of forming, decorating, glazing and firing pottery forms with emphasis on the use of the potter's wheel.

119B. Ceramics (2) I, II
Six hours.
Prerequisite: Art 119A.
Continuation of Art 119A. Further development of knowledge, skills and philosophy of ceramics through individual creative projects.

119C. Ceramics (2) I, II
Six hours.
Prerequisite: Art 119B.
Continuation of Art 119B with advanced creative projects.

120A. Advanced Design (2) I, II
Six hours.
Prerequisites: Art B and 2B.
Advanced work in pure design, two and three dimensional. Re-examination of color theory and design principles.

120B. Advanced Design (2) I, II
Six hours.
Prerequisite: Art 120A.
Continuation of Art 120A.

122. Art Education Colloquium (2) Irregular
Prerequisites: Minimum of 14 units of upper division art completed.
Historic and current art education philosophies, lectures, readings, papers and discussion.

135A. History and Theory of Interior Design (2) I, II
Prerequisites: Art 50A-50B.
The history and theory of interior design from earliest times to the 18th century.

135B. History and Theory of Interior Design (2) I, II
Prerequisites: Art 50A-50B.
The history of interior design from the 18th century to the present.
153. Ancient Art (3) Irregular
Three lectures.
Prerequisites: Art 50A and 50B.
Development of painting, sculpture, architecture and crafts from prehistoric times to the fall of Rome.

154. Medieval Art (3) Irregular
Three lectures.
Prerequisites: Art 50A and 50B.
Development of painting, sculpture and architecture from the time of Constantine through the Gothic period.

155. Renaissance Baroque and Rococo Art (3) Irregular
Three lectures.
Prerequisites: Art 50A and 50B.
Development of painting, sculpture and architecture from the Renaissance through the rococo period.

156. History of Modern Art (3) I, II
Three lectures.
Prerequisites: Art 50A and 50B.
Development of painting, sculpture and architecture from the French Revolution to the present.

157. The History of American Art (3) Irregular
Prerequisites: Art 50A and 50B.
Development of painting, sculpture, and architecture from Colonial times to the present.

158. Art of Primitive Peoples (3) Irregular
Prerequisites: Art 50A and 50B.
Arts of primitive peoples of Africa, South Seas, and the North American Indians and their influence upon the art of the twentieth century.

160. The History of Architecture (3) Irregular
Architecture from primitive times to the present.

161A. Design in Crafts (2) Irregular
Six hours.
Prerequisite: Art 61.
Advanced creative design in varied craft media stressing visual and structural form.

161B. Design in Crafts (2) Irregular
Six hours.
Prerequisite: Art 161A.
Advanced creative design in varied craft media stressing visual and structural form.

161C. Advanced Crafts (2) Irregular
Six hours.
Prerequisite: Art 161B.
Advanced study in crafts such as textile design, mosaic, metal forming, enameling, serigraphy and other crafts-media.

161D. Advanced Crafts (2) Irregular
Six hours.
Prerequisites: Art 161C.
Advanced study in crafts in one specific area of study chosen with consent of instructor.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

170A. Jewelry (2) I, II
Six hours.
Prerequisites: Art 70A and 70B.
Advanced problems in design and fashioning of jewelry and tableware.

170B. Jewelry (2) I, II
Six hours.
Prerequisite: Art 170A.
Continuation of Art 170A.

175. Problems in Art for Teachers (1-3) I, II, Summer
Prerequisite: Consent of instructor.
Special problems in design adapted to the needs of teachers in service. May not be used to satisfy any pattern requirement for a credential. May be repeated once for credit.

180A. Advanced Weaving (2) I, II
Six hours.
Prerequisites: Art 80A and 80B.
Advanced problems in fabric design and weave construction including tapestry and rug weaving techniques.

180B. Advanced Weaving (2) I, II
Six hours.
Prerequisite: Art 180A.
Continuation of Art 180A.

190. Principles and Elements of Visual Aesthetic Organization (2)
Three hours.
Prerequisites: Senior standing and Art 5.
An intensive investigation of visual aesthetic materials and the psychological principles involved in aesthetic organization.

191. Gallery Exhibition Design (2) I, II
Six hours.
Prerequisite: Consent of instructor.
Fundamental art elements and principles applied to the theories and techniques of gallery exhibition design.

193. Drawing and Illustration for Graphic Communication (2) I
Six hours.
Prerequisites: Art B, 2A, 115A.
A course involving the disciplines of realistic descriptive illustration including problems in imaginative, aesthetically refined painterly illustration. Media to include gouache, watercolor, scratch board, mixed media, and pen and ink.

194A. Costume Design (2) I, II
Six hours.
Prerequisite: Art 2A.
Original designs of modern costumes suitable to the individual or to distinct types; the drawing of fashion figures; the rendering of fabrics and textures.

194B. Costume Design (2) I, II
Six hours.
Prerequisite: Art 194A.
Continuation of Art 194A.
195A. Interior Design (2) I, II
Six hours.
Prerequisites: Art 95A and 95B.
Survey, analysis and design methods concerning problems of interior design of moderate scope, stressing the visual concept as part of the total planning process.

195B. Environmental Design (2) I, II
Six hours.
Prerequisite: Art 195A.
Survey, analysis and design synthesis of problems of more complexity, through interiors, to landscape, to architectural planning, and finally concern for city design.

195C. Economics of Interior Design (2) I, II
Six hours.
Prerequisite: Art 195B.
Techniques and analyses of specification writing, supervision and budget studies of interior design and its application to various projects.

195D. Advanced Interior Design (2) I, II
Six hours.
Prerequisite: Art 195C.
The complete conception and execution of all stages of a full-scale interior design project.

196A. Visual Communication Media (2) I, II
Six hours.
Prerequisites: Art 94A and 114A.
Special emphasis in developing concepts on a personal level and its application to layout—newspaper, magazines and editorial. (Formerly entitled: Fashion layout.)

196B. Visual Communication Media (2) I, II
Six hours.
Prerequisite: Art 196A.
Continuation of 196A.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of the instructor.

GRADUATE COURSES

206A-206B. Creative Printmaking (1-6)
Advanced creative work in selected printmaking media based upon the analysis of the history and philosophies of printmaking from its inception through contemporary concepts. May be repeated to a maximum of six units towards the master's degree.

216A-216B. Creative Painting (1-6)
Prerequisites: Art 112A, 112B, 116A, and 116B.
Aesthetic organization of selected visual subject matter in the medium of color in oils. May be repeated to a maximum of six units towards the master's degree.

217A-217B. Creative Sculpture (1-6)
Prerequisites: Art 117A, B, C, and D.
Aesthetic organization of selected subject matter in the media of sculpture. May be repeated to a maximum of six units towards the master's degree.

219A-219B. Creative Crafts (1-6)
Prerequisites: Six units completed in upper division courses in sculpture or ceramics or printmaking or a combination of these courses.
Advanced creative work in selected craft media. May be repeated to a maximum of six units towards the master's degree.

290. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.

291. Seminar in Creative Art (3)
Seminars in creative art are offered to provide discussion and independent research in specified areas and include the presentation of a paper with its oral defense.
Each course may be taken to a maximum of six units. No more than six units of the 291 series is applicable to a master's degree.
A. Seminar in Painting
B. Seminar in Sculpture
C. Seminar in Printmaking
D. Seminar in Ceramics
E. Seminar in Crafts
F. Seminar in Graphic Communication

292A-292B. Seminar in Art History (3-6)
Prerequisites: Art 50A and 50B.
An intensive study of the development of art styles in selected historical periods.

292A-292B. Seminar in the Principles of Design in the Space Arts (3-3)
Prerequisite: A semester course in art appreciation.
An intensive study of the activity of creative expression and aesthetic appreciation in the area of visual experience. The aesthetic analysis of original works of art.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of the staff; to be arranged with department chairman and the instructor.

300. Thesis or Project (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

ASTRONOMY

IN THE DIVISION OF THE PHYSICAL SCIENCES

Faculty
Professors: Huffert, C., Smith, C. E. (Chairman)
Associate Professor: Nelson, B., Schopp
Assistant Professor: Silverman
Lecturers: Krieger, May.

Offered by the Department of Astronomy
Master of Science degree with a major in astronomy. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in astronomy with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Minor in astronomy with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in astronomy. (Described in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

1. Descriptive Astronomy (3) I, II
Methods of astronomy and of the physical nature of members of the solar system. Not open to astronomy majors. Not open to students with credit in Astronomy 50.
9. Practice in Observing (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Astronomy I or 50.
A course designed to supplement Astronomy I. The course will include constellation study, use of astronomical co-ordinates, and descriptive observations of celestial objects with telescope.

10. Advanced Observational Astronomy (1) II
Three hours of laboratory.
Prerequisite: Astronomy 9.
A continuation of Astronomy 9. More advanced problems in observing will be taken up such as the determination of latitude by observations of Polaris, transit observations, astronomical photography, etc.

12. Elementary Navigation (3) I
Three hours of laboratory.
Recommended prerequisites: Astronomy 1 and 9.
A study of compass corrections, time, line of position, use of celestial co-ordinates, etc. A few class hours devoted to the use of tables such as H.O. 214 for the solution of astronomical triangles.

50. Physics of the Solar System (3) I
Prerequisites: Credit or concurrent registration in Mathematics 50 and Physics 4A.
A mathematical treatment of the structure and composition of the Solar System, with a study of the physical nature of the sun, planets, satellites, comets, and meteorites. Not open to students with credit in Astronomy 1.

51. Physics of the Stellar System (3) II
Prerequisites: Mathematics 50 and Physics 4A.
Application of mathematical and physical principles to stellar astronomy and the universe.

UPPER DIVISION COURSES

103. Astronomical Optics (3) II
Two lectures and three hours of laboratory.
Prerequisites: Astronomy 50, or Physics 4C, or Physics 2B and 3B.
Theory and applications of optical instruments used in astronomy. In the laboratory the students are required to complete an approved project in optical instrumentation.

104A-104B. Practical Astronomy (3-2)
Two lectures and three hours of laboratory.
Prerequisites: Astronomy 59 and 9 and credit or concurrent registration in Mathematics 51, Astronomy 104A is prerequisite to 104B.
Determination of latitude, longitude, and time. Study of methods of reduction of photographic plates. Study of precession, nutation, proper motion, refraction, and adjustment of equatorial telescope.

105. Historic Development of Astronomy (3) I
A study of the more important problems and astronomical concepts in the history of their historical development. Particular attention is given to the biography and contributions of the more important astronomers, such as Galileo, Kepler, Newton, Herschel, Bessel, etc.

Prerequisite: Mathematics 52.
Fundamental principles with applications in the fields of astronomy, physics, and engineering.

112A-112B. Astrophysics (2-3)
Prerequisites: Physics 4C and Astronomy 51. Astronomy 112A is prerequisite to 112B.
An application of modern physics to a study of the sun and the stellar system. A large part of this course will deal with the application of spectroscopy to the study of celestial objects.

113. Surveyor's Course in Practical Astronomy (3) II
Two lectures and three hours of laboratory.
Prerequisite: Engineering 2 or consent of instructor. Astronomy 50 and 9 desirable.
The principles of spherical astronomy adapted to the needs of engineering students. Computation and observation.

150. Introduction to Variable Stars and Peculiar Stars (3) II
Prerequisite: Astronomy 104A or 112A.
A study of variable stars: classification, periods, relation to other stars, methods of observation, and results; also a study of stars with unusual features in their spectra. (Formerly Astronomy 110.)

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

180. Celestial Mechanics (3) I, II
Prerequisite: Mathematics 52.
A study of the problem of two bodies based on the solutions of differential equations using Newtonian mechanics. Potential theory; geometrical interpretation of perturbations; calculation of planetary positions.

196. Advanced Topics in Astronomy (2 or 3) I, II
Prerequisite: Consent of instructor.
Selected topics in theoretical astronomy or astrophysics. May be repeated with new material for a total of six units, upon approval of instructor.

198A. Senior Project (1) I
One lecture-discussion period.
Prerequisite: An acceptable master plan for graduation within one year.
Consists of the selection and design of individual projects, oral and written progress reports.

198B. Senior Project (2) II
Six hours of laboratory.
Prerequisite: Astronomy 198A.
Laboratory work, progress reports, oral and written reports.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisites: Three units in astronomy and consent of instructor.

GRADUATE COURSES

200. Seminar (2 or 3)
Prerequisite: Consent of instructor.
An intensive study in advanced astronomy, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

210. Binary Stars (3)
Prerequisite: Astronomy 112B.
An intensive study of visual, spectroscopic, and eclipsing binaries, including the determination of orbits.

220. Galactic and Extragalactic Structure (3)
Prerequisite: Astronomy 112B.
Types, movements, and characteristics of stars in the galaxy and a similar study of extragalactic structure.
Biology

230. Stellar Interiors (3)
Prerequisite: Astronomy 112B.
Structure of the interior of stars including the details of the reactions by which energy is obtained and the evolution of stars.

280. Orbit Theory and Computation (3)
Prerequisite: Astronomy 180.
A study of the derivation of the methods of determining orbits of comets, asteroids, and planets. The computation of an orbit will be required.

297. Research (Credit to be arranged)
Research in one of the fields of astronomy. Maximum credit six units applicable on a master's degree.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff, to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

Biology

IN THE DIVISION OF THE LIFE SCIENCES

Faculty
Emeritus Faculty: Johnson, Myrtle E.
Professors: Brandt, Jameson, Ratty (Chairman), Shepard, Taylor, K.
Associate Professors: Baer, Farm, Hazen, McBlair, Sloan
Assistant Professors: Averbay, Brookes, Cox, G. Ford, Goeringer, Johnson, A.
Miller, P. Neel, Parsons, Rinehart, Taylor, M., Thwaites
Lecturer: Mathewson, S.

Offered by the Department
Master of Arts or Master of Science degree with a major in biology. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)

Major in biology with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)

Major in biology with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)

Major in biology with the B.S. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)

Minor in biology. (Described in the section on Minors for All Degrees.)
Curricula in the biological sciences which prepare for the fields of entomology, fish and game, plant quarantine, and wildlife. (Consult the advisor.)
For teaching majors and minors, refer to the section on the School of Education.

HIGH SCHOOL PREPARATION
Students in high school planning to enter any of the biological sciences should include in the high school program the following subjects: Elementary algebra, plane geometry, intermediate algebra, trigonometry, chemistry, and physics. Three years of French or German are recommended.

OTHER CURRICULA IN THE BIOLOGICAL SCIENCES

Within the majors offered in the biological sciences, curricula may be arranged for students interested in preparing for the fields of entomology, fish and game, plant quarantine, and wildlife. Students planning to specialize within the area of the biological sciences should consult with the departmental adviser in selection and arrangement of courses.

LOWER DIVISION COURSES

1. General Biology (3) I, II
Prerequisites: None; concurrent registration in Biology 2 recommended.
A beginning course in biology stressing processes common to living organisms.

2. General Biology Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 1.
A laboratory course in biology stressing processes common to living organisms.

4. Natural History of Plants and Animals (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Biology 1.
An introduction to plants and animals in relation to their environments and to one another, with emphasis on local forms and their habitats. Not open to students with credit in Biology 5.

15. Introduction to Quantitative Biology (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Biology 1, 2, and Mathematics 3.
Methods and experience in defining and solving quantitative problems in biology.

25. Introduction to Heredity (3) I, II
Study of the mechanism of heredity emphasizing the biological interrelationships of humans and representative plants and animals.

UPPER DIVISION COURSES

101. General Physiology (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 1, 2, and 15; Chemistry 1A and 1B or 2A and 2B; and Physics 2A, 2B, 3A, and 3B.
The physiological processes at the cellular, tissue and organ levels.

103. General Cytology (4) II
Two lectures and six hours of laboratory.
Prerequisites: Biology 1, 2, and 15; and Chemistry 1A and 1B or 2A and 2B.
The structure and function of cells and cell inclusions of plants and animals, including the chemical and physical properties of protoplasm and cytological methods.

105. Developmental Biology (4) I
Two lectures and six hours of laboratory.
Prerequisites: Zoology 50 and Chemistry 1A-1B. Recommended: Zoology 100 and Biology 101.
Principles of growth and differentiation in animal systems; selected experimental approaches to problems of development.

109. Regional Field Studies in Biology (1-3)
One- to three-week periods during vacations and summer sessions.
Prerequisites: At least 12 units in the biological sciences, including Biology 1 and 2, and consent of instructor.
Extended field studies of the flora, fauna, and biotic communities of major natural regions of western North America. May be repeated with new content to a maximum of six units.
110. Ecology (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 1, 2, and 15; and Chemistry 1A and 1B or 2A and 2B.
Relationships between organisms and the environment; field study in local marine,
fresh water, mountain, chaparral, and desert habitats.

111. Aquatic Biology (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 1, 2, and 15; and Chemistry 1A and 1B or 2A and 2B.
Biological, chemical and physical considerations of inland waters.

112. Fisheries Biology (3) II
Two lectures and three hours of laboratory.
Prerequisite: Biology 15.
The theory and practices of fishery management. Life histories and biology of
important game and food fishes.

113. Biological Oceanography (4)
Two lectures and six hours of laboratory.
Prerequisites: Biology 15, Zoology 10, Chemistry 1A, 1B, Physics 2A, and 2B.
A study of benthic and pelagic marine organisms and their environmental
parameters.

115. Scientific Illustration (3) I
Two lectures and three hours of laboratory; field trips.
Preparation of illustrative materials, inked drawings, charts, lettering, models, still
and movie photography, and photomicrography.

130A. Radiation Biology (2) I
Prerequisites: Biology 1 or equivalent and Physics 2A-2B, 3A-3B. Recommended:
Chemistry 1A-1B or 2A-2B, Biology 101, and Physics 12A.
Principles underlying radiobiological reactions of ionizing radiations. Effects of
ionizing radiations at the biochemical level.

130B. Radiation Biology (2) II
Prerequisites: Biology 150A.
Physiological effects of ionizing radiation on biological systems at the cell, organ,
and organism levels.

130C. Radiation Biology Laboratory (1)
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 150B.
The laboratory determination of the effects of ionizing radiation on biological
systems.

151. Radioisotope Techniques in Biology (3)
One lecture and six hours of laboratory.
Prerequisites: Biology 1, 2, and 15; Chemistry 1A and 1B or 2A and 2B, Physics
2A, 2B, 1A and 3B. Recommended: Chemistry 4 or 5, and Biology 101.
The principles and application of radioisotopes in biology. Radionuclide measure-
ment, safe handling, tracer and radioautography techniques.

155. Genetics (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Biology 1, 2, and 15.
Principles of plant and animal genetics, with experiments and demonstrations
illustrating the mechanisms of heredity.

157. Cytogenetics (4) I
Two lectures and six hours of laboratory.
Prerequisite: Biology 155.
The physical basis of heredity. Study of the chromosomes and chromosome beh-
avior in relation to problems in heredity and evolution.

158. Conservation of Wildlife (3) I, II
Prerequisite: A college course in biology.
A survey of plant and animal resources with emphasis on their conservation and
intelligent use.

160. Experimental Evolution (3) II
Two lectures and three hours of laboratory.
Prerequisite: Biology 15.
The theories of evolution and speciation with emphasis on the methods of study of
modern problems.

161. History of Biology (3) I, II
Prerequisite: A college course in biology.
Lectures and reports tracing biological scientific development, with emphasis on
the influence of personalities and trends of the times. Not more than three units
in the history of biology may be counted for graduate credit.

162. Source Material in the History of Biology (3)
Prerequisite: Biology 161.
A study of original papers of significance to the history of biology. Not more
than three units in the history of biology may be counted for graduate credit.

165. Biology of Natural Populations (3)
Prerequisite: A college course in biology.
A consideration of the relation of modern concepts of genetics, ecology and
physiology to natural populations with emphasis on the problems of human popula-
tions.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

167A-167B. Biology for Teachers (4-4)
Two lectures and six hours of laboratory.
Prerequisites: Biology 1 and 2, or equivalent.
Advanced study of biological principles including classification, physiology,
morphology, and evolution. Designed primarily for those electing a biology minor
for elementary or secondary teaching curricula. Not open to students majoring in
the biological sciences.

169. Population Genetics (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 15 and 155, Mathematics 22 or 50.
Discontinuous and continuous variation in natural populations.

170-5. Contemporary Problems in Biology (1) Summer
A series of six weekly lectures on varied aspects of biology by scientists engaged
in research. Reading and reports required of students enrolled for credit. These
lectures are open to the public. May be repeated for a total of 3 units.

175. Statistical Methods in Biology (3) I
Two lectures and three hours of laboratory.
Prerequisites: Biology 15 and Mathematics 22, or equivalents.
Application of statistical techniques to biological data. Not open to students with
credit for another upper division course in statistics except with written approval
of the chairman of the department offering the student's major, to be filed with
the Evaluations Office.

190. Senior Investigation and Report in Physiology (2) I, II
Prerequisites: Biology 101, senior standing and consent of instructor.
Investigation and reports on current physiological literature.

191. Senior Investigation and Report in Ecology (2) I, II
Prerequisites: Biology 110, senior standing and consent of instructor.
Investigation and reports on current ecological literature.
270. Seminar in Genetics (2)
Prerequisite: Biology 155.
May be repeated with new content to a maximum of four units.

271. Radiation Genetics (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 150A, 155. Recommended: Physics 121.
Basic principles of ionizing and nonionizing radiations with special emphasis on involvement of genetic systems at all levels of biological organization.

276. Physiological Genetics (3)
Prerequisites: Biology 155 or Zoology 164; Chemistry 101A. Recommended: Chemistry 115A-115B.
Biochemical aspects of the genetics of microbial and human systems.

277. Microbial Genetics Laboratory (3)
Nine hours of laboratory.
Prerequisites: Microbiology 1 or 101; Biology 276; Chemistry 115B or 116B.
The design, methods, and execution of research in microbial genetics.

290. Bibliography (2)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.

291. Investigation and Report (3)
Analysis and research techniques in biology.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff, to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

BOATING

IN THE DIVISION OF THE LIFE SCIENCES

Faculty
Emeritus Faculty: Harvey
Professor: Gallup
Associate Professors: Preston (Chairman), Weidberg
Lecturers: Barnhart, Steele

Offered by the Department
Master of Arts degree with a major in biology and an emphasis in botany. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in botany with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Major in botany with the B.S. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Minor in botany. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.
Botany

LOWER DIVISION COURSES

4. Fundamentals of Botany (3)
   Two lectures and three hours of laboratory.
   Prerequisite: Biology 1.
   Basic processes and structure of plants.

UPPER DIVISION COURSES

101. Physiology (4)
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2.
   Morphology and phylogenetic relationships of the algae. (Formerly numbered and entitled: Botany 50, Nonvascular Plants.)

102. Mycology (4) I
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2.
   The structure, food relations, and classification of fungi.

103. Vascular Plants (4)
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2.
   Structure, development and phylogenetic relationships of the Bryophytes and vascular plants. (Formerly numbered Botany 51.)

112. Cultivated Trees and Shrubs (3) I
   One lecture and six hours of laboratory and field work.
   Prerequisites: Biology 1 and 2. Botany 114 is recommended.
   Identification of the common cultivated trees and shrubs of the San Diego region. Trips to local parks and private gardens.

114. Systematic Botany (4) II
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2; and either 110 or 155. Botany 103 recommended.
   Kinds, relationships, systematic arrangement, and geographical distribution of vascular plants; collection and identification.

119-S. Field Botany (4) Summer
   Two lectures and six hours of laboratory.
   Prerequisite: A course in college biological science or consent of instructor.
   Local native vegetation with emphasis on ecological units within floristic areas. Primarily for students not majoring in the Life Sciences Division.

126. Plant Pathology (4) II
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2, Botany 102 recommended.
   A practical course dealing with the principles of disease in plants, control measures, and quarantine procedures. Emphasis is placed on the determination and control measures of those pathogenic organisms which affect crops, trees and shrubs and nursery stock.

130. Plant Physiology (4) II
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1, 2, 35, 101; and Chemistry 1A and 1B.
   The activities of plants, including food manufacture, absorption, conduction, transportation, respiration, growth and movement. (Formerly numbered 107.)

140. Plant Anatomy (4) I
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2, Botany 4 recommended.
   The arrangement of structural elements within plant organs, with emphasis on cell and tissue types. (Formerly numbered 104.)

Business Administration

162. Agricultural Botany (2) II
   Field trips to be arranged.
   Prerequisites: Biology 1 and 2. Botany 4 or Zoology 121 recommended.
   A study of California crop plants, their general identification, cultural methods, and regional distribution.

166. Honors Course (Credit to be arranged) I, II
   Refer to the Honors Program.

172. Palynology (3) II
   One lecture and six hours of laboratory.
   Prerequisite: A course in college biological science.
   Principles and methods of pollen and spore diagnosis, with reference to use in taxonomy, paleontology, anthropology, and medicine.

190A. Senior Investigation and Report (1)
   One discussion period and two additional hours to be arranged.
   Prerequisites: Botany 101 or 102 or 104, and senior standing.
   Selection and design of individual project; oral and written reports.

190B. Senior Investigation and Report (2)
   One discussion period and five additional hours to be arranged.
   Prerequisite: Botany 190A.
   Individual investigation, progress reports, oral and written final reports.

199. Special Study (1-6) I, II
   Individual study. Six units maximum credit.
   Prerequisites: 15 units in botany with grades of A or B and consent of instructor.

EXTENSION COURSE

X-119. Plant Study of the California Deserts (3)
   One lecture and six hours laboratory. Field trips arranged.
   Flowering plants of the desert region.

GRADUATE COURSES

200. Seminar (2 or 3)
   Prerequisite: Consent of instructor.
   An intensive study in advanced botany, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

298. Special Study (1-6)
   Individual study. Six units maximum credit.
   Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis or Project (3)
   Prerequisites: An officially appointed thesis committee and advancement to candidacy.
   Guidance in the preparation of a project or thesis for the master's degree.

BUSINESS ADMINISTRATION

IN THE SCHOOL OF BUSINESS ADMINISTRATION
(A member of the American Association of Collegiate Schools of Business)

FACULTY

Department of Accounting
Emeritus Faculty: Brown, E., Wright
Professors: Brodharter, Ferrel (Chairman), Lamden (Dean, on leave 1966-67), Odmark
Associate Professors: Dodds, Harned, Snudden
Assistant Professors: Gilbert, Wade
Lecturers: Dunn, Kahn, Kronemyer, Murphy, R.
Business Administration

Department of Business Education
Emeritus Faculty: Amsden
Professors: Archer, Crawford, M. (Acting Dean), Gibson, Straub
Associate Professors: Langenbach, LeBaron, Pemberton (Chairman)
Lecturers: Anderson, D., Barrons, Sprouse, Sculib

Department of Business Law and Finance
Professor: Bridenstine
Associate Professors: Hippaka (Chairman), Nye, W., Reznikoff
Assistant Professors: Chapman, Leaveron
Lecturers: Carstens, Lindsay, Smith, E. B., Staniforth

Department of Management
Professors: Becher, Hodge, Torbier
Associate Professors: Peters, Pierson (Chairman), Schrieb
Assistant Professors: Atchison, Galbraith, Ghorpade, Hampton
Lecturers: Dawson, Grogan, Mitton, Nelson, G., Sprague, Woods

Department of Marketing
Professors: Hale, Sharkey
Associate Professors: Barber (Chairman), Darley
Assistant Professors: Lindgren, Wotrubia
Lecturer: defulien

CURRICULA

Offered by the School of Business Administration
Master of Science degree in business administration with concentrations available in eight areas; a Master of Arts degree for teaching service with a concentration in business education; and a Master of Business Administration, a two-year degree. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)

Professors and Assistant Professors: Johnston, LeBaron, Pemberton (Chairman), Schrieb

 majors with the B.S. degree in business administration in the following fields: accounting, finance, insurance, management, marketing, office management, real estate. (Described in the section on the School of Business Administration.)

Minor in the following fields: accounting, business education, business management, employee relations, insurance, marketing, office management, production and operations management, real estate. (Described in the section on the School of Business Administration and in the section on Minors for All Degrees.)

For teaching majors and minors, refer to the section on the School of Education.

COURSES IN BUSINESS ADMINISTRATION

LOWER DIVISION COURSES

1A-1B. Principles of Accounting (2-2) or (4) I, II
Three hours of lecture and laboratory per two units of credit.
Prerequisite: Business Administration 1A is prerequisite to 1B.

30A. Business Law (3) I, II
Introduction to legal institutions; nature and sources of law; the judicial system; legal concepts and cases involving contracts, agency, and sales.
Prerequisite: Business Administration 30A.

30B. Business Law (3) I, II
Legal concepts and cases involving partnerships, corporations, negotiable instruments, property, security devices, creditors' rights and bankruptcy.
Prerequisite: Business Administration 30A.

50. Salesmanship (2) I, II
Theoretical and psychological backgrounds of salesmanship; never concepts of selling; the selling of ideas and services; steps in a sale: attention, interest, desire, closing; the development of clientele and of good will; the personal factor in salesmanship.

71. Beginning Typewriting (2) I, II
Four hours per week.
Fundamentals of typewriting. Development of personal-use skills. Not open to students with credit for high school typewriting.

72. Advanced Typewriting (2) I, II
Four hours per week.
Application of typewriting skills in solution of typical business problems.

73. Computational Machines Laboratory (1) I, II
Two hours of laboratory.
Laboratory course in figuring and calculating machine principles and operation.

74. Communicative Machines Laboratory (2) I, II
Prerequisite: Business Administration 71.
Laboratory course in communication and duplicating machine principles and operation.

75A-75B. Shorthand (3-3) I, II
Five hours of lecture and activity.
Prerequisite: Business Administration 72; 75A is prerequisite to 75B.
Gregg shorthand theory; dictation and transcription.

76. Advanced Shorthand (3) I, II
Prerequisites: Business Administration 75A and 75B.

Development of speed in writing and transcription.

80. Written Communications in Business (3) I, II
Prerequisite: English 1A.
Principles of effective writing applied to business and industrial situations and to the organization and presentation of reports.

UPPER DIVISION COURSES

100. Intermediate Accounting (4) I, II
Prerequisites: Business Administration 1A and 1B.
Theories and principles underlying balance sheet and income statements of partnerships and corporations.

101. Advanced Accounting (3) I, II
Prerequisite: Business Administration 100.
Theories and principles underlying balance sheet and income statements of partnerships and corporations.

102. Cost Accounting (4) I, II
Prerequisites: Business Administration 1B.
Theories and practices of job order, process cost, and standard cost systems; distribution cost analysis; use of cost data for management control and planning.

106. Income Tax Accounting (4) I, II
Prerequisites: Business Administration 1A and 1B.
Theories and principles underlying balance sheet and income statements of partnerships and corporations.

107. Advanced Income Tax Accounting (2) I, II
Prerequisite: Business Administration 106.
Theories of taxation as related to personal holding companies, corporate distributions, liquidation and capital changes; fiduciary return preparation; brief survey of gift, estate and social security taxes.

108. Governmental Accounting (2) I, II
Prerequisite: Business Administration 100.
Theories and principles of fund accounting used in state and local governmental units, hospitals, colleges, and universities. Comparisons with commercial accounting emphasize internal checks and auditing procedures.
112. Auditing (4) I, II
Prerequisite: Business Administration 101.
General principles of auditing; duties, ethics, and responsibilities of the auditor;
procedures for verification of financial records used by public accountants and
internal auditors; auditor's opinion and report.

114. Accounting Systems (2) II
Prerequisite: Business Administration 101.
General principles underlying the design and installation of accounting systems;
survey of methods and procedures necessary for internal control applicable to
various businesses; familiarization with potential and limitations of various data
processing equipment.

115. Financial Statements (2) I, II
Prerequisite: Business Administration 100.
The construction, composition, analysis and interpretation of Balance Sheets,
Income Statements and other related reports.

116. Controllership (2) II
Prerequisite: Business Administration 100.
The functions of the controller and his role in policy decisions; organization,
techniques, and reports for financial and operating control. A case discussion ap-
proach is used.

118. Advanced Business Law (3) I, II
Prerequisite: Business Administration 30A and 30B.
Principles and problems, including contractual relationships, obligations, trade
regulations, and formation and operation of business entities.

119. C.P.A. Review (3) I, II
Prerequisites: Business Administration 101, 102, 106, 107, 108, 112.
An intensive review of the accounting principles and procedures covered in the
accounting theory and accounting practice sections of the uniform C.P.A. examina-
tion prepared by the American Institute of Certified Public Accountants.

120. General Insurance (3) I, II
History of insurance; economic and social implications; principles of insurance
contracts; theory of risk; law of large numbers. Survey of all major insurance fields
and policies including life, fire, marine, inland marine, casualty and surety bonding.

121. Property and Casualty Insurance (3) I, II
Prerequisite: Business Administration 120.
All standard forms of insurance except life; includes automobile, liability, work-
men's compensation and disability, fire, marine, and inland marine. Legal interpre-
tation of contract coverages; underwriting problems, marketing of insurance, gov-
ernment supervision and control.

124. Life Insurance Principles and Practices (3) I, II
Prerequisite: Business Administration 120.
Economic and social aspects of life insurance; nature of life insurance and annuity
contracts; basic legal principles; theory of probabilities, premiums, reserves, and
nonforfeiture values; company operational activities; agency development and man-
ageent.

125. Estate Planning (3) II
Prerequisite: Business Administration 120.
Programming fundamentals with emphasis upon economic, actuarial, and legal
principles; program coordination and integration with wills; guardianships; estate
planning fundamentals; taxation; business life insurance. Analysis of life insurance
selling as a career.

127. Fundamentals of Finance (3) I, II
(Same course as Economics 133)
Prerequisites: Economics 1A and 1B or 105A and 105B, and Business Administra-
tion 1A and 1B.
Financing business enterprises. Capital and its role in production. The supply of
and demand for capital. Financial intermediaries and government regulation of
finance. The cost of capital.

128. Investments (3) I, II
Prerequisite: Business Administration 127.
Investment principles and practices with emphasis upon problems of the small
investor, such as tests of a good investment, sources of information, types of stocks
and bonds, mechanics of purchase and sale, investment trusts, real estate mortgages,
and the like.

129. Credit Management (3) I, II
Prerequisites: Business Administration 127 or 1A and 1B, and Economics 135.
Social, economic, and legal aspects of credit and lending policies. Analyzes the
development and administration of credit and lending policies in domestic and
foreign business relations, major financial institutions, and government.

130. Financial Analysis and Management (3) I, II
Prerequisites: Business Administration 127 or 1A and 1B, and Economics 135.
Evaluation of conditions and trends in the money and capital markets. Utilization
of financial data as related to the problems of business enterprises. Emphasis on
decision-making and research in finance.

131. Law in Business (3) I, II
Prerequisite: Business Administration 100.
The nature of law as a process of resolving economic disputes and social conf-
dictions. Analysis of the rationale in statutes, judicial decisions, and doctrine. The role
of law in the development of business concepts.

132. Fundamentals of Management (3) I, II
Prerequisite: Completion of lower division courses required in the major or
minor.
An analysis of what a manager does, how he selects objectives, organizes essential
activities, plans, directs and controls operations; fundamentals which guide a man-
ger's decisions.

134. The Social Environment of Business (3) I, II
Prerequisite: Consent of instructor and senior standing.
An interdisciplinary study of American business enterprise in its cultural environ-
ment. The foundations of business; historical modifications; present relationship
between business and society. The moral and ethical responsibilities of business and
the businesswoman.

135. Fundamentals of Production and Operations Management (3)
Two lectures and three hours of laboratory.
Prerequisite: Business Administration 122.
Theory, concepts and decision analysis related to effective utilization of major
factors of production in manufacturing and service industries. Study of produc-
tion systems.

136. Production and Quality Control (3) I, II
Prerequisites: Business Administration 135 and Mathematics 190A.
Forecasting, planning and controlling production flow; techniques for planning
and controlling quality of produced and purchased items; emphasis on modern
quantitative methods particularly applicable to scheduling and control.
137. Motion and Time Study (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Business Administration 135.
Work simplification through methods improvements; operations analysis; flow charts, calculation of time standards, work and speed analysis; new developments in job timing, standard setting and motion economy study.

138. Systems and Data Analysis (3) I, II
Two lectures and two hours of laboratory.
Prerequisites: Mathematics 7 or equivalent, and Business Administration 132.
The methods and concepts of gathering information, analyzing and reducing data, and preparing accounts and timely reports to management. Unified operations management, employing extensive use of computer technology in the design and operation of systems for managerial efficiency. Not open to students with credit for Business Administration 185.

140. Employee Relations (3) I, II
Prerequisite: Business Administration 132.
Problems of business and industry in dealing with employees, special attention to company and public policy, staffing, employee development, labor relations and employee motivation. Comparisons of current practices to underlying problems and theories.

141. Employee Relations Laboratory (1) I, II
Prerequisite: Credit or concurrent registration in Business Administration 140 or Political Science 144, or consent of instructor.
Investigation of employee relations practices and policies. Practice in interviewing, role playing, or in conducting field studies and related personnel research.

142. Wage and Salary Administration (3) I, II
Prerequisite: Business Administration 140.
Major problems in the determination and control of compensation from employment. Comparison of underlying theory to current practice. Not open to students with credit in Political Science 146.

143. Problems in Employee Relations (3) I, II
Prerequisite: Business Administration 140.
The employee relations function. Analysis of current practices as effective solutions to problems in this area. Guided research into the nature of employment relations.

145. Human Factors in Management (3) I, II
Prerequisite: Business Administration 132 or Political Science 144.
Organizations as social systems, power and authority; communication, motivation and leadership; impacts of technology on management and workers, resistance to change; human needs and the imperatives of management. Not open to students with credit in Political Science 145.

149. Business Policy (3) I, II
Prerequisites: Senior standing and consent of instructor.
Formulation and administration of policy; integration of the various specialties in business; development of over-all management viewpoint.

150. Marketing Principles (3) I, II
Prerequisites: Economics 1A and 1B.
Study of marketing functions, activities of producers, wholesalers, retailers and other middlemen; channels of distribution; integration of marketing activities; price policies; government regulation.

151. Problems of Marketing Management (3) I, II
Prerequisite: Business Administration 150.
An advanced course dealing with practical aspects of marketing. Solutions of problems faced by producers, wholesalers, retailers and other middlemen in the marketing of their products.

152. Retailing Principles (3) I, II
Prerequisite: Business Administration 150.
Study of retail stores, emphasizing the problems of store managers and merchandising executives; store location, organization, personnel, sales promotion, buying and handling of merchandise, inventory, turnover, and control methods. Problems of profitable operation under changing conditions.

153. Advertising Principles (3) I, II
Prerequisite: Business Administration 150.
Advertising as a sales promotional tool in marketing activities; consumer, market and product analysis; advertising media; preparation of advertisements; measurement of advertising effectiveness; economic and legal aspects of advertising; public relations; advertising campaigns.

154. Advertising Problems (3) I, II
Prerequisites: Business Administration 150 and 153.
Practice in applying accepted principles to specific problems. A variety of cases, including large, medium and small businesses are covered. Principles and solutions are developed through class discussion. Emphasis is on coordination of advertising with other marketing activities.

155. Public Relations (3) I
(Same course as Journalism 180)
Principles, methods, and objectives in the field of public relations; evaluation of the "publics" of institutions and industry; case studies of public relations problems.

157. Market Research (3) I, II
Prerequisites: Business Administration 130 and Economics 2 or Mathematics 12.
Formal research techniques and analysis for marketing decisions; principles of decision making.

158. Market Research Laboratory (1)
Prerequisite: Credit or concurrent registration in Business Administration 157.
Applications of market research techniques to selected topics. Uses and limitations of various methods of analysis. Orientation and use of computer center is included.

159. Color and Design in Merchandise (3) I, II
(Same course as Art 107)
Six hours. No prerequisite.
Principles of line, mass, and color applied to the design of manufactured goods, especially consumer goods, and to merchandise display. Shape and color in relation to utility and sale value. Practical problems.

160. Merchandise Analysis (3) I
(Same course as Home Economics 160)
Characteristics, merits, limitations, care, and selling points of the more important textile and non textile products. Stress on manufacturing processes as they affect consumer demands. Not open to home economics majors.

161. Traffic Management (3) I
Prerequisites: Economics 1A and 1B or 101A and 101B.
Organization and functions of a traffic department, routing policy on shipments, freight rates and classifications, receiving and shipping, loss and damage claims, government regulations.

162. Industrial Marketing and Wholesaling (3) I, II
Prerequisites: Business Administration 132 and 150.
Analysis of industrial market channels of distribution, advertising policies, merchandising techniques, applications and techniques of marketing research in industrial wholesaling; planning marketing programs for industrial products
Business Administration

163. Sales Management (3) I, II
Prerequisites: Business Administration 50 and 150.
Consideration of the structure of sales organizations; sales policies; selection, training, compensation, evaluation and control of the sales force; sales analysis; sales quotas; sales costs and budgets; markets and product research and analysis; co-ordination of personal selling with other forms of sales effort.

164. Purchasing and Buying (3) I, II
Prerequisites: Business Administration 132 and 150.
Policies for purchasing raw materials, parts, supplies and finished goods for manufacturing operations, for commercial uses, and for wholesale and retail resale. Buying procedures, inventory control, vendor relations, legal problems, quality control, financing.

165. Foreign Marketing (3) II
Prerequisite: Business Administration 150.
Basics and promotion of foreign marketing; foreign marketing organizations and methods; technical and financial features of international markets; selection of organization and trade channels. Determinants and principles of foreign marketing policies.

166. Honors Course I, II (Credit to be arranged)
Refer to the Honors Program.

170. Real Estate Principles and Practices (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
Functions and regulation of the real estate market; transfers of property, including escrows, mortgages, deeds, title insurance; appraisal techniques; financing methods; leases; subdivision development; property management.

171. Law of Real Property (3) II
Prerequisites: Business Administration 30A, 30B, and 170.
Legal theory and practice of estates in land; landlord and tenant relationships; land transactions; mortgages and trust deeds; easements; land use; ownership rights in land; public land law.

172. Property Management (3) I
Prerequisite: Business Administration 170.
Study of the rental markets, property management programs, collection procedures, lease forms, tenant and owner relations, rental techniques, maintenance and rehabilitation procedures, and accounts and records.

173. Real Estate Finance (3) I, II
Prerequisites: Economics 1A, 1B, (or 101A, 101B), Business Administration 30A, 30B, and 170.
Methods of financing real estate; sources of real estate credit; loan servicing; governmental financial agencies; acquisition and sale of mortgages and trust deeds.

174. Real Estate Appraisal Theory (3) I
Prerequisites: Business Administration 170 and Economics 138.
Introduction to theories, functions, and purposes of appraisals of residential and income properties: Methods of valuation, techniques of market data analysis, rehabilitation estimates.

180. Workshop in Business Education (2) Summer
Developments in business education areas such as (A) bookkeeping, (B) distributive and basic business education, (C) secretarial, and (D) typewriting. Opportunity provided for work on individual problems. May be repeated with new subject matter to a total of eight units.

181. Administration and Supervision of Distributive Education (3) II
Objectives, duties, qualifications, and problems of supervisors and coordinators in organizing and administering distributive education programs.

182. Consumer Income Management (3) I, II
Functions and responsibilities of consumers; problems of choice-making; planning expenditures for housing, household operation, insurance and investments. Economics of installment buying, borrowing procedures, control of frauds, legislation affecting consumers.

183. Executive Secretarial Management (3) I, II
Prerequisites: Business Administration 72, 74, and 75B.
Executive secretarial responsibilities and functions, including a review for the Certified Professional Secretary Examination.

184. Office Management (3) I, II
Administrative theories as they apply to typical offices; interrelationship of personnel, equipment, and services; emphasis on quantitative and qualitative aspects of office systems.

185. Office Systems and Automation (3) I, II
Prerequisite: Mathematics 7.
Principles and techniques used in formulating, installing, and operating modern office systems, the functions of business machines, including integrated and electronic data processing equipment, in these systems; applications to modern office situations.

186. Data Processing Practicum (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Mathematics 7 and Business Administration 185.
Understanding of system flow charts and computer programming; computer applications to typical automated data processing problems.

189. Scope and Function of Business Education (3) I
Philosophy, scope, and functions of business education; analysis and development of curricula; instructional foundations of basic business subjects.

197. Business Forecasting (3) I, II
Prerequisite: Business Administration 127.
Business fluctuations; forecasting, and related problems confronting the business firm; forecasting techniques; specific forecasts. Emphasis on the use of forecasts in the firm.

198. Investigation and Report (1-3) I, II
Prerequisites: Senior standing and consent of instructor.
May be repeated to a maximum of six units.
A comprehensive and an original study of a problem connected with business under the direction of one or more members of the business administration staff.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

EXTENSION COURSES

X-123A—123B. C.P.C.U. Preparation (3-3) Extension
Preparation for Chartered Property and Casualty Underwriter examination. Content to be selected by instructor from: Part I—Property; Part II—Liability; Part III—General; Part IV—Law; Part V—Accounting, Finance

X-126A—126B. C.L.U. Preparation (3-3) Extension
Preparation for Chartered Life Underwriter examination. Content to be selected by instructor from the following: Part I—Life Insurance Fundamentals; Part II—Business, Accident and Sickness, Group Insurance, and Pensions; Part III—Law; Part IV—Economics and Finance; Part V—Life Underwriting. Each part of this offering represents a two-semester course.
GRADUATE COURSES

200. Financial Accounting (3)
Prerequisite: Classified graduate standing or consent of instructor.
Basic concepts and principles of financial accounting; accounting as a data processing system; measurement of business income; financial statements.

201A-201B. Business Organization and Management (3-3)
Prerequisite: Classified graduate standing.
Functions, role, and relationships of business organizations; theories of management; decisions, dilemmas, and human values in industrial societies.

202A-202B. Quantitative Methods (3-3)
Prerequisite: Classified graduate standing.
In 202A: Measures of central tendency and variation, sampling and various statistical tests such as analysis of variance, F, t, and X² tests. Simple and multiple correlation. In 202B: The design of statistical experiments and various operations research techniques such as simulation, linear programming, queuing theory, and Markov chain analysis.

203. Marketing (3)
Prerequisite: Classified graduate standing.
The marketing activities of a firm in relation to management and society. Application of economic theory to marketing instructions and functions. Not open to students with credit for Business Administration 150 or equivalent.

204. Law for Business Executives (3)
Prerequisite: Classified graduate standing.
Development of significance, and interrelationships of law and business. Analysis of essential aspects of law pertaining to business including materials from the law of contracts, sales, agency, business organizations, property, negotiable instruments, secured transactions. Effects of government regulation of labor and business.

205. Financial Principles and Policies (3)
Prerequisite: Business Administration 200.
Finance and financial institutions as they relate to the firm and the flow of funds. Emphasis upon the supply of and demand for capital; principles and tools of business finance; money and capital markets.

206. Managerial Economics (3)
Prerequisite: Economics 100A or 201. (Students who have not completed this prerequisite must include Economics 201 as a substitute for three units of electives during their first year.)
Role of economic theory in management analysis and decisions. Study of demand, cost, and supply theories from a business viewpoint.

207. Research and Reporting (3)
Prerequisite: Business Administration 202A.
Principles of research design and data accumulation. Emphasis on the analysis and effective presentation of data related to business and industry.

208. Managerial Accounting (3)
Prerequisite: Business Administration 200.
Accounting in relation to the decision making process; various cost systems; relevancy of various cost concepts, direct costing, flexible budgets, distribution costing; break-even analysis; capital budgeting; and other techniques of management planning and control.

210. Theory and Analysis of Financial Statements (3)
Prerequisite: Business Administration 200.
An intensive study of the theories, principles, and concepts underlying financial statements; measurement and presentation of enterprise resources, equities, and income in accordance with generally accepted accounting principles; consideration of price level problems.

211. Advanced Accounting (3)
Prerequisite: Business Administration 210.
Principles and concepts related to the measurement, determination, and presentation of resources, equities, and income of parent and affiliated companies; concepts of fund accounting; specialized reporting for partnership formation, income distribution, and liquidation; statement of affairs; estates and trusts.

212. Income Tax Accounting (3)
Prerequisite: Business Administration 210.
Preparation of federal tax returns, including preparation of returns for individuals, partnerships, corporations, estates, trusts; procedures for reporting deficiency assessments, refunds, and other administrative practices.

213. Auditing (3)
Prerequisite: Business Administration 211.
Critical analysis of the application of auditing principles in verification of financial statements; review of AICPA and SEC bulletins and regulations; consideration of professional ethics, audit standards, procedures, sampling techniques, and report writing; trends and developments in auditing profession.

219. Seminar in Accounting Theory (3)
Prerequisite: Business Administration 211.
Historical development of accounting principles and theory; problems in valuation, income determination, and statement presentation.

220. Legal Aspects of Labor-Management Relations (3)
Prerequisite: Classified graduate standing.
Legal aspects of union organizational activities, representation proceedings, unfair labor practices, collective bargaining and contracts, grievances and arbitration, strikes, picketing, boycotts and injunctions.

221. Insurance Principles and Practices (3)
Prerequisite: Classified graduate standing.
Nature and extent of personal, business, and social risk. Risk handling techniques; insurance principles and practices; basic contracts analysis, insurance writing and rating; insurance problems and trends; personal and business risk management.

222. Principles of Real Estate (3)
Prerequisite: Classified graduate standing.
Functions and regulation of the real estate market, real estate finance, property management, real estate appraisal theory, specialized properties, urban development, and contemporary real estate problems.

223. Seminar in Business Finance (3)
Prerequisite: Business Administration 205.
Application of principles of finance to current problems in financial management, with emphasis on planning and development of tools for use in decision of individual student problems.

225. Seminar in Insurance (3)
Prerequisite: Business Administration 221.

226. Seminar in Real Estate (3)
Prerequisite: Business Administration 222.
Current problems in real property, Regional land use planning.

227. Seminar in Financial Markets (3)
Prerequisite: Business Administration 205.
Analysis of money and capital markets. Emphasis on factors of influence and sources and uses of data. Survey of literature in the field.
Business Administration

230. Production and Operations Management (3)
Two lectures and two hours of laboratory.
Prerequisites: Business Administration 202A and 202B.
Theory, concepts and decision analysis related to effective utilization of major factors of production in manufacturing and service industries. Utilizes the system approach to achieve unification of the production elements in terms of both analysis and synthesis. Not open to students who have credit for a basic course in production management.

231. Advanced Methods Engineering and Work Measurement (3)
Prerequisite: Business Administration 230 or equivalent.
Analysis and solution of plant management problems using multiple operation analysis and advanced work measurement techniques (M.T.M., Work Factor System, and others). Relation of production to other functions.

232. Operations Research (3)
Prerequisite: Business Administration 230 or equivalent.
Programming and simulation techniques for analysis of interlocking decision problems with and without the use of computers. Derivation of man, machine, and systems models. Design of steady state and dynamic stochastic models.

239A. Seminar in Production and Operations Management (3)
Prerequisite: Business Administration 231.
Industrial risk and forecasting; diagnosis of industrial problems; production policies and organization; determination of production methods; coordination of production activities.

239B. Seminar in Production Management (3)
Prerequisite: Business Administration 232.
Analysis by quantitative techniques for managerial planning and decision making. Applications of operations research and other concepts to industrial situations.

240. Employee Relations (3)
Prerequisites: Business Administration 201A and 201B or equivalent. (Concurrent enrollment permissible.)
Analysis of theories and factors underlying managerial policies and practices involving employees.

241. Business and Labor (3)
Prerequisite: Business Administration 240 or equivalent.
Analysis of the role of unions in the modern business community with special attention to the impact of union policies on management.

242. Wage Theory and Administration (3)
Prerequisite: Business Administration 240 or equivalent.
Study of wage theory, factors, and criteria important in determination of wage rates. Wage structure, payment methods, and other compensation relating to the business firm.

243. Management Development (3)
Prerequisite: Business Administration 240 or equivalent.
Management development programs; organization, administration, development, and evaluation.

244. Seminar in Employee Relations (3)
Prerequisite: Business Administration 240 or equivalent.
Analysis of factors underlying managerial policies and programs in employee relations.

250. Seminar in Marketing and the Economy (3)
Prerequisites: Business Administration 203 or 150.
Advertising, selling, sales promotion, and merchandising as they relate to society, business and the economy.

251. Seminar in Marketing Theory (3)
Prerequisites: Business Administration 203 or 150.
Study of marketing theory and contributions of economics and behavioral sciences to marketing thought.

252. Marketing Institutions (3)
Prerequisite: Business Administration 203 or 150.
Analysis of development of wholesaling and retailing and of growth, change, and efficiency of these institutions in the American and other economies.

253. Seminar in Marketing Price Policy (3)
Prerequisites: Business Administration 203 or 150.
Study of pricing strategy and price determination in business organizations.

259. Market Analysis and Research (3)
Prerequisite: Business Administration 203 or 150, and 202B.
Application of statistical and mathematical methods to market problems, consumer research, and product analysis.

270. Seminar in Business Education (3)
An intensive study of some phase of business education, such as administration and supervision; distributive and basic business education; trends in and methods of teaching shorthand and typewriting. May be repeated with new subject matter. Maximum of six units may be applied for the master's degree program.

273. Data Systems and Automation (3)
Prerequisite: Business Administration 202A or consent of instructor.
Principles and techniques used in formulating, installing, and operating integrated and electronic data processing systems, including computer applications to typical automated data processing problems.

278. Seminar in Office Administration (3)
Prerequisites: Business Administration 185 and 186, or Business Administration 273.
Advanced study of contemporary problems in office administration. Emphasis on current trends and developments and on individual student research.

279. Seminar in Data Systems Design (3)
Prerequisites: Business Administration 185 and 186, or Business Administration 273.
Research in the analysis and design of data processing systems.

281. Behavioral Sciences for Management (3)
Prerequisites: Business Administration 201A and 201B or equivalent.
Applications of findings from behavioral sciences to management problems and decisions. Study of organization cultures and subcultures. Impact of human behavior on the enterprise.

282. Group Processes and Leadership (3)
Prerequisites: Business Administration 201A and 201B or equivalent.
Perceptions and processes in work groups. Experience in interpersonal networks, influence and rewards, stereotypes; managing differences and conflicts.

283. Origins and Nature of American Business Enterprise (3)
Prerequisites: Business Administration 201A and 201B or equivalent.
Factors underlying the American system of business enterprise; modern corporations, the corporation man, technological change, the business community and politics, and other significant issues.

284. Policy Formulation (3)
Prerequisites: Business Administration 201A and 201B or equivalent.
Building and maintaining enterprises in our society; determining objectives; developing policies and plans for achievement; measuring and controlling organizational developments.
Chemistry

290. Seminar in Organization and Management (3)
Prerequisites: Business Administration 201A and 201B or equivalent.
Analysis of problems in business and other organizations. Organization and decision theory and contemporary developments in management science are emphasized.

290. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.

299. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

CHEMISTRY

IN THE DIVISION OF THE PHYSICAL SCIENCES
(The Department of Chemistry is on the approved list of the American Chemical Society.)

Faculty
Professors: Isensee, Joseph, Landis, Malik, Robinson, Rowe, Spangler, Stewart, C., Walba, Wick, A. (Chairman)
Associate Professors: Grubbs, Harrington, N., Hellberg, Jensen, O'Neal, Wadsworth, Ware, W., Woodson
Assistant Professors: Abbott, Jones, W., Mathewson, J., Richardson, W., Ring, Sharts

Offered by the Department
Doctor of Philosophy degree in chemistry, offered jointly with the University of California, San Diego. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Master of Arts or Master of Science degree in chemistry. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in chemistry with the A.B. or B.S. degree in applied arts and sciences, available with or without the Certificate of the American Chemical Society. (Described in the section on Applied Arts and Sciences.)
Major in chemistry with the A.B. degree in liberal arts and sciences. May be taken with or without the Certificate of the American Chemical Society. (Described in the section on Applied Arts and Sciences.)
Minor in chemistry. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

LOWER DIVISION COURSES

1A-1B. General Chemistry (5-5) I, II
Three lectures and six hours of laboratory.
Prerequisites: High school chemistry and one year of high school algebra and one year of high school geometry.
General principles of chemistry with emphasis on inorganic materials. Qualitative analysis is included in the second semester. Duplicate credit will not be allowed for the corresponding course in Chemistry 10A, 10B, or 1E.

11. General Chemistry for Engineers (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Chemistry 1A.
A continuation of the study of the principles of chemistry with emphasis on the relationships to the field of engineering. Open only to engineering majors. Not open to students with credit in Chemistry 1B.

2A. Introductory General Chemistry (3) I, II
Two lectures and three hours of laboratory.
Elementary principles of chemistry. Not open to students with credit in Chemistry 1A.

28. Elementary Organic Chemistry (3) I, II
Two lectures and three hours of laboratory.
Prerequisite: Chemistry 2A or 1A.
Introduction to the compounds of carbon including both aliphatic and aromatic substances. Not open to students with credit in Chemistry 1B or 1E.

3. Chemistry of Nutrition (3) I, II
Three lectures with demonstrations.
Prerequisites: Chemistry 2A-2B. This course is intended primarily for majors in the field of chemistry.
Digestion, metabolism and nutrition of foods and the role of vitamins, hormones and electrolytes in life processes.

4. Elementary Quantitative Analysis (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Chemistry 1B or 2B.
Fundamentals of volumetric and gravimetric analysis. Not applicable to the B.S. and the Plan A for the A.B. degree for chemistry majors. Not open to students with credit in Chemistry 10A-10B.

5. Analytical Chemistry (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Chemistry 1B; and credit or concurrent registration in Mathematics 22 or 50.
Theory and practice of volumetric, gravimetric and electrical methods of analysis. Not open to students with credit in Chemistry 4. Duplicate credit will not be allowed for equivalent work in Chemistry 10A-10B.

10A-10B. Chemical Principles and Techniques (Honors) (5-5)
Three lectures and six hours of laboratory.
Prerequisites: An outstanding record in high school chemistry, physics, and mathematics, accompanied by superior achievement on the College Aptitude Test and the college Mathematics Placement Examinations.
The application of modern electronic theory to the study of general chemistry with emphasis in the laboratory on analytical methods. Qualitative and quantitative analysis is included. Chemistry 10A-10B takes the place of Chemistry 1A-1B and is for these students as prerequisites for further courses in chemistry.

12. Organic Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 1B.
Stresses aliphatic compounds and includes an introduction to aromatic compounds.

13. Organic Chemistry Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Open only to students enrolled concurrently in Chemistry 12.
Study of the theory and practice of laboratory operations. Synthesis of typical aliphatic compounds.

22. Glass Blowing (1) II
Three hours of laboratory.
Prerequisite: Chemistry 1B.
Elementary training in the manipulation of glass.
Chemistry

UPPER DIVISION COURSES

109A-109B. Fundamentals of Physical Chemistry (3-3) I, II
Prerequisites for 109A: Chemistry 4, Mathematics 22, and Physics 2B and 3B. Not open to students with credit in Chemistry 110A.
Prerequisites for 109B: Chemistry 109A and credit or concurrent registration in Chemistry 150. Not open to students with credit in Chemistry 110B.
Fundamental principles of theoretical chemistry. This course cannot apply to the Plan "A" A.B. or B.S. major in chemistry.

