- USB Thumb Drive

RELATION TO CURRICULUM
- Level – First Semester
- Prerequisites - None
- Credits - 2 Semester Hours

STUDENT LEARNING OUTCOMES
- Develop basic to intermediate parametric, solid modeling design skills using Creo Parametric 3.0 and SolidWorks 2016-2017 Software
- Develop basic to intermediate understanding of engineering documentation including sketching, orthographic views, linetypes, dimensioning, thread notation, basic dimensional and general tolerancing using CREO and SolidWorks Software as per ASME Y14.5M-2009 standards
- Discuss the need to keep up with current versions of CAD software and to be able to learn new software quickly throughout your entire career

ACREREDITATION (ABET) PROGRAM OUTCOMES
5. an ability to identify, formulate, and solve engineering problems
7. an ability to communicate effectively
9. a recognition of the need for an ability to engage in life-long learning
11. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

**SYLLABUS STATEMENT for Students with Disabilities**

For Students with Disabilities

If you are a student with a disability and believe you will need accommodations for this class, it is your responsibility to contact Student Disability Services at (619) 594-6473. To avoid any delay in the receipt of your accommodations, you should contact Student Disability Services as soon as possible. Please note that accommodations are not retroactive, and that I cannot provide accommodations based upon disability until I have received an accommodation letter from Student Disability Services. Your cooperation is appreciated.