109C. Fundamentals of Physical Chemistry Laboratory (2) I, II
Six hours of laboratory.
Prerequisite: Concurrent registration or credit in Chemistry 109B. Not open to students with credit or concurrent registration in Chemistry 111.
Physico-chemical experiments, errors of measurement and technical report writing.

110A-110B. Physical Chemistry (3-3) I, II
Prerequisites for 110A: Chemistry 5 and credit or concurrent registration in Physics 4C and Mathematics 51. Not open to students with credit in Chemistry 109A.
Prerequisites for 110B: Chemistry 110A. Not open to students with credit in Chemistry 109B.
Theoretical principles of chemistry with emphasis on mathematical relations.

111. Physical Chemistry Laboratory (3) I, II
Nine hours of laboratory.
Prerequisite: Credit in Chemistry 110B or concurrent registration with consent of instructor. Not open to students with credit or concurrent registration in Chemistry 109C.
Physico-chemical apparatus and measurements, with emphasis on technical report writing.

112. Organic Chemistry (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Chemistry 12.
Stresses aromatic compounds, continues with more complex aliphatics and introduces mechanisms of organic reactions.

113. Organic Chemistry Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Open only to students enrolled concurrently in Chemistry 112.
Study of theory and practice of laboratory operations. Synthesis of typical aromatic compounds.

114A-114B. Clinical Biochemistry (4-4)
Two lectures and six hours of laboratory.
Prerequisites: Chemistry 4 or 5 and 12.
Principles of biochemistry and analytical methods applied to blood, urine, and other body fluids. This course cannot apply to the major in chemistry.

115A-115B. Fundamentals of Biochemistry (3-3)
Two lectures and three hours of laboratory.
Prerequisites: Chemistry 4 or 5 and 12.
The chemistry and metabolism of carbohydrates, fats, and proteins. Not open to students with credit in Chemistry 115A-115B.

116A-116B. General Biochemistry (3-3)
Three lectures per week.
Prerequisites: Chemistry 109B or 110B, and 112.
The structure, function, metabolism, and thermodynamic relationships of chemical entities in living systems. Not open to students with credit in Chemistry 115A-115B.

118. Advanced Physical Chemistry (3) II
Three lectures per week.
Prerequisite: Chemistry 110B.
Chemical statistics, solid state theory, transport phenomena, chemical kinetics in solution and additional selected topics in modern physical chemistry.

127A. Inorganic Chemistry (3) I, II
Prerequisite: Credit or concurrent registration in Chemistry 109B or 110B.
The physical basis of the periodic system, complex inorganic compounds, and the nature of the chemical bond.

127B. Inorganic Chemistry (3) I, II
Prerequisite: Chemistry 127A.
An advanced systematic study of representative and transition elements and their compounds.

127C. Inorganic Chemistry (1) I, II
Three hours of laboratory.
Prerequisite: Concurrent registration in Chemistry 127B.
Laboratory work in synthetic inorganic chemistry.

130. Chemistry for Elementary Teachers (3) Summer
Lectures, demonstrations, and field trips. No prerequisites.
Practical chemistry designed to develop an understanding of basic concepts, methods and materials of chemistry used in the elementary school. Not open to students with previous credit in chemistry.

131. Theoretical Organic Chemistry (3) I, II
Prerequisites: Chemistry 109A or 110A and 112.
The application of modern electronic theory to the physical and chemical properties of organic compounds.

150. Analytical Chemistry (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Chemistry 4 or 5, 12, and 109A or 110A.
Advanced theory and practice of quantitative analysis and an introduction to methods of analysis.

154. Organic Qualitative Analysis (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Chemistry 112 and credit or concurrent registration in Chemistry 109A or 110A.
A systematic study of the identification of organic compounds and mixtures.

155. Advanced Instrumental Methods (4) I, II
Two lectures and six hours of laboratory.
Prerequisites: Chemistry 5, 112, and credit or concurrent registration in 110B. Not open to students with credit for Chemistry 150.
Advanced theory and practice of chemical instrumentation.

156. Quantitative Microanalysis (3)
One lecture and six hours of laboratory.
Prerequisites: Chemistry 112 and 150.
Techniques of microanalysis including carbon, hydrogen, nitrogen, halogen, sulfur, oxygen and metal analyses.

160A-160B. Principles of Chemical Engineering (3-3)
(Same course as Engineering 160A-160B)
Prerequisite: Credit or concurrent registration in Engineering 108 or Chemistry 109A or 110A.
Industries: stoichiometry; fluid flow and heat transfer as applied to unit operations such as evaporation, distillation, extraction, filtration, gas-phase mass transfer, and others. Problems, reports, and field trips.
166. Honors Course (Credit to be arranged) I, II
   Refer to the Honors Program.

170. Radiochemistry (4) I, II
   Two lectures and six hours of laboratory.
   Prerequisite: Chemistry 109A or 110A.
   Principles and techniques of radioactivity as applied to chemistry. Measurements related to radionuclides, and tracer applications.

191. Chemical Literature (1) II
   Prerequisite: Upper division standing in chemistry.
   An introduction to the availability, scope and use of the chemical literature.

196. Selected Topics in Chemistry (1-3) I, II
   Prerequisite: Consent of instructor.
   A study of selected topics in modern chemistry. May be repeated for additional credit with new subject matter for a total of six units.

198. Senior Project (1-6) I, II
   Prerequisite: Three one-year courses in chemistry and senior standing.
   An individual investigation and report on a problem. May be repeated to a maximum of six units.

199. Special Study (1-6) I, II
   Individual study. Six units maximum credit.
   Prerequisite: Consent of instructor. Open only to students who have shown ability to do A or B work in chemistry.

GRADUATE COURSES

200. Seminar (1 to 3)
   An intensive study in advanced chemistry, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

210. Advanced Topics in Physical Chemistry (Credit to be arranged)
   Prerequisite: Consent of instructor.
   Selected topics in physical chemistry. Maximum credit six units applicable on a master's degree.

211. Chemical Thermodynamics (3)
   Prerequisites: Mathematics 52 and Chemistry 110B.
   Chemical thermodynamics and an introduction to statistical thermodynamics.

212. Chemical Kinetics (3)
   Prerequisites: Mathematics 52 and Chemistry 110B.
   Theory of rate processes; applications of kinetics to the study of reaction mechanisms.

213. Quantum Chemistry (3)
   Prerequisites: Mathematics 52 and Chemistry 110B.
   Quantum mechanics of atomic and molecular systems; applications to chemical bonding theory.

214. Molecular Structure (3)
   Prerequisites: Mathematics 52 and Chemistry 110B.
   Theory and techniques used in the determination of molecular structure.

215. Chemical Statistical Mechanics (3)
   Prerequisite: Chemistry 211.
   Statistical mechanics as applied to chemical systems.

216. Physical Chemistry of Electrolytic Solutions (2)
   Prerequisite: Chemistry 211.
   Theory of ionic solutions: electrode potentials, activity coefficients, partial molal quantities, conductance and ion association.
Comparative Literature

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

COMPARATIVE LITERATURE

IN THE DIVISION OF THE HUMANITIES

Faculty assigned to teach courses in comparative literature are drawn from departments in the Division of the Humanities.

All material assigned for classes in comparative literature is in English translations, and no knowledge of any foreign language is required.

Major work is not offered in comparative literature; however, courses in this field may be used as part of the English major. For specific information, refer to English.

A minor is offered in comparative literature.

LOWER DIVISION COURSES

52A-52B. Masterpieces of World Literature (3-3) I, II
(Same course as English 52A-52B)
A chronological survey from Homer to modern times. The first semester stresses the classical epic and tragedy. The second semester stresses more recent literature, including prose fiction, the drama, and the essay.

70A-70B. Introduction to Oriental Literature (3-3)
Major writings in translation, with emphasis each semester on the literature of one oriental country.

UPPER DIVISION COURSES

101A-101B. Modern Continental Fiction (3-3)
(Same course as English 101A-101B)
Selected works by modern novelists and short story writers of continental Europe. First semester, the late nineteenth century; second semester, the twentieth century.

102A-102B. Greek and Latin Literature (3-3)
Masterpieces of ancient Greek literature the first semester, Latin literature the second.

115. The Bible as Literature (3) I
(Same course as English 115)
A study of the narrative, poetry, and prophecy of the King James version of the Bible. Readings, reports, lectures, and discussions.

138. Introduction to Aesthetic Appreciation (1) I
(Same course as Humanities 138)
A study in the art, music, and literature, presented by an interdepartmental staff through lectures, demonstrations, and panel discussions.

140A-140B. Masterpieces of French Literature (3)
A cultural course designed to be given in introduction to the great French works from the Song of Roland through Cyrano de Bergerac, with emphasis on the sixteenth, seventeenth, eighteenth, and nineteenth century authors. The contributions of the Romantic age, Realism, Symbolism, and the trends of the twentieth century are given emphasis. Readings are from major works in English translation.

142. The Golden Age of German Literature (3) I, II
Masterpieces of German literature from the eighteenth and early nineteenth centuries.

Economics

143. Masterpieces of Modern German Literature (3) I, II
Selected works in English translation by outstanding German writers, poets, and thinkers of the 19th and 20th centuries. Included are contributions by Hölderlin, E.T.A. Hoffmann, Heine, Keller, Hebbel, Nietzsche, Hauptmann, Rilke, Hesse, Th. Mann, Kafka, Werfel, Benn, Brecht, and others.

152A-152B. World Drama (3-3)
(Same course as English 152A-152B)
Study of selected tragedies and comedies from Asiatic, European, English, and American literature, with emphasis upon the human problems depicted therein and upon the timelessness of certain themes, such as those of Electra and Medea. Lectures, discussions, and reports on readings.

170. Studies in Modern Oriental Literature (3)
Types of recent literature in translation, with emphasis on the writing of one oriental country. May be repeated once for additional credit with new material.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

ECONOMICS

IN THE DIVISION OF THE SOCIAL SCIENCES

Faculty
Emeritus Faculty: Cameron, Ryan
Professors: Anderson, G. K., Barkley, Flagg (Chairman), Gifford, McClintic, Turner, M. S.
Associate Professors: Babilot, Leasure, Neuner
Assistant Professors: Chadwick, Jencks, Khang, Smith, L. G., Wellington, Yamamura
Lecturers: Behrens, Gardner, Williams, R., Woolrych

Offered by the Department
Master of Arts degree with a major in economics; and Master of Arts degree for teaching service with a concentration in social science (economics). (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in economics with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in economics. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

LOWER DIVISION COURSES

1A. Principles of Economics (3) I, II
An introduction to principles of economic analysis, economic institutions, and issues of public policy. In this semester the emphasis is upon macro-analysis including national income analysis, money and banking, business cycles, and economic stabilization. Not open to students with credit in Economics 103A.

Prerequisite: Economics 1A.
An introduction to principles of economic analysis, economic institutions, and issues of public policy. In this semester the emphasis is upon the direction of price system (micro-analysis); and international economics. Not open to students
Economics

2. Statistical Methods (3) I, II
Prerequisites: Mathematics 21 or higher numbered course, or Mathematics 3 at this college with a grade of C or better, or qualification by examination on subject matter of Mathematics 3 (on Mathematics Placement Examinations—see calendar).
Introduction to descriptive statistics, statistical inference, correlation, index numbers, and time series. Not open to students with credit for another course in statistics.

UPPER DIVISION COURSES

100A. Intermediate Economic Theory (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
Economic theory with special reference to the theory of the firm and the industry; value and distribution.

100B. Intermediate Economic Theory (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
Economic theory with special reference to national income analysis and the theory of investment.

101. History of Economic Thought (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
A study of the development of economics. Contributions of schools of thought and individual writers are examined with regard to their influence on economic theory and policy.

102. Comparative Economic Systems (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
The economic aspects of laissez-faire and regulated capitalism, co-operatives, socialism, communism, nazism, fascism. Experience in Russia, Germany, the United States, Great Britain. Criteria for evaluating economic systems. The individual and government in each system. Planning in a liberal capitalistic society.

103A. Economic Principles, Institutions, and Policies (3) I, II
Prerequisite: Six units in political science, history, or sociology.
Income and employment theory and its applications. Not open to students with credit in Economics 1A. May not be used to fulfill minimal upper division requirements in the economics major or minor or special major.

103B. Economic Principles, Institutions, and Policies (3) I, II
Prerequisite: Economics 103A or 1A.
Price theory and its applications. Not open to students with credit in Economics 1B. May not be used to fulfill minimal upper division requirements in the economics major or minor or special major.

105. Welfare Economics (3) II
Prerequisites: Economics 1A and 1B, or 103A and 103B, and 100A.
Welfare economic analysis; the economic and ethical conditions of optimum welfare arrangements; theoretical and empirical findings; social welfare functions and social planning.

107. Quantitative Economics (3) I, II
Prerequisites: Economics 1A and 1B, or 103A and 103B, and Economics 2.
The quantitative approach to economic problems. Emphasis on the use of mathematics in economic analysis.

110. Economic History of Europe (3) I
Prerequisites: Economics 1A and 1B or 103A and 103B.
A general survey of economic development from the Middle Ages to the present. Particular attention is given to the impact of the Industrial Revolution on national economies, especially on England's commerce and industry.

111. Economic History of the United States (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
A comprehensive survey of American economic development and of national legislation in the field of industry and commerce.

114. Economic Problems of Latin America (3) I
Prerequisites: Economics 1A and 1B or 103A and 103B.
Economic development, institutions, and problems of Latin America.

115. Economic Problems of South and East Asia (3)
Prerequisites: Economics 1A and 1B or 103A and 103B.
Economic development, institutions, and problems of China, India and Pakistan, Japan, and Southeast Asia.

118. The Economy of the Soviet Union (3) II
Prerequisites: Economics 1A and 1B or 103A and 103B.
The development, institutions, and problems of the Soviet economy.

119. Economic Problems of Africa and the Middle East (3) II
Prerequisites: Economics 1A and 1B or 103A and 103B.
Economic development, institutions, and problems of Africa and the Middle East.

131. Public Finance (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
Principles and practices of taxation and public expenditures. Economic effects of public spending, debts and taxation. Financing social security and other services. Fiscal policy and prosperity. Relation to inflation and deflation. Special emphasis on social problems involved.

133. Fundamentals of Finance (3) I, II
(Same course as Business Administration 127)
Prerequisites: Economics 1A and 1B, or 103A and 103B, and Business Administration 1A and 1B.

135. Money and Banking (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
The elements of monetary theory; History and principles of banking with special reference to the banking systems of the United States.

138. Urban Land Economics (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
Analysis of major influences affecting city location and growth; role of private and governmental institutions in influencing residential and other uses of land; major considerations in appraising, managing, financing, marketing, developing and taxation of urban property. Discussion of San Diego problems.

142. Business Cycles (3) I
Prerequisites: Economics 1A and 1B or 103A and 103B.
Analysis of fundamental factors in economic fluctuations. Examination of business cycle theories; and of various policy proposals for economic stabilization. A consideration of current economic conditions and an examination of methods employed in preparing national economic forecasts.

150. Labor Problems (3) I, II
Prerequisites: Economics 1A and 1B or 103A and 103B.
A study of labor organizations and their policies, wages, strikes, unemployment, social insurance, child labor, labor legislation, plans for industrial peace, and other
151. **Labor Legislation (3) I**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  Labor-management relations; fair labor standards; arbitration and conciliation of industrial disputes. Federal, state and local laws dealing with these subjects.

152. **Collective Bargaining (3) II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  Structures of labor relations, management and union problems; public policy and collective bargaining; conditions of successful collective bargaining.

166. **Honors Course (Credit to be arranged) I, II**  
Refer to the Honors Program.

170. **Government and Business (3) I, II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  General survey of governmental activities affecting business; the state as an entrepreneur and manager; governmental assistance to business; governmental regulation of business in its historical, legal and economic aspects, including recent developments in the United States and abroad; proposed policies.

171. **Transportation Economics (3) I**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  Economic impact of the availability and cost of transportation services. Organization and rate-making practices, financing and regulation of transportation agencies: air, surface, and water. Current issues of national transportation policy.

172. **Public Utilities (3) II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  

173. **Economic Resources and Growth (3) II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  Resource requirements for continued growth in the American economy; human resources; capital formation; energy, water and material resources. Effects of population increase. Factors determining resource growth and productivity. Impact of technological change. Current resource development policies.

174. **Economic Concentration and Monopoly Power (3) I**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  The implications of economic concentration and monopoly. The evaluation of mergers, consolidations and other forms of monopoly power in terms of social and economic goals. Attempts to control monopoly power by antitrust laws, by policies regarding competitive practices and by other means.

175. **Industry Studies (3) II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  Evaluation of the structure, conduct and performance of selected industries in terms of social and economic goals.

185. **Social Insurance (3) II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  Old age pensions, health insurance, unemployment insurance, and Social Security Act. Strength and weakness of existing systems.

190. **International Economics—Principles (3) I**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  National welfare and foreign trade. Foreign exchange and the balance of payments, financing foreign trade. Regulations over trade and obstructing factors. Doctrines of international trade.

195. **International Economics—Problems (3) II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  International economic conflict and cooperation, international economic communities (common markets), international economic conferences and organizations.

196. **Economics of Underdeveloped Areas (3) II**  
- Prerequisites: Economics 1A and 1B or 103A and 103B.  
  The nature and causes of economic underdevelopment. An analysis of problems of and policies for the economic development of underdeveloped areas of the world.

197. **Research Design and Method (3) II**  
- Prerequisites: Economics 107.  
  Instruction in the practical application of the various techniques of economic research to a range of problems typically encountered in the economics profession; sources and limitations of basic data, survey research, industry studies, economic forecasting, national impact studies, area and regional studies.

198. **Investigation and Report (3) I, II**  
- Prerequisites: Economics 107.  
  Open to economics majors only.  
  Designed to stimulate independent study and investigation; to furnish guidance in the collection, organization, and presentation of factual material; to improve the technique of term reports.

199. **Special Study (1-6) I, II**  
- Prerequisites: Consent of instructor.  
  Individual study. Six units maximum credit.

**GRADUATE COURSES**

200A-200B. **Seminar in Advanced Economic Theory (3-3)**  
- Prerequisites: Economics 100A and 100B.  
  Individual research, seminar reports, group discussion of problems in economics theory. (Formerly numbered 201A-201B)

201A-201B. **Seminar in the Development of Economic Thought (3-3)**  
- Prerequisites: Twelve units in economics. A critical study of the development of economic thought. (Formerly numbered 201A-201B)

202. **Seminar in Comparative Economic Systems (3)**  
- Prerequisites: Economics 102 or 115 or 118.  
  Topics in comparative economic systems; the Soviet economy, the economy of Communist China, and related subjects.

203. **Economic Analysis (3)**  
- Prerequisite: Classified graduate standing.  
  The theory of the firm in a market economy. Not open to students with credit in Economics 100A-100B, not applicable toward a master's degree in economics. (Formerly numbered 201)

210. **Seminar in Economic History (3)**  
- Prerequisites: Economics 110 or 111.  
  Individual study and group discussion on selected topics in economic history.

231. **Seminar in Public Finance (3)**  
- Prerequisite: Economics 131.  
  Advanced study of public finance problems and literature; research.

235. **Seminar in Money and Banking (3)**  
- Prerequisite: Economics 135.  
  Individual research, seminar reports and group discussion of selected economic problems related to the structure and functioning of the financial system.
Education

241. Econometrics (3)
Prerequisite: Economics 197.
Measurement in economics. The construction and testing of econometric models.
Emphasis on the adaptation of statistical analysis to economics. Estimating demand,
supply, and the marginal propensity to consume; forecasting national income.

250. Seminar in Labor Economics (3)
Prerequisite: Economics 150 or 151 or 152.
Individual study and group discussion of selected topics in labor economics.

272. Seminar in Utilities and Water Resources (3)
Prerequisite: Economics 172 or Economics 173.
Advanced study and group discussion of selected topics in utility economics and
regulation, and the economics of water resource development.

274. Seminar in Economic Concentration and Monopoly Power (3)
Prerequisites: Economics 174 or both Economics 170 and 100A.
Selected topics in the field of economic concentration and monopoly.

290. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliog-
raphies, preparatory to the writing of a master's thesis.

295. Seminar in International Economics (3)
Prerequisites: Economics 190 or 195 or 196.
Individual and group research into selected topics; group discussion of procedures
and results.

296. Seminar in the Economics of Underdeveloped Countries (3)
Prerequisite: Economics 196.
Theories regarding underdevelopment and policies for development of economi-
cally underdeveloped countries.

297. Research (3)
Prerequisites: Classified graduate standing and consent of instructor.
Independent research project in an area of economics.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff to be arranged with department chairman and
instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to can-
didacy.
Guidance in the preparation of a thesis for the master's degree.

EDUCATION

IN THE SCHOOL OF EDUCATION
(Member of the American Association of Colleges for Teacher Education)

Faculty
Emeritus Faculty: Corbett, Hammack, E., Hammack, I.; Madden, R., White
Brydegaard, Crum, Fishburn, Fisher, J., Friedrich, Fullerson, Gega, Gray,
Grissier, Groff, Hill, W., Houseman, Hunter, J., Kinder, Linley, Malcolm,
Nordell, Person (Acting Associate Dean), Plat, Proudy, Schumert, Schupp
(Dean on leave 1966-67), Stough (Acting Dean), Strand, Trimmer, Wetherill

Associate Professors: Bacon, Briggs, Bruce, Campbell, L., Falk, Gates, Holz, Huls,
Inkeep, Kendall, Klemer, LaPray, Lienert, Pettays, Ross, R., Rowland, Schmidt,
Servy, Singer, Smith, H., Wilding
Assistant Professors: Anderson, A. J., Anthony, Birch, Bradley, Geyer, Givens,
Halfaker, Hill, P., Klaas, LuPone, Miller, R., Mitchell, Moore, W., Reel,
Sanner, Schroeder, Smith, R. D., Strom, Tossas, Walsh
Lecturers: Ashworth, Baumgartner, Butzine, Coyne, Effron, Emerson, Epler,
Grant, Hammons, Jones, B., Matthews, Rezek, Schmock, Shimmin, Wall,
Weston, Whitemore

IMPERIAL VALLEY CAMPUS

Faculty
Professor: Johnson, A.
Associate Professors: Charles, C., Ikeda, Rodney (Director)
Assistant Professors: Baldwin, Brown, W., Cockrell, Gast, Harmon, Smith, A.,
Strong
Lecturers: Hinshaw, McKay, Ward

Offered by the School of Education
Master of Arts degree in education with concentrations in nine areas. (Described
in the Graduate Bulletin. Also refer to the section in this catalog on the Gradu-
ate Division.)
B.E degree. (Described in the section on the School of Education.)
B.V.E. degree. (Described in the section on the School of Education.)
Teaching credentials in all areas. Refer to the section on the School of Education.

LOWER DIVISION COURSES

A. Review of Arithmetic (0) I, II

B. Review of Handwriting (0) I, II

R. Review of Reading (0) I, II

S. Review of Spelling (0) I, II

Noncredit courses designed to increase competence in the skill subjects. For
students who do not qualify on the respective sections of the Fundamentals Test
required of all applicants to elementary teacher education.

UPPER DIVISION COURSES

Social Foundation

100. The Secondary School (4) I, II
Prerequisite: To be taken concurrently with Education 180B.
American Education in its social and historical setting. The secondary school
curriculum, the philosophies, issues, and social forces that influence the school. Not
open to students with credit in Education 101 or 102.

101. History and Philosophy of Education (2) I, II, Summer
Prerequisites: Senior standing and a minimum of 12 units in education.
Historical backgrounds and underlying philosophies upon which the public school
system has been established. Emphasis on the meaning of education, educational
aims and values, and democracy and education. Not open to students with credit in
Education 100.

102. Secondary Education (3) Irregular
An introduction to understanding the development of secondary education and
its present status as a social institution. Not open to students with credit in Educa-
tion 100.
Psychological Foundations

110. Psychological Foundations of Education for Secondary Teachers (5) I, II
Prerequisites: Admission to Teacher Education and education program approved by the Coordinator of Secondary Education. To be taken concurrently with Education 200A or Audio-Visual laboratory checkout.
The nature of growth and development, principles and theories of learning, and guidance practices, test and measurements. Not open to students with credit in Education 112 or 113. (Formerly entitled: Development and Learning.)

111. The Learner in the Elementary School (3) I, II, Summer
Prerequisites: Psychology I and admission to Elementary Education. Intellectural, emotional, social, and physical development during childhood and early adolescence, including basic principles of child guidance and counseling. Directed observation required. (Formerly Education 112, Child Growth and Development.)

112. The Learning Process in the Elementary School (3) I, II, Summer
Prerequisite: Education 111.
Psychological principles for effective classroom teaching; techniques of measurement and evaluation of the diagnosis and improvement of learning. (Formerly Education 111, Educational Psychology.)

113. Growth and Development of the Adolescent (3) Irregular
Study of adolescent physiological, psychological, social, and emotional development, including principles of mental hygiene and guidance. Field work with adolescent groups in the community is required. Not open to students with credit in Education 110.

114. Interpretation of Early Childhood Behavior (3) Irregular in Summer
For kindergarten-primary teachers creating the analysis and interpretation of early childhood behavior, emphasis on understanding and interpreting the causative factors in typical behavior of children to parents, social workers, teachers, and others concerned with the guidance of kindergarten-primary children.

115. Guidance in Elementary Education (3) I, II, Irregular
A study of the basic principles of guidance and their function in the educational process as applied in the elementary school.

118. Supervision of Child Welfare and Attendance (3) Irregular
Content includes laws relating to children, guidance principles, social casework, agency relationships, conference techniques, home visitation methods, employment supervision, attendance work, child accounting, familiarity with testing techniques.

Methods—Secondary

120. The Teaching Process (4) I, II
Three lectures and three hours of laboratory and/or field work.
Prerequisites: Education 110 and concurrent registration in Education 180 or 316.
To develop teacher competency at the secondary level in professional and community relationships, and in planning teaching, and evaluating learning activities (with emphasis on the use of audio-visual resources and the development of class morale). Not open to students with credit in Education 152.

121. Methods and Materials of Instruction: Major (2) Minor (2) except Education 121Q (3)
Lecture courses, except that Education 121K and 121N meet for one lecture and three hours of laboratory.
Professional courses in specific teaching fields taken concurrently with directed teaching. Each course emphasizes the application of best practices with reference to each subject area named.

Subject fields for section 121 are as follows:

Offered in the Fall Semester
121A. Methods in Art
121B. Methods in English
121C. Methods in Home Economics
121D. Methods in Industrial Arts
121E. Methods in Physical Science
121F. Methods in Mathematics
121G. Methods in Music
121H. Methods in Speech Arts
121J. Methods in Social Science
121K. Methods in Life Science
121L. Methods in Business Skills
121M. Methods in General Science

Offered in the Spring Semester
121B. Methods in English
121D. Methods in Industrial Arts
121F. Methods in Mathematics
121K. Methods in Physical Science
121M. Methods in Social Science
121N. Methods in Life Science
121Q. Methods in Business Skills
121V. Methods in General Science

Offered Irregularly
121P. Methods in Health Education

122. Reading in Secondary Education (3) Irregular
The nature of the reading program, development of techniques and skills, vocabulary development, reading in the content fields, the differentiated attack, measurement, diagnosis, and remediation.

125. Organization and Administration of Music Education (2) II
Administration of an instrumental music program: purchase, care, depreciation of instruments and equipment; developing interest, ethics, schedule-making; operation and maintenance of music library; personnel and equipment records; the achievement point system; the marching band show; rehearsal procedure.

126. Workshop in Secondary Education (3 or 6) Summer
Designed to meet the needs of individuals or groups of teachers who wish to develop or continue the study of some problem with the consultation of the college staff and the San Diego County Curriculum Staff.

Methods—Elementary

130. First Elementary Education Practicum (6)
Three lecture and two hours of activity.
Prerequisite: Concurrent registration in Education 111, or consent of Coordinator of Elementary Education.
Curriculum, principles, methods, and materials of instruction (including audio-visual), and participation in elementary education, in the areas listed A through C below.

130A. Arithmetic (2 or 3) I, II, Summer
130B. Language Arts (2 or 3) I, II, Summer
130C. Student Teaching (2) I, II

131. Second Elementary Education Practicum (6)
Three lecture and two hours of activity.
Prerequisites: Education 111 and 110; concurrent registration in Education 112 or consent of Coordinator of Elementary Education.
Curriculum, principles, methods, and materials of instruction (including audio-visual), and participation in elementary education, in the areas listed in A through C below.

131A. Reading (2 or 3) I, II, Summer
131B. Social Studies (2 or 3) I, II, Summer
131C. Student Teaching (2 to 4) I, II
132. Third Elementary Education Practicum (10) Four lectures and four hours of activity. Prerequisites: Education 112 and 131. Curriculum, principles, methods, and materials of instruction (including audiovisual), and participation in elementary education, in the areas listed in A through D below.

132A. Science (2 or 3) I, II, Summer
132B. Art (2 or 3) I, II, Summer
132C. Music (2 or 3) I, II, Summer
132D. Student Teaching (4 to 8) I, II

133. Children's Literature in Elementary Education (3) Irregular Criteria for the selection of children's literature, children's reading interests, the development of units of instruction in the social studies, the use of the verse, choir, dramatic readings and similar procedures, and the use of the library.

134. Laboratory in Elementary Education (3) Summer A general course in observation and theory, including a study of arithmetic, reading, language, music, science, social studies, art, spelling. Students in this course will observe in the summer demonstration school and discuss with the staff the teaching procedures.

135. Workshop in Elementary Education (3 or 6) Irregular To meet the needs of individual or groups of teachers who desire to study selected problems in elementary education. The observation of classroom teaching will be provided for members in attendance. Interested persons should correspond with the Coordinator of Elementary Education, San Diego State College.

136. Modern Foreign Languages in Elementary Education (3) Irregular Prerequisites: French or German or Spanish; (1964-65) courses 1, 2, 10, 11, or equivalents; (1965-1966) courses 1, 2, 3, 10, 11, or equivalents; (1966-1967) courses 1, 2, 3, 4, 10, 11, or equivalents.
Method of teaching modern foreign languages in the elementary school, emphasizing the audio lingual approach. Students will produce materials and learn to use tapes, film strips, records, films, language laboratories, and written materials.

137. Reading Difficulties (3) I, Summer Prerequisites: Education 112 and 131A or 122.
Methods of teaching reading, reading difficulties, their causes, prevention, and correction. Remedial practices in reading useful to the classroom teacher, school counselor, and reading specialists.

138. Curriculum in Elementary Education (3) Irregular Emphasis upon the selection and development of content, teaching methods, and materials as they relate to social needs; evaluation procedures; psychological principles, and the nature of the learner.

139. Kindergarten-Primary Practicum (2) I, II, (3) Summer The theory of early childhood education and the materials and teaching techniques used in the kindergarten. This course must be taken concurrently with Education 132C when the student teaching assignment is in the kindergarten.

140. Audiovisual Instruction (3) I, II, Summer Three lectures and two hours of laboratory. Audiovisual materials and techniques as they affect learning; operation of equipment.

141. Creating Audiovisual Materials for Classroom Use (3) Irregular Prerequisite: Education 140. Practice in the creation and evaluation of instructional materials, such as 35 mm. filmstrips, 16 mm. films, scripts, recordings and other audiovisual materials.

142-5. Workshop in Educational Television (6) Summer (Same course as Speech Arts 142-5) Open to teachers and students interested in instruction by television. The procedures and theories of television production as it pertains to closed-circuit and instructional use of television. The selection and utilization of program content and the method of presenting material through the television medium will be discussed and demonstrated.

144. Application of Programmed Instruction (3) Irregular Prerequisite: Education 112 or 110, or Psychology 175. Application of programmed instructional materials to the teaching process, i.e., punch and strip devices, programmed texts, teaching machines. Selection, evaluation, and utilization of programmed materials in team-teaching and other new instructional systems. Individual preparation of instructional programs; laboratory practice.

151. Measurement and Evaluation in Elementary Education (3) I, II, Summer Should follow Education 112 for elementary credential candidates. The use of intelligence and achievement tests in the diagnosis and improvement of learning; construction of objective examinations; problems of evaluation in education; the elements of statistical techniques.

152. Measurement and Evaluation in Secondary Education (3) Irregular Problems of evaluation in secondary education, construction of examinations, the elements of statistics, the selection and interpretation of standardized measures. Not open to students with credit in Education 120.

166. Honors Course (Credits to be arranged) I, II Refer to the Honors Program.

Exceptional Children

161. Measurement and Evaluation in Special Education (4) II Three lectures and 3 hours of laboratory. Prerequisites: Education 120 or 152; and Psychology 105. Consideration of representative tests and evaluation procedures appropriate to the several areas of exceptionality; problems in psycho-educational diagnosis and appraisal; assembling and utilizing test results for the educational and/or rehabilitation program.

163. Curriculum and Methods for Teaching Emotionally Disturbed Children and Youth (3) II or Irregular Prerequisites: Education 162 or 167. Selection, organization and presentation of curricular materials for emotionally disturbed children and youth.

164. Education of the Neurologically Handicapped (3) I Prerequisites: Education 167 and Psychology 109. Educational and psychological problems of brain-injured children and youth; identification procedures; educational programs, instructional methods, preparation of materials.

167. Exceptional Children (3) I, II, Summer Characteristics and adjustment problems of mental, physical, and emotional deviates.
168. Curriculum and Methods for Teaching Mentally Retarded Children in the Elementary School (3) I, Summer
Prerequisite: Psychology 109 or Education 167.
Selection, organization, and presentation of curricular materials for mentally retarded children at all levels of the public schools. Concentration will be on the elementary level. (Recommended for students with specialization in Elementary Teaching.)

169. Curriculum and Methods for Teaching Mentally Retarded Children in the Secondary School (3) I, Summer
Prerequisite: Psychology 109 or Education 167.
Selection, organization, and presentation of curricular materials for mentally retarded children at all levels of the public schools. Concentration will be on the secondary level. (Recommended for students with specialization in Secondary Teaching.)

170. Workshop in Special Education (6) Summer
Curriculum and methods of teaching in an area of exceptionality; observation of demonstration class; development of materials of instruction. May be repeated once in a second area of exceptionality. Not more than six units may be used for any degree.

171. Practicum in Mental Retardation (2) II
Prerequisites: Admission to Special Education, and Psychology 109 or concurrent registration.
Supervised observation and participation in classroom and related school activities for mentally retarded. Course work includes discussion, analysis, and reports of observations.

172. Counseling Exceptional Children (3) I, Summer
Prerequisites: Education 110 or 112, and Education 167 or Psychology 109 or Speech Arts 170.
Educational, mental, social, and vocational counseling of exceptional individuals and their parents. Interrelationships of home, school, and community agencies.

173. Education of the Severely Mentally Retarded (3) II, Summer
Prerequisites: Education 167 and Psychology 109, and admission to Special Education.
Organization and planning of instructional activities; materials and equipment; utilization of resources, records, and reports; and classroom management of those under 50 IQ and those with neurological impairments.

174. Principles and Methods of Speech Correction (3) I
(Same course as Speech Arts 174)
Prerequisites: Speech Arts 100 and 170, or consent of instructor.
Etiology and treatment of the more common speech disorders, including physiology of speech, voice disorders, cleft palate, foreign dialect.

175. Stuttering and Neurological Disorders (3) I
(Same course as Speech Arts 176)
Prerequisites: Speech Arts 100 and 170.
Clinical survey of newest methods of speech correction. Special emphasis given to causes and treatment of stuttering, cerebral palsy speech problems and aphasia in adults and children.

176. Audiology (3) I
(Same course as Speech Arts 171)
Prerequisite: Consent of instructor.
Anatomy, physiology, and psycho-physiology of the human ear, theories of hearing, medical aspects, pathology, audimetric techniques with practice, including tuning fork and pure tone audiometry, play audiometry, and speech audiometric procedures. Meets educational certification requirement.

177. The Teaching of Lipreading (3) II
(Same course as Speech Arts 178)
Prerequisite: Education 177 or Speech Arts 171.
History, theory, and methods of lipreading and language development for the deaf, including hearing conservation and education. Aids for the classroom teacher; program and materials of instruction for the specialized teacher.

Student Teaching

180A. Directed Teaching Secondary (1-1) I, II
Any grade below C is unacceptable for a credential.
Systematic observation, participation, and teaching under supervision in a junior or senior high school. A weekly seminar or conference is required.

180C. Directed Teaching Secondary (3-5) I, II
Prerequisites: Concurrent registration in Education 257 is required for Education 180C. Any grade below C is unacceptable for a credential.
Systematic observation, participation, and teaching under supervision in a junior or senior high school. A weekly seminar or conference is required.

181. Directed Teaching—Elementary (2-12) I, II
Prerequisites: Admission to teacher education and education program approved by the Coordinator of Elementary Education. Any grade below C is unacceptable for a credential.
Systematic observation, participation and teaching under supervision in the Campus Elementary School or affiliated elementary schools. During each semester of student teaching a weekly conference period is required as indicated in the time schedule.

182. Directed Teaching—Mentally Retarded (4) I, II
Application to take the course should be made during the preceding semester. Extensive daily participation or teaching in public schools and preparation for the teaching of exceptional children in the area of the mentally retarded.

183. Directed Teaching—Library Practice (2-4) I, II
Prerequisites: Admission to teacher education and concurrent completion of a teaching minor in Library Science.
Systematic observation and participation in library and audiovisual service under supervision in a school library and/or teaching materials center. During each semester of student library work a weekly conference period is required as indicated in the time schedule.

184. Directed Teaching—Speech Correction (4) I, II
Application to take the course should be made during the preceding semester. Extensive daily participation or teaching in public schools and preparation for the teaching of exceptional children in the area of speech correction.

185. Directed Teaching—Hearing Impaired (4)
Application to take the course should be made during the preceding semester.
Extensive daily participation or teaching in public schools and preparation for the teaching of exceptional children in the area of hearing impaired.

Conference and Special Courses

190. Conference on the Teaching of Mathematics (1) Summer
May be taken three times for credit.
Lectures, discussions, and demonstrations on problems in teaching of mathematics in the elementary and secondary schools. Designed for teachers, supervisors, and administrators interested in current developments in this area.

191. Guidance Conference (1) Summer
Prerequisite: Consent of director of the conference. Course may be taken three times for credit.
A series of lecture and discussion sessions centering on current problems in counseling and guidance. Designed to serve the needs of any person desiring to keep informed of developments in this area.
Education

192. Audiovisual Conference (1) Summer
May be taken three times for credit. Course does not fulfill credential requirement.
A series of lectures, discussions and demonstrations, centering on problems in the use of audiovisual instructional materials. Designed for teachers, administrators, audiovisual representatives, and others interested in current developments in this area.

199. Special Study (1-6) I, II, and Summer
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor. Open only to senior and graduate students in education who have shown ability to work independently.

EXTENSION COURSES

X-116A—116B—116C. Child Study Laboratory (3-3-3) I, II
Development of background and procedures for child study and their application to field situations. Field work required. For teachers in service. Education X-116A is prerequisite to X-116B, and X-116B is prerequisite to X-116C.

X-197. Problems in Education (Credit to be arranged) Extension
Prerequisite: Consent of instructor.
Class study of specially selected problems in education. Does not apply to pattern requirements for credentials. Offered only in extension.

GRADUATE COURSES

Prerequisites for All Graduate Courses
For requirements for admission to graduate courses, refer to the section of this catalog on the Graduate Division. In addition to these general requirements, 12 units of professional education courses are prerequisite for enrollment in all graduate courses in education except Education 201, 223, and 251, which require special clearance from the Coordinator of Junior College Programs.

Sociological Foundations

201. The Junior College (2) I
Fieldwork, including observation and audiovisual experiences required.
Overview of philosophy, history, aims, scope, function, outcomes, principles and problems of the junior college. Relation of the junior college to elementary and secondary schools and to four-year colleges.

202. Social Foundations (2 or 3) I, II, Summer
Prerequisite: Education 131C.
Sociological, historical, and philosophical foundations of American Education and their influence on present day educational practices.

204. Comparative Education (3) I, Summer
The contemporary educational ideas and practices of various countries of the world and their impact upon our culture and education.

205. History of Education (3) Irregular
Prerequisite: Education 100 or 101.
Advanced study of the history of education with emphasis on educational practices as related to present day problems.

206. Philosophy of Education (3) Irregular
Prerequisite: Education 100 or 101.
Advanced study of philosophical backgrounds of educational thought; a study of comparative philosophies, and an analysis of selected current trends and problems.

207. Educational Sociology (3) Irregular
Prerequisite: Education 100 or 101.
A study of the social, economic, political and moral setting in which present day American education functions.

208. Workshop in Community Influences on Learning and Curriculum Planning (3 or 6) Summer
Prerequisite: Teaching experience.
Advanced study of community influences on learning and child growth and development, and of group techniques; implications for curriculum planning. Provides opportunity for work on individual problems of the participants.

Procedures of Investigation

211. Procedures of Investigation and Report (3) I, II, Summer
Research methods in education. Location, selection, and analysis of professional literature. Methods of investigation, data analysis, and reporting. Required of all applicants for advanced degrees in education. (Formerly Education 290A-290B.)

Educational Psychology

220. Advanced Educational Psychology (3) I, II, Summer
Prerequisite: Education 110 or 112.
Advanced study of research and its application to learning and human growth.

221. Seminar in Educational Measurement (3) Summer
Prerequisite: One of the following: Education 150, 151, or 152.
Problems in educational testing. Emphasis upon construction, administration, and validation of teacher-made tests.

222. The Gifted Child (3) I, Summer
Prerequisites: Education 110, 111 and 112.
The abilities and characteristics of the intellectually gifted or talented; related problems of curriculum, teaching, administration and guidance.

223. Educational Psychology: Junior College (2) I
Fieldwork required.
Prerequisite: Credit or concurrent registration in Education 201.
The nature of the junior college student; the learning process including contributions of audiovisual materials. The functions of student personnel services in the junior college.

Guidance

224. Administration of Pupil Personnel Services (3) I, II, Summer
Prerequisite: Education 230.
The organization and administration of school guidance services, including the use of guidance resources and a study of laws relating to children and child welfare. (Formerly Education 234.)

225A-225B. Determinants of Pupil Behavior (3-3) I, II
Prerequisites: Education 110, or Education 111 and 112.
Implications of selected research findings in behavioral sciences for the understanding of pupil behavior. Education 225A will deal with the psychological and psycho-physiological research; 225B with social, cultural, and linguistic research.

226. Guidance Services in Public Education (3) I, II, Summer
Prerequisite: Education 110, or Education 111 and 112.
Historical, philosophical, and legal bases of the pupil personnel services; staff roles and relationships in a variety of organizational patterns.

229. Workshop in Pupil Personnel Services (3) Summer
Prerequisites: Teaching experience and consent of director of the workshop.
Application of principles and procedures to specific situations for improvement of pupil personnel services. Individual problems emphasized. (Formerly Education 239.)

230. Guidance Problems in Secondary Education (3) I, II, Summer
Prerequisite: Education 110 or equivalent, and student teaching or teaching experience.
The theory and practice of guidance emphasizing advanced mental hygiene concepts needed by teachers and counselors.
Education

231. Theory and Process of Pupil Appraisal (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Education 225A, 225B, and 226.
Measurement theory and procedures, including interpretation of test results to pupils, parents, and teachers. (Formerly entitled: Techniques of Pupil Appraisal.) Not open to students with credit in Education 217.

232. Theory and Process of Vocational Choice (4) I, II
Three lectures and three hours of laboratory and/or field work.
Prerequisites: Education 225A, 225B, and 226.
Vocational choice theory, occupational and educational materials used in career planning. Not open to students with credit in Education 237.

233. Theory and Process of School Counseling (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Education 225A, 225B, and 226.
Counseling theory and techniques, interviewing and case study methods. Supervised practice in interviewing school age pupils, analyzing interviews, and writing reports. Not open to students with credit in Education 218 or Psychology 152.

234. Theory and Process of Group Work in Guidance (2) I, II
One lecture and three hours of laboratory.
Prerequisites: Education 225A, 225B, and 226.
Group process and individual growth, theories of group interaction, group therapy, and group leadership techniques: applications for the school setting. Not open to students with credit in Education 236.

237. Measurement and Information in Guidance (6) Summer
Five units of lecture and one unit of laboratory.
Prerequisites: Education 225A, 225B, and 226. Application to enter the course must be made early during the preceding semester.
Measurement theory, interpretation of test results, vocational choice theory, occupational and educational information in career planning. Not open to students with credit in Education 231 or 232.

238. School Counseling: Individual and Group (6) Summer
Five units of lecture and one unit of laboratory.
Prerequisites: Education 225A, 225B, and 226. Application to enter the course must be made early during the preceding semester.
Counseling theory and techniques, individual and group. Not open to students with credit in Education 233 or 234.

239. Professional Seminar in Guidance (2) I, II
Prerequisites: Education 231, 232, 233, and 234, or equivalent.
Study of current problems, issues, and research in pupil personnel services. Not open to students with credit in Education 333.

Elementary Education

240. Curriculum Construction and Evaluation in Elementary Education (3) I, II, Summer
Prerequisite: Credit or concurrent registration in Education 211.
Advanced study of the research in curriculum development, construction, and evaluation.

241. Seminar in Arithmetic in Elementary Education (3)
Prerequisite: Credit or concurrent registration in Education 211.
A study of research and practice in the methods of teaching and in the curriculum of elementary and junior high school arithmetic.

242. Seminar in Reading in Elementary Education (3)
Prerequisite: Credit or concurrent registration in Education 211.
Advanced study of trends in reading instruction. Topics include developmental sequences in reading skills and abilities, reading in the content fields, individual differences, and interests. Students will develop individual projects or problems.

243. Seminar in Social Studies in Elementary Education (3) Irregular
Prerequisite: Credit or concurrent registration in Education 211.
Advanced study of problems in teaching social studies in the elementary school with emphasis on the study of the scientific research in the field.

244. Seminar in Language Arts in Elementary Education (3) Irregular
Prerequisite: Credit or concurrent registration in Education 211.
Advanced study of problems in teaching language arts in the elementary school, including spelling, literature and written and oral communication. Emphasis will be on the study of scientific research in the field.

245. Seminar in Elementary Education (3) Irregular
Prerequisite: Credit or concurrent registration in Education 211.
A study of the methodology of research with particular reference to the basic research in the psychology and teaching of the elementary school subjects.

246. Advanced Diagnosis in Reading (3) I, Summer
Prerequisites: Psychology 204 and Education 137.
Principles and techniques of individual and group diagnosis of reading difficulties. Experience in administration and interpretation of individual and group instruments of diagnosis.

247. Advanced Diagnosis and Treatment of Learning Difficulties (3) II, Summer
Prerequisites: A teaching credential and Education 151 or 152.
Principles and techniques of diagnosis and treatment of difficulties in learning the school subjects. Supervised experience in working with individual pupils and their parents.

248. Seminar in Science in Elementary Education (3)
Prerequisite: Credit or concurrent registration in Education 211.
Advanced study of the problems of teaching science in the elementary school with emphasis on the literature of science education.

Secondary Education

250. Curricular Problems in Secondary Education (3) I, II, Summer
Prerequisite: Student teaching or teaching experience.
Present status and development of the secondary school curriculum with emphasis on curriculum construction and curriculum evaluation. Opportunities provided for study of problems submitted by students.

251. Instructional Methods and Materials: Junior College (2) II
Prerequisites: Education 223 and concurrent registration in Education 316.
The teaching process at the junior college level, including lesson planning utilization of audiovisual and other instructional materials and procedures of evaluation.

252. Seminar for Student Teachers (3) I, II
Prerequisites: Education 110 and 100. To be taken concurrently with Education 180C.
Advanced study in the application of principles and research related to planning instruction, selecting and using materials, evaluating instruction and pupil progress, maintaining class morale; school law and finance for classroom teachers.

254. Advanced Problems in Secondary School Instruction (3) I, II, Summer
Prerequisites: Teaching experience and consent of instructor.
An analysis of the scientific research and philosophical principles in secondary school instruction.

256. Recent Trends in Secondary Curriculum (3) Irregular
Prerequisites: 12 units in secondary education and consent of instructor.
Current practices and trends in secondary schools. Extensive individual work on related problems of interest to members of the class.
257. Workshop in Intercultural Education (4) Summer
Enrollment only by application to the Dean of Education. A cooperative workshop sponsored by the college and the San Diego City Schools to study trends in intercultural education in American schools, including units curricula and instructional materials and techniques.

258. Research in Curricular Problems (1-3) Irregular
Admission by consent of the Coordinator of Secondary Education and the instructor.
Individual study by graduate students who have demonstrated exceptional ability and a need for such work.

School Administration and Supervision

260. Principles of School Administration (3) I, II, Summer
Federal, state and local school administrative relationships including the financial and legal structure at these three levels.

261. Education Leadership (3) I, II, Summer
Prerequisites: Standard Teaching Credential and consent of instructor.
Concepts and techniques of leadership, analysis of the factors and practice in the procedures of group and individual leadership in four areas: (a) the community; (b) the teaching staff; (c) the student personnel; (d) the professional field of educational administration and supervision. (Formerly Education 278.)

262. Principles of and Procedures for Instructional Improvement (3) I, II, Summer
Prerequisites: Standard Teaching Credential and consent of instructor.
Impact of improvement on instruction through selection of personnel, development and utilization of in-service programs, teacher evaluation; related legal and financial factors.

263. Curriculum Development and Evaluation (3) I, II, Summer
Prerequisites: Standard Teaching Credential and consent of instructor.
Curriculum development and evaluation in both elementary and secondary schools, with emphasis on interrelationships between these levels, responsibilities of curricular and supervisory personnel, and use of research.

264A-264B-264C. Seminar in Elementary School Administration and Supervision (2-2-2) I, II, Summer
Prerequisites: Education 260, 261, 262, 263, consent of instructor, and admission to Program of Educational Administration.
Analysis of theories and practices in the administration and supervision of the elementary school.

265A-265B-265C. Seminar in Secondary School Administration and Supervision (2-2-2) I, II, Summer
Prerequisites: Education 260, 261, 262, 263, consent of instructor, and admission to Program of Educational Administration.
Analysis of theories and practices in the administration and supervision of the secondary school.

266A-266B-266C. Field Experience in Elementary School Administration and Supervision (1-1-1) I, II, Summer
Prerequisite: Concurrent registration required in Education 264A, 264B, 264C.
Field experience in the elementary schools. Approval of local school district required in the semester prior to registration.

267A-267B-267C. Field Experience in Secondary School Administration and Supervision (1-1-1) I, II, Summer
Prerequisite: Concurrent registration required in Education 265A, 265B, 265C.
Field experience in the secondary schools. Approval of local school district required in the semester prior to registration.

268. Seminar in School Administration and Supervision (3) I, II, Summer
Prerequisites: Standard Teaching Credential, Education 260, 261, 262, 263, consent of instructor, and admission to Program of Educational Administration.
School administration and supervision in a specialized field, such as the junior college, a subject field, or designated services. Field experience required. May be substituted for Education 264C or 265C.

271. Supervision of Student Teaching (2) Irregular
Open to experienced teachers interested in the teacher education program. Study of selection, orientation, induction, counseling, and evaluation of student candidates and student teachers, and guiding student teachers plan lessons, conduct classroom learning, analyze pupils' difficulties and achievement.

272. Seminar in Education of Exceptional Children (3) I
Prerequisite: Education 167.
Principles, trends and research in the education of exceptional children.

273. Seminar in Education of the Mentally Retarded (3) II
Prerequisites: Education 168 or 169 and Psychology 109.
Review of studies and investigation in learning and adjustment of retarded children including etiology, classification, diagnosis, and assessment.

274A. Utilizing Audiovisual Materials in the Classroom (3) I, Summer
Prerequisite: Education 140.
A critical analysis of research evaluating the use of visual, auditory, and other sensory materials in education.

275. Administering the Use of Audiovisual Materials (3) II, Summer
Prerequisite: Education 140.
Organizing, supervising, and coordinating audiovisual centers as an integral part of educational systems.

276. Seminar in Programed Instruction (3 to 6) Irregular
Prerequisite: Education 144.
Theories of programed instruction, with emphasis on construction of programs, application to teaching situations. Analysis and revision of programed projects.

280. Legal and Financial Aspects of School District Management (3) Irregular
Prerequisites: Standard Teaching Credential, Education 260, 261, 262, 263, and consent of instructor.
Principles and practices of law and finance as an aspect of school business administration, school plant planning and development, and the operation and maintenance of school facilities and services.

281. School-Community Relationships (3) Irregular
Prerequisites: Standard Teaching Credential, Education 260, 261, 262, 263, and consent of instructor.
Sociological aspects of school administration with particular emphasis on broad social policy, contemporary issues, community-school relationships, other school service agencies of the community.

282. School District Personnel Management (3) Irregular
Prerequisites: Standard Teaching Credential, Education 260, 261, 262, 263, and consent of instructor.
Personnel relationships to include administrative relationships with the Board of Education and the school staff. Central office personnel procedures including recruitment, employment, placement, evaluation, promotional and training procedures.

283. District Curriculum Development, Evaluation and Improvement (3) Irregular
Prerequisites: Standard Teaching Credential, Education 260, 261, 262, 263, and School District curricular development from kindergarten through junior college, relationships of the superintendent and central administrative staff to regular staff.

Education

284. Advanced Seminar in School Administration and Supervision (3) Irregular
Prerequisites: Standard Teaching Credential, Education 280, 281, 282, 283, and consent of instructor.
An intensive study of a selected area in school administration and supervision. May be repeated with new content for additional credit to a maximum of nine units.
Typical courses in this area are School Law, School Finance, School Supervision, Personnel Procedures.

286A-286B. Seminar in School Building Construction and Utilization (3-3) Irregular
Prerequisite: Possession of Standard Administration or Supervision Credential, or consent of instructor. Completion of or concurrent registration in Education 286A is prerequisite to 286B.
School building construction and utilization: the development of new facilities from the planning stage to complete utilization; remodeling.

Special Study and Research

295A-295B. Seminar (3-3) I, II, Summer
Prerequisites: Education 211 and advancement to candidacy for the master's degree in education.
An intensive study in selected areas of education culminating in a written project.
Limited to students following Plan B for the Master of Arts degree in education.

298. Special Study (1-6) I, II, Summer
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3) I, II, Summer
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

Student Teaching and Internship

316. Directed Teaching Junior College (4) I, II
Prerequisites: Admission to Teacher Education and approval of the Junior College program coordinator. Credit in Education 201 and 223 and concurrent registration in Education 251.
Systematic observation, participation, and teaching under supervision in a junior college. Any grade below C is unacceptable for a credential. A weekly seminar or conference is required.

330. Guidance Internship (2-6) I, II, Summer
Application to take the course should be made early during the preceding semester.
Supervised internship experience in pupil personnel activities with school age pupils. May be repeated with new content for additional credit.

331. Field Work in School Guidance (2-6) I, II
Prerequisites: Education 231, 232, 233, and 234.
Application of concepts and procedures of pupil personnel services in public schools. Daily observation and practice. Weekly seminar sessions with college staff.

332. Practicum in School Counseling (3) I, II
Prerequisites: Education 231, 232, 233, and 234. Application to take the course must be made early during the preceding semester.
Supervised experience in group and individual counseling and career planning with school age pupils. Not open to students with credit in Education 333.

Engineering

333. Advanced Seminar and Practicum in Counseling (6) Irregular and Summer
Prerequisites: Education 237 and 238. Application to take the course must be made early during the preceding semester.
Supervised experience in group and individual counseling and career planning with school age pupils, and study of current problems, issues, and research. Not open to students with credit in Education 239 or 332.

360. Internship in School Administration and Supervision (3 to 6) I, II
Prerequisites: Standard Teaching Credential and consent of instructor.
Internship for prospective school administrators in the public schools. It is recommended that applicants have prior experience as a local school administrator. Application must be made during the second semester of the previous school year.

371. Directed Internship—Mentally Retarded (4) I, II
Application to take the course should be made during the preceding semester.
Extensive daily participation or teaching in public schools and preparation for the teaching of exceptional children in the area of the mentally retarded.

374. Directed Internship—Speech Correction (4) I, II
Application to take the course should be made during the preceding semester.
Extensive daily participation or teaching in public schools and preparation for the teaching of exceptional children in the area of speech correction.

375. Directed Internship in Audiovisual Education (2-6) I, II
Application to take the course should be made during the preceding semester.
Supervised internship experience in audiovisual services in the public schools.

ENGINEERING

IN THE SCHOOL OF ENGINEERING

(The undergraduate curriculum in Engineering, with options in aerospace, civil, electrical and electronic, and mechanical engineering, is accredited by the Engineers' Council for Professional Development)

Faculty

Professors: Capp (Dean), Fitz, Lodge, Morgan, C., Quiett, Rao, Shutt, Stone, S., Walling
Associate Professors: Bauer, Bedore, Conly, Dharmarajan, Johnson, P., Stone, H., Sklar, Slinn

Offered by the School of Engineering

Master of Science degree in aerospace, civil, electrical, and mechanical engineering. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)

Major with the B.S. degree in engineering, with options in aerospace, civil, electrical and electronic, and mechanical engineering. (Described in this section Minor in engineering. (Described in the section on the School of Engineering and in the section on Minors for All Degrees.)
A. Introduction to Engineering (1)
   A survey of the fields of engineering, designed to familiarize the student with
   the nature, the requirements, the responsibilities, and the opportunities of the profession.

2. Plane Surveying (2)
   One lecture and six hours of laboratory.
   Use, care, and adjustment of surveying equipment. Introduction to standard pro-
   cedures, techniques of plane surveying, and plane table mapping.

20A. Engineering Graphics (2 or 3) I, II
   Six or nine hours of laboratory.
   Prerequisites: Mathematics 40 or equivalent (may be taken concurrently); stu-
   dents who have completed Industrial Arts 211 or who pass a placement examination
   will enroll in a 2-unit section; all others will enroll in a 3-unit section.
   The 3-unit section begins with lettering, use and care of instruments, geometrical
   constructions, and basic projection drawing and dimensioning.
   The course continues with representation and analysis of basic engineering prob-
   lems using systems of projection, coordinate systems, and space solutions with
   mathematical correlation; graphical computation, vectors, functional scales, no-
   mography, and representations and analysis of empirical data.

20B. Engineering Graphics (2) I, II
   Six hours of laboratory.
   Prerequisite: Engineering 20A.
   Continuation of Engineering 20A.

24. Engineering Measurements (3) I, II
   Two lectures and three hours of laboratory.
   Prerequisites: Mathematics 30 and Engineering 20B.
   Fundamental principles of physical measurement as applied to engineering science.
   Recognition, analysis, and control of errors; evaluation of observations; reliability
   of computations; graphical representation of measured quantities, curve fitting.

25. Engineering Materials (3) I, II
   Prerequisites: Chemistry 1B or 1E, Physics 4B, and Mathematics 51.
   Atomic and molecular structure of materials utilized in engineering. Analysis of
   the relationships between structure of materials and their mechanical, thermal, elec-
   trical, corrosion and radiation properties, together with examples of specific applica-
   tion to engineering problems.

50. Engineering Mechanics—Statics (3) I, II
   Prerequisites: Physics 4A and credit or concurrent registration in Mathematics 51.
   Engineering applications of the principles of static equilibrium of force systems
   acting on rigid bodies. Centroids and moments of inertia, introduction to fluid
   statics, and dry friction.

   Prerequisites: Engineering 50 and credit or concurrent registration in Mathe-
   matics 52.
   Kinematics and kinetics of particles and rigid bodies. Newtonian laws of motion,
   work and energy, linear and angular momentum. Applications to engineering
   problems. Vector notation will be used. Not open to students with credit for
   Engineering 102.

65A-65B. Industrial Practice (2-3)
   Prerequisite: Sophomore standing in engineering. Selection based on personal
   interview, following written application.
   Supervised training in co-operating industrial organizations. First year of a three-
   year program providing the opportunity for selected students to correlate their
   formal college training with industrial experience at corresponding levels of respon-
   sibility and difficulty.

100A. Electric Circuits (3) I, II
   Prerequisites: Physics 4B and Mathematics 51.
   Direct-current circuits, magnetic circuits, induced voltages, single-phase and poly-
   phase alternating-current circuits, coupled circuits, the transformer and introduction
   to network analysis.

100B. Electrical Machinery (3) I, II
   Two lectures and three hours of laboratory.
   Prerequisite: Engineering 100A.
   Theory of operation and the analysis of the characteristics of transformers, DC
   and AC motors and generators. Associated control devices.

100C. Electric and Magnetic Fields (3) I, II
   Prerequisites: Physics 4B and Mathematics 52.
   Electrostatic and magnetostatic field theory using vector notation; Coulomb's
   Law, Gauss' Law and potential theory. Solutions to Poisson's and Laplace's equa-
   tions; capacitance and inductance. Time varying electric and magnetic fields; Max-
   well's equations.

101. Elements of Applied Electronics (2) I, II
   Prerequisite: Engineering 100A.
   Application of electron tubes, transistors in typical electronic circuits. Analysis
   of the operational characteristics of electron tubes and transistors. Emphasis on
   their utilization in engineering devices and systems.

102. Dynamics (3) I, II
   Prerequisites: Engineering 50, and Mathematics 52 or registration in Mathe-
   matics 117.
   Fundamentals of Newtonian mechanics. Elements of vector algebra and calculu.
   Kinematics and kinetics of particles and rigid bodies, Newtonian laws of motion,
   work and energy, linear and angular momentum. Applications to engineering
   problems. Primarily for transfer students who have not had a course in dynamics.
   Not open to students with credit for Engineering 51.

103. Electrical Engineering Laboratory (1) I, II
   Three hours of laboratory.
   Prerequisites: Engineering 100B and credit or concurrent registration in Engi-
   neering 101. Not open to students filing an electrical engineering master plan.
   A laboratory course to include selected experiments in electrical circuits, electrical
   machinery, and electronics.

106. Manufacturing Processes (2) I
   One lecture and three hours of laboratory.
   Prerequisite: Engineering 25.
   Analysis of the various machines, tools, and processes used in modern manufac-
   turing and fabrication operations.

108. Thermodynamics (4) I, II
   Three lectures and three hours of laboratory.
   Prerequisites: Physics 4C, Engineering 24 and 25, and credit or concurrent regis-
   tration in Engineering 51 or 102.
   Generalized concepts of force, displacement, work and energy; development of
   laws of classical thermodynamics; general equations of thermodynamics; application
   to simple chemical systems.

109A. Metallic Materials (3) II
   Two lectures and three hours of laboratory.
   Prerequisites: Engineering 25 and Physics 4C.
   Ferrous and nonferrous metallurgy. Effect of heat treatment, aging, and other
   processes on physical properties. Significance of design criteria on selection of
Engineering

109B. Nonmetallic Materials (3) I
Two lectures and three hours of laboratory.
Prerequisite: Engineering 109A.
Fundamentals of plastics, reinforced plastics, and ceramics. Analysis of effect of physical properties upon selection of a material for use in design.

115. Fluid Mechanics (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Engineering 51 or 102; credit or concurrent registration in Engineering 108 and Mathematics 118A.
Statics and dynamics of incompressible and compressible fluids. Viscosity, friction, laminar and turbulent flow. Flow in pipes and open channels. Introduction to hydrodynamics and flow about immersed objects.

116. Resistance of Materials (4) I, II
Three lectures and three hours of laboratory.
Prerequisites: Engineering 25; Engineering 51 or credit or concurrent registration in Engineering 102; and credit or concurrent registration in Mathematics 118A.
Elastic and plastic properties and strength of engineering materials. Analysis of types of failures, stress analysis and deformation of simple structural and machine members. Laboratory testing procedures and experimental confirmation of elastic and plastic theory.

118. Transfer and Rate Processes (3) I, II
Prerequisites: Engineering 115 and Mathematics 118A.
Fundamentals of rates of change in enthalpy and composition of matter; heat and mass transfer and chemical reaction rates.

120A. Structural Analysis I (4) II
Prerequisite: Engineering 116.
Principles of mechanics applied to analysis of beams, frames, trusses, and three-dimensional frameworks. Graphical methods, influence lines, deflections; introduction to statically indeterminate structures and moment distribution.

120B. Structural Analysis II (3) I
Prerequisite: Engineering 120A.
Analysis of statically indeterminate structures by virtual work. Advanced treatment of slope deflection, moment distribution, Arch analysis, secondary stresses in trusses. Advanced treatment of influence lines.

121. Reinforced Concrete (3) II
Prerequisite: Engineering 120A.
Properties and characteristics of reinforced concrete; design of structural components. Introduction to plastic theory and limit design.

122. Soil Mechanics and Foundation Engineering (3) I
Two lectures and three hours of laboratory.
Prerequisites: Geology 33, Engineering 116, and credit or concurrent registration in Engineering 115.
Principles of mechanics of soils; physical and mechanical properties; consolidation, shear strength and compaction; lateral earth pressures and bearing capacities; shallow and deep foundations. Laboratory studies applied to design problems.

123. Applied Hydraulics (3) I
Prerequisite: Engineering 115.
Application of principles of fluid mechanics in the fields of hydrology, water supply, hydraulic machinery, drainage, and waste disposal.

125. Sanitary Engineering (3) II
Prerequisite: Engineering 123.
Unit processes used in water treatment and waste-water disposal; physical and chemical tests used in the analysis of water and waste-water.

126. Engineering Photogrammetry (3) I
Two lectures and three hours of laboratory.
Prerequisite: Engineering 24.
Principles of metrical photography as they apply to engineering. Use of aerial and terrestrial photographs for interpretation of topography, soil types and drainage conditions for engineering works. Stereoscopic compilation of maps from photographs.

127. Highway Engineering (3) I
Two lectures and three hours of laboratory.
Prerequisites: Engineering 128A and credit or concurrent registration in Engineering 123.
Highway planning, economics, and administration; geometric design; traffic engineering; subgrade structure; bituminous and Portland-cement concrete pavements.

128A. Surveying for Civil Engineers (3) II
Two lectures and three hours of laboratory.
Prerequisite: Engineering 24.

128B. Advanced Surveying (3) I
Prerequisite: Engineering 128A.
Theory and application of precise control surveys; cadastral surveys; specialized surveying operations.

129. Highway Materials (3) II
One lecture and three hours of laboratory.
Prerequisite: Credit or registration in Engineering 127.
Selection, design, and control of mixes of various materials used in highway engineering practice. Emphasis on strength and properties of plain concrete and asphalt.

130. Network Analysis (4) II
Prerequisites: Engineering 100A and Mathematics 52.
Analysis of complex direct-current and single-phase and poly-phase alternating-current networks. Four-terminal network theory.

131. Electromechanical Control Devices (3) I
Two lectures and three hours of laboratory.
Prerequisites: Engineering 51 or 102; Engineering 100B and Mathematics 118A, and credit or concurrent registration in Engineering 101.
Application of amplifiers, thyristors, rotors, synchro, and selsyns in servosystems and other devices.

132. Time-Domain Analysis of Linear Networks (3) I
Prerequisites: Engineering 130 and Mathematics 118A.
Transient analysis of circuits containing resistance, inductance, and capacitance with various input wave forms by means of the Laplace-transform method.

134A. Analysis and Design of Electronic Circuits (3) I, II
Prerequisites: Engineering 101, 130, and Mathematics 118A.
A unified treatment of vacuum-tube and transistor voltage and power amplifiers utilizing graphical methods and equivalent circuits; feedback theory and tuned amplifiers.

134B. Analysis and Design of Electronic Circuits (3) II, III
Prerequisite: Engineering 134A.
A continuation of Engineering 134A to include regulated power supplies, oscillators; theoretical analysis of amplitude, frequency, and phase modulation; modulator and detector circuits; switching circuits and transient response of amplifiers.
135A. Electronic Circuits Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Engineering 134A.
Vacuum-tube and transistor dynamic characteristics; single stage and multistage amplifier circuits including feedback and tuned amplifiers.

135B. Electronic Circuits Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Engineering 135A.
Regulated power supply systems; oscillator, modulator, detector and switching circuits; superheterodyne receivers and television circuitry.

136. Electronic Instrumentation (2)
Prerequisite: Engineering 101.
Application of electronics to the instrumentation of mechanical, hydraulic and electrical devices. Indicating and recording instruments.

137. Communication Networks (3) I
Prerequisites: Engineering 100C, 130, and Mathematics 118A.
Theory and application of transmission lines including analysis by matrix notation; use of Smith chart and other transmission line charts; impedance-matching with transmission line stubs and lumped constants; theory and design of constant-k, m-derived, and other types of filter networks.

128A. Feedback Control Systems (2) II
Prerequisites: Engineering 132 and 134A.
Analysis of regulatory systems including servomechanisms by the Laplace transform method. System performance and stability; Nyquist, Bode, and root-locus diagrams; elementary synthesis techniques. Practical components and examples of typical designs.

128B. Feedback Control Systems Laboratory (1) II
Three hours of laboratory.
Prerequisites: Engineering 131, 135A and credit or concurrent registration in Engineering 138A.
Analysis of steady-state and transient response of uncompensated and compensated feedback control systems using transfer functions and frequency response techniques.

139A. Advanced Field Theory (3) II
Prerequisites: Engineering 137 and credit or concurrent registration in Engineering 134B and Mathematics 118B.
Time-varying electric and magnetic fields. Application of Maxwell's equations to wave propagation; skin effect, circuit impedance elements; vector potential, and other time-varying electrical phenomena; waveguides and resonators, electromagnetic radiation.

139B. Microwave Measurements Laboratory (1) II
Three hours of laboratory.
Prerequisites: Credit or concurrent registration in Engineering 135B and 139A.
Experimental study of frequency generation including klystrons, magnetrons and signal generators. Impedance, attenuation, phase, frequency, and power measurements; coaxial lines and waveguides; propagation in air, resonant cavities and antennas.

140. Principles of Heat Transfer (3) II
Prerequisite: Engineering 118.
Heat transfer by conduction, convection, radiation, and combinations thereof; introduction to aerodynamic heating and heat transfer by phase change.

141. Internal Combustion Engines (4) I
Three lectures and three hours of laboratory.
Prerequisite: Engineering 148.
Analysis of idealized and real internal combustion engine cycles; combustion processes; performance of reciprocating and rotary types of internal combustion engines. Principles of reaction motors.

142. Fuels and Combustion (3) I
Prerequisite: Engineering 108.

143. Gas Dynamics (3) I
Prerequisite: Engineering 148.
Thermodynamics of high velocity compressible fluid flow. Shock regions; adiabatic and diabatic flow. Applications to the propulsion duct and discharge nozzles.

144. Thermal Environmental Engineering (3)
Two lectures and three hours of laboratory.
Prerequisite: Engineering 108.
Thermodynamic theory of air conditioning and refrigeration. (Formerly entitled Air Conditioning and Refrigeration.)

145. Mechanics of Machinery (4) I
Three lectures and three hours of laboratory.
Prerequisite: Engineering 51 or 102.
An extension of the principles of statics and dynamics to mechanisms and to mechanical systems. Analysis of velocity and acceleration and the determination of static and dynamic forces. Evaluation of stability of systems.

146A. Elements of Machine Design (3) I
Prerequisite: Engineering 116.
Application of mechanics, physical properties of materials, and strength of materials to the design of machine elements.

146B. Advanced Machine Design (3) II
Prerequisite: Engineering 146A.
Advanced topics in strength of materials including energy methods, stress concentrations, curved beams, and thick-walled cylinders. Applications to design of machine elements.

147A. Introduction to Mechanical Vibrations (3) I
Prerequisites: Engineering 51 or 102, 116, and Mathematics 118A.
Analysis of mechanical vibration; single- and multi-degree of freedom systems; free and forced vibrations; vibration isolation; vibration absorbers. Theory of vibration measuring instruments.

147B. Experimental Vibrations (3) II
Prerequisite: Engineering 147A.
Experimental problems utilizing vibration excitation equipment, recording systems, transducers, digital and analog computers.

148. Engineering Thermodynamics (4) II
Three lectures and three hours of laboratory.
Prerequisites: Engineering 108 and credit or concurrent registration in Engineering 115.
Further development of the laws of classical thermodynamics. Applications to energy conversion devices.

149. Advanced Thermodynamics (3)
Prerequisite: Engineering 148.
Cyclic and analytical methods of thermodynamic analysis. Development of general thermodynamic equations and methods of solution. Introduction to microscopic thermodynamics with application to the study of transport properties.
150A. Subsonic Aerodynamics (3) II
Prerequisites: Engineering 51 or 102; and credit or concurrent registration in Engineering 115 and Mathematics 118A.
Fluid flow, airfoil and wing theory, drag, propeller theory, aircraft and engine performance, maneuvers.

150B. Supersonic Aerodynamics (3) I
Prerequisite: Engineering 150A.
Aerothermodynamics, waves in supersonic flow, equations of frictionless flow, small perturbation theory, similarity rules of high-speed flow.

151A. Aeronautical Stress Analysis (3) II
Prerequisites: Engineering 51 or 102, Engineering 116 and credit or concurrent registration in Mathematics 118A.
Equilibrium of forces, space structures, semimonocoque structures, air-load distribution.

151B. Aeronautical Stress Analysis (3) I
Prerequisite: Engineering 151A.
Mechanical properties of aircraft materials, design of aircraft structural components, special methods of analysis.

152. Aircraft Propulsion Systems (3) II
Prerequisite: Engineering 148 or 150B.
Theory and performance characteristics of aircraft propulsion systems including reciprocating engines, turbo-jets, ram-jets, etc.

153. Aerospac Flight Mechanics (3) I
Prerequisites: Engineering 51 or 102, 150A, and Mathematics 118A.
Aerodynamics and dynamics of ballistic missiles; guidance systems; orbits and space trajectories; effects of aerodynamics, mass, rotation and shape of the earth on ballistic and space trajectories. Computer programming and problem solutions will be emphasized.

154. Experimental Aerodynamics (2) I
Six hours laboratory.
Prerequisite: Engineering 150B.
Operating characteristics of subsonic and supersonic wind tunnels. Measurement of pressure distribution, velocities, forces, and moments on and about wings and bodies. Use of schlieren equipment. Mach number effects.

160A-160B. Principles of Chemical Engineering (3-3)
(Same course as Chemistry 160A-160B)
Prerequisite: Credit or concurrent registration in Engineering 108 or Chemistry 109A or 110A, or equivalent.
Industrial stoichiometry, fluid flow and heat transfer as applied to unit operations such as evaporation, distillation, extraction, filtration, gas-phase mass transfer, drying, and others. Problems, reports, and field trips.

165A-165B-165C-165D. Industrial Practice (2-2-2-2)
Prerequisites: Engineering 65A and 65B.
Supervised training in cooperative industrial organizations. Second and third years of a three-year program providing the opportunity for selected students to correlate their formal training with industrial experience at corresponding levels of responsibility and difficulty.

166. Honors Course (Credit to be arranged)
Refer to the Honors Program.

180. Principles of Engineering Economy (3)
Prerequisite: Engineering 115.

181. Hydrodynamics (3)
Prerequisites: Engineering 51 or 102 or Physics 105, and Mathematics 118A or 119 or 124.
Kinematics, equations of continuity, energy, and momentum of perfect fluids. Introduction to conformal transformations. Three-dimensional and two-dimensional irrotational motion, with applications to physical problems. Vector notation is used.

182. Transistor Circuit Analysis (3) II
Prerequisite: Credit or concurrent registration in Engineering 134B.
Analysis and design of transistor voltage and power amplifier circuits by use of duality and matrix methods. Feedback amplifiers, audio amplifiers, power supplies, and oscillators; transient analysis and noise considerations.

183. Fuels and Lubricants Laboratory (1)
Three hours labor.
Prerequisite: Engineering 108.
Performance and engineering interpretation of standardized tests of fuels and lubricants. Investigation and analysis of test codes.

184. Experimental Strain Measurements and Analysis (3)
Two lectures and three hours of laboratory.
Prerequisites: Engineering 100A and 116.
Laboratory methods for measuring deformation, strains, and forces. Emphasis on instrumentation.

185. Advanced Resistance of Materials (3) II
Prerequisites: Engineering 51 or 102, 116, and Mathematics 118A.
Advanced topics in resistance of materials including combined stresses, buckling, and failure theories. Introduction to elastic stability and instability.

187. Methods of Analysis (3)
Two lectures and three lectures of laboratory.
Prerequisite: Mathematics 118A.
Solutions of advanced engineering problems in fluids, thermodynamics and electricity utilizing the methods of analogs, dimensional analysis and the theory of models.

188. Digital Solutions of Engineering Problems (3) II
Prerequisites: Engineering 24 or Mathematics 7, and Mathematics 118A.
Digital solution of classes of engineering problems. Application of numerical methods with consideration of limitations imposed by computer and programming language characteristics.

189. Automatic Control Systems (3) II
Prerequisites: Engineering 51 or 102, 100B and Mathematics 118A or 119.
Not open to students filing an electrical engineering master plan.
Analysis of the output-input characteristics of linear, mechanical, electrical, hydraulic, and pneumatic control systems.

190A. Civil Engineering Structural Design (2) II
Six hours of laboratory.
Prerequisites: Engineering 121 and 122.
Introduction to structural design in steel; structural connections; tension and compression members; beams; building code requirements applied to design of buildings of various structural materials including steel.

190C-190D. Engineering Applications (Mechanical Design) (2-2) I, II
Six hours of laboratory.
Prerequisites for 190D: Engineering 145, 146A, and 190C.
Applications of fundamental engineering principles to the practical design of machinery. Considerations of material properties, stress analysis, mechanisms, kinematic design principles, and appearance concepts. Practical individual design of a simple machine. (Formerly numbered 190F.)
190E-190F. Engineering Applications (Mechanical Energy Conversion) (2-2) I, II
190E: One lecture and one three-hour laboratory.
190F: Six hours of laboratory.
Prerequisites for 190E: Engineering 115 and 148.
Prerequisites for 190F: Engineering 143, 146A, and 190E.
Application of engineering science to the design and evaluation of heat-power systems such as propulsion systems, energy conversion systems, or environmental control systems. (Formerly numbered 190E.)

190H. Engineering Applications (Aerospace Design) (4) II
Three lectures and three hours of laboratory.
Prerequisite: Engineering 151B.
Applications of engineering principles to a comprehensive problem in the structural analysis and design of an aircraft.

191. Microwave Devices (2)
Prerequisite: Credit or concurrent registration in Engineering 139A.
Microwave devices including klystrons, traveling wave tubes, and magnetrons; harmonic generators, frequency synthesizers, wave guide filters, and varactor applications. Masers.

192. Semiconductor Devices (2)
Prerequisite: Engineering 134A.
Tunnel diodes and backward diodes, breakdown diodes, multilayer diodes, varactor diodes, silicon controlled rectifiers and switches, unijunction transistors, field effect transistors, and hot electron devices.

193. Electronic Analog Systems (3)
Prerequisite: Engineering 134A.

194. Pulse and Digital Circuits (3)
Prerequisite: Engineering 134B.
Analysis of multivibrators, time base generators, pulse transformers, blocking oscillators, delay lines, counting circuits, digital computing circuits, and transmission gates.

195. Logic Design and Switching Circuits (3)
Prerequisite: Engineering 134B.
Boolean algebra, minimization methods; multiple output functions, combinational logic applied to coding and decoding; gating elements. Asynchronous sequential logic; control and computer applications.

196. Advanced Engineering Topics (1-3) I, II
Prerequisite: Consent of instructor.
Analysis of modern developments in engineering. May be repeated with the approval of the instructor for a total of six units.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

GRADUATE COURSES IN AEROSPACE ENGINEERING

AE 200. Seminar (1-3)
Prerequisite: Consent of the graduate adviser and instructor.
Intensive study of selected topics in aerospace engineering, topic to be announced in class schedule. Maximum credit 6 units applicable on a master's degree.

AE 202. Aeroelasticity (3)
Prerequisites: EM 201 and credit or concurrent registration in Mathematics 118B.
Aircraft and missile structures deformed under static and dynamic loads; aeroelastic instability; vibration modes, divergence, loss of control and alteration of lift distribution; introduction to flutter analysis.

AE 204. Flight Dynamics—Stability and Control (3)
Prerequisite: Credit or concurrent registration in EM 201.

AE 205. Flight Dynamics—Theory of Flight Paths (3)
Prerequisites: Engineering 150B and credit or concurrent registration in Mathematics 118B.
Analysis of trajectories of aircraft, missiles, satellites, and spacecraft subjected to uniform or central gravitational forces, aerodynamic forces, and thrust.

AE 222. Aerothermal Structural Analysis (3)
Prerequisites: EM 221.
Stress analysis of structures at elevated temperatures.

AE 240. Advanced Hydrodynamics (3)
Prerequisite: Engineering 181.
Theory of flows in which compressibility and viscosity effects do not predominate. Flow nets, conformal mapping. Applications to subterranean flow, airfoil, and surface waves.

AE 243. Supersonic Flow Theory (3)
Prerequisites: Engineering 150B and credit or concurrent registration in Mathematics 118B.
Theory of flow at supersonic speeds. Linearized theory, three-dimensional wings in steady flight, slender-body theory, methods of characteristics.

AE 244. Hypersonic Flow Theory (3)
Prerequisite: AE 243.
Two- and three-dimensional hypersonic flows. Hypersonic similarity parameter, hypersonic small-disturbance theory; Newtonian flow, shock-layer, and other methods for blunt bodies.

AE 245. Magnetofluidmechanics (3)
Prerequisite: EM 243.
Study of the effects of interaction of an electromagnetic field with an electrically conducting fluid. Stability, boundary layers, shock waves, and other applications.

296. Advanced Topics in Aerospace Engineering (2 or 3)
Advanced study in the field of aerospace engineering, topic to be announced in the class schedule. Maximum of six units of course 296 applicable on a master's degree.

AE 297. Research (1-3)
Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units in Course 297 applicable on a master's degree in engineering.
CE 200. Seminar (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in advanced civil engineering, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

CE 201. Advanced Theory of Structures (3)
Prerequisites: Engineering 120B and Mathematics 118A.
Analysis of statically indeterminate structures based on principles of deflection of structures. Approximate analysis of structures under lateral loads for rigid and shear wall structures.

CE 202. Design of Thin Shell Structures (3)
Prerequisite: Engineering 120B.
Analysis and design of typical civil engineering thin shell structures.

CE 203. Plastic Design in Steel (3)
Prerequisite: Engineering 120B.
Analysis and design of steel framed structures for ultimate load. Connections, secondary design problems, column stability, and repeated loading.

CE 204. Advanced Problems in Structural Design (3)
Prerequisite: CE 201.
Design of buildings in steel and timber by elastic theory and limit design. Seismic resistant design.

CE 205. Prestressed Concrete Structures (3)
Prerequisite: Engineering 120B.
Fundamental concepts of prestressed concrete theory. Design applications to various types of structures.

CE 206. Matrix Analysis of Structures (3)
Prerequisite: Engineering 120B.

CE 207. Dynamics of Structures (3)
Prerequisite: Engineering 120B.
Dynamic disturbances, structures with variable degrees of freedom, free vibrations of slender elastic beams, continuous beams, rigid frames, floor systems. Energy methods in structural dynamics.

CE 220. Traffic Engineering (3)
Prerequisite: Engineering 127.
Traffic characteristics and studies. Control and regulation of street and highway traffic. Parking facilities, mass transportation, traffic engineering administration.

CE 221. Airport Engineering (3)
Prerequisite: Engineering 127.
Problems in airport planning and design. Site selection, general airport layout; safety, economy and community compatibility. Functional design of buildings. Lighting, navigational aids, approach protection.

CE 240. Advanced Soil Mechanics (3)
Prerequisite: Engineering 122.
Advanced theories of soil mechanics and their applications to design, including physicochemical behavior of soils, theories of compaction, consolidation, stress distribution, shear strength, settlement analyses, lateral pressures, and bearing capacity of soils.

CE 241. Advanced Foundation Engineering (3)
Prerequisite: CE 240.

CE 242. Seepage and Earth Dams (3)
Prerequisite: CE 240.
Principles governing the flow of water through soils and their application in the design of earth and rock fill dams. Stability analyses for earth dams.

CE 280. Seminar in Structural Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in structural engineering. Maximum credit six units applicable on a master's degree.

CE 281. Seminar in Transportation Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in transportation engineering. Maximum credit six units applicable on a master's degree.

CE 282. Seminar in Soil Mechanics and Foundation Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in soil mechanics and foundation engineering. Maximum credit six units applicable on a master's degree.

CE 283. Seminar in Hydraulic Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in hydraulic engineering. Maximum credit six units applicable on a master's degree.

CE 284. Seminar in Sanitary Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in sanitary engineering. Maximum credit six units applicable on a master's degree.

CE 285. Seminar in Construction Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in construction engineering. Maximum credit six units applicable on a master's degree.

CE 286. Seminar in Geometrics (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in geometrics. Maximum credit six units applicable on a master's degree.

CE 296. Advanced Topics in Civil Engineering (2 or 3)
Prerequisite: CE 295.
Advanced study in the field of civil engineering, topic to be announced in the class schedule. Maximum of six units of course 296 applicable on a master's degree.

CE 297. Research (1-3)
Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units in course 297 applicable on a master's degree in engineering.

GRADUATE COURSES IN ELECTRICAL ENGINEERING

EE 200. Seminar (1-3)
An intensive study in advanced electrical engineering, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

EE 201. Seminar in Electromagnetic Systems (1-3)
An intensive study in electromagnetic systems. Maximum credit six units applicable on a master's degree.
EE 202. Seminar in Electronic Design (1-3)
An intensive study in electronic design. Maximum credit six units applicable on
a master's degree.

EE 203. Seminar in Digital Systems (1-3)
An intensive study in digital systems. Maximum credit six units applicable on
a master's degree.

EE 204. Seminar in Feedback Control Systems (1-3)
An intensive study in feedback control systems. Maximum credit six units applica-
cable on a master's degree.

EE 210A. Linear System Analysis (3)
Prerequisites: Engineering 110 and credit or concurrent registration in Mathe-
matics 118B.

Loop and nodal system equations based on topological considerations, four-
terminal network theory using matrices. Fourier integral transform theory as applied
to linear system analysis. Positive real functions and associated testing methods.
(Formerly entitled: Network Analysis.)

EE 210B. Linear System Synthesis (3)
Prerequisite: EE 210A.

Frequency-domain synthesis of driving point and transfer impedances in passive
and active networks. Canonical forms and network equivalents. Time-domain syn-
thesis and considerations of pulsed-data systems. (Formerly entitled: Network
Synthesis.)

EE 212. Electrical Noise (3)
Major sources of electrical noise and the effects of noise on system
behavior. Emphasis on concepts of noise as a random process, as distinguished from
systematic or periodic interference.

EE 220. Feedback Control Systems (3)
Prerequisite: Engineering 189 or Engineering 189A.

Analysis and synthesis of feedback control systems using feedback compensation.
Multiple-loop control systems; a-e feedback control systems; optimization.

EE 222. Sampled-Data Systems (3)
Prerequisite: Engineering 138A.

Analysis and synthesis of sampled-data and digital control systems; techniques for
the design of time optimal sampled-data control systems; z-transform calculus and
difference equation synthesis techniques for determining stability and system
response. (Formerly entitled: Non-Linear Systems.)

EE 224. Non-Linear Feedback Control Systems (3)
Prerequisite: EE 220.

Design and analysis of control systems which contain non-linearities, types of
non-linearities, integrable systems, phase-plane analysis, describing functions and
frequency analysis; compensation for unwanted non-linearities and application of
compensating non-linearities.

EE 226. Optimal Control Systems (3)
Prerequisite: EE 220.

Optimal control theory through use of calculus of variations, dynamic pro-
gramming. Pontryagin's maximum principle for optimizing trajectories and control
processes. Analysis and design of adaptive control systems.

EE 230. Advanced Logic Design and Switching Circuits (3)
Prerequisite: Engineering 195.
Synchronous sequential logic; design of typical computer circuits such as counters,
shift registers and error detecting circuits. Logical properties of memory elements,
memory element state assignment methods.
Engineering

GRADUATE COURSES IN ENGINEERING MECHANICS

EM 200. Seminar (2 or 3)
Advanced study of, or within, one phase of engineering mechanics, such as elasticity, plasticity, rheology, and micrometrics; buckling, vibration, and stability phenomena; hydromechanics and magnetohydrodynamics; incompressible, compressible, and non-newtonian flow. May be repeated with new subject matter for additional credit.

EM 201. Advanced Dynamics (3)
Prerequisites: Engineering 102 or equivalent, and Mathematics 118A.

EM 203. Theory of Vibrations (3)
Prerequisites: EM 201 and credit or concurrent registration in Mathematics 118B.
Linear and non-linear periodic phenomena as applied to discrete systems and continuous media with application to physical problems.

EM 221. Theory of Elasticity (3)
Prerequisites: Engineering 116 and credit or concurrent registration in Mathematics 118B. Engineering 186 is recommended.
Analysis of stress and strain; stress-strain relations; the equations of elasticity; uniqueness theorem; compatibility conditions; flexure and torsion. Vector and tensor notation will be used.

EM 225. Theory of Plates (3)
Prerequisite: EM 221.
Bending and buckling theory of plates; application of small deflection and large deflection theories to plates with various boundary conditions; use of approximate methods and exact methods in solution.

EM 226. Theory of Shells (3)
Prerequisite: EM 221.
Membrane and bending theory of shells of revolution and shells of arbitrary shape; exact and approximate methods of solution of shells subjected to axi-symmetric and arbitrary loads.

EM 233. Theory of Plasticity (3)
Prerequisite: EM 221.
Inelastic stress-strain relations. Solutions to engineering problems with ideally plastic, strain-hardening, and visco-elastic materials.

EM 243. Advanced Fluid Mechanics I (3)
Prerequisites: Engineering 115 and credit or concurrent registration in Mathematics 118B.
Fluid kinematics and kinetics. Conservation of mass, energy, and momentum applied to Newtonian fluids. Navier-Stokes equations. Couette and Poiseuille flow. Potential flow. Introduction to turbulence and boundary layer theory. Vector and tensor notation will be used.

EM 244. Advanced Fluid Mechanics II (3)
Prerequisite: EM 243.

EM 296. Advanced Topics in Engineering Mechanics (2 or 3)
Advanced study in the field of engineering mechanics, topic to be announced in the class schedule. Maximum of six units of course 296 applicable on a master's degree.

EM 297. Research (1-3)
Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units in course 297 applicable on a master's degree in engineering.

GRADUATE COURSES IN MECHANICAL ENGINEERING

ME 200. Seminar (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in advanced mechanical engineering, topic to be announced in term schedule. Maximum credit six units applicable on a master's degree.

ME 201. Seminar in Thermodynamics and Fluid Flow (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in thermodynamics and fluid flow. Maximum credit six units applicable on a master's degree.

ME 202. Seminar in Cryogenics (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in cryogenics. Maximum credit six units applicable on a master's degree.

ME 203. Seminar in Engineering Materials (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in engineering materials. Maximum credit six units applicable on a master's degree.

ME 204. Seminar in Engineering Systems (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in engineering systems. Maximum credit six units applicable on a master's degree.

ME 205. Seminar in Operations Research in Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in operations research in engineering. Maximum credit six units applicable on a master's degree.

ME 206. Seminar in Nuclear Engineering (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in nuclear engineering. Maximum credit six units applicable on a master's degree.

ME 207. Seminar in Mechanical Design (2 or 3)
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in mechanical design. Maximum credit six units applicable on a master's degree.

ME 210. Cryogenic Engineering (3)
Prerequisite: Engineering 148.
Analysis of low-temperature processes and equipment. Physical properties of structural and other materials used in producing, maintaining, and using low-temperature systems.

ME 212. Gas Dynamics (3)
Prerequisites: Engineering 141 and Mathematics 118B.
Further considerations of the flow of compressible fluids in conduits. Shock waves, unsteady flow and real gases.

ME 213. Aircraft and Missile Propulsion (3)
Prerequisites: Engineering 142, 143 and Mathematics 118B.
ME 214. Analytical Thermodynamics (3)
Prerequisites: Engineering 149 and Mathematics 118B.

ME 215A-215B-215C. Heat Transfer (3-3-3)
Prerequisites: Engineering 140; Mathematics 118B or consent of instructor. ME 215A is a prerequisite to ME 215B.
Semester A. Conduction heat transfer, multidimensional conduction processes, transient analyses.
Semester B. Convection heat transfer. Advanced theories of forced and free convection.
Semester C. Radiation heat transfer. Solid body and gaseous radiation. (Formerly ME 215A-215B, Heat Transfer.)

ME 216. Theory of Turbomachines (3)
Prerequisites: Engineering 143 or 150B.
Application of the fundamental laws of fluid mechanics to the problems of energy transfer between fluid and rotor. Performance characteristics of turbomachines. Study of loss mechanisms.

ME 220A-220B. Mechanical Vibrations (3-3)
Prerequisites: Engineering 147B and Mathematics 118B.
Topics in vibration relating to mechanical design such as non-linear vibrations, distributed mass systems, random vibrations, mobility analysis, isolator design.

ME 221. Stress Analysis (3)
Prerequisites: Engineering 146B, 186 and Mathematics 118B.
Topics in vibration relating to mechanical design such as non-linear vibrations, distributed mass systems, random vibrations, mobility analysis, isolator design.

ME 222A-222B. Synthesis of Machines (3-3)
Prerequisites: Engineering 145, 146A, and Mathematics 118B.
Problems in mechanical design involving synthesis of mechanisms wherein displacement, velocity, acceleration and jerk are paramount considerations.

ME 224. Fluid Power and Control Systems (3)
Prerequisite: Engineering 189 or equivalent.
Analysis of dynamic performance of physical systems such as pneumatic, hydraulic and hot gas. Transient forces and valve instability. Servo characteristics.

ME 231A. Advanced Science of Materials I (3)
Prerequisite: Engineering 109A.
Structure and physical properties of solids. Imperfections in materials and their effect on various properties. Elasticity, plasticity, and fracture of metals related to atomic and crystal structure.

ME 231B. Advanced Science of Materials II (3)
Prerequisite: Mechanical Engineering 211A.
Phase equilibria, metasatability, rate and growth processes in solids. Principles of alloying and thermal treatments.

ME 233. Reactor Materials (3)
Prerequisite: Engineering 109A.
Metallurgical processing, corrosion, and radiation effects of nuclear materials. Selection of reactor materials.

ME 234. High Temperature Materials (3)
Prerequisite: Engineering 109A.
Behavior of metals, cermet, and nonmetallic materials at high temperatures. Effect of environment and service conditions on composition, structure, and physical properties.

ME 296. Advanced Topics in Mechanical Engineering (2 or 3)
Advanced study in the field of mechanical engineering, topic to be announced in the class schedule. Maximum of six units of course 296 applicable on a master's degree.

ME 297. Research (1-3)
Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units in course 297 applicable on a master's degree in engineering.

GRADUATE COURSES IN ENGINEERING

E 290. Problem Analysis (3)
Prerequisite: Consent of graduate advisor.
Review of methods for investigation and reporting of data. Consideration of problems in preparation of project or thesis.

E 298. Special Study (1-3)
Individual study. Three units maximum credit.
Prerequisite: Consent of staff, to be arranged with division chairman and instructor.

E 299. Thesis or Project (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

ENGLISH

IN THE DIVISION OF THE HUMANITIES

Faculty
Emeritus Faculty: Dickhaut, Johnson, F., Keeney, Trail
Professors: Adams, J. R., Burnett, Haskell, Kennedy, Marchand, Perkins, Phillips, G., Sanderlin, Shoos (Chairman), Theobald, Tidwell, Tozer
Associate Professors: Bakke, J., Frey, Gallens, Gross, Monteverde, Sandstrom, Vanderbilt, Wanlass, Widmer
Assistant Professors: Canary, Culotta, Dickinson, J. W., Green, Hendrickson, Hinkley, McCoy, Mitchell, Rogers, R., Zelenovich
Instructors: McCrood, Taylor, H.

Offered by the Department
Master of Arts degree with a major in English; and Master of Arts degree for teaching service with a concentration in English. (Described in the Graduate Major in English with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)

Minor in English. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

COMPARATIVE LITERATURE

For courses in world literature, see comparative literature; these courses give credit toward the English major or minor toward the minor in comparative
CREDIT IN COURSE SEQUENCES

All elective year courses in the English Department may be begun in either semester, and either semester may be taken singly for credit.

PREREQUISITES

English 1A is prerequisite to all English courses except English 2.

LOWER DIVISION COURSES

R. Reading Laboratory (0) I, II

A semitorial service offered by the English Department to those wishing to improve their reading ability, or secure individual help with study problems. Open to all students at any level of college work.

S. Spelling (0) I, II

A semitorial service offered by the English Department to those wishing to improve their spelling through an intensive review of principles and through practice. Open to students at any level of college work.

W. Writing Laboratory (0) I, II

A semitorial service offered by the English Department to those wishing assistance in writing projects, either remedial or advanced. Open to students at any level of college work.

ENGLISH FOR FOREIGN STUDENTS

Foreign students will be assigned to English 1X, 1Y, or 1A on the basis of their performance on the English examination for foreign students and a diagnosis resulting from an oral interview. Either 1X or 1Y will satisfy the college general education requirement for written communication, although unit credit will be granted for these courses.

1X. Fundamentals of English for Foreign or Bilingual Students (3) I, II

A first course in English grammar and composition with intensive practice on idiom in the Language Laboratory. At the discretion of the instructor, satisfactory completion of this course qualifies a foreign student for taking either English 1Y or 1A.

1Y. English for Foreign or Bilingual Students (3) I, II

Prerequisite: English 1X or performance on the English examination for foreign students satisfactory to the instructor. English grammar and composition. Satisfactory completion of this course will qualify a foreign student for taking English 1A.

1A-1B. First Year Reading and Composition (3-3) I, II

Prerequisite: English 1A is prerequisite to 1B.

First semester: Principles and methods of expository writing. 1A is a required course in general education.

Second semester: Further practice in writing, based on the study of selected literature.

2. Freshman Literature (3) I, II

Introduction to the reading of literature.

10. Individual Reading (1) I, II

Reading of selected works of drama, poetry, or fiction, by a single author.

20. Latin and Greek Word Derivation (3) I, II

(Same course as General Language 20)

A general and elementary course in philology. Study of Latin and Greek roots of most frequent occurrence in English, and of the English words derived from them. No prerequisite.

30A-50B. Masterpieces of American Literature (3-3) I, II

Semester I: Major American writers from the beginning to 1860. Semester II: American literature from 1860 to the present.

52A-52B. Masterpieces of World Literature (3-3) I, II

(Same course as Comparative Literature 52A-52B)

A chronological survey from Homer to modern times. The first semester stresses the classical epic and tragedy. The second semester stresses more recent literature, including prose fiction, the drama, and the essay.

56A-56B. Survey of English Literature (3-3) I, II

Prerequisite: English 2 or 1B.

The study of some important works of English literature from the Anglo-Saxon period through the Victorian age, with emphasis upon the literary history of each period.

60A-60B. Literature and Personality (3-3)

A close study of a limited number of the great creators of literature. The goal of the course is to derive, from markedly different specific works, orderly and generalized methods for the interpretation of great literature.

61. Sophomore Composition (3) I, II

Prerequisite: English 1A.

Practical writing beyond the freshman level.

62. Directed Writing (3) I, II

Guidance and extensive practice in effective creative writing, particularly description and narration.

UPPER DIVISION COURSES

100. English Fundamentals (0) I, II

Review of spelling, punctuation, grammar, and usage; exercises in vocabulary building and in fundamental reading skills; theme writing. Three meetings a week with additional optional work in the Reading and Writing Laboratory.

101A-101B. Modern Continental Fiction (3-3)

(Same course as Comparative Literature 101A-101B)

Selected works by modern novelists and short story writers of continental Europe. First semester, the late nineteenth century; second semester, the twentieth century.

106. Creative Writing (3)

A writing workshop in which the students are given opportunity to criticize each other’s work. Emphasis on narrative and description, but freedom to pursue whatever writing forms may interest the student most. May be taken a second time with new material.

110. Individual Reading (1) I, II

The study of selected works of a major author. May be repeated to a maximum of two units.

113. American English (3) I

The development of American English; regional and cultural differences in pronunciation, grammar, and vocabulary.

115. The Bible as Literature (3)

(Same course as Comparative Literature 115)

A study of the narrative, poetry, and prophecy of the King James version of the Bible. Readings, reports, lectures, and discussions.

116A-116B. The Age of Elizabeth (3-3)

Semester I: Poetry and prose, exclusive of drama. Semester II: The drama to 1642, excluding Shakespeare.

117A-117B. Shakespeare (3-3) I, II

The first semester gives special emphasis to the histories and comedies; the second, to tragedy and the dramatic romances.
118A-118B. Restoration and Eighteenth Century English Literature (3-3) I, II
Selected poetry, prose, and drama. The first semester emphasizes the social satire of Dryden, Swift, Pope, Addison, Steele, Gay, Prior; and also the first stirrings of the romantic revolt. The second semester concentrates upon Johnson, Boswell, and their circle, and significant preromantic literature. (Formerly entitled: Eighteenth Century English Literature.)

119A. English Romantic Poetry (3) I
The culmination of the romantic movement in the poetry of Wordsworth, Coleridge, Byron, Shelley, and Keats, in relation to the thought of the revolutionary period.

119B. Victorian Poetry (3) II
Tennyson and Browning with their contemporaries and successors, relating English poetry to Nineteenth Century life and thought.

120A. The Seventeenth Century: Milton (3) II
The poetry and major prose works of Milton, with stress on the development of his art and mind, the political and religious background and the events in which Milton participated.

120B. The Seventeenth Century: Metaphysical and Cavalier Poets (3) II
The metaphysical and cavalier poets in relation to the cultural and social backgrounds of the sixteenth, seventeenth, and eighteenth centuries.

126A. Romantic and Victorian Prose (3) I
Romantic and mid-Victorian prose writers, including Coleridge, Hazlitt, Lamb, DeQuincey, Carlyle, Landor, Macaulay, and Mill, related to the literary, political, and social movements of the period.

126B. Late Nineteenth Century British Prose (3) II
The essays of Arnold, Thomas, Ruskin, Newman, Pater, Carlyle, and Stevenson. Study of scientific, aesthetic, and ethical backgrounds.

129A. Early Modern British Literature (3) I
Selected drama, fiction, and poetry of 1580-1640: Shakespeare, Marlowe, Fletcher, Marston, Middleton, and Beaumont. Also selected from Spenser and Jonson.

129B. Contemporary British Literature (3) II
The works of today's leading British writers, including Shaw, Galsworthy, Wells, chefs, Conrad, Kipling, Yeats (earlier works), Maugham, and certain Georgian and World War I poets.

130. American Literature to the Jacksonian Period (3) I
Ideas and representative forms of prose and poetry, studied in the works of such authors as Taylor, Edwards, Franklin, Paine, Bryant, and Irving.

131. The American Romantic Period (3) I
Major American writers of the period 1830-1860.

132. The Frontier and American Literature (3) I, II
The influence of the frontier upon American literature, studied through various regions and movements. Examinations of source materials, biographies, and representative writers.

133. The Rise of Realism in American Prose (3) II
Influences, foreign and native, definition of realism. The romantic attack and the realist defense. Illustrated chiefly through the novel.

134. Twentieth Century American Prose (3) I, II
Ideas and forms in significant novels, stories, and nonfictional prose writings. (Formerly included under English 134, American Literature: 1910 to the Present.)

135. American Poetry and Drama Since 1865 (3) I, II
Emphasis on twentieth century lyric and dramatic forms and ideas, although crucial forerunners (such as Dickinson) are included. (Formerly included under English 134, American Literature: 1910 to the Present.)

141. Ideas and Forms in Modern Prose (3) I, II
Significant prose writing in the social and natural sciences, travel, the arts, and other fields. Designed primarily for secondary credential candidates with major or minor in English, but open to other students.

144A-144B. The English Novel (3-3)
The history of the English novel from its beginnings to the present century. Emphasis in the first semester will be on the Eighteenth Century and in the second semester on the Nineteenth Century.

148. The Study of Fiction (3) I
A critical study of forms of contemporary prose narrative with a writing workshop.

149. The Study of Poetry (3) I, II
A course proceeding from simpler to more complex poetic productions. Emphasis on current direction in poetry, and on problems of form. The inclination to write poetry is encouraged.

151. Chaucer (3) I
A study of Chaucer's works, with emphasis on "The Canterbury Tales" and "Troilus and Criseyde."

152A-152B. World Drama (3-3)
(Same course as Comparative Literature 152A-152B)
Study of selected tragedies and comedies from Asian, European, English, and American literature, with emphasis upon the human problems depicted therein and upon the timelessness of certain themes, such as those of Electra and Medea. Lectures, discussions, and reports on readings.

162. The Writing of Fiction (3) II
Prerequisite: Consent of instructor. Writing short stories for publication; study and application of commercial market requirements; stress on practical disciplines.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

189. Studies in American Folklore (3)
American folk songs, tales, legends, superstitions, proverbs, and speech, with particular emphasis on one of these.

191. Advanced Composition (3) I, II
A course designed for prospective teachers of English. This is not a methods course, but a content course in grammar, composition, and journalism. Required of all teaching majors in English; open to other students as an elective.

192. The English Language (3) I, II
Prerequisite: Open only to seniors and graduate students. The study of the history of the English language, of its words and structure, of the changes in inflections, pronunciation, vocabulary, and meaning, and of its use as an instrument of communication and human living.

195A. History of Literary Criticism (3)
Prerequisite: Open only to seniors and graduate students. A historical survey of the principles and practices of literary criticism from Greek times to the nineteenth century: Readings in the works of Aristotle, Horace, Longinus, Sidney, Boileau, Lessing, Sainte-Beuve, Coleridge, and others.
English

195. Theory and Practice of Modern Criticism (3) II
Prerequisite: Open only to seniors and graduate students. A study of the theory and practice of selected nineteenth and twentieth-century critics, with attention to the distinctive features of their approach to traditional and modern literary texts.

196. General Linguistics (3) I
(Same course as General Language 196)
Prerequisite: Open only to seniors and graduate students. Recommended reading knowledge of Latin, French, Spanish, or German.
A study of the principles of linguistic development illustrated chiefly from the Classical, Romanic, and Germanic language groups.

197. English Linguistics (3)
Prerequisites: Twelve units of upper-division work in English, including either English 192 or 196.
The phonological, grammatical, and lexical structure of English.

198. Comprehensive Reading and Survey (3) II
Prerequisite: Open only to students with nine upper-division units in English.
A study of major movements in English literature through a review of important writers and key works. Individual programs of readings to fill the needs of each student.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisites: Consent of instructor.

GRADUATE COURSES

233. Old English (3)
Prerequisite: Twelve units of upper-division work in English. Elementary grammar and reading in Old English prose and poetry; introduction to Beowulf.

244. Middle English (3)
Readings in Middle English prose and poetry exclusive of Chaucer.

260. Problems of Literary Creation (3)
Prerequisite: Consent of instructor and departmental adviser.
Criticism and coaching in the larger forms. May be repeated with new content for additional credit, to a maximum of six units.

290. Bibliography and Methods of Literary Research (3)
Prerequisite: 12 units of upper-division English, basic reference works, scholarly and critical journals; introduction to bibliographical techniques; exercises and problems in methods and exposition of research, including editorial procedures. Recommended for the first semester of graduate seminar. Prerequisite: Graduate seminar.

291. Seminar: A Major Author (3)
Prerequisites: 12 units of upper-division work in English and English 290. The critical study of a major author, such as Shakespeare, Dickens, Mark Twain. May be repeated with new content for additional credit.

292. Seminar: A Cultural Period (3)
Prerequisite: 12 units of upper-division work in English and English 290. The study, through its literature, of a cultural period such as the Renaissance, the Enlightenment, the Romantic Revolution, or the like. May be repeated with new content for additional credit.

293. Seminar: A Literary Problem (3)
Prerequisites: 12 units of upper-division work in English and English 290. The study of a literary problem, such as Regionalism in America, or European influences on American Literature, or the like. May be repeated with new content for additional credit.

French

294. Seminar: A Literary Type (3)
Prerequisite: 12 units of upper-division work in English and English 290.
The study of a literary type, such as the Personal Essay, Epic, Tragedy, and the like. May be repeated with new content for additional credit.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

FRENCH

IN THE DIVISION OF THE HUMANITIES

Faculty
Professors: Brown, E. M. (Chairman, French-Italian), Messier
Associate Professor: Piffard
Assistant professors: Cox, M., Ghilbert, Glasgow, Max, Turner, N. C., Vernier
Instructors: Palmer, D., Reed, D. G.
Lecturers: Collette, Hanson, J., Martin, J. W., Nelson, H.

Offered by the Department of French and Italian
Master of Arts degree with a major in French. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in French with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in French. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

HIGH SCHOOL EQUIVALENTS

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.
The first two years of high school French may be counted as the equivalent of French 1; three years the equivalent of French 2; and four years the equivalent of French 3. The last year-course taken by a student in the high school language sequence may be repeated in college for graduation credit, not to exceed four units of repeated foreign language work.

LOWER DIVISION COURSES

1. Elementary (4) I, II
Four lectures and one hour of laboratory. Pronunciation, oral practice, readings on French culture and civilization, minimum essentials of grammar.

2. Elementary (4) I, II
Four lectures and one hour of laboratory. Prerequisite: French 1 or two years of high-school French. Continuation of French 1.
French

3. Intermediate (4) I, II
Prerequisite: French 2 or three years of high school French.
A practical application of the fundamental principles of grammar. Reading in French of cultural material, short stories, novels or plays; oral practice; outside reading with oral and written reports. Not open to students with credit in French 7A-7B or 8A-8B.

4. Intermediate (4) I, II
Prerequisite: French 3 or four years of high school French.
Continuation of French 3.

7A-7B. Intensive Reading Course in French (2-2)
Prerequisite: French 1 and 2 or three years of high school French.
Intensive reading of material from the humanities and social sciences selected for the purpose of developing reading skills in French. Open only to students preparing for departmental reading examinations. Not open to students with credit in French 3.

8A-8B. Scientific Reading (2-2)
Prerequisite: French 2 with a grade of C or better, or three years of high school French.
Readings taken from the fields of chemistry, physics, medicine, zoology, biology, etc. Outside reading of books and periodicals, with written reports. Not open to students with credit in French 1 or 7A-7B.

10. Conversation (2) I, II
Prerequisite: French 2 or three years of high school French.
Practice in the spoken language; practical vocabulary, conversation on assigned topics; simple dialogues and plays.

11. Conversation (2) I, II
Prerequisite: French 10 or French 3, or four years of high school French.
Continuation of French 10.

40. French Civilization (2) I
(Same course as Humanities 42)
Conducted in English. No prerequisite.
The major currents and characteristics of French culture, as expressed through the centuries in literature, art, philosophy, music, and science.

41. French Civilization (2) II
(Same course as Humanities 43)
Conducted in English. No prerequisite.
Continuation of French 40.

UPPER DIVISION COURSES

101A-101B. Advanced Oral and Written Composition (3-3)
Prerequisites: French 4 and 11, with a grade of C or better.
Translation into French from moderately difficult English prose. Outside reading of modern French prose, with written reports in French monthly. Readings and oral discussions in French of various facets of French life and culture.

102A-102B. Survey Course in French Literature (3-3)
Prerequisite: French 4 with a grade of C or better.
A study of important movements, authors, and works in French literature from the Middle Ages to the present. French 10 and 11 strongly recommended for liberal arts minor.

105A-105B. Nineteenth Century French Theater (3-3)
Prerequisites: French 4 and 11 with grade of C or better.
Classroom reading and discussion of plays from Victor Hugo through Edmond Rostand. Outside reading and reports.

107A-107B. Eighteenth Century Literature (3-3)
Prerequisites: French 4 and 11 with grade of C or better.
The works of Montesquieu, Voltaire, Rousseau, the Encyclopédistes, as well as the theater and novel of the period. Outside reading and reports.

110A-110B. Nineteenth Century French Novel (3-3)
Prerequisites: French 4 and 11 with grade of C or better.
The French novel from Victor Hugo through Anatole France. Class reading, outside reading, reports.

111A-111B. Seventeenth Century French Literature (3-3)
Prerequisites: French 4 and 11 with grade of C or better.
Introduction to the main writers of the Golden Age of French Literature with emphasis on Corneille, Molière, Racine. Lectures, class discussions, outside readings and reports.

112A-112B. French Lyric Poetry (3-3)
Prerequisite: French 102A-102B with grade of C or better.
The French lyric tradition and its development from the introduction of the genre in the Middle Ages to the contemporary period.

122. The Foreign Language Laboratory (2)
Conducted in English. Prerequisite: Admission to Teacher Education.
Utilization of the language laboratory, applied to the teaching of foreign languages, including operation of equipment and preparation of material. Discussion and demonstration of related techniques. Not open to students with credit in German, Italian, Russian, or Spanish 122. To be taken concurrently with Education 121E.

140. French Civilization (2) I
(Same course as Humanities 142)
Conducted in English. No prerequisite.
An advanced course in French culture of the past and present, with emphasis on the arts, philosophy, and literature. Lectures, class discussions, outside readings, written reports on individual topics.

141. French Civilization (2) II
(Same course as Humanities 143)
Conducted in English. No prerequisite.
Continuation of French 140.

148. Applied French Linguistics (3)
Prerequisite: French 101A-101B with grade of C or better.
Systematic study of the differences and similarities between the spoken and written forms of present-day French; detailed analysis of its sounds, morphological and syntactic structure. Designed especially for prospective teachers who expect to use an audio-lingual approach.

150. Advanced Phonetics and Diction (3) Irregular
Prerequisites: French 101A, 102A, 103A, or equivalents, 10 and 11.
For students and teachers of French wishing to perfect their pronunciation and diction. Correct formation of French sounds in isolation and combination. Class exercises, individual drill, and use of special discs and tape recording.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in French available in any given semester.
Prerequisite: Consent of staff.
French

GRADUATE COURSES

201. History of the French Language (3)
Prerequisite: 18 units of upper division French.
The history of the French language from the beginnings through sixteenth century.

202. Medieval French Literature (3)
(Offered alternate years)
Prerequisite: 18 units of upper division French and French 201.
Readings in the principal monuments, trends and genres of medieval French literature from the beginnings through Francois Villon.

203. Literature of the French Renaissance (3)
(Offered alternate years)
Prerequisite: 18 units of upper division French and French 201.
Literature and thought of the 16th century as represented in the works of Rabelais, Montaigne, Ronsard, DuBellay, etc.

214. The Novel in France in the 20th Century (3)
Prerequisite: 18 units of upper division French.
Current movements and techniques in the novel in France from 1900 to the present, with concentration on the leading novelists of the period.

215. The Theater in France in the 20th Century (3)
Prerequisite: 18 units of upper division French.
Movements and techniques in the French dramatic literature from 1900 to the present, with concentration on the leading dramatists of the period.

220. Explication de Textes (3)
Prerequisite: 18 units of upper division French.
An introduction to the analytical French approach to the detailed study of literature. Demonstrations by instructor and students. This course aims to give teachers of French a greater mastery of French language and literature.

230. Methods of Literary Criticism (3)
Prerequisite: 18 units of upper division French.
Theory and practice of various traditional and modern critical approaches to specific literary texts.

250. Seminar in Seventeenth-Century Literature (3)
Prerequisite: 18 units of upper division French.
Directed research in the works of a representative author (such as Corneille, Moliere, or Racine), or in a genre or movement. Maximum credit six units applicable on a master's degree.

260. Seminar in Eighteenth-Century Literature (3)
Prerequisite: 18 units of upper division French.
Directed research in the works of a representative author (such as Voltaire, Diderot, or Rousseau), or in a genre or movement. Maximum credit six units applicable on a master's degree.

270. Seminar in Nineteenth-Century Literature (3)
Prerequisite: 18 units of upper division French.
Directed research in the works of a representative author (such as Hugo, Balzac, Stendhal, or Zola), or in a genre or movement. Maximum credit six units applicable on a master's degree.

290. Research and Bibliography (2)
Prerequisite: 18 units of upper division French.
Purpose and methods of research in the fields of the language and literature, the collection and collation of bibliographic material, and the proper presentation of the results of such investigation. Recommended for the first semester of graduate work.

General Language

294. Comprehensive Reading and Survey Course (3)
Prerequisites: 18 units of upper division French and consent of graduate advisor and department chairman.
A study of important movements, authors, and works in French literature. Designed to supplement the reading done in previous courses, in preparation for the comprehensive examination in literature for candidates for the M.A. degree.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisites: 18 units of upper division French and consent of instructor. To be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

GENERAL LANGUAGE

IN THE DIVISION OF THE HUMANITIES

Faculty assigned to teach courses in general language are drawn from the Departments of Foreign Languages and English.
Major or minor work is not offered in general language.

LOWER DIVISION COURSES

20. Latin and Greek Word Derivation (3) I, II
(Same course as English 20.)
A general and elementary course in philology. A study of Latin and Greek roots of most frequent occurrence in English, and of the English words derived from them. No prerequisite.

296. General Linguistics (3) I
(Same course as English 196.)
Open only to seniors and graduate students. Recommended: Reading knowledge of Latin, French, Spanish, or German.
A study of the principles of linguistic development illustrated chiefly from the Classical, Romanic, and Germanic language groups.

297. English Linguistics (3) II
(Same course as English 297.)
Open only to seniors and graduate students who have had either English 192 or General Language 196. The phonological, grammatical, and lexical structure of English.

199. Special Study (1-6) I, II
Individual study. Maximum credit six units.
Prerequisite: Consent of instructor.

GEOGRAPHY

IN THE DIVISION OF THE SOCIAL SCIENCES

Faculty
Emeritus Faculty: Blake, Moliitor, Storm
Professors: Eidmiller (Chairman), Post, Pouquier, Richardson, R., Taylor, J., Yahr
Associate Professor: Lewis
Assistant Professors: Finch, Greenwood, Kiewiet de Jonge, Knuth, Wright
Geography

Offered by the Department

Master of Arts degree with a major in geography; and a Master of Arts degree for teaching service with a concentration in social science (geography). (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)

Major in geography with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)

Minor in geography. (Described in the section on Minors for All Degrees.)

For teaching majors and minors, refer to the section on the School of Education.

LOWER DIVISION COURSES

1. Introduction to Geography: Physical Elements (3) I, II

The nature of maps, weather and climates of the world; natural vegetation; landforms and their associated soils, with reference to their climatic relationships; the seas and their coasts. Related field observations.

2. Introduction to Geography: Cultural Regions (3) I, II

Prerequisite: Geography 1.

The regional differentiation of the world by human activity; areal bases of economy and nationality. Not open to students with credit in either 12A or 12B. A maximum of six units will be allowed for Geography 2 and 112A or 112B.

3. Introduction to Meteorology (3) I, II

The composition, structure, and circulation of the atmosphere, including elementary theory of storms and other weather disturbances. May be followed by, or taken with, Geography 4.

4. Introduction to Meteorology Laboratory (1) I, II

Three hours of laboratory.

Prerequisite: Credit or concurrent registration in Geography 3.

The theory of meteorological instruments and observations. Practical exercise in surface and upper air observations, weather codes, and elementary weather map analysis.

60. Economic Geography (3) I, II

Prerequisite: Geography 1.

Man's economic activities over the earth's surface. Principles of agricultural production, extractive industries, manufacturing regions, industrial location, and transportation and trade.

85. Quantitative Methods in Geographic Research (3) II

Prerequisites: Geography 1 and 2, and Mathematics 18.

Use of quantitative methods in geographic research with emphasis on the selection and evaluation of data, statistics, and correlations.

100. Climatology (3) I

Prerequisites: Geography 1 and 3. Geography 3 and 100 cannot be taken concurrently. To be taken by geography majors in their junior year. The causes of climatic phenomena and the regional characteristics of climate.

101. Physiography (3) I

Prerequisites: Geography 1 and Geology 1A. To be taken by geography majors in their junior year. A study of the physiographic processes and concepts, and of selected areas illustrative of physiographic problems. Types of terrain, their origin, and their distribution over the earth.

105. Soils and Natural Vegetation (3) II

Prerequisite: Geography 1.

The soils and natural vegetation associations of the world; their distribution, classification, development, and relations to climates, landforms and economic activity.

110. Historical Geography (3) II

Prerequisite: Geography 1 or 2.

Transformation of the natural and cultural landscape with emphasis on the utilization and significance of resources. Exploration, migration, and settlement in relation to geographic phenomena.

112A-112B. Culture Worlds (3-3)

A study of the evolution, distinguishing cultural characteristics, and physical features of the major cultural regions of the world, with emphasis on the role man has played in the alteration of the natural landscape. This year course not open to students with credit in both 12A and 12B. A maximum of six units will be allowed for one of the following combinations of courses: Geography 2 and 112A or 112B; Geography 12A and 112B; Geography 12B and 112A. (Geography 112A-112B was formerly offered as 12A-12B.)

120. California (3) I, II

Prerequisite: Geography 1.

The physiographic regions of California and the cultural landscapes developed by the successive cultural groups.

121. United States (3) I, II

Prerequisite: Geography 1.

The natural regions of the United States, their formation and economic and historical development.

122. Canada and Alaska (3) II

Prerequisite: Geography 1.

The physical and historical bases of Canadian and Alaskan regionalism; the economic and strategic importance of these two areas.

123. Middle America (3) II

Prerequisite: Geography 1.

The land and peoples of Mexico, Central America, and the islands of the Caribbean; a survey of the resources, economies, and trade of the region.

124. South America (3) I

Prerequisite: Geography 1.

A study of the physical regions and human geography of South America, including a review of the history of colonization and the exploitation of resources.

125. North Africa and the Near East (3) II

Prerequisite: Geography 1.

The geographic bases for the political heritage, economies and peoples of North Africa, including the Sahara, and the Near East.

126. Europe (3) I, II

Prerequisite: Geography 1.

The geographic bases for the political heritage, economies and peoples of Europe.

127. Soviet Union (3) I, II

Prerequisite: Geography 1.

Analysis of natural resources, agricultural production, industrial growth, and transportation.

129. Oceania (3) II

Prerequisite: Geography 1.

The physical geography, peoples, economies, and trade of Oceania, Australia, and New Zealand.
Geography

130. Central and Southern Africa (3) I
Prerequisite: Geography 1.
A regional geography of Africa south of the Sahara; the physical geographic base for the peoples and their economic activities.

131. Eastern Asia (3) I
Prerequisite: Geography 1.
The geographic bases for the political heritage, economies, and people of Eastern Asia.

132. Southern and Southeastern Asia (3) II
Prerequisite: Geography 1.
The geographic bases for the political heritage, economies, and peoples of Southern and Southeastern Asia.

150. Political Geography (3) I
A study of geography as it relates to the strength of nations and international relations.

151. Economic Geography: Primary Production (3) I
Prerequisite: Geography 1 or 2.
The geography of agricultural production and the extractive industries in relation to world commerce.

152. Industrial Geography (3) II
Prerequisite: Geography 1 or 2.
Principles of industrial location, with emphasis on the distribution of the world’s major manufacturing regions; transportation and world trade.

153. Conservation of Natural Resources (3) I, II
Prerequisite: Geography 1.
Nature and extent of mineral, soil, water, forest, and wildlife resources and their conservation, with particular emphasis on the United States against a general background of world resources. Conservation philosophies and practices and their geographic bases.

155. Urban Geography (3) I
Prerequisite: Six units of geography or related experience.
Description and analysis of geographic principles and characteristics related to the distribution, function, structure, and regional setting of urban centers, with discussions of the growth, development and problems of modern cities. Field reconnaissance in local urban areas.

166. Honors Course (Credits to be arranged) I, II
Refer to the Honors Program.

180. Field Geography (3) II
Prerequisite: Senior or graduate standing and the completion of at least 12 units in geography, including Geography 1 and 2, and consent of instructor.
Directed fieldwork in physical and cultural geography.

181A-181B. Maps and Graphic Methods (3-3)
Prerequisite: For Geography 181A, Geography 1; Geography 181A is prerequisite to 181B.
The art and science of creating graphs and maps as media for describing and analyzing geographic phenomena. Laboratory instruction and practice in cartographic techniques with emphasis on presenting quantitative data.

182. Use and Interpretation of Aerial Photographs (3) II
Two lectures and three hours of laboratory.
Prerequisites: Geography 1 and consent of instructor.
Stereoscopic interpretation and cartographic representation of landforms, vegetation, and land use. Emphasis on practical exercises.

183. Map Investigation (3) I
Prerequisite: Geography 1.
Interpretation and evaluation of maps. History of developments in cartography. Study of major mapping organizations of the world and examination of their products.

184. Geography of San Diego County (3) II
Saturday field trips to be arranged.
Prerequisites: Geography 1 and 2.
Analysis of the physical and cultural geographic aspects of San Diego County. Completion of Geography 100, 101, 103 will be helpful to students enrolling in this course.

197. Investigation and Report (3) I, II
Prerequisites: Senior standing as a geography major or as a social science major with a concentration in geography, and departmental consent.
Analysis of special topics in geography; independent study and investigation; guidance in the collection, organization, and presentation of geographic data.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisites: At least 15 units of A or B work in geography and consent of instructor.

GRADUATE COURSES

210. History of Geography (3)
Prerequisite: Approval of graduate adviser.
The evolution of concepts concerning the nature, scope, and methodology of geography.

220. Seminar in Regional Geography (3)
Prerequisite: Approval of departmental advisory committee.
Intensive study of a major world region, such as South America, Southeast Asia and Northern Europe. May be repeated once with new content.

250. Seminar in Systematic Geography (3)
Prerequisite: Approval of departmental advisory committee.
Intensive study of an aspect of systematic geography, such as climatology, economic geography, and graphic presentation. May be repeated once with new content.

280. Techniques of Field Research (3)
Prerequisites: Geography 180 and approval of departmental advisory committee. Detailed and reconnaissance field work including classification of natural and cultural features and preparation of geographical reports and maps based on field data. May be repeated once with new content.

295. Geographic Research and Techniques of Presentation (3)
Prerequisite: Approval of departmental advisory committee.
Seminar in the use of research materials in the different aspects of geography and the effective presentation of research findings in written and oral form.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisites: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.
GEOLGY
IN THE DIVISION OF THE PHYSICAL SCIENCES

Faculty
Professors: Brooks, B., Gastil, Roberts, Thomas, B. (Chairman)
Associate Professors: Allison, Bassett, Berry, Threet
Assistant Professors: Peterson, Pracek, Webster

Offered by the Department
Master of Science degree in geology. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in geology with the A.B. or B.S. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Major in geology with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in geology. (Described in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

1A. Physical (4) I, II
Three lectures and three hours of laboratory with related field study during the semester.
The composition, origin, and distribution of earth materials, and their modification through mechanical and chemical processes. Not open to students with credit for Geology 2.

1B. Historical (4) I, II
Three lectures and three hours of laboratory. Arrangement for field study during the semester.
Prerequisite: Geology 1A, or 2 and 3.
Theories of earth origin, and the evolutionary history of the earth as traced through rock and fossil records. Consideration of the Paleontologic Sequence.

2. General Geology (3) I, II
No prerequisites.
Earth materials and processes, the development of land forms, and a brief consideration of the history of the earth. Open to all students except those with previous credit in geology.

3. General Geology Laboratory (1) I, II
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Geology 2.
Recognition of common earth features and materials with experience in both field and map relationships. Designed to accompany and augment Geology 2. Not open to students with previous laboratory credit in geology.

4. Geomorphology (3) II
Prerequisite: Geology 1B.
Development and classification of land forms with consideration of processes involved. (Formerly Geology 104.)

21. Mineralogy (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: High school chemistry, or credit or concurrent registration in college chemistry.
Practice in the determination of the common minerals; their geologic environment, utilization and economic significance.

24. Petrology (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Geology 1A, or 2 and 3, and credit or concurrent registration in Geology 21.
The origin, occurrence, identification, and classification of rocks and minerals with emphasis on hand specimen characteristics.

52. General Geology for Engineers (3) II
One three-hour laboratory or field project per week.
Prerequisite: Engineering 2 or 24.
Earth materials, geologic processes, and methods of geologic interpretation of particular concern to the engineer. Open only to students majoring in engineering. Not open to students with credit in Geology 3.

UPPER DIVISION COURSES

100. Structural Geology (3) I
Two lectures and three hours of laboratory per week with occasional field trips.
Prerequisites: Geology 1A and 1B.
Structural features of the earth, both deformingal and primary. Mechanical principles, causes of folding and faulting, graphic solutions and analyses.

102. Geology of North America (3) I
Prerequisite: Geology 1B.
A regional analysis of North American geology, its structural, stratigraphic, and tectonic patterns and hypotheses concerning their origin and evolution.

105. Photo-geology (3) II
Two lectures and three hours of laboratory.
Prerequisites: Geology 14 and 100.
Geologic interpretation of aerial photographs, elemental stereoscopy and stereometry applied to structural and stratigraphic problems, and compilation of geologic maps from annotated aerial photographs.

106. Paleontology (4) I
Two lectures and six hours of laboratory.
Prerequisites: Geology 1B and Biology 1 and 2.
Principles and methods, exemplified by a study of the morphology, classification, habit, and geologic significance of fossil invertebrates.

107. Principles of Stratigraphy (3) II
Two lectures and three hours of laboratory.
Prerequisites: Geology 24 and 106.
Procedures used in analysis, correlation, and classification of stratigraphic units.
The chronologic significance of the important physical and biological criteria.

108A. Field Geology (4) II
One lecture per week and 12 Saturday field sessions in the local area.
Prerequisites: Geology 24 and 100, and Engineering 2.
Techniques and methods of geologic observation, interpretation, and field mapping.

108B. Field Geology (4) I
Prerequisite: Geology 108A.
Geologic investigation of an assigned area with preparation of an individual report and a geologic map.

110. Introduction to Geophysics (3) I
Two lectures and three hours of laboratory.
Prerequisites: Mathematics 22 or 50, Physics 2B and 3B or equivalents, and Geology 100 or concurrent registration therein.
Physics of the earth and its application to prospecting for oil, gas, and mineral deposits.
Geology

112. Advanced Geophysics (3) II
(Offered in alternate years)
Two lectures and three hours of laboratory.
Prerequisites: Mathematics 52, Physics 103 and 110, and Geology 110.
Theoretical principles underlying the physics of the earth and their application
to the design and the operation of geophysical instruments, and to the interpretation
of the geophysical records.

116. Micropaleontology (3) II
(Offered in 1965-66 and alternate years)
Two lectures and three hours of laboratory.
Prerequisite: Geology 106.
A study of the morphology, classification and geologic significance of the various
microfossils.

118-5. Summer Field Problems (4-6)
Prerequisite: Geology 108A and consent of instructor.
The employment of field techniques in the investigation of selected geological
problems. This course cannot be substituted for Geology 108B.

119-5. Summer Field Tour (2)
Prerequisite: Consent of instructor.
A two-week study of some of the classic geologic localities in the western United
States. A camping trip with travel by chartered bus. Localities visited may vary
from year to year. May be repeated for a maximum of four units.

120. Ore Deposits (3)
(Offered in alternate years)
Prerequisites: Completion or concurrent registration in Geology 24 and 100.
Geologic relations, origin, distribution, and economics of metallic and non-
metallic mineral deposits.

121. Petroleum Geology (3) I
(Offered in 1965-66 and alternate years)
Prerequisites: Completion or concurrent registration in Geology 24 and 100.
Geologic occurrence of petroleum and the application of geologic principles in
exploration and production.

124. Optical Mineralogy (3) I
Two lectures and three hours of laboratory.
Prerequisite: Geology 21.
Theory and use of the polarizing microscope for determining optical properties
of minerals as an aid to their identification.

125. Petrography (4) II
Two lectures and six hours of laboratory.
Prerequisite: Geology 124.
A study of rocks with the polarizing microscope; identification of mineral con-
stituents; interpretation of textures; classification of rocks; problems of genesis.

130. Geochemistry (3) II
Two lectures and three hours of laboratory.
Prerequisites: Geology 24 and Chemistry 1B.
The relationship of basic chemical principles to geologic phenomena and environ-
ments, including applications to geologic exploration problems.

166. Honors Course (Credit to be arranged) I, II
Special work in any of several phases of geologic science for students of demon-
strated ability. Refer to the Honors Program.

19. Senior Report (2) I, II
Six hours of laboratory and discussions.
Prerequisite: Geology 108B and consent of instructor.
Individual research project, involving field work in a selected field of geology,
with oral reports of progress to the class and a final oral and written report of
work accomplished. May be repeated to a total of four units.

199. Special Study (1-4) I, II
Individual study in field, library, laboratory, or museum work. Four units max-
imum credit.
Prerequisites: Acceptable grade average in at least 12 upper division units within
the major and consent of staff.

GRADUATE COURSES

200. Seminar (2 or 3)
Prerequisite: Consent of instructor.
An intensive study in advanced geology, topic to be announced in the class
schedule. Maximum credit six units applicable on a master's degree.

210. Advanced Petrology and Mineralogy (3)
Two lectures and three hours of laboratory.
Prerequisite: Geology 125.
Modern theoretical petrology with emphasis on applications to igneous and meta-
orphic rocks. X-ray, universal stage, mineralogy, and other laboratory
techniques and their application to geologic problems.

220. Biotructography (3)
Two lectures and three hours of laboratory.
Prerequisite: Geology 107.
Stratigraphic and geochronologic synthesis of geologic events and their relation-
ship to the temporal and spatial distribution of life forms. Laboratory analysis
of biological data applied to stratigraphic problems.

230. Sedimentology (3)
Two lectures and three hours of laboratory.
Prerequisite: Geology 124.
Classification, distribution, and origin of sedimentary deposits and the theory of
their interpretation. Mechanical, chemical, and optical analysis of detrital and
chemical sediments and sedimentary rocks and their depositional structures.

240. Regional Tectonics (3)
Prerequisite: Geology 106.
A consideration of topics on continental origin, ultimate orogenic force,
mechanics of earth deformation and geosynclinal theory, with a survey of classic
geologic provinces, and individual projects utilizing techniques of regional syn-
thesis.

298. Special Study (1-3)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and
instructor.

299. Thesis (3)
Prerequisite: An officially appointed thesis committee and advancement to can-
didacy.
Guidance in the preparation of a thesis for the master's degree.
GERMAN

IN THE DIVISION OF THE HUMANITIES

Faculty
Emeritus Faculty: Walker
Professor: Wolf
Associate Professor: Lawson (Chairman, German-Russian)
Assistant Professors: Boney, Dunkle, Gallatti, Paulin, Tanaka, Westervelt
Lecturer: Loomis, I.

Offered by the Department of German and Russian
Master of Arts degree with a major in German. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in German with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in German. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

HIGH SCHOOL EQUIVALENTS

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

The first two years of high school German may be counted as the equivalent of German I; three years as the equivalent of German II; and four years as the equivalent of German III. The last year-course taken by a student in the high school language sequence may be repeated in college for graduation credit, not to exceed four units of repeated foreign language work.

LOWER DIVISION COURSES

1. Elementary (4) I, II
Four lectures and one hour of laboratory.
Prerequisites: German 1 or two years of high school German.
A practical application of the fundamental principles of grammar.

2. Elementary (4) I, II
Four lectures and one hour of laboratory.
Prerequisites: German 1 or two years of high school German.

3. Intermediate (4) I, II
Prerequisites: German 2 or three years of high school German.
An introduction to the literature of the German Enlightenment, the "Sturm and Stress," the Classical Age, and the beginnings of the Romantic School. Outside readings and reports.

4. Intermediate (4) I, II
Prerequisites: German 3 or four years of high school German.
Continuation of German 3.

7A-7B. Intensive Reading Course in German (2-2)
Prerequisites: German 1 and 2 or three years of high school German.
Intensive reading of material from the humanities and social sciences selected for the purpose of developing reading skills in German. Open only to students in German 3.

10A-B. Scientific Reading (2-2)
Prerequisite: German 2 with a grade of C or better, or three years of high school German.
Readings taken from the fields of chemistry, physics, medicine, zoology, biology, and other fields. Outside reading of books and periodicals, with written reports. Not open to students with credit in German 3 or 7A-7B.

10. Conversation (2) I, II
Prerequisite: German 2 or three years of high school German.
Practice in the spoken language: practical vocabulary; conversation on assigned topics; simple dialogues and plays.

11. Conversation (2) I, II
Prerequisite: German 10 or German 3, or four years of high school German.
Continuation of German 10.

40. German Civilization (3) I
(Same course as Humanities 44)
Conducted in English. No prerequisite.
The major currents and characteristics of German culture, as expressed through the centuries in literature, art, philosophy, music, and science.

41. German Civilization (3) II
(Same course as Humanities 45)
Conducted in English. No prerequisite.
Continuation of German 40.

UPPER DIVISION COURSES

101A-101B. Advanced Oral and Written Composition (3-3)
Prerequisites: German 4 or 11, with a grade of C or better.
Translation into German of moderately difficult English prose. Free composition in German, written and oral. Outside reading of modern German plays and prose discussions in German. Oral and written practice in conversational German.

102A-102B. Survey Course in German Literature (3-3)
Prerequisites: German 4 with a grade of C or better.
A study of important movements, authors, and works in German literature from the Middle Ages to the present.

103A-103B. German Literature of the Eighteenth Century (3-3)
Prerequisites: German 4 and 11 with grade of C or better.
An introduction to the literature of the German Enlightenment, the "Sturm and Stress," the Classical Age, and the beginnings of the Romantic School. Outside readings and reports.

105A-105B. German Literature of the 19th Century (3-3)
Prerequisites: German 4 and 11 with grade of C or better.
An introduction to the literature of German Romanticism, Young Germany, Realism, and Naturalism. Outside readings and reports.

108. Renaissance and Baroque Literature (3)
Prerequisites: German 4 and 11 with grade of C or better.
German literature of the 16th and 17th centuries.

110A-110B. Contemporary German Literature (3-3)
Prerequisites: German 4 and 11 with grade of C or better.
An introduction to the main developments in German literature from Neo-Romanticism to the present. Outside readings and reports.

115. Goethe's "Faust" (3)
Prerequisites: German 4 and 11 with grade of C or better.
Goethe's Faust, Parts I and II, its philosophical contents and its position in German and European literature; lectures, reading, reports.
German

122. The Foreign Language Laboratory (2)
Conducted in English.
Prerequisite: Admission to Teacher Education.
Utilization of the language laboratory, applied to the teaching of foreign languages, including the operation of equipment and preparation of material. Discussion and demonstration of related techniques. Not open to students with credit in French, Italian, Russian, or Spanish 122. To be taken concurrently with Education 121E.

130. German Syntax and Stylistics (2)
Prerequisites: German 101A-101B.
Theoretical and practical study of the structure of German prose.

140. German Civilization (2) I
(Same course as Humanities 144)
Conducted in English. No prerequisite.
An advanced course in German history of the past and present, with emphasis on the arts, philosophy, and literature. Lectures, class discussions, outside readings, written reports on individual topics.

141. German Civilization (2) II
(Same course as Humanities 145)
Conducted in English. No prerequisite.
Continuation of German 140.

150. German Phonology (2)
Prerequisites: German 4 and 11.
Intensive study of the sounds, intonation, and elocution of German.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

199. Special Study (1-4) I, II
Individual study. Six units maximum credit. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in German available in any given semester.

GRADUATE COURSES

201. History of the German Language (3)
Prerequisite: 18 units of upper division German.
The historical development of the German language, with source readings from the Gothic Bible to Luther's translation of the Bible.

202. Middle High German (3)
Prerequisite: 18 units of upper division German.
The grammatical structure of Middle High German, with readings from the "Nibelungenlied," "Parzival," "Tristan und Isolde," and from the lyric poets of the period.

203. The German "Novelle" (3)
Prerequisite: 18 units of upper division German.
The development of the "Novelle" as a literary form from Goethe to the present.

204. The German Novel in the Twentieth Century (3)
Prerequisite: 18 units of upper division German.
The German novel from the beginning of the twentieth century with special emphasis on the works of Thomas Mann, Hermann Hesse, and Franz Kafka.

205. German Lyric Poetry from Hölderlin to Rilke (3)
Prerequisite: 18 units of upper division German.
The major German lyric poets from the beginnings of Romanticism to Rilke.

206. The German Drama of the 19th Century (3)
Prerequisite: 18 units of upper division German.
Representative works of German dramatic literature from Kleist to Hauptmann.

Greek

231. Seminar in Eighteenth-Century Literature (3)
Prerequisite: 18 units of upper division German.
Directed research in the works of an important author or in a problem, type, or movement of Greek literature of the eighteenth century. Maximum credit six units applicable on a master's degree.

235. Seminar in Nineteenth-Century Literature (3)
Prerequisite: 18 units of upper division German.
Directed research in the works of an important author or in a problem, type, or movement of Greek literature of the nineteenth century. Maximum credit six units applicable on a master's degree.

260. Seminar in Twentieth-Century Literature (3)
Prerequisite: 18 units of upper division German.
Directed research in the works of an important author or in a problem, type, or movement of Greek literature of the twentieth century. Maximum credit six units applicable on a master's degree.

290. Research and Bibliography (2)
Prerequisite: 18 units of upper division German.
Preparation of research and reading in the fields of the language and literature, the collection and collation of bibliographic material, and the proper presentation of the results of such investigation. Recommended for the first semester of graduate work.

294. Comprehensive Reading and Survey Course (3)
Prerequisite: 18 units of upper division German and consent of graduate adviser and department chairman.
A study of important movements, authors, and works in Greek literature. Designed to supplement the reading done in previous courses, in preparation for the comprehensive examination in literature for candidates for the M.A. degree.

299. Special Study (1-4)
Individual study. Six units maximum credit.
Prerequisites: 18 units of upper division German and consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

GREEK

IN THE DIVISION OF THE HUMANITIES

Faculty
Assistant Professor: Warren

Offered by the Division of the Humanities

Courses in Greek

Major or minor work in Greek is not offered.

LOWER DIVISION COURSES

1. Elementary (4) I
Introduction to Attic Greek, emphasizing intensive reading in Attic prose.

2. Elementary (4) II
Prerequisite: Greek 1 or equivalent.
Continuation of Greek 1.
Health Education

UPPER DIVISION COURSES

103. Readings in Classical Greek (3) I
Prerequisite: Greek 2.
Intensive reading in classical authors, such as Zenophon, Plato, and Sophocles.

104. Readings in Classical Greek (3) II
Prerequisite: Greek 103.
Continuation of Greek 103.

199. Special Study (1-6) I, II
Individual study. Maximum credit six units.
Prerequisite: Consent of instructor.

HEALTH EDUCATION

IN THE DIVISION OF HEALTH EDUCATION, PHYSICAL EDUCATION, AND RECREATION

Faculty
Professors: Grassunder, Kitzinger
Associate Professors: Burgess, Harper (Chairman)
Assistant Professors: Boskin, McClellan
Lecturers: Esamilla, Huff, Shelley, Thompson

Offered by the Department
Master of Arts degree for teaching service with a concentration in health education.
(Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in health education with the B.S. degree in applied arts and sciences.
(Described in the section on Applied Arts and Sciences.)
Minor in health education. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

LOWER DIVISION COURSES

21. Principles of Healthful Living (2) I, II
An application of modern knowledge to the development of understandings, attitudes, and practices essential to healthful living. A required general education course. Fulfills statutory requirement in public safety.

29. Physiology of Reproduction (1) I, II
A series of lectures and discussions dealing with normal and abnormal physiology and anatomy of reproduction; facts and fables in sex hygiene, and related topics.

65. Community Health (3) I, II
Community health problems; the role of the citizen, of the public, and of community health agencies in promoting and protecting the health of the community.

UPPER DIVISION COURSES

100. Introduction to Health Education (3) I
History and principles of health education and its role in modern society. An orientation course for students with a professional interest in health education.

145. Safety Education and Accident Prevention (3) I, II
Principles of safety and safety education as applied to the home, school, industry, traffic, recreation, and fire prevention.

146. Instructor's Course in First Aid (3) I, II, Summer
Standard Red Cross course for instructors in first aid plus medical-legal problems of emergency care of accident victims. (Formerly Physical Education 161.)

Health Education

147. Traffic Safety and Driver Education (3) Summer
Analysis of traffic accidents including motor vehicle accidents; natural laws and traffic laws as applied to traffic safety; safe use and care of vehicles; instructional approaches.

148. Advanced Driver Education and Driver Training (3) Summer
Prerequisite: Health Education 145 and 147.
Principles and practice in organizing, conducting, and supervising programs in traffic safety and driver education and driver training including psycho-physical testing; behind-the-wheel training; teaching with simulators.

150. Health Education for Elementary Teachers (2) I, II
The teacher's function in the different aspects of the elementary school health program, with emphasis upon the planning and presentation of instructional material and upon community resources and relationships. Not open to students with credit in Health Education 151.

151. Health Education for Secondary Teachers (2) I, II
Health status of adolescents and of the teacher's function in the secondary school health program. Emphasis is placed upon statutory requirements in stimulants and upon safety and accident prevention. Not open to students with credit in Health Education 150.

153. Administration of the School Health Program (3) II
Administrative responsibilities and procedures in organizing and conducting the school health program. Principles, policies, and practices involved in instruction, service, environment, and community relationships.

154. Workshop in Health Education (2) Summer
For elementary and secondary administrators, school nurses, and teachers. The workshop provides opportunities for participants to work together toward the improvement of the total school health program in such areas as health instruction, health services, health environment, and community health. May be taken three times for credit.

160. Introduction to Public Health (3) I
Prerequisite: Health Education 65.
Philosophy, development, organization, administration, and legal aspects of public health in the United States. Disease prevention and control, health education, and the other functions and activities of official health departments, voluntary agencies, private physicians and others engaged in professional health work.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

169. World Health (3) II
Prerequisite: Health Education 65.
Health status of selected populations; international approaches to the attainment of world health. Special emphasis on the work of the World Health Organization.

171. Institute on Current Health Issues (1) I, II, 5
A critical appraisal and analysis of selected contemporary health issues. May be repeated with different subject matter. Maximum of three units may be applied toward a bachelor's degree.

175. Health in Later Maturity (3) I
An approach to the conservation of human resources, with particular emphasis on understandings, attitudes, and practices related to health in later maturity. Designed for those with a personal or professional interest in the field.
Health Education

176. Health and Medical Care (3) II
Prerequisite: Senior or graduate standing with a major or minor in health education or closely related areas.
- Health values, concepts, and attitudes; health products and facilities; hospital care and hospitalization plans; governmental health controls; economic and cultural influences upon health and medical care; professional contributions, relationships, and careers; national and international health programs. Not open to students with credit in Sociology 121.

192. Critical Analysis of Professional Literature (3) I, II
Investigation and study of selected literature in the field which has important bearing on health, physical education, and recreation programs in the school and community. Evaluation of literature content on basis of specific criteria.

197. Supervised Field Experience (1-3) I, II
Prerequisite: Senior standing and consent of the chairman of the department. Supervised practical experience in local health agencies.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of the special study adviser.

GRADUATE COURSES

200. Seminar (3)
Prerequisite: Fifteen units completed in Health Education. An intensive study of advanced problems in health education. Maximum credit six units applicable on a master's degree.

201. Interdisciplinary Factors in Health Education (3)
Prerequisite: Fifteen units completed in Health Education. Synthesis of basic scientific and cultural principles which contribute to an understanding of human well-being and how it is deliberately influenced.

202. Measurement and Evaluation in Health Education (3)
Prerequisite: Health Education 151. General and specific approaches to measurement in Health Education; data gathering techniques; organization, presentation, and interpretation of data; basic principles of evaluation of student achievement.

245. School Safety Programs and Procedures (3)
Prerequisite: Health Education 145. Advanced consideration of school safety programs including legal bases and requirements, personnel responsibilities, liability, instruction, maintenance, and school transportation.

270. Communicable and Non-Communicable Disease (3)
Prerequisite: Undergraduate major or minor in Health Education. Study of selected diseases. Individual investigation and discussion.

271. Habit-forming and Addicting Drugs (3)
Prerequisite: Undergraduate major or minor in Health Education. Non-medical use of stimulants and depressants; habituation, addiction, and control. Individual investigation and discussion.

298. Special Study (1-6)
Prerequisite: Consent of staff; to be arranged with department special study adviser and instructor. Individual study. Six units maximum credit.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy. Guidance in the preparation of a project or thesis for the master's degree.
History

UPPER DIVISION COURSES

111A-111B. Ancient History (3-3)
Fall semester: Greece to the Roman Conquest.
Spring semester: Rome to the 5th century A.D.

121A-121B. Europe in the Middle Ages (3-3)
Prerequisite: History 121A is prerequisite to History 121B.
European social, cultural, and political developments from the fall of Rome to the Renaissance.

131A-131B. Renaissance and Reformation (3-3)
Persons and events connected with the social, political, cultural, economic and religious change between 1300 and 1600. 131A not open to students with credit for History 132-S.

132-S. Culture of the Renaissance (3) Summer
Development of art, literature, philosophy and social life between 1300 and 1600. Not open to students with credit for History 131A.

141A-141B. Europe in the 17th and 18th Centuries (3-3)
Prerequisite: History 141A is prerequisite to History 141B.
Europe from the Thirty Years War to the French Revolution. Emphasis is on Western Europe and the growth of French preponderance. First semester: The rise of absolutism to 1715. Second semester: The Enlightenment and the nature of the "old regime" to the eve of revolution.

142A. The French Revolution and Napoleonic Era (3) I
France on the eve of the Revolution; the Great Revolution, 1789-1799, the Napoleonic Era.

142B. Modern France (3) II
The development of France since 1815.

143A-143B. Intellectual History of Europe in the 19th Century (3-3)
Prerequisite: History 4A-4B, or equivalent knowledge of European history; History 143A is prerequisite to 143B.
An analysis of the dominant ideas of the 19th century. Course work is based primarily upon contemporary source materials.

144A-144B. Europe in the 20th Century (3-3)
Prerequisite: History 144A is prerequisite to History 144B.
Political and social developments from 1870 to the present.

145A-145B. Diplomatic History of Modern Europe (3-3)
Diplomatic relations of the various European states with European and non-European powers. First semester: From the Congress of Vienna (1815) to the Era of Realpolitik in the late 19th century. Second semester: The diplomatic background and results of two wars.

146A-146B. Germany and Central Europe (3-3)
Prerequisite: History 4A-4B, or equivalent knowledge of European history.
The political, social, and cultural record of the Germanic peoples of Northern and Central Europe from Tacitus to the present.

147A-147B. Russia and the Soviet Union (3-3)
Political, social, and economic development of Russia in Europe and Asia from the earliest times to the present. Second semester: Emphasis on the 20th century.

149A-149B. Modern Spain and Italy (3-3)
A cultural and political survey of two major source areas of Western Civilization in modern times. Semester I: The Iberian Peninsula; Semester II: Italy.

151A-151B. England (3-3)
Prerequisite: History 151A is prerequisite to History 151B.
Political and social history of England from the earliest times to the present day, stressing the origins of American institutions and social patterns. Recommended for majors in English.

152A-152B. Constitutional History of England (3-3)
Evolution of the common law and the development of parliamentary institutions.

153A-153B. Tudor and Stuart England (3-3)

154A-154B. Modern Britain (3-3)
First semester: The development of constitutional and social patterns from the Glorious Revolution to the French Revolution, emphasizing the immediate background to the American Revolution. Second semester: The French Revolution, the rise of parliamentary democracy, the Victorian age and political thought from the Utilitarians to the Fabians.

156. The Byzantine Empire and Its Successors (3)
History and civilization of the traditional Near East from the founding of Constantinople in 330 A.D. to the present day. The latter part of the course will stress the decline of the Ottoman Turks and the establishment of modern national states in the region.

157. The Arab States, Israel, and Iran (3)
History and civilization of the Arab World and the Middle East from the rise of Islam in the 7th century to the present day. The expansion of the Arabs, the institutions of Islam, the penetration of Western ideas, the development of nationalism, and the interests and foreign policy of America in this strategic area will be stressed.

158A-158B. Africa (3-3)
Semester I: The historical development of North Africa; the growth and decline of imperialism, especially in French North Africa. Semester II: The history of Africa south of the Sahara.

160A-160B. Latin America (3-3)
Semester I: Colonial Period to approximately 1825. Semester II: Republican Latin America. Not open to students with credit in History 8A-8B.

161. Mexico (3) I
Prerequisite: History 8A-8B or 160A-160B.
An intensive study of colonial and modern Mexico with special emphasis on the 20th century.

162. Argentina, Brazil, and Chile (3) II
Prerequisite: History 8A-8B or 160A-160B.
An intensive study of the three leading Hispanic Powers of South America.

163. The Caribbean Area (3)
Prerequisite: History 8A-8B or 160A-160B.
The development of Central America and the Spanish Main with emphasis on the 20th century.

165A-165B. Economic, Social, and Intellectual Development of Latin America (3-3)
Prerequisites: At least nine units in Latin American History and some acquaintance with the Spanish language. Designed for students in the Latin American Studies program, foreign trade, and foreign service.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.
182. **The Spanish Borderlands and the Southwest to 1821 (3:3)**

Development and colonization of the Spanish southwest; the growth and influence of Spanish institutions on American culture in this area.

183. **The Modern Southwest (3:3)**

The development and problems of expansion, water, industry, transportation, immigration, culture, and agriculture in the region of semi-aridity.

189A-189B. **California (3:3)**

Political institutions; social, cultural, economic, and intellectual development; international background. Semester I: to 1879; Spanish and Mexican heritage. Semester II: to the present. History 189B will fulfill the requirement in California state and local government.

190A-190B. **Southeast Asia (3:3)**

Semester I: Cultural traditions of Southeast Asian peoples. Indigenous institutions and the influence of China, India, and Islam. Semester II: Southeast Asia in the modern world. Patterns of foreign stimulus and local response among the peoples of the area.

191A-191B. **The Far East (3:3)**

Particular, but not exclusive, emphasis on Asian-Western relations. Semester I: Through the 19th century. Semester II: The 20th century.

192. **Chinese Civilization (3:1)**

Chinese internal history and institutions during the period of relative isolation; religions, philosophy, literature, and the arts.

193. **China in Modern Times (3:1)**

The impact of the West on China's history and civilization, particularly in the nineteenth and twentieth centuries with emphasis on internal developments.

194. **Japanese Civilization (3:1)**

Japanese internal history and institutions during the period of indigenous development and Chinese influence including religions, philosophy, literature, and the arts.

195. **Rise of Japan as a Modern State (5:2)**

The impact of the West on Japan's history and civilization, particularly in the nineteenth and twentieth centuries with emphasis on internal developments.

196A-196B. **The Indian Sub-Continent (3:3)**

Semester I: The historical and cultural development of the sub-continent from earliest times through Muslim rule. Semester II: British rule and its legacy in the sub-continent. The international relations of India and Pakistan.

197. **Introduction to Great Historians and Historical Literature (3:1)**

Lectures and readings in the history of history and the works of major historians. Open to all upper division students; especially recommended for history and social science majors.

198. **The Writing of History (3:1)**

Historical method and research in some aspect of one of the following fields of history: (a) Europe; (b) United States; (c) Latin America; (d) South and East Asia; (e) Africa and the Middle East.

199. **Special Study (1-6)**

Individual study. Six units maximum credit. Prerequisite: Consent of department chairman and instructor.
History

GRADUATE COURSES

NOTE: All graduate courses have a prerequisite of 12 units of upper division history, including specific prerequisites in history, or consent of the instructor.

201. Historical Method (3)
Required of all applicants for advanced degrees in history. Open to others with consent of instructor.
General historical bibliography. The use of libraries and archives. Methods of critical historical investigation. The interpretations of history.

202. Seminar in Historiography (3)
Prerequisite: History 197 or consent of instructor.
A critical study of the works of major historians, their philosophies, and the schools of scholarship associated with their work.

248. Directed Reading in Medieval and Early Modern European History (3)
Prerequisite: Six units in Ancient, Medieval, Renaissance, or Reformation History. Selected readings in source materials and historical literature.

249. Directed Reading in Modern European History (3)
Prerequisite: Six units in Modern European History. Selected readings in source materials and historical literature.

251A-251B. Seminar in English History (3-3)
Prerequisite: Consent of instructor. History 251A is prerequisite to 251B. Directed research in selected aspects of English history.

262. Directed Reading in Latin American History: Colonial Period (3)
Prerequisite: Six units in Latin American History. Selected readings in source materials and historical literature.

263. Directed Reading in Latin American History: National Period (3)
Prerequisite: Six units in Latin American History. Selected readings in source materials and historical literature.

270A-270B. Seminar in American History (3-3)
Prerequisite: Consent of instructor. History 270A is prerequisite to 270B. An introduction to intensive investigation of various phases of American history.

274. Seminar in Recent United States History (3)
Prerequisite: History 174 or 175A or 175B or 175C, or any six upper division units in U.S. History. Research. Selected topics in recent United States history.

276. Seminar in Diplomatic History of the United States (3)
Prerequisite: Consent of instructor. Research. Selected topics in American diplomatic history.

278. Directed Reading in United States History (3)
Prerequisite: Six units in United States history. Selected readings in source materials and historical literature, with detailed analyses in oral or written form.

281. Seminar in History of the West (3)
Prerequisite: Consent of instructor. Research. Selected topics in the history of the American West.

289. Seminar in California History (3)
Prerequisite: Consent of instructor. Research. Selected topics in California history.

290. Directed Reading in Asian History (3)
Prerequisite: Six upper division units of Asian history. Selected readings in source materials and historical literature.

Home Economics

291. Seminar in Far Eastern History (3)
Prerequisite: Consent of instructor. Research. Selected topics in Far Eastern history.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

HOME ECONOMICS

IN THE DIVISION OF THE FINE ARTS

Faculty
Emeritus Faculty: Gomin, Talboy
Professor: Cannon (Chairman)
Associate Professors: Dorris, Thomas, A.
Assistant Professors: Anderson, Z., Martin, M., Nordquist
Lecturers: Baumgartner, Boggs, Milne, T.

Offered by the Department
Major in home economics with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Minor in home economics. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

LOWER DIVISION COURSES

1. General Home Arts (3) I, II
Three lectures.
Consideration of necessary preparation for marriage with emphasis on a stable, happy democratic family life; family budgets and money management; finding a home to buy, build or rent; child care, proper training and guidance; home safety. Open to men and women.

2. Orientation to Home Economics as a Profession (1) 1
One lecture.
Introduction to the opportunities and requirements in various professional fields for home economists.

3. Food and Nutrition (3) I, II
One lecture and six hours of laboratory.
Selection, purchase, and serving of meals with a consideration of nutritional needs of the family groups, food habits; and social customs; management problems.

4A. Fundamentals of Nutrition (2) I, II
Prerequisite: Chemistry 2A.
Normal nutrition as applied to the stages of the normal life cycle from infancy through old age.

4B. Nutrition Laboratory (1) II
Three hours of laboratory.
Prerequisite: Limited to students in the nursing program.
Principles of nutrition applied to food preparation, meal planning, and special diets.
103. Quantity Cookery (3) I
One lecture and six hours of laboratory.
Prerequisites: Home Economics 100 and Business Administration 1A.
Application of basic principles to quantity foods, including experiences in planning, purchasing, storage, preparation, serving and cost accounting for institutional food service. Laboratory experience is provided in the campus cafeteria and in hospitals.

104. Institutional Food Organization and Management (3) II
Two lectures and three hours of laboratory.
Prerequisites: Home Economics 101.
Study of problems involved in the organization of food service units, problems of administration, cost of food service, specifications, operation and care of equipment for institutions, and routing of work. Special projects and field trips.

105. Experimental Foods (3) II
One lecture and six hours of laboratory.
Prerequisite: Home Economics 100.
Physical and chemical tests applied to problems in processing and preparation of foods. Studies relate to protein foods; batters, doughs and sugar cookery; emulsions, fats and oils; and developments in food preservation.

106. Diet Therapy (3) II
Two lectures and three hours of laboratory.
Prerequisite: Home Economics 102.
Planning and preparation of special diets and food requirements in pathological conditions.

115. Advanced Clothing (3) I, II
Six hours activity.
Prerequisite: Home Economics 15.
Fitting and construction processes applied to wool, silk, and synthetics, emphasizing fundamental principles of handling.

116. Advanced Clothing Design (3) II
Six hours activity.
Prerequisite: Home Economics 115.
Principles of tailoring; planning and construction of coats and suits.

117. Clothing Selection (3) I
Three lectures.
Appropriate clothing for the individual and the family. Basic art principles, fashion trends, history of costume, buying practices; current legislation in textiles and clothing.

118. Flat Pattern Design (3) Irregular
Six hours activity.
Prerequisites: Home Economics 115 and Art 6A.
Problems involving principles and techniques of flat pattern construction. Development of basic sloper for purpose of interpreting new designs. Investigation of sources of inspiration and their relationship to significant trend in design.

119. Textile Analysis and Testing (3) Irregular
Six hours activity.
Prerequisites: Home Economics 15 and Chemistry 2B.
Analysis based on physical and chemical tests for quality differences due to variation in fibers, content, structure, and finishes and their suitability for specified uses.

135. Family Study (3) I, II
Prerequisites: Psychology 1, Home Economics 35 and 70.
Dynamics of family living; attitudes, practices, social and psychological interaction, and family life patterns in different cultures, social classes and ethnic groups.
(Formerly numbered and entitled: Home Economics 179, Problems of Family Living.)
143. Household Equipment and Processes (3) II
Six hours activity.
Prerequisite: Physics 5 and Chemistry 2B.
Study and laboratory experience to acquaint students with current research findings in relation to equipment and household supplies. Emphasis placed upon characteristics and composition of household materials, use and care.

150. Principles of Home Management (3) II
Open to both men and women, but not open to home economics majors.
Efficient management of the home, family cooperation, establishment of goals, and productive use of money, time, and energy. Not open to students with credit in Home Economics 151.

151. Home Management Theory and Analysis (3) I, II
Prerequisites: Home Economics 30 and 40.
Management process and its relationship to the use of resources based upon the decisions, values, goals, and standards of the family. Adaptation of work simplification techniques for use in studies of activities in homes and home economics classes.

152. Home Management Laboratory (3) I, II
Five weeks' residence in a family-size unit.
Prerequisites: Home Economics 30, 100, and 151; and written request made to department chairman one year prior to enrollment.
Application of theories and principles of all disciplines of home economics.

160. Merchandise Analysis (3) II
(Same course as Business Administration 160)
Three lectures.
Characteristics, merits, limitations, care, and selling points of the more important textile and nontextile products. Stress on manufacturing processes as they affect consumer demands. Not open to home economics majors.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

170. Human Development: Infancy (3) Irregular
Two lectures and two hours of participation.
Prerequisite: Home Economics 70.
Physiological, psychological, social and cultural development and behavior of the human organism through age two. Infants are studied in the home, laboratory or in social agencies.

171. Human Development: Early Childhood (3)
Two lectures and two hours of participation.
Prerequisite: Home Economics 70.
Development, behavior, and guidance of the preschool child, with special emphasis upon psychodynamics of family and group interaction. (Formerly numbered and entitled: Home Economics 170, Child Study Laboratory.)

175. The Nursery School Program (3) I
Prerequisite: Home Economics 70.
An analysis of the types of programs for the Nursery School with consideration of methods and materials evaluated in terms of child development.

176. Creative Experiences for Young Children (3) Irregular
Prerequisite: Home Economics 175.
Exploration of spontaneous creativity at the preschool age; evaluation of materials best suited for use in art, music, dance, and language for the young child.

177. Administration and Supervision in Nursery Schools (3) Irregular
Prerequisites: Home Economics 175 and 176 or teaching experience in a nursery school.
Problems of organization in conducting schools for young children; interrelationships of staff; personnel practices; communication with teaching staff, parents, and community; records and reports.

178. Methods and Materials in Parent Education (3) II
Prerequisite: Consent of instructor.
An investigation of philosophy, curriculum, instruction, current trends, and issues in the teaching of child guidance to parents.

179. Advanced Child Study (3) II
Prerequisites: Psychology 1 and Home Economics 70.
Readings and interpretations of scientific literature which contribute to an understanding of child behavior. An advanced analysis of physical, social, and psychological factors which determine the direction of human development. (Formerly numbered 171.)

180. Food Demonstration Techniques (1) II
Two hours activity.
Prerequisite: Nine units in home economics courses.
Organizing materials and acquiring techniques for demonstrations; observation and evaluation of professional demonstrations.

181. Materials and Techniques for Teaching Home Economics (2) II
Two hours
Prerequisite: Education 121C or concurrent registration.
Development and use of audio-visual and other instructional materials.

190. Advanced Studies in Home Economics (2-6) Irregular
Prerequisite: Twelve upper division units in home economics.
Advanced study of selected topics. Maximum credit six units.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of the instructor.

GRADUATE COURSES

200. Seminar: Foods and Nutrition (3)
Prerequisites: Home Economics 100, 105, and Chemistry 3.
An intensive study of research and technological advances in the fields of foods and nutrition with emphasis on professional organizations and ethical procedures.

215. Seminar: Clothing and Textiles (3)
Prerequisites: Home Economics 119 and consent of instructor.
Investigation and report of specific problems in textiles and clothing. Controlled laboratory methods used. Individual research emphasized.

230. Seminar: Home Management and Family Economics (3)
Prerequisites: Home Economics 40, 151, and 152.
A study of recent research and findings in the area of home management and/or family finance. Students develop extensive individual projects.

270. Seminar: Child Development and Guidance (3)
Prerequisite: Consent of instructor.
Emphasis on personality theories and on research and clinical findings relevant to a systematic study of human development and the guidance of children.

274. Seminar: Marriage Adjustment (3)
Prerequisite: Home Economics 179.
Individual study, seminar reports, and group discussions of selected topics in marriage adjustment.

281. Seminar: Home Economics Education (3)
Prerequisites: 18 units in home economics and consent of instructor.
The study and evaluation of home economics research and philosophical principles which have implications for the secondary homemaking teacher.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff, to be arranged with department chairman and instructor.
HUMANITIES
IN THE DIVISION OF THE HUMANITIES

Faculty
Faculty assigned to teach courses in humanities are drawn from departments in the Division of the Humanities.

Offered by the Division
For a description of the following curricula, refer to the section in this catalog on Liberal Arts and Sciences.
Curriculum in American Studies.
Curriculum in European Studies.
Curriculum in Humanities.

These curricula are made available to students who wish to organize and correlate their course work beyond the minimum requirements for the liberal arts degree. The programs are made possible through a guided selection of courses within the major and minor fields and additional courses in related fields.

LOWER DIVISION COURSES

42. French Civilization (2) I
(Same course as French 40)
Conducted in English. No prerequisite.
The major currents and characteristics of French culture, as expressed through the centuries in literature, art, and philosophy.

43. French Civilization (2) II
(Same course as French 41)
Conducted in English. No prerequisite.
Continuation of Humanities 42.

44. German Civilization (2) I
(Same course as German 40)
Conducted in English. No prerequisite.
The major currents and characteristics of German culture, as expressed through the centuries in literature, art, and philosophy.

45. German Civilization (2) II
(Same course as German 41)
Conducted in English. No prerequisite.
Continuation of Humanities 44.

46. Spanish Civilization (2) I
(Same course as Spanish 40)
Conducted in English. No prerequisite.
The major currents and characteristics of Spanish culture, as expressed through the centuries in literature, art, and philosophy.

47. Spanish-American Civilization (2) II
(Same course as Spanish 41)
Conducted in English. No prerequisite.
The major currents and characteristics of Spanish-American culture, as expressed through the centuries in literature, art, and philosophy.

48-S. European Civilization (3) Summer
No prerequisite.
A study of the civilization of Europe through a conducted travel tour.

52. Russian Civilization (2) I
(Same course as Russian 40)
Conducted in English. No prerequisite.
The major currents and characteristics of Russian culture, as expressed through the centuries in literature, art, philosophy, and music.

53. Russian Civilization (2) II
(Same course as Russian 41)
Conducted in English. No prerequisite.
Continuation of Humanities 52.

54. Italian Civilization (2) I
(Same course as Italian 40)
Conducted in English. No prerequisite.
The major aspects of Italian civilization with particular emphasis upon literature, art, philosophy, music, and history.

55. Italian Civilization (2) II
(Same course as Italian 41)
Conducted in English. No prerequisite.
Continuation of Humanities 54.

66A-66B. Honors Colloquium (3-3)
Prerequisite: Sophomore standing and admission to the special advising program. Interdisciplinary conference, with readings, discussion, reports.

UPPER DIVISION COURSES

120A-120B. World Religions (3-3)
Prerequisite: Six units in humanities or the social sciences. An introduction to the issues raised by myth, ritual, and dogma in their social and cultural contexts. First semester: western religions—especially Judaism, Christianity, and Islam. Second semester: eastern religions—especially Hinduism and Buddhism.

138. Introduction to Aesthetic Appreciation (1) I
(Same course as Comparative Literature 138)
Conducted in English. No prerequisite.
Major forms of expressions and aesthetic experience in art, music, and literature, presented by an interdepartmental staff through lectures, demonstrations, and panel discussions.

142. French Civilization (2) I
(Same course as French 140)
Conducted in English. No prerequisite.
An advanced course in French culture of the past and present, with emphasis in the arts, philosophy, and literature. Lectures, class discussions, outside readings, written reports on individual topics.

143. French Civilization (2) II
(Same course as French 141)
Conducted in English. No prerequisite.
Continuation of Humanities 142.

144. German Civilization (2) I
(Same course as German 140)
Conducted in English. No prerequisite.
An advanced course in German culture of the past and present, with emphasis in the arts, philosophy, and literature. Lectures, class discussions, outside readings, written reports on individual topics.

145. German Civilization (2) II
(Same course as German 141)
Conducted in English. No prerequisite.
Continuation of Humanities 144.

146. Spanish Civilization (2) I
(Same course as Spanish 140)
Conducted in English. No prerequisite.
An advanced course in Spanish culture of the past and present, with emphasis in the arts, philosophy, and literature. Lectures, class discussions, outside readings, written reports on individual topics.
Humanities

147. Spanish-American Civilization (2) I
(Same course as Spanish 141)
Conducted in English. No prerequisite.
An advanced course in Spanish-American culture from the period of the Spanish
Conquest to the present, with emphasis on the arts, literature, and philosophy.
Lectures, class discussions, outside readings, written reports on individual topics.

148. European Civilization (3) Summer
A study of the civilization of Europe through a conducted travel tour.

150. The Cultural Heritage of Europe (3) I
Bases and development of the common cultural heritage of Europe in its history,
literature, philosophy, and the arts to the time of the French Revolution of 1789.

151. Unity and Diversity in Modern European Civilization (3) II
Literary, intellectual, and artistic developments in Europe during the 19th and
20th centuries with particular emphasis on the efforts made towards European unity
against the background of trends which divided Europe.

152. Russian Civilization (2) I
(Same course as Russian 140)
Conducted in English. No prerequisite.
An advanced course in Russian culture of the past and present, with emphasis on
the arts, philosophy, literature, and music.

153. Russian Civilization (2) II
(Same course as Russian 141)
Conducted in English. No prerequisite.
Continuation of Humanities 152.

154. Italian Civilization (2) I
(Same course as Italian 140)
Conducted in English. No prerequisite.
An advanced course in the major aspects of Italian civilization with particular
emphasis on literature, art, philosophy, music, and history with written reports on
individual topics.

155. Italian Civilization (2) II
(Same course as Italian 141)
Conducted in English. No prerequisite.
Continuation of Humanities 154.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

170. The Humanities and Modern Man (1) Irregular
Lectures open to the public. May be repeated for a total of three units.
Weekly lectures on literature, language, philosophy, and cultural history. Reading
and reports required of students enrolled for credit.

198. Integration in the Humanities (3) I, II
The investigation of topics common to two or more departments, with oral
and written reports. Required of all senior majors in divisional programs in hu-
manities, and open to seniors with majors in English, foreign languages, history,
and philosophy.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisites: A major within the Division of the Humanities, senior standing,
and consent of the instructor.

Industrial Arts

INDUSTRIAL ARTS

IN THE DIVISION OF THE PHYSICAL SCIENCES

Faculty
Emeritus Faculty: Ford
Professors: Anderson, W. C. (Chairman), Irsgang, Luce, Thiel
Associate Professors: McLoney, McMullen, O'Dell
Assistant Professors: Aguirre, Bailey, Hammer, Heath, Marsters
Lecturers: Crouch, J. P., Fukamizu

Offered by the Department
Master of Arts degree for teaching service with a concentration in industrial arts.
(Described in the Graduate Bulletin. Also refer to the section in this catalog
on the Graduate Division.)
Major in industrial arts with the A.B. degree in applied arts and sciences. (De-
scribed in the section on Applied Arts and Sciences.)
Minor in industrial arts. (Described in the section on Minor for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

LOWER DIVISION COURSES

5. General Industrial Arts Laboratory (3) I, II
One lecture and six hours of laboratory.
Open to all students. A general education elective course in the area of Personal
and Social Development.
Practical utilization of tools and materials with emphasis on drafting, metalwork-
ing, and woodworking. Individual projects, field trips, and audio-visual materials.

6. General Industrial Arts Laboratory (3) I, II
One lecture and six hours of laboratory.
Open to all students. A general education elective course in the area of Personal
and Social Development.
Practical utilization of tools and materials with emphasis on electricity-electronics.
Individual projects and field trips.

11. Orientation to Industrial Arts (2) I, II
Required of all industrial arts majors during their first semester.
Introduction to the history and philosophy of industrial arts with emphasis on
the current status and development of the secondary school curriculum. Discussion
of professional requirements, obligations, and development.

21. Industrial Drawing (3) I, II
One lecture and six hours of laboratory.
Fundamental theories, procedures, and techniques of modern industrial drafting;
study and practice intended to develop skill and judgment in application to drafting
as the universal language of industry.

31. General Metalworking (3) I, II
One lecture and six hours of laboratory.
Exploration of basic materials and methods employed by industry to produce
metal products. Emphasis on the attainment of knowledge and skills involved in the
forging, machine, and welding.

51. General Woodworking (3) I, II
One lecture and six hours of laboratory.
Theories, practices, and basic problems of working in wood; safety practices.
Emphasis on the use of hand tools, the science of working with wood, and the tech-

298
Industrial Arts

61. General Electricity-Electronics (3) I, II
   One lecture and six hours of laboratory.
   Planning, designing, constructing, and experimenting to develop skills and acquire
   knowledge in the electrical and electronic fields. Emphasis on basic principles, their
   application to modern electronic equipment, and correct use of common hand tools
   and simple test equipment.

71. General Transportation (3) I, II
   One lecture and six hours of laboratory.
   Introduction to the design, theory of operation, and repair procedures of various
   types of transportation equipment. Development of basic skills in the maintenance
   of equipment for land, sea, and air transportation.

81. General Graphic Arts (3) I, II
   One lecture and six hours of laboratory.
   Introduction to the theory and practice in planning, designing, and processing
   in the various graphic reproduction activities involving type, stencils, paper, and
   other allied materials.

85. Introduction to Photography (3) I, II
   (Same course as Speech Arts 85)
   One lecture and six hours of laboratory.
   A consideration of photographic optics and chemistry; nature of light and image
   formation; photographic emulsions, exposure and development. Composition and
   lighting. Not open to students with credit in Journalism 50.

UPPER DIVISION COURSES

101. Industrial Arts Crafts (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 101.
   Emphasis on skills in the industrial arts crafts by laboratory experiences in such
   areas as plastics, jewelry, lapidary, leather, and mosaics. Stress on creativity in
   design and in utilization of materials.

102. Advanced Industrial Arts Crafts (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 101.
   Advanced techniques in industrial arts crafts. Development of audio-visual aids,
   projects, and resource materials with emphasis on physical setting, organization,
   and other pertinent laboratory problems.

105. Workshop in Instructional Materials (3) Summer
   One lecture and six hours of laboratory.
   Industrial arts laboratory experiences adapted to the individual needs of experi-
   enced elementary and secondary school teachers; practice in use of tools common
   to problematic needs. Emphasis on preparation of materials and instructional aids
   for classroom use. Not open to industrial arts majors.

111. Comprehensive Industrial Arts (3) I, II
   One lecture and six hours of laboratory.
   Prerequisites: Previous industrial arts experience.
   Principles, techniques, and procedures effective in meeting problems involved in
   a multiple activity program. Individual opportunity to explore each area of the
   selected industrial arts activities, utilizing a variety of tools, equipment, and mate-
   rials.

112. Organization of Comprehensive Industrial Arts (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 111.
   Planning a multiple activities program; selection and organization of subject
   matter. Individual opportunity to develop skills and to cooperate in mass production
   studies.

121. Intermediate Industrial Drawing (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 21.
   Complex theories and techniques of graphic delineation. Activities selected to de-
   velop individual competence.

122. Advanced Industrial Drawing (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 21.
   Architectural drafting, primarily in small home planning. Development of draft-
   ing skills and understanding of good contemporary home design.

123. Industrial Arts Drawing (3) I, II
   Two lectures and three hours of laboratory.
   Prerequisite: Industrial Arts 21.
   Practice in and analysis of modern industrial drafting techniques and theories.

131. Intermediate Metalworking (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 31.
   Advanced study of metal fabrication with emphasis on the theory and operation
   of metalworking machines. Laboratory activities on a selective basis to provide
   for the development of individual competence.

132. Advanced Metalworking (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 31.
   Manufacturing processes, including material selection, production procedures,
   methods of assembly, and finishing. Emphasis on selection, distribution, and utiliza-
   tion of metal products.

133. Industrial Arts Metalworking (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 33.
   Theory and practice in organization and management of industrial arts metal-
   working facilities, including material procurement, equipment selection, and main-
   tenance.

151. Intermediate Woodworking (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 51.
   Experience in the use of selected woodworking machines which offer opportuni-
   ties for the development of construction activities in wood. Emphasis on creative
   design, sound safety practices, and techniques of personnel management.

152. Advanced Woodworking (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 51.
   Designed to increase professional skills, craftsmanship, advanced technical skills,
   and equipment maintenance procedures.

153. Industrial Arts Woodworking (3) I, II
   One lecture and six hours of laboratory.
   Prerequisite: Industrial Arts 152.
   Industrial arts woodworking resources and materials; experience in industrial
   arts planning, laboratory and equipment organization, and personnel management.
161. Intermediate Electricity-Electronics (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 61.
Development of skills through planning, designing, constructing, and experimenting. Emphasis on advanced principles of electricity and electronics and their applications to the uses of power transmission, communication, radio, and television.

162. Advanced Electricity-Electronics (2) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 161.
Development of advanced skills with application to industrial electronics. Advanced techniques for using modern test equipment; analysis of electronic devices for instructional use.

163. Industrial Arts Electricity-Electronics (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 162.
Advanced problems in circuit development and analysis, organization, and management.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

171. Intermediate Transportation (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 71.
Advanced study of the operating principles and maintenance procedures of selected types of transportation equipment. Emphasis on automotive engines, electrical systems, and automatic transmissions.

172. Advanced Transportation (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 71.
Theory and use of various types of diagnostic test equipment. Emphasis on automotive power accessories.

173. Industrial Arts Transportation (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 171.
Advanced techniques in testing and analysis of power units common to transportation and industry. Emphasis on organization and administration of industrial arts transportation facilities.

181. Intermediate Graphic Arts (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 181.
Activities in the various graphic arts with emphasis on new technology in the industry.

182. Advanced Graphic Arts (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 181.
Planning of activities and perfecting of skills in printing and publication; efficient operation of machines and equipment.

183. Industrial Arts Graphic Arts (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 181.
Advanced techniques in developing skills involved in graphic arts facilities.

185. Photography for Teachers (3) I, II
One lecture and six hours of laboratory.
Designed for more mature students to learn photographic skills useful in teaching.

186. Advanced Photography (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Industrial Arts 85.
A consideration of advanced photographic equipment, composition, and professional photography, including industrial and educational photography, and flood light techniques.

190. Experimental Industrial Arts (1 or 2) I, II
Prerequisite: Consent of instructor.
Individual laboratory work on complex projects on an experimental basis. May be repeated with consent of instructor.

193. Industrial Arts Organization and Management (2) I, II
Two lectures.
Study of the organization of industrial arts in secondary schools, review of project requirements and methods of developing student participation in personnel management.

194. Recent Trends in Industrial Arts Education (2) I, II
Two lectures.
Survey of current trends and practices in the field of industrial arts in secondary education. There will be opportunity for individual work on related problems of interest to members of the class.

198. Senior Project (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Consent of instructor.
Each student will work on a project in a selected industrial arts activity area. Oral progress reports will be made and a final written report is required.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

GRADUATE COURSES

200. Seminar (3)
An intensive study in advanced industrial arts topics to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

201. Advanced Teaching Problems (3)
Prerequisite: Teaching experience in area selected and consent of instructor.
Materials and advanced techniques of teaching specific activity areas, such as art; industrial arts; and metalworking. Advanced study of media and techniques of teaching industrial arts. Stress on project design and visual materials. Maximum of six units.

216. Industrial Arts Problems in Graphic Arts and Design (3)
Prerequisite: Industrial Arts 123.
Detailed study of the theories and procedures of industrial drafting, including line drawings, descriptive geometry, and graphic solutions. Emphasis on special applications to industrial arts.

217. Industrial Arts Problems in Metalworking (3)
Prerequisite: Industrial Arts 133.
Advanced study of problems involved in industrial arts metalworking. Individual research project dealing with instructional materials or processes.

205. Industrial Arts Problems in Woodworking (3)
Prerequisite: Industrial Arts 153.
Intensive study in selected areas of the woodworking industry as it relates to design, production, and construction. Presentation of research findings.
Industrial Arts

206. Industrial Arts Problems in Electricity-Electronics (3)
Prerequisite: Industrial Arts 163.
Intensive study of contemporary developments in the electricity and electronics areas. Development of projects, aids, and resource materials.

207. Industrial Arts Problems in Transportation (3)
Prerequisite: Industrial Arts 173.
Research in selected areas of the transportation industry and effective presentation of findings in oral and written form.

208. Industrial Arts Problems in Graphic Arts (3)
Prerequisite: Industrial Arts 183.
Intensive study in selected areas of the graphic arts industry related to materials, production methods, and allied pursuits. Techniques of presentation of findings in effective written and oral form.

220. History and Philosophy of Industrial Education (3)
A study of the philosophical foundations and development of industrial education and its continuing role in American culture. Contemporary practices and trends will be given consideration.

221. Curriculum Construction in Industrial Arts Education (3)
Selection of teaching content for school situations in compliance with the best known procedures regarding analysis, objectives, methods, and learning, and development of instructional devices related directly to course content.

222. Instructional Resources for Industrial Arts Education (3)
Survey, selection, and compilation of materials used in the development of resource units for instruction in industrial education, involving publications, organized talks, field trips, visual materials, technical literature, and related materials. Organization and evaluation of such materials.

223. Evaluation in Industrial Arts Education (3)
Consideration of the purposes, principles, methods, and criteria of evaluation as applied to industrial education, with emphasis on the special problems of measuring growth, achievement, and performance in various phases of educational effort.

267. Field Work in Industrial Arts (3)
Prerequisites: Teaching experience in industrial arts and consent of instructor. Application of the principles of laboratory organization, management, and planning in reference to the objectives of industrial arts in development of school programs. Maximum of six units applicable on a master's degree.

290. Bibliography (1)
Exercise in the use of basic reference books; professional literature, and specialized bibliographies, preparatory to the writing of a master's thesis.

298. Special Study (1-6)
Individual study. Six units maximum credit. Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy. Guidance in the preparation of a project or thesis for the master's degree.

ITALIAN

IN THE DIVISION OF THE HUMANITIES

Faculty
Assistant Professor: Vergani

Offered by the Department of French and Italian
Minor in Italian. (Described in the section on Minors for all Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

HIGH SCHOOL EQUIVALENTS

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

The first two years of high school Italian may be counted as the equivalent of Italian 1; three years the equivalent of Italian 2; and four years the equivalent of Italian 3. The last year-course taken by a student in the high school language sequence may be repeated in college for graduation credit, not to exceed four units of repeated foreign language work.

LOWER DIVISION COURSES

1. Elementary (4)
Four lectures and one hour of laboratory. Pronunciation, oral practice, readings on Italian culture and civilization, minimum essentials of grammar.

2. Elementary (4)
Four lectures and one hour of laboratory. Prerequisite: Italian 1. Continuation of Italian 1.

3. Intermediate (4)
Prerequisite: Italian 2. A practical application of the fundamental principles of grammar. Reading in Italian of cultural material, short stories, novels or plays; oral practice; outside reading with oral and written reports.

4. Intermediate (4)
Prerequisite: Italian 3. Continuation of Italian 3. Reading of selections from Italian literature.

10. Conversation (2)
Prerequisite: Italian 2 or three years of high school Italian. Practice in the spoken language; practical vocabulary, conversation on assigned topics; simple dialogues and plays.

11. Conversation (2)
Prerequisite: Italian 10 or Italian 3, or four years of high school Italian. Continuation of Italian 10.

40. Italian Civilization (2)
(Same course as Humanities 54)
Conducted in English. No prerequisite. The major aspects of Italian civilization with particular emphasis upon literature, art, philosophy, music, and history.

41. Italian Civilization (2)
(Same course as Humanities 55)
Conducted in English. No prerequisite. Continuation of Italian 40.
UPPER DIVISION COURSES

101A-101B. Advanced Oral and Written Composition (3-3)
Prerequisite: Italian 1 and 11, with a grade of C or better.
Translation into Italian from moderately difficult English prose. Outside reading of modern Italian prose, with monthly written reports in Italian. Readings and oral discussions in Italian on various facets of Italian life and culture.

102A-102B. Survey Course in Italian Literature (3-3)
Prerequisite: Italian 4 with a grade of C or better.
A study of important movements, authors, and works in Italian literature from the Middle Ages to the present.

122. The Foreign Language Laboratory (2 I)
Conducted in English.
Prerequisite: Admission to teacher education program.
Utilization of the language laboratory, applied to the teaching of foreign languages, including operation of equipment and preparation of material. Discussion and demonstration of related techniques. Not open to students with credit in French, German, Spanish, or Russian 122. To be taken concurrently with Education 121E.

140. Italian Civilization (2 I)
(Same course as Humanities 154)
Conducted in English. No prerequisite.
An advanced course in the major aspects of Italian civilization with particular emphasis on literature, art, philosophy, music, and history with written reports on individual topics.

141. Italian Civilization (2 II)
(Same course as Humanities 155)
Conducted in English. No prerequisite.
Continuation of Italian 140.

166. Honors Course (Credit to be arranged) I, II
Refer to Honors Program.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in Italian available in any given semester.
Prerequisite: Consent of staff.

JAPANESE

IN THE DIVISION OF THE HUMANITIES

Faculty
Assistant Professor: Tanaka

Offered by the Division of Humanities
Courses in Japanese.
Major or minor work in Japanese is not offered.

LOWER DIVISION COURSES

1. Elementary (4)
Four lectures and one hour of laboratory.
Pronunciation, oral practice, readings on Japanese culture and civilization, minimum essentials of grammar.

2. Elementary (4)
Four lectures and one hour of laboratory.
Prerequisite: Japanese 1.
Continuation of Japanese 1.

3. Intermediate (4)
Prerequisite: Japanese 2.
A practical application of the fundamental principles of grammar. Reading in Japanese of cultural material, short stories, novels or plays; oral practice; outside reading with oral and written reports.

4. Intermediate (4)
Prerequisite: Japanese 3.
Continuation of Japanese 3. Reading of selections from Japanese literature.

JOURNALISM

IN THE DIVISION OF THE SOCIAL SCIENCES

Faculty
Professors: Julian (Chairman), Wimer
Assistant Professors: Holowach, Odendahl
Lecturers: Durkee, Jacoby, Streib

Offered by the Department
Major in journalism with the A.B. degree in applied arts and sciences. (Describe
in the section on Applied Arts and Sciences.)
Minor in journalism. (Describe in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

49. Introduction to Mass Communications (3 I)
A survey of the work of mass media, their interrelationships, and the services they perform for society; common problems and responsibilities of the mass media; training and background needed in different media.

50. News and Feature Photography (3) I, II
Two lectures and three hours of laboratory.
An elementary course designed primarily for students of journalism and public relations; experience with professional photographic equipment and film processing; emphasis on composition and news value of pictures. Not open to students with credit in Industrial Arts 85.

51A. News Reporting (3) I
Two lectures and three hours of laboratory.
Prerequisite: Sophomore standing and ability to type.
Study of reporting techniques, with intensive laboratory practice in gathering, evaluating, and writing the basic types of news stories.

51B. Advanced News Reporting (3) II
Two lectures and three hours of laboratory.
Prerequisite: Grade of C or better in Journalism 51A. Intensive laboratory practice in writing the more complex types of news stories. Work includes some reporting for the campus newspaper, The Daily Astra.

92. Newspaper Production (1-3) I, II
Three hours of laboratory required for each unit. Total credit in Journalism 92, 93, 192, and 193 limited to eight units.
Special work in journalism by arrangement with the instructor. Includes reporting, editing, taking and processing pictures, working with the printer, proofreading in production of The Daily Astra.

93. Yearbook and Magazine Production (1-3) I, II
Three hours of laboratory required for each unit. Total credit in Journalism 92, 93, 192, and 193 limited to eight units.
Special work in yearbook and magazine production by arrangement with the instructor. Includes editing and photographic work on Del Sudoe and campus life sections.
101. Magazine Article Writing (3) II
Prerequisite: Consent of instructor.
Practice in gathering material and writing articles for specialized areas, with
emphasis on the business press. Production of eight articles and marketing of
at least one article required.

102. Law of Mass Communications (3) II
Study of libel, defamation, privacy, censorship, advertising laws, postal regu-
rations, and constitutional guaranties affecting press, radio, television; rights and re-
sponsibilities of communicators in reporting public affairs.

103. Magazine Editing (3) II
Study in mechanics of the editorial process in magazines, with emphasis on
industrial and business publications; selection and preparation of editorial material;
picture selection, cropping, captioning; graphic production processes, layout; prepara-
tion of dummies; special purpose booklets and magazines.

104. Radio and Television News (3) I, II
(Same course as Speech Arts 187)
Gathering, writing, and editing news in special forms required by radio and
and television; processing wire service copy, still pictures, and kinescopes; editing,
and scripting news on motion pictures; using recorders to report special events.

105. Editorial Writing (3) I
Training in the principles and policies of editorial composition for mass com-
unications media.

107. Technical Writing (3) II
Reporting technical developments in nontechnical language. A course in writing
and editing primarily for nonmajors in journalism.

117. History of Mass Communications (3) I
American journalism from colonial times to the present, with special attention
to radio and other mass media which have entered the news and entertainment
field; the relation of their development to society.

121. Current Problems in Mass Communications (3) II
Forces affecting American mass communications today: Government restrictions.
economics, pressure groups, censorship, mechanical developments, interrelationships
of the media and society; professional ethics.

122. Public Opinion Measurement (3) I
(Same course as Psychology 122)
The history, methods, and problems of public opinion and attitude measurement.
Emphasis will be placed upon the polling of consumers and voters. Students will
be given field experience.

124. Radio News Production II (2) I, II
Prerequisite: Journalism 104 or Speech Arts 187.
Radio news production with experience in writing, editing national wire copy
and local copy, preparing tapes and on-the-spot recordings of news events for
programs produced over the campus radio station and local commercial radio sta-
tions. May be repeated to a maximum of four units.

125. Television News Production (2) I, II
Prerequisite: Journalism 104 or Speech Arts 187.
Television news production with experience in photographing news events, proc-
cessing and editing film, and writing copy to film for programs produced over the
campus and local commercial television stations. May be repeated to a maximum of
four units.

132. Propaganda and Public Opinion (3) I, II
(Same course as Political Science 122)
A study of the forces which mold the American public mind, the practice of
propaganda, a description and analysis of public relations, pressure groups and their
effect in American public life.

144. Reporting of Public Affairs (3) II
Prerequisite: Journalism 11A and 51B.
Coverage of the city hall, courthouse, police headquarters, federal agencies,
courts, and other public and political centers.

150. Advanced News and Feature Photography (3) II
Two lectures and three hours of laboratory.
Prerequisite: Journalism 50.
Techniques for achieving the technical and story-telling quality in photojourn-
alism.

151. News Editing (3) I
Three lectures and two additional hours of laboratory.
Prerequisites: Journalism 51A and 51B.
Editing copy, writing headlines, making up pages, handling telegraph copy.

152. High School Journalism (3) II
Methods of conducting high school journalism classes. Editorial, business and
mechanical aspects of school publication, work, with emphasis on copy editing,
headline writing and layout. Not open to journalism majors.

153. Newspaper Advertising (3) I
Principles of advertising for newspapers and trade papers. Emphasis on copy,
writing, layout, typography, and production. Use of consumer and market surveys,
and advertising research studies in planning local advertisers' sales problems and
promotions.

154. Newspaper Advertising Practice (1-2) I, II
Prerequisite: Journalism 153.
Practical work in servicing accounts in advertising department of The Daily
Axe. Supervised work in preparation of newspaper copy and layout. Copy-testing
methods emphasized. May be repeated for a total of four units.

160. Honors Course (Credit to be arranged) I, II
Special study open to members of the Honors Program in journalism. Refer to
the Honors Program.

180. Public Relations (3) I, II
(Same course as Business Administration 155)
Principles, methods, and objectives in the field of public relations; evaluation of
the "publics" of institutions and industry; case studies of public relations problems.

183. Problems in Public Relations (3) II
Prerequisite: Journalism 180 or Business Administration 155.
Current public relations problems of industry, public agencies, and other institu-
tions.

191. Internship in Journalism (1-6) I, II
Prerequisites: Journalism 151A, 51B, and consent of instructor.
Prearranged and supervised work on local magazines, city and county newspapers,
radio and television stations, and as public relations, publicity, and advertising staffs
of civic and business groups. May be repeated to a maximum of six units with no
more than three units in any one semester.

192. Newspaper Production (1-3) I, II
Three hours of laboratory required for each unit. Total credit in Journalism 92,
93, 192, and 193 limited to eight units.
Special work in journalism by arrangement with the instructor. Includes report-
ing, editing, taking and processing pictures, working with the printer, proofreading
Latin

193. Yearbook and Magazine Production (1-3) I, II
Three hours of laboratory required for each unit. Total credit in Journalism 92, 93, 192, and 193 limited to eight units.
Special work in yearbook and magazine production by arrangement with the instructor. Includes editing and photographic work on Del Sudoeste and campus magazines.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

LATIN
IN THE DIVISION OF THE HUMANITIES

Faculty
Professor: Burnett
Lecturer: Carlson, B.

Offered by the Division of the Humanities
Courses in Latin.
Major or minor work in Latin is not offered.

HIGH SCHOOL EQUIVALENTS
High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.
The first two years of high school Latin may be counted as the equivalent of Latin 1; three years the equivalent of Latin 2; and four years the equivalent of Latin 3. The last year course taken by a student in the high school language sequence may be repeated in college for graduation credit, not to exceed four units of repeated foreign language work.

LOWER DIVISION COURSES
1. Elementary (4) I
Four lectures and one hour of laboratory.
Study of the language and Roman culture, with reading of selected prose passages.

2. Elementary (4) II
Four lectures and one hour of laboratory.
Prerequisite: Latin 1 or two years of high school Latin.
Continuation of Latin 1.

3. Intermediate (4) I
Prerequisite: Latin 2 or three years of high school Latin.
A practical application of the fundamental principles of grammar. Reading of selected passages emphasizing the contribution of the ancient culture to our own.

UPPER DIVISION COURSES
103. Vergil (3)
Prerequisite: Latin 3.
Selections from the works of Vergil.

104. The Augustan Age (3)
Prerequisite: Latin 103.
Selections from the writers of the age of Augustus, such as Horace and Livy.

199. Special Study (1-6) I, II
Individual Study. Six units maximum credit.
Prerequisite: Consent of instructor.

Library Science

IN THE SCHOOL OF EDUCATION

Faculty
Professor: Stone, John Paul (Coordinator of Library Science)
Lecturers: Blair, Freeland, Reid, T., Spitzer

Offered by the School of Education
Minor in library science. (Described in the section on Minors for all Degrees.) Program for the school librarian. (Described in the section on the School of Education.)

LOWER DIVISION COURSES
1. Use of the Library (1) I, II
Introduction to use of the library. Includes classification, card catalog, periodical indexes, selected reference books, and preparation of bibliographies.

UPPER DIVISION COURSES
110. Bibliography and Reference Materials (3) I, II
Prerequisite: Library Science 1
A comprehensive course dealing with reference books, bibliographies, and source materials, with emphasis upon their use in research. A course of general interest and utility.

118. Selection and Acquisition of Library Materials (3) I
Prerequisite: Library Science 119.
Study of all types of book and nonbook materials, including sources of information, selection, and evaluation. Attention is given to book and film reviews, standard lists, trade publications and bibliographies, publishers' and producers' announcements.

119. Technical Processes (3) I
Theory and methods of organizing library materials; a study of classification, cataloging, and choice of subject headings.

136. School Library Administration (3) I
Prerequisite: Library Science 119.
Objectives, standards, and activities involved in operating the school materials program. Planning, organizing, administering, and coordinating the school library with the instructional program of the school.

138. Organizing and Processing of Curriculum and Special Materials (3) II
Prerequisite: Library Science 119.
Methods of purchasing, processing, classifying, cataloging and servicing special curriculum and audio-visual materials.

166. Honors Course (Credit to be arranged) I, II
Prerequisite: Consent of instructor.

184. History of Books and Libraries (3) II
The historical development of the book and of the library from the earliest times to the present day, examines their influence upon our schools and culture. Open to all upper division students.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

GRADUATE COURSES
225. Bibliography of the Humanities (2)
Prerequisite: Library Science 110.
Survey and evaluation of bibliographical and reference materials in the humanities, with training and practice in their use in solving questions arising in reference service.
226. Bibliography of the Social Sciences (2)
Prerequisite: Library Science 110.
Survey and evaluation of bibliographical and reference materials in the subject fields of the social sciences, with study of typical problems arising in reference service in these subjects.

227. Bibliography of the Sciences (2)
Prerequisite: Library Science 110.
Survey and evaluation of representative reference sources in the pure and applied sciences. Study of typical problems encountered in providing and servicing scientific reference materials.

231. Literature for Children (3)
Prerequisite: Library Science 118.
Survey and evaluation of literature and other library materials particularly suited to the use of the elementary school student. A critical study of standard, classic, and current books for children, together with aids and criteria for selection.

232. Literature for Adolescents (3)
Prerequisite: Library Science 118.
Survey and evaluation of literature and other library materials particularly suited to the use of the high school student. A critical study of standard, classic, and current books for the adolescent, together with aids and criteria for selection.

MATHEMATICS

IN THE DIVISION OF THE PHYSICAL SCIENCES

Faculty
Emeritus Faculty: Emerson
Professors: Becker, Bell, C., Brantsetter (Chairman), Eagle, Harris, V., Harvey, Holmes, Riggs, Shaw, Smith, N., Warren, L.
Associate Professors: Burton, C., Deaton, Fountain, Killgrove, Lopez, Moser, Salez, Van de Wetering, Willerding
Assistant Professors: Bray, Bryant, Carter, J. W., Clark, H., Drobny, Feng, Grindler, Hassan, Kvarda, Lang, Nover, Osborne, Romano
Lecturers: Jones, C. L., Kennedy, E., Maros, Pelland, Thietje, Valerie

Offered by the Department
Master of Arts or Master of Science degree in mathematics; and a Master of Arts degree for teaching service with a concentration in mathematics. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in mathematics with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Major in mathematics with the A.B. degree in liberal arts and sciences.
Minor in mathematics. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

MATHEMATICS PLACEMENT EXAMINATIONS
All students who expect to enroll in Mathematics 3, 4, 12, 21, 22, 40, or 50 and have not completed prerequisite courses at San Diego State College must take the mathematics placement tests. These tests may be used to satisfy all or part of the prerequisite requirements for these courses and they also serve as a basis for the selection of students for the mathematics honors program. The schedule for these examinations will be posted on the mathematics bulletin board. Provision is also made for these examinations to be taken by the entering freshman or the transfer student prior to registration. Refer to the calendar.

LOWER DIVISION COURSES

3. Intermediate Algebra (3) I, II
Prerequisite: One year of elementary algebra.
Review of elementary algebra, exponents, radicals, logarithms, quadratic equations, arithmetic and geometric progressions.

4. Trigonometry (2) II
Prerequisites: Credit in plane geometry in either high school or college combined with either credit in Mathematics 3 at this college or qualification by examination. Mathematics 3 and 4 or Mathematics 4 and 50 may be taken concurrently.
Numerical and practical aspects of trigonometry.

7. Introduction to Computer Programming (1) I, II
Three hours of laboratory.
Prerequisite: Mathematics 3.
The use of problem oriented languages and peripheral equipment. Programming of problems and operation of the computer.

8. Theory and Use of the Slide Rule (1)
Practice in performing the fundamental operations of the slide rule.

10A-10B. Structure and Concepts of Elementary Mathematics (3-3)
Open only to students working toward a teaching credential in elementary education.
Prerequisites: High school algebra and geometry. Mathematics 10A is prerequisite to 10B.
Numbers used in elementary mathematics, elementary number theory and congruences, extension of the number system to irrational numbers, nonmetric and metric geometry, and an introduction to logic.

12. Elementary Statistics (3)
Prerequisite: Mathematics 3 at this college or qualification on the Mathematics Placement Examination.
Tabular and graphical presentation, measures of central tendency and variability, analysis of times series, linear correlation coefficient. Applications from the fields of biology, economics, education, engineering and psychology. Not open to students with credit in another statistics course.

18. Introduction to Mathematics (3) II
Prerequisites: Two years of high school mathematics.
Topics from logic, modern algebra, and analysis designed to give the student an introduction to the structure of mathematical theories and their applications.

20. Mathematics for Business Analysis (3)
Prerequisite: Mathematics 3 at this college or qualification on Mathematics Placement Examination.
Basic mathematics for business students, including topics from finite mathematics and calculus.

21. Mathematical Analysis (3) I
Prerequisite: Mathematics 3 at this college or qualification on the Mathematics Placement Examination.
Concepts and applications of algebra, analytic geometry and the polynomial calculus, with emphasis on graphical methods. Designed for students who do not intend to prepare for a professional career in one of the physical sciences or engineering. Not open to students with credit in Mathematics 50.

22. Mathematical Analysis (3)
Prerequisite: Mathematics 21.
A continuation of Mathematics 21 including concepts of trigonometry and the calculus of elementary transcendental functions. Not open to students with credit
Mathematics

40. Advanced Algebra and Trigonometry (5) I, II
Prerequisite: Mathematics 3 at this college with a grade of C or better or qualification on the Mathematics Placement Examination.
Variation, progressions, complex numbers, De Moivre's theorem, solutions of equations, binomial theorem, determinants, permutations, combinations, probability, inequities, analytical trigonometry, graphs or trigonometric functions, etc.

50. Analytic Geometry and Calculus (5) I, II
Prerequisite: Mathematics 40 at this college with grade of C or better, or qualification on the Mathematics Placement Examination.
Topics in analytic geometry, differentiation and integration of algebraic functions.

51. Differential and Integral Calculus (4) I, II
Prerequisite: Mathematics 50 with grade of C or better.
Differentiation and integration of the elementary transcendental functions; applications.

52. Differential and Integral Calculus (4) I, II
Prerequisite: Mathematics 51 with grade of C or better.
Infinite series, partial differentiation, differential equations, multiple integrals, applications. Not open to students with credit for Mathematics 117.

60. Introduction to Modern Mathematical Concepts (3) II
Prerequisite: Mathematics 40 or 21.
Elementary approach to selected topics from mathematical logic, set theory, probability, matrices, linear programming and theory of games.

UPPER DIVISION COURSES

Prerequisite: Mathematics 50.
An examination of the concepts of secondary school mathematics from the teacher's point of view.

104. History of Mathematics (3) I, II
History of mathematics down to early modern times.

105. Introduction to the Foundations of Geometry (3)
Prerequisite: Mathematics 51 or 22.
The foundations of Euclidean and hyperbolic geometries. Highly recommended for all prospective teachers of high school geometry.

106. Projective Geometry (3) II
Prerequisites: Mathematics 51 or 22 and consent of instructor.
Concurrence of lines, collinearity of points and other properties of figures not altered by projections; construction and study of ellipses, hyperbolas, and parabolas by means of projections.

108. Differential Geometry (3)
Prerequisite: Mathematics 52.
Curves in space, Frenet formulas, curves on surfaces, geodesics, lines of curvature, asymptotic lines, Gaussian curvature.

110A-110B. Modern Elementary Mathematics (3-3)
Prerequisite: Mathematics 10B. 110A is prerequisite to 110B.
Integers, rationals, and real numbers as mathematical systems; operations, mappings, properties of relations; coordinate geometry; mensuration. Enrollment limited to those in training for or engaged in teaching in the elementary schools.

117. Intermediate Calculus (4) I, II
Prerequisite: Mathematics 51 with grade of C or better.
Essentially the same as Mathematics 52. Advanced students may be assigned special work. Not open to mathematics majors or students with credit in Mathematics 52.

118A. Advanced Mathematics for Engineering Students (3) I, II
Prerequisite: Mathematics 52.
Selected topics from ordinary differential equations, with applications; hyperbolic, elliptic, Bessel and gamma functions, Fourier series and integrals, electromechanical analogies, the Laplace transform, and partial differential equations.

118B. Advanced Mathematics for Engineering Students (3) I, II
Prerequisite: Mathematics 52.
A continuation of Mathematics 118A.

119. Differential Equations (3) I, II
Prerequisite: Mathematics 52.
Ordinary differential equations with applications to geometry, physics, and chemistry.

121A. Advanced Calculus I (3)
Prerequisite: Mathematics 52.
The real number system, limits and other topics, with emphasis on functions of one variable.

121B. Advanced Calculus II (3)
Prerequisite: Mathematics 121A.
A continuation of Mathematics 121A with emphasis on functions of two or more variables.

124. Vector Analysis (3)
Prerequisite: Mathematics 52.
Vector algebra, differentiation of vectors, gradient, divergence, and curl. Applications to geometry and physics.

130A. Statistical Methods (3) I
Two lectures and three hours of laboratory.
Prerequisites: Mathematics 12 and Mathematics 22 or 40.
Sampling and sampling distributions; normal distributions; F, T, Chi-square tests; confidence limits; analysis of variations.

130B. Statistical Methods (3) II
Prerequisite: Mathematics 130A.
Correlation, regression, analysis of covariance, nonparametric techniques, sensitivity experiments, design of experiments.

134. Probability (3)
Prerequisite: Mathematics 52.
Definitions, computation of probability by enumeration of cases, discrete and continuous chance variables, density functions, moments, limit theorems, selected distributions.

135A. Numerical Analysis and Computation (3) I
Prerequisite: Mathematics 52.
Newton, Lagrange and Chebyshev approximation of functions. Inverse interpolation, numerical evaluation of roots and definite integrals.

135B. Numerical Analysis and Computation (3) II
Prerequisite: Mathematics 119 or 118A and 135A.
Solution of systems of linear equations. Application of numerical methods to the solution of partial differential equations and of integral equations.
137. Combinatorial Principles for Digital Computers (3)
Prerequisites: Mathematics 7 and 52.
Comparison of digital and analog computers. Number base representation theory.
Logical organization of digital computers. Externally programmed machines. Tuning
machines, algorithms and their implications to computability and writing of pro-
grams. Coding of combinatorial problems.

140A. Mathematical Statistics (3) I
Prerequisite: Mathematics 52.
Graphical and arithmetical characterization of observed frequency distributions
moments, use of normal curve, curve fitting, correlation, etc.

140B. Mathematical Statistics (3) II
Prerequisite: Mathematics 140A.
Theoretical discrete and continuous distributions, multiple and partial corre-
lation, large and small sample theory including student’s T, Chi-square, and the F
distributions with applications.

150A. Modern Algebra (3) I
Prerequisite: Mathematics 52.
Selected topics from modern algebra to include an introduction to the theory of
groups, theory of equations, and finite mathematics.

150B. Modern Algebra (3) II
Prerequisite: Mathematics 150A.
A continuation of Math 150A to include a study of matrices, determinants and
fields.

152. Number Theory (3)
Prerequisite: Mathematics 51.
Selected topics from the theory of numbers to include congruences, Diophantine
equations, and a study of prime numbers.

155. Mathematical Logic (3)
Prerequisite: Mathematics 51 or 60, or Philosophy 20.
The logical rules of proof governing sentential connectives and the universal and
existential quantifiers with applications. Not open to students with credit in Phil-
osophy 121.

156. Logical Foundations of Mathematics (3)
Prerequisite: Mathematics 52 or 155.
The axiomatic method. Cantor’s set theory and its antinomies. Development of
various viewpoints on foundations of mathematics: logicism, intuitionism, for-
malism.

160. Introduction to Topology (3)
Prerequisite: Mathematics 121A.
Topological spaces. Functions, mappings, and homeomorphisms. Connectivity,
compactness. Metric spaces.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

170. Partial Differential Equations (3)
Prerequisite: Mathematics 119.
A study of initial and boundary value problems using separation of variables
methodology.

175. Functions of a Complex Variable (3)
Prerequisite: Mathematics 52.
Analytic functions, Cauchy-Riemann equations, theorem of Cauchy, Laurent
series, calculus of residues.

196. Advanced Topics in Mathematics (2 or 3) I, II
Prerequisite: Consent of instructor.
Selected topics in classical and modern mathematics. May be repeated with the
approval of the instructor for a total of six units.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

EXTENSION COURSES

X-100. Mathematical Topics for School Teachers (2 or 3)
Open only to persons currently employed as elementary or secondary school
teachers.
A study of selected portions of elementary or secondary school mathematics.
May be repeated with new subject matter for additional credit. May not be used
in a mathematics major or minor.

GRADUATE COURSES

200. Seminar (2 or 3)
Prerequisite: Consent of instructor.
An intensive study in advanced mathematics, topic to be announced in the class
schedule. Maximum credit six units applicable on a master’s degree.

202. Geometrical Systems (3)
Prerequisite: Mathematics 150A and an upper division course in geometry.
Ordered and affine geometries, decompositions, dilations. Projectivities and pro-
jective space. Absolute geometry, isometries, groups generated by inversions.

204A-204B. Topics in Analysis (3-3)
Prerequisites: Mathematics 121A and 150A. 204A is prerequisite to 204B.
Topics in analysis, including the real number system, convergence, continuity,
differentiation, the Riemann-Stieltjes integral, complex analysis, designed to give
the secondary teacher a broad understanding of the fundamental concepts.

205. Advanced Mathematical Logic (3)
Prerequisites: Mathematics 150A or 155.
First-order theories, completeness theorems, arithmetization, Godel’s incomple-
teness theorem.

212. Advanced Ordinary Differential Equations (3)
Prerequisites: Mathematics 119 and 121A.
Existence and uniqueness theorems, Wronskians, adjoint systems, Sturm-Liouville
boundary value problems, equations of Fuchsian type.

214. Advanced Partial Differential Equations (3)
Prerequisite: Mathematics 170.
Theory and application of the solution of boundary value problems in the partial
differential equations of engineering and physics by various methods; orthogonal
functions, the Laplace transformation, other transformation methods, Green’s
functions.

220A-220B. Topology (3-3)
Prerequisite: Mathematics 121B.
Metric spaces, regular spaces, Hausdorff spaces, general topological spaces, arcs
and curves, and the Jordan Curve Theorem.

224A-224B. Functions of a Complex Variable (3-3)
Prerequisites: Mathematics 121B and 175. 224A is prerequisite to 224B.
Analytic continuation, elliptic functions, conformal mapping, Riemann surfaces.

226A-226B. Functions of a Real Variable (3-3)
Prerequisites: Mathematics 119 and 121B. 226A is prerequisite to 226B.
Point sets, functions and limits, continuity, differentiation. Riemann and Lebesgue
Microbiology

231. Theory of Groups (3)
Prerequisite: Mathematics 150B.
A development of the theory of groups.

232. Theory of Fields (3)
Prerequisite: Mathematics 150B.
A study of both finite and infinite fields, and field extensions.

233. Linear Algebra and Matrix Theory (3)
Prerequisite: Mathematics 150B.
A study of matrices, determinants, and vector spaces.

240A-240B. Advanced Mathematical Statistics (3-3)
Prerequisites: Mathematics 140B and 121A. 240A is prerequisite to 240B.
Theory of common distribution functions, derivation of sampling distributions with emphasis on normal populations, estimation of maximum likelihood, ratio tests of parametric hypotheses, general linear hypothesis theory.

290. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master’s project or thesis.

294. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis or Project (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy; Guidance in the preparation of a project or thesis for the master’s degree.

SPECIAL COURSES FOR NATIONAL SCIENCE FOUNDATION INSTITUTE

The following courses are open only to participants in the National Science Foundation Institute, except with consent of instructor.

54. Calculus Review (2)
Review of the fundamentals of elementary calculus.

Lower Division Course

181A-181B. Selected Topics of Secondary School Mathematics (2-2)
Selected concepts of secondary school mathematics; recommended modern presentation of these concepts; relation of these concepts to more advanced college mathematics.

Probability, measures of central tendency and dispersion, characteristics of frequency functions of discrete and continuous variables; applications.

MICROBIOLOGY

IN THE DIVISION OF THE LIFE SCIENCES

Faculty
Professors: Myers, Walsh
Associate Professor: Moore, H. (Chairman)
Assistant Professor: Baxter, W.
Lecturer: Harris, B.

Offered by the Department

Master of Arts or Master of Science degree in biology with an emphasis in microbiology. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)

Major in microbiology with the B.S. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)

Major in microbiology with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)

Curriculum in Medical Technology. (Described in the section on Applied Arts and Sciences.)

Minor in microbiology. (Described in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

1. General Microbiology (Bacteriology) (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Chemistry 1A or 2A (Chemistry 1A-1B for major or minor in microbiology). Students with credit for Microbiology 110 may enroll but will receive only two additional units of credit.

An introduction to microbiology. Effects of physical and chemical agencies upon bacteria; biochemical activities of bacteria; microscopic examination and cultivation of micro-organisms; the bacteria of air, water, soil, milk, and dairy products, other foods; industrial applications. Introduction to disease-producing micro-organisms.

UPPER DIVISION COURSES

101. General Microbiology (Bacteriology) (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Chemistry 1A or 2A. (Chemistry 1A-1B for major in microbiology.) Students with credit in Microbiology 110 may enroll but will receive only two additional units of credit.

Same general areas covered as in Microbiology 1, but on more intensive upper division level.

102. Advanced Bacteriology (4) I
Two lectures and six hours of laboratory.
Prerequisite: Microbiology 1 or 101. Recommended: Chemistry 12, biochemistry, and physiology.

Agents of disease and methods of host resistance. Laboratory experience in diagnosis of bacterial pathogens and antibiotic sensitivity. Concepts of virulence and pathogenicity, including the host-parasite relationship.

103. Fundamentals of Immunology and Serology (4) II
Two lectures and six hours of laboratory.
Prerequisite: Microbiology 1 or 101 and 102.

Antigen-antibody reactions, the immunology of protein and nonprotein cell substances, histo-serology, and theoretical and pathologic aspects of hypersensitivity. Laboratory diagnosis by use of serological techniques.

104. Medical Mycology (4) I
Two lectures and six hours of laboratory.
Prerequisite: Credit or concurrent registration in Microbiology 102.
A study of the mycotic agents of disease and methods of systematic identification of such agents. Concept of epidemiology, diagnosis, pathology, and host responses are considered.

105. Bacterial Physiology (2) I
Prerequisites: Microbiology 1 or 101 and Chemistry 12 (Organic Chemistry).
A study of the physiology and intermediary metabolism of micro-organisms.
Microbiology

106. Bacterial Physiology Laboratory (2)
Six hours of laboratory.
Prerequisite: Microbiology 105 or concurrent registration.
A study of bacterial growth and variation and the methods used to assess and control these activities. Preparation of cellular extracts; determination of enzymes; activity; manometric techniques; determination of metabolic products; microbiologic assay.

107. Virology (2) II
Two lectures.
Prerequisite: Credit or concurrent registration in Microbiology 102.
An introduction to viruses, their structure, function, culture, and methods of study.

108. Virology Laboratory (2) II
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Microbiology 107.
The culture, isolation, and characterization of viruses.

109. Hematology (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Biology 1 and 2. Recommended: Chemistry 12 and physiology.
The study of normal and pathological blood with chemical, physical, and microscopic methods.

110. Microbiology and Man (2) I, II
Two lectures and demonstrations.
Prerequisite: A college course in biology.
A nontechnical course covering the nature of microorganisms; their significance in infection, agriculture, sanitation, and industry. Not open to students with credit in Microbiology 1 or 101.

166. Honors Course I, II (Credit to be arranged)
Refer to the Honors Program.

189. Clinical Laboratory Procedures (4) I, II
One lecture and nine hours of laboratory.
Prerequisites: Microbiology 102, 103, 104, 109; and Chemistry 114A and 114B, taken concurrently or previously.
Experience in laboratory procedures in the college health services and science laboratories, with instruction in the appropriate fields of the licensing examinations.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisites: 15 upper division units in the major with an average of B (3.0) or better.

GRADUATE COURSES

200. Seminar (2 or 3)
Prerequisite: Consent of instructor.
An intensive study in advanced microbiology, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

210. Seminar in Medical Bacteriology (3)
Prerequisite: Microbiology 102 or consent of instructor.
May be repeated with new content to a maximum of four units.

220. Seminar in Industrial and Agricultural Microbiology (3)
Prerequisite: Microbiology 101 or consent of instructor.
May be repeated with new content to a maximum of four units.

230. Seminar in Medical Mycology (2)
Prerequisite: Microbiology 104 or consent of instructor.
May be repeated with new content to a maximum of four units.

Music

IN THE DIVISION OF THE FINE ARTS
(The Department of Music is a member of National Association of Schools of Music)

Faculty
Professors: Anderson, P. V., Rost, Smith, J. D. (Chairman), Snider, Springfield
Associate Professors: Back, Biggs, Blyth, Ginzlinger, Hurd, Lambert, Savage, Ward-Steinman
Assistant Professors: Bruderer, Estes, Flye, Forman, Hogg, Loomis, D., Mitchell, D., Maracle, Sheldon
Lecturers: Gerard, Murray

Offered by the Department
Master of Arts degree with a major in music; and a Master of Arts degree for teaching service with a concentration in music. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in music with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Minor in music. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

LOWER DIVISION COURSES

7A. Musicianship—For Elementary Teachers (3) I, II
Four hours. No prerequisite.
Rudimentary music theory involving the elements of music: melody, rhythm, and harmony. Developing the understanding of these elements through instrumental and vocal experiences which include the use of unison and part-singing, the keyboard, and simple melodic and harmonic instruments.

9A-9B. Elementary Harmony (3-3) I, II
Four hours.
Prerequisite: Music 9A is prerequisite to 9B.
Sight-singing, dictation, and keyboard harmony. Traditional diatonic harmony, four-voice writing, analysis.

11—63134
Music

10A-10B. Piano—Elementary Class Instruction (1-1) I, II
Two hours.
Prerequisite: Music 10A is prerequisite to 10B.
Basic keyboard experience through study of music reading, notation, scales, chords, and sight-reading covering a repertoire of beginning and intermediate songs and piano literature, with emphasis on keyboard harmony. Required of music majors and minors and credential candidates for teaching at the kindergarten-primar

10C-10D. Piano—Elementary Class Instruction (1-1) I, II
Two hours.
Prerequisite: Music 10B is prerequisite to 10C; and 10C to 10D.
Continuation of Music 10A-10B.

11. Piano—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. May be repeated to a maximum of four units.

15A. Voice—Elementary Class Instruction (1) I, II
Two hours. No prerequisite.
A class for beginners in the vocal field taking up the problems of breath control, tone placement, articulation and enunciation. Frequent classroom performance of simple songs.

15B. Voice—Elementary Class Instruction (1) I, II
Two hours.
Prerequisite: Music 15A.
Study of more advanced songs with attention being given to interpretation, as well as continued work on tone, articulation and placement. Frequent performance before class required.

16. Voice—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. May be repeated to a maximum of four units of credit.

20A. Strings—Elementary Class Instruction (1) I
Two hours. No prerequisite.
Fundamentals of teaching violin, viola, cello, and string bass by lecture and acquisition of elementary skills. Primarily for students preparing for a teaching credential in music. Not open to students with credit in Music 120A.

20B. Strings—Elementary Class Instruction (1) II
Two hours.
Prerequisite: Music 20A or 120A.
Fundamentals of teaching violin, viola, cello, and string bass by lecture and acquisition of elementary skills emphasizing those instruments not previously studied in Music 20A or 120A as well as string class methods. Not open to students with credit in Music 120B.

21. Strings—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Material and techniques of intermediate level are studied in detail. Sections are offered in violin, viola, cello, bass. May be repeated to a maximum of four units of credit.

25A. Clarinet and Flute—Elementary Class Instruction (1) I, II
Two hours. No prerequisite.
Fundamentals of teaching the clarinet and flute by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 125A.

25B. Oboe and Bassoon—Elementary Class Instruction (1) I, II
Two hours. No prerequisite.
Fundamentals of teaching oboe and bassoon by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 125B.

26. Woodwinds—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. Sections are offered in flute, oboe, clarinet, and bassoon. May be repeated to a maximum of four units of credit.

30A. Brass—Elementary Class Instruction (1) I
Two hours. No prerequisite.
Fundamentals of teaching the trumpet and French horn by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 130A.

30B. Brass—Elementary Class Instruction (1) II
Two hours.
Prerequisite: Music 30A or 130A.
Fundamentals of teaching the bass clef instruments (trombone, baritone, and tuba), by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 130B.

31. Brass—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. Sections are offered in horn, trumpet, trombone, tuba, and baritone. May be repeated to a maximum of four units of credit.

35. Percussion—Elementary Class Instruction (1) I, II
Two hours. No prerequisite.
Fundamentals of teaching percussion through acquisition of elementary skill on the snare drum and by demonstration and lecture regarding all commonly used percussion instruments of definite and indefinite pitch. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 135.

50. Applied Music—Individual Study (1) I, II
Ten one-hour lessons or 15 40-minute lessons.
For the teaching credential performance requirement or for the requirements of the major emphasis curricular leading to the A.B. degree with a major in music. For conditions under which credit may be given for music study under private instructors, see explanation in the outline of requirements for the Music major in the section on Applied Arts and Sciences. May be repeated for a total of four units.

51. Introduction to Music (3) I
Three lectures. No prerequisite.
Practical approach to hearing music with understanding and pleasure, through study of representative compositions of various styles and performance media. Great musicians and their art. Music correlated with other arts through lectures, recordings, concerts. Closed to music majors and minors.

52. Orientation in Music Literature (3) I, II
Three lectures. No prerequisite.
An introductory course in the elements of musical style, structure, and media of expression as found in representative musical literature. Lectures, text, and assigned study of phonograph recordings and musical scores.

53. Opera Technique (2) I, II
Four hours per week. No prerequisite.
Training in the interpretation and characterization of light and grand opera. Specific work in coordination of operatic ensemble.

59A. Intermediate Harmony and Two-part Counterpoint (3) I, II
Four hours.
Prerequisite: Music 9B.
Continuation of Music 9B. Harmonic alteration and modulation. Two-voice counterpoint with compositional exercise in appropriate forms.

59B. Advanced Harmony and Three-part Counterpoint (3) I, II
Four hours.
Prerequisite: Music 59A.
Continuation of Music 59A. Chromatic harmony and remote modulation. Analysis and writing in the smaller homophonic forms. Three-voice counterpoint with compositional exercise in appropriate forms.

PERFORMANCE ORGANIZATION COURSES
The performance organization courses are devoted to the study in detail and the public performance of a wide range of representative literature for each type of ensemble and designed to provide students with practical experience in rehearsal techniques.

70. Chamber Music (1) I, II
Three hours.
Prerequisite: Consent of instructor.
Sections for string, woodwind, brass, piano, vocal, and mixed ensemble groups. May be repeated to a maximum of four units.

75. Marching Band (1) I
Concurrent registration in Music 75 and 76 required. Combined activity, six hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of two units.

76. Symphonic Band (1) I, II
Semester I: Concurrent registration in Music 75 and 76 required. Combined activity, six hours.
Semester II: Activity, five hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.

80. Symphony Orchestra (1) I, II
Five hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.

85. Concert Choir (1) I, II
Five hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.

86. Treble Clef (1) I, II
Three hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.

87. Men's Glee Club (1) I, II
Three hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.

88. College Chorus (1) I, II
Three hours. No prerequisite.
Open to all persons interested in performing oratorio, cantata, opera, and the extended choral works. No entrance auditions are required. May be repeated to a maximum of four units of credit.

UPPER DIVISION COURSES

105. Modern Harmonic Practice and Four-part Counterpoint (3) I, II
Three lectures.
Prerequisite: Music 9B.
Analysis and composition in modern idioms. Continuation of contrapuntal technique into four-voice technique, writing of canon and fugue.

106. Sixteenth Century Counterpoint (3) I, II
Three lectures.
Prerequisite: Music 9B.
Contrapuntal techniques of the sixteenth century, as revealed in the works of Palestrina, Lassus, and Ingegneri. Compositional exercises in setting parts of the Mass and in writing motets.

107. Composition (3) I, II
Three lectures.
Prerequisite: Music 9B.
Original writing in the larger homophonic and polyphonic forms, for various media. Opportunity for recital performance of original works.

108. Form and Analysis (3) I, II
Three lectures.
Prerequisite: Music 9B.
Structure and design as found in the traditional musical forms. Development of detailed analytical technique.

109A-109B. Instrumentation and Arranging (2-2) I, II
Two lectures.
Prerequisite: Music 9B. Music 109A is prerequisite to 109B.
Arranging of music for full orchestra. Selected works of students to be performed by standard orchestras.

111. Piano—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. May be repeated to a maximum of four units of credit.

112. Piano—Advanced Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of the advanced level are studied in detail. May be repeated to a maximum of four units of credit.
Music

116. Voice—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of the intermediate level are studied in detail. May be repeated to a maximum of four units of credit.

117. Voice—Advanced Voice Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of the advanced level are studied in detail. May be repeated to a maximum of four units of credit.

120A. Strings—Elementary Class Instruction (1) I
Two hours. No prerequisite.
Fundamentals of teaching violin, viola, cello, and string bass by lecture and acquisition of elementary skills. Primarily for students preparing for a teaching credential in music. Not open to students with credit in Music 20A.

120B. Strings—Elementary Class Instruction (1) II
Two hours.
Prerequisite: Music 20A or 120A.
Fundamentals of teaching violin, viola, cello, and string bass by lecture and acquisition of elementary skills emphasizing those instruments not previously studied in Music 20A or 120A as well as string class methods. Not open to students with credit in Music 20B.

121. Strings—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. Sections are offered in violin, viola, cello, and bass. May be repeated to a maximum of four units of credit.

122. Strings—Advanced Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Repertoire includes study of standard orchestral parts, solos, sonatas, suites and concerto. Sections are offered in violin, viola, cello, and bass. May be repeated to a maximum of four units of credit.

123-S. Workshop in Instrumental Techniques and Chamber Music for String, Woodwind, and Brass Instruments (2) Summer
Prerequisite: Consent of instructor.
The analysis and interpretation of the literature for each instrument, with performance in various ensemble units; both group and individual instruction in class, under performing professional musicians.

125A. Clarinet and Flute—Elementary Class Instruction (1) I, II
Two hours. No prerequisite.
Fundamentals of teaching the clarinet and flute by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 25A.

125B. Oboe and Bassoon—Elementary Class Instruction (1) I, II
Two hours. No prerequisite.
Fundamentals of teaching oboe and bassoon by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 25B.

126. Woodwinds—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. Sections are offered in flute, oboe, clarinet, and bassoon. May be repeated to a maximum of four units of credit.

127. Woodwinds—Advanced Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Repertoire includes study of standard orchestral parts, solos, sonatas, suites and concerto. Sections are offered in flute, oboe, clarinet, and bassoon. May be repeated to a maximum of four units of credit.

128A. Brass—Elementary Class Instruction (1) I
Two hours. No prerequisite.
Fundamentals of teaching the trumpet and French horn by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 30A.

128B. Brass—Elementary Class Instruction (1) II
Two hours.
Prerequisite: Music 30A or 130A.
Fundamentals of teaching the bass clef instruments (trombone, baritone, and tuba), by lecture and acquisition of elementary skills. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 30B.

129. Brass—Intermediate Class Instruction (1) I, II
Two hours.
Prerequisite: Satisfactory audition before the instructor.
Materials and techniques of intermediate level are studied in detail. Sections are offered in horn, trumpet, trombone, tuba, and baritone. May be repeated to a maximum of four units of credit.

130. Brass—Advanced Class Instruction (1) I, II
Two hours.
Prerequisite: Junior standing.
Repertoire includes study of standard orchestral parts, solos, sonatas, suites and concerto. Sections are offered in horn, trumpet, trombone, tuba, and baritone. May be repeated to a maximum of four units of credit.

132. Percussion—Elementary Class Instruction (1) I, II
Two hours. No prerequisite.
Fundamentals of teaching percussion through acquisition of elementary skill on the snare drum and by demonstration and lecture regarding all commonly used percussion instruments of definite and indefinite pitch. Open to all students, but primarily for those preparing for a teaching credential in music. Not open to students with credit in Music 35.

140. Planning and Development of Marching Band Shows (2) I
Two hours.
Prerequisite: Two semesters of Music 75 or 175.
The organizing, charting, and producing of half-time shows for football games for prospective high school teachers. Shows are planned and produced by the students and performed by the Marching Band.

141. Methods in Teaching Piano (3) I, II
Three hours.
Prerequisite: Junior standing.
Teaching of beginning and intermediate piano. Survey of materials available for children and adult classes. Special consideration of the problems of the adult beginner. Supervised teaching of beginning students in individual lessons and class groups.

142. Music Literature for Elementary Teachers (3) I, II
Three lectures.
Prerequisites: Music 7A and 9A.
Study of music literature suitable for teaching at the elementary school level; includes background information and ways of classroom presentation.
144. Music of the People (3) I, II
Three hours.
Prerequisite: Music 7A or 9A.
The origin and development of folk music; the social instruments and their use.
Participation in singing and playing folk music.

145. Music in Contemporary Life (3) I, II
Three hours.
Prerequisite: Music 7A or 9A.
Functional music in society to include its psychological, physical and recreational uses; music as communication; the composer, the musician, and the audience.

146A. Choral Conducting (1) I, II
Three hours.
Prerequisite: Junior standing.
Elements of baton technique and development of basic skills common to choral conducting. Representative literature and techniques for choral organizations will be studied and performed. Practical experience in typical conducting situations will be emphasized in various grade levels.

146B. Instrumental Conducting (1) II
Three hours.
Prerequisite: Music 146A.
Study of orchestra and band scores of graduated levels of advancement. The class will prepare and conduct instrumental works in public performances.

150. Applied Music—Individual Study (1) I, II
For the teaching credential performance requirement or for the requirements of the major emphasis curricula leading to the A.B. degree with a major in music. For conditions under which credit may be given for music study under private instructors, see explanation in the outline of requirements for the Music major in the section on Applied Arts and Sciences. May be repeated for a total of four units.

Piano Oboe Trumpet Violin
Organ Clarinet Trombone Viola
Voice Saxophone Baritone horn Cello
Flute Bassoon Tuba Contrabass
French horn Percussion Composition

151. Great Music (3) I, II
Three lectures. No prerequisite.
Instrumental and vocal music in the larger forms studied through directed listening. Artistic trends and their effect upon music composition and performance. Completion of Music 51 is recommended, but not required as a prerequisite.

152A-152B. History of Music (2-2) I, II
Two lectures.
Prerequisites: Music 52 and 59B; Music 152A is prerequisite to 152B.
Detailed study of the chronological development of musical art and forms from the Middle Ages to the present. Analytical score study and assigned recordings. Familiarity with musico-logical resources through individual assignments.

153. Opera Technique (2) I, II
Four hours. No prerequisite.
Training in interpretation and characterization of light and grand opera. Specific work in coordination of opera ensemble.

154. Music Literature (2) I, II
Two lectures.
Prerequisites: Music 52 and 59B.
A concentrated study of the literature in the several areas listed. Analysis by use of scores and of recordings, when available.
A. Chamber Music Literature—Strings
B. Small Wind and Percussion Ensemble Literature
C. Symphonic Literature
D. Keyboard Literature
E. Song Literature

156. Honors Course I, II (Credit to be arranged)
To be arranged after consultation with the chairman of the department. Refer to the Honors Program.

157. Junior Recital (1) I, II
Prerequisite: Junior standing in music.
Selection of literature for recital program not to exceed thirty minutes in length; Selection of literature for recital program not to exceed one hour in length.
Selection of literature for recital program not to exceed one hour in length; selection of literature for recital program not to exceed one hour in length; selection of literature for recital program not to exceed one hour in length; selection of literature for recital program not to exceed one hour in length; selection of literature for recital program not to exceed one hour in length.

159. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of the department chairman.

PERFORMANCE ORGANIZATION COURSES
The performance group courses are devoted to the study in detail and the public performance of a wide range of representative literature for each type of ensemble and designed to provide students with practical experience in rehearsal techniques.

170. Chamber Music (1) I, II
Three hours.
Prerequisite: Consent of instructor.
Selections for string, woodwind, brass, piano, vocal, and mixed ensemble groups. May be repeated to a maximum of four units.

175. Marching Band (1) I
Concurrent registration in Music 175 and 176 required. Combined activity, six hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of two units.

176. Symphonic Band (1) I, II
Semester I: Concurrent registration in 175 and 176 required. Combined activity, six hours.
Semester II: Five hours per week.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.

180. Symphony Orchestra (1) I, II
Five hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.

182. Concert Choir (1) I, II
Five hours.
Prerequisite: Consent of instructor.
May be repeated to a maximum of four units.
Music

186. Treble Clef (1) I, II
   Three hours.
   Prerequisite: Consent of instructor.
   May be repeated to a maximum of four units.

187. Men's Glee Club (1) I, II
   Three hours.
   Prerequisite: Consent of instructor.
   May be repeated to a maximum of four units.

188. College Chorus (1) I, II
   Three hours. No prerequisite.
   Open to all persons interested in performing oratorio, cantata, opera, and the
   extended choral works. No entrance auditions are required. May be repeated to a
   maximum of four units of credit.

GRADUATE COURSES

200. Seminar in Music Education (3)
   Prerequisite: Consent of instructor.
   Seminars in music education are offered to provide an opportunity for concen-
   trated study in the several areas listed.
   A. Supervision of music education
   B. Junior high school music
   C. Marching band technique
   D. Instrumental methods
   E. Choral methods
   F. Problems in Elementary School Classroom Music

203. Musicology (3)
   Prerequisites: Music 152A and 152B.
   Problems and methods of research in aesthetics, acoustics, music history and
   related fields. Source materials, bibliography. Completion of written project.

207. Composition (2 to 3)
   Prerequisite: Music 107.
   Advanced composition for various media, development of original idiom, intensive
   study of modern music. Public performance of an extended original work
   as a project.

208. Seminars: Music Theory (3)
   Prerequisite: Music 108.
   A survey of important theoretical approaches to music, from pre-Socratic writers
   to the present.

209. Advanced Orchestration (2) I, II
   Prerequisite: Music 109B.
   Intensive work in the practical scoring for ensembles, full orchestra, and sym-
   phonic band. Score analysis. Selected works of the class members will be performed.

246A. Advanced Choral Conducting (2)
   Prerequisite: Music 146B.
   Course designed to develop skills at professional level; study of different styles
   of choral literature and their relationship to conductor's art; score analysis and experience
   in conducting.

246B. Advanced Instrumental Conducting (2)
   Prerequisite: Music 146B.
   Course designed to develop skills at professional level; study of conducting style
   as related to band and orchestra literature, score analysis and experience in con-

Nursing

210. Applied Music—Advanced Individual Study (1)
   For the graduate student who qualifies for advanced study through an audition
   before the Music Department faculty. For conditions under which credit may be
   given for music study under private instructors, see explanation in the outline of
   requirements for the Music major in the section on Applied Arts and Sciences.
   May be repeated to a maximum of two units.

   Piano          Oboe
   Organ          Clarinet
   Voice          Saxophone
   Flute          Bassoon
   Tuba

   French Horn    Trumpet
   Violin          Cello
   Violin          Contrabass
   Tuba

211. Seminar in Music History (3)
   Prerequisites: Music 152B and consent of instructor.
   Seminars in music history are offered for intensive study in each of the historical
   eras listed below.
   A. Music of the Middle Ages and Renaissance
   B. Music of the Baroque Era
   C. Music of the eighteenth and nineteenth centuries
   D. Twentieth century music
   E. American Music

219. Research Procedures in Music (3)
   Three lectures.
   Reference materials, bibliography, investigation of current research in music,
   processes of thesis topic selection, and techniques of scholarly writing.

229. Special Study (1-6)
   Individual study. Six units maximum credit.
   Prerequisite: Consent of department chair and instructor.

239. Thesis or Project (3)
   Prerequisites: An officially appointed thesis committee and advancement to
   candidacy.
   Guidance in the preparation of a project or thesis for the master's degree.

NURSING

IN THE DIVISION OF THE LIFE SCIENCES
(Linked with the National League for Nursing)

Faculty

Professor: Nye, N. (Chairman)
Associate Professors: Arkinson, B., Coveny, Ganong, Johnson, E., Lee, P., Moses
Asst. Professors: Coakley, Flagg, J., Hunt, Laiho, Winckler
Lecturers: Laws, McClure, Salerno, Stanley

Offered by the Department

Major in nursing with the B.S. degree in applied arts and sciences. (Described
in the section on Applied Arts and Sciences.) Courses offered for graduate nurses.

LOWER DIVISION COURSES

1. Orientation to Nursing (1) I
   One lecture. No prerequisite.
   An introduction and orientation to the profession of nursing. Considers ethical
   principles, the nurses' code, and professional problems which will face the student
   nurse.
Nursing

33A. Medical Nursing (5) I
Three lectures and six hours of laboratory.
Prerequisites: Zoology 9, concurrent registration in Nursing 34A and in Microbiology 1 or Chemistry 3.
Fundamental principles and application in meeting needs of adults with medical health problems.

33B. Medical Nursing (5) II
Two lectures and nine hours of laboratory.
Prerequisites: Nursing 33A, 34A, and concurrent registration in Microbiology 1 or Chemistry 3.
Continuation of Nursing 33A.

34A. Surgical Nursing (5) I
Two lectures and nine hours of laboratory.
Prerequisites: Zoology 9, concurrent registration in Nursing 33A and in Microbiology 1 or Chemistry 3.
Fundamental principles and application in meeting needs of adults requiring surgical intervention.

34B. Surgical Nursing (5) II
Three lectures and six hours of laboratory.
Prerequisites: Nursing 33A, 34A, and concurrent registration in Nursing 33B and in Microbiology 1 or Chemistry 3.
Continuation of Nursing 34A.

36. Community Nursing (2) I, II
Prerequisite: Concurrent registration in Nursing 33A and 34A, or in 33B and 34B.
A study of social and health agencies and how they meet the nursing needs of individuals and families in the hospital, home, and community.

UPPER DIVISION COURSES

Courses numbered 150 to 160 are open only to graduate nurses.

112. Obstetric Nursing (5) I, II
Two lectures and nine hours of laboratory.
Prerequisites: Nursing 33B and 34B and Sociology 136.
Study of care and treatment of the obstetric patient and newborn infant.

114. Pediatric Nursing (5) I, II
Two lectures and nine hours of laboratory.
Prerequisites: Nursing 33B and 34B and credit or concurrent registration in Psychology 106.
Nursing care of infants and children; prevention and control of disease; and instruction of parents.

116. Trends in Nursing (2) I
Prerequisite: Nursing 1.
Place of nursing in world history and the present social order.

118. Psychiatric Nursing (5) I, II
Two lectures and nine hours of laboratory.
Prerequisites: Nursing 33B and 34B and credit or concurrent registration in Psychology 131.
Major concepts of psychiatric nursing and mental health that are involved in care of the mentally ill; therapies and rehabilitation measures.

120. Practicum in Clinical Nursing (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Nursing 112, 114, and 116.
Development of ability for making a nursing diagnosis, and taking appropriate action.

Oceanography

134. Leadership Roles in Nursing (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Nursing 116.
Professional and legal responsibilities of the nurse; selected practice activities in the role of team leader.

136. Public Health Nursing (4) I, II
Prerequisite: Nursing 36, 112, 114, and credit or concurrent registration in Nursing 126.
Principles of Public Health Nursing and organization and administration of health services.

138. Public Health Nursing Practice (5) I, II
Fifteen hours of laboratory.
Prerequisite: Concurrent registration in Nursing 125.
Guided public health nursing practice in community health agencies, out-patient clinics, schools and homes.

Courses for Graduate Nurses

132. In-service Instruction (2) II
Prerequisite: R.N. certificate.
Application of the principles and methods of teaching in the various clinical services.

140. Nursing in School Health Services (3) II
Prerequisite: Nursing 125, or equivalent, to be determined by examination.
The application of health principles and current best practices in schools with emphasis on the functions of the school nurse related to the school, home, and community.

Individual Study

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of the instructor.

OCEANOGRAPHY

IN THE DIVISIONS OF THE LIFE SCIENCES AND THE PHYSICAL SCIENCES

Faculty
Associate Professor: McBlair.
Assistant Professor: Howard, F.

UPPER DIVISION COURSES

100. The Oceans (2) I
Prerequisites: Introductory courses in life and physical sciences.
Biological and physical aspects of the oceans and their significance to man; problems of modern oceanography.

For additional courses in Oceanography see
Biology 113, Biological Oceanography
Physical Science 110, Physical Oceanography
PHILOSOPHY

IN THE DIVISION OF THE HUMANITIES

Faculty
Emeritus Faculty: Mendenhall
Professors: Nelson, S.; Rula, Shields
Associate Professors: Snyder (Chairman), Anderson, A. W., Crawford, P., McClurg
Assistant Professors: Howard, R., Koppelman, Warren, E. W., Weissman

Offered by the Department
Master of Arts degree with a major in philosophy. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in philosophy with a B.A. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in philosophy. (Described in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

1A-1B. Introduction to Philosophy (3-3) I, II
Prerequisite: Philosophy 1A, or consent of instructor, is prerequisite to 1B.
The place of philosophy in intelligent living. The methods, areas, and significance of philosophical inquiry. Each student is encouraged to think independently and formulate his own tentative conclusions. In Philosophy 1A, emphasis is placed upon problems of value. In Philosophy 1B, emphasis is placed on problems of knowledge and reality.

20. Logic (3) I, II
Introduction to deductive and inductive logic. Logic and language. Analysis of fallacies. Uses of logic in science and in daily life.

UPPER DIVISION COURSES

NOTE: At least three units of philosophy are prerequisite to all upper division courses in philosophy. Equivalents for the prerequisites stated may be accepted at the discretion of the instructor.

101. History of Philosophy I (3) I, II
Prerequisite: Six units of philosophy or the equivalent in other areas.
Thales through Marcus Aurelius.

102. History of Philosophy II (3) II
Prerequisite: Philosophy 101.
Plato through William of Occam.

103. History of Philosophy III (3) I, II
Prerequisite: Philosophy 101.
Nicholas of Cusa through Kant.

104. History of Philosophy IV (3) I
Prerequisite: Philosophy 103.
Fichte through Royce.

105. Contemporary Philosophy (3) II
Prerequisite: Philosophy 103.
Major philosophical issues, movements, and figures in American and European philosophy of the twentieth century.

108. Recent Existentialism (3) I
Prerequisite: Six units of philosophy or the equivalent in other areas.
An examination of the philosophical aspects of Existentialism. Major emphasis is on the diversity of thought within a common approach as this is shown in individual thinkers.

109. Ordinary Language Analysis (3) I
Prerequisite: Six units of philosophy.
The application of linguistic analysis to basic philosophical problems.

110. Philosophy of Law (3) II
Prerequisite: Philosophy 1A, 1B or 20, and three units of Political Science.
A systematic inquiry into the nature of law and the logic of legal reasoning. An exploration of certain key legal concepts such as causation, responsibility, personality, and property.

112. Political Philosophy (3) II
Prerequisite: Philosophy 1A.
A critical inquiry into selected aspects of the political structures within which we live, such as law, power, sovereignty, justice, liberty, welfare.

121. Deductive Logic (3) I
Prerequisite: Philosophy 20 or Mathematics 60.
Principles of inference for symbolic deductive systems; connectives, quantifiers, relations, and sets. Interpretations of deductive systems in mathematics, science, and ordinary language. Not open to students with credit in Mathematics 155.

122. Inductive Logic (3) II
Prerequisite: Philosophy 20.

123. Theory of Knowledge (3) I
Prerequisite: Philosophy 1B.
A critical study of the major theories of human knowledge: mysticism, rationalism, empiricism, pragmatism.

125. Metaphysics (3) II
Prerequisite: Philosophy 1B.
Explorations of prominent theories of reality, e.g., realism and nominalism, materialism and idealism, teleology and determinism.

127. Values and Social Science (3) II
Prerequisite: Six units of philosophy or the equivalent in other areas.
Analysis and discussion of the nature of values and value-judgment with particular reference to the social sciences. Among relevant issues: the naturalistic fallacy, facts and values; authoritarianism, emotivism, objective relativism; the individual and the community.

128. Theory of Ethics (3) I
Prerequisite: Six units of philosophy or the equivalent in other areas.
A study of significant and typical value theories and systems and of the concrete problems such theories seek to explain. The emphasis will be placed on moral values. The student will be encouraged to examine critically his own system of values.

129. Social Ethics (3) I
Prerequisite: Philosophy 1A.
Ethical issues of contemporary life. Individualism vs. collectivism, democracy vs. dictatorship; ethical problems arising in law, medicine, business, government, and interpersonal relationships.

131. Philosophy of Language (3) II
Prerequisite: Six units of philosophy or the equivalent in other areas.
An introduction to theories of meaning for natural languages and formal systems; concepts of truth, synonymy, and analyticity; related epistemological and ontological problems.
Philosophy

132. Philosophy of History (3) I
Prerequisite: Six units of philosophy or the equivalent in other areas.
A critical examination of the nature of history and historical inquiry. As meta-

134. Philosophy of Literature (3) I
Prerequisite: Six units of philosophy or the equivalent in other areas.
Study of literature of philosophical significance, and of philosophical problems of

135. Philosophy of Religion (3) I, II
Prerequisite: Six units of philosophy or the equivalent in other areas.
The ethical and philosophical significance of major themes in religious thought. The role of

136. Philosophy of Art (3) II
Prerequisite: Six units of philosophy or the equivalent in other areas.
The nature of aesthetic experience. The principal theories of art, both traditional and

137. Philosophy of Science (3) I
Prerequisite: Six units of philosophy or the equivalent in other areas.
A critical examination of the basic concepts and methods underlying contemporary scientific thought. Contributions of the special sciences to a view of the

150A-150B. Asian Thought (3) I-III
Prerequisite: Six units of philosophy or the equivalent in other areas.

164. American Philosophy (3) I
Prerequisite: Six units of philosophy or the equivalent in other areas.
A systematic and critical study of the work of American philosophers from the Puritans through the Pragmatists. Major emphasis is placed upon Pierce, James, Royce, Santayana, Dewey, and Whitehead.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: 12 upper division units in philosophy and consent of instructor.

GRADUATE COURSES

201. Seminar in Ancient Philosophy (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 101.
Directed research in a major author (e.g., Plato or Aristotle), or a school (e.g., the Pythagoreans or the Stoics), or a problem (e.g., causation or the state). Maximum credit six units applicable on a master's degree.

202. Seminar in Medieval Philosophy (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 102.
Directed research in a major author (e.g., Augustine or Aquinas), or a school (e.g., neo-Aristotelianism), or a problem (e.g., political philosophy or reason and authority). Maximum credit six units applicable on a master's degree.

203. Seminar in Modern Philosophy (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 103.
Directed research in a major author (e.g., Hume or Kant), or a school (e.g., the continental rationalists or the British empiricists), or a problem (e.g., the nature of substance). Maximum credit six units applicable on a master's degree.

205. Seminar in Contemporary Philosophy (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 105.
Directed research in a major author (e.g., Dewey or Wittgenstein), or a school (e.g., the pragmatists or the language analysts), or a problem (e.g., perception or personhood). Maximum credit six units applicable on a master's degree.

211. Seminar in Legal Philosophy (3)
Prerequisite: 12 upper division units in philosophy.
Directed research in recurring themes of philosophical significance in jurisprudential literature.

212. Deductive Logic (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 121.
A comparison of deductive systems in logic. Problems of definiability, consistency, and completeness. The role of logic in the foundations of mathematics.

213. Seminar in Epistemology (3)
Prerequisite: 12 units of upper division work in philosophy.
An examination of some of the basic problems concerning meaning, perception, and knowledge. Readings in the works of leading contemporary philosophers, such as C. I. Lewis and Bertrand Russell.

225. Seminar in Metaphysics (3)
Prerequisite: 12 units of upper division work in philosophy.
An inquiry into the search for significant qualities of reality.

226. Seminar in Ethics (3)
Prerequisite: 12 units of upper division work in philosophy.
Contemporary ethical issues. Critical analysis of the works of some leading theorists, such as Moore, Dewey, Stevenson, and Toulmin.

231. Semantics and Logical Theory (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 121 and 122.
Contemporary issues in the foundations of logic and theories of language.

233. Seminar in Philosophy of Religion (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 133.
A philosophical investigation of the nature of religious thought: its structure, growth, and significance.

236. Seminar in Philosophy of Art (3)
Prerequisite: 12 units of upper division work in philosophy.
An analysis, criticism, and comparative study of selected philosophies of art.

237. Seminar in Philosophy of Science (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 122 and 123.
Studies in the methodology of the empirical sciences. The logical structure of science.

250. Seminar in East-West Philosophy (3)
Prerequisite: 12 upper division units in philosophy including Philosophy 150A.
Comparative study of mythological, ethical, and mystical themes in the literature of East and West.
Physical Education

298. Special Study (1-6)
Individual study. Maximum credit six units.
Prerequisites: 12 units of upper division work in philosophy and consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master’s degree.

PHYSICAL EDUCATION

IN THE DIVISION OF HEALTH EDUCATION, PHYSICAL EDUCATION, AND RECREATION

Faculty
Emeritus Faculty: Schwob, Shannon, Smith, C.

Men’s Department
Professors: Benton, Coryell, Governess, Kasch, Scott, Terry, Ziegenfuss
Associate Professors: Broadbent, Carter, J. E. L., Olsen, A., Olsen, L., Schute (Chairman), Sportsman
Assistant Professors: Franz, Friedman, Hall, S. E., Madden, J., Phillips, W. H., Ross, W. D., Wells
Lecturers: Beeley, Boyer, Johnston, H.

Women’s Department
Professor: Murphy, M. M.
Associate Professors: Andrus, Cave (Chairman), Lockman, Tollefson
Assistant Professors: Barone, Cullen, Fox, Griffin, Lewis, K., Sprunt, Wilhelm, Williamson
Lecturers: Iverson, Starkley, Turner, G.

Offered by the Departments
Master of Arts degree for teaching service with a concentration in physical education. (Described in the Graduate Bulletin. Also refer to the section in this catalog for the Graduate Division.)
Major in physical education with the A.B. degree in applied arts and sciences.
(Described in the section on Applied Arts and Sciences.)
Minor in physical education. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

REQUIRED ACTIVITY COURSES

To meet general education requirements, all freshman and sophomore students must enroll in an activity course each semester. Four semesters of activity courses are required. Two units are needed for general education and graduation, but no more than one activity course in any one semester may be counted toward this requirement. An activity course taken in the summer session may be counted in lieu of one taken during the fall or spring semester.

Exemptions or Postponements
Veterans who have served a minimum of one continuous year in the United States armed forces are exempted from the general education requirement in physical education. Students over 21 years of age may also be exempted from the general education requirement in physical education upon approval by the Dean of the College or duly authorized representative. Students carrying fewer than 12 units during any semester may apply to the chairman of the Physical Education Department for a postponement of the physical education activity requirement. For reasons of health, the Director of Health Services may postpone the enrollment of a student in a physical education activity course. Permanent postponement from the activity requirement will not be made and a postponement does not eliminate the graduation requirement.

Types of Activity Courses

A health history record is required of each student entering college. Adapted physical education classes to care for special needs are offered. The content of the required courses is planned to give each student an opportunity to participate in many activities of carry-over value, developmental nature, and recreational interest. An opportunity is afforded students to participate in competitive sports and intramural programs.

MEN’S ACTIVITY COURSES

Physical Education 1 is the basic orientation course required of all entering male freshmen. All male students must take 1, 2 (or 5), 3, and 4. Credit for transfer students will be appropriately evaluated.
Activity courses 1, 2, 3, 4, and 5 are general education courses which fulfill the general education requirement. Each course is taken for one-half unit and meets two hours per week. Physical Education 1, 2, 3, 4, and 5 may not be repeated for credit.
A student may be excused from regular physical education activity on the recommendation of Health Services or the chairman of the Department of Physical Education. In such a case the student will be assigned to Individual Adaptation sections offered in Physical Education 1, 2, 3, and 4.

Courses

1. Physical Education (½) I, II
A choice of vigorous, competitive activity: boxing, gymnastics, soccer, conditioning with weights, track, or wrestling. Physical fitness emphasis. Tests are administered for appropriate student placement in future physical education classes.

2. Physical Education (½) I, II
Beginning swimming, intermediate swimming, or advanced aquatics. Second or third semester course.

3. Physical Education (½) I, II
A choice of activity: archery, beginning badminton, basketball, boxing, beginning dance, golf, gymnastics, soccer, or beginning tennis. Second or third semester course.

4. Physical Education (½) I, II
A choice of activity: advanced badminton, bowling, conditioning by training with weights and other related devices, advanced dance, fencing, handball, advanced tennis, track and field, volleyball, or wrestling.

5. Physical Education (Alternate) (½) I, II
May be taken in lieu of Physical Education 2. Students may select any activity in Physical Education 3 or 4. (See department chairman.)

10. Physical Education (Elective) (½) I, II
An elective for students interested in pursuing further their physical education activities. Students may repeat this course for credit. This course is not a general education course and therefore does not satisfy the physical education requirement. (See department chairman.)
Physical Education

Intercollegiate Sports

An intercollegiate sport is not a general education course and therefore does not satisfy the physical education requirement. Courses in intercollegiate sports meet 10 hours per week.

30. Baseball (½) II
31. Basketball (½) I
32. Cross Country (½) I
33. Football (½) I
34. Golf (½) II
35. Gymnastics (½) II

36. Tennis (½) II
37. Track (½) II
38. Wrestling (½) II
39. Swimming (½) II
40. Rowing (½) II
41. Water Polo (½) I

WOMEN'S ACTIVITY COURSES

General Education Activity Courses

Courses offered for one-half unit credit meet two hours per week. An activity course may be taken for credit only once.

1A-1B. Fundamental Skills (½-⅝) I, II
2A-2B. Folk, Square, and Round Dancing (½-⅝) I, II
3A-3B. Modern Dance (½-⅝) I, II
4A-4B. Gymnastics and Related Activities (½-⅝) I, II
5A. Soccer, Speedball, Hockey (½) I, II
5B. Softball, Volleyball (½) I, II
6. Basketball (½) I, II
11. Ballroom Dancing (½) I, II
12A. Advanced Modern Dance (1) I, II
12B. Advanced Modern Dance (1) I, II
13A-13B. Archery (½-⅝) I, II
14A-14B. Badminton (½-⅝) I, II
15A-15B. Fencing (½-⅝) I, II
16A-16B. Golf (½-⅝) I, II
18A-18B. Tennis (½-⅝) I, II
19. Bowling (Men and Women) (½) I, II
20A-20B. Swimming (Men and Women) (½-⅝) I, II

50. Life Saving (1) I, II
Three hours per week.
Standard American Red Cross course in life saving and water safety, designed to qualify superior swimmers for Senior Life Saving Certificate.

52. Introduction to Physical Education (Women) (2) I
History and principles of physical education and sports. Study of the objectives of modern physical education with a view toward the development of a basic philosophy and background for professional education.

53. Physical Education of Children (2) I, II
One lecture and three hours of laboratory.
Application of the principles of motor learning and muscular fitness to the elementary physical education activity program.

54. Advanced Skill Techniques in Dance (1) I, II
Prerequisite: Consent of instructor.
Progressively difficult dance techniques using several creative approaches. Emphasis on motivation, body design, rhythm, and dynamics.

56A-56B. Professional Activities: Team Sports (Women) (1-1) I, II
Four hours of laboratory.
Team sports for women approached through a study of competencies, skills, and knowledge needed for teaching.

57. Officiating Women's Sports (1) I, II
Three hours of laboratory per week.
Prerequisite: Physical Education 56B.
Practice in officiating techniques in women's sports leading to official's ratings: Fall—volleyball, basketball, and hockey; Spring—softball, track and field, badminton, and tennis.

70. Orientation to Physical Education (Men) (1) I, II
Orientation and guidance of major students in physical education. Course must be taken during the first semester of enrollment in the major at San Diego State.

71. Gymnastics (Men) (1) I, II
Three hours of laboratory.
Competency development in gymnastics. Emphasis on skills.

72. Aquatics (1) I, II
Three hours of laboratory.
Competency development in aquatics. Emphasis on skills.

73. Dance (Men) (1) I, II
Three hours of laboratory.
Competency development in dance. Emphasis on skills.

74. Combatives (Men) (1) I, II
Three hours of laboratory.
Competency development in combatives. Emphasis on skills.

75. Team Sports (Men) (1) I, II
Three hours of laboratory.
Competency development in team sports. Emphasis on skills.

76A. Individual Sports (Men) (1) I
Three hours of laboratory.
Competency development in badminton and tennis. Emphasis on skills.
Physical Education

760. Individual Sports (Men) (1) II
Three hours of laboratory.
Competency development in archery, golf, and handball. Emphasis on skills.

77. Introduction to Physical Education (Men) (1) I, II
Aims, objectives, content, and conduct of physical education. Required of all physical education majors without previous credit in an introductory physical education course.

81. Introduction to Dance (2) I
Dance as an art form with emphasis on the development of contemporary trends; American dance personalities and their contribution. Required of all physical education majors with an emphasis in dance.

82. Rhythmic Analysis Related to Movement (2) II
Music as related to movement; notation and simple music forms applied to all movement activities; percussion accompaniment; writing of percussion scores; music repertoire for dance.

UPPER DIVISION COURSES

122. Water Safety Instruction (1) II
Four hours of lecture and laboratory.
Prerequisites: P.E. 208 or equivalent, and current American Red Cross Senior Life Saving Certificate.
Methods and materials for teaching swimming. Course designed to qualify expert swimmers for American Red Cross Swimming Instructors Certificate.

143. Professional Activities: Coaching Track (Men) (1) II
Two hours of lecture and laboratory.
Organization of practice sessions and drills for developing fundamental skills and special abilities; study of rules and officiating techniques; consideration of scheduling problems, coaching techniques and game strategy and organization.

144. Professional Activities: Coaching Baseball (Men) (1) II
Two hours of lecture and laboratory.
Organization of practice sessions and drills for developing fundamental skills and special abilities; study of rules and officiating techniques; consideration of scheduling problems, coaching techniques and game strategy.

147. Professional Activities: Coaching Football (Men) (1) I
Two hours of lecture and laboratory.
Organization of practice sessions and drills for developing fundamental skills and special abilities; study of rules and officiating techniques; consideration of scheduling problems, coaching techniques and game strategy.

148. Professional Activities: Coaching Basketball (Men) (1) I
Two hours of lecture and laboratory.
Organization of practice sessions and drills for developing fundamental skills and special abilities; study of rules and officiating techniques; consideration of scheduling problems, coaching techniques and game strategy.

151. Professional Preparation in Folk and Social Dancing (Men and Women) (3) I
Two lectures and three hours of laboratory.
Prerequisites: Physical Education 2B and 11, or completion of folk and social dancing competencies tests. Folk customs, festivals, and costumes. Selection of dance materials for various age groups. Analysis of teaching techniques.

152. Professional Preparation in Gymnastics (Women) (3) I
Two lectures and three hours of laboratory.
Prerequisites: Physical Education 4A and 4B, or completion of competencies tests in gymnastics and related fields. Advanced materials in tumbling and gymnastics with emphasis on safety devices, spotting, etc. Analysis of teaching techniques and progressions.

Physical Education

153A-153B. Problems in Dance (2-2)
Prerequisite: Physical Education 12A.
Problems in ethnic or modern dance: history, anthropological basis, stagecraft, accompaniment, costuming.

154. Professional Preparation in Modern Dance (Women) (3) II
Two lectures and three hours of laboratory.
Prerequisites: Physical Education 3B, or completion of competencies tests in modern dance.
Advanced skill techniques with emphasis on individual choreography. Selection of materials and course planning for the secondary schools. Class teaching experience. Brief survey of basic literature and current readings in the field.

155. Professional Preparation in Individual Sports (Women) (3) II
Two lectures and three hours of laboratory.
Prerequisites: Physical Education 13A, 14A, 16A, and 18A, or completion of competencies tests in archery, badminton, golf, and tennis.
Review of individual playing techniques, knowledge, rules, and teaching methods in tennis, badminton, archery and golf. Designed for senior majors in physical education who are expected to demonstrate a high degree of competency in the sports indicated.

156. Professional Preparation in Team Sports (Women) (3) I
Two lectures and three hours of laboratory.
Prerequisites: Physical Education 56A and 56B, or completion of competencies tests in basketball, hockey, soccer, speedball, softball and volleyball, and track and field.
Analysis of skills, teaching techniques, officiating, and the organization of materials in team sports for women.

157A-157B. Choreography in Contemporary Dance (Men and Women) (3-3)
Two lectures and three hours of laboratory.
Prerequisite: Consent of instructor.
Experiments in the dance, relating contemporary theories to other art forms.
The study of force and time-space relationships as factors in choreography. Production problems.

160. Mechanics of Body Movement (Women) (3) II
Two lectures and three hours of laboratory.
Prerequisite: Physical Education 167.
Efficient use of the body in daily living; evaluation and classification of exercises, study of methods and practice in planning and presenting material.

162. Measurement and Evaluation in Physical Education (3) I, II
Intensive study of existing tests, and other forms of evaluation used in physical education programs, including practical measuring and comparisons with norms, standards, etc. Closely related to required competencies tests for physical education majors with applications to use in teaching.

164. Athletic Injuries (Sports Medicine) (2) I, II
One lecture and three hours of laboratory.
Prerequisite: Physical Education 167.

166. Honors Course (Credit to be arranged) I, II
Refers to the Honors Program.

167. Applied Anatomy and Kinesiology (3) I, II
Prerequisites: Zoology 8 and 22.
Anthropology, syndesmology, and myology, with special emphasis on movement mechanical principles to movement analysis.
Physical Education

168. Physiology of Exercise (3) I, II
Prerequisites: Zoology 8 and 22.
Effects of physical activities on the physiological functions of the body.

169. Adapted Activities (2) I, II
One lecture and three hours of laboratory.
Prerequisites: Zoology 8 and 22, Physical Education 167 and 168, and admission to Teacher Education.
Adaptation of programs for the atypical individual, including physical examinations, training, and prescribed exercises, follow-up, instructional problems, and evaluation.

171. Gymnastics (Men) (1) I, II
One lecture and two hours of laboratory.
Prerequisites: Physical Education 71 or demonstrated competency, and admission to Teacher Education.
Skills, movements, rules, officiating, facilities, and organizational procedures in gymnastics. History and current role in the curricula.

172. Aquatics (1) I, II
One lecture and two hours of laboratory.
Prerequisites: Physical Education 72 or demonstrated competency, and admission to Teacher Education.
Skills, movements, rules, officiating, facilities, and organizational procedures in aquatics. History and current role in the curricula.

173. Dance (Men) (1) I, II
One lecture and two hours of laboratory.
Prerequisites: Physical Education 73 or demonstrated competency, and admission to Teacher Education.
Skills, movements, facilities, and organizational procedures in dance. History and current role in the curricula.

174. Combatives (Men) (1) I, II
One lecture and two hours of laboratory.
Prerequisites: Physical Education 74 or demonstrated competency, and admission to Teacher Education.
Strategy, tactics, rules, officiating, facilities, and organizational procedures in combatives. History and current role in the curricula.

175. Team Sports (Men) (1) I, II
One lecture and two hours of laboratory.
Prerequisites: Physical Education 75 or demonstrated competency.
Strategy, tactics, rules, officiating, facilities, and organizational procedures in selected team sports. History and current role in the curricula.

176. Individual Sports (Men) (1) I, II
One lecture and two hours of laboratory.
Prerequisites: Physical Education 76A and 76B, or demonstrated competency.
Strategy, tactics, rules, officiating, facilities, and organizational procedures in selected individual sports. History and current role in the curricula.

177. Physical Fitness (Men) (1) I, II
One lecture and two hours of laboratory.
Prerequisite: A conditioning course in the required program, or demonstrated competency.
Skills, movements, facilities, and organizational procedures in physical fitness programs. History and current role in the curricula.

178. Workshop in Physical Education (1-2)
Methods, techniques and development of skills in such areas as aquatics, combatives, gymnastics, rhythms and dance, and individual and team sports. Designed for secondary school administrators, teachers, coaches, recreation and youth leaders. May be repeated for a total of six units.

179. Supervised Field Experience (1-3) I, II
Prerequisites: Senior standing and consent of the department chairman.
Supervised practical experience in physical education.

181. History and Philosophy of Dance (2) II
(Offered in alternate years)
Survey of the cultural background of all forms of dance in various civilizations with emphasis on the relationship of the social structure to the existing dance forms.

182A. Dance Composition (Preclassical Forms) (3) I
(Offered in alternate years)
Two lectures and three hours of laboratory.
Prerequisites: Physical Education 54 and 82.
Compositions based on a study of preclassical dance forms as a contribution to form in contemporary dance. Study of the music of the period. Critical evaluation of group and individual compositions.

182B. Dance Composition (Modern Forms) (3) II
(Offered in alternate years)
Two lectures, three hours of laboratory.
Prerequisites: Physical Education 54 and 82.
Compositions related to contemporary art forms emphasizing the interaction of form and content in the creative idea. The temporal, spatial, dynamic, and dramatic elements of choreography.

183. Dance Production (3) II
Lecture-demonstration, recital, and concert forms of dance programs. Presentation and staging of original solo and group compositions.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of special study adviser.

GRADUATE COURSES

200. Seminar (3)
An intensive study in advanced physical education, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

201. Curriculum in Physical Education (3)
Prerequisite: Major or minor in physical education, or equivalent.
Analysis of current curricula in physical education. Special emphasis on curriculum construction and evaluation.

202. Administration of Physical Education in the Secondary Schools (3)
Prerequisite: Major or minor in physical education, or equivalent.
Topics include personnel problems, selection and maintenance of equipment and facilities, program organization and evaluation, budget, and related items.

203. History and Philosophy of Physical Education (3)
Prerequisite: Major or minor in physical education.
The historical and philosophical forces guiding the development of physical education from ancient to modern times.

204. Problems in Recreation (3)
(Same course as Recreation 204)
A survey of current problems facing the recreation profession, through a review of literature, discussion of trends, and observation of school and community situations. Analysis and evaluation of actual problems. Written reports required.

205. Current Trends and Issues in Physical Education (3)
A critical appraisal of current trends and issues. Investigation and analysis of professional literature. (Formerly Physical Education 203, Problems in Physical Education.)
Physical Education

206. Seminar in Competitive Athletics for Men (3)
Prerequisite: Major or minor in physical education or recreation.
Knowledge and appreciation of the skills, techniques, and teaching methods involved with the coaching of athletics; the study of possible solutions to problems associated with the program of competitive school athletics.

207. Advanced Kinesiology and Biomechanics (3)
Prerequisites: Zoology 8, 22, and Physical Education 167.

208. Advanced Physiology of Exercise (3)
Prerequisites: Zoology 8 and 22, Physical Education 167 and 168.
Advanced aspects of the physiology of exercise. Effects of exercise on human beings in relations to health, longevity, morphology, and performance.

209. Advanced Adapted Activities (3)
Prerequisites: Zoology 8 and 22, Physical Education 167 and 169.
Postural divergencies, lack of physical development, physical handicaps, and special programs. Individual exercise programs. Preventive and corrective exercises. Functional examinations and the physician’s report. Ethical procedures and limitations.

210. Seminar in Facilities for Physical Education (3)
Prerequisite: Major or minor in physical education or recreation.
Individual study of problems related to the planning, development and maintenance of physical education and athletics facilities.

211. Advanced Evolution in Physical Education (3)
Prerequisite: Physical Education 162.
Methods, statistical techniques, and apparatus used in testing physical performance. Sources of error, limitations on application and interpretation. Practice in construction and use of tests.

213. Problems in Women’s Physical Education (3)
Prerequisite: Major or minor in physical education.
An intensive study of selected areas of the women’s physical education program.

214. Seminar in Dance Programs (3)
Prerequisite: Major or minor in dance or physical education.
Procedures and evaluation of all forms of educational dance with implications for curriculum planning. Lectures and research. Completion of written project.

220. Principles of Neuromuscular Tension (3)
Prerequisites: Physical Education 167.
Theories underlying the causes of muscular hypertension and the application of hypokinetic principles in daily living.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department special study adviser and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master’s degree.

Physical Science

PHYSICAL SCIENCE

IN THE DIVISION OF THE PHYSICAL SCIENCES

Faculty
Professors: Merzbacher (Chairman), Stewart, P.
Associate Professor: Nelson, B.
Assistant Professors: Howard, F., Turner, G. D.
Lecturers: Marion, Sadowski

Offered by the Department
Master of Arts degree in the physical sciences for teaching service. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in physical science with the A.B. degree in applied arts and sciences for students admitted to Teacher Education. (Described in the section on Applied Arts and Sciences.)

For teaching majors and minors, refer to the section on the School of Education.

COURSES IN PHYSICAL SCIENCE

The courses listed below are designed to explore critically topics and concepts in the physical sciences selected for their challenge and significance, and presented in terms of their historical and intellectual development. These courses are important to all students in major fields who seek to broaden and deepen their comprehension of the theoretical as well as the empirical aspects of science, especially as related to their own field of specialization and to contemporary problems and endeavors. This approach to the fundamentals of science is not emphasized elsewhere.

LOWER DIVISION COURSES

1. Principles of Physical Science (3) I, II
Not open to students with credit for or concurrent registration in Physical Science 5 or any college lecture course in physics or astronomy.
The nature of the physical universe with emphasis on the whole field of physical science rather than on its separate divisions. May be followed by or, preferably, taken with Physical Science 3 for laboratory credit in natural science.

2. Principles of Physical Science (3) I, II
Not open to students with credit for or concurrent registration in Physical Science 5 or any college lecture course in chemistry or geology.
A continuation of Physical Science 1, which course is recommended but not a required prerequisite. May be followed by or, preferably, taken with Physical Science 4 for laboratory credit in natural science.

3. Experimental Methods in Physical Science (1) I, II
Three hours of laboratory.
Prerequisite: Credit for or concurrent registration in Physical Science 1.
Methods in physical science as illustrated by the use of significant examples from the various disciplines. The technique of observation, measurement, and discovery in the natural science area.

4. Experimental Methods in Physical Science (1) I, II
Three hours of laboratory.
Prerequisite: Credit for or concurrent registration in Physical Science 2.
A continuation of Physical Science 3. Fulfills the general education laboratory requirement in the natural science area.
5. Fundamentals of Physical Science (3) I, II
Not open to students with credit for or concurrent registration in a college lecture course in astronomy, chemistry, geology, physics, or physical science.
Topics selected from Physical Science 1 and 2 to give a single course for the benefit of those students intending to take only one semester of physical science.

UPPER DIVISION COURSES

110. Physical Oceanography (3)
Prerequisite: Physical Science 1.
Physical aspects of tides, waves, and currents.

120. Physical Science for Elementary Teachers (3) II, Summer
An integrated study of the physical sciences for teachers in order to provide a broad background of information, a consideration of current developments, and an opportunity for individualized work. Enrollment limited to those in training for or engaged in teaching in the elementary schools.

130. Modern Physical Science (3) II
Recent and current developments in the physical sciences. Discussions concerning such phenomena as radioactivity, cosmic rays, nuclear energy, tracer techniques, radio telescope, supergalaxies. Not open for credit to physics majors.

1405. Contemporary Problems in Physical Science (1) Summer
A series of six weekly lectures on varied aspects of physical science. Reading and reports required of students enrolled for credit. May be repeated to a total of three units. These lectures are open to the public.

150. Readings in Physical Science (3) I
Reading of selected materials with informal class discussion of topics. Emphasis on the historical background, the philosophical implications, and the impact of science on thought and culture.

160. The Development of Scientific Thought (3) I
Prerequisites: Six units from astronomy, chemistry, geology, physical science, or physics; and Mathematics 21 or equivalent.
Basic scientific concepts and their historical development with emphasis on the problem of theory construction. The relationship between disciplined imagination and observational fact, as illustrated by selected case histories. Limitations of scientific inquiry.

170A-170B. Theoretical Oceanography (3-3)
Prerequisites for 170A: Mathematics 52 and Physics 4C. Prerequisite for 170B: 170A.
The application of hydrodynamics and thermodynamics to the system composed of the atmosphere and the oceans.

196. Advanced Physical Science (1-3) I, II
Prerequisite: Consent of instructor.
Selected topics in classical and modern physical science. May be repeated for additional credit with new subject matter for a total of six units.

199. Special Study (1-6) I, II
Prerequisite: Consent of instructor.
Individual study for laboratory work on a special problem in physical science selected by the student.

GRADUATE COURSES

200. Seminar (3 or 3)
An intensive study in advanced physical science, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

299. Thesis or Project (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis in one of the physical sciences for the master's degree.
73. Introductory Electronics (3) I, II
Prerequisite: Physics 4B.
A qualitative study of electron tubes and electronic systems. Not open to students with credit in Physics 103.

UPPER DIVISION COURSES

101. Modern Physics (3) I, II
Prerequisite: Physics 4C.
Modern developments in physics, including an introduction to the quantum and relativity theories, and to the fields of atomic, nuclear and solid state physics.

103. Basic Electronics (3) I, II
Prerequisites: Physics 4C, or 2B and 3B and a working knowledge of the calculus.
A qualitative study of electron tubes and electronic systems. Not open to students with credit in Physics 73.

105. Analytical Mechanics (3) I, II
Prerequisites: Physics 4C and Mathematics 119.
Principles of Newtonian mechanics developed through the use of vector methods. Statics and dynamics of particles and rigid bodies.

106. Optics (3)
Prerequisites: Physics 4C, or Physics 2B and 3B.
A study of reflection, refraction, dispersion, interference, diffraction, double refraction and polarization, with applications to optical instruments. Also wave propagation, radiation, spectra and the nature of light.

110. Electricity and Magnetism (3) I, II
Prerequisites: Physics 4C, 73, and concurrent registration in Mathematics 119, or consent of instructor.
Analysis of direct and alternating current circuits using the operator "i" and circuit theorems; introduction to coupled circuits, resonance and transients. Electrostatics, dielectrics and conductors. Chemical, photo and thermal effects. Electromagnetism, and magnetic properties.

112. Thermodynamics and Kinetic Theory (3) I, II
Prerequisites: Physics 4C and Mathematics 52.
Thermal properties of matter, laws of thermodynamics, kinetic theory of gases, and an introduction to statistical mechanics.

114. Acoustics (3) I
Prerequisites: Physics 73, 105, and 110.

120A-120B. Advanced Physical Measurements (2-2)
Six hours of laboratory.
Prerequisites: Physics 4C and either 73 or 103.
A year course stressing laboratory experiments and measurements chosen from all the major areas of physics.

121. Radiation Physics (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Physics 2A, 2B, 3A, and 3B.
X-rays, radioactivity, interactions of radiations with matter, and methods of measurement. May not be used in the physics major. Not open to students with credit in Physics 101.

122. Senior Physics Laboratory (2) I, II
Six hours of laboratory.
Prerequisite: Physics 120B.
Advanced experimental measurements in the fields of classical and modern physics, in one of the following areas: acoustics, nuclear physics, heat and thermodynamics, advanced electronics, electricity and magnetism, microwaves, solid state physics, and analog computers. Combinations of two areas in one semester may be taken with consent of the instructor. May be repeated with new material to a maximum of four units.

131. Astronautics (2) I
Prerequisites: Mathematics 119 and Physics 105.
Applications of celestial mechanics to space flight with particular emphasis on the effect of velocity changes or errors on the vehicle orbit. Analysis of slow and fast energy transfer with tangential or intersecting departure and arrival.

133. Concepts of Physics (4) I
Three lectures and three hours of laboratory.
Prerequisites: Mathematics 51 and Physics 2A-2B-3A-3B, with grades of C or better.
Unifying concepts of physics; conservation of momentum and energy, wave-particle models, conservative fields, relativity, and statistical physics.

135A-135B-135C. PSSC Physics (2-2-2)
One lecture and three hours of laboratory.
Prerequisites: Physics 2A-2B and 3A-3B.
A new approach to the study of major concepts of physics. Designed for those who plan to teach science. The course is based on test and laboratory materials prepared by the Physical Science Study Committee.

148. Nuclear Physics Laboratory (3) II
One lecture and six hours of laboratory.
Prerequisite: Physics 120B.
Techniques and instrumentation for the detection, identification and measurement of the properties of nuclear radiations and particles, and their use in the study of nuclear reactions.

151. Nuclear Physics (3) I, II
Prerequisites: Physics 112 and 190.
Nuclear phenomena; theory of the nucleus, cosmic rays, and high-energy reactions of particles.

152. Transients in Linear Systems (3) I
Prerequisites: Physics 110 and Mathematics 119.
Formulation and solution of equations of behavior of linear electrical and mechanical systems by the Laplace-transform method. Applications of the transform method to lumped parameter systems.

153. Servo-System Design (3) II
Prerequisites: Physics 73 and 152.
Regulatory systems, including servomechanisms by the Laplace Transform design.

155. Analog Computers (3) II
Prerequisites: Physics 73, Mathematics 119, and 170.
Electronic integration and differentiation; solution of differential equations; multiplication, division and function generation; simulation of mechanical systems using large installations.
156. Digital Computers (3) I
Prerequisites: Physics 73, Mathematics 7, 119, and 170.
The binary number system; electronic and magnetic flip-flop circuits; memory devices; programming; complete computer systems. Auxiliary equipment for inserting information and reading out results rapidly. Typical applications and limitations.

160. Circuit Analysis (3) I, II
Prerequisites: Physics 73 and 110.
Filter design, transmission lines, and network analysis.

163. Electronics Laboratory (2) I, II
One lecture and three hours of laboratory.
Prerequisites: Physics 120B and concurrent registration in Physics 173A.
Dynamic tube and transistor characteristics, cathode ray oscillograph. One stage RC amplifier. One stage and multistage amplifiers including feedback. Equivalent circuits.

166. Honors Course (Credit to be arranged) I, II
An individual study arrangement for students admitted to the Honors Program. Enrollment through the department chairman, subject to the approval by the Committee on Honors. Refer to the Honors Program.

167. Semiconductor Devices (3) I
Prerequisite: Physics 103.
Electrical conduction in solids; the Fermi function; semiconductor materials, contacts and junctions; diodes and transistors; circuits; other semiconductor devices.

170. Electromagnetic Theory (3) II
Prerequisites: Physics 110 and credit or concurrent registration in Mathematics 170.
Electrodynamics and magnetostatics treated by vector methods; Maxwell's equations, electromagnetic induction, radiation and wave propagation.

173A. Physical Electronics (3) I
Prerequisites: Physics 101, 110, 112, and Mathematics 170.
Conductors, Fermi model, thermionic, photoelectric, and field emission, contact potentials, space charge. Semiconductors, linear equivalent, circuits, elements of frequency and time domain analysis, linear feedback circuits.

173B. Physical Electronics (3) II
Prerequisites: Physics 160, 165, and 173A, each with a minimum grade of C.
Field approach to transmission lines, coaxial cables, wave guides, resonant cavities, sub-matching, radiation and antenna phenomena, interaction of fields and electronic beams and power extraction from fields.

175. Advanced Mechanics (2) I
Prerequisites: Physics 105 and Mathematics 119.
Special theory of relativity, generalized coordinates, Lagrangian and Hamiltonian formulations, normal coordinates and theory of vibrations.

180. Solid State Physics (3) II
Prerequisite: Physics 170.
Elastic, thermal, electric, magnetic and optical properties of solids. Introduction to the energy band theory of solids, with applications to dielectrics, semi-conductors, and metals.

190. Introductory Quantum Mechanics (3) I
Prerequisites: Physics 101, 105, 112, Mathematics 119 and 170.
The physical basis of the quantum theory and its mathematical formulation in terms of Schrödinger's wave equation.

196. Advanced Physics (2 or 3) I, II
Prerequisite: Consent of instructor.
Selected topics in classical and modern physics. May be repeated with the approval of the instructor for a total of six units.

198A. Senior Research (1) I, II
One discussion period and two additional hours per week to be arranged.
Prerequisite: Senior standing in physics and an acceptable master plan for graduation within one year. Selection and design of individual research project. Oral and written progress reports.

198B. Senior Research (2) I, II
Two discussion periods and four additional hours per week to be arranged.
Prerequisite: Physics 198A with grade of C or better. Laboratory work, progress reports, oral and written final reports.

199. Special Study (1-6) I, II
Individual study of laboratory work on a special problem in physics selected by the student. Each student will be assigned a member of the staff who will supervise his work. Credit, hours and topics to be arranged in each case. Six units maximum credit.

GRADUATE COURSES

200. Seminar (2 or 3)
Prerequisite: Consent of instructor.
An intensive study in advanced physics, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

205. Theoretical Mechanics (3)
Prerequisite: Physics 175.

210A-210B. Mathematics of Physics (3-3)
Prerequisites: Mathematics 119 and 170 or equivalent. Physics 210A is prerequisite to Physics 210B.
Selected topics from matrix theory, vector and tensor analysis, orthogonal function theory, calculus of variations and probability theory with particular emphasis on applications to physical theory.

214. Advanced Acoustics (2)
Prerequisite: Physics 114.

219. Statistical Mechanics (3)
Prerequisites: Physics 112, 175, and 190.

225. Microwaves (2)
Prerequisite: Physics 173B.
Generation and detection, propagation and attenuation in wave guides and ferromagnetic components. Nuclear resonance, radio and microwave spectroscopy, masers, atomic clock, radio astronomy.

231. Advanced Astronautics (2)
Prerequisite: Physics 131.
Special emphasis on perturbations due to inhomogeneity of the central force field.
Physics

240A-240B. Reactor Materials Technology (3-3)
Prerequisites: Physics 180, 190, and Chemistry 141.
A study of certain engineering, chemical, and nuclear properties of materials used in reactors, and of the influence of the reactor environment on these properties.

245A-245B. Reactor Theory (3-3)
Prerequisite: Physics 151 and 190.
Theory of chain reactions and their application to the operation of various types of reactors. Kinetics, theoretical design, and control of reactors in relation to the fundamental nuclear processes.

246. Problems in Reactor Design Parameters (3)
Concurrent registration in Physics 240B, 245B, and 248B required.
A combined seminar and group project course in which the class will be assigned a specific, detailed reactor problem. Subgroups will work on specific problems within the main reactor design problem.

248A-248B. Reactor Laboratory (2-2)
Prerequisites: Chemistry 141, Physics 148, and concurrent registration in Physics 248A-248B.
Measurement of the static and dynamic characteristics of a reactor. Reactor operation, reactor radiation, neutron flux properties and temperature effects. Use of the reactor as an experimental tool.

251. Nuclear Physics (3)
Prerequisites: Physics 171, 175, and 190.
Applications of quantum theory to nuclear physics. Theory of nuclear forces, nuclear reactions, interaction of radiation with matter, radioactivity, nuclear structure, and nuclear processes.

260. Advanced Electronics (3)
Prerequisite: Physics 173B.
Selected advanced topics in contemporary electronics.

261. Pulse and Digital Circuits (2)
Prerequisites: Physics 160 and 173B.
Analysis of multivibrators, time base generators, pulse transformers, blocking oscillators, delay lines, counting circuits, digital computer circuits, and transmission gates. Design of practical circuits.

270. Electromagnetic Theory (3)
Prerequisite: Physics 170.
Boundary value problems; time varying electric and magnetic fields; propagation of radiation; antennas, wave guides.

275. Quantum Mechanics (3)
Prerequisites: Physics 151, 175, and 190.

280. Theory of the Solid State (3)
Prerequisites: Physics 175, 180, and 190.
The energy band theory of solids, with applications to the electrical and optical properties of dielectrics, semi-conductors, and metals.

297. Research (Credit to be arranged)
Prerequisite: Consent of department chairman.
Research in one of the fields of physics. Maximum credit six units applicable on a master's degree.

Political Science

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis in physics for the master's degree.

POLITICAL SCIENCE

IN THE DIVISION OF THE SOCIAL SCIENCES

Faculty
Professors: Bigger, Generales, Jansen, Joy (Chairman), Leiffer, Nigro, Padgett, Willcox
Associate Professors: Crain, Feierabend, I., Gripp, Kubanis, Kitchen
Assistant Professors: Andrain, Dreyer, Haak, Hobbs, Johns, Kahng
Lecturers: Echanove, House, McDougall, Robertson, O. Z., Small, Smith, M. D., Swanson, Weiner, Whitney

Offered by the Department
Master of Arts degree with a major in political science; a Master of Arts degree for teaching service with a concentration in social science (political science); and a Master of Science degree in public administration. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in political science with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Major in public administration or in public personnel management with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Minor in political science or in public administration. (Described in the section on Minors for All Degrees.)
Certificate in Public Administration. (Described in the section on Applied Arts and Sciences under the major in Public Administration.)
For teaching majors and minors, refer to the section on the School of Education.

PROGRAMS FOR GOVERNMENTAL SERVICE
Students preparing to work in government service may wish to follow one of the programs named above, take minor work in political science or public administration, or advanced study for a master's degree. Also available is a program in Latin American Studies, offered by the Division of the Social Sciences.

GRADUATION REQUIREMENT IN AMERICAN INSTITUTIONS
The graduation requirement in American institutions, to include demonstration of competency in U.S. history, U.S. Constitution, and California government, may be met by satisfactory completion of appropriate tests and courses listed in one of the following groups:
(1) Political Science 1 and 2.
(2) Political Science 115 and 142 or 143 or 148.
(3) Political Science 127A and 127B plus approved tests or courses on United States history, institutions and ideals.
For further information on American Institutions, refer to the section of this catalog on Graduation Requirements.
LOWER DIVISION COURSES

1. Introduction to Political Science (3) I, II
Basic concepts of political science including an introduction to the scope of the discipline and representative methods of acquiring political knowledge. Illustrative materials drawn primarily from the American experience. Not open to students with credit in Political Science 90.
Completion of both Political Science 1 and 2 will meet all requirements in American Institutions. Students with credit in Political Science 71A or 71B may take Political Science 1 to complete the requirements in American Institutions.

2. Introduction to American Government and Politics (3) I, II
The origin and development, structure and operation of the government of the United States, national, state, and local. Not open to students with credit in Political Science 71A or 71B.
Completion of both Political Science 1 and 2 will meet all requirements in American Institutions. Political Science 2 will meet the requirements in U.S. Constitution and California government.

3. Introduction to Comparative Government (3) I, II
Analytical models and techniques for examination of the problems of decision-making and control in various political systems. Emphasis on patterns of political action in various cultural contexts. Not open to students with credit in Political Science 91.

UPPER DIVISION COURSES

Political Theory (Group I)

105. American Political Thought (3) I, II
A survey of the development of American ideas concerning political authority from the period of colonial foundation to the present time.

111A-111B. Theory of the State (3-3)
Prerequisite: Political Science 111A is prerequisite to 111B.
The nature of the State, its organization and activities, and its relation to the individual and other states.

112. Modern Political Thought (3) I, II
Concepts concerning the nature of the state from Burke to the present.

Politics (Group II)

115. American Institutions (3) I, II
The principles of the Constitution of the United States of America, and a survey of the political and social institutions which have developed under the Constitution. Meets the graduation requirement in the United States Constitution and California state and local government. When taken with Political Science 142 or 143 or 148, will also meet requirements in American history, institutions, and ideals. Not open to students with credit in Political Science 2 or 71A or 71B.

116. American National Government (3) I, II
Prerequisite: Political Science 71A or 2 or 115, or History 17A and 17B.
An intensive examination of the primary institutions of the national government. Critical analysis of changing aspects of traditional relationships among the president, Congress, and the judiciary.

120. Political Parties (3) I, II
A critical analysis of the political party as a part of the process of government; party organization and activities; nominating and campaign methods; theories and functions of the party system; party responsibility. Special emphasis will be placed upon the function of the two-party system in American government.

122. Propaganda and Public Opinion (3) I, II
(Same course as Journalism 122)
A study of the forces which mold the American public mind, the practice of propaganda, a description and analysis of public relations, pressure groups and their effect in American public life.

123-5. Contemporary American Politics (3) Summer
For consideration of a selected group of current major political problems in terms of their possible future implications and of their relationship to established American democratic principles and ideals.

124. Political Behavior (3)
Selected social and cultural factors affecting political behavior; role of groups in formation of political preference, participation, attitudes; voting behavior; emphasis on quantitative research data.

125. The Legislative Process (3) I, II
A detailed analysis of legislatures. Special attention will be devoted to the impact of dynamic factors on formal procedures.

127A-127B. Constitutional Government (3-3)
Modern government and politics; its theoretical foundations, institutions, and problems. Emphasis will be on American experience with useful comparisons with other countries. Either semester may be taken first. This year course meets the graduation requirement in the United States Constitution. The second semester course, 127B, also meets the graduation requirement in California state and local government.

128. Internship in Politics (3-6) I, II, Summer
Prerequisites: Political Science 120 and consent of instructor.
Students will be assigned selectively to functional areas of politics, such as political party headquarters, elective public offices and non-partisan political groups for work under the joint supervision of activity heads and the course instructor. Participation will include project and internship conferences.

Public Law (Group III)

136. Administrative Law (3) II
The law of public office and public officers, powers of administrative authorities, scope and limits of administrative powers, remedies against administrative action.

138. Introduction to Jurisprudence (3) I
The development of legal systems and theories of the function of law.

139A-139B. American Constitutional Law (3-3)
Prerequisite: Political Science 139A is prerequisite to 139B.
Principles of American Constitutional law. Includes judicial review, the federal system, the separation of powers, the nature of selected Constitutional powers, and the liberties protected by the Constitution against national and state action. Meets the graduation requirement in the United States Constitution.

Public Administration (Group IV)

140. Introduction to Public Administration (3)
Administration of public services; organization and procedure in theory and practice; dynamics of public management; politics and administration; responsible bureaucracy.

142. State Government (3) I, II
A study of the political structure and its operation used in the carrying on of the functions exercised by the state; state-federal relations; state-local government relations; particular emphasis on California government. This course meets the Political Science 115, will also meet requirements in American History, institutions, and ideals, and in the U.S. Constitution.
Political Science

143. Municipal and County Government (3) I, II
A study of the organization and its operation used to carry into effect the functions assigned to local governmental units, with particular emphasis upon local government in California. This course meets the graduation requirement in California state and local government. When taken with Political Science 115, will also meet requirements in American history, institutions, and ideals, and in the U.S. Constitution.

144. Introduction to Public Personnel Administration (3) I, II
Prerequisite: Consent of instructor.
An introduction to the field, giving general coverage of the problems involved in recruitment, placement, supervision, etc., of public employees.

145. Human Factors in Management (3) I, II
Prerequisite: Political Science 144.
Organizations as social systems; power and authority; communication, motivation and leadership; impacts of technology on management and workers, resistance to change; human needs and the imperatives of management. Not open to students with credit in Business Administration 145.

146. Wage and Salary Administration (3) I
Prerequisite: Political Science 144.
Major problems in the determination and control of compensation from employment. Comparison of underlying theory to current practice. Not open to students with credit in Business Administration 142.

147. Government and Public Policy (3)
Theory and practice of process of formulating public policy; roles of administrators, legislators, courts, interest groups, and political parties; public agencies and public interest; case studies in formulating public policies.

148. The Government of Metropolitan Areas (3) I, II
A study of the governmental problems of metropolitanism; overlapping of governments, services, planning and financing. The use of intergovernmental contracts for public service, proper public service areas, and special authorities. This course meets the graduation requirement in California state and local government. When taken with Political Science 115, will also meet requirements in American History, institutions, and ideals, and in the U.S. Constitution.

149. Comparative Public Administration (3)
Prerequisite: Political Science 140.
Administrative organization and process in selected foreign and American governments. Analysis of the cultural basis of administrative systems.

151. California Law of Municipal Corporations (2) II
California law governing the nature, regulation and control of the counties, charter cities, sixth class cities, school districts, and special districts. The creation, alteration, dissolution, legal actions by and against, powers and duties; rights and liabilities of local governments.

152. Administrative Management (3) I, II
Areas and problems of administrative research; methods of analyzing structures and procedures in organizations; planning and administration of programs; design of forms; job classification and salary surveys; preparation of administrative reports.

153. Case Studies in Public Administration (3) I, II
Prerequisite: One course in public administration or consent of instructor.
Analysis, by case studies, of management problems in public agencies and the organization and methods techniques used to solve them. Practical limitations upon the use of these techniques.

157. Public Relations of Public Agencies (3)
Prerequisite: Political Science 140.

160. Principles of Planning (3) I, II
An introduction to community planning: regional, county, and city. Consideration of the Master Plan, including its purposes, contents, and method of adoption.

161. Field Studies in Government (3) II, Summer
Prerequisite: Consent of instructor.
Study of organization, policies and functions of selected government agencies. Discussion by responsible officers and inspection of work operations and facilities in management, public safety, public works and utilities, and other major government operations.

162. Finance Administration (3) I
Principles and practices studied from the administrator's viewpoint. Problems of revenue, debt and treasury management, current and capital budget preparation and administration; purchasing and stores supervision; accounting and control and financial reporting.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

165. Dynamics of Modern International Crises (3)
Prerequisite: Consent of instructor.
The determination and analysis of facts surrounding international crises since World War II; the evaluation of these crises and their effects upon external policies of the United States and the operations of the United Nations.

168-9. Institute on World Affairs (3) Summer
Contemporary problems in international relations. May be repeated once for course credit with permission of the instructor.

170A-170B. International Relations (3-3)
A historical and analytical consideration of the basic factors—historic, geographic, economic, ideologic, and strategic—which underlie and condition the modern conflict between the "sovereign state" and the "community of nations." Fall semester: Origins and development through the nineteenth century. Spring semester: Twentieth century experimentation and conflict.

171. The Conduct of American Foreign Relations (3) II
An examination of the legal, administrative, and political organizations by which American foreign policies are formulated and implemented.

172. International Organization (3) I
A critical analysis of the organization by which the international community seeks to provide for the exercise of legislative, administrative and judicial functions through commissions and unions; amicable procedures for settlement of disputes; the League of Nations-United Nations experiment.

173. Principles of International Law (3) I
The functions of law in the international community. The historical development of the ideas and rules of international law and their place in the modern diplomatic and legal structure.

174. National Security Policy (3)
Objectives, instruments, and consequences of national security policy.
175. International Relations of the Latin American States (3) II
The foreign policies of the Latin American states, the organization of American states, relationships with the United Nations and with the United States.

Comparative Government (Group VI)

180. Government of England (3) I
The structure and functioning of the English parliamentary system with emphasis upon present day political principles and parties.

181. Government of the Soviet Union (3) I
Theoretical and practical government in the Soviet Union, with some attention to foreign affairs.

182. Political Systems of South America (3)
Government and politics of selected South American countries. Values, governmental institutions and patterns of political activity which condition domestic and foreign policy.

183. Governments and Politics of South and Southeast Asia (3)
The internal political systems and foreign policies of India, Pakistan, Thailand, and Indo-chinese area, Indonesia, and the Philippines.

184. The Mexican Political System (3)
Principal factors in Mexican governmental decision-making. Ideology, political groups, tactics of leaders and governmental structure.

185. Governments of Continental Europe (3) I, II
An analysis of the political systems of the countries of western continental Europe.

186. Comparative Communist Governments (3) I, II
A survey of the interrelations between the theory and practice of modern communism as found in representative communist systems.

187. Governments and Politics of the Far East (3)
The internal political structure and foreign policies of China, Japan, and Korea.

188. Governments and Politics of the African States (3) II
Domestic and international politics of specific African states.

189. Government and Politics of the Middle East (3) I, II
Survey of the governmental and political structures of representative states in the Middle East, including Turkey, Israel, and the Arab states.

190. Comparative Political Systems (3) I, II
Prerequisite: Political Science 3.
An examination of selected political and governmental systems for purposes of comparative study and analysis to determine similarities, differences, and general patterns and universals among political systems.

191. Governments and Politics of the Developing Areas (3) I, II
Domestic political systems, governmental structures, and the foreign policies of developing nations.

192. Political Change in Contemporary Africa (3) I
General patterns of nationalism in Africa south of the Sahara. Theories of social change and general features of contemporary African political development.

194.5. Institute of Public Affairs (1-3) Summer
Study of selected phases of American or Comparative Government. May be repeated to a maximum of six units of course credit with new content and consent of instructor.

197. Investigation and Report (3) I, II
Analysis of special topics. Admission by permission of instructor.

198. Internship in Public Administration (2-6) I, II
Prerequisite: Consent of instructor.
Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

EXTENSION COURSE

X-141. Studies in Public Administration (1 to 3)
Analysis of selected administrative processes and problems of governmental agencies, their legal and political relations to other agencies and to the public. May be repeated with new content and consent of instructor.

GRADUATE COURSES

200. The Scope and Method of Political Science (3)
The discipline of political science and systematic training in its methodology. Required of all applicants for advanced degrees in political science.

210. Seminar in Political Theory (3)
May be repeated with new content to a maximum of six units with consent of graduate adviser.

215. Seminar in American National Government (3)
May be repeated with new content to a maximum of six units with consent of graduate adviser.

220. Seminar in Politics (3)
May be repeated with new content to a maximum of six units with consent of graduate adviser.

230. Seminar in Public Law (3)
May be repeated with new content to a maximum of six units with consent of graduate adviser.

240. Seminar in Public Administration (3)
May be repeated with new content to a maximum of six units with consent of graduate adviser.

241. Seminar in Public Personnel Administration (3)
Prerequisite: Political Science 144.
Analysis of special problems of public service recruitment; recent developments in government pay administration, planning administration, and evaluation of executive development and other training programs; collective bargaining in government, construction and administration of tests; evaluation of total personnel program.

242. Seminar in Public Administration in Developing Nations (3)
Prerequisite: Political Science 140.
Selected problems in administration of economic and technical assistance programs; problems of administration in developing areas.

249. Seminar in Comparative Administration (3)
Prerequisite: Political Science 140.
Selected problems in administration, organization, and processes of foreign and international governments. May be repeated with new content to a maximum of six units with consent of graduate adviser.

250. Seminar in Local Government (3)
Selected problems of state and local government and inter-governmental relations. May be repeated with new content to a maximum of six units with consent of graduate adviser.
260. Planning and Public Policy (3)
Prerequisites: Appropriate undergraduate courses in planning, political science, or related fields.
Relationship of the planning process to governmental policies and administration. Examination of social, political, and administrative problems involved in planning governmental programs and community facilities.

270. Seminar in International Relations (3)
May be repeated with new content to a maximum of six units with consent of graduate adviser.

272. Seminar in International Organization (3)
Prerequisite: Political Science 172. Analysis of selected problems of international organization with special reference to those of the United Nations. Oral and written reports.

280. Seminar in Comparative Government (3)
May be repeated with new content to a maximum of six units with consent of graduate adviser.

290. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master’s project or thesis.

291. Problem Analysis (3)

296. Internship in Public Administration (1-6)
Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Admission by consent of instructor.

298. Special Study (1-6)
Individual study. Six units maximum credit. Prerequisite: Consent of staff; to be arranged with the department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy. Guidance in the preparation of a project or thesis for the master’s degree.

PORTUGUESE

IN THE DIVISION OF THE HUMANITIES

Faculty
Associate Professor: Freitas
Assistant Professor: Head

Offered by the Department of Spanish and Portuguese
Courses in Portuguese.
Major or minor work is not offered.

UPPER DIVISION COURSES

131. Portuguese (3) I
Prerequisites: 22 units of college Spanish, including Spanish 101A and 101B.
An accelerated course covering various aspects of the language and literature of the Portuguese world.

132. Portuguese (3) II
Prerequisite: Portuguese 131.
Continuation of Portuguese 131.
Psychology

50. Introduction to Physiological Psychology (3) I, II
Prerequisite: Psychology 1.
Physiological mechanisms underlying the psychological phenomena of sensation, perception, emotion, motivation, learning and psychosomatic disorders.

70. Statistical Methods in Psychology (3) I, II
Prerequisite: Psychology 1 and Mathematics 3 or 18 or a higher numbered mathematics course.
An introduction to the use of quantitative methods in psychology, with emphasis upon measures of central tendency and variability, graphic methods and percentiles, linear correlation, and the applications of the normal probability curve. Not open to students with credit for another course in statistics.

UPPER DIVISION COURSES

105. Psychological Testing (3) I, II
Prerequisite: One of the following courses: Psychology 70, Education 120, 151, or 152, or a semester of statistical methods in any other department.
The basic principles of testing. The selection and critical evaluation of group tests of intelligence, personality, aptitude, interest and achievement.

106. Developmental Psychology (3) I, II
Prerequisite: Psychology 1.
A study of the psychological development of the normal individual from conception through childhood, adolescence, maturity, and old age. Stress is laid upon the interdependence of the various periods of the individual's life.

107. Psychology of Later Maturity (3) II
Prerequisite: Psychology 1.
The psychological, physiological, and sociological factors influencing behavior in the later years of life.

109. Mental Deficiency (3) I, II
Prerequisite: One of the following: Psychology 105, Education 110, 112, or 113, or equivalents.
The nature and causes of mental retardation, including the psychological effects of brain injury. Characteristics of the mentally defective.

110. Introduction to Experimental Psychology (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Psychology 40, 50, and 70.
Lectures and experiments emphasizing understanding of experimental design, quantitative methods, and experimental reports as they are applied to all areas of psychology.

111. Experimental Psychology: Learning and Perception (4) I
Two lectures and six hours of laboratory.
Prerequisite: Psychology 110.
Survey of the experimental literature, assigned and original laboratory projects in the fields of learning and perception.

112. Experimental Psychology: Personality and Social Behavior (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: Psychology 110.
Survey of the experimental literature, assigned and original laboratory projects in the fields of personality and social behavior.

113. Experimental Psychology: Comparative and Physiological (4) II
Two lectures and six hours of laboratory.
Prerequisite: Psychology 110.
Survey of the experimental literature, assigned and original laboratory projects in the fields of comparative and physiological psychology.

121. Personnel and Industrial Psychology (3) I, II
Prerequisite: Psychology 70 or statistics in another field.
Psychological principles applied to problems of selection and assignment of industrial personnel, employee training, and fatigue.

122. Public Opinion Measurement (3) I
(Same course as Journalism 122)
The history, methods, and problems of public opinion and attitude measurement. Emphasis will be placed upon the polling of consumers and voters. Students will be given field experience.

123. Organizational Psychology (3) I, II
Prerequisite: Six units of psychology and consent of instructor.
The interplay of men and organizations. Psychological literature of the individual and his motivation to work, working in groups, industrial organizations, communications and conflict in industrial organizations.

124. Engineering Psychology (3) II
Two lectures and three hours of laboratory.
Prerequisites: Psychology 1 and upper division standing.
Psychological problems of man-machine systems. Visual, auditory, and other sensory factors involved in the inter-relations between man and machines. Motion study, work arrangement, fatigue, and environmental influences in relation to production.

131. Psychology of Personality (3) I, II
Prerequisite: Psychology 1.
The principles of personality and their application to problems of adaptation and mental hygiene.

133. Principles of Interviewing (3) I, II
Prerequisite: Six units of psychology. Recommended: Psychology 12 or 131.
Psychological factors in interviewing; interviewing techniques. Supervised practice in interviewing for purposes of personnel appraisal and development.

141. Neural Bases of Behavior (3) I
Two lectures and two hours of activity periods.
Prerequisites: Psychology 40 and 50; or nine units in biological sciences.
Elements of neuropsychology, with particular attention to the psycho-physiology of sensory mechanisms and motor systems.

142. Physiological Psychology (3) II
Two lectures and two hours of activity periods.
Prerequisites: Psychology 40 and 50 and three hours of biology; or nine hours of biology.
The neurophysiology of emotion, sleep, bodily needs, instinctive patterns of behavior, and of learning; brain and behavior disorders.

145. Social Psychology (3) I, II
Prerequisite: Psychology 1.
The major problems and findings concerning group behavior and group membership, the socialization of the individual, and processes of social interaction. Not open to students with credit in Sociology 140.

150. Abnormal Psychology (3) I, II
Prerequisite: Six units of psychology.
The psychology of behavior disorders, with emphasis on the amnesias, neuroses, and psychoses.
Psychology

151. Introduction to Clinical Appraisal (3) I, II
Prerequisites: Psychology 105 and 150, or Education 170 plus Education 151 or 152 or 120, and one additional course in psychology selected from the following: Psychology 107, 108, 121, 142, or 150.
A study of diagnostic devices in psychology, tests of clinical significance, ratings, and interviewing. Projective and case study; analyses, problems of insight, rapport, empathy, and prediction of individual behavior.

152. Introduction to Methods of Counseling (3) I, II
Two lectures and two hours of activity periods.
Prerequisites: Senior standing in psychology or prescholar work, and consent of instructor.
An introduction to problems and methods of counseling and adjustment. The utilization of psychological principles and techniques in dealing with various types of guidance situations. Not open to students with credit in Psychology 233 or Education 233.

153. Advanced Abnormal Psychology (3)
Prerequisite: Psychology 150.
An intensive study and evaluation of research methodology and current literature concerning the neuroses, psychoses, aphasia, ataxia, mental defect, and psycho-pharmacology.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

170. Advanced Statistics (3) I, II
Prerequisite: Psychology 70.
A further study of quantitative methods in psychology with particular emphasis on methods of correlation, chi-square, and contingency, and an introduction to the analysis of variance.

175. Theories of Learning (3) II
Prerequisites: Psychology 1, 40, 50, and 70.
A critical study of the facts, principles, and major theories of learning.

176. Principles and Practice of Personnel Training (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Psychology 121, 175, and consent of instructor.
Techniques and apparatus appropriate for training of personnel. Supervised practice in analyzing training needs, designing required terminal behavior, devising a training technique, writing and validating a training aid.

177. History of Psychology (3) II
Limited to psychology majors with senior standing and to graduate students.
A survey of the historical background of modern psychology.

178. Theories of Personality (3) I, II
Prerequisite: Major in psychology with senior or graduate standing.
Integration of the findings from perception, learning, motivation, and from physiological and social psychology through a systematic treatment of personality theories and of related experimental data.

179. Philosophical Issues in Psychology (3) II
Prerequisite: Twelve units in psychology.
Modern empiricism and the philosophy of science as related to issues in contemporary psychology.

180-S. Contemporary Problems in Psychology (1) Summer
Lectures open to the public.
Enrollment for credit limited to upper division and graduate majors in psychology; or consent of instructor.
A series of six weekly lectures by visiting psychologists on subjects related to current research problems. Reading and reports required of students enrolled for credit.

197. Senior Project (1-6) I, II
Prerequisite: Twelve units in psychology and consent of instructor.
An individual investigation and report on a research project. May be repeated to a maximum of six units.

199. Special Study (1-6) I, II
Individual study, including library or laboratory research and a written report.
Six units maximum credit.
Prerequisite: 24 upper division units of psychology or consent of instructor.

GRADUATE COURSES

200. Seminar (3)
Prerequisite: 24 upper division units of psychology or consent of instructor.
An intensive study in advanced psychology, topic to be announced in the class schedule. Maximum credit six units applicable on a master's degree.

201. Seminar (3)
Prerequisites: 24 units in psychology, which may include educational psychology courses in the Education Department.
A review, integration, and supplementation of the student's knowledge of psychology.

202A-202B. Contemporary Psychology (3-3)
Prerequisite: Bachelor's degree in psychology.
A comprehensive survey of contemporary literature in psychology, dealing with recent developments in the areas of learning and motivation, perception, psychophysiology, personality and psychodynamics, social behavior, and experimental inference.

204. Individual Psychological Testing (4)
Two lecture and six hours of laboratory.
Prerequisites: Psychology 70 and 106.
Principles of individual testing. Instruction and practice in the administration and scoring of the Stanford-Binet, Wechsler scales, and some similar tests.

205. Advanced Mental Testing (4)
Two lectures and six hours of laboratory.
Prerequisites: Psychology 151 and 204.
The theory of mental testing and a comprehensive survey of various verbal and nonverbal individual mental tests. Supervised administration, scoring and interpretation of some individual psychological tests. Tests other than the Wechsler scales and the Stanford-Binet are stressed.

211. Advanced Clinical Psychology (3)
Two hours of lecture and three hours of laboratory.
Prerequisites: Psychology 151, 152, and 204.
Seminars integrating psychological, testing, counseling, and clinical research. Includes supervised laboratory experience in counseling and in integrating data involved in clinical cases.

220. Seminar in Human Relations in Industry (3)
Prerequisite: Psychology 121 or Business Administration 145.
Applications of psychological principles and methods of investigation to problems of industrial relations and motivation of employees; factors influencing morale and management relationships and leadership.

221. Seminar in Problems in Social Psychology (3)
Prerequisites: Psychology 145, 110, and 175, or consent of instructor.
Factors influencing the formation of attitudes, opinions, and stereotypes; the establishment of roles during socialization of the individual; social crises, change, and resistance to change; the causes and alleviation of interpersonal conflict.
222. Seminar in Theoretical Psychology (3)
Prerequisites: Psychology 175 and 178.
Basic concepts and principles integrating information in the areas of learning, emotion, motivation, personality, and social interaction. Relationships of scientific methods to the formulation and testing of hypotheses and other conceptualizations.

223. Experimental Design (3)
Prerequisites: Psychology 170 and 110.
Principles and methods of planning and carrying out systematic investigations to answer questions concerning human behavior with stress on the interdependence of experimental design and statistical evaluation of results. Practice in formulation of testable hypotheses, techniques of equating groups, solution of sampling problems, and interpretation of results.

224. Advanced Experimental (3)
One lecture and six hours of laboratory.
Prerequisites: Psychology 223.
Methods, techniques, and apparatus applicable to questions of various types. Special attention is given to sources of error, limitations on interpretation, and psychophysical methods. Students will design and carry out experiments in preparation for original independent investigations.

225. Principles of Test Construction (3)
Prerequisites: Psychology 170 and 107.
Detailed consideration of adequate sampling techniques, item construction, item analysis, determination and enhancement of reliability and validity of tests.

231. Seminar in Ethology and Comparative Psychology (2)
(Same course as Biology 231)
Prerequisites: Psychology 113 or Biology 110, or consent of instructor.
A seminar in the types of species, specific behavior patterns and their function in the living system of animals. May be repeated with new content to a total of four units.

232. Counseling and Psychotherapy Laboratory (4)
Two lectures and six hours of laboratory.
Prerequisites: Psychology 110, 151, 152, 175, and 178, or consent of instructor.
Supervised research and practice in interpersonal encounter, with emphasis on the attainment of personality change.

234. Projective Psychology (3)
Prerequisites: Psychology 151, 178, and 204.
Introduction to the theory and principles underlying use of projective techniques by clinical psychologists; a review of the structure and dynamics of personality as interpreted by projective devices.

235. The Rorschach Method (3)
Prerequisite: Psychology 234.
A seminar and practicum in basic administration and scoring of the Rorschach Test, with critical appraisal of the problems involved in estimations of reliability and validity of this technique.

236. Interpretation of Projective Materials (3)
Prerequisite: Psychology 235.
A seminar in the clinical interpretation of the Rorschach Test, the Thematic Apperception Test, and other projective devices, with critical emphasis on methods of research and validation. Not acceptable for credit toward the M.S. degree in psychology.

290. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.
150. Recreation in Medical Settings (3) I
Recreational activities as a means of rehabilitation. Modification of activities to meet the needs of the mentally retarded, physically and emotionally ill, and the handicapped. Designed for social workers, nurses, therapists and special education teachers.

165. Administration of Community Recreation (3) II
Prerequisite: Recreation 60.
Principles of organization and administration of leisure time agencies. Executive functions and problems; financing and budgets; administration of areas and facilities; inter-agency relationships; recruitment, training, supervision, and evaluation of part-time and volunteer staff.

166. Honors Course I, II (Credit to be arranged)
Refer to the Honors Program.

170. Recreation Leadership (2)
One lecture and three hours of laboratory.
Principles and practices of recreational leadership. Practice in planning and conducting programs in social recreation, dramatics, music, and simple handicrafts.

184. Field Work in Recreation (3)
For recreation majors and minors only. Observation and participation in supervised group activities in the field. Practical experience in the various public and semi-public community recreation agencies. May be repeated for a maximum of six units credit.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit. Prerequisite: Consent of special study adviser.

GRADUATE COURSES

204. Problems in Recreation (3) (Alternate years)
(Same course as Physical Education 204)
A survey of current problems facing the recreation profession, a review of literature, discussion of trends and observation of school situations together with the analysis and evaluation of actual problems. Written reports are required.

205. Park Management (3) (Alternate years)
Prerequisite: Recreation 165.

RUSSIAN

IN THE DIVISION OF THE HUMANITIES

Faculty
Assistant Professors: Dukas, Kozlik
Lecturer: Kytasty

Offered by the Department of German and Russian
Major in Russian with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in Russian. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

HIGH SCHOOL EQUIVALENTS

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

The first two years of high school Russian may be counted as the equivalent of Russian 1; three years the equivalent of Russian 2; and four years the equivalent of Russian 3. The last year-course taken by a student in the high school language sequence may be repeated in college for graduation credit, not to exceed four units of repeated foreign language work.

LOWER DIVISION COURSES

1. Elementary (4) I, II
Four lectures and one hour of laboratory. Pronunciation, oral practice, reading in Russian literature, minimum essentials of grammar.

2. Elementary (4) I, II
Four lectures and one hour of laboratory. Prerequisite: Russian 1. Continuation of Russian 1.

3. Intermediate (4) I, II
Prerequisite: Russian 2 or three years of high school Russian. A practical application of the fundamental principles of grammar. Reading in Russian of cultural material, short stories, novels or plays; oral practice, outside reading with oral and written reports.

4. Intermediate (4) I, II
Prerequisite: Russian 3. Continuation of Russian 3.

10. Conversation (2) I, II
Prerequisite: Russian 2 or three years of high school Russian. Practice in the spoken language; practical vocabulary; conversation on assigned topics; simple dialogues and plays.

11. Conversation (2) I, II
Prerequisite: Russian 10 or Russian 3, or four years of high school Russian. Continuation of Russian 10.

40. Russian Civilization (2) I
(Same course as Humanities 32)
Conducted in English. No prerequisite. The major currents and characteristics of Russian culture, as expressed through the centuries in literature, art, philosophy, and music.

41. Russian Civilization (2) II
(Same course as Humanities 33)
Conducted in English. No prerequisite. Continuation of Russian 40.

UPPER DIVISION COURSES

101A-101B. Conversation and Composition (3-3)
Prerequisite: Russian 4 with grade of C or better. Translation into Russian from moderately difficult English prose, with written reports in Russian. Readings and oral discussions of Russian plays and short stories.

102A-102B. Survey of Russian Literature (3-3)
Prerequisite: Russian 4 with a grade of C or better. A study of Russian literature from its beginnings, with emphasis on the nineteenth and twentieth centuries.
SOCIETY AND POLITICAL LIFE

105A-105B. The Russian Short Story, Drama, and Poetry of the 19th Century (3-3)
Prerequisite: Russian 4 with grade of C or better.

Development of the Russian short story, drama, and poetry of the 19th Century.

110A-110B. The Russian Novel of the 19th Century (3-3)
Prerequisite: Russian 4 with grade of C or better.

Development of the Russian novel of the 19th Century.

122. The Foreign Language Laboratory (2)
Conducted in English.
Prerequisite: Admission to Teacher Education.
Utilization of the language laboratory, applied to the teaching of foreign languages, including operation of equipment and preparation of material, discussion and demonstration of related techniques. Not open to students with credit in French, German, Italian, or Spanish 122. To be taken concurrently with Education 121E.

130. Russian Syntax and Stylistics (2)
Prerequisite: Russian 101A-101B.
The structure of contemporary Russian.

131. Russian Phonology and Morphology (2)
Prerequisite: Russian 4 and 11.
The sounds and forms of contemporary Russian.

140. Russian Civilization (2) I
(Same course as Humanities 152)
Conducted in English. No prerequisite.
An advanced course in Russian culture of the past and present, with emphasis on the arts, philosophy, literature, and music.

141. Russian Civilization (2) II
(Same course as Humanities 153)
Conducted in English. No prerequisite.
Continuation of Russian 140.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

199. Special Study (1-6) I, II
Individual study. Maximum credit six units.
Prerequisite: Consent of instructor.

GRADUATE COURSES

201. History of the Russian Language (3)
Prerequisite: Eighteen units of upper division Russian.
The historical development of the Russian language with source readings from Old Church Slavic.

205. Russian Poetry from Pushkin to the Present (3)
Prerequisite: Eighteen units of upper division Russian.
The major Russian poets of the nineteenth and twentieth centuries.

SOCIAL WELFARE
(PRESOCIAL WORK)
IN THE SCHOOL OF SOCIAL WORK

Faculty
Professor: Witte
Associate Professor: Tebor
Assistant Professors: Dushkin, Murphy, M. L.
Social Work

187. Child Welfare (3) I
Prerequisite: Social Welfare 180.
Analysis of the development and current programs of child welfare on the local, state, national, and international levels; the relationship between private and public agencies in promoting the welfare of children.

188. Probation and Parole (3) I
Prerequisite: Sociology 113. Recommended: Social Welfare 180.
Basic concepts, history, legislation, and practices used in work with juveniles and adults who have been placed on probation or parole; criteria of selective methods of supervision, and elements of case reporting.

189. Field Assignment in Social Work (3) I, II
Prerequisite: Credit or concurrent registration in Social Welfare 182.
Approximately 10 hours weekly in an approved local social agency in the field of social casework, group work, or community organization, under the supervision of an experienced agency worker and including periodic consultation with the faculty adviser.

197. Investigation and Report (3) I, II
Prerequisite: Consent of instructor.
Analysis of special topics in social welfare.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

SOCIAL WORK

IN THE SCHOOL OF SOCIAL WORK

Faculty
Professors: Maxwell, Ontell, Stumpf, Travis, Witte (Dean)
Associate Professors: Guzzetta, Harper, Kemp, Lee, W. F., Tebor
Assistant Professors: Goldstein, Murphy, M. L.
Instructor: Lee, M. M.

Offered by the School of Social Work
Master of Social Work, a two-year degree. (Described in the Graduate Bulletin.) Also refer to the section in this catalog on the Graduate Division. Graduate Courses

Prerequisite for enrollment in all graduate courses: admission to the School of Social Work.

200. Social Welfare Policy and Services (3) I
Social welfare as part of the social structure; analysis of major issues, problems, approaches, and possible solutions from historical, philosophical, and comparative points of view, with special examination of deprivation from whatever cause.

201. Social Welfare Policy and Services (3) II
Prerequisite: Social Work 200.
Public and voluntary programs related to income maintenance, with special emphasis on the philosophy, methods, issues, and problems. Consideration of the social insurance, public assistance, employment services, labor standards, and protective legislation.

202. Social Welfare Policy and Services III (3) I
Prerequisite: Social Work 201.
Public and voluntary programs related to other social welfare services and policy issues. Relationship between public and voluntary programs. Methods through which communities organize and maintain their social welfare services.

205. Social Work Administration I (3) II
Prerequisite: Social Work 202 or consent of the Dean.
Administration as an aspect of all social work practice. Nature of social work administration as a part of the working environment. Problems of social agency organization and personnel management. Principles of social agency organization and personnel management.

220. Human Behavior and Social Environment I (4) I
Human beings as functioning organisms in society. Integration of knowledge of human behavior and social environment covering biological, psychological, and psychosocial processes from birth to death for application in social work practice.

221. Human Behavior and Social Environment II (3) II
Prerequisite: Social Work 220.
Dynamic concepts of the interplay of the physiological as related to emotional, social, and cultural factors. Basic knowledge from medicine, sociology, psychology, cultural anthropology, and religion for use by the social worker in assisting people in their social functioning.

222. Human Behavior and Social Environment III (2) I
Prerequisite: Social Work 221.
Extension of Social Work 220 and 221. Understanding of the bio-social reasons people are unable to function up to self and societal expectations, and the role of social work in affecting change.

230. Social Work Practice I (3) I
Prerequisite: Concurrent registration in Social Work 230.
Principles of social work practice with individuals, families, groups, and communities. Attention is given to social work objectives, principles and skills.

231. Social Work Practice II (3) II
Prerequisites: Social Work 230 and concurrent registration in Social Work 231.
Principles of social work practice with individuals, families, groups, and communities with emphasis on refinement of skills of social study and social problem analysis. Attention to interpersonal and small group processes in the determination of goals and change.

232. Social Work Practice III (2) I
Prerequisites: Social Work 231 and concurrent registration in Social Work 232.
Analysis of social work intervention to motivate individuals, families, and groups toward change and problem solving. The implications for practice of the physical, social and emotional factors influencing people, and their interaction with social and economic groups of which they are a part.

233. Social Work Practice IV (1) II
Designed to offer opportunity for integration and application of the student's knowledge of an array of problem-solving methods in social work. Case material is centered on the specific content relevant to selected models of social problems experienced by individuals, families, and groups.

234. Social Work Practice V (2) II
Prerequisites: Social Work 231 and concurrent registration in Social Work 234.
Examination of applications of major theories of social change in organized behavior to improve the social environment. Use of selected model problems in social welfare planning; mobilization of resources; analysis of issues and resistances; designing programs and structures; and reassessment.
Social Work

250. Field Instruction I (4) I
Prerequisite: Concurrent registration in Social Work 230.
Field instruction in a public or voluntary social work setting. Emphasis is drawn upon in relation to classroom learning to emphasize application of social work objectives, principles and skills to services to individuals, families, groups, and communities.

251. Field Instruction II (4) II
Prerequisites: Social Work 250 and concurrent registration in Social Work 230.
Continuation of field instruction initiated in Social Work 250. Opportunities are provided for the application of social work principles and social problem analysis to experience with intercasual and small group processes.

252. Field Instruction III: Individuals, Families, and Groups (4-6) I
Prerequisites: Social Work 251 and concurrent registration in Social Work 230.
Field instruction in a public or voluntary social work setting emphasizing the concentration on methods aimed at achieving change and through the experiences of individual, families and groups and collaborative process with an emphasis on the social problem model and the use of the array of problem-solving methods in social work.

253. Field Instruction IV: Individuals, Families, and Groups (4-6) II
Prerequisites: Social Work 252 and concurrent registration in Social Work 230.
Continuation of Field Instruction III at an advanced level. Emphasis is placed on the use of the array of problem-solving methods in social work.

254. Field Instruction V: Social Policies, Organizations, and Communities (4-6) I
Prerequisites: Social Work 251 and concurrent registration in Social Work 230.
Field instruction in a public or voluntary social work setting emphasizing the concentration on methods aimed at achieving change in social policies, organizations and communities. Students are assigned to communities and work with the social work problem model or models of special interest to the student. Practice under educational direction at an advanced level.

255. Field Instruction VI: Social Policies, Organizations, and Communities (4-6) II
Prerequisites: Social Work 255 and concurrent registration in Social Work 230.
Continuation of Field Instruction V at an advanced level. Emphasis is placed on the implementation of change in social policies, organizations, and communities.

269. Supervision for Field Instructors (2) I, II
Prerequisite: Consent of the Dean of the School of Social Work.
Designed for field instructors who will be teaching graduate students in social work agencies. Objectives, content, and methods of instruction related to the administrative and educational functions of the field instructor in the education of social workers.

270. Seminar: Social Work Analysis (1) I
Discussion of student experience in field instruction and its broader implications.

271. Seminar: Current Social Issues (1) I, II
Prerequisite: Advancement to candidacy.
Current developments and issues in contemporary society and their meaning for social work practice.

272. Seminar: Corrections (2) I, II
Prerequisite: Advancement to candidacy or consent of the Dean.
Programs dealing with juvenile and adult offenders with consideration of problems of incidence and prevention. Programs analyzed in regard to historical trends, legal base, and current issues, in a variety of settings.
**Sociology**

283. **Seminar: Supervision in Social Work (2) I, II**  
Prerequisite: Advancement to candidacy or consent of the Dean.  
The purpose, content, and methods of supervision with emphasis on the administrative and educational components of the supervisory process. Trends and issues in the practice of supervision and consultation.

290. **Methods of Social Research (2) I, II**  
Definition and purpose of research in social work. Techniques and methods used in collecting, organizing, and interpreting social welfare and related data. Students involved in planning a research project and selecting a research design.

297A-297B. **Research (1-2) I, II**  
Prerequisite: Social Work 290.  
Research in the field of social work and preparation of written report. Individual effort or group project.

298. **Special Study (1-6)**  
Prerequisite: Consent of staff, to be arranged with Dean and instructor.  
Individual study. Six units maximum credit.

**SOCILOGY**

IN THE DIVISION OF THE SOCIAL SCIENCES

**Faculty**

Emeritus Faculty: Barnhart  
Professors: Kirby, Klapp, Milne, Wendling  
Associate Professors: Daniels, DeLora (Chairman), Elliott, Mouratides, Vass  
Assistant Professors: Bower, Dodge, Johnson, C. D., McJunkins, Weber, Weisman, Windlow  
Lecturers: Booth, Dorfman, I. T., Lowrie, Rosenquist, Wade

**Offered by the Department of Sociology**

Master of Arts degree with a major in sociology; and a Master of Arts degree in teaching service in social science (sociology). (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division. Major in sociology with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)  
Minor in sociology. (Described in the section on Minors for All Degrees.)

**LOWER DIVISION COURSES**

1. **Introductory Sociology (3) I, II**  
This course, or Sociology 102, is prerequisite to all upper division courses in sociology.

Development and use of the concepts applied to sociological analysis; the effects of isolation and social contacts, interaction, processes, forces, controls, collective behavior, and social progress. Not open to students with credit in Sociology 102.

10. **Contemporary Social Problems (3) I, II**  
Prerequisite: Sociology 1.  

35. **Marriage and the Family (3) I, II**  
Analysis of dating, engagement, marriage and family relationships. The marital couple as a small group viewed through contemporary sociological and social psychological principles and research findings. Factors predictive of marital behavior. Not open to students with credit in Home Economics 35, Social Welfare 35, or other course in marriage and the family, or in courtship and marriage.

**UPPER DIVISION COURSES**

60. **Elementary Social Statistics (3) I, II**  
Prerequisites: Sociology 1 and Mathematics 18 or a higher numbered course.  
Analysis and presentation of frequency distributions, central tendency, and variability; correlation; and regression. Not open to students with credit in Sociology 102.

100. **History of Social Thought (3) I, II**  
Prerequisite: Sociology 1 or 102.  
The origin and development of social theory in Europe and America; consideration of the fields and specialization and research in contemporary American sociology.

101. **Modern Social Theory (3) I, II**  
Prerequisites: Sociology 1 or 102 and 100.  
A study of theories basic to modern sociological research, including the viewpoints of European and American thinkers.

102. **Principles of Sociology (3) I, II**  
Development and use of the concepts that are applied to sociological analysis. A more intensive introduction to sociology than given in Sociology 1. Not open to students with credit in Sociology 1. Sociology 102 may not be used to fulfill the minimal upper division requirements in the sociology major or minor or the special major.

110. **Social Disorganization (3) I, II**  
Prerequisite: Sociology 1 or 102.  
Survey of many alleged abnormal phenomena in society as seen in society today in various forms of individual, family, community, and world disorganization, such as crime, prostitution, extreme alcoholism, migratory workers, divorce, revolution, war, etc.

113. **Criminology and Penology (3) I, II**  
Prerequisite: Sociology 1 or 102.  
The extent and characteristics of crime; consideration of physical, mental, economic, and sociological causes of crime; study of methods of penal discipline, prison labor, parole, and probation; programs of prevention.

114. **Juvenile Delinquency (3) I, II**  
Prerequisite: Sociology 1 or 102.  
The nature and extent of delinquency; the causative factors involved; methods of control and prevention, with special attention to the protective and remedial measures offered by the school, home, juvenile court, correctional institutions and camps, probation and parole, and recreational agencies.

116. **Contemporary Correctional Administration (3) I, II**  
Prerequisite: Sociology 113 or 114.  
A study of the problems encountered in administering modern correctional institutions, forestry and road camps, detention homes, and jails.

120. **Industrial Sociology (3) I, II**  
Prerequisite: Sociology 1 or 102.  
Analysis of group relationships within economic organizations. Problems of leadership, morale and conflict. Some attention to the sociology of occupations and professions.

121. **Medical Sociology (3) I, II**  
Prerequisite: Sociology 1 or 102.  
A sociological analysis of health and medical institutions. Cultural factors in concepts of disease, health, and healing. Social structure of medical facilities, and the role of personnel in such institutions. Relation of illness to income, housing, and other socio-economic factors. Not open to students with credit in Health Education 181.
122. Social Organization (3) I, II
Prerequisite: Sociology 1 or 102.
Major forms of social organization such as institutions, associations, bureaucracy, primary groups, and stratification. Study of underlying processes of development, social control and organizational change.

123. The Sociology of Mental Illness (3) II
Prerequisite: Sociology 1 or 102.
The social definition, ecology, and control of mental illness across various societies. The implications of social differentiation, stratification, and urbanization upon the incidence, prevalence, and control of mental illness and the use of these empirical problems for sociological research.

124. Social Stratification (3) I, II
Prerequisite: Sociology 1 or 102.
Theories of stratification in society; studies in the American stratification system and its implications in the other areas of life. Introduction to the study of mobility. Comparison with other selected societies.

125. Minority Group Relations (3) I, II
Prerequisite: Sociology 1 or 102.
Theories of ethnic prejudice. Analysis of racial and ethnic discrimination. Analytical inquiry into sources of friction and causes of conflict between national and minority groups. (Formerly entitled Race Relations.)

132. Formal Organization (3) II
Prerequisites: Sociology 1 or 102, and 122.
The structure and dynamics of various types of complex formal organizations. Their development, internal structure and processes, external relations and functions in contemporary society.

135. Dynamics of Family Development (3) II
Prerequisite: Sociology 1 or 102.
Analysis of the history of families; how they form, function, and grow in maturity. Focus on the development and interaction of family members throughout all stages of family life cycle from marriage to dissolution. (Not open to students with credit in another upper division course in marriage and the family.)

136. Sociology of the Family (3) II
Prerequisite: Sociology 1 or 102. Recommended: Sociology 101 and 146.
A comparative study of family systems in different societies. Changing social structure and functions of the modern family; rural-urban, class, racial and ethnic differences in family organization; marriage and family as a developing system of interpersonal relationships.

138. Sociology of Religion (3) II
Prerequisite: Sociology 1 or 102. Recommended: Sociology 101 and 146.
The role of religion in society as cult and institution, including primitive religion, modern sects and churches, ritual, secularization, and religious movements.

140. Social-Psychological Foundations of Society (3) I, II
Prerequisites: Sociology 1 or 102 and Psychology 1.
The major problems and findings of social-psychological studies with reference to group behavior and group membership, the socialization of the individual, and processes of social interaction. Not open to students with credit in Psychology 104.

146. Collective Behavior (3) I, II
Prerequisites: Sociology 1 or 102, and 140.
The basic processes of social behavior in masses and groups, including crowd behavior, fads, fashions, crazes, panics, rumors, sects and cults; heroes and scapegoats; social movements; effects of mass communication.

147. Theories of Social Change (3) I
Prerequisites: Sociology 1 or 102, and 146.
The major problems and findings of social-psychological studies with reference to group behavior and group membership, the socialization of the individual, and processes of social interaction. Not open to students with credit in Psychology 104.

150. Population Problems (3) I
Prerequisite: Sociology 1 or 102.
Problems of population relative to age, sex, and racial distribution. Population practice and theory. Biological and geographical aspects of population problems. International population movements.

151. Research Methods in Demography (3) II
Prerequisites: Sociology 60 or Economics 2, and Sociology 150.
Standard procedures in the measurement of fertility, mortality, natural increase, migration, population growth and manpower, and working activities. Appraisal of source materials. Students to complete one project during term.

157. Urban Sociology (3) II
Prerequisite: Sociology 1 or 102.
A study of the structure and function of the modern city; types of neighborhoods; forms of recreation; social forces in a metropolitan area; types of urban personalities and groups; rural-urban conflicts of culture. Practical field studies required.

160. Quantitative Methods in Social Research (3) I
Prerequisite: Sociology 60.
The use of parametric and non-parametric techniques in the analysis of social research data; including analysis of variance; covariance; multiple and partial correlation techniques.

164. Methods of Social Research (3) I, II
Prerequisites: Sociology 1 or 102, and 60.
Research methods and interpretation used in the study of communities, institutions, and social conditions.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

197. Investigation and Report (3) I, II
Prerequisite: Consent of instructor.
Analysis of special topics in sociology.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisite: Consent of instructor.

GRADUATE COURSES

200. Seminar in Social Theory (3)
Prerequisites: Sociology 101 and 164.
Advanced study of social theory, its modern formulations and historical development, with emphasis on individual research and report findings. May be repeated with new content for additional credit. Six units maximum credit applicable on a master's degree.

210. Seminar in Social Disorganization (3)
Prerequisites: Sociology 110 and 164.
Advanced study of the processes which contribute to and maintain social and personal disorganization. The relationship of sociological factors, including urbanization, secular change, to these processes, with emphasis on contemporary theory and research. May be repeated with new content for additional credit. Six units maximum credit applicable on a master's degree.
Spanish

220. Seminar in Social Organization (3)
Prerequisite: Sociology 164.
Analysis of the principal organizational forms of society and groups, in terms of their basic patterns, interrelations, organizational change, and the relation of the individual to social structure. Study of bureaucracy, consensus, formal and informal structure and function. May be repeated with new content for additional credit. Six units maximum credit applicable on a master's degree.

230. Seminar in Social Institutions (3)
Prerequisite: Sociology 164.
Advanced study of institutional forms and processes, including the institutional bases of social mores. The effect of sociological factors, including cultural lag in personality development and analysis of morale, motivation, leadership and other elements of group behavior. May be repeated with new content for additional credit. Six units maximum credit applicable on a master's degree.

240. Seminar in Social Interaction (3)
Prerequisites: Sociology 140 and 164.
Advanced study of social-psychological interaction, including sociological factors in personality development and analysis of morale, motivation, leadership and other elements of group behavior. May be repeated with new content for additional credit. Six units maximum credit applicable on a master's degree.

250. Seminar in Human Ecology and Demography (3)
Prerequisites: Sociology 150 and 164.
Analysis of the sociological variables which influence distribution and composition of populations and social institutions, with special emphasis on urban social organization. May be repeated with new content for additional credit. Six units maximum credit applicable on a master's degree.

260. Seminar in Research Methods (3)
Prerequisite: Sociology 101 and 164.
Analysis of methods used in current sociological research, including evaluation of reported findings. Discussion of research designs appropriate to particular types of projects. Evaluation of research in progress by members of the seminar. May be repeated with new content for additional credit. Six units maximum credit applicable on a master's degree.

290. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy. Guidance in the preparation of a project or thesis for the master's degree.

SPANISH

IN THE DIVISION OF THE HUMANITIES

Faculty
Emeritus Faculty: Brown, L. P., Phillips
Professor: Baker, C. (Chairman, Spanish-Portuguese)
Associate Professors: Case, Freitas, Lemus
Assistant Professors: Dandliker, Hawes, Head, Sender, Smith, J. D., Wahh, J. J., Williams, F.

Lecturers: Crowell, dos Santos, Fonseca

Offered by the Department of Spanish and Portuguese
Master of Arts degree with a major in Spanish. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in Spanish with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in Spanish. (Described in the section on Minors for All Degrees.)
For teaching majors and minors, refer to the section on the School of Education.

HIGH SCHOOL EQUIVALENTS

High school foreign language courses may be used for purposes of placement in college courses and may be counted toward meeting the foreign language requirement in various majors. These high school courses will not count as college credit toward graduation.

The first two years of high school Spanish may be counted as the equivalent of Spanish 1; three years the equivalent of Spanish 2; and four years the equivalent of Spanish 3. The last year-course taken by a student in the high school language sequence may be repeated in college for graduation credit, not to exceed four units of repeated foreign language work.

LOWER DIVISION COURSES

1. Elementary (4) I, II
Four lectures and one hour of laboratory. Pronunciation, oral practice, readings on Spanish culture and civilization, minimum essentials of grammar.

2. Elementary (4) I, II
Four lectures and one hour of laboratory. Prerequisite: Spanish 1 or two years of high school Spanish. Continuation of Spanish 1.

3. Intermediate (4) I, II
Prerequisite: Spanish 2 or three years of high school Spanish. A practical application of the fundamental principles of grammar. Reading in Spanish of cultural material, short stories, novels or plays; oral practice; outside reading with oral and written reports.

4. Intermediate (4) I, II
Prerequisite: Spanish 3 or four years of high school Spanish. Continuation of Spanish 3.

10. Conversation (2) I, II
Prerequisite: Spanish 2 or three years of high school Spanish. Practice in the spoken language; practical vocabulary; conversation on assigned topics; simple dialogues and plays.

11. Conversation (2) I, II
Prerequisite: Spanish 10 or Spanish 3, or four years of high school Spanish. Continuation of Spanish 10.

40. Spanish Civilization (2) I
(Same course as Humanities 46)
Conducted in English. No prerequisite. The major currents and characteristics of Spanish culture, as expressed through the centuries in literature, art and philosophy.

41. Spanish-American Civilization (2) II
(Same course as Humanities 47)
Conducted in English. No prerequisite. The major currents and characteristics of Spanish-American culture, as expressed through the centuries in literature, art, and philosophy.
UPPER DIVISION COURSES

101A-101B. Advanced Oral and Written Composition (3-3)
Prerequisites: Spanish 4 and 11, with a grade of C or better.

102A-102B. Survey Course in Spanish Literature (3-3)
Prerequisite: Spanish 4 with a grade of C or better.
A study of important movements, authors, and works in Spanish literature from the Middle Ages to the present.

103A-103B. The Literature of the Spanish Golden Age (3-3)
Prerequisites: Spanish 4 and 11, with a grade of C or better.
Readings from the major writers (all genres) of the Siglo de Oro, class discussion and written reports.

104A-104B. Spanish-American Literature (3-3)
Prerequisites: Spanish 4 and 11 with grade of C or better.
Reading from representative Spanish-American authors during the colonial, revolutionary and modern periods. Lectures, class reading, collateral reading and reports. May be taken as Comparative Literature 104A-104B when work is done in English translation.

105A-105B. Modern Spanish Drama (3-3)
Prerequisites: Spanish 4 and 11 with grade of C or better.
The development of the drama of Spain from the beginning of the nineteenth century to the present time.

106A-106B. Mexican Literature (3-3)
Prerequisites: Spanish 4 and 11 with grade of C or better.
Aspects of Mexican culture. The first semester, a rapid survey of Mexican literature from the colonial period to the twentieth century. The second semester, twentieth century, with emphasis on the contemporary Mexican novel and theater.

110A-110B. Novel and Short Story in Spain (3-3)
Prerequisites: Spanish 4 and 11 with grade of C or better.
The development of the novel and short story in Spain from 1830 to the present time.

122. The Foreign Language Laboratory (2)
Conducted in English.
Prerequisite: Admission to Teacher Education. Utilization of the language laboratory, applied to the teaching of foreign languages, including operation of equipment and preparation of material. Discussion and demonstration of related techniques. Not open to students with credit in French, German, Italian, or Russian 122. To be taken concurrently with Education 121E.

140. Spanish Civilization (2) 1
(Same course as Humanities 146)
Conducted in English. No prerequisite.
An advanced course in Spanish culture of the past and present, with emphasis on the arts, philosophy, and literature. Lectures, class discussions, outside readings, written reports on individual topics.

141. Spanish-American Civilization II
(3-3, course as Humanities 147)
Conducted in English. No prerequisite.
An advanced course in Spanish-American culture. From the period of the Spanish Conquest to the present, with emphasis on the arts, literature, and philosophy. Lectures, class discussions, outside readings, written reports on individual topics.

150. Phonetics and Phonemics (3-3)
Prerequisites: Spanish 4 and 11 with a grade of C or better.
Detailed analysis of the sounds of Spanish and of the Spanish phonemic system, with special attention to the problems involved in the teaching of Spanish pronunciation to English-speaking students.

166. Honors Course (Credit to be arranged) 1, II
Refer to Honors Program.

199. Special Study (1-6) 1, II
Individual study. Six units maximum credit. This course is intended only for students who are currently enrolled in or who already have credit for all upper division courses in Spanish available in any given semester. Prerequisite: Consent of staff.

GRADUATE COURSES

201. History of the Spanish Language (3)
Prerequisite: 18 units of upper division Spanish, including credit or concurrent enrollment in Spanish 110.
The development of the Spanish language in Spain and Spanish America, with particular attention to the phonology, morphology, and syntax of medieval Spanish. (Formerly entitled: Old Spanish.)

202. Cervantes (3)
Prerequisite: 18 units of upper division Spanish.
A study of the principal prose works of Cervantes: The Novelas ejemplares and Don Quijote.

203. Lope de Vega (3)
Prerequisite: 18 units of upper division Spanish.
The development and importance of Lope de Vega and his school, concentrating on the historical plays and dramas of capa y espada.

204. The Spanish-American Novel (3)
Prerequisite: 18 units of upper division Spanish.
A study of some aspects of the Spanish-American novel.

205. The Gaucho Epic (3)
Prerequisite: 18 units of upper division Spanish.
The Poesia gaucho, with particular emphasis on Martín Fierro, Fausto, and Santos Vega. (Formerly entitled: Spanish-American Poetry.)

206. Modernism (3)
Prerequisite: 18 units of upper division Spanish.
The Modernista movement in Spanish America, with special attention to representative poets.

207. Medieval Spanish Literature (3)
Prerequisite: Spanish 201.
The literature of Spain from the earliest extant works to the Celestina.
Speech Arts

290. Research and Bibliography (2)
Prerequisite: 18 units of upper division Spanish.
Purpose: Methods and research in the fields of the language and literature, the collection and collation of bibliographic material, and the proper presentation of the results of such investigations. Recommended for the first semester of graduate work.

294. Comprehensive Reading and Survey Course (3)
Prerequisites: 18 units of upper division Spanish and consent of graduate advisor and department chairman.
A study of important movements, authors, and works in Spanish literature. Designed to supplement the reading done in previous courses, in preparation for the comprehensive examination in literature for candidates for the M.A. degree.

298. Special Study (1-6)
Individual work. Six units maximum credit.
Prerequisite: 18 units of upper division Spanish and consent of staff; to be arranged with department chairman and instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

SPEECH ARTS

IN THE DIVISION OF THE FINE ARTS

Faculty
Professors: Ackley, Adams, W., Benjamin, Earnest, Jones, K., Mills, Pfaff, Povinelli, Powell (Chairman), Sellman
Associate Professors: Lee, R. L., Norwood, Skinner
Assistant Professors: Ambler, Harris, R., Jameson, K. C., Mastoff, Nichols, A. C., Riedman, Rogers, P., Sarnoar, Stephenson, Strane
Lecturers: Baronofsky, Clayton, Olson, Robson, Thille, Thornton

Offered by the Department
Master of Arts degree with a major in speech arts, and a Master of Arts degree for teaching service with a concentration in speech arts. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in speech arts with the A.B. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Major in radio and television broadcasting with the B.S. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Minor in speech arts and minor in radio and television broadcasting. (Described in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

1. Voice and Diction (3) I, II
Exercises and drills to improve the quality, flexibility, and effectiveness of the speaking voice leading to good usage in standard American speech. Preparatory to further courses in public speaking and dramatic art.

1-X. Speech for International Students (2)
Training in production of American speech sounds, blending and assimilation, American prose rhythm and oral communications. Emphasis on clarity and intelligibility. Practical work in aural comprehension. Prerequisite: Designation by speech testing committee. As a substitute for Speech Arts 3 or 4, this course will meet the general education requirement in oral communication.

2. Oral Communication Laboratory (1) I, II
Two hours of laboratory. Those who fail the speech test should take this course concurrently with Speech Arts 3. This course provides training in articulation, voice control, vocabulary. Individual laboratory assistance on specific speech problems.

3. Oral Communication (2) I, II
Training in fundamental processes of oral expression; method of obtaining and organizing material, outlining, principles of attention and delivery; practice in construction and delivery of various forms of speeches. Speech Arts 3 (or 4) required in general education.

4. Intermediate Public Speaking (3) I, II
Practice in extemporaneous speaking on subjects of current interest, both national and local, with stress on organization and delivery. Speech Arts 4 (or 3) required in general education.

5. Introduction to the Theater (3) I, II
A theory of theory and practice in the contemporary theater, including its literary, critical, and technical aspects viewed against historical backgrounds. Attendance at selected rehearsals and performances required.

8. Elementary Stage Costume and Makeup (3) I
Two hours lecture-demonstration and three hours activity. Principles and application of makeup for stage and television. Pattern drafting, draping, color harmony and use of fabrics for stage costume. Practical training in the construction of stage costumes and application of makeup for departmental productions.

11A. Fundamentals of Interpretation (3) I
Application of the principles involved in "making words come alive"; response to thought and mood, sensory association, emphasis, climax. Practice selections in poetry and prose. Offered as demand requires.

11B. Intermediate Interpretation (3)
Prerequisite: Speech Arts 11A or 55A.
Oral reading of various types of material suitable for popular audiences: stories, humorous sketches, light and sentimental verse.

445. Workshop in Educational Radio Broadcasting (6) Summer (9 Weeks)
Practice and theory in educational radio broadcasting operations, to include program planning, staff administration, and announcing. Students in the workshop will function in staff duties for KEBBS (FM). Offered jointly with Speech Arts 144-S. Not open to students with credit for Speech Arts 144.

55A. Elementary Acting (3) I, II
Three lectures per week and an additional 32 hours of laboratory per semester. Development of the individual's ability to express thought and emotion through the effective use of the voice and body. These fundamental skills may be applied to stage, radio, and television acting.

55B. Intermediate Acting (3) I, II
Three lecture-demonstrations per week and an additional 32 hours of laboratory per semester.
Prerequisite: Speech Arts 55A.
Continuation of 55A, emphasizing the application of fundamental skills to the problems of emotion, timing, characterization, and ensemble acting.

56. Dramatic Production (3) I, II
Two lectures and three hours of laboratory. Technical practices and organization of production for theater and television. Practice in drafting and construction of scenery for the college productions.
Speech Arts

60A-60B. Argumentation and Debate (3-3)
Obtaining and organizing of evidence and the construction and use of the brief; study and discussion of current issues; the presentation of formal and informal debate. Participation in intercollegiate debate optional.

61. Intercollegiate Debate (1) I, II
Two hours of activity. Credit for participation in intercollegiate program. May be repeated to a total of four units, including lower division and upper division courses, 61 and 161.

63. Verse Choir (2) I, II
Three hours.
Participation in verse speaking chorus to develop quality, range of tone, and ability in dramatic visualization of poetry. Lectures and readings on the nature, artistic function and history of the Verse Choir. May be repeated to a total of four units, including lower division and upper division courses, 63 and 163.

64. Principles of Parliamentary Procedure (1) I
A study of the rules which govern discussion and procedures in organized assemblies. The class will be arranged as a parliamentary body to afford practice in the application of the rules.

65. Business and Professional Speaking (1) I, II
Basic principles of oral communication with application to the study, preparation, and presentation of business speeches. Special attention to conference, interview, and presentation of graphic materials. To be taken in conjunction with selected sections of Oral Communication.

67. Film as Art and Communication (3) I
Prerequisite: Sophomore standing.
An appreciative survey of cinema, with emphasis upon the feature film and the documentary. Historical and stylistic influences upon the aesthetic values and social implications of cinema. Illustrated by screen examples.

70. Survey of Speech and Hearing Disorders (2) I
Introduction to concepts and principles basic to the fields of speech and hearing disorders. Twenty-five hours of observation or project required.

80. Backgrounds in Broadcasting (3) I, II
One lecture and three hours of scheduled activity.
This course includes the history and regulation of broadcasting in the United States; radio and television; the organization of commercial and educational radio and television stations.

81. Technical Operations for Broadcasting (3) I, II
Two lectures and three hours of scheduled activity.
Control room and studio techniques necessary for radio and television operation. Includes camera operation, video control, television lighting, television recording, and operation of audio equipment.

82. Radio Programming and Production (3) I, II
Two lectures and three hours of scheduled activity.
Prerequisite: Speech Arts 81.
Theory and practice in the skills and knowledge of radio programming. Includes development of basic program types and experience in announcing, writing, directing, and production for radio.

83. Television Production and Directing (3) I, II
Two lectures and three hours of scheduled activity.
Prerequisite: Speech Arts 81.
Theory and practice in the skills and knowledge of television production. Includes basic program types, responsibilities of director, and director's relationship to production staff.

85. Introduction to Photography (3) I, II
(Same course as Industrial Arts 85.)
One lecture and six hours of laboratory.
A consideration of photographic optics and chemistry; nature of light and image formation; photographic emulsions, exposure and development. Composition and lighting. Not open to students with credit in Journalism 50.

86. Broadcasting Activities for Schools (3) I
Two lectures and three hours of scheduled activity.
The planning and production of radio and television broadcasts. Designed for students interested in handling broadcast activities in speech and drama classes and workshops for high schools and junior colleges. Not open to students with credit in Speech Arts 80.

UPPER DIVISION COURSES

100. Phonetics (3) I, II
Auditory and kinesic analysis of the sounds of the English language. Valuable as a corrective course in pronunciation and articulation. Required of speech majors and those seeking to teach exceptional children in the area of speech correction and lip reading.

101. Management of Speech Arts Activities (1) I, II
Planning, preparation, management and supervision of speech and drama tournaments, festivals, and other interscholastic and intrascholastic activities under the supervision of the speech arts staff. May be repeated for a maximum of two units.

108. Advanced Interpretation (3) I, II
Prerequisite: Speech Arts 11A or 11B.
Analysis of techniques of literary composition as guides to oral interpretation. Achievements of the creative artist as they affect the interpretive artist.

109. Workshop in Speech (1 to 3)
Study of some problem in theater, public address, radio and television, or speech and hearing pathology. Maximum credit six units.

110. Creative Dramatics (2) I, II
Practical training in the principles and techniques of creative dramatization for work with children in the classroom and recreation. Emphasis on the development of the child emotionally and socially through dramatic improvisation.

116. Theater Criticism (3)
Prerequisites: Speech Arts 5 and 118A.
A consideration of the problems and practices of dramatic criticism as applied to theatrical production in the past and present.

118A. Play Analysis (3) I, II
The structural and stylistic elements of drama. Several short plays and one full-length play are read, discussed, and analyzed.

118B. Playwriting (3) I, II
Lectures, discussion, and reading of one-act plays written by the students.

120. Semantics (3) I, II
Recognition of various types of linguistic meaning; logical distinctions in discourse; distinction between real and verbal disagreement; recognition and correction of semantic fallacies.

125. Theories of Human Communication (3)
Prerequisite: Six units of speech arts.
Special emphasis on various communication theories and models; the relationship of mental variables such as perception, roles and status, behavior change, language and motivation to the entire communication process.
140A, 140B. Scene Design for Stage and Television (3-3) I, II
Prerequisite: Speech Arts 56.
- The application of the principles of design, color and perspective to the designing of various types of dramatic productions; the history of stage design. Students will learn to make sketches and models and paint scenery for departmental stage and television productions.

142. Theater Workshop (2) I, II, Summer (3 or 6)
- Two hours of activity per unit.
- A laboratory to give the student a variety of experience in the theater including acting, lighting, scenery, costumes and stage management. May be repeated for a maximum of six units.

143-S. Workshop in Educational Television (6) Summer
- (Same course as Education 143-S)
- Open to teachers and students interested in instruction by television.
- The procedures and theories of television production as it pertains to closed-circuit and instructional use of television. The selection and utilization of program content and the method of presenting material through the television medium will be discussed and demonstrated.

144-S. Workshop in Educational Radio Broadcasting (6) Summer (9 weeks)
- Practice and theory in educational radio broadcasting operation to include program planning, staff administration, and announcing. Students in this workshop will function in staff duties for KEBS (FM). Offered jointly with Speech Arts 44-S.
- Not open to students with credit for Speech Arts 44-S.

145. Stage and Television Lighting (3) I, II
Principles and practice of light, color, lighting instruments, and control equipment, including the design and planning of lighting for plays and television. Students will serve as light crews for departmental productions.

152. History and Design of Costume (Stage) (3) II
- Two hours lecture-demonstration and three hours of laboratory.
- A study of costume from Egyptian period to the present. Emphasis on the use of historical costumes on the stage. Costume designs for one stage production. Drawing and painting experience desirable but not necessary.

154A-154B. History of the Theater (3-3) I, II
- A study of the theater from primitive times to the present. Special attention will be given to the theater as a mirror of the social and cultural background of the various countries and periods in which it is studied. (Speech Arts 154B may be taken without 154A.)

155. Advanced Acting (3) II
Prerequisites: Speech Arts 55A and 55B.
- Problems in characterization: acting styles of the Elizabethan and Eighteenth Century period.

156. Advanced Dramatic Production (3)
- Two lectures and three hours of laboratory.
- Prerequisite: Speech Arts 56.
- Further study of scenery drafting and construction, with attention to the multiple-set play. Planning of scenery construction and rigging for stage and television productions.

159. Stage Direction (3) I, II
- Planned for prospective directors of plays in schools, colleges and community theaters. Through lectures, discussions, and exercise projects the student will become acquainted with the principles, procedures and methods of stage direction.

160. Stage Direction Laboratory (1) I, II
Prerequisite: Speech Arts 159 or concurrent registration.
- This will consist of experience in directing a one-act play before a departmental or public audience. It may be taken with or it may be preceded by Speech Arts 159. May be repeated for a total of two units.

161. Advanced Intercollegiate Debate (1) I, II
- Two hours of activity. Credit for participation in intercollegiate program. May be repeated to a total of four units, including lower division and upper division courses, 61 and 161.

162. Advanced Argumentation (3) I
- A study of the approaches to argument and the patterns and problems in argument. Consideration of implications for society. Written and oral reports.

163. Advanced Verse Choir (2) I, II
- Three hours.
- Participation in verse speaking chorus to develop quality, range of tone, and ability in dramatic visualization of poetry. Lectures and reading on the nature, artistic function and history of the Verse Choir, with a written report or project. May be repeated to a total of four units, including lower division and upper division courses, 63 and 163.

164. Verse Choir Directing (2 or 3)
- Organizing a given group as a Verse Choir, considering age, voice quality, background, selection and arrangement of material, and techniques of directing. Demonstration and practice of techniques to improve speech through the Verse Choir.

165. Honors Course (Credit to be arranged) I, II
- Refer to the Honors Program.

167. Motion Picture Techniques (3) I
Prerequisite: Speech Arts 85.
- Principles of film theory, cinematography, film editing; use of motion picture equipment. Technique and theory as they apply to the several filmic forms. Preparation of filmed materials.

168. Film Production (4) II
- One lecture and nine hours of scheduled activity.
- Prerequisites: Speech Arts 85 and 167.

169. Introduction to Education of Hearing Impaired Children (3)
- Educational programs, services and resources for hearing impaired; historical background, philosophy, sociological, and psychological problems.

170. Speech Development (3) I
Prerequisite: Speech Arts 70.
- Development of normal speech in children; typical and common speech defects in preschool and school children; basic techniques for their prevention and correction. Twenty-five hours of observation or project required.

171A. Audiology (3)
Prerequisite: Psychology 50.
- Anatomy and physiology of the human ear, theories of hearing, physics of sound, medical aspects, pathology and surgery of the ear, survey of current audiological techniques.

171B. Audiology (3) II
Prerequisite: Speech Arts 171A.
- Tuning fork assessment, pure tone screening techniques, play audiometry, speech audiometry, and hearing aid evaluation. Meets audiological certification require-
172. Mechanics of Speech Production (3)
Two lectures and two hours of laboratory.
Prerequisite: Psychology 50.
Functional anatomy of head, neck and thorax including laboratory exercises and demonstrations of charts, models, histological materials and cadavers.

173. Functional Problems of Speech and Hearing (3)
Prerequisite: Speech Arts 170.
Phenomena of human communication; relation between disorders of personality and difficulties in communication.

174. Principles and Methods of Speech Correction (3) I
(Same course as Education 174)
Prerequisite: Speech Arts 100 and 170.
Etiology and treatment of the more common speech disorders, including physiology of speech, voice disorders, cleft palate, foreign dialect.

175. Hearing Amplification (3)
Prerequisites: Speech Arts 171A and 171B.
Specific application of amplification for rehabilitation of the impaired hearing mechanism; devices, methods for their evaluation, historical perspective and practical considerations.

176. Stuttering and Neurological Disorders (3) II
(Same course as Education 176)
Prerequisites: Speech Arts 100 and 170.
Clinical survey of newest methods of speech correction. Special emphasis given to causes and treatment of stuttering, cerebral palsy speech problems and aphasia in adults and children.

177. Audiology (3) I
Prerequisite: Speech Arts 171.
Diagnostic and predictive tests of auditory functioning; types and characteristics of hearing aids; clinical practice.

178. The Teaching of Lipreading (3) II
(Same course as Education 178)
Prerequisite: Speech Arts 171 or Education 177.
History, theory, and methods of lipreading and language development for the deaf including hearing conservation and education. Aids for the classroom teacher; program and materials of instruction for the specialized teacher.

179A. Clinical Methods in Speech Correction (2) I
Lectures, discussions, demonstrations of case history taking, speech and auditory discrimination tests, interviews, reporting, and parent and teacher counseling.

179B. Clinical Methods in Speech Correction (2) II
Practical experience in the above. Practicum 4 hours.

180A. Field Work in Clinical Practice in Speech Correction (1 or 2) I, II, Summer
Prerequisites: Speech Arts 100, 170, 174, and 176.
Supervised work with representative speech problems; "staffing" of cases; speech testing; record keeping. Maximum credit eight units for both 180A and 180B. Not more than three units of 180A and 180B may be taken for graduate credit.

180B. Field Work in Clinical Practice in Hearing Problems (1 or 2) I, II, Summer
Prerequisites: Speech Arts 171, 177, and 178.
Supervised work with pure tone and speech audiometric testing of all ages; hearing therapy; "staffing" of cases; record keeping. Maximum credit eight units for both 180A and 180B. Not more than three units of 180A and 180B may be taken for graduate credit.

181. Broadcast Management (3) I, II
Two lectures and three hours of scheduled activity.
Prerequisites: Speech Arts 80, 81, 82, 83.
Administration and organization of radio and television, including radio and television as advertising media, broadcasting research, station organization, promotion and sales, and current developments in radio and television as mass media.

182. Advanced Lighting and Staging for Television (4) I, II
One lecture and nine hours of scheduled activity.
Prerequisites: Speech Arts 56, 81, 85.
Production elements of television and film, to include lighting and staging techniques, art and graphics, scene design and scene decoration. Experience in various technical and production specialties of television and film.

183. Advanced Programming and Development for Broadcasting (4) I, II
One lecture and nine hours of scheduled activity.
Prerequisites: Speech Arts 80, 81, 82, 83, 167, 186, and permission of instructor.
The development of program ideas into production formats for radio and television materials of all types, such as news, music, dramatic, instructional. Experience producers of broadcast programs.

184. Advanced Broadcast Directing (4) I, II
One lecture and nine hours of scheduled activity.
Prerequisites: Speech Arts 56, 80, 81, 82, 83, 85, 159, 167, and permission of instructor.
Development of directorial techniques and production procedures for radio and television programs. Emphasis on presentation techniques and individual projects. Intensive and creative broadcast experience for the radio and television director.

185. Educational Broadcasting (3) II
Prerequisites: Speech Arts 80 and Education 101.
The role of educational broadcasting in the United States: social and educational niques for instructional television; and procedures for the utilization of television in the classroom.

186. Writing and Producing for Broadcasting and Film (3) II
Prerequisites: Speech Arts 80, 81, 82, 83.
Scripting of dramatic and documentary forms, to include the development of original materials and adaptations for the broadcast media and film, as well as the development of program and series ideas.

187. Radio and Television News (3) I, II
(Same course as Journalism 104)
Gathering, writing, and editing news in special forms required by radio and television; processing wire service copy, still pictures and kinescopes, filming, editing and scripting news on motion pictures; using recorders to report special events.

188. Senior Project in Broadcasting (3) I, II
Limited to students with the major in Radio and Television Broadcasting, leading to the B.S. degree.
Student must demonstrate proficiency in a phase of broadcasting from development of a program idea through production for either radio, television, or film. A chosen does not involve production.
190. Rhetorical Theory (3) I
An analysis of rhetorical theory with special attention to Plato, Aristotle, Cicero, Quintilian, Cox, Wilson, Blair, Campbell, Whately, Bain, and modern authors on public speaking. The development of a theory and rhetorical criticism, culminating in a critical evaluation of contemporary public address.

191. Organized Discussion (2) II
The role of group discussion in a democratic society. Principles and methods of group discussion in problem solving and learning situations. Practice in dealing with questions of policy and controversial issues. Development of skills in discussion preparation, participation and leadership.

192A. Advanced Public Speaking (3) I
Prerequisite: Speech Arts 4. Emphasis upon the preparation and delivery of longer speeches. Study of classic models of public address.

192B. Oral Persuasion (3) II
Prerequisite: Speech Arts 4. A study of oral persuasion with an emphasis on motivation and the evaluation of persuasive techniques. Research project on a significant current problem. Results of research and persuasive principles used in actual speech.

193. Mass Persuasion (3) I, II
Prerequisite: Speech Arts 4. An historical and critical analysis of the theories, techniques and ethics of oral communicators who employ radio and television as a means of presenting social, political and religious issues.

198. Selected Topics in Speech Arts (1-3) I, II
Prerequisite: Twelve units in speech arts. A specialized study of selected topics from the areas of speech arts. May be repeated for additional credit with new subject matter for a total of six units.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit. Prerequisite: Consent of instructor.

EXTENSION COURSES
Lower Division
X-6. Speech Workshop for Stutterers (3)
Participation by stutterers in various techniques designed to alleviate stuttering blocks. May be repeated to a maximum of six units.

X-175. The Role of Parents in Problems of Speech Correction (2) (Extension)
Assistance to parents in understanding the speech-handicapped child. Open to parents of children with a speech problem. May be repeated for a total of four units.

GRADUATE COURSES
200. Research and Bibliography (3)
Basic reference works, scholarly and critical journals; introduction to bibliographical techniques; exercises and problems in methods and exposition of research as it relates to the various areas of speech. Recommended for first semester of graduate work, and prerequisite to advancement to candidacy.

208. Seminar in Oral Interpretation (3)
Prerequisite: Speech Arts 108. Aesthetic discipline applied to oral interpretation of various forms of literature. Analysis of thought and emotional content, and aesthetic form. Investigation of advanced problems of delivery. May be repeated once with new content for maximum of six units.

243. Seminar in Staging Practices for Theater and Television (3)
An investigation of the recent developments of modern stagecraft facilities. The application of technological advances and electro-mechanical devices to the scenic arts for theater and television.

244. Seminar in Stage Direction (3)
Prerequisite: Speech Arts 159. Projects in the aesthetic principles and the practices of stage direction with an emphasis on styles and historical periods.

245. Seminar in Lighting for Stage and Television (3)
Prerequisite: Speech Arts 145. Projects concerned with the aesthetic and the technical problems of lighting in stage and television.

246. Seminar in Design for Stage and Television (3)
The principles of design in the theater with an emphasis on the historical development of theatrical costume or scenic environment. The investigation of recent tendencies in styles and their evolution. Each section may be taken once for credit.

A. Costume Design
Prerequisite: Speech Arts 152.

B. Scenery Design
Prerequisite: Speech Arts 140A, 140B, and 156.

247. Seminar in History of Theater and Drama (3)
Prerequisites: Speech Arts 154A, 154B, and 118A. Each section may be taken once for credit.

A. British and Continental Theater
B. American Theater

262. Seminar in Argumentation (3)
Prerequisite: Speech Arts 162. Significant topics in argumentation: the formulation of problems for argument analysis; the brief with patterns of argument, traditional and recent; presupposition; probability; laws of evidence; fallacies.

271. Problems of Aphasia (3)
Prerequisites: Speech Arts 170, 172, 176. Principles of evaluation of aphasia, familiarity with diagnostic tools, theories of aphasia and therapy for persons with disorders of symbolization: i.e. adult and congenital aphasia. Evaluation of current research in aphasia studies.

272. Problems of Cerebral Palsy (3)

273. Problems of Cleft Palate (3)

274. Problems of Stuttering (3)
Prerequisites: Speech Arts 170, 173, 176. Principles of evaluation of theories, individual and group therapy for child and adult stutterer; evaluation of current research in this area.

275. Problems of Voice Pathology (3)
Speech Arts

276. Voice Science (3)
Prerequisites: Speech Arts 172.
Relationship of basic principles of sound to the speech mechanism. Analysis of speech sound production. Application of mechanical and electronic equipment to speech.

277. Audiology Seminar (3)
Prerequisites: Speech Arts 171A, 171B, 177.
Major experimental research in physiological and psycho-acoustical nature of hearing. Critical analysis of audiometric techniques used in differential diagnosis.

279. Advanced Diagnostic Methods in Speech Therapy (3)
Prerequisites: Speech Arts 180A (3), 191A, 191B.
Diagnosis of individuals with complicated speech problems as brain injury, congenital aphasia, adult aphasia, cerebral palsy, hearing loss, laryngectomies, mental retardation, stuttering and voice problems.

280A. Advanced Field Work in Clinical Practice in Speech Correction (1 or 2)
Prerequisites: Speech Arts 174 and 176.
Supervised work with representative advanced speech cases such as stuttering, aphasia, laryngectomies, etc. May be repeated for a maximum of four units, only two of which may be used for graduate credit on a master's degree.

280B. Advanced Field Work in Clinical Practice in Hearing Problems (1 or 2)
Prerequisites: Speech Arts 171, 177, and 178.
Advanced casework in hearing evaluation, record keeping, research problems, and therapy (auditory training, lipreading, speech correction for hard of hearing or deaf, and language building). May be repeated to a maximum of four units, only two of which may be used for graduate credit on a master's degree.

282. Seminar in History of Broadcasting (3)
Prerequisite: The equivalent of an undergraduate major in broadcasting.
The development of broadcasting in its social, legislative, and economic settings, with emphasis upon broadcasting in the U.S.

283. Seminar in Broadcast Management (3)
Prerequisite: The equivalent of an undergraduate major in broadcasting and Speech Arts 181.
Study of the legal and regulatory milieu of broadcasting from the perspective of station management.

284. Seminar in Programming and Production (3)
Prerequisite: The equivalent of an undergraduate major in broadcasting.
Theory and analysis of programming and production in broadcasting.

285. Seminar in Educational Broadcasting (3)
Prerequisite: The equivalent of an undergraduate major in broadcasting.
Study of educational, social, and economic role of noncommercial educational broadcasting in the U.S., primarily from the perspective of educational station management.

291. Seminar in Group Discussion Theory (3)
Prerequisite: Speech Arts 191.
A study of descriptive and experimental literature on group discussion covering such topics as interaction, leadership, and means of evaluation.

293. Seminar in Greek and Roman Public Address (3)
Prerequisites: Speech Arts 190 and 192A or 192B.

294. Seminar in 18th Century British Public Address (3)
Prerequisites: Speech Arts 190 and 192A or 192B.

295. Seminar in American Public Address—1700-1900 (3)
Prerequisites: Speech Arts 190 and 192B.

Zoology

297. Seminar: Contemporary American Public Address (3)
Prerequisites: Speech Arts 190 and 192A or 192B.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff; to be arranged with department chairman and instructor.

299. Thesis or Project (3)
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

IN THE DIVISION OF THE LIFE SCIENCES

Faculty
Professors: Bohnsack (Chairman), Crawford, R., Crouch, J. E., Harwood, Huffman, Olson, A.
Associate Professors: Etheridge, Hunsaker, Norland
Assistant Professors: Brookes, Carpenter, Catlett, Cohn, Collier, McLean, Plymale, Resegue, Wilson
Lecturer: Kasten

Offered by the Department
Master of Arts degree with a major in biology and an emphasis in zoology. (Described in the Graduate Bulletin. Also refer to the section in this catalog on the Graduate Division.)
Major in zoology with the B.S. degree in applied arts and sciences. (Described in the section on Applied Arts and Sciences.)
Major in zoology with the A.B. degree in liberal arts and sciences. (Described in the section on Liberal Arts and Sciences.)
Minor in zoology. (Described in the section on Minors for All Degrees.)

LOWER DIVISION COURSES

8. Human Anatomy (4) I, II
Two lectures and six hours of laboratory.
Prerequisite: An introductory course in high school or college biology or zoology.
Systems of the human body and their interrelationships.

9. Human Physiology (5) II
Three lectures and six hours of laboratory.
Prerequisites: Zoology 8 or 60; Chemistry 2A-2B.
Functions of the human body: emphasis on the metabolic, circulatory, muscular, nervous, endocrine and reproductive functions. Not open for credit to students with credit for Zoology 22.

22. Principles of Human Physiology (3) I
A lecture course in the principles of human physiology with special emphasis on nerve and muscle physiology. Not open to students with credit for Zoology 9.

23. Human Physiology Laboratory (1) I
Three hours of laboratory.
Prerequisite: Zoology 22 or concurrent registration.
Laboratory work in human physiology. Not open to students with credit for
Zoology

50. **Invertebrate Zoology (4) I, II**
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2.
   Structure, function, relationships and significance of invertebrate animals as studied through a study of selected invertebrate types.

60. **Vertebrate Zoology (4) I, II**
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2.
   An introductory course in the biology of the vertebrates with emphasis on the vertebrate organism as a whole: anatomy, physiology, development and evolution.

**UPPER DIVISION COURSES**

100. **Vertebrate Embryology (4) I, II**
   Two lectures and six hours of laboratory.
   Prerequisite: Zoology 60 or 106.
   The development of vertebrates as illustrated by the frog, chick, and pig.

102. **Invertebrate Embryology (3) II**
   Two lectures and three hours of laboratory.
   Prerequisite: Zoology 50.
   Description and experimental analysis of the development of invertebrates.

106. **Comparative Anatomy of the Vertebrates (4) I, II**
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2.
   Dissection, study and comparison of organ systems of typical vertebrates.

108. **Histology (4) II**
   Two lectures and six hours of laboratory.
   Prerequisites: Biology 1 and 2. Recommended: Zoology 100.
   A study of the microscopic structures and differentiation of tissues and organs of the vertebrates, especially mammals.

112. **Marine Invertebrates (4) I, II**
   Two lectures and six hours of laboratory or field work.
   Prerequisites: Biology 1 and 2.
   Identification and study of behavior and life histories of invertebrates of the San Diego region. Frequent collecting trips to the beaches recommended.

114. **Natural History of the Vertebrates (4) I, II**
   Two lectures and six hours of laboratory.
   Prerequisite: Zoology 60 or 106.
   Natural history, distribution, and classification of vertebrate animals; emphasis on local forms.

115. **Ichthyology (4) I**
   Two lectures and six hours of laboratory.
   Prerequisite: Zoology 60 or 106.
   Evolution, interrelationships, structure, identification, habits, and ecology of fishes.

116. **Herpetology (4) I**
   Two lectures and six hours of laboratory.
   Prerequisites: Consent of instructor.
   The origins, evolution, distribution, and systematics of amphibians and reptiles of the world.

117. **Ornithology (4) I**
   One lecture and six hours of laboratory or field excursions, and a field project.
   Prerequisites: Biology 1 and 2 and consent of instructor.
   The study and identification of birds, especially those of the Pacific Coast and the San Diego region.

119-9. **Field Zoology (4) Summer**
   Two lectures and six hours of laboratory.
   Prerequisite: A course in college biological science.
   Observational methods; collecting techniques; identification, ecology, and behavior of southern California animals. Primarily for students not majoring in the Life Sciences Division.

121. **General Entomology (4) II**
   Two lectures and six hours of laboratory.
   Prerequisite: Zoology 50.
   Structure, physiology, natural history, and classification of insects.

122. **Advanced Entomology (3) I**
   Two lectures and three hours of laboratory.
   Prerequisite: Zoology 121.
   Advanced treatment of some phase of entomology such as physiology, morphology, systematics or ecology, topic to be announced in the course schedule. Maximum credit six units, not more than three of which may apply to a master's degree.

123. **Immature Insects (3) II**
   Two lectures and three hours of laboratory.
   Prerequisite: Zoology 121.
   Collection, preservation, identification, and biological study of the immature stages of the different insect orders. Course designed to meet the needs of students specializing in invertebrate zoology, agricultural and medical entomology, parasitology, and systematics.

125. **Economic Entomology (4) II**
   Two lectures and six hours of laboratory.
   Prerequisite: Zoology 50 or 50 S1.
   Course designed for students of agriculture and horticulture. Emphasis is placed on the identification and control of insects affecting plants. Quarantine measures are also studied.

126. **Medical Entomology (3) I**
   Two lectures and three hours of laboratory.
   Prerequisite: Zoology 50 or 60 or Microbiology 101.
   The role of insects and other arthropods in transmission and causation of human diseases.

128. **Parasitology (4) I, II**
   Two lectures and six hours of laboratory.
   Prerequisite: Zoology 50 or Microbiology 101.
   Study of animal parasites with special reference to those of man. Laboratory work on the life cycles and treatment of local forms.

130. **Protozoology (4) I**
   Two lectures and six hours of laboratory.
   Prerequisite: Consent of instructor.
   Morphology, physiology, ecology and systematics of the protozoa; prorozoological techniques.

140. **Physiological Zoology (4) I, II**
   Two lectures and six hours of laboratory.
   Prerequisites: Zoology 50 or 106, and Chemistry 12.
   A comparative and evolutionary study of the functions of organ systems and their environmental significance.

142. **Comparative Animal Physiology (4) I**
   Two lectures and six hours of laboratory.
   Prerequisite: Zoology 101.
   The functional and phylogenetic aspects of responses and nutrition throughout the animal kingdom.
Zoology

164. Human Genetics (4)
Two lectures and six hours of laboratory.
Prerequisites: Biology 15 and either Zoology 60 or 100 or 106.
Principles of genetics as related to human biology with consideration of the
applied fields of medical genetics, genetic counseling, and population studies. Pre-
medicals and premedical students majoring in zoology may substitute this course for
Biology 155 to satisfy the requirements for the major. Students with credit for
Zoology 165 may enroll but will receive only two additional units of credit.

165. Human Heredity (3) I, II
Prerequisite: A college course in biology.
Selected principles of human inheritance with emphasis on relationships to other
fields of human studies. Not open to students with credit in Biology 155 or
Zoology 164.

166. Honors Course (Credit to be arranged) I, II
Refer to the Honors Program.

198. Methods of Investigation (2) I, II
One discussion and three additional hours to be arranged.
Prerequisite: Consent of instructor.
Selection and design of individual research in zoology; oral and written reports.
Four units maximum credit for Zoology 198 or a combination of Zoology 198 and
Biology 198.

199. Special Study (1-6) I, II
Individual study. Six units maximum credit.
Prerequisites: 15 units in zoology with a grade of A or B and consent of in-
structor.

GRADUATE COURSES

200. Seminar (2 or 3)
An intensive study in advanced zoology, topic to be announced in the class
schedule. Maximum credit six units applicable on a master's degree.

298. Special Study (1-6)
Individual study. Six units maximum credit.
Prerequisite: Consent of staff, to be arranged with department chairman and
instructor.

299. Thesis (3)
Prerequisites: An officially appointed thesis committee and advancement to
candidacy.
Guidance in the preparation of a project or thesis for the master's degree.

* On leave, year 1965-66
† On leave, spring 1965-66
HOBBES, JOHN A. (1964). Assistant Professor of Political Science
A.B., M.A., University of Illinois; Ph.D., Princeton University.

HODGE, CLIFFON I. (1964). Professor of Management
B.S., Kansas State Teachers College; M.S., University of Denver; Ph.D., Louisiana State University.

HOGG, HERBER L. (1956). Assistant Professor of Midwestern University
B.S.Ed., B.S.Mus., Kansas State Teachers College; M.A., M.F.A., Ph.D., State University of Iowa.

HOLMES, CALVIN V. (1956). Professor of Mathematics
B.A., M.A., University of Mississippi: M.S., University of Illinois; Ph.D., University of Kansas.

HOWACH, FRANK S. (1960). Assistant Professor of Journalism
B.S., Elko High School; B.A., Teachers College, Pennsylvania; M.A., State University of Iowa.

HOLT, HOWARD B. (1961). Associate Professor of Education
B.A., Southwestern State College; D.Ed., University of Oregon.

HOOVER, GRACE V. (1956). Assistant Services Librarian
B.A., University of Nebraska; B.S. in L.S., University of Denver.

HUBBETT, LAWRENCE B. (1955). Assistant Professor of Law
B.A., California College of Arts and Crafts; M.F.A., Claremont Graduate School.

HOUSEMAN, RICHARD A. (1948). Professor of Education

HOWARD, FRANCIS J. (1963). Assistant Professor of Physical Science
B.A., University of California, Los Angeles; M.S., Ph.D., University of California, La Jolla.

HOWARD, ROY J. (1963). Assistant Professor of Philosophy
B.A., Lic. Phil., Woodstock College, Maryland; Ph.D., Loyola University, Belgium.

HUDSPETH, WILLIAM L. (1965). Assistant Professor of Psychology
B.A., M.A., San Jose State College; doctoral candidate, Claremont Graduate School.

HUFFER, CHARLES M. (1961). Professor of Psychology
B.A., Albion College; A.M., University of Illinois; Ph.D., University of Wisconsin.

HUFFMAN, EDWARD W. (1955). Professor of Zoology
B.S., State University of Iowa; Ph.D., Ohio State University.

HUIS, HARRY E. (1961). Professor of Education
B.S., State University Teachers College; M.A., Ph.D., University of Minnesota.

HUNTON, MAHINDRA S. (1964). Assistant Professor of Engineering
B.E., Osmania University, India; M.S.M.E., Ph.D., University of Minnesota.

HUNSECKERS, WILLIAM A. (1957). Associate Professor of Psychology
B.S., M.A., Ph.D., Stanford University.

HUNSAKER, DON, H. (1960). Assistant Professor of Zoology
B.S., M.A., Texas Technological College; Ph.D., University of Texas.

HUNTER, RITA V. (Mrs. C.) (1965). Assistant Professor of Nursing
R.N., St. Elizabeth's Hospital, Youngstown, Ohio; B.S., New York University; M.S. candidate, University of California, Los Angeles.

HUNTER, JAMES J. (1946). Professor of Education
B.A., Cornell University; M.S., Ph.D., Syracuse University.

HUNTER, LAWRENCE R. (1963). Assistant Professor of the History
B.A., San Diego State College; M.A., University of California, Los Angeles.

HURD, LYMAN C. III (1958). Associate Professor of Music
B.A., M.A., Ph.D., Stanford University.

IKEDA, HITOSHI (1960). Associate Professor of Education
B.A., University of Hawaii; M.A., Iowa State Teachers College; Ed.D., University of New Mexico.

INSKEEP, JAMES E., JR. (1960). Assistant Professor of Education
B.S., Navel Academy; M.A., San Diego State College; Ph.D., University of Minnesota.

IRGANG, FRANK J. (1956). Professor of Industrial Arts
B.S., Central Michigan College; M.A., Ph.D., University of Michigan.

JENNINGS, ROBERT C. (1964). Professor of Chemistry
B.S., Reed College; M.A., Ph.D., Oregon State College.

JASAWA, CHIZUKO (1965). Assistant Professor of Psychology
B.A., University of Tokyo; M.A., Ph.D., Stanford University.

JAMESON, DAVID L. (1957). Professor of Radiology
B.S., Shemen Methodist University; M.A., Ph.D., University of Texas.

JAMESON, K. CHARLES (1965). Assistant Professor of Speech Art
B.A., M.A., University of Michigan.

JACKSON, J. HENRY L. (1957). Professor of Political Science
B.A., M.A., University of California; B.A., Ph.D., University of California.

JENRICKS, CLINTON F. (1964). Associate Professor of Economics
B.S., University of Colorado; M.A., Ph.D., University of California.

* On leave, fall 1965-66.

MERZBACHER, CLAIDA FELL (1947) Professor of Physical Science |
B.S., University of Pennsylvania; M.A., Claremont Graduate School; Ed.D., University of California at Los Angeles. Certif. d'études françaises. Licensed Professional Chemical Engineer. |
MESSIER, LIONEL F. (1953) Assistant Professor of French |
A.B., San Diego State College; M.A., Ph.D., University of California. Officier d'Académie. |
MILETZER, ALEXANDER C. (1963) Assistant Professor of Physics |
B.A., Corpus Christi College, Oxford University; M.S., Ph.D., Cornell University. |
MILEY, STAN J. (1965) Instructor in Engineering |
B.S., M.A. candidate, San Diego State College. |
MILLER, ALAN W. (1963) Assistant Professor of Art |
B.A., M.A. and additional graduate study, University of California, Los Angeles. |
MILLER, PHILIP (1964) Assistant Professor of Biology |
B.A., Oberlin College; M.S., Iowa State University; Ph.D., University of Colorado. |
MILLER, RALPH L. (1963) Assistant Professor of Education |
B.A., Houghton College; New York; B.D., Th.M., Princeton Theological Seminary; Ph.D., Michigan State University. |
MILLS, JACK (1963) Professor of Speech Arts |
A.B., M.A., University of Florida; Ph.D., University of Illinois. |
MILNE, DAVID S. (1946) Chairman, Division of Social Sciences; Professor of Sociology |
A.B., University of California at Los Angeles; M.A., University of Southern California; Ph.D., University of Chicago. |
MICHIE, ALAN S. (1956) Loan Officer |
A.B., San Diego State College. |
MITCHELL, ARTHUR I. (1963) Assistant Professor of Education |
A.B., Nebraska State Teachers College; M.A., University of Denver; Ed.D., Colorado State College. |
MITCHELL, CHARLES E. (1963) Assistant Professor of English |
B.A., University of Cincinnati; M.A., Ph.D., University of Washington. |
MOCHEL, DANLEE G. (1964) Assistant Professor of Music |
B.S., M.S., University of Illinois. |
MOCHEL, HENRY C. (1965) Assistant Professor of Physics |
A.B., Stanford University; Ph.D., University of Southern California. Registered Electrical Engineer. |
MONTEVERDE, JOHN P. (1954) Associate Professor of English |
B.A., M.A., Ph.D., University of California at Los Angeles. |
MOON, CHARLES J. (1957) Assistant Professor of Philosophy |
B.S., M.D., University of Arkansas. |
MOORE, HAROLD B. (1960) Associate Professor of Microbiology |
A.B., San Diego State College; M.A., University of California at Los Angeles. |
MOORE, PATRICIA J. (1964) Assistant Director, University of California at Los Angeles. |
MOORE, WILLIAM G. (1964) Assistant Professor of Social Sciences |
B.A. and graduate study, San Diego State College. |
MORGAN, CHARLES (1949) M.E., Stevens Institute of Technology; M.S., University of California. Registered Professional Mechanical Engineer. |
MORRIS, RICHARD H. (1957) Associate Professor of Physics |
B.A., Ph.D., University of California. |
MOSER, JOSEPH M. (1959) Associate Professor of Mathematics |
B.A., St. John's University; M.A., Ph.D., St. Louis University. |
MOSS, DOROTHY Y. (1958) Assistant Professor of Nursing |
B.S., P.H.N., M.S., University of California at Los Angeles. |
MOUROTIDES, NICOS R. (1963) Assistant Professor of Mathematics |
B.A., Cornell College; M.A., Ph.D., University of Minnesota. |
MRACK, JAROSLAV J. S. (1965) Assistant Professor of Music |
B.A., University of Toronto; M.A., Ph.D., Indiana University. |
MURDOCK, ROBERT L. (1964) Assistant Professor of History |
A.B., M.A., University of Washington; Ph.D., University of Cambridge. |
MURDOCK, DONALD (Mr. G.) (1960) Assistant Professor of History |
B.S., University of Redlands; B.S. in L.S., University of Illinois. |
MURPHY, MARGARET COLVIN (Mrs. U.) (1955) Professor of Physical Education |
B.A., University of California; M.S., Ed.D., University of Oregon. |
MURPHY, MELVIN L. (1962) Professor of Physical Education |
A.B., Washburn College; M.A., University of Denver. |
MURPHY, ROBERT J. (1964) Assistant Professor of Social Work |
B.A., M.E., M.S., University of Denver School of Social Work. |
MYERS, MABEL A. (1946) Assistant Professor of Engineering |
A.B., M.A., Pomona College; Ph.D., Cornell University. |
MYERS, ROBERT T. (1964) Assistant Professor of Microbiology |
* On leave, spring 1965-66. |
* On leave, fall 1965-66. |

14-63134
NARDIELLI, ROBERT R. (1953) Professor of Education
B.A., M.A., Arizona State College; Ph.D., University of California.

NAGATI, ABRAHAM PHINEAS (1928) Professor of Religion
B.A., M.A., Ph.D., University of California.

NEEL, JAMES W. (1955) Assistant Professor of Latin
B.A., University of California; Ph.D., University of California, Los Angeles.

*NEELSEN, BURT (1957) Associate Professor of Physical Science
B.S., M.S., University of Wisconsin; Ph.D., University of Wisconsin, Madison.

NELSON, HELDA (Mrs. R.) (1965) Lecturer in Foreign Languages
M.A., Ph.D. candidate, University of Wisconsin.

NELSON, SHERWOOD M. (1956) Professor of Philosophy
B.A., Ph.D. candidate, University of California; M.A., Ph.D., University of California.

NEUHER, EDWARD J. (1957) Associate Professor of Economics
M.A., Brooklyn College; A.M., University of Wisconsin; Ph.D., Columbia University.

NEUNER, RICHARD C. (1954) Assistant Professor of Music
B.A., M.A., Ph.D., University of California; D.D., State University of Leiden; Library Diplomate, Netherlands Institute for Documentation and Registration.

NICHOLS, ALAN G. (1964) Assistant Professor of Speech
B.S., Bowling Green State University; M.A., Ph.D., Ohio State University.

NICHOLS, PAUL E. (1965) Assistant Professor of Psychology
B.A., M.A., Ph.D., Duke University.

NICHOLSON, CLAIR M. (1964) Assistant Professor of Education

*NIGRO, FELIX A. (1961) Professor of Political Science
B.A., M.A., Ph.D., University of Wisconsin.

NIELSEN, MARGOT S. (1964) Assistant Professor of English
A.B., and graduate study, San Diego State College.

NOORANY, IBRAHIM (1963) Assistant Professor of Engineering
B.S.C.E., University of Tehran; M.S.C.E., Ph.D., University of California.

NORDQUIST, BARBARA E. (Mrs. M. H.) (1960) Assistant Professor of Home Economics
B.S., Oregon State University; M.S., Cornell University.

NORRIS, ALBERT E. (1964) Assistant Professor of Economics
B.A., M.A., Stanford College; M.S., Stanford University; Ph.D., University of California.

NORMAN, NELSON F. (1960) Associate Professor of Philosophy
B.A., M.A., Stanford University; M.A., Harvard University; M.A., Fresno State College; Ph.D., University of Illinois.

NORTHWOOD, FRANK W. (1957) Associate Professor of Speech
B.A., M.A., Northwestern College; additional graduate study at University of Missouri and the University of Chicago.

NOWAK, LEON (1963) Assistant Professor of Mathematics
B.S., City College of New York; M.S., Ph.D., Stanford University.

NOWLIN, OWEN E. (1957) Physician and Surgeon
B.S., University of Illinois; M.D., University of Illinois College of Medicine.

NYE, NEVA E. (1953) Assistant Professor of Nursing
B.A., University of Michigan; M.Litt., University of Pittsburgh.

NYE, WILLIAM M. (1964) Associate Professor of Business and Finance
B.S., Ph.D. University of Pennsylvania.

OBERHIN, ALBERT C. (1965) Assistant Professor of History
B.A., Providence College; A.M.T., Harvard University; Ph.D., University of Notre Dame.

ODIM, ERNEST B. (1954) Vice President for Administration
B.A., A.M., Colorado State College of Education; Ph.D., Stanford University.

ODING, EUGENE M. (1957) Assistant Professor of Speech
B.S., M.A., San Diego State College; Ed.D., University of California at Los Angeles.

ODENHALL, ERIC R. (1964) Assistant Professor of Journalism
B.A., University of New Mexico; M.A., State University of Iowa; additional graduate study, University of California at Los Angeles.

ODMARK, VERN E. (1952) Professor of Accountancy
B.S., St. Cloud State Teachers College; M.A., University of Minnesota; Ph.D., University of Wisconsin; Public Accountant.

OLSEN, ALBERT W. (1957) Director of Athletics; Associate Professor of Physical Education
B.A., M.A., San Diego State College; additional graduate study at University of California at Los Angeles and University of Oregon.

WOLFE, GERALD F. (1953). Assistant Professor of History. B.S., M.S., University of California, Berkeley; Ph.D., American University.

WOOD, KENNETH F. (1953). Assistant Professor of Chemistry. B.S., Ball State Teachers College; M.A., University of Maryland; Ph.D., American University.

WOODSON, JOHN H. (1963). Assistant Professor of Marketing. A.B., Western State Teachers College; M.A., Northwestern University.

WRIGHT, LEONARD D. (1964). Assistant Professor of Geography. A.B., A.M., Indiana University; Ph.D., University of Illinois.

YABE, CHARLES C. (1955). Professor of Economics. B.A., B.S., University of California; M.A., Ph.D., University of Southern California.

YAMAMOTO, KOZO (1955). Assistant Professor of Economics. B.A., University of Washington; M.A., Ph.D., University of Chicago.

YAMAMOTO, KAZUO (1962). Associate Professor of Economics. B.A., M.A., University of California, Los Angeles; Ph.D., New Bureau Coordinator.

YANKIN, JAMES E. (1962). Professor of Education. B.A., University of Southern California; M.A., Teachers College, Columbia University; Ph.D., Stanford University.

YARBOROUGH, JOHN H. (1957). Assistant Professor of Education. B.S., M.A., Washington University; B.S., M.A., Teachers College, Columbia University; Ph.D., Stanford University.

LECTURERS

* On leave, year 1965-66.
ANDRESEN, GRACE E. (Mrs.) (1964) Lecturer in Social Work
M.S.W., Tulane University, Department of Mental Hygiene.

ASHWORTH, PHILLIP B. (1963) Lecturer in Administration
M.Sc., University of Southern California.

ATKINSON, THOMAS G. (1965) Lecturer in Social Work
B.S., California Institute of Technology. Whitman, Atkinson, and Associates.

BARLOEY, ELOIS (1965) Lecturer in Social Work
M.A., Simmons School of Social Work, Boston. Veterans Administration Hospital, Long Beach.

BARRONS, JOHN C. (1962) Lecturer in Business Education

BARTLETT, GRANT R. (1965) Lecturer in Chemistry
Ph.D., University of Chicago. Laboratory for Comparative Biochemistry.

BEASLEY, JOHN M. (1964) Lecturer in Home Economics
M.A., San Diego State College.

BENHREN, ANNO J. (Mrs. C.) (1963) Lecturer in Economics
A.M., University of Michigan.

BERLIN, LOIS J. (Mrs. E. D.) (1965) Lecturer in Home Economics
B.S., Oregon State College.

BLAZIS, KEITH G. (1965) Lecturer in Education
B.S., Columbia University, General Dynamics/Astronautics.

BOGG, WILMA T. (Mrs. M. H.) (1965) Lecturer in Home Economics
B.S., Kansas State University.

BOOTH, MARY W. (Mrs. G.) (1962) Lecturer in Sociology
M.A., University of Chicago.

BOOTH, JOHN L. (1964) Lecturer in Engineering
M.D., Western Reserve University.

BROWN, CURTIS M. (1964) Lecturer in Engineering
B.S., University of California. Daniels, Brown, and Hall.

BROWN, EDMUND (1965) Lecturer in Social Work
M.A., Ohio State University, Community Welfare Council.

BUTZ, FRANK, (1885) Lecturer in Education
M.A., Stanford University. San Diego City Schools.

CARRON, RONNEY M. (1965) Lecturer in Law
M.S., University of Denver. Hoover High School.

CASTENS, WILLIAM W. (1963) Lecturer in Business Law and Finance
L.L.B., University of Southern California, School of Law.

CARTER, KENNETH (Mrs. J. G.) (1965) Lecturer in Nursing
M.S., University of California, Los Angeles.

CHAMBERLIN, EUGENE K. (1965) Lecturer in History
Ph.D., University of California. University of California Extension.

CLARY, VIRGINIA L. (1965) Lecturer in Social Work
M.S.W., University of Chicago. San Diego Children's Home Association.

COBLE, JAMES C. (1965) Lecturer in Social Work
M.S.W., University of Southern California. Veterans Administration, San Diego.

COULTEE, NOEL J. (1967) Lecturer in French
B.A., Assumption College, Massachusetts.

COWELL, JOSEPH F. (1965) Lecturer in Physics
Ph.D., Cornell University, General Atomic/General Dynamics.

COYNE, JOHN M. (1965) Lecturer in Education
Ph.D., Stanford University.

CROUCH, J. PAGE (1964) Lecturer in Industrial Arts
A.B., San Diego State College.

CROWELL, MARIE L. (Mrs. R. M.) (1964) Lecturer in Spanish

DE JUILLI, LORENZ F. (1949) Lecturer in Marketing

DEFEW, LEONARD W. (1965) Lecturer in Social Work
M.S.W., University of Washington. Episcopal Community Service Association.

DICKINSON, STELLA C. (Mrs. H. F.) (1965) Lecturer in English
M.A., San Diego State College.

DOUGLASS, RALPH L. (1944) Lecturer in Social Work
M.S.W., Adelphi University, New York. San Diego Jewish Community Center.

FACULTY

BIDWELL, LYNNE A. (Mrs. D. E.) (1965)  Assistant in Chemistry
B.S., San Diego State College.

BIEN, FRITZ (1965)  Assistant in Engineering
B.S., University of California.

BLACK, ROBERT L., JR. (1965)  Assistant in Accounting
A.B., San Diego State College.

BLACK, THOMAS A. (1965)  Assistant in Mathematics
B.S., West Chester State College, Pennsylvania.

BLANDFORD, CHARLES M. (1965)  Assistant in Economics
B.S., University of Oregon.

BORNHORST, WILLIAM R. (1965)  Assistant in Chemistry
B.S., University of California, Davis.

BOSWELL, THOMAS, DONALD D. (1964)  Assistant in Geology
A.B., San Diego State College.

BRAY, FRANCES D. (Mrs.) (1965)  Assistant in Chemical Engineering
A.B., San Diego State College.

BROWN, HENRY C. (1965)  Assistant in Chemistry
B.S., Southern University, New Orleans.

BRUN, THOMAS (1964)  Assistant in Physical Education
Ohio State University.

BURDEN, SUSAN E. (Mrs. W. D.) (1965)  Assistant in Biology
B.A., San Diego State College.

BURKETT, LEE N. (1965)  Assistant in Physical Education
B.A., San Diego State College.

BURRAGE, BRYAN B. (1964)  Assistant in Zoology
B.A., San Diego State College.

BUTLER, J. EDWARD (1964)  Assistant in Chemistry
B.A., San Diego State College.

CAMPBELL, FRANK T., II (1964)  Assistant in Physics
B.S., Fresno State College.

CARRIVEAU, GARY W. (1965)  Assistant in Physics
B.S., San Diego State College.

CATON, KENNETH L. (1965)  Assistant in Music
B.M., Lewis and Clark College, Portland, Oregon.

CHABRE, JOHN S., JR. (1965)  Assistant in Economics
A.B., San Diego State College.

CHANG, ORSON Y. (1965)  Assistant in English
B.S., University of California, Riverside.

CHEDO, RODGER A. (1965)  Assistant in Business Administration
B.S., San Diego State College.

CHENELLE, GERTRUDE W. (Mrs. F.) (1962)  Assistant in Anthropology
A.B., San Diego State College.

CHRISLER, EARL (1965)  Assistant in Management
B.S., San Diego State College.

CIGNON, FRANCIS D. (1965)  Assistant in Health Education
B.A., Chapman College.

COOK, MICHAEL A. (1965)  Assistant in English
B.B., San Diego State College.

COUCH, JOHN H. (1964)  Assistant in English
A.B., University of California, Los Angeles.

COVER, MARI-ANNE (Mrs. F. W.) (1965)  Assistant in Music
A.B., San Diego State College.

COX, BRUCE M. (1965)  Assistant in General Science
B.A., San Diego State College.

COX, JEANNE E. (1965)  Assistant in Chemistry
A.B., San Diego State College.

CRABTREE, PHILIP N. (1965)  Assistant in Chemistry
A.B., San Diego State College.

CROW, THOMAS R. (1964)  Assistant in Spanish
A.B., San Diego State College.

CROWELL, JANICE L. (1964)  Assistant in Mathematics
A.B., San Diego State College.

CURTIS, CHARLES C. (1965)  Assistant in Mathematics
B.S., San Diego State College.

CUSENZA, MARIANNI S. (1965)  Assistant in Spanish
B.A., University of San Diego College for Women.

D’AMICO, JOSEPH P. (1965)  Assistant in English
A.B., San Diego State College.

DAYS, GRETCHEN G. (Mrs. J. E. P.) (1965)  Assistant in Mathematics
B.A., University of California, Los Angeles.

DAYS, JAYNE (1965)  Assistant in Management
A.B., San Diego State College.

DAWSON, LYLE E. (Mrs. W.) (1964)  Assistant in Astronomy
A.B., San Diego State College.

DENT, ROGER W. (1965)  Assistant in Physics
A.B., University of California, Los Angeles.

DICKINSON, RICHARD A. (1965)  Assistant in Chemistry
B.A., University of Oregon.

DOMENY, LAURENCE J. (1965)  Assistant in Geography
A.B., San Diego State College.

DUFFY, CAROLE J. (Mrs. J.) (1963)  Assistant in Chemistry
A.B., University of California, Riverside.

DUTTON, MELVYN L. (1965)  Assistant in Physics
B.S., University of California, Riverside.

DUTCH, MARY F. (1965)  Assistant in Biology
B.A., San Diego State College.

ERICKSON, JOHN R. (1964)  Assistant in Physics
A.B., San Diego State College.

ERICKSON, ROBERT A. (1965)  Assistant in Physics
B.S., University of Redlands.

EVANS, FRANK E. (1965)  Assistant in Physics
A.B., San Diego State College.

EVANS, RICKY L. (1965)  Assistant in Physics
B.S., San Diego State College.

EVANS, STEVEN J. (1964)  Assistant in Physics
B.A., San Diego State College.

EYRE, J. IRVING (1965)  Assistant in Physics
A.B., University of California, Riverside.

FARR, DONALD L. (1964)  Assistant in Physics
B.S., San Diego State College.

FARWELL, CHARLES J. (1964)  Assistant in Biology
B.S., San Diego State College.

FARWELL, JUDITH J. (Mrs. G. J.) (1964)  Assistant in Biology
B.S., San Diego State College.

FASOLA, GIULIANA G. (1965)  Assistant in Physics
A.B., San Diego State College.

FENTON, THOMAS G. (1965)  Assistant in Music
B.S., University of California, Riverside.

FERRANTE, SALVATORE J. (1964)  Assistant in Geology
A.B., San Diego State College.

FIRE, DONALD L. (1964)  Assistant in Chemistry
B.S., San Diego State College.

FITZGERALD, ROSS (1965)  Assistant in Chemistry
B.S., Fresno State College.

FOURIE, ERIC J. (1965)  Assistant in Chemistry
B.S., San Diego State College.

FOUGARTY, CATHERINE E. (1965)  Assistant in Industrial Arts
A.B., San Diego State College.

FUKAMI, RAYMOND H. (1964)  Assistant in Mathematics
A.B., San Diego State College.

FUKUDA, MELVIN H. (1965)  Assistant in Spanish
B.S., Church College of Hawaii.

GARRISON, JUDITH A. (1964)  Assistant in Physics
A.B., San Diego State College.

GAYING, JOHN H. (1965)  Assistant in Physics
B.S., University of Wisconsin.

GIBBS, DAVID A. (1965)  Assistant in Business Education
B.S., Florida State College.

GIBBON, ROSEMARY P. (Mrs. E. D.) (1965)  Assistant in Music
B.S., George Institute of Technology.

GLAZEBROOK, WILLIAM D. (1964)  Assistant in Physics
A.B., San Diego State College.

GOLDSHILLER, JAMES E. (1965)  Assistant in English
A.B., San Diego State College.
Faculty

GOLINO, CARLO M. (1965) Assistant in Chemistry
B.A., University of California, Los Angeles.

GRAFA, JULIAN B. (1965) Assistant in Physics
B.S., Oklahoma A and M College, Stillwater.

GRAHAM, JEFFREY B. (1965) Assistant in Biology and Zoology
A.B., San Diego State College.

GRIEBEL, RAYMOND L. (1965) Assistant in Business Education
B.S., San Diego State College.

GRIFFITTS, JOHN A. (1965) Assistant in Chemistry
A.B., San Diego State College.

GROSCWITZ, EDWIN A. (1965) Assistant in Chemistry
A.B., San Diego State College.

GROSCWITZ, JULIUS F., JR. (1965) Assistant in Physical Sciences
A.B., San Diego State College.

HABERKAMP, BRUCE W. (1965) Assistant in Political Science
B.Us., University of California, Los Angeles.

HALVORSON, ALAN J. (1965) Assistant in Economics
B.S., University of Minnesota.

HANSON, RICHARD B. (1965) Assistant in Political Science
A.B., San Diego State College.

HANSEN, CARL P. (1966) Assistant in Social Science
A.B., San Diego State College.

HARRIS, EDWARD D., JR. (1965) Assistant in Engineering
B.E.E., Polytechnic Institute of Brooklyn, New York.

HODAPP, KATHLEEN L. (1965) Assistant in Business Education
B.S., San Diego State College.

HODGE, VERNON F. (1964) Assistant in Chemistry
A.B., San Diego State College.

HOFER, MARIE C. (1965) Assistant in Biology
A.B., San Diego State College.

HOLT, GEOFFREY A. (1965) Assistant in Economics
A.B., San Diego State College.

HOOVER, THOMAS B. (1964) Assistant in Mathematics
B.S., University of California, Santa Barbara.

HODGDON, THOMAS A. (Mrs. T.) (1965) Assistant in Political Science
M.A., Texas Christian University.

HOGAN, NORMAN M. (1965) Assistant in Social Science
A.B., University of California, Santa Barbara.

HUGHES, EDWARD M. (1965) Assistant in Social Science
A.B., San Diego State College.

HUNSAKER, PHILLIP L. (1965) Assistant in Business Management
B.S., San Diego State College.

HUNTER, TERRY O. (1965) Assistant in Chemistry
A.B., San Diego State College.

HUNTSMA, WILLIAM W. (1965) Assistant in Liberal Arts
B.S., San Diego State College.

JACQUES, MARY S. (Mrs. P. D.) (1965) Assistant in Speech Arts
A.B., San Diego State College.

JAMES, OPAI IRONE (Mrs. J.) (1964) Assistant in English
A.B., San Diego State College.

JOHNSON, GEORGE C. (1965) Assistant in Physics
A.B., Ohio State University.

JOHNSON, JOHN C. (1964) Assistant in Speech Arts
B.A., University of South Dakota.

JURICH, SILVA (Mrs. L.) (1965) Assistant in Biology
A.B., San Diego State College.

KELLOGG, EVELYN J. (Mrs. R.) (1964) Assistant in Biology
B.S., Fenn College, Ohio.

KELLY, BARBARA H. (Mrs. E.) (1964) Assistant in Mathematics
A.B., University of California.

KITCHIN, THOMAS J. (1965) Assistant in English
A.B., San Diego State College.

KLEIN, GEORGE J. (1965) Assistant in English
A.B., San Diego State College.

KONINGSOR, ROBERT L., JR. (1964) Assistant in Biology
B.S., University of Arizona.

KOSKINEN, JAMES B. (1965) Assistant in Chemistry
B.A., University of California, Riverside.

LAFERTY, FLOYD L. (1964) Assistant in English
B.S., University of California, Davis.

LAMATTER, JERRY J. (1965) Assistant in Chemistry
A.B., San Diego State College.

LANGHORN, CARL W. (1964) Assistant in English
A.B., San Diego State College.

LANGHORNE, MARY E. (Mrs. W. T.) (1965) Assistant in Industrial Arts
B.A., University of Southern California.

LANGWORTHY, JOHN R. (1965) Assistant in English
A.B., San Diego State College.

LEA, REBECCA J. (1964) Assistant in Chemistry
A.B., San Diego State College.

LEE, RICHARD P. (1964) Assistant in Austin
A.B., San Diego State College.

LEON, EDWARD L. JR. (1965) Assistant in Mathematics
A.B., San Diego State College.

LEONE, LAWRENCE (1964) Assistant in Chemistry
A.B., San Diego State College.

LIN, SIHAN (1965) Assistant in Speech Arts
B.S., University of California, Davis.

LOWBRY, CATHLEEN A. (Mrs. L. T.) (1965) Assistant in Chemistry
A.B., San Diego State College.

LUBIN, THOMAS H. (1964) Assistant in Biophysics
B.S., California State Polytechnic College.

LYERLA, TIMOTHY A. (1965) Assistant in Chemistry
B.S., University of California, Davis.

MABEY, WILLIAM B. (1965) Assistant in Chemistry
B.A., University of California, Riverside.

MARTINEZ, RICHARD L. (1965) Assistant in Biology
B.S., McGill University, Montreal.

MARTIN, BARRY N. (1965) Assistant in Chemistry
A.B., San Diego State College.

MAURER, JUDITH A. (1965) Assistant in Biology
B.S., California State Polytechnic College.

MAXSON, LINDA E. (Mrs. R. D.) (1965) Assistant in English
A.B., San Diego State College.

MAY, WALTER T. (1964) Assistant in Geology
B.A., Texas Christian University.

MAYTUM, JAMES R. (1965) Assistant in Psychology
B.A., Fresno State College.

MCCAMBY, RUBY L. (Mrs. E. J.) (1963) Assistant in Physical Education
A.B., San Diego State College.

MCCARTHY, HEDEY (Mrs. S. L.) (1965) Assistant in Sociology
A.B., University of California.

MCDONALD, JAMES N. (1965) Assistant in Geology
A.B., San Diego State College.

MCDOUGALL, DAVID C. (1965) Assistant in Sociology
B.S., San Diego State College.

MCGLATHY, MONTY N. (1965) Assistant in English
B.A., University of Colorado.

MCGILL, RICHARD K. (1965) Assistant in Mathematics
A.B., San Diego State College.

MCLENNAN, MARILYN L. (1964) Assistant in Physical Education
B.S., Oregon State University.

McCULLEN, CAROLYN J. (Mrs. E. J.) (1965) Assistant in Chemistry
B.A., University of Saskatchewan, Canada.

MEYER, TERENCE E. (1965) Assistant in Geology
A.B., Idaho State College.

MICHURIN, JOHN A. (1964) Assistant in Physics
A.B., San Diego State College.

MISHA, MICHAEL A. (1965) Assistant in Chemistry
A.B., San Diego State College.

MORRISON, JOHN A. (1964) Assistant in French
B.S., University of Washington.

MOSSLE, NINA W. (Mrs. C. E.) (1965) Assistant in English
A.B., University of Edinburgh, Scotland.

DIVISION OF AEROSPACE STUDIES

WAID, CHARLES L., Lt. Colonel (1963)  Professor of Aerospace Studies
HANSEN, WYNN D., Captain (1963)  Chairman, Division of Aerospace Studies
SMITH, GARY S., Captain (1965)  Assistant Professor of Aerospace Studies
WILLIAMS, RICHARD M., Tech. Sgt. (1963)  Assistant Professor of Aerospace Studies
ABERNATHY, JOHN J., Sgt. (1964)  Supply Sergeant

EMERITUS FACULTY
WALTER R. HEPNER, Ed.D., President  1935-1952
GEORGIA C. AMSDEN, Associate Professor of Business Education  1935-1957
JULIA C. ANDREWS, M.A., Associate Professor of Art  1947-1957
KENNETH E. BARNHART, Ph.D., Professor of Sociology  1949-1961
DEAN BLAKE, Lecturer in Meteorology  1954-1959
LESLIE P. BROWN, Ph.D., Professor of Spanish and French  1924-1963
ROY T. CAMERON, Ph.D., Professor of Economics  1949-1958
NORITA N. COMIN, M.A., Associate Professor of Home Economics  1934-1950
KATHERINE E. CORBETT, M.A., Associate Professor of Education  1917-1952
FLORENCE S. DICKHAUPT, M.A., Professor of English  1952-1964
ARTHUR T. EMERSON, B.S., Assistant Professor of Mathematics  1951-1963
WALTER B. FORD, B.E., Assistant Professor of Industrial Arts  1916-1956
LULA E. GERMANN, B.S., Supervising Librarian  1924-1958
EDITH C. HAMMACK, B.A., Associate Professor of Education  1916-1958
ISABELLA S. HAMMACK, M.A., Associate Professor of Education  1934-1957
DOUGLAS R. HARVEY, M.A., Assistant Professor of Botany  1931-1941
JEROME K. HAYNES, B.S., Supervising Librarian  1930-1961
EVERTT GEE JACKSON, M.A., Professor of Art  1921-1936
MYRTLE E. JOHNSON, Ph.D., Professor of Biology  1924-1963
JOSEPH S. KEENEY, Ph.D., Professor of English  1922-1943
MARY MENDENHALL, Ph.D., Professor of Philosophy  1928-1943
VINNIE C. MOLITOR, A.B., Associate Professor of Geography  1916-1943
WALTER T. PHILLIPS, Ph.D., Professor of Spanish  1936-1958
FREDERICK L. RYAN, Ph.D., Professor of Economics  1944-1956
MARION I. SCHWAB, M.S., Associate Professor of Physical Education  1938-1958
FLORENCE S. SHANNON, M.S., Associate Professor of Physical Education  1936-1956
LEILA D. SMITH, M.A., Professor of Music  1947-1963
RUTH A. TALBOT, M.A., Associate Professor of Home Economics  1947-1965
JOHN A. TERRIHS, M.S., Assistant Professor of Physics  1916-1958
MABEL C. TAYLOR, Ph.D., Professor of English  1931-1951
HILDE K. WALKER, M.A., Assistant Professor of German  1946-1964
ALFRED E. WHITE, Ed.D., Assistant to Dean of the College, Professor of Education  1923-1965
WILLIAM H. WRIGHT, Ph.D., Professor of Accounting  1924-1961

MEDICAL STAFF
ROBERTSON, FRANK O., M.D.  Physician
KRATIS, ALBERT R., M.D.  Physician
ILLION, JOHN J., M.D.  Physician
MOON, CHARLES R., M.D.  Physician
NOWLIN, OWEN W., M.D.  Physician
RAY, ROBERT C., M.D.  Physician
VANCE, ROBERT W., M.D.  Physician
